

Pre-Physical Therapy

Physical therapy is a health profession whose primary purpose is the promotion of optimal human health and function through the application of scientific principles to prevent, identify, assess, correct, or alleviate acute or prolonged movement dysfunction. Physical therapy encompasses areas of specialized competence and includes the development of new principles and applications to more effectively meet existing and emerging health needs. Other professional activities that serve the purpose of physical therapy are research, education, consultation, and administration.

The physical therapist, working in cooperation with other health professionals, serves the individual needs of the client and the health needs of society. The physical therapy profession depends heavily on knowledge and application of the basic medical and behavioral sciences, coupled with specialized knowledge and skills in the clinical arts and sciences.

Physical therapists may work as staff, supervisors, or self-employed practitioners who serve clients directly; as administrators of clinical departments, health agencies, or educational programs; as healthcare agency consultants; as clinical or academic teachers; or as researchers. They may work in hospitals, clinics, rehabilitation centers, schools for children with disabilities, neighborhood health centers, physicians' offices, nursing homes and convalescent centers, private and public health agencies, sports settings, and universities.

Pre-physical therapy students may choose any major but should work with pre-health and major advisors to plan a course of study that fulfills the pre-physical therapy studies requirements as well as the requirements for the major. Students are advised to declare an educational goal of pre-physical therapy upon entering UIC which will alert them to specific workshops and other pertinent information.

The pre-physical therapy requirements follow and should be completed as part of the undergraduate degree program. All prerequisite courses must be completed with a grade of C or better. Students must have completed a minimum of seven math/science prerequisite courses at the time of application and have a reasonable plan for the completion of remaining course prerequisites prior to matriculation in the DPT program.

Required Coursework

Code	Title	Hours
Required Courses^a		
BIOS 110	Biology of Cells and Organisms ^b	4
Select one of the following general chemistry sequences:		10
CHEM 122	Matter and Energy ^{b,c}	
CHEM 123	Foundations of Chemical Inquiry I ^{b,c}	
CHEM 124	Chemical Dynamics ^{b,c}	
CHEM 125	Foundations of Chemical Inquiry II ^{b,c}	
OR		
CHEM 116	Honors and Majors General and Analytical Chemistry I ^b	
CHEM 118	Honors and Majors General and Analytical Chemistry II ^b	
PHYS 131 & PHYS 132	Introductory Physics for Life Sciences I and Introductory Physics for Life Sciences II ^b	8

PSCH 100	Introduction to Psychology ^d	4
Select one course in Statistics from the following: ^e		3-4
KN 200	Statistical Methods	
PSCH 343	Statistical Methods in Behavioral Science	
SOC 201	Introductory Sociological Statistics	
STAT 101	Introduction to Statistics	
STAT 130	Introduction to Statistics for the Life Sciences	
Select one course in developmental or abnormal psychology from the following:		3
PSCH 270	Introduction to Psychological and Behavioral Disorders ^d	
or PSCH 320	Developmental Psychology	
KN 230	Anatomy and Physiology Lecture I	3
KN 231	Anatomy and Physiology Lecture II	3
KN 232	Anatomy and Physiology Laboratory I	2
KN 233	Anatomy and Physiology Laboratory II	2
Total Hours		42-43

- Students completing an undergraduate degree at UIC must complete the General Education requirements. Students should consult the [General Education](#) section and their college/department sections of the catalog for more information on fulfilling these requirements.
- These courses are approved for the Analyzing the Natural World General Education category.
- Each of the following pairs of courses will be considered one course in meeting the LAS General Education requirements: CHEM 122/CHEM 123; CHEM 124/CHEM 125.
- This course is approved for the Understanding the Individual and Society General Education category.
- PSCH 343 is limited to psychology majors or students in the neuroscience degree program. Other options include SOC 201 (for sociology majors), KN 200 (for KN majors) and STAT 101 and STAT 130.

In addition, applicants must complete a minimum of 40 hours of documented physical therapy volunteer, observation, or work experiences by the application deadline. Current certification in CPR (cardiopulmonary resuscitation) with Health Provider Status is recommended prior to beginning the professional program. 100+ hours of physical therapy observation, volunteer, work, or other clinical experience hours in a variety of environments is recommended. Students must also have earned a bachelor's degree prior to enrolling in the program.

The Graduate Record Examination (GRE) must be taken within five years of the date of application. Students must apply for admission to the program approximately one year before planned enrollment. A detailed breakdown of the [evaluative criteria used by the Department of Physical Therapy Admissions Committee](#) may be found online.

There are two parts to the application: the PTCAS application and the UIC application. Applicants to the DPT program must apply online using the Physical Therapist Centralized Application Service (PTCAS). Applicants can begin their PTCAS application in July. The PT program application deadline is October 1st. To learn more about the PTCAS application process, please visit the [PTCAS website](#). The UIC application

must be submitted electronically on or before October 1st. Both parts of the application are required for admission to the DPT program.
