All Course Descriptions

The inventory of courses offered by UIC is constantly changing. The information below lists courses approved in this subject area effective Fall 2016. Not all courses will necessarily be offered in a given term. Please consult the Schedule of Classes (https://ossswebsc.admin.illinois.edu/PORTAL_UIC/classsch.html) for a listing of courses offered for a specific term. Because the updates are term-specific, the information in these files reflect the status of courses for the term indicated. The information about a course that is listed in the Schedule of Classes (https://ossswebsc.admin.illinois.edu/PORTAL_UIC/classsch.html) for a specific term is considered most accurate.

In some courses, enrollment is restricted or priority is given to students whose college or curriculum requires that course. Please see the Schedule of Classes (https://ossswebsc.admin.illinois.edu/PORTAL_UIC/classsch.html) for more information.

This listing is for informational purposes only and does not constitute a contract. Every attempt is made to provide the most current and correct information. Courses listed here are subject to change without advance notice. Courses are not necessarily offered every term or year. Individual departments or units should be consulted for information regarding frequency of course offerings.

Note: 500-level courses require graduate standing.
