

Preprofessional Studies

Preprofessional studies in the College of Applied Health Sciences are designed for students who intend to pursue their undergraduate or graduate education in professional programs of the AHS College. Preprofessional students in AHS can be Disability and Human Development, Kinesiology, Nutrition Science, or Rehabilitation Sciences majors. Advisors for students in pre-health information management, pre-occupational therapy, and pre-physical therapy are available in the AHS College Office of Student Affairs and the department offices. Students are also encouraged to participate in the preadmission information sessions which are held monthly within the Occupational Therapy and Physical Therapy departments. Scheduling information for these sessions can be found on the [AHS website](#).

Completion of the required coursework or attainment of the minimum grade point average does not guarantee admission to a professional program. Pre-HIM, Pre-OT and Pre-PT students must complete all the requirements for a bachelor's degree, including a major, in addition to the preprofessional studies.
