**Administration:**

Department Head: Dr. Nancy Freitag  
Director of Graduate Studies: A. Karl Larsen, Jr.

**Program Codes:**

20FS1274MS

The master's program in Forensic Science is administered by the Department of Pharmaceutical Sciences. The program encompasses a broad knowledge of the basic areas of forensic science laboratory disciplines (biology/biochemistry; chemistry and trace evidence analysis; drug identification and toxicology; and pattern evidence) with emphasis on the integration of analytical and interpretative skills. The role of forensic laboratory sciences in justice system processes is an integrating theme. There is an opportunity for some specialization through the selection of electives.

Additional information on the Master's of Science in Forensic Science program and outcomes can be found on the [department's web page](#).

## Admission and Degree Requirements
