Undergraduate degree-seeking students entering the University in Summer 2004 or after are provided a four-year tuition guarantee. The purpose of the undergraduate guaranteed tuition plan is to provide a high degree of certainty about tuition costs for students and families. The plan applies to all undergraduate students enrolled in a baccalaureate degree program on one of the three campuses of the University of Illinois. The plan treats every student as part of a cohort defined by the date of entry to the University. Each cohort is guaranteed an unchanged tuition schedule for four years. Students extending their graduation beyond four years should be prepared for a tuition increase. Please note that fees subject to change annually. For more information on guaranteed undergraduate tuition, consult the University-wide student programs website: http://www.uaps.illinois.edu/students/tuition.asp.

Tuition

By registering for classes, students contract to pay tuition and fees unless they officially withdraw by the published refund deadline. Tuition and fees are assessed on registered students and are payable by the due date reflected on the online bill. The amount of tuition and fees varies by the date a student enters the University, changes in student level, changes of program within the University, and the number of semester hours for which the student registers. Subsequent changes in the number of hours carried could result in a change from the amounts originally assessed. Tuition also varies according to the students' state residence—state of Illinois resident or nonresident. For a description and definition of state resident status, see Regulations Governing the Determination of State Residence Status for Admission and Assessment of Student Tuition later in this section. Tuition and fees are set annually by the University of Illinois Board of Trustees and are subject to change without notice any time prior to the first day of instruction. Consult the Office of the Registrar website http://registrar.uic.edu for current information on tuition and fees.

State Residence Classification

The state residence classification of an applicant is determined on the basis of information given on the application and other credentials. Tuition is assessed in accordance with this information. A student who has legitimate cause for change of status may petition for change on a Residency Petition form provided by the Office of Admissions. See Regulations Governing the Determination of State Residence Status for Admission and Assessment of Student Tuition.

Exemptions and Assessments

A student who qualifies under the stated conditions may be exempted from one or more of the following charges. Tuition is waived for:

1. Holders of tuition-waiver scholarships.
2. All academic employees, except graduate assistants, of the University on appointment for at least 25 percent of full-time service. Such appointments require service for not less than three-fourths of the term.
   a. Tuition may be waived for the total number of semester hours taken by an academic employee. The total number of semester hours that can be taken by academic employees is determined by the employee’s college.
   b. The staff members must provide service for at least three-quarters of the term in which the course work is taken to maintain the waiver. The term is defined as beginning with the first day of class and extending through final examinations. For staff members who resign their appointments or otherwise become ineligible for a waiver, the waiver is void; the staff member is
1. All staff members (academic, administrative, or permanent support staff) on appointment for at least 25 percent of full time and not less than three-quarters service for the term, or on an appointment for less than 25 percent of full time with the University. The faculties of state-supported institutions of higher education in Illinois holding appointments of at least one-quarter time.

2. The professional staff in private and public elementary and secondary schools in Illinois.

3. The spouses and dependent children of those listed in items 1 and 2. (Dependent children are those who qualify as dependents for federal income tax purposes.)

4. Persons actively serving in one of the armed forces of the United States who are stationed and present in Illinois in connection with that service.

5. The spouses and dependent children of those listed in item 5, as long as they remain stationed, present, and living in Illinois.

6. Military veterans (specific requirements to be announced).

For assessment purposes, a staff appointment must require service for not less than three-fourths of the academic term. Specific dates marking completion of service for three-fourths of the term shall be established by the chancellor or his designee on each campus. Staff tuition-and-fee privileges do not apply to students employed on an hourly basis in either an academic or support staff capacity or to persons on leave without pay.

For assessment purposes, a permanent support staff employee is defined as a person who has been assigned to an established, permanent, and continuous support staff position and who is employed...
for at least 25 percent of full time. University employees appointed to
established, civil service positions whose rate of pay is determined
by negotiation, prevailing rates, or union affiliation are entitled to the
same tuition-and-fee privileges accorded other staff members under the
regulation.

For assessment purposes, an academic/professional employee is
defined as an employee whose appointment is not prescribed by Article
X, Section 1, of the University Statutes, or for whom the rules of the
University Civil Service System are not applicable. Therefore, academic/
professionals are those staff members who are not

1. in the professorial ranks,
2. instructors or lecturers,
3. research or teaching associates,
4. research or teaching assistants (graduate or undergraduate), or
5. support staff (University Civil Service) employees.

Staff members who have “visiting” or “adjunct” prefixes to the above
ranks in their titles are also excluded from the academic/professional
category.

Excluded are all academic/professional appointees on leaves of absence
without pay.

A student who resigns a support staff or academic appointment, or whose
appointment is cancelled before service has been rendered for at least
three-fourths of the term, becomes subject to the full amount of the
appropriate tuition and fees for that term, unless withdrawal from the
University classes is effective at the same time the appointment becomes
void or unless clearance for graduation is filed within one week after the
appointment becomes void.

3. Applicants who, because of extreme financial hardship, cannot meet
   the cost of the fee. (Subject to the approval of the managing director
   of admissions.)
4. Applicants under approved international exchange programs in which
   the University participates and international students participating in
   approved exchange programs where the waiver of fees is reciprocal.
5. University of Illinois intercampus transfers at the same level:

• The visitor/auditor fee of $15 is assessed all class visitors who are not in Range 1 in the tuition-and-fee schedule. Exact change, check, or money order required.
• A late placement test fee of $15 per individual test is charged to all students taking placement tests during late registration.
• The late-registration fee of $50 is assessed all students who complete registration after the tenth day of the fall and spring semesters, and after the first Wednesday of Summer Session 1 or first Friday of Summer Session 2.

CampusCare Student Health Benefit Program
The University requires all students to have healthcare coverage. All newly admitted students are automatically enrolled in CampusCare and assessed the CampusCare fee as part of their tuition. CampusCare is the University-Based Health Benefits program designed to provide protection against unexpected accidents and illnesses. The program covers services such as: physician office visits at the Family Medicine Center, inpatient and outpatient hospitalization, prescription drugs, physical therapy, emergency services, home health care, mental health, substance abuse, and vision and dental services.

During the open enrollment period at the beginning of each term, new and continuing students have an opportunity to make choices concerning their healthcare coverage. Students enrolled in CampusCare may also enroll qualified dependents such as a spouse or unmarried children before the published deadline.

Coverage begins on the first day of the term and ends on the first day of the subsequent term. The CampusCare Fee is billed with tuition and other mandatory fees, unless a CampusCare waiver is approved. Students who withdraw from the University and are not reimbursed 100% of their tuition and fees do not receive a refund of the CampusCare Fee and are covered for the balance of the term from which they withdrew. CampusCare does not prorate the benefit premium.

Students who show proof of active comparable health insurance coverage prior to the enrollment period deadline date may waive out of the program by logging onto the CampusCare website at http://www.CampusCare.uic.edu and submitting an online waiver form. Once approved, a waiver will remain in effect for a period of one academic year. Beginning in Academic Year 2015, students will be required to submit a waiver on an annual basis, each fall during the enrollment period. Students may reinstate into CampusCare upon completion of an online reinstatement form found at http://www.CampusCare.uic.edu. All online forms to waive out, reinstatement coverage, or to add/delete dependents must be submitted online only before the enrollment period deadline date.

Detailed information about covered benefits, premium rates, dependent coverage, summer coverage, how to access care, print ID cards, deadline dates, and all online forms are available to students at http://www.CampusCare.uic.edu. Information is also available in the online Schedule of Classes or the UIC home page http://www.uic.edu by typing CampusCare in the search function.

The University of Illinois is a land-grant institution assisted by funding from state of Illinois tax revenue. As a state, tax-assisted institution, the University (with some exceptions) extends preference in admission and tuition to residents of the state of Illinois—that is, to students whose circumstances conform to the University’s definition of state resident status stated below.

The University of Illinois’ definition of the term “resident” may be different from the definitions developed by other, non-University agencies. Thus, a person who is an Illinois resident for tax or voting purposes, for example, is not necessarily a state resident for University of Illinois tuition and admission purposes. The University’s definition of state resident status applies both to payment of tuition and admission to the University of Illinois.

Principal elements determining state residency are domicile in Illinois and actions that evidence the intent to make Illinois the person’s permanent residence. A person has but one domicile at any time. Mere physical presence in Illinois, regardless of how prolonged, is insufficient to establish state residency without existence of action and intention to make the place a permanent residence and principal home. In order to establish bona fide residence in Illinois under this policy, a person must demonstrate presence and intent to reside permanently in Illinois for reasons other than educational objectives.

The burden of establishing that a student is domiciled in Illinois for other than educational purposes is upon the person. The regulations, factors, and procedures enumerated in this policy will be considered by the University in determining state residence status.

State residence status regulations are subject to change from time to time at the discretion of the Board of Trustees. A person holding nonresident status is subject to rules in effect when the petition seeking Illinois residency is filed. Nothing in these rules shall be applied retroactively to reverse in-state residence status previously granted under former regulations.

Regulations
The following regulations are used to determine the state resident classification of a person for admission and tuition assessment.

A. A person’s domicile is presumed to be that of his/her parent(s) or legal guardian unless the student is independent and establishes a separate domicile. A person who is dependent upon his/her parent(s) or other person in authority, other than spouse, for financial support shall not be considered independent for the purpose of these regulations. A person claiming independence may be requested to present satisfactory evidence that his/her parent(s) or legal guardian have not contributed significantly to his/her support nor claimed him/her as a dependent for federal or state income tax purposes during the period in which the person attempts to establish and/or maintain residency. Filing and payment of Illinois income tax is necessary to establish residency.

B. In order to be classified as a resident for purposes of admission, an independent person shall be domiciled in Illinois and a bona fide resident of the state for at least one calendar year immediately preceding the date of receipt of the application for admission. To be considered a resident for purposes of assessment of tuition, an independent person must be a bona fide resident of the state for at least one calendar year immediately preceding the first scheduled day of classes for the term for which residency is sought.

C. During the one-year period in which a person attempts to establish residency, a person must be financially independent. He/she must rely upon gainful employment in Illinois or prove reliance upon resources in Illinois for more than fifty percent of the income sufficient to provide for tuition, fees, and normal living expenses, e.g., food, clothing, housing, and transportation. Income earned as a result of University enrollment, such as educational loans,
graduate assistantships, or student employment, is not considered as evidence of intent to establish residency. During the one-year period in which a person attempts to establish Illinois residency, a person must reside in the state primarily for other than educational purposes.

D. A person who is not a citizen of the United States of America may establish resident status unless the person holds a visa, which precludes an intent to permanently reside in the United States. A list of the visa classifications may be obtained from the Office of Admissions.

E. Noncitizens may commence establishment of state residence with notification of permanent residency status by the United States Citizenship and Immigration Services provided the person meets and complies with all the applicable requirements of these Regulations.

F. The minor children of persons who, having resided in this state for at least 12 months immediately prior to such a transfer, are transferred by their employers to some location outside the United States shall be considered as Illinois residents for purposes of the computation and payment of tuition. However, this Section shall apply only when the minor children of such parents enroll in a state-supported college or university within five years from the time their parents are transferred to some location outside the United States. If the parent(s) or legal guardian of a resident person establishes a domicile outside the state of Illinois after the person has been admitted, the person shall continue to be classified as a resident student until degree completion, assuming timely matriculation and providing the person maintains continuous enrollment and maintains a separate residence within the state of Illinois.

G. It is required that a person who claims Illinois domicile while living in another state or country will provide proof of the continued Illinois domicile. Proof may include, but is not limited to, evidence that the person (or parent or legal guardian as applicable) has not acquired a domicile in another state, has maintained a continuous voting record in Illinois, and has filed regular Illinois resident state income tax returns during absence from the state.

H. A person whose parents move to Illinois may become a resident at the beginning of the next term following the move.

An independent person whose parent or parents have established and are maintaining a bona fide residence in Illinois will be regarded as a resident if the independent person lives in Illinois.

Even though a divorced or separated parent who is not a resident of Illinois provides significant financial support, a person shall be classified as a resident as long as the other parent resides permanently in Illinois.

I. A nonresident shall be classified as a resident if his/her spouse is a resident of Illinois and meets the applicable requirements of these regulations. A noncitizen may establish residency through his/her resident spouse, provided the noncitizen complies with Section D of these regulations.

J. A person who is actively serving in the armed forces of the United States and who is stationed and/or present in the state in connection with that service, may be eligible for a waiver of the nonresident portion of tuition in accordance with Board policy as long as the person remains stationed and/or present in Illinois.

The waiver is extended to the person’s spouse and dependent children when they also live in the state. A resident of Illinois, and the spouse and dependent children, who is stationed outside of Illinois in active service in the armed forces of the United States and who has maintained residency under Section G shall be classified as a resident.

K. Staff members of the University and of allied agencies, and faculties of state-assisted institutions of higher education in Illinois, holding an appointment of at least one-quarter time, and their spouses and dependent children, shall be treated as residents.

The term “staff member” as used in these regulations shall mean a person appointed to a faculty, academic professional, or permanent civil service position for a specific amount of time at a salary or wage commensurate with the percentage of time required. The appointment shall require service for not less than three-fourths of the term. For purposes of residency, the term “staff member” shall not apply to persons employed on an hourly basis in an academic capacity, nor to persons on leave without pay.

L. Nonresident teachers in the private and public elementary and secondary schools in Illinois holding an appointment of at least one-quarter time shall, if required to pay tuition, be assessed at the resident rate. This privilege also extends to the summer session immediately following the term of the appointment.

Any nonresident teacher who qualifies for resident tuition as described above shall become subject to nonresident tuition for the entire term if the school appointment is vacated prior to completion of three-fourths of the term in question. Resignation or cancellation of the appointment prior to the close of the spring term also cancels the eligibility for the resident tuition privilege in the following summer term.

Factors in Determining State Residency

Bona fide residency must be maintained in the state of Illinois for at least one calendar year immediately preceding the date of receipt of the application for admission; or for tuition purposes, one calendar year immediately preceding the first scheduled day of classes for the term for which resident classification is sought. The following circumstances, although not necessarily conclusive, have probative value in support of a claim for state resident classification.

1. Continuous physical presence—defined as no more than a three-week absence from the state of Illinois—for at least one calendar year as described above.
2. Domicile in Illinois of parent(s) or guardian legally responsible for the student. Domicile in Illinois of spouse.
3. Voting or registration for voting in Illinois.
4. Illinois driver’s license or identification card and automobile registration.
5. Financial independence and payment and filing of Illinois income/property taxes and/or ownership of property in Illinois during the tax year or partial tax year immediately preceding the term for which the person is requesting resident classification. Just the filing of an Illinois state income tax form, or filing a form without substantial Illinois income earned, will not be judged as a significant criterion for reclassification.
6. One calendar year of gainful employment in Illinois or proven reliance upon resources in Illinois for more than fifty percent of the income sufficient to provide for tuition, fees, and normal living expenses, e.g.,
Student Tuition, Fees, and Assessments

food, clothing, housing, and transportation. Reliance upon income earned from loans is not viewed as evidence of intent to establish residency. Employment in Illinois must be in other than graduate assistantships or student employment.

7. The lease of living quarters and payment of utility bills in Illinois.
8. Former domicile in the state and maintenance of significant connections therein while absent.
9. Admission to a licensed practicing profession in Illinois.
10. Long-term military commitments in Illinois and/or proof that Illinois is the home of record.
11. A one calendar year period of presence in the state for other than educational purposes.
12. Establishment of financial accounts at Illinois institutions.
13. Public records, for example, birth and marriage records.
14. Other official documents verifying legal, official connection with Illinois or with organizations or institutions within the state of Illinois.
15. Exclusive use of the Illinois address when home or mailing address is requested.

The University may request documentation of the evidence. Missing evidence, the lack of evidence, or inconsistent evidence may be used to refute the claim of state residency.

Procedures

The executive director of admissions, or a designee, shall determine the initial state residence classification of each person at the time the person enters or re-enters the University.

A person who is not satisfied with the determination of his/her state residence classification may request that the responsible official reconsider it. For the purposes of admission, the written request must be received by the Office of Admissions within 20 calendar days from the date of notification of state residency status. For the purposes of assessment of tuition, the written request must be received by the Office of Admissions by September 30 for the fall semester, February 15 for the spring semester, June 20 for the summer term, or some other date as set by the Office of Admissions.

The request should include the Petition for Determination of Residency Status (available online and from the Office of Admissions) and all other materials that are applicable to the claim. The request and accompanying documentation will not be returned, and the person is advised to maintain a copy for his/her record.

If the person is still not satisfied with the determination after it has been reconsidered, the person may appeal the decision to the director, Office of University-Wide Student Programs. The appeal shall be in writing and shall include reasons for the appeal. The appeal must be received by the executive director of admissions within 20 calendar days of the notice of the ruling. The appeal will then be referred to the Office of University-Wide Student Programs. A person who fails to file such an appeal within 20 calendar days of the notice of the ruling waives all claims to reconsideration for that academic session.
