UNIVERSITY OF ILLINOIS AT CHICAGO
Office of Academic and Enrollment Services (MC 103)
University of Illinois at Chicago
601 South Morgan Street
Chicago, IL 60607-7127

This publication is a record of the 2006–2008 academic years. It is for informational purposes and does not constitute a contract. The information was current at the time of publication. Faculty assignments and programs listed are subject to change. Courses listed in this publication are subject to revision without advance notice. Courses are not necessarily offered each term or each year. Individual departments and units should be consulted for information regarding programs, faculty, and regularity of course offerings.

The 2006–2008 Graduate College Catalog is also online http://www.uic.edu/gcat. The online catalog is updated as programs, requirements, and courses change.

Students will find current course offerings in the Schedule of Classes http://www.uic.edu/depts/lms/dassschedule.

Nondiscrimination Statement. The commitment of the University of Illinois to the most fundamental principles of academic freedom, equality of opportunity, and human dignity requires that decisions involving students and employees be based on individual merit and be free from invidious discrimination in all its forms.

The University of Illinois will not engage in discrimination or harassment against any person because of race, color, religion, sex, national origin, ancestry, age, marital status, disability, sexual orientation including gender identity, unfavorable discharge from the military, or status as a protected veteran and will comply with all federal and statewide nondiscrimination, equal opportunity, and affirmative action laws, orders, and regulations. The nondiscrimination policy applies to admissions, employment, access to, and treatment in the University programs and activities.

University complaint and grievance procedures provide employees and students with the means for the resolution of complaints that allege a violation of this Statement. Members of the public should direct their inquiries or complaints to the appropriate equal opportunity office.

Policy Council
Revised May 31, 2005

Chancellor’s Statement of Commitment for Persons with Disabilities. Guided by the belief that people with disabilities are assets to the University, UIC is committed to full inclusion and participation of people with disabilities in all aspects of University life. We seek to provide an academic, social, and physical environment that makes disabled people integral to the diversity of perspectives that is vital to an academic community.

UIC supports the principles of universally accessible design, alternative communication formats, and the expression of disability community and pride. At all levels of the University, UIC promotes equal opportunity, fair treatment, and the elimination of barriers for qualified individuals with disabilities.

Office for Access and Equity. For additional information or assistance with the equal opportunity, affirmative action, and harassment policies and procedures of the University of Illinois at Chicago, please contact:

Public Formal Grievance Procedures University of Illinois at Chicago

I. Introduction
These procedures have been implemented to address complaints of discrimination on the basis of age and/or disability in any activity, policy, rule, standard, or method of administration that is related to the operation of University’s programs.

II. Eligibility
These procedures may be used by any member of the public who alleges age (Under the Age Discrimination Act) or disability (Under Title II of the Americans with Disabilities Act) discrimination on the basis of class. However, anyone who wishes to challenge a decision made about them by an agent of the University of Illinois at Chicago (UIC) in the course of their employment or enrollment at UIC must utilize the UIC Academic Grievance Procedures.

III. Definitions
A. Grievance: A written statement submitted by a Grievant identifying the activity, policy, rule, standard, or method of administration he/she claims to be discriminatory on the basis of age and/or disability and explaining the manner in which that activity, policy, rule, standard, or method of administration discriminates. All Grievances must be signed by the Grievant and must outline the Grievant’s allegations in as much detail as possible.
B. Grievant: Any member of the public who submits a Grievance.
C. Grievance Officer: The assigned investigator of the UIC Office for Access and Equity can be contacted at the address below:
Office for Access and Equity (MC 602)
809 South Marshfield Avenue, Room 718
Chicago, IL 60612-7207
(312) 996-8670 Fax (312) 413-0055
www.uic.edu/depts/oae
D. Appeals Officer: The Associate Chancellor for Access and Equity or his/her designee.
E. Days: Any reference to “days” herein shall refer to business days (excluding weekends and federal holidays).
F. Record: The complete record of a Grievance will consist of the original Grievance and any supporting information or documentation submitted with that Grievance, the Grievance Officer’s findings, the Appeal (if any), and any additional information or documentation submitted with the Appeal, the Appeal Officer’s findings, and any communications and notices relative to the Grievance. The Record will be maintained for at least five (5) years following the final decision.

IV. Grievance Process
Filing of the Grievance: The Grievant must file his/her Grievance with the Grievance Officer no later than ten (10) days after he/she becomes aware of the offending activity, policy, standard, or method of administration.

Investigation: The Grievance Officer shall conduct an appropriate investigation of the issues raised in the Grievance. The Grievant shall be given an opportunity to submit any relevant evidence he/she may have to support the Grievance. Within fourteen days (14) of submission of the Grievance, the Grievance Officer shall issue his/her findings. In the event the Grievance Officer finds evidence of discrimination in the activity, policy, standard or method of administration, he/she shall make recommendations for change(s) and shall coordinate the efforts for change(s) with the department/unit/college whose activity, policy, standard, or method of administration is at issue. Furthermore, in the event that the individual was adversely affected by a decision made pursuant to a discriminatory process, policy, activity, standard, or method of administration, the individual will be given the opportunity for the decision to be reconsidered according to the revised process, policy, etc. In those cases where the Grievance Officer finds no evidence of discrimination, he/she shall send written notice of that finding to the Grievant within that 14-day time period. Said notice shall inform the Grievant of his/her right to appeal the finding to the Appeals Officer within five (5) days of receipt of the notice.

Appeal: An appeal of the Grievance Officer’s findings must be in writing and must state the basis for the appeal, providing any additional evidence or information that may support the Grievant’s claim of discrimination. The Appeals Officer shall review the Grievance Officer’s record and any information/evidence submitted with the Appeal and shall issue findings within ten (10) days of receipt of the appeal. In the event the Appeals Officer finds evidence of discrimination in the activity, policy, standard or method of administration, he/she shall make recommendations for changes. In those cases where the Appeals Officer finds no evidence of discrimination, he/she shall send written notice of that finding to the Grievant within that 10-day time period. There shall be no further levels of review or appeal beyond the Appeals Officer.

Deviation from the Process: Upon proof of extenuating circumstances, the Chancellor and only the Chancellor may approve a deviation from these procedures (e.g., extension of a deadline).

Effective date of policy is September 1, 2005.

A Message from the Dean

The Graduate College at the University of Illinois at Chicago is dedicated to a simple idea: bringing together superb students with outstanding research faculty in a diverse and stimulating urban environment.

There has never been a more exciting time to pursue advanced study. New fields of learning and new approaches in traditional fields are providing today’s graduate students with the ideas, skills, and disciplines to shape the world around them. UIC’s 6,500 graduate students are enrolled in over fifty PhD programs and nearly eighty masters programs, spanning the range of Arts and Humanities, Social Sciences, Life Sciences, Physical Sciences, and Engineering.

Nationally ranked programs, award-winning faculty, and one of the most diverse graduate student bodies in the nation are among the advantages UIC has to offer, all within the heart of metropolitan Chicago. UIC may justly claim to be a model for the research universities of the new century. I welcome you to your new academic home.

Clark Hulse
Dean of the Graduate College
## Graduate and Professional Degree Programs

Below is a list of all UIC graduate and professional degree programs. The 2006–2008 Graduate College Catalog provides a detailed description of the programs administered by the Graduate College. URLs are provided for graduate and professional programs that are not part of the Graduate College.

Welcome to UIC
The University
Scope and Mission

Located in the heart of one of the nation’s largest metropolitan areas, the University of Illinois at Chicago (UIC) is a comprehensive public university offering instruction at the baccalaureate, master’s, first professional, and doctoral levels. It is one of three campuses of the state of Illinois’ land-grant university, the University of Illinois. Its mission comprises three traditional elements—teaching, research, and public service, each shaped by and relevant to its metropolitan setting as well as the University of Illinois’ traditional pursuit of excellence. UIC conducts research and public service in a variety of fields and ranks among the top universities nationally in attracting external support for these activities. UIC serves not only the citizens of the state of Illinois but also students from throughout the nation and the world who are attracted by both the University’s programs and the metropolitan setting on which it draws and to which it contributes.

UIC seeks to provide its graduate and professional students with an education that will prepare them to render skilled professional service and to assume positions of intellectual leadership in their disciplines and professions. In doing so, UIC takes special account and advantage of the extraordinary ethnic and cultural diversity of the Chicago metropolitan area, which encompasses two-thirds of the population of Illinois. In research and scholarship, the mission of UIC is to seek new knowledge and understanding at the frontiers of learning. Both fundamental and applied studies are pursued, often in partnership with the region’s business, cultural, health, and service institutions. The academic community thus serves as the focal point for investigation of the challenges and problems facing the region, the state, and society at large, both today and in the future.

UIC’s public service activities include the provision of direct services which span the full range of the campus’ programs and disciplines. The clinical services provided by UIC’s hospital and clinics, and the active participation of faculty in a multitude of projects through UIC’s many and diverse research centers, help advance the efficiency and quality of life in the region. Members of the faculty and staff also directly serve on boards, commissions, and advisory committees in communities throughout the metropolitan region, the nation, and the world.

Through its education, research, and public service, UIC strives to accomplish the land-grant mission originally envisioned for the University of Illinois in the more agrarian environment of the nineteenth century. Located in the great metropolis that is both the transportation hub of this country and the architectural capital of the world, UIC adapts that mission to the challenges of the present and the future.

History and Overview

The University of Illinois at Chicago is the largest institution of higher education in the Chicago area and one of the top 100 research universities in the United States. Through its 14 academic colleges and professional schools, the University offers 81 undergraduate, 78 master’s, and 60 doctoral programs in architecture, art, applied health sciences, business administration, dentistry, education, engineering, humanities, mathematics, medicine, movement sciences, nursing, performing arts, pharmacy, public administration, public health, sciences, social sciences, social work, and urban planning. The University’s programs are enhanced by a variety of research centers and institutes that cover areas such as community improvement, developmental disabilities, energy, gerontology, robotics, urban economic development, and urban transportation.

In 1946, an undergraduate division of the University of Illinois was established at Navy Pier. This facility, renamed the University of Illinois at Chicago Circle, moved to its present location in 1965, when it opened its doors as a four-year university. By 1982, it had grown to include eight academic colleges offering degree programs at both the undergraduate and graduate levels.

The University of Illinois at Chicago was formed by the consolidation, in the fall of 1982, of the two Chicago campuses (formerly known as the University of Illinois at the Medical Center and the University of Illinois at Chicago Circle) into a single institution of higher learning. The University’s facilities for medical instruction date back to 1894, when the Chicago College of Pharmacy became the School of Pharmacy of the University of Illinois. In 1897, the independent College of Physicians and Surgeons of Chicago became the “Department of Medicine” of the University. In 1901, the Columbian Dental College became the University School of Dentistry; and in 1925 the University Hospital opened. Programs in nursing education under University auspices began in the 1940s, becoming the School of Nursing in 1951 and, in 1959, the College of Nursing. Other health sciences units of the University of Illinois at Chicago include the College of Applied Health Sciences, the School of Public Health, and over 50 clinics and research facilities. A new $60 million University of Illinois Hospital was completed in 1981.

Today the University of Illinois at Chicago has a total enrollment of approximately 25,000 students, including about 9,000 graduate and professional students.

Accreditation

years. The next comprehensive evaluation of UIC is scheduled for 2006–2007. Verification of accreditation status is available in the Office of the Chancellor (312) 413–3350.

In addition to institutional accreditation, individual programs are accredited by such organizations as the AACSB International—the Association to Advance Collegiate Schools of Business, Accreditation Board for Engineering and Technology, the American Chemical Society, the American Council on Pharmaceutical Education, the American Dental Association, the American Dietetic Association, the American Occupational Therapy Association, the American Physical Therapy Association, the American Psychological Association, the Commission on Accreditation of Allied Health Education, the Commission on Collegiate Nursing Education, the Council on Education for Public Health, the Council on Social Work Education, the Illinois State Board of Education, the Liaison Committee on Medical Education of the American Medical Association, the National Architectural Accrediting Board, the National Association of Schools of Art and Design, the National Association of Schools of Public Affairs and Administration, and the Planning Accreditation Board.

Graduate Study at UIC

The Graduate College of the University of Illinois at Chicago is made up of faculty members from various disciplinary colleges in the University. In conjunction with their disciplinary colleges and under the guidelines of the Graduate College, these faculty members offer advanced academic and research programs for highly qualified postbaccalaureate students. All students admitted to a master’s program except the Master of Business Administration, the Master of Engineering (professional MEng), the Master of Public Health, or the Master of Social Work programs or in a doctor of philosophy, doctor of arts, or doctor of education program at UIC are enrolled in the Graduate College.

Master’s Degrees

Eleven types of master’s degrees are offered through the Graduate College at UIC: the Master of Architecture, the Master of Arts, the Master of Education, the Master of Fine Arts, the Master of Health Professions Education, the Master of Urban Planning and Policy, the Master of Arts in Teaching (History), the Master of Science, the Master of Science in Teaching (Mathematics), and the Master of Science in Teaching (Psychology).

Doctoral Degrees

The Doctor of Philosophy at UIC places traditional emphasis on the advancement of knowledge through independent research in the candidate’s chosen field and the presentation of an original thesis. The degree is intended primarily for those who need the highest level of research training and who wish to pursue careers in colleges and universities, research institutes, and public agencies or industrial and business organizations.

The Doctor of Arts is a professional degree for college teachers and instructional designers. It combines the rigor and high level of scholarship in the subject matter of the Doctor of Philosophy with the acquisition of special skills in modern instructional methods. The program is designed to provide training through special courses and thesis research in such areas as curriculum design, teaching methodology, the creation of instructional materials, computer-assisted instruction, and educational evaluation. The Doctor of Arts is offered in the department Mathematics.

The Doctor of Education (EdD) offers advanced professional studies in education leadership. It is intended for students who wish to assume leadership positions in elementary and secondary schools and in postsecondary institutions. Options are available for general leadership studies, or for study leading to Illinois school administrative certification. This program is offered by the College of Education.

Joint Degree Programs

UIC offers students the opportunity to pursue more than one graduate degree at the same time, either through one of our approved joint degree programs, or through concurrent enrollment in more than one UIC program. Approved joint degree programs share a certain number of courses that are applied to both degrees. Joint degree programs currently available through the Graduate College are the MBA/MS (Accounting); MBA/MA (Economics); MBA/MS (Management Information Systems); MBA/MS (Nursing); MPH/MS (Nursing); MS (Nursing)/MS (Health Informatics); PharmD/PhD (Pharmacy); PharmD/MS (Health Informatics); and MD/PhD. Applicants to the MD/PhD program should request a special application from the UIC College of Medicine (312) 996-5635.

Applicants who wish to apply to more than one degree program must submit a separate application for each department involved, even if applying to an approved joint degree program. Applicants applying to more than one program should indicate on all applications submitted that they intend to pursue more than one degree at a time. Only one application fee per term and only one set of transcripts is required for applicants applying to more than one graduate program.

Directors of Graduate Studies

Each graduate program has a director of graduate studies (DGS) who is responsible for overseeing program development, evaluating applications for admission to the Graduate College, advising graduate students, and evaluating student progress. The director of graduate studies is listed at the beginning of each program entry in this catalog.

Academic Year

The academic year at UIC consists of two sixteen-week semesters (including the final examination periods) that begin in August (fall semester) and January (spring semester), with an eight-week summer session that begins in May. In most programs, a student may seek admission to any academic term; however, the scheduling in many programs makes it desirable or necessary that students enter in the fall term.

Campus Hours

Hours of instruction at UIC begin at 8:00 a.m., Monday through Friday. Many programs offer classes in the late afternoon and evening. Administrative offices are open between 8:30 a.m. and 4:45 p.m., Monday through Friday.
Admissions

Applicants are considered on an individual basis. Admission decisions are made in compliance with the University of Illinois nondiscrimination policy printed in the University Regulations section of this catalog.

Prospective students should consult the appropriate section(s) of this catalog for the specific admission requirements of each program.

DEGREE ADMISSIONS

Degree admissions are classified as either full or limited status. Students admitted on limited standing are those admitted on a provisional basis. Requirements for limited standing admission must be approved and supported by the Graduate College. The Graduate College with the advice of the graduate department sets the conditions for limited standing.

Full Status

The Graduate College minimum requirements for full status degree admission are as follows:

Prior Degrees Except for seniors at UIC (see Graduate Study by Undergraduate Seniors), a baccalaureate or its equivalent from an accredited college or university.

Transcripts Required from all institutions where the applicant earned the last 60 semester (90 quarter) hours of credit toward the baccalaureate degree and from all institutions where postbaccalaureate work has been done.

Grade Point Average At least 2.75/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study, including all of the work taken in the quarter or semester in which the student began the final 60 semester hours of undergraduate study. The cumulative grade point average obtained in all work completed beyond the baccalaureate will also be computed and considered in the admissions decision.

Tests Required Applicants whose native language is not English must take the Test of English as a Foreign Language (TOEFL). The test score cannot be more than two years old. A minimum score of 550 (paper-based), 213 (computer-based), or 80, with subscores of Writing 21, Speaking 20, Listening 17, and Reading 19, is required by the Graduate College; many departments consider the TOEFL with a higher minimum. UIC’s Institutional Code is 1851. No other tests are required by the Graduate College.

Letters of Recommendation Not required by the Graduate College, but may be required by the department/program.

Personal Statement Not required by the Graduate College, but may be required by the department/program.

Other Requirements Recommendation for admission by the graduate program to which application is made and by the dean of the Graduate College.

Note: The above requirements are the minimum Graduate College requirements for admission as a degree student; most programs have additional requirements. Consult the appropriate section(s) of this catalog for the specific admission requirements of each program.

Limited Status

Limited status is a probationary status for degree students who have not met all of the admission requirements, such as those who have less than a 2.75/4.00 undergraduate grade point average; have specified course deficiencies to be removed; must submit additional credentials required by the program (such as letters of recommendation or admissions test scores); or are UIC seniors within 8 semester hours of earning the baccalaureate at the time of matriculation. A department can recommend that a student be admitted on limited status to the Graduate College. The Graduate College makes the final decision.

To admit applicants on limited status, the graduate program will recommend to the Graduate College specific conditions for admission. Graduate College approval is required for admission of limited students. Students can be admitted on limited status for no more than two terms in residence. If the conditions are not met within the time limit, the student will be dismissed from the Graduate College.

Graduate Study by UIC Undergraduate Seniors

With the approval of the graduate program, the undergraduate or professional college, and the Graduate College, UIC students in their last year of study for an undergraduate degree may be admitted to the Graduate College if they are within 8 semester hours of earning the baccalaureate at the time of matriculation. These students will be admitted on limited status for no more than two terms in residence, pending completion of the baccalaureate. Courses used to fulfill undergraduate degree requirements cannot be applied to a graduate degree.

Applicants who are admitted to limited status pending completion of their bachelor's degree must be awarded the undergraduate degree within two terms in residence. If this condition is not satisfied, graduate admission is cancelled and the student is transferred back to the undergraduate college.

Application Procedures

Application forms are available from the graduate program offices, the Graduate College and the Graduate College Web site: http://www.uic.edu/depts/grad/admissions/appforms.shtml. Applications and supporting credentials should be submitted as early as possible. Applications received after the deadline will be returned to the applicant. Some graduate programs have application deadlines that are earlier than the University deadline, and some admit students in the fall semester only. Prospective applicants should contact the program of interest for information on current deadlines.

The following credentials, if required by the program, should be sent directly to the graduate program office:
Letters of recommendation
Personal statements
Portfolios
Proof of licensing or certification
Any other credentials required by the program

Admission recommendations cannot be made until all required documents have been received.

DOMESTIC APPLICANTS

Applicants to programs other than the professional degree programs (Business Administration [MBA], Engineering [MEng], Public Health [MPH, DrPH], and Social Work [MSW]) should submit the following materials directly to the Graduate Admissions division of the Office of Admissions and Records unless directed otherwise by the program:

Graduate College Application, completely filled out and signed
Nonrefundable application fee of $50. This fee is waived for applicants seeking readmission who have been previously enrolled at UIC as a graduate student, and employees of UIC.
Official transcripts, which must be sent directly from the issuing school to UIC's Office of Admissions and Records.
Test scores, which must be sent directly from the testing service to UIC. (UIC's Institutional Code is R1851)

INTERNATIONAL APPLICANTS

Applicants to programs other than the DrPH, MBA, MEng, MPH, or MSW programs should submit the following materials directly to the Graduate Admissions division of the Office of Admissions and Records unless directed otherwise by the program:

Graduate College Application, completely filled out and signed
Nonrefundable application fee of $60 (U.S. currency). This fee is waived for applicants seeking readmission who have been previously enrolled at UIC as a graduate student, and employees of UIC.
Official transcripts must be sent directly from the issuing school to UIC's Office of Admissions and Records.
TOEFL and other test scores must be sent directly from the testing service to UIC (Institutional Code is R1851).
Declaration and Certification of Finances form

Postsecondary Credentials

Applicants who have completed studies outside the United States must present all postsecondary school credentials. Such credentials must include a record of all studies completed to date, grades or examination results received (including failing as well as passing grades), maximum and minimum grades obtainable, rank in class, degrees, diplomas, and certificates earned, and length of the school year. Documents must be authentic, and those not written in English must be accompanied by certified English translations. Copies are acceptable when certified as authentic by the issuing institution. All documents should be sent directly to UIC by the issuing institution.

Test of English as a Foreign Language

Applicants whose native language is not English must take the Test of English as a Foreign Language (TOEFL), which is administered by the Educational Testing Service, Box 899, Princeton, NJ 08540. The test score cannot be more than two years old. The Graduate College requires a minimum score of 550 for the paper-based test, or 213 for the computer-based version. Beginning in Fall 2005, a new Internet-based TOEFL (iBT) may be available in some regions. The Graduate College minimum score requirements for iBT are as follows: total score of at least 80, with minimum subscores of Writing 21, Speaking 20, Listening 17, and Reading 19. Many departments have higher minimum TOEFL requirements. Consult the department listing for details. UIC's Institutional Code is 1851.

The TOEFL is given at regularly scheduled intervals at testing centers throughout the world. Information on testing dates, locations, and the testing fee may be obtained at American embassies and consulate offices of the U.S. Educational Foundation (also consult http://www.ets.org). The TOEFL examination is not required for students who have completed at least two academic years of full-time study in a country where English is the native language and in a school where English is the language of instruction within five years of the proposed date of enrollment in the University.

Visa Certification

International students granted admission to the University, where applicable, will receive visa request documents from the Office of International Services to assist in the application of a visa to enter the United States. Official admission letters are sent from the Office of Admissions and Records.

Financial Arrangements

International students must be able to finance themselves fully, including room and board, tuition, books, other expenses, and travel to and from the United States. Only a limited number of assistantships are available, so applicants should not plan on any financial assistance from UIC unless they receive a written offer of aid from a department.

All international applicants who plan to finance the cost of attending UIC from personal resources must certify that they will have available sufficient funds to cover their academic and living expenses for the academic year, plus living expenses for a summer. The exact amount required is set each year by the University of Illinois Board of Trustees. The amount is subject to change depending on tuition and room/board changes. The appropriate certification form can be obtained from the Office of Admissions and Records or the Graduate College website.

Applicants who are unable to provide satisfactory evidence of adequate finances or who have not sent a notarized certified statement verifying funds available and their source will not be
granted admission. Official admission letters and visa documents cannot be sent until certification is received.

International students may apply for fellowships, assistantships, and tuition waivers. These financial aids are awarded on the basis of outstanding scholarship and potential to undertake research. Contact the director of graduate studies of the program of interest for more information.

Oral English Proficiency of Teaching Assistants
Illinois state law requires that the University attest to the English proficiency of all classroom instructors, including teaching assistants. Teaching assistants who are not native speakers of English (regardless of their citizenship status) must have their oral English proficiency assessed by the appointing department. The method of assessing English proficiency is at the discretion of the appointing unit and may include standardized tests and/or interviews. The department head of the hiring unit must certify in writing that the student has sufficient oral English proficiency to provide classroom instruction before the student’s appointment papers will be processed.

NONDEGREE APPLICANTS
Nondegree status is designed for two types of applicants who hold the baccalaureate:

Individuals who do not wish to pursue a degree but want to take courses for professional or scholarly reasons or personal enrichment.

Individuals who have been out of school for several years or in a different field of study and wish to take a few courses before deciding whether to apply for a degree program.

The Graduate College minimum requirements for nondegree admission are as follows:

Prior Degrees A baccalaureate or its equivalent from an accredited college or university.

Nondegree applicants must submit proof of the degree with their application.

Transcripts Not required by the Graduate College.

Tests Required Applicants whose native language is not English must take the Test of English as a Foreign Language (TOEFL). The test score cannot be more than two years old. The Graduate College requires a minimum score of 550 for the paper-based test, or 213 for the computer-based version. Beginning in Fall 2005, a new Internet-based TOEFL (iBT) may be available in some regions. The Graduate College minimum score requirements for iBT are as follows: total score of at least 80, with minimum subscores of Writing 21, Speaking 20, Listening 17, and Reading 19. Many departments have higher minimum TOEFL requirements. UIC’s Institutional Code is 1851. No other tests are required by the Graduate College.

Other Requirements International students who require certification of admission (I-20 or DS-2019) sent to the U.S. Citizenship and Immigration Services (USCIS) will not be admitted as nondegree students.

Some programs require additional credentials for nondegree admission, and some programs do not admit nondegree students. Applicants can be admitted as nondegree, but remain ineligible to register for certain classes. It is the responsibility of the applicant to contact the program offering specific courses to determine their eligibility to enroll.

Changing from Nondegree to Degree
Nondegree graduate students interested in changing to degree status must submit a Graduate College Application. All application credentials must be on file before the change to degree status will be considered. The form and all credentials must be submitted by the degree application deadline.

No more than 12 semester hours of credit earned as a nondegree student can be transferred into the degree program. Students must file a petition for the transfer of nondegree credit; only graduate-level courses in which a grade of A or B was earned will be considered. See Transfer Credit for more information.

Note: Admission to nondegree status does not obligate the Graduate College or any graduate program to later admit a student to a degree program.

Changing Academic Programs/Adding a Second Program
Currently enrolled graduate students who wish to change to or add another degree program, or change between master’s and doctoral levels within a program, must submit a completed Request for Change of Graduate Program form to the Graduate College at least two weeks prior to the term for which the change is requested, although some programs may have an earlier deadline. This form is also used to add a second degree program. This form must be signed by both the old and new departments, and for international students on an F-1, J-1, or J-2 visa, the Office of International Services. Students should meet with the director of graduate studies of the new program to discuss departmental procedures, deadlines, and credentials required. A Petition for Transfer Credit listing all previously completed courses accepted by the new department should be attached to the Request for Change form.

Students must also use the Request for Change of Graduate Program form to transfer within the Graduate College or between the Graduate College and the MBA Program, the Master of Engineering (professional) Program, the Master of Public Health, or the Master of Social Work Program. Complete instructions and deadlines are detailed on the back of the form. The form is available from the Graduate College Web site.

Financial Aid
The University of Illinois at Chicago offers six basic types of financial aid for graduate students: fellowships, assistantships, tuition and service
fee waivers, traineeships, loans, and employment. Applicants for these types of aid must be admitted to a graduate degree program or have a completed application pending. Eligibility for loans is determined by the Office of Student Financial Aid. Applicants for loans should go directly to the Office of Student Financial Aid. Applications for fellowships, assistantships, and tuition/fee waivers are available in the department office, the Graduate College Office, and on the Graduate College Web site. In the administration of these programs and in selecting students for participation in them, the University of Illinois at Chicago adheres to the policy of nondiscrimination printed in the University Regulations section of this catalog.

**FELLOWSHIPS**

Fellowship stipends are awarded in recognition of scholarly achievement and promise. They enable students to pursue graduate studies and research without a service requirement. The stipends of different fellowships vary. Unless explicitly stated otherwise, all fellows supported by the Graduate College (i.e., University Fellowships, Dean’s Scholar, Abraham Lincoln, Diversifying Higher Education Faculty in Illinois) receive a tuition and service fee waiver. Fellows may engage in paid employment only to the extent permitted by the award and approved in writing by the dean of the Graduate College.

The following awards are available through the Graduate College: University Fellowships, Dean’s Scholar Award, Abraham Lincoln Graduate Fellowships, Diversifying Higher Education Faculty in Illinois (DFI), and the Martin Luther King, Jr. Financial Award. Please refer to the Web site http://www.uic.edu/depts/grad/awards/index.shtml for more information. Additionally, students may consult the Graduate College’s fellowship and financial aid coordinator for information on fellowships and scholarships. The coordinator counsels students in finding funding opportunities and assists them with their applications.

**ASSISTANTSHIPS**

The colleges, graduate programs, administrative offices, and research centers appoint graduate students as teaching, research, or graduate assistants.

**Work Schedule** The weekly clock hours of service required of assistants are twenty for a half-time appointment and the proportional fraction of time for other appointments.

**Stipend** The stipend for an appointment of 50 percent time for the nine-month academic year is at least $12,500; many departments offer a greater amount. This amount may change without notice.

**Waivers** Tuition and the service fee are waived for assistants if the appointment is between 25 and 67 percent for at least three-quarters of the term (91 calendar days in fall or spring semester, 41 calendar days during the summer session). Consult the Academic Human Resources Web site for specific dates that will satisfy the 91-day and 41-day requirements http://www.uic.edu/depts/hr/ahr/minimagr.html.

Graduate students who hold academic appointments as assistants for the spring semester and for whom tuition and service fees have been waived are entitled to a waiver for the summer term immediately following, provided they are registered for at least three hours during that summer term.

**Registration Requirements** Graduate students who hold academic appointments as assistants are required to register for at least 8 hours each semester. Students may require registration for more than 8 hours per term and/or summer registration. International students on an F-1 visa must register for a minimum of 8 hours for a 50% appointment, 10 hours for a 33% appointment, and 12 hours for a 25% appointment.

The Graduate College does not require summer registration; however, a minimum of 3 hours registration is required to receive a summer tuition and service fee waiver.

**BOARD OF TRUSTEES TUITION AND SERVICE FEE WAIVER**

A limited number of Board of Trustees tuition and service fee waivers are available to graduate students. Students must apply for waivers through the director of graduate studies in their programs. A Board of Trustees waiver only waives tuition and the service fee as well as the differential when assessed; the health insurance fee and other fees are the student’s responsibility. Part-time waivers are available in select departments.

**Registration Requirements** At least 12 hours per semester (6 in the summer term). Waiver recipients may accept part-time employment, not to exceed twenty hours a week either within or outside the University. If a student drops below 12 hours of registration at any time during the semester (or 6 hours in the summer term) the waiver is rescinded and the student is billed the tuition and service fee.

**OTHER SOURCES OF FINANCIAL AID**

**Traineeships**

Training grants are awarded to graduate programs to support student involvement in specific activities. The grant may support students with stipends and/or tuition and service fee waivers. To be eligible, students must be admitted to a graduate degree program or have a completed application pending. Students should contact the director of graduate studies in their program for information on the availability of traineeships.

**Industrial, Endowed, and Special Fellowships**

Various industrial firms, foundations, and private individuals have generously donated funds to support a number of special fellowships for graduate students at the University of Illinois at Chicago. The stipends and supplemental allowances of these fellowships are not uniform, and most are restricted to students in particular areas of study. Students should contact the director of graduate studies in their program for information on the availability of special fellowships.
Illinois Veterans Scholarship
The Illinois Veterans Scholarship covers the admissions application fee, tuition, and a small varying portion of the service fee. Contact the Office of Student Financial Aid, Room 1800, 1200 West Harrison Street, (312) 996-3126, for more information and applications. Students should bring a copy of their DD-214 when submitting an application.

University Administered Loans and Work Study
UIC’s Office of Student Financial Aid (OSFA) awards and coordinates assistance from a variety of federal and state financial aid programs. Graduate students are eligible for Perkins Loans, Stafford Student Loans, Loans for Parents, Supplemental Loans for Students, and College Work Study.

Applicants for financial aid awarded through the OSFA must be U.S. citizens or permanent residents and must have applied for admission to a degree-granting program of the University. To receive assistance, students must be admitted to and enrolled in a degree-granting program.

Students can also consult the fellowship coordinator in the Graduate College for further information about outside sources of funding opportunities.

Enrollment
Graduate students are governed by the policies of the University of Illinois at Chicago, the Graduate College, their disciplinary (line) college, and their department, and they are expected to become familiar with these policies. The Graduate College Catalog in effect when the student begins enrollment in a degree program is the primary source of information on Graduate College policies pertaining to the student. Many of the University and departmental policies are listed in this catalog, and most programs have policy manuals for graduate students. When a department requirement is approved by and exceeds that of the Graduate College, it replaces the Graduate College standard.

ADDITIONS AND DROPPINGS COURSES
Students may not add or drop a course after the tenth day of instruction in a semester or the fifth day of instruction in the summer session unless approved by the director of graduate studies and the Graduate College.

No refund of tuition will be issued for a drop after the tenth day of instruction (fifth day in summer) regardless of final deadline, unless the student withdraws from the University (see section on fees). Consult the Schedule of Classes, published each term, for current deadlines.

Holders of fellowships, assistantships, and tuition and fee waivers must maintain the required number of semester hours through the end of the term or risk loss of their tuition and service fee waiver for the term. Students who lose their waivers will be billed the full cost of tuition and fees. Students on visas must maintain the registration requirements of their visa (for clarification, contact the Office of International Services).

ADVISERS
All graduate students must have an academic adviser in the graduate program in which degree work is to be done. The academic adviser assists in planning a program of graduate study that fits the needs of the student and satisfies the graduate program and Graduate College requirements. New students should consult the director of graduate studies to discuss the selection of an academic adviser. All PhD candidates must have a dissertation adviser who is a member of the Graduate College faculty. Both master’s and doctoral students must have a major adviser (academic or research) who is a member of the Graduate College faculty.

Unassigned nondegree students do not have a formal adviser. These students must receive approval from an authorized person in the program(s) offering the course(s) they wish to take each term prior to attempting registration.

CIC TRAVELING SCHOLAR PROGRAM
The CIC Traveling Scholar Program, sponsored by the Committee on Institutional Cooperation (CIC), enables doctoral students to take advantage of educational opportunities—specialized courses, unique library collections or laboratories—at any of the Big Ten universities or the University of Chicago.

CIC traveling scholars should have completed at least one year of study in a doctoral program at UIC and must receive prior written approval from their adviser, their department head, and the UIC CIC liaison officer. With these approval signatures, students must then seek permission from the host institution to take the desired course(s). The application and approval process must be accomplished using the online CIC Traveling Scholar form. CIC traveling scholars register and pay for the CIC credit at UIC and also make arrangements to register at the host institution through its CIC liaison officer. A leave of absence is not required, since participants are registered at UIC during their stay at the other institution.

Participation in the CIC Traveling Scholar Program is discouraged during the student’s final term before completing the degree because other CIC institutions have different academic calendars than UIC.

Student should consult their director of graduate studies, the Graduate College Web site or the UIC CIC liaison officer in the Graduate College for more information.

CONTINUATION AND PROBATION RULES
Graduate students are considered to be in good standing in the Graduate College if they:

- Have removed all limited status admission conditions;
- Have a minimum Graduate Degree GPA of 3.00 (see below); and
- Are making satisfactory progress toward degree requirements, including a project or thesis if required.
Note: Graduate programs may require a higher level of performance and may apply criteria in addition to those stated above. If a student fails to meet the performance or other criteria stated by the program as determined by the Graduate College, the program may notify the Graduate College to initiate dismissal.

Limited Status
Limited admission status students must meet the conditions imposed by this status and progress to full degree status within two semesters or any shorter amount of time set forth in the letter of acceptance. Failure to do so will result in dismissal from the University.

Graduate Degree GPA
The Graduate Degree GPA is the average of grades earned by graduate students in their current degree program, whether or not the courses are part of degree requirements. Only graduate-level courses in which an A, B, C, D, or F is earned are included in the Graduate Degree GPA computation. A graduate-level course is any 400- or 500-level course, and any 300-level course taken under the quarter system. General transfer credit taken at other institutions is not computed in the Graduate Degree GPA. However, grades earned through the CIC Traveling Scholars Program are included. Grades earned as a nondegree student, or while a student in other UIC colleges or a different graduate program, will be computed if the courses are applied to the current graduate program through an approved transfer of credit petition.

Probation
Academic probation is the Graduate College’s mechanism for warning students that their Graduate Degree GPA has fallen below the minimum standard of 3.00/4.00. Students have two terms of enrollment (including summer, if registered) after the term in which their Graduate Degree GPA falls below 3.00 to remove themselves from probation. Departments may enforce stricter limits on probation, provided the student is informed in writing prior to being placed on probation.

Students who leave the University while on probation, whether through formal withdrawal or through failing to meet the registration requirement, will still be on probation if they are later readmitted to the same program. Students who are admitted to a new program, begin as a new student (i.e., the Graduate Degree GPA starts over). Students currently on probation or who left the University on probation will not be admitted to the same program as nondegree students. Readmission as a degree-seeking student is not guaranteed.

Students who fail to raise their average to 3.00 or to otherwise fulfill the terms of their probation within the deadline will be dismissed from the University. The Graduate College issues probation and dismissal notices to students and their program directors. However, failure to receive notice does not change the student’s probation or dismissal status, since students are expected to monitor their own progress in light of Graduate College policies.

COURSE LOADS
Students who can devote full time to their studies usually enroll for 12 to 16 semester hours each term. In exceptional cases, the adviser and director of graduate studies may permit a student to enroll for up to 20 hours. Registration for more than 20 hours is not recommended. The Graduate College at UIC has defined full-time enrollment as 9 hours each fall and spring term and 5 hours in the summer.

Important notes to this general definition:

International Students
For purposes of enrollment certification to U.S. Citizenship and Immigration Services (USCIS) of the United States Department of Homeland Security, International Graduate Students must maintain one of the following registration options to meet SEVIS requirements and be considered full-time:

a) 12 hours of registration during the fall and spring semester;
b) 8 hours of registration during the fall and spring semester and a 50% graduate assistantship; c) 10 hours of registration during the fall and spring semester and a 25% graduate assistantship.

Students on an F-1 visa may be eligible to register for zero hours if all requirements are complete except for project or thesis (if not a recipient of a fellowship, tuition-and-service-fee waiver, or assistantship), and a petition is submitted to the Graduate College and approved. The petition must be endorsed by the adviser, DGS or head of program and the Office of International Services.

For questions regarding immigration and SEVIS requirements, please contact the Office of International Services.

Fellowship Holders
Must register for at least 12 hours of credit per semester of award (6 in summer).

Tuition-and-Service-Fee-Waiver Holders
Must register for at least 12 hours of credit per semester of award (6 in summer).

Assistantship Holders
Must register for at least 8 hours of credit each semester, excluding summer. International students on an F-1 visa must register for a minimum of 8 hours for a 50% appointment, 10 hours for a 33% appointment, and 12 hours for a 25% appointment. While summer enrollment for assistants is optional, assistants who wish to use their summer tuition and service fee waivers must register for at least 3 hours during that term. Some graduate programs may require registration for more than 8 hours per term and/or summer registration. There are no tuition-and-service-fee waiver benefits for students employed with less than 25% or more than 67% appointment. Assistants who qualify for a spring tuition and service fee waiver automatically receive a summer waiver if registered in at least 3 hours in summer unless holding a summer appointment above 67%.
Veterans To be eligible for full benefits veterans must register for at least 12 hours per semester (6 hours in summer).

Academic departments may have specific registration requirements. Please check with the department to be sure all departmental requirements are met.

Grades

The following grades are used:

- A—4 grade points per semester hour.
- B—3 grade points per semester hour.
- C—2 grade points per semester hour.
- D—1 grade point per semester hour (not accepted as degree credit).
- F—0 grade point per semester hour (failure; not accepted as degree credit).

DFR—grade temporarily deferred. Deferred grades may be used for thesis courses, continuing seminar, sequential courses, and certain courses that require extensive independent work beyond the term. At the end of the continuing course sequence the deferred grade for all terms must be converted either to a specific letter grade (A–F), to an IN (Incomplete), or to an S or U. No credit is earned until the DFR grade is converted to a permanent grade.

I—Incomplete. An incomplete grade may be given only if, for reasons beyond the student’s control, required work has not been completed by the end of the term. An I must be removed by the end of the next term in which the student is registered (including summer), or within twelve months of the end of the term in which the I was received, whichever occurs sooner.

Note: Course instructors may require an earlier deadline.

An I that is not removed by the deadline will remain on the student’s record as an I, with no credit earned (or may be replaced by a grade, at the instructor’s discretion, before the Graduate College deadline to change an I grade). A course in which an I was received and not removed by the deadline may be repeated for credit only once.

CR—Credit; NC—No Credit. Used only in courses taken under the credit/no credit grading option. No grade points are earned and the grade is not computed in the grade point average. If the required work for the course has not been completed by the end of the term, at the instructor’s discretion an I may be given. Graduate students may take courses on a credit/no credit basis provided that: 1) the courses are not within their immediate area of specialization, 2) such courses account for no more than one sixth of the total number of course hours taken at the University of Illinois at Chicago and counted toward a degree, and 3) they declare their intention to take a course on this basis at the time of registration and have the approval of their adviser and director of graduate studies. Some programs do not allow any credit/no credit courses to be used toward degree requirements. Credit/no credit grades cannot be changed to grades A–F at a later date.

S—Satisfactory; U—Unsatisfactory. Used as grades in thesis research courses, in zero-credit courses, and in specifically approved courses. No grade points are earned and the grade is not computed in the cumulative grade point average or the graduate degree grade point average.

In the case of thesis research courses, instructors should assign an S or U grade to the course each term. They may assign a DFR grade each term until after the thesis defense is successfully completed, the thesis committee accepts the format and content of the thesis, and the Graduate College approves the format of the thesis, but this is not recommended. In the latter case, the Graduate College will notify the registrar to change the DFR grades to S.

An Unsatisfactory grade can be assigned at any time when the student is not making satisfactory progress in thesis research. If this should occur, the status of the student will be reviewed by the adviser, the director of graduate studies, and the Graduate College, and the student may be dismissed from the Graduate College.

W—Withdrawn. Officially withdrawn from the course without academic penalty; no credit is earned for the course. Assigned if coursework is dropped after the tenth day of the semester (fifth day in summer) and before the last day of instruction for the term. This grade will remain on the transcript but does not affect the grade point average or Graduate Degree Grade Point Average.

Leave of Absence

Except for international students whose visas require continuous registration, and doctoral students who have passed their preliminary exams, graduate degree-seeking students may take one semester (fall or spring) plus the summer session off without formal leave approval from the Graduate College. Degree students who desire to take an additional consecutive semester off, for a total maximum of three consecutive terms, must file a Graduate Petition for Leave of Absence by the tenth day of the third term for which leave is requested. Nondegree students are not eligible for a leave of absence.

International students who hold an F-1 or J-1 visa must register each fall and spring semester due to visa requirements. Such students must file a Graduate Petition for Leave of Absence for any fall or spring semester they wish to take off, obtaining written authorization on the petition from the Office of International Services. If remaining in the country, such leaves are rarely granted by that office.

Upon receipt of a leave of absence petition from the department/program, the Graduate College will automatically approve the first leave, up to one year maximum. At least one term as a graduate degree student must be completed before being eligible for a leave. After returning to the program from an approved leave, a second leave is not automatic and will only be granted by the Graduate College for medical or other extraordinary reasons.

Leave will not be granted to doctoral candidates who have passed the preliminary exam, except for students whose programs require a
formal off-campus activity (e.g., internship), or for documented maternity/family event, medical, family health crisis, or other extraordinary reasons. If this situation occurs, a Graduate Petition for Leave of Absence must be submitted to the Graduate College.

Degree-seeking students will automatically be approved leave, with proper documentation, for the birth or adoption of a child or where child care is required (one year maximum); care of a spouse, child, or parent with a serious health condition; or a serious health condition that makes the student unable to pursue graduate work. The Graduate College encourages students to obtain written acknowledgement (signature) from the director of graduate studies.

International students with any of these circumstances must also obtain approval form the Office of International Services.

Degree-seeking (domestic only) students who must leave the university in order to enter into active service with the armed forces in a national or state emergency will be given an indefinite leave. A copy of the orders to report/proof of active service must be attached. Special procedures exist for withdrawing from courses under these circumstances. See the relevant information under Withdrawal from the University.

Time spent on leave approved by the department and the Graduate College does not count towards the time to complete the degree.

Students who have already registered for the term for which leave is requested must drop all courses using the Student Self Serve registration process. If completed before the first day of the term, all relevant charges for the term are eliminated. If done after the first official day of the term begins, a pro rata refund will be given. Students are responsible for filing the appropriate forms and resultant charges; the leave of absence petition itself does not alter existing registration.

Students who are on an approved leave of absence will not be covered by the health and personal accident insurance plan until they return to active registration.

Petition forms may be obtained from the Graduate College, 606 University Hall, or from the graduate program.

Petitions

Students may petition the dean of the Graduate College for exceptions to certain college regulations, but may do so only after consulting with their adviser and the director of graduate studies, whose recommendations must appear on the petition. Petition forms may be obtained from the Graduate College and from the graduate program office and must be accompanied by a full explanation of the circumstances and any appropriate forms and supporting documents required for processing a requested change. Note: Petitions should be filed within 30 days from the time an individual knows, or reasonably should have known, that an occurrence has affected his or her status.

Registration

Registration procedures and class offerings are published in the Schedule of Classes each semester and graduate students are responsible for the complete and accurate processing of their registration according to the guidelines published therein.

Graduate students who fail to register for two terms in a row (excluding summer) without taking an approved leave of absence forfeit their admission to the Graduate College and must reapply to Graduate College and be readmitted to the program.

Readmission is not guaranteed.

New students may register during the designated period before the beginning of their first term or during the late registration period (days one to ten for fall and spring, days one to five for summer). Currently enrolled students register during the early registration period in the previous term. Students who wait to register at late registration will be assessed a late registration fee and may experience limited course availability.

Registration for zero hours is only available to students who have completed all course work, examinations, and all degree requirements except the master’s project or thesis or doctoral dissertation and who need to maintain registered status at the university. Typical reasons for needing to maintain registration after all course hours for the degree have been taken include visa registration requirements, requirements of the student’s program, and the Graduate College requirement for doctoral students to maintain registration from the preliminary examination through the dissertation defense. Students wishing to register for zero hours must submit a Graduate College petition and receive permission from the director of graduate studies and the Graduate College prior to the start of the term. Once permission is received, students may continue to register for zero hours provided they remain in the same program, continue to make satisfactory academic progress, and are within the time frame for degree completion. Students with a fellowship, assistantship, or Graduate College tuition and service fee waiver must maintain the minimum registration requirements for their award, and will not be eligible for zero hours.

Option A is for master’s students (except if in a course-work-only option) and doctoral students who need to maintain registration and will be utilizing university services. Master’s students may be required to register for zero hours by their program or USCIS regulations, but the Graduate College does not require registration for defense of a master’s thesis or graduation.

Doctoral students (only) who will not be on campus may request Option B, where only the zero-hour tuition, and none of the fees, is assessed. Students on Option B are not eligible to use university services. Doctoral students who want Option B must state Option B and the term(s), up to two semesters at a time, on the petition, and must submit another form if needed in future terms. See Degree Requirements, Doctoral Degrees, and Master’s Degrees.
Students can repeat a course for credit if:
The course is designated in the Schedule of Classes with the phrase “May be repeated for credit.”
The course is one in which a grade of D, F, NC, or U was received. In such cases the course can be repeated only once and counted only once toward the degree requirements; the original grade continues to be included in the computation of the Graduate Degree GPA.
The approval of both the instructor who will give the course and the director of graduate studies is required.
The course is one in which a student has received a permanent I (see Grades).

Transfer Credit
Consideration is given to the transfer of credit in three categories:

Previous graduate work for which a degree was not awarded.
Graduate work completed elsewhere after admission to UIC and for which a degree was not awarded. Students considering taking graduate work elsewhere during a leave of absence should consult their adviser and director of graduate studies about such plans and the courses that may be considered for transfer.
Graduate work completed in the senior year at UIC that was not applied to the baccalaureate.

Additionally, 32 hours may be granted to a doctoral student with a previous master’s degree. The director of graduate studies will determine whether the 32 hours should be granted when the student applies for admission to the program. Technically, this is not transfer credit and does apply to any of the limits listed below.

To be considered for transfer, graduate work must have been completed in an accredited institution approved by one of the regional accreditation associations or by the agencies recognized by the Council for Higher Education Accreditation, and must meet the quality and content of courses offered at UIC.

For probation and graduation purposes, transfer credit is not computed in the cumulative grade point average or Graduate Degree GPA unless such credit was earned in courses taken at UIC.

LIMITS ON TRANSFER CREDIT
The specific number of credit hours accepted for transfer is determined on an individual basis. No transfer is automatic.

Maximum Allowed Transfer Credit
No more than 25 percent of the hours required for a master’s degree requiring 32–47 hours of credit, or more than 50 percent of the hours required for a master’s degree requiring 48 or more hours of credit, can be transferred from another institution or another college at UIC. Doctoral students may transfer in no more than 25 percent of the hours required for the degree. This limit is for courses taken as a student in another college at UIC or another institution, but not course work taken in a different program within the Graduate College at UIC.

Transfer credit is considered only for courses in which the student received a grade of A or B. Credit earned more than six calendar years before admission to the Graduate College is not usually accepted for transfer.

Nondegree Credit
Nondegree students who are admitted as degree candidates may, by petition, transfer up to 12 semester hours of graduate-level courses in which grades of A or B were earned. This does not count towards the limits of transfer credit listed above.

PROCEDURES
A Graduate Petition for Transfer Credit toward an Advanced Degree is required for all transfers of credit except the 32 hours of credit for a prior master’s degree (see below). The graduate program evaluates the student’s petition and makes a recommendation to the Graduate College. The petition should show the courses recommended for transfer by the graduate program and the number of semester hours of credit received. Students must attach to the petition an original transcript showing grades if courses were not taken at UIC, and a certification from the registrar or college dean of the applicable institution stating that the courses are graduate level and were not used toward fulfillment of the requirements for a degree if not self-evident from the transcript itself.

CREDIT FOR PRIOR MASTER’S DEGREE
Doctoral candidates who have previously earned a master’s degree or its equivalent approved by one of the regional accreditation associations or by the agencies recognized by the Council for Higher Education Accreditation may be granted 32 semester hours of credit toward the doctoral degree if approved by the program and the Graduate College at the time of admission. The 32 hours are subtracted from the total hours required for the doctorate from the baccalaureate. The 32 hours are not counted toward the maximum allowed transfer credit limit or computed in the cumulative GPA or Graduate Degree GPA. A petition is not required as the Graduate College is informed of the request directly from the director of graduate studies.

Degree Requirements
The following requirements for individual degrees are the minimum standards of the Graduate College. Most graduate programs have requirements that exceed these minimums. Students should consult the detailed graduate program listings and the graduate program director for a full statement of the requirements of their particular degree program. It is the student’s responsibility to be aware of all regulations and requirements and to satisfy them as early as possible.
CHANGES IN DEGREE REQUIREMENTS

Program and Graduate College policies and requirements change periodically and may not be immediately reflected in campus publications. New degree requirements, however, are not imposed retroactively on continuing graduate students. If degree requirements are changed, students may complete their degree programs under the requirements in effect at the time of their initial enrollment (or readmission, if they discontinued degree status at any time) in the Graduate College. They have the option, however, of electing to be governed by the new requirements if they so desire, provided that all requirements of one catalog are met.

Students who interrupt their enrollment without prior formal approval lose their status as graduate students. If they want to return to a graduate program, they must apply for readmission. For readmitted students the requirements for the degree are those published in the catalog at the time of readmission, or any subsequent catalog, provided all the requirements of one catalog are met.

DEGREE PROGRAM DEADLINES

Master’s degree (32 to 40 hours): 5 years
Master’s degree (41 to 64 hours): 6 years
Doctorate with prior master’s degree (minimum 64 hours): 7 years
Doctorate without prior master’s degree (minimum 96 hours): 9 years

Time spent on an approved leave of absence will not count towards the time to degree. Students who do not graduate by these deadlines may be dismissed from the Graduate College for failure to progress.

MASTER’S DEGREES

Minimum Semester Hours Required At least 32 beyond the baccalaureate; some degree programs require more.

Course Work At least 24 hours, or one-half of the minimum number of semester hours of graduate work required for the degree, whichever is greater, must be earned as a degree candidate at UIC. At least 9 hours must be at the 500-level, excluding project (597), thesis (598), and independent study courses.

Credit Only 400- and 500-level courses can be applied to a graduate degree. Credit toward a graduate degree is only given for courses in which a student received a grade of A, B, C, CR, or S. Graduate programs may establish higher standards.

Registration Master’s students who have completed all course credit requirements but have not yet completed a graduation requirement (e.g., thesis, project, or comprehensive examination) are not required to register unless they hold a fellowship, assistantship, or tuition and service fee waiver. Students who are on a time-limited visa or are in programs that require continuous registration must petition the program and the Graduate College to register for zero hours in an appropriate course (thesis or project).

Foreign Language Not required by the Graduate College; may be required by the program.

Comprehensive Examination Not required by the Graduate College; may be required by the program. The candidate must be in good academic standing in the Graduate College and the department and have completed all degree requirements.

Thesis or Project Not required by the Graduate College; may be required by the program. Thesis student must earn at least 5 hours in thesis research (the 598 course offered by their program). A maximum of 40 percent of the total hours of credit required for the degree may be earned in thesis research, unless restricted by the program.

Defense Once the student has completed all graduation requirements and is in good academic standing, s/he must defend the thesis before a committee. The thesis committee is appointed by the dean of the Graduate College on the recommendation of the student’s department or program. This committee consists of at least three persons, one of whom should be a tenured full member of the UIC graduate faculty. One member of the committee may be from outside the department, academic unit, or outside the University, in which case the member must demonstrate equivalent academic standards and his/her curriculum vitae must accompany the Committee Recommendation Form. A Committee Recommendation Form must be submitted to the Graduate College at least three weeks prior to the thesis defense. A majority of the committee must approve the thesis. A candidate cannot be passed if more than one vote of “fail” is reported. The Examination Report must be signed by all members of the committee and submitted to the Graduate College within 48 hours of the defense. The department head or the director of graduate studies will be required to sign the Certificate of Approval Form before a student is considered to have met all the requirements of the thesis. All committee members should be present at the defense. Specific instructions on the format of the thesis are contained in the booklet, Thesis Manual, available in the Graduate College Office, 606 University Hall, and the Graduate College Web site.

DOCTORAL DEGREES

Minimum Semester Hours Required At least 96 from the baccalaureate or at least 64 from the master’s degree; some degree programs require more.

Credit for Prior Master’s Degree Doctoral candidates who have previously earned a master’s degree or its equivalent from UIC or another accredited institution may be granted 32 semester hours of credit toward the doctoral degree if approved by the program and the Graduate College at the time of admission.
Degree equivalency from foreign institutions is determined by the Office of Admissions. The 32 hours are subtracted from the total hours required from the baccalaureate. The 32 hours are not included in the maximum allowed transfer credit limit. A petition is not required as the director of graduate studies informs the Graduate College.

Course Work At least 48 semester hours beyond the master's level or its equivalent must be taken at UIC. The formal course requirements for a master's degree must be met within the 96 hours.

Credit Only 400- and 500-level courses can be applied to the degree. Credit toward a graduate degree is only given for courses in which a student received a grade of A, B, C, CR, or S. Graduate programs may establish higher standards.

Registration Doctoral candidates must be registered for credit the term when they take the preliminary exam. They must also register each semester (excluding summer) after passing the preliminary examination and until successfully defending the dissertation. Students must register for the summer term if they are taking the preliminary exam or defending their dissertation during that term. If an exam or defense occurs between terms, registration is required in the term just ended.

Students who hold a fellowship, assistantship, or tuition and fee waiver must register each semester for the number of hours required by their award, even if they have completed all degree requirements except the dissertation. See Course Loads, Financial Aid section.

Students who do not hold a fellowship, assistantship, or tuition and fee waiver, and who have completed all degree requirements except the dissertation, and who do not wish to register for additional course work, must either:

Option A: Register for zero hours of credit in thesis research (599) each semester until the degree is awarded (excluding summer unless defending dissertation). Range IV tuition and fees are assessed (see Schedule of Classes).

Or

Option B: Must petition for each renewal and specify Option B. Only the range IV tuition is charged (see Schedule of Classes). No additional fees are assessed. Students may elect from one to two terms with each petition. Students who elect this option are ineligible for student health insurance, library and laboratory privileges, computer facilities, and loan deferment.

Permission to use either Option A or B will be considered by the Graduate College upon petition supported by the graduate program. For Option B, the department must certify that no use of University facilities will be made. Students must refile a petition for Option B by the 10th day of the term (5th for summer).

All students must complete and defend the dissertation by the degree deadline, regardless of which option is chosen.

Foreign Language Not required by the Graduate College; may be required by the program.

Examinations Departmental Qualifying Examination: Not required by the Graduate College; may be required by the program.

Preliminary Examination (Admission to Candidacy) Purpose: The purpose of the preliminary examination is to determine the candidate's readiness to undertake dissertation research, and passing it constitutes formal admission to candidacy. The examination serves as the last major step toward the PhD degree except for the completion and defense of the dissertation. The examination provides the student with timely feedback of the faculty's views of his/her potential for completing the PhD program. The preliminary examination is distinct from the oral defense of the dissertation project.

Timing: The preliminary examination is generally administered during or near the end of the time the student has completed most, though not necessarily all, of the course work, but has not made a major investment of time and effort towards the dissertation research project. A minimum of one year has to elapse before the defense of the dissertation after passing the preliminary examination. Only students in good academic standing are permitted to take the examination.

Committee Composition: The committee for the preliminary examination is appointed by the dean of the Graduate College upon the recommendation of the department or program. The committee must consist of at least five members, of whom at least three are UIC graduate faculty with full membership, and two of whom must be tenured. The chair of the committee must be a full member of the UIC graduate faculty.

Grading: Each member of the examining committee assigns a grade of "pass" or "fail". A candidate cannot be passed with more than one "fail" vote. The committee may require that specific conditions be met before the "pass" recommendation becomes effective. On the recommendation of the committee, the head or chair may permit a second examination. A third examination is not permitted.

Procedure: The dean of the Graduate College appoints the committee upon receipt of the Committee Recommendation Form three weeks prior to the preliminary examination. The results of the examination must be submitted to the Graduate College within two weeks of the completion of the exam. The Examination Report must be signed by all members of the committee and submitted to the Graduate College with 48 hours of the exam. Once the student has passed the examination, the dean of the Graduate College will notify the student that she has been admitted to candidacy.

Students who do not complete the degree requirements within five years of passing the preliminary examination must retake the examination; programs may specify a shorter time period. Combined programs leading to two degrees may require additional study beyond the period normally involved for completing requirements for the PhD degree and may require an extension of the five year rule.
Dissertation
A dissertation is required by the Graduate College.

Format: The format of the dissertation is specified in the booklet, Thesis Manual. Students should have a draft of their dissertation checked in their department prior to the term they plan to graduate. Programs are responsible for checking the format and adhering to the guidelines. Students must deposit two copies of their defended and departmentally-approved dissertation to the Graduate College by the deadline for that term. A separate abstract (350 words maximum) must be submitted with the final copy.

Prior Publication of Research Findings:
Candidates engaged in thesis research may find it desirable or expedient to publish, prior to the conferring of the degree, certain findings that later will be incorporated in the dissertation. In such cases, appropriate acknowledgment of the earlier publication should be included in the dissertation. The Graduate College encourages such publication, but the dissertation may not be published in its entirety before all degree requirements, including the defense of the dissertation, have been completed.

Defense: The defense of the dissertation is administered after the student has completed all graduation requirements. Only students in good academic standing are permitted to defend their dissertation.

All candidates for the PhD degree must have an adviser who is a member of the UIC graduate faculty. The adviser is considered the primary reader of the dissertation. The defense must be open to the academic community of the University and be publicly announced one week prior to its occurrence.

The dissertation committee is appointed by the dean of the Graduate College on the recommendation of the student's department or program. The defense committee consists of at least five persons, of whom one must be from outside their program. The chair of the committee must be a full member of the UIC graduate faculty. At least two members of the committee must be tenured faculty at UIC; at least one must be from outside the degree-granting program, which may include graduate faculty from other UIC departments or colleges. The outside member can also be from outside the University, in which case the member must demonstrate equivalent academic standards; the member's curriculum vitae must accompany the Committee Recommendation Form. A Committee Recommendation Form must be submitted to the Graduate College three weeks prior to the dissertation defense. All committee members should be present at the defense. The committee vote is "pass" or "fail." A candidate cannot be passed if more than one vote of "fail" is reported. The Examination Report must be signed by all members of the committee and submitted to the Graduate College within 48 hours of the defense. The department head or director of graduate studies' signature is required on the Committee Recommendation Form before a student is considered to have met the requirements of the dissertation.

Deadlines: Two final, approved and defended copies of the dissertation must be submitted to the Graduate College no later than the Graduate College deadline for that term. PhD candidates who successfully defend their dissertation and submit the final dissertation copy to the Graduate College after the deadline will graduate in the next term.

Microfilm Fee: Following the final examination and acceptance of the thesis, candidates must pay a fee for the microfilming of the complete dissertation and the publication of the abstract in Dissertation Abstracts. Consult the Thesis Manual for more information.

Teaching
Teaching is required by the Graduate College.

University Regulations

ACADEMIC GRIEVANCE PROCEDURES
The Academic Grievance Procedures (July 1, 1989) define an administrative process through which faculty, academic professionals, employees, and students may seek resolution of complaints or grievances arising from a decision made about them by an agent of the University of Illinois at Chicago in the course of their employment or enrollment at UIC. It defines eligibility to use the procedures and describes the informal and formal procedures and time frames required.

This document is available online at http://www.uic.edu/depts/oaa/Docs/griev.pdf.

ACADEMIC INTEGRITY
The University of Illinois is dedicated to learning and research, and hence is committed to truth and accuracy. Integrity and intellectual honesty in scholarship and scientific investigation are, therefore, of paramount importance. These standards require intellectual honesty in conducting research, writing of research results, and relations with colleagues. Graduate students may be faced with difficult choices regarding academic integrity in their various roles as student, teacher, and researcher. If this is the case, they should seek the advice and experience of their faculty advisers and the Graduate College staff.

The University publishes two documents that contain specific definitions of misconduct (such as plagiarism, falsification of data, etc.), procedures used for investigation of charges, and the consequences of that conduct. Students are governed by the Student Code of Conduct (October 1993) http://www.vcsa.uic.edu/MainSite/departments/dean_of_students/Links/UIC+Discipline+Code.htm and faculty are governed by the Policies and Procedures for Academic Integrity (June 1989).

CONFIDENTIALITY OF STUDENT RECORDS
As custodian of student records, the University assumes an implicit trust and, accordingly, uses extreme care and concern in recording and disseminating information about students. The University policy is in compliance with the Family Educational Rights and Privacy Act (FERPA). The Office of Admissions and Records issues transcripts of official records only at the written request of the student and payment of
the transcript fee (see Tuition, Fees, and Other Charges). The same holds true for academic information needed for financial assistance or honors recognition. Class schedules are not released to unauthorized persons. UIC Student Records policy governs record keeping and release. For a full description of FERPA, please consult http://www.sfs.uic.edu/FeRPA/FeRPA.htm.

**MEDICAL IMMUNIZATION REQUIREMENTS**

Illinois state law mandates that all students entering a postsecondary institution who are born on or after January 1, 1957, must present documented proof of immunity against measles, mumps, rubella, tetanus, and diphtheria as a prerequisite to registration. The Medical Immunization Form, required for student completion, is mailed with the student’s acceptance letter.

Those students who are not properly immunized and have not submitted a written statement of medical or religious exemption must be immunized within the first term of enrollment. Failure to provide the required proof of immunity will prevent the student from enrolling in a subsequent term.

Students registering only for off-campus courses or for no more than five credit hours are temporarily exempt from the immunization requirements.

For more information, contact the Office of Medical Immunization Records, Room 1300 Student Services Building, telephone (312) 413-0464.

**Nondiscrimination Policy**

The commitment of the University of Illinois to the most fundamental principles of academic freedom, equality of opportunity, and human dignity requires that decisions involving students and employees be based on individual merit and be free from invidious discrimination in all its forms.

The University of Illinois will not engage in discrimination or harassment against any person because of race, color, sex, religion, national origin, ancestry, age, marital status, disability, sexual orientation including gender identity, unfavorable discharge from the military or status as a protected veteran and will comply with all federal and state nondiscrimination, equal opportunity and affirmative action laws, orders and regulations. This nondiscrimination policy applies to admissions, employment, access to and treatment in the University programs and activities.

University complaint and grievance procedures provide employees and students with the means for the resolution of complaints that allege a violation of this Statement. Members of the public should direct their inquiries or complaints to the appropriate equal opportunity office.

**Policy Council**

**Revised May 31, 2005**

For additional information or assistance with the equal opportunity, affirmative action, and harassment policies and procedures of the University of Illinois at Chicago, please contact:

Office for Access and Equity (MC 602)
717 Marshfield Avenue Building
809 South Marshfield Avenue
Chicago, IL 60612-7207
(312) 996-8670

**PUBLIC FORMAL GRIEVANCE PROCEDURES**

**UNIVERSITY OF ILLINOIS AT CHICAGO**

**I. Introduction**

These procedures have been implemented to address complaints of discrimination on the basis of age and/or disability in any activity, policy, rule, standard, or method of administration that is related to the operation of University’s programs.

**II. Eligibility**

These procedures may be used by any member of the public who alleges age (Under the Age Discrimination Act) or disability (Under Title II of the Americans with Disabilities Act) discrimination on the basis of class. However, anyone who wishes to challenge a decision made about them by an agent of the University of Illinois at Chicago (UIC) in the course of their employment or enrollment at UIC must utilize the UIC Academic Grievance Procedures.

**III. Definitions**

A. **Grievance:** A written statement submitted by a Grievant identifying the activity, policy, rule, standard or method of administration he/she claims to be discriminatory on the basis of age and/or disability and explaining the manner in which that activity, policy, rule, standard or method of administration discriminates. All Grievances must be signed by the Grievant and must outline the Grievant's allegations in as much detail as possible.

B. **Grievant:** Any member of the public who submits a Grievance.

C. **Grievance Officer:** The assigned investigator of the UIC Office for Access and Equity can be contacted at the address below:

Office for Access and Equity (MC 602)
809 South Marshfield Avenue, Room 718
Chicago, IL 60612-7207
(312) 996-8670 Fax (312) 413-0055
www.uic.edu/depts/aeo

D. **Appeals Officer:** The Associate Chancellor for Access and Equity or his/her designee.

E. **Days:** Any reference to “days” herein shall refer to business days (excluding weekends and federal holidays).

F. **Record:** The complete record of a Grievance will consist of the original Grievance and any supporting information or documentation submitted with that Grievance, the Grievance Officer’s findings, the Appeal (if any) and any
additional information or documentation submitted with the Appeal, the Appeal Officer's findings, and any communications and notices relative to the Grievance. The Record shall be maintained for at least five (5) years following the final decision.

III. GRIEVANCE PROCESS

Filing of the Grievance: The Grievant must file his/her Grievance with the Grievance Officer no later than ten (10) days after he/she becomes aware of the offending activity, policy, standard or method of administration.

Investigation: The Grievance Officer shall conduct an appropriate investigation of the issues raised in the Grievance. The Grievant shall be given an opportunity to submit any relevant evidence he/she may have to support the Grievance. Within fourteen days (14) of submission of the Grievance, the Grievance Officer shall issue his/her findings. In the event the Grievance Officer finds evidence of discrimination in the activity, policy, standard or method of administration, he/she shall make recommendations for change(s) and shall coordinate the efforts with the department/unit/college whose activity, policy, standard or method of administration is at issue. Furthermore, in the event that the individual was adversely affected by a decision made pursuant to a discriminatory process, policy, activity, standard or method of administration, the individual will be given the opportunity for the decision to be reconsidered according to the revised process, policy, etc. In those cases where the Grievance Officer finds no evidence of discrimination, he/she shall send written notice of that finding to the Grievant within that 14-day time period. Said notice shall inform the Grievant of his/her right to appeal the finding to the Appeals Officer within five (5) days of receipt of the notice.

Appeal: An appeal of the Grievance Officer's findings must be in writing and must state the basis for the appeal, providing any additional evidence or information that may support the Grievant's claim of discrimination. The Appeals Officer shall review the Grievance Officer's record and any information/evidence submitted with the Appeal and shall issue findings within ten (10) days of receipt of the appeal. In the event the Appeals Officer finds evidence of discrimination in the activity, policy, standard or method of administration, he/she shall make recommendations for change(s). In those cases where the Appeals Officer finds no evidence of discrimination, he/she shall send written notice of that finding to the Grievant within that 10-day time period. There shall be no further levels of review or appeal beyond the Appeals Officer.

Deviation from the Process: Upon proof of extenuating circumstances, the Chancellor and only the Chancellor may approve a deviation from these procedures (e.g., extension of a deadline).

Effective date of policy is September 1, 2005

SERVICES FOR STUDENTS WITH DISABILITIES

The Disability Resource Center works to ensure the accessibility of UIC programs, classes, and services to students with disabilities. Services are available for students who have documented disabilities, vision or hearing impairments, emotional or physical disabilities. Students with disability/access needs or questions may contact the Disability Resource Center at (312) 413-2183 (voice) or (312) 413-0123 (TTY only).

PARTICIPATION IN CLASS EXERCISES THAT INVOLVE THE USE OF ANIMALS

The University of Illinois at Chicago offers certain courses in which live, euthanized, or preserved vertebrate animals are used as part of course requirements. Such courses are identified in the Schedule of Classes with the note “animals used in instruction.”

Students who have ethical concerns about the use of animals in teaching may have the responsibility to contact the instructor, prior to enrollment in any course in which animals may be used as part of course instruction, to determine whether class exercises involving animals are optional or required, and what alternatives, if any, are available. If no alternatives are available, the refusal to participate in required activities involving animals may result in a failing grade in the course.

RESEARCH ON HUMANS OR ANIMALS

Students using human subjects in any research (this includes surveys, interviews, preexisting data, and human tissue obtained for nonresearch purposes) must have approval from the Institutional Review Board or one of its approved committees before they begin data collection. Students using animal subjects must take GC 470—Essentials for Animal Research. The Graduate College also offers the course, GC 401—Scientific Integrity and Responsible Research. This course is mandatory for a number of graduate programs. Similar programs for non-science disciplines are being developed. For further information, students should contact the Office for the Protection of Research Subjects, (312) 996-1711, 203 Administrative Office Building.

SEXUAL HARASSMENT POLICY

Sexual harassment is defined by law and includes any unwanted sexual gesture, physical contact, or statement that is offensive, humiliating, or an interference with required tasks or career opportunities at the University. Sexual harassment is prohibited under federal and state discrimination laws and the regulations of the Equal Employment Opportunity Commission.

The University of Illinois will not tolerate sexual harassment of students or employees and will take action to provide remedies when such harassment is discovered. The University environment must be free of sexual harassment in work and study.

In order to assure that the University is free of sexual harassment, appropriate sanctions will be imposed on offenders in a case-by-case manner.
The University will respond to every complaint of sexual harassment reported.

Information about the University's approved procedures for dealing with cases of sexual harassment may be obtained by phoning (without name given if desired), by writing, or by visiting the Office for Access and Equity, 717 Marshfield Building, 809 S. Marshfield Avenue, Phone (312) 996-8670.

**STUDENT DISCIPLINARY PROCEDURES**

The Student Code of Conduct provides a mechanism for review when a student (December 1985) is charged with an infraction of the disciplinary code. It describes just causes for disciplinary action, outlines the procedures for filing a complaint or responding to one, lists the possible sanctions, and describes the appeal process. This document is available in the Office of the Dean of Student Affairs, 3030 Student Services Building or online http://www.vcsa.uic.edu/MainSite/departments/dean_of_students/Links/UIC+Discipline+Code.htm.

**Tuition, Fees, and Other Charges**

All students are assessed tuition and fees. The amount varies with the program the student is in, the number of semester hours for which the student registers, and according to status as a state resident or nonresident of Illinois. Residence classification is determined by the information given on the application for admission and other credentials. Further information on resident classification is provided elsewhere in this chapter.

Consult the term Schedule of Classes or the Graduate College Web site for information on current tuition and fee rates http://www.uic.edu/depts/grad/regn_grad/index.shtml.

The service fee, general fee, and health service fee are mandatory fees that support the following: Student Center East and Student Center West, Student Programs, Student Counseling, Intramural Sports and Recreation, Intercollegiate Athletics, Bonded Indebtedness, Health Service, and Pharmacy. In addition, all students are covered by the UIC Student Health Insurance (CampusCare) and an accidental death and dismemberment policy for which they pay a fee each term. Students who present evidence of insurance in force that provides equivalent coverage may apply for an exemption from the student health insurance fee.

**ENCUMBRANCE OF REGISTRATION AND RECORDS**

Students who owe any money to the University will have a hold placed on their academic records. This hold precludes students from registering for any subsequent terms. In addition, transcripts will not be released until the student's account has been paid in full.

Past due accounts are subject to a finance charge at the annual percentage rate of 18% (1.5 per month on the unpaid balance of each month). Additionally, a late fee of $2.00 per month will be added to all past due accounts.

Please note, the University of Illinois at Chicago does refer past due accounts for collection. Where appropriate, the University will authorize legal action to effect settlement of an account. Students will be liable for all reasonable collection costs, including attorney fees and other charges necessary for the collection of a past due account.

**TUITION EXEMPTIONS**

Students may be exempted from one or more of the following charges if they qualify under the stated conditions:

Tuition is waived for:

1. Holders of tuition and service fee waiver scholarships.

2. All academic employees of the University (except graduate assistants) on salaried appointment for at least 25 percent of full-time service. Such appointments require service for not less than three-fourths of the number of days defined for the term.

3. Teaching, research, and graduate assistants on appointment for at least 25 percent but not more than 67 percent of full-time service. Such appointments require service for not less than three-fourths of the number of days defined for the term.

4. Support staff employees of the University in status appointments or in appointments designed to qualify for status in an established class (e.g., trainee, intern) who register in regular University courses not to exceed Range II tuition in semester if on full-time appointment, and not to exceed Range III tuition if on a 50 to 99 percent time appointment, provided they 1) meet conditions and eligibility for admission as prescribed by the Office of Admissions and Records, 2) not be students as defined in Civil Service Rule 7.7c, and 3) have approval from their employing departments.

5. Support staff employees in a status, learner, trainee, apprentice, or provisional appointment who enroll in regular courses directly related to their University employment. The number of credit hours per semester may not exceed Range II. Employees must have made application and received prior approval for enrollment as required by procedures issued by the director of support staff personnel and set forth in Policy and Rules—Nonacademic.

6. Holders of graduate tuition-and-service-fee waivers awarded by the Graduate College.

7. Holders of grants or contracts from outside sponsors that provide payments to cover the total costs of instruction.

8. Cooperating teachers and administrators who receive assignment of practice teachers or TESOL interns. Such persons who regis-
Evidence for determination of residence status of each applicant for admission to the University shall be submitted to the director of Admissions and Records at the time of application for admission. A student may be reclassified at any time by the University upon the basis of additional or changed information. However, if the student is classified in error as a resident student, the change in tuition shall be applicable beginning with the term following the reclassification; if the student is classified in error as a nonresident, the change in tuition shall be applicable to the term in which the reclassification occurs, provided the student has filed a written request for a review in accordance with these regulations. Further information or clarification may be secured by contacting the director of Admissions and Records:
Student Services Building (MC 018)
Office of Admissions and Records
University of Illinois at Chicago
P.O. Box 5220
Chicago, Illinois 60680

FEES

Service Fee

The service fee is waived for:

1. All staff members of the University who are on appointment for at least 25 percent of full-time service, provided the appointments require service for not less than three-fourths of the number of days defined for the term.
2. Holders of Board of Trustees tuition and fee waivers awarded by the Graduate College.
3. Students registered in absentia via approved petition for zero hours, Option B only.
4. Students registered only in courses taught off campus.
5. Holders of grants or contracts from outside sponsors if the service fee is charged to the contract or to grant funds.
6. Cooperating teachers and administrators who meet the qualifications of item 6 of Tuition Exemptions.
7. Persons registered only in noncredit seminars.
8. University employees, registered at the request of their departments, in noncredit courses for the purpose of improving their work.
9. Emeriti.

DEFINITIONS

For fee assessment purposes, a staff appointment must require service for not less than three-fourths of the number of days defined for the academic term. Specific dates marking completion of service for three-fourths of the term shall be established by the chancellor or the chancellor’s designee on each campus. Staff tuition- and fee privileges do not apply to students employed on an hourly basis in either an academic or nonacademic capacity or to persons on leave without pay.

For fee assessment purposes, a permanent nonacademic employee is defined as a person who has been assigned to an established, permanent, and continuous nonacademic position and
who is employed for at least 25 percent of full-time. University employees appointed to established civil service positions whose rate of pay is determined by negotiation, prevailing rates, or union affiliation are entitled to the same tuition-and-fee privileges accorded other staff members under the regulations.

Students who resign a staff appointment, or whose appointment is cancelled before they have rendered service for at least three-fourths of the number of days defined for the term, become subject to the full amount of the appropriate tuition and fees for that term unless they withdraw from University classes at the same time the appointment becomes void or unless they file clearance for graduation within one week after the appointment becomes void.

### COURSE FEE
This fee is assessed of all auditors who are not in Range I in the tuition and fee schedule. UIC students registered for at least 12 semester hours and University employees who are eligible for a tuition waiver do not have to pay the Course Auditor’s fee. Contact the Office of Admissions and Records for current fee information.

### LATE REGISTRATION FINE
This fine is levied against all students who complete registration after the deadline. In extenuating circumstances, students may receive the approval of the dean of the college to register after the tenth day of the semester or the fifth day of the summer session. Consult the Schedule of Classes for current registration deadlines and late registration fine information.

### STUDENT TO STUDENT FEE
While all students will be assessed this mandatory fee at registration, refunds are available upon request. A request for refund must be supported by a confirmed schedule and University Photo ID Card during the first two weeks of the term. This is processed through SINC, located on the first floor of Student Center East. West side students may pick up a credit form in Room 111, Marshfield Building.

### GENERAL FEE
This fee is not waived with a tuition and fee waiver.

### REPLACEMENT PHOTO-IDENTIFICATION CARD FEE
This fee is assessed if the card is lost or destroyed.

### Withdrawal from the University
Withdrawal from the University is governed by specific regulations that students should observe to protect their academic standing. Failure to withdraw officially from the University before the last day of instruction results in a grade of F (failure) appearing on the record for each course in which the student is registered. Students dropping the only course for which they are enrolled should follow University withdrawal procedures.

Students who withdraw by the tenth day of the semester (fifth day in summer) without taking an approved leave of absence forfeit their admission to the Graduate College. Like students who have officially withdrawn from the University before the tenth day of the semester (fifth day in summer), they must reapply for admission to the Graduate College. Readmission is not guaranteed.

### Withdrawal to Enter Military Service
A graduate student who must leave the University in order to enter into active service with the armed forces in a national or state emergency (including being called up for the Active Reserve Forces and the National Guard) during the first twelve weeks of the semester (first six weeks in summer session) will be withdrawn from courses with a full refund of tuition and fees. If called to active duty after that time, and before the end of the term, the student may withdraw from all courses with a full refund of tuition and fees, or, the student may ask the instructor(s) for permission to receive an Incomplete (I) or Deferred (DFR) grade(s). An instructor may assign an I or DFR if deemed academically appropriate and feasible. Alternatively, an instructor may assign a letter grade, if requested by the student, if the instructor deems it to be academically justified. Deadlines for incomplete grades under these circumstances may be waived upon the discretion of the instructor and the Graduate College. A student who chooses to withdraw from all courses will not receive Ws. It is the student's responsibility to present proof of active service status for these actions to occur. Students who must withdraw due to the reasons stated above are given an indefinite leave of absence. See Financial Obligations and Refunds and Leave of Absence for additional information.

### Financial Obligations and Refunds
Students should carefully check their registration printouts to ensure that they are officially registered in the correct courses and sections for the correct number of semester hours. The act of registering for courses obligates students to pay all related tuition and fees unless one of the following procedures takes place:

#### Cancellation of Registration
If a student drops all courses via UIC Web for Student before the first day of the term, he/she is eligible for a full tuition and fee refund.

---

**Note:** Graduate students who fail to register for two terms in a row (excluding summer) without taking an approved leave of absence forfeit their admission to the Graduate College. Like students who have officially withdrawn from the University before the tenth day of the semester (fifth day in summer), they must reapply for admission to the Graduate College. Readmission is not guaranteed.
Withdrawal from the University
A pro rata refund of tuition and fees (excluding health service and student health insurance fees) will be issued to students who withdraw on or before the tenth week of the semester. Before a refund is made to the student, the University will make a refund to the appropriate financial aid programs providing assistance to the student. Any amount remaining will be paid to the student.

Dropping a Course
If, between the second and tenth day (fifth day in the summer), a student drops a course(s) and by so doing changes the tuition range, he or she is eligible to receive a refund or credit for the difference in range. Dropping a course after that date without withdrawing from all courses does not result in a reduction of charges.

Withdrawal by an Auditor
A full refund is issued if the withdrawal is made within the first ten days of instruction of the semester or the first five days of instruction of the summer session. Thereafter, no refund is made.

Refund on Withdrawal to Enter Military Service
A graduate student who must withdraw due to being called into active service with the armed forces in a national or state emergency (including being called up for the Active Reserve Forces and the National Guard) will receive a full refund of tuition and fees. The refund of tuition and fees for graduate students who receive financial aid from federal and state programs and private foundations will be governed according to the rules and regulations of those organizations. For students who hold fellowships, the Graduate College will make every effort to restore those awards upon return to UIC. Assistantships (teaching, research, or graduate) are awarded by colleges, graduate programs, research centers and administrative offices, and graduate students who have assistantships should check with those units about the availability of the assistantships upon return from active military service. Graduate students living in University residences will receive a pro rata refund for room and board based on the date of withdrawal. It is the student’s responsibility to present proof of active service status for these actions to occur. See Withdrawal from the University for additional information.

The above refund policies do not apply to the application fee, which is not refundable.

Transcripts
Students who have paid all University fees can obtain their transcripts by submitting a written request to the Office of Admissions and Records and paying the transcript fee. Transcripts and other academic information are provided by the Office of Admissions and Records only at the written request of the student. Contact the Office of Admissions and Records for current fees.

Students needing certification of completion of degree requirements may obtain such certification from the Office of Admissions and Records upon request from the Graduate College.

**Endodontics**

- BeGole, Ellen: PhD, University of Pittsburgh
- Fayad, Mohamed I.: DDS, PhD, AEGD, Cairo University; State University of New York at Buffalo, University of Rochester
- Johnson, Bradford R.: DDS, Virginia Commonwealth University

**Molecular Biology of Oral Diseases**

- Bagchi, Srijita: PhD, University of Calcutta
- Radosevich, James: PhD, University of Chicago
- Wang, Chayyieng: PhD, University of Calgary
**Oral & Maxillofacial Surgery**

- Heffez, Leslie B.  MS, Tufts University
- Daniel, Jon C.  PhD, State University of New York at Buffalo
- Deoerl, Thomas G.H.  PhD, Philips-University of Marburg
- Greaves, Anne  PhD, University of Madras, India
- Kelley, John Jay  PhD, DMD, Yale University
- Lakars, Thomas C.  DDS, MS, University of Illinois
- Li, Jianun  PhD, City University of New York
- Lu, Xianglong  MD, Harbin Medical University (China)
- Tao, Lin  PhD, University of Connecticut

**Oral Biology**

- Obrez, Ales  PhD, University of Illinois at Chicago
- Knoernschild, Kent  PhD, University of Illinois
- Omer, Ales  PhD, University of Illinois at Chicago

**Oral Medicine and Diagnostic Sciences**

- Adam, Guy  PhD, University of Connecticut
- Colvard, Michael D.  DDS, Loyola University Dental School
- Epstein, Joel B.  MD, University of Chicago
- Juric, Richard  PhD, University of Washington
- Klasser, Gary  DMD, University of Manitoba
- Patston, Philip A.  DPhil, University of Oxford
- Sroussi, Herve  PhD, University of California, San Francisco
- Swartz, Joel  DMSc, Harvard University School of Medicine

**Orthodontics**

- BeGole, Ellen  PhD, University of Pittsburgh
- Da Silveira, Adriana Costa  PhD, University of Florida
- Diekwisch, Thomas G.H.  PhD, Philips-University of Marburg
- Evans, Carroltaa (Carla) A.  MD, Harvard University
- Kuwana, Budi  DDS, Indonesia
- Muth, Zane J.  PhD, University of Illinois
- Sadowsky, Cyril  MS, University of Illinois
- Schneider, Bernard J.  DDS, University of Illinois
- Tsay, Tong Guang Peter  PhD, Northwestern University

**Pediatric Dentistry**

- Bolden, Almon J.  MPH, Harvard University
- Botto, Ronald W.  PhD, Pennsylvania State University
- Fadavi-Rudsari, Shahrbanoo  DDS, University of Tehran
- Kaste, Linda M.  DDS, MS, University of North Carolina at Chapel Hill
- Koestler, Anne  PhD, Northwestern University Medical School
- Funwani, Induru  LCdont, University of Bengt

**Periodontics**

- Califano, Joseph  PhD, Virginia Commonwealth University
- Crawford, John M.  PhD, University of Connecticut
- Mancha, Philip J.  PhD, University of Connecticut
- Steinberg, James L.  MS, University of Illinois
- Watanabe, Keiko  DDS, MS, PhD
- Wu, Christine D.  PhD, Loyola University

**Restorative Dentistry**

- Campbell, Stephen D.  DDS, Medical College of Virginia
- Drummond, James L.  PhD, University of Illinois
- Knechtel, Kent  MS, University of Iowa
- Olson, Ales  PhD, University of Illinois at Chicago

</table>
### COLLEGE OF ENGINEERING

#### Bioengineering
- Carley, D. PhD, Harvard University
- Cho, PhD, Duke University
- Dai, Yang PhD, University of Tsukuba, Japan
- Drummond, James L. DDS, PhD
- Gerber, Ben MD, MPH, University of Chicago Pritzker School of Medicine; University of Illinois at Chicago
- He, Bin PhD, Purdue University
- Heting, John R. PhD, University of Illinois at Chicago
- Hier, Daniel B. MD, University of Illinois at Chicago
- Liang, Jie PhD, University of Illinois at Urbana-Champaign
- Lin, James C. PhD, University of Washington
- Lu, Hui PhD, University of Rochester
- Magin, Richard L. PhD, University of Texas at San Antonio
- McCormick, Susan M. PhD, University of Texas SMU
- D’Onofrio, William D. PhD, University of Notre Dame
- Rousse, Patrick J. PhD, University of Utah
- Schneeweis, David M. PhD, University of Michigan-Ann Arbor
- Stroscio, Michael A. PhD, Yale University

#### Chemical Engineering
- Bresnahan, Kenneth PhD, City University of New York
- Linninger, Andreas A. PhD, University of Technology
- Mansoori, G. Ali PhD, University of Oklahoma
- Meyer, Randall PhD, University of Texas at Austin
- Murad, Souhil PhD, Cornell University
- Nitsche, Ludwig C. PhD, Massachusetts Institute of Technology
- Regalbuto, John R. PhD, University of Notre Dame
- Takoudis, Christos PhD, University of Minnesota
- Wendlandt, Lewis E. PhD, University of Wisconsin-Madison

#### Civil and Materials Engineering
- Ansari, Farhad PhD, University of Illinois at Chicago
- Chakrabarti, Subrata PhD, Colorado University
- Chudnovsky, Alexander PhD, Leningrad C Eng Inst (Russia)
- Darnault, Christiano PhD, Cornell University
- Dillali, Meher A PhD, Colorado School of Mines
- Issa, Mohsen A PhD, University of Texas
- Khoshoussi, Amir PhD, University of Cincinnati
- Lemki, Donald G. PhD, University of Pennsylvania
- Lin, Jen (Jane) MA, Harvard University; Cambridge
- Masud, Arif PhD, Stanford University
- McHale, Michael J. PhD, Massachusetts Institute of Technology
- Mohammadian, Abolfazl (Kourosh) PhD, University of Toronto
- Reddy, Krishna R. PhD, Illinois Institute of Technology
- Rockne, Karl J. PhD, University of Washington
- Theurer, Ilia PhD, Harvard University
- Wang, Ming L. PhD, University of New Mexico
- Wu, Chen Heng PhD, University of Minnesota

#### Computer Science
- Balasa, Florin PhD, University of Burcharest
- Bernstein, Daniel J. PhD, University of California, Berkeley
- Boykoff, A. PhD, University of Massachusetts
- Cruz, Maria Isabel PhD, University of Toronto, Canada
- Dai, Yang PhD, University of Tsukuba, Japan
- Dasgupta, Bhaskar PhD, University of Minnesota
- De Fanti, Thomas A. PhD, Ohio State University
- Di Eugenio, Barbara PhD, University of Pennsylvania
- Ding, Wensuan PhD, Carnegie Mellon University
- Dukh, Shantung PhD, University of Michigan
- Gmytrasiewicz, Piotr PhD, University of Michigan
- Johnson, Andrew PhD, Wayne State University
- Kenyon, Robert V. PhD, University of California, Berkeley
- Khemkialayi, Ajay D. PhD, Ohio State University
- Lee, Der-Tsai PhD, University of Illinois at Urbana-Champaign
- Lee, Gyuho PhD, University of Illinois at Urbana-Champaign
- Leigh, Jason PhD, University of Illinois at Charleston
- Liang, Jie PhD, University of Illinois at Urbana-Champaign
- Liu, Bing PhD, University of Edinburgh, UK
- Liu, Derong PhD, University of Notre Dame
- Moher, Thomas G. PhD, University of Minnesota
- Murata, Tadao PhD, University of Illinois at Urbana-Champaign
- Nelson, Peter C. PhD, Northwestern University
- Schatz, Sol M. PhD, Northwestern University
- Siviglia, Prasad Aravinda PhD, Harvard University
- Sloan, Robert H. PhD, Massachusetts Institute of Technology
- Sokolowski, Jon A. PhD, Courant Institute of Mathematical Sci, NYU
- Zhang, Boz J. PhD, University of Texas at Austin
- Theye, Mitchell D. PhD, Purdue University
- Tsai, Jeffrey J.P. PhD, Northwestern University
- Wolfson, Ouri PhD, Columbia University
- Yu, Clement T. PhD, Cornell University
- Yu, Oliver PhD, University of British Columbia, Vancouver, Canada

#### Electrical and Computer Engineering
- Ansari, Rashid PhD, Princeton University
- Baranjeet, Prithviraj PhD, University of Illinois at Urbana-Champaign
- Ben-Arie, Jozek PhD, Drisc Israel Institute of Technology
- Chowdhury, Masud PhD, Northwestern University
- Dutt, Shantung PhD, University of Michigan
- Dutta, Mitra PhD, University of Cincinnati
- Ercilo, Danilo PhD, University of Illinois at Chicago
- Feinerman, Alan D. PhD, University of California-Los Angeles
- Ghosh, Siddhartha PhD, University of Michigan
- Graupe, Daniel PhD, University of Liverpool (England)
- Khokhar, Ashfaq PhD, University of Southern California
- Laxpati, Sharad R. PhD, University of Illinois at Urbana-Champaign
- Lee, Gyuho PhD, University of Illinois at Urbana-Champaign
- Lin, James PhD, University of Washington
- Liu, Derong PhD, University of Notre Dame
- Mazumder, Sudip PhD, Virginia Polytechnic Institute
- Metlushko, Vitaly V. PhD, Moscow State University
- Nehorai, Arye PhD, Stanford University
- Przemeck, Roland PhD, Illinois Institute of Technology
- Schonfeld, Daniel PhD, The Johns Hopkins University
- Stroscio, Michael A. PhD, Yale University
- Tanner, R. Michael PhD, Stanford University
- Tuninetti, Daniela PhD, Telecom Paris
- Udenghi, Piotr Gregorio L.E. PhD, University of Michigan
### Mechanical and Industrial Engineering

- Addita, Elodie PhD, Massachusetts Institute of Technology
- Aggarwal, Suresh K. PhD, Georgia Institute of Technology
- Amirouche, Farid M.L. PhD, University of Cincinnati
- Banerjee, Prashant PhD, Purdue University
- Baranescu, Rodica PhD, Politehnica University Bucharest, Romania
- Bevin, Elisa PhD, Northeastern University
- Cetinkunt, Sabri PhD, Georgia Institute of Technology
- Chai, Soyoung S. PhD, University of Michigan
- Darabi, Houshang PhD, Rutgers University
- He, David PhD, University of Iowa
- Loft, Francis PhD, Georgia Institute of Technology
- Mhashayek, Farzad PhD, State University of New York at Buffalo
- Megaridis, Constantine PhD, Brown University
- Minkowitz, W. J. PhD, University of Minnesota
- Royston, Thomas J. PhD, Ohio State University
- Saggers, Lamman PhD, University of Michigan
- Scott, Michael J. PhD, California Institute of Technology
- Shabana, Ahmed A. PhD, University of Iowa
- Wolf, William M. PhD, Illinois Institute of Technology

### GRADUATE INTERDISCIPLINARY PROGRAMS

#### Neuroscience

- Alexander, Kenneth R. PhD, University of Washington
- Alfonso, Aixa PhD, University of Wisconsin-Madison
- Alford, Simon T. PhD, University of London (U.K.)
- Alperin, Noam PhD, University of Chicago
- Anderson, Conwell PhD, University of Kansas
- Appel, Sarah B. PhD, University of Illinois at Chicago
- Art, Jonathan J. PhD, University of Chicago
- Arun, Alexander S. PhD, Institute of Traumatology and Orthopedics (Litha)
- Brady, Scott T. PhD, University of Southern California
- Brettmayer, Bonnie J. PhD, Brown University
- Brones, Teresita PhD, University of Michigan
- Brodie, Mark S. PhD, University of Illinois at Chicago
- Burgener, Sandra C. PhD, Wayne State University
- Campbell, Suzan K. PhD, PT, University of Wisconsin-Madison
- Carter, C. Sue PhD
- Chambers, Donald PhD, Columbia University
- Cho, H. Su PhD, University of Baroda (India)
- Chen, Jiaxin PhD, University of Connecticut
- Cooper, Mary Ann MD, Michigan State University
- Corcos, Daniel M. PhD, University of Oregon
- Dvivedi, Yogesh PhD, Central Drug Research Institute
- Fall, Christopher PhD, University of Virginia
- Featherstone, David E. PhD, Utah State University
- Feinbron, Douglas PhD, The Johns Hopkins University
- Gualtieri, Edward A. MD, New York University
- Hasan, Zaful PhD, Massachusetts Institute of Technology
- Heiling, John R. PhD, University of Illinois at Chicago
- Holden, Janean E. PhD, University of Michigan
- Kello, Stephen R. PhD, Ohio State University
- Liang, J. Mary Jo PhD, University of Illinois
- Laurita, Charles E. MD, University of Pittsburgh School of Medicine
- Lazarov, Orly PhD, Weizmann Institute of Science, Rehovot, Israel
- Leonard, John P. PhD, Rockefeller University
- Lieszman, Susan W. PhD, University of Rochester
- Little, Deborah M. PhD, Brandeis University
- Lysakowski, Anna PhD, University of Illinois
- Magin, Richard L. PhD, University of Rochester
- Maloch, Robert Paul PhD, State University of New York at Stony Brook
- Manev, Hari MD, PhD, Zagreb University (Croatia)
- Mirkin, Sergei M. PhD, Institute of Molecular Genetics, Moscow
- Murphy, A. Don PhD, University of Iowa
- Nakajima, Yasuko MD, PhD, University of Toyko, Japan
- O’Neill, William D. PhD, University of Notre Dame
- Pandey, Subhash PhD, Central Drug Research Institute (India)
- Pappas, George D. PhD, Ohio State University
- Gian, Haohua PhD, University of Illinois at Chicago
- Ruduvanikki, Miodrag MD, PhD, University of Belgrade (Serbia)
- Raggozino, Michael E. PhD, University of Virginia
- Rasmick, Mark M. PhD, Wesleyan University
- Reilly, Stephen PhD, University of North England
- Richard, Janet E. PhD, University of Michigan
- Ripp, Harris PhD, Columbia University
- Schiemmer, R. Francis PhD, University of Illinois at Chicago
- Schneeweis, David M. PhD, University of Michigan-Arbor
- Shahidi, Mahnaz PhD, University of Illinois at Chicago
- Shippy, Scott PhD, University of Illinois at Urbana-Champaign
- Super, Boaz J. PhD, University of Texas at Austin
- Thutborn, Keith R. MD, Washington University
- Unverstall, James F. PhD, University of Michigan
- Vailancourt, David E. PhD, Pennsylvania State University
- Wolf, William PhD, The George Washington University

#### COLLEGE OF LIBERAL ARTS AND SCIENCES

##### African-American Studies

- Arnesen, Eric PhD, Yale University
- Boyd, Michelle R. PhD, Northwestern University
- Hawkins, Darrell F. JD, University of North Carolina; PhD, University of Michigan
- Kaba, Lamine PhD, Northwestern University
- Lewis, Amanda E. PhD, University of Michigan
- Lyles, Kevin L. PhD, Washington University in St. Louis
- Marks, Bryant T. PhD, University of Michigan-Arbor
- Pierre, Jemima PhD, University of Texas at Austin
- Ramsey, Barbara PhD, University of Pennsylvania
- Reed, J., Adam L. PhD, Atlanta University
- Royster, Phillip M. PhD, Loyola University
Anthropology

Bauer, Brian S. PhD, University of Chicago
Cousins, Andrew L. PhD, Emory University
Koepke, Paul PhD, University of California, Berkeley
Lurie, Laura PhD, University of Michigan
Koay, Lawrence H. DP, Oxford University
Kraner, Waan PhD, University of Chicago
Lieber, Michael D. PhD, University of Pittsburgh
Lichty, Mark PhD, University of Pennsylvania
Monaghan, John D. PhD, University of Pennsylvania
Palka, Joel W. PhD, Vanderbilt University
Phillips, James L. PhD, Southern Methodist University
Prost, Jack H. PhD, University of Chicago
Reddy, Nancy C. PhD, Columbia University
Staton, David E. PhD, Emory University
Tatuk, Sylvia J. PhD, Harvard University
Weston, Cameron PhD, University of Illinois at Urbana-Champaign
Williams, Sean PhD, Northwestern University

Biological Sciences

Alfonso, Aixa PhD, University of Barcelona, Spain
Alford, Simon T. PhD, University of Illinois at Urbana-Champaign
Anderson, Louise E. PhD, University of London
Ashley, Mary V. PhD, University of California, San Diego
BassiriRad, Hormoz PhD, University of Arizona
Brown, Joel S. PhD, University of Arizona
Buhs, Howard E. PhD, State University of Iowa
Corner, Christopher M. PhD, University of Chicago
Dubreuil, Ronald R. PhD, University of Illinois at Chicago
Featherstone, David E. PhD, Utah State University
Gonzalez-Meler, Miguel, PhD, University of Barcelona, Spain
Howe, Mary V. PhD, University of Michigan-Ann Arbor
Hulett, F. Marion PhD, University of Illinois at Urbana-Champaign
Jeffery, Constance PhD, University of California, Berkeley
Kaufman, Jon S. PhD, State University of New York at Stony Brook
Keister, Stephen R. PhD, Ohio State University
Leonard, John P. PhD, Cornell University
Lubin, Susan W. PhD, University of Rochester
Lussenhop, John F. PhD, University of Wisconsin-Madison
Malchow, Robert Paul PhD, State University of New York at Stony Brook
Maron-Gamer, Roberta J. PhD, Northwestern University
Munro, A. Don PhD, University of Iowa
Nichols, Brian P. PhD, University of Iowa
Nyberg, Dennis PhD, University of Illinois at Urbana-Champaign
Okema, Peter G. PhD, University of Wisconsin-Madison
Onen, Teresa Vales PhD, Northwestern University
Park, Thomas J. PhD, University of Maryland
Pollack, Emanuel D. PhD, University of Iowa
Richmond, Janet E. PhD, University of Calgary
Schmidt, Jennifer Virginia PhD, Northwestern University
Segal, Harold E. PhD, University of Arizona
Stone, David E. PhD, University of Wisconsin-Madison
Weaver, Steven PhD, University of Michigan
Witmer, Herman J. PhD, Indiana University

Chemistry

Burns, Richard P. PhD, University of Chicago
Cho, Wanhee PhD, University of Chicago
Chich, David DSC, University of Paris (France)
Driver, Tom PhD, University of California, Irvine
Fung, Leslie PhD, Massachusetts Institute of Technology
Georgiev, Vladimir PhD, Institute of Organic Synthesis, Latvia
Gisason, Eric A. PhD, Harvard University
Gordon, Robert J. PhD, Harvard University
Hanley, Luke PhD, State University of New York at Stony Brook
Iishi, Yoshitaka PhD, Kyoto University
Keiderling, Timothy PhD, Princeton University
Kiral, Peter PhD, Academy of Sciences, Prague
Miller, Laurence PhD, University of Wisconsin-Madison
Morrison, John A. PhD, University of Maryland
Newcomb, Martin PhD, University of Illinois at Urbana-Champaign
Shippy, Scott PhD, University of Illinois at Urbana-Champaign
Snee, Preston PhD, University of California, Berkeley
Teo, Boon Keng PhD, Chinese University (Hong Kong)
Trenary, Michael PhD, Massachusetts Institute of Technology
Wardrop, Duncan PhD, University of Glasgow
Wink, Donald J. PhD, Harvard University

Classics and Mediterranean Studies

Bortone, Pietro DPhil, Mphil, MSt, Oxford University
MacGregor, Alexander P. PhD, University of Chicago
Marinatos, Nanno PhD, University of Colorado at Boulder
Ramsey, John T. PhD, Harvard University
Reisman, David C. PhD, Yale University
Vale, John PhD, Columbia University

Communication

Barnhurst, Kevin G. PhD, University of Amsterdam, The Netherlands
Chang, Hui-Ching PhD, University of Illinois at Urbana-Champaign
Danowski, James A. PhD, Michigan State University
Hakan, Patricia PhD, University of California
Holt, G. Richard PhD, University of Illinois at Urbana-Champaign
Jones, John A. PhD, University of Illinois at Urbana-Champaign
Jones, Steven Anthony PhD, University of Illinois at Urbana-Champaign
Lambert, Bruce PhD, University of Illinois at Urbana-Champaign
Lind, Rebecca Ann PhD, University of Minnesota
Margolin, Victor PhD, Union Graduate School
McCloskey, Deirdre PhD, Harvard University
Rojecki, Andrew PhD, Northwestern University
Soinski, James PhD, Pennsylvania State University

Criminal Justice

Frohmann, Lisa PhD, University of California, Los Angeles
Hagedorn, John M. PhD, University of Wisconsin-Madison
Lazarus-Black, Mindie PhD, University of Chicago
Lipman, Matthew R. PhD, Northwestern; LLM, Harvard
Malbed, Greg PhD, University of Missouri-Columbia
Richie, Beth PhD, City University of New York
Rosenbaum, Dennis P. PhD, Loyola University Chicago
Schaffner, Laurie PhD, University of California, Berkeley
Schuck, Arnie M. PhD, University of South Florida
Ullman, Sarah E. PhD, Brandeis University

Earth and Environmental Science
Donan, Peter T. PhD, University of Nevada, Reno
Flower, Martin F.J. PhD, University of Manchester (England)
Forman, Steven L. PhD, University of Colorado
Guggenheim, Stephen J. PhD, University of Wisconsin-Madison
Kenig, Fabien PhD, Universite d’Orleans
Nagy, Kathryn L. PhD, Texas A&M University
Plotnick, Roy E. PhD, University of Chicago
Stein, Carol A. PhD, Columbia University
Sturchio, Neil C. PhD, Washington University

English
Ashton, Jennifer PhD, The Johns Hopkins University
Barnes, Natasha PhD, University of Michigan
Bestul, Thomas H. PhD, Harvard University
Brown, Nicholas PhD, Duke University
Cameron, Richard PhD, University of Pennsylvania
Canuel, Mark PhD, The Johns Hopkins University
Chang, Mark PhD, University of California, Berkeley
Citron, Ralph PhD, University of Illinois at Chicago
Crillo, Nancy R. PhD, New York University
Davis, Lennard PhD, Columbia University
Debitrigger, Todd PhD, University of Michigan-Ann Arbor
Dudas, Madhu PhD, University of Illinois at Urbana-Champaign
Felman, Joseph PhD, State University of New York at Buffalo
Freeman, Lisa PhD, University of Pennsylvania
Gardiner, Judith Kegan PhD, University of California, Berkeley
Graff, Gerald PhD, Stanford University
Grey, Robin S. PhD, University of California, Los Angeles
Hall, Thomas N. PhD, University of Illinois at Urbana-Champaign
Harkin, Patricia PhD, Miami University
Higgins, Brian PhD, University of Southern California
Hollan, Sharon P. PhD, University of Michigan-Ann Arbor
Hults, S. Carl PhD, Claremont Graduate University
Huntley, Philip PhD, University of California, Berkeley
Inoue, Kiyoko PhD, University of Michigan
Judd, Elliot L. PhD, New York University
Jun, Helen PhD, University of California, San Diego
Libb, Michael J. PhD, Rutgers University
Lukacher, Ned PhD, Duke University
Makai, Adam PhD, Yale University
March-Wilson, Mary PhD, Columbia University

Germanic Studies
Alexander, Michael C. PhD, University of Toronto, Canada
Amstutz, Eric PhD, Yale University
Barron, Renato B. PhD, Princeton University
Bleibtreu, Cynthia M. MPhil, Oxford University
Blakstein, Burton PhD, Princeton University
Boyce, Christopher R. PhD, University of Chicago
Brier, Jennifer PhD, Rutgers University
Calder, Bruce J. PhD, University of Texas at Austin
Capers, Corey PhD, University of California, Santa Cruz
Carruthers, Elspeth PhD, Princeton University
Cocroft, James E. DPhil, Oxford University
Daly, Jonathan PhD, Harvard University
D’Emilio, John PhD, Columbia University
Duits, Perry R. PhD, University of Chicago
Fanning, Steven PhD, University of Minnesota
Fink, Leon R. PhD, University of Rochester
Fried, Richard PhD, Columbia University
Hoppe, Kirk A. PhD, Boston University
Hosmer, Brian PhD, University of Texas at Austin
Hostetter, Laura PhD, University of Pennsylvania
Huppert, George PhD, University of California, Berkeley
John, Richard R. PhD, Harvard University
Johnston, Robert D. PhD, Rutgers University
Jordan, David P. PhD, Yale University
Jordan, Nicole Noelle PhD, Princeton University
Levine, Susan B. PhD, City University of New York
Levy, Richard S. PhD, Yale University
Lichty, Mark PhD, University of Pennsylvania
Ling, Deirdre PhD, Harvard University
Maloney, Timothy E. PhD, University of Chicago
Morgan, Richard PhD, University of Michigan
Morley, J. Elizabeth PhD, University of Michigan
Moshier, Susan PhD, University of Pennsylvania
Nashat, Guity PhD, University of Chicago
Perlmutter, Michael PhD, University of Chicago
Ramsey, Michael PhD, University of Michigan-Ann Arbor
Sack, James PhD, University of Michigan

### COLLEGE OF PHARMACY

#### Biopharmaceutical Sciences

- **Beck, William T.** PhD, The George Washington University
- **Gaemers, Robert F.** PhD, Cornell University
- **Gemeinhart, Richard A.** PhD, Purdue University
- **Guasti, Anil** MD, King George’s Medical College
- **Koch, Ronald L.** PhD, University of Illinois at Chicago
- **Negruzzi, Adam** PhD, Nicolas Copernicus Medical Academy
- **Onyekiel, Hayat** PhD, University of London
- **Plotnikoff, Nicholas P.** PhD, University of Texas, Galveston
- **Schlemmer, R. Francis** PhD, University of Illinois at Chicago
- **Tomita, Satoru A.** PhD, University of Chicago
- **Wang, Jiai Jim** PhD, University of California, San Francisco
- **Wood, Eugene F.** PhD, Medical University of South Carolina

#### Medicinal Chemistry and Pharmacognosy

- **Bell, Julie A.** PhD, Pasteur Institute, University of Paris
- **Bolton, Judy L.** PhD, University of Toronto
- **Bruzik, Karol S.** PhD, Polish Academy of Science
- **Cordell, Geoffrey A.** PhD, University of Manchester
- **Dunn, William J.** PhD, Oklahoma State University
- **Farrar, Norman R.** PhD, University of Pittsburgh
- **Fong, Harry H.S.** PhD, Ohio State University
- **Franzblau, Scott G.** PhD, University of Arizona, Tucson
- **Hopfinger, Anton J.** PhD, Case Western Reserve University
- **Johnson, Michael E.** PhD, Northwestern University
- **Kinghorn, A. Douglas** PhD, University of London
- **Lu, Matthias C.H.** PhD, Ohio State University
- **Manke, Alexander S.** PhD, Moscow State University
- **Meacci, Andrea** PhD, University of Notre Dame
- **Nefakh, Alexandre A.** PhD, Moscow State University
- **Orjala, Jimmy** Swiss Federal Institute of Technology (ETH), Zurich, Switzerland
- **Pauly, Guido F.** PhD, Institute of Pharmaceutical Biology, Heinrich Heine University, Duesseldorf (Germany)
- **Petukhov, Pavel A.** PhD, Novosibirsk Institute of Organic Chemistry
- **Soejarto, Djaja D.** PhD, Harvard University
- **Swanson, Steven M.** PhD, University of Illinois at Chicago
- **van Breemen, Richard** PhD, The Johns Hopkins University
- **Venton, Duane L.** PhD, University of Michigan
- **Woodbery, Charles F.** PhD, University of Wisconsin-Madison

### Pharmacy Administration

- **Crawford, Stephanie Yvonne** PhD, University of Texas at Austin
- **Lambert, Bruce L.** PhD, University of Illinois at Urbana-Champaign
- **Lin, Siu-Jane** PhD, University of Illinois at Chicago
- **Morr, Robert G.** PhD, University of Illinois at Chicago
- **Popovich, Nicholas G.** PhD, University of Illinois at Chicago
- **Salmon, J. Warren** PhD, Cornell University
- **Walton, Susan M.** PhD, University of Chicago
- **Woodward, Jean M.B.** PhD, University of Texas at Austin

### Pharmacy Practice

- **Bauman, Jerry L.** PhD, University of Missouri-Kansas City
- **Bishop, Jeffrey R.** PharmD, University of Iowa College of Pharmacy
- **Cavallari, Larisa M.** PharmD, University of Georgia
- **Danziger, Larry H.** PharmD, University of Cincinnati
- **Fischer, James H.** PharmD, University of Chicago
- **Hanes, Scott D.** PharmD, University of Illinois at Chicago
- **Kraus, Donna M.** PharmD, University of Illinois at Chicago
- **Lau, Alan H.** PharmD, State University of New York at Buffalo
- **Mahady, Gail B.** PhD, University of Illinois at Chicago
- **Pickard, Alan Simon** PharmD, University of Alberta, Canada
- **Rodvold, Keith A.** PharmD, University of Minnesota
- **Sagares, Rosalie** PharmD, University of Washington
- **Schumock, Glen Thomas** PharmD, University of Washington
- **Shord, Tracy S.** PharmD, University of North Carolina
- **Touchette, Daniel R.** PharmD, University of Wisconsin

### SCHOOL OF PUBLIC HEALTH

- **Abrecht, Gary L.** PhD, Emory University
- **Amuwo, Shaffdeen A.** PhD, UIUC, Columbia Pacific University
- **Anderson, Robert J.** PhD, University of Michigan
- **Bailey, Robert C.** PhD, Harvard University
- **Beim, Craig** Iowa State University
- **Bhakur, Paul** PhD, University of Virginia
- **Boulos, Badi M.** PhD, University of Missouri
- **Callas, Michael D.** PhD, McGill University
- **Calhoun, Elizabeth Ann** PhD, University of South Carolina
- **Chavez, Noel** PhD, St. Louis University
- **Chen, Hua Yun** PhD, University of Chicago
- **Conrad, Karen Maria** PhD, University of Illinois at Urbana-Champaign
- **Conrad, Kenneth J.** PhD, University of Illinois at Chicago
- **Corzzi, Lorraine M.** ScD, Harvard University
- **Crockett, Judith A.** MD, MPH, University of Illinois
- **Croke, Kevin G.** PhD, Northwestern University

BIOMEDICAL VISUALIZATION

Mailing Address: Biomedical and Health Information Sciences (MC 520)
Biomedical Visualization
Office of Graduate Programs
1919 West Taylor Street
Chicago, IL 60612-7249

Campus Location: 250 AHSB
Program Code: 20FS1075MS
Telephone: (312) 996-6317
E-mail: bhis@uic.edu
Web Site: http://www.bhis.uic.edu

Director of Graduate Studies: Annette L. Valenta

The Department of Biomedical and Health Information Sciences (BHIS) offers a two-year graduate program leading to the Master of Science (MS) in Biomedical Visualization. Course work and research focus on the general areas of computer-based illustration and design; computer visualization; and prosthetics/3-D model design. Required core courses emphasize basic science, imaging modalities, and visual problem-solving. The department has affiliations with veterinary schools, prosthetics clinics, museums, and private businesses for an elective internship experience. BHIS also offers the MS in Health Informatics and a Certificate in Health Informatics.

ADMISSION REQUIREMENTS

In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Science

Baccalaureate Field No restrictions. Prior academic work must include four drawing courses (at least two must be life drawing), one course each in graphic design, computer graphics, comparative anatomy (or an advanced biology course that includes mammalian dissection), physiology, human histology, and vertebrate embryology (or developmental anatomy). Course work in sculpture is recommended for applicants interested in prosthetics/3-D model design; course work in computer graphics is recommended for applicants interested in computer visualization; and course work in painting and illustration is recommended for applicants interested in illustration and design.

Grade Point Average At least 3.00/4.00 for the final 60 semester (90 quarter) hours of undergraduate study and for all cumulative graduate work previously taken.

Tests Required GRE General and Writing assessment or GMAT. Test scores are required for all but applicants with a graduate or professional degree at the master’s and doctoral level (e.g., MS, MA, MFA, PhD, ScD, MD, DDS, DO, DrPH, PharmD) from an accredited U.S.

or Canadian school. The prior training must be relevant to the basic field of the area of concentration. Applicants with the above stated degree from foreign schools whose application processes are sponsored by an accepted referral services, such as AFGRAD or AMIDEAST, are considered.

Minimum TOEFL Score If the applicant has taken the paper-based TOEFL, minimum scores in the range of 585–600 will be considered; in addition, the applicant must take the Test of Written English and submit scores in the range of 5–6. If the applicant has taken the computer-based TOEFL, minimum scores in the range of 240–250 will be considered. In this case the Test of Written English is not required. Applicants taking the new Internet-based TOEFL must have a minimum score of 95, with subscores of Reading 24, Listening 22, Speaking 24, and Writing 24.

Letters of Recommendation Three required from instructors or employers using Graduate College forms.

Personal Statement The statement should address the applicant’s goals for graduate study and career development.

Other Requirements A personal interview and portfolio review with the departmental faculty are required. The portfolio must include twenty slides of representational images in any media, but must include figure drawings and/or paintings. A stamped, self-addressed envelope should be enclosed for the portfolio’s return.

Deadlines The application deadline for this program is earlier than the Graduate College deadline; contact the program for information on current deadlines.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

Minimum Semester Hours Required 50–52.

Course Work Required Courses: ANAT 441; BHIS 405, 499, 500, and 595; and BVIS 400, 405, 410 (or the equivalent), 415, 420, 430, 440, 450, 460, 480, and 595.

Selectives: 10 hours from among ANAT 414; BVIS 515, 520, 525, 530, 540, 542, 545, 546, 550, 555, 580, 594, and 596.

Comprehensive Examination None.

Thesis, Project, or Course-Work-Only Options Thesis or project required. No other options are available.

Thesis: Students must earn at least 7 hours in BVIS 598.

Project: Students who complete a project must earn at least 5 hours in BVIS 597.

Other Requirements Continuous Registration: Students who have completed all degree requirements except the thesis/project must register for zero credit hours to maintain continuous registration.
DISABILITY AND HUMAN DEVELOPMENT

Mailing Address: Department of Disability and Human Development (MC 626) 1640 West Roosevelt Road Chicago, IL 60608-6904

Campus Location: 436 DHSP
Program Code: 20FS1165MS
Telephone: (312) 413-1647
E-mail: DHD@uic.edu
Web Site: http://www.ahs.uic.edu/dhd
Head of the Department: Tamar Heller
Director of Graduate Studies: Glenn T. Fujura

The Department of Disability and Human Development (DHD) offers work leading to the Master of Science in Disability and Human Development. Study and research are available in the concentrations of 1) Disability Studies and Social Policy and 2) Rehabilitation Technology. An interdepartmental concentration in Gender and Women’s Studies is available to students in this program. The program articulates closely with the PhD program in Disability Studies. For further information on the Doctor of Philosophy in Disability Studies, see Disability Studies in the Applied Health Sciences section of the catalog.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Science

Baccalaureate Field No restrictions.

Grade Point Average At least 3.00/4.00 for the final 60 semester (90 quarter) hours of undergraduate study. In exceptional cases applicants having a lower GPA may be admitted if they can demonstrate substantial evidence of their ability to complete the program successfully.

Tests Required GRE General with a combined verbal and quantitative score of 1000.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required.

Personal Statement Required.

Other Requirements Applicants must complete all forms included in the department’s application packet.

Deadlines To receive full consideration for fall admission, including consideration for graduate assistantships, applications should be received by March 15 of the year in which admission is being sought.

DEGREE REQUIREMENTS

In addition to the minimum requirements of the Graduate College, students must meet the following program requirements:

Master of Science

Minimum Semester Hours Required 36.

Course Work This program requires a minimum of 36 semester hours of credit. At least 12 of these 36 hours must be attained in courses at the 500-level. A minimum of 13 elective hours must be taken. A maximum of 25% of the 36 hours (9 semester hours) may be transferred from accredited and acceptable graduate study at other institutions. Therefore, all students are required to earn a minimum of 27 semester hours of credit in formal course work and thesis/project work within the Master of Science program. Thesis research or thesis project credit may not exceed 40% of the required 36 hours, or a maximum of 14 hours.

Required Core Courses: DHD 401 and DHD 510.

Concentration Courses:

Disability Studies and Social Policy—Must complete the following two additional courses: DHD 430 and DHD 570.

Rehabilitation Technology—Must complete the following two additional courses: DHD 440; and DHD 551 or 565.

Comprehensive Examination A written comprehensive examination is required only for students who do not elect the thesis option.

Thesis, Project, or Course-Work-Only Options

Thesis or project required. No other options are available.

Thesis: A thesis is strongly recommended for students interested in pursuing careers in scholarship or research. Students electing a thesis must complete either DHD 546 or DHD 515 or an equivalent graduate-level statistics course, and must complete at least 8 hours of DHD 598.

Project: Students must complete at least 4 hours of DHD 597. Students electing the project option must complete an additional 7 semester hours of course work to reach the 36 hours required for the degree. The additional hours may be taken in the form of elective courses or project hours.

Interdepartmental Concentration in Gender and Women’s Studies

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Gender and Women’s Studies after consulting with their graduate adviser. See Gender and Women’s Studies in the College of Liberal Arts and Sciences section for more information.
DISABILITY STUDIES

Mailing Address: PhD in Disability Studies Program
College of Applied Health Sciences (MC 626)
1640 West Roosevelt Road, Room 215
Chicago, IL 60608
Campus Location: 215 DHSP
Program Code: 20FS1166PHD
Telephone: (312) 996-1508
E-mail: sr22@uic.edu
Web Site: http://www.ahs.uic.edu/ahs/php/
E-mail: sr22@uic.edu

The Disability Studies Program offers work leading to the Doctor of Philosophy in Disability Studies. An interdepartmental concentration in Gender and Women's Studies is available to students in this program.

ADMISSION REQUIREMENTS

Applicants will be considered on an individual basis by the Admission Committee for the doctoral program in Disability Studies. Individuals who fail to meet one or more criteria for admission may be admitted conditionally if their applications are otherwise strong and the applicant agrees to work with her/his mentor to address these gaps through courses and other recommended work.

To establish a mentor relationship, all applicants for the program are strongly encouraged to meet one or more faculty members whose research interests most closely match those of the student. The coordinator of the PhD program will arrange such meetings for applicants upon request.

In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Doctor of Philosophy

Baccalaureate Field No restrictions.

Prior Degrees A master's degree is not required but is recommended for admission to the program.

Grade Point Average At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study and a minimum of 3.00/4.00 for all work beyond the baccalaureate level.

Tests Required GRE General with a combined score of at least 1000 for the verbal and quantitative sections.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with sub-scores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required.

Personal Statement Required.

DEGREE REQUIREMENTS

The Disability Studies Program is designed primarily as a full-time course of study. Students who are full time will be expected to maintain a course load of three or more classes per semester. Each student will have an adviser chosen from the faculty of the program. The adviser will monitor the student's progress through the program and serve as the chair for the dissertation committee.

Doctor of Philosophy

Minimum Semester Hours Required 96 semester hours beyond the baccalaureate degree.

Course Work Required Courses: DIS 501, 502, 515, 541, and 2 hours of 595. At least 2 additional research courses appropriate to the student's research interests are chosen with an adviser.

Elective Courses: 24 semester hours of study in a content area, chosen in consultation with the student's adviser. At least 12 hours must be from within the College of Applied Health Sciences.

Examinations Preliminary Examination: Required, written and oral.

Dissertation Required. A minimum of 24 semester hours required. The dissertation must be defended at a public session before the dissertation committee and other members of the academic community.

Other Requirements Students entering the program with a baccalaureate degree are required to participate in a research project approved by their adviser. Students entering with a master's degree may have this requirement waived if they have completed equivalent work on a master's thesis.

Interdepartmental Concentration in Gender and Women's Studies

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Gender and Women's Studies after consulting with their graduate adviser. See Gender and Women's Studies in the College of Liberal Arts and Sciences section for more information.

HEALTH INFORMATICS

Mailing Address: Department of Biomedical and Health Information Sciences (MC 530)
Office of Graduate Programs
1919 West Taylor Street
Chicago, IL 60612-7249
Campus Location: 250 AHSB
Program Code: 20FS1303MS
Telephone: (312) 996-6317
E-mail: bhisgrad@uic.edu
Web Site: http://www.bhis.uic.edu
Director of Graduate Studies: Dr. Annette L. Valenta
The Department of Biomedical and Health Information Sciences (BHIS) offers course work leading to an online Master of Science in Health Informatics. Health Informatics is the science of
evaluating, implementing, and utilizing technology to manage all information related to the patient care delivery process: clinical, financial, technological, and enterprise. BHIS participates in two joint degree programs, the MS in Health Informatics/MS in Nursing and the MS in Health Informatics/Doctor of Pharmacy. An online certificate in health informatics is available for healthcare professionals who already have a master’s degree. BHIS also offers the MS in Biomedical Visualization.

ADMISSION REQUIREMENTS

Applicants will be considered on an individual basis by the BHIS Committee on Academic and Educational Policy. Individuals determined to be deficient in one or more areas may be recommended to the Graduate College for admission upon the condition that any deficiencies are remedied through appropriate course work.

In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Science

**Baccalaureate Field** No restrictions. The baccalaureate degree must be consistent with the applicant’s chosen area of study and career goals within health informatics.

**Grade Point Average** At least 3.00/4.00 for the final 60 semester (90 quarter) hours of undergraduate study and for all cumulative graduate work previously taken.

**Tests Required** GRE General and Writing assessments, GMAT, or MCAT. Only scores from the MCAT exam administered from the year 1991 and after will be accepted.

**Minimum TOEFL Score** If the applicant has taken the paper-based TOEFL, minimum scores in the range of 585–600 will be considered; in addition, the applicant must take the Test of Written English and submit scores in the range of 5–6. If the applicant has taken the computer-based TOEFL, minimum scores in the range of 240–250 will be considered. In this case the Test of Written English is not required. Applicants taking the new Internet-based TOEFL must have a minimum score of 95, with subscores of Reading 24, Listening 22, Speaking 24, and Writing 24.

**Letters of Recommendation** Three required using the program’s template.

**Personal Statement** Required. The statement should address the applicant’s goals for graduate study and career development.

**Other Requirements** Prior academic work must include a course in basic computing skills (or comparable experience) and one course in graduate-level basic statistics taken within the last five years. The latter may be taken upon matriculation. The following prerequisites for the health informatics program may be taken upon matriculation, as equivalent course work, or as healthcare experience: HIM 310—Introduction to the Healthcare System, HIM 317—Principles of Health Information Management (content of the health record), and BHIS 460—Introduction to Health Informatics.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

<table>
<thead>
<tr>
<th><strong>Minimum Semester Hours Required</strong></th>
<th>45.</th>
</tr>
</thead>
</table>

**Course Work**

- **Required Courses:** BHIS 437, 499, 500, 503, 505, 510, 511, 525, 537, 580, and 595.

- **Electives:** Choice of electives to reach a minimum of 45 hours should be guided, in consultation with adviser, by the area of interest.

**Comprehensive Examination** None

**Thesis, Project, or Course-Work-Only Option**

- **Thesis:** Students must earn at least 8 hours in BHIS 598.
- **Project:** Students must earn at least 4 hours in BHIS 597.

**Other Requirements**

- **Continuous Registration:** Students who have completed all degree requirements except the thesis/project must register for zero credit hours to maintain continuous registration.

MS in Health Informatics/MS in Nursing

<table>
<thead>
<tr>
<th><strong>Minimum Semester Hours Required</strong></th>
<th>65.</th>
</tr>
</thead>
</table>

**Course Work**

- **Core Courses in Nursing:** NUSC 525, 526, 527, 528, 529, and 597 or 598.

- **Specialty Courses in Nursing:** NUAS 501, 502, 505, 512, 517, 520.

- **Required Courses in Health Informatics:** BHIS 437, 500, 503, 510, 511, 525, 537, and 13–15 hours of BHIS electives. BHIS 515, 517, and 520 are recommended electives for the Informatics Nurse Certification Exam.
HUMAN NUTRITION

Mailing Address: Department of Human Nutrition
1919 West Taylor Street
Chicago, IL 60612-7256

Campus Location: 650 HHDSB
Program Codes: 20FS1326MS (MS);
20FS1326PHD (PhD)
Telephone: (312) 996-8055
E-mail: nutrition@uic.edu
Web Site: http://www.ahs.uic.edu/ahs/php/?sitename=hn

Interim Head of the Department: Alan Diamond
Director of Graduate Studies: Alan Diamond

The Department of Human Nutrition offers work leading to degrees at both the master's and doctoral levels. The objective of the program is to train outstanding scholars who will assume research, teaching, and service positions related to human nutrition. Human nutrition is a multidisciplinary field that draws upon and integrates subject matter from a variety of disciplines (e.g., biochemistry, molecular and cell biology, and physiology as well as epidemiology, physical and cultural anthropology, sociology, and behavioral psychology). Master's degree study in nutrition as a terminal degree (i.e., not leading to a PhD) is most appropriate for students who wish to apply their nutrition knowledge through practice in healthcare or industry settings and can be combined, for example, with focused course work in other fields such as public health, movement sciences, toxicology, business, or education. Doctoral studies emphasize nutritional biochemistry, clinical nutrition, and epidemiological studies of nutrition-related health problems in human populations and are designed to lead to academic research and teaching careers or to research careers in government or industry. Active research in the department relates to carotenoids, vitamin B-6 metabolism, nutrition and aging, cancer prevention, mechanisms of nutrient-dependent gene expression, adult and pediatric obesity, AIDS, biomarkers for dietary constituents, clinical nutrition outcomes, and maternal phenylketonuria.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. It should be noted that students needing prerequisites for admission can take these courses as nondegree students. In addition to the Graduate College minimum requirements, applicants must also meet the following program requirements:

Master of Science and Doctor of Philosophy

Baccalaureate Field Applicants for graduate study in nutrition may come from the entire spectrum of undergraduate fields, or from other health professions such as medicine or nursing. Applicants who do not have prior degrees in nutrition, dietetics, food science or a biological or health sciences field may not meet all course prerequisites without having to take selected additional undergraduate course work. Minimum prerequisites for full admission to graduate study in nutrition can be obtained from the department.

Grade Point Average At least 3.00/4.00 for the final 60 semester (90 quarter) hours of undergraduate study.

Tests Required GRE General; minimum combined verbal and quantitative score of 1000.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required.

Personal Statement Required.

Other Requirements Candidates for direct admission to PhD study may be asked to submit a sample of their prior published or unpublished written work. Prior work or research experience indicative of the ability for laboratory, clinical, or community-based research will be considered. In addition, exploratory queries and interviews from potential candidates, especially PhD candidates, are welcomed at any time. All applicants for direct admission for PhD study are encouraged to interview in person with the graduate faculty, and such interviews may be required before an admissions decision is made. Contact the department at (312) 996-8055 for more information.

Nondegree Applicants Nondegree applicants must submit a transcript from their baccalaureate institution.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

Minimum Semester Hours Required 36 from the baccalaureate.

Course Work Required Courses: HN 410, 480, 510, and 595; AHS 510; BSTT 400; BCMG 411.

Electives: Students must take at least two courses from among HN 420, 422, 461, 514,
program requirements:

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

Baccalaureate Field No restrictions. Applicants to the concentrations in either Applied Exercise Physiology or Exercise Biology must have completed two semesters of human anatomy and physiology, and one semester each of chemistry, exercise physiology, and human biomechanics (kinesiology).

Grade Point Average At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study and for all graduate work.

Tests Required GRE General, with a minimum combined score of 950 on the quantitative and verbal sections.

Minimum TOEFL Score 550(paper-based); 213 (computer-based); 80, with sub-scores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required from past professors able to evaluate the applicant’s aptitude and potential for graduate study.

Personal Statement 1–2 pages explaining the applicant’s career goals and objectives for graduate study.

Doctor of Philosophy

Prior Degrees No restrictions. However, all doctoral applicants must have at least one semester of undergraduate course work in physics and calculus; applicants who intend to perform research in exercise biology must have at least one year of biology and one semester of biochemistry.

Grade Point Average At least 3.00/4.00 for the final 60 semester (90 quarter hours) of undergraduate study, and at least 3.50/4.00 for any previous graduate work.

Tests Required GRE General with a minimum combined score of 1100 on the quantitative and verbal sections.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with sub-scores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required from past professors who can assess the candidate’s aptitude and potential to complete doctoral work.

Personal Statement 1–2 pages explaining the applicant’s career goals and objectives for graduate study.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. Complete transcripts of all undergraduate and any graduate work must be submitted. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Doctor of Philosophy

Minimum Semester Hours Required 96 from the baccalaureate.

Course Work Required Courses: BCMG 460; HN 514, 515, 530, 531, 532, 535, 570, or 594.

Electives: Choice of electives should be guided by the subarea of interest, in consultation with advisers.

Preliminary Examination Required. Through written and oral qualifying examinations, all PhD students will be required to demonstrate competency in at least the following three content areas: a) nutrient metabolism (macro- and micronutrients), b) nutritional assessment (anthropometry, biochemical, dietary), and c) research design and interpretation.

Dissertation Required. The dissertation will be guided by a committee of HN and other graduate faculty appropriate to the nature of the research project. The format of the dissertation must comply with the UIC Graduate College requirements, as interpreted or expanded by the department.
Master of Science

Minimum Semester Hours Required: 32 (thesis or project). 40-hour course-work-only or internship options are also available.

Course Work: MS students completing a thesis or project will generally take 27 hours of course work and independent research and then earn 5 hours for the thesis or project. Of the course-work hours, at least 9 must be at the 500-level.

The Applied Exercise Physiology concentration offers an internship option. Students completing the internship option will take 28 hours of course work (which can include independent study and/or clinical rotations) and complete an internship worth 12 semester hours (40 hours total). Of the course-work hours, at least 9 must be at the 500-level.

Students who complete the 40-hour, course-work-only option are required to take at least 12 hours at the 500-level. Course-work-only students must also take MVSC 590—Seminar in Movement Sciences during their final year of study.

All graduate students are required to take MVSC 500—Research Methods in Movement Sciences.

The required courses in each concentration are as follows:

Exercise Biology: MVSC 501, 523, 529.

Applied Exercise Physiology: MVSC 452, 460, 545, DHD/MVSC 520, and a graduate-level class in management or marketing.

Motor Control and Learning: MVSC 472, 501, PT/MVSC 571, MVSC 572, PT/MVSC 574.

Remaining hours can be met by movement sciences electives, cognates, or independent research projects. Grades lower than B in concentration courses will not be counted toward the degree. Students who receive more than two grades lower than B will be dropped from the program.

Comprehensive Examination: Students who wish to perform an internship in Applied Exercise Physiology must first pass a comprehensive examination. The departmental exam is waived if the student passes the American College of Sports Medicine (ACSM) certification exam for either “Exercise Specialist” or “Registered Clinical Exercise Physiologist.”

Thesis, Project, or Course-Work-Only Options: (with and without internship) Thesis: Recommended for students in the basic science concentrations (Exercise Biology and Motor Control and Learning). A minimum of 5 hours of MVSC 598 is required; generally 6 hours are taken.

Project: Recommended for students in Applied Exercise Physiology. A minimum of 5 hours of MVSC 597 is required; generally 6 hours are taken.

Course Work: 40 hours course work only or course work and examination/internship (see above).

Doctor of Philosophy

Minimum Semester Hours Required: 96.

Course Work Required Courses: MVSC 500, 501, 502, and an advanced statistics course. An additional 18 hours of graduate course work (not including independent study or thesis) is determined, in consultation with the adviser, based on interests and career goals of the individual student. 32 hours of credit earned from a related master’s degree can be applied toward the PhD following approval. Remaining hours consist primarily of credit for thesis research and independent study work.

Examinations

1. Preliminary exam
2. Dissertation proposal
3. Dissertation defense

Dissertation Required.

Other Requirements: All PhD students are expected to participate in the teaching programs of the College of Applied Health Sciences.

OCCUPATIONAL THERAPY

Mailing Address: Department of Occupational Therapy (MC 811)
1919 West Taylor Street
Chicago, IL 60612-7250

Campus Location: 311 AHSB
Program Codes: 20FS1511MS (Professional/Entry-Level MS);
20FS1510MS (Post-Professional MS);
20FS5000OTD (OTD)

Telephone: (312) 996-6901
E-mail: OTDept@uic.edu
Web Site: http://www.ahs.uic.edu/OT

Head of the Department: Yolanda Suarez-Balcazar
Director of Graduate Studies: Gary Kielhofner

The Department of Occupational Therapy offers a Professional Master of Science degree for students who have a bachelor’s degree in another area. This program prepares students to be eligible for a national certification examination and for practice as an occupational therapist. Students may elect a course-only option or to complete a graduate project or thesis (with faculty approval). The department also offers a program leading to a Post-Professional MS degree for students who are occupational therapists and who desire an advanced degree. Students may focus on an area of clinical practice specialization (pediatrics, psychosocial, gerontology, physical disabilities) or on a role such as management and public policy, private practice, school system therapy, clinical education, or clinical research.

Students may elect (on faculty approval) either a scholarship of discovery (research track) or scholarship of application (project track). Finally, the Doctor of Occupational Therapy (OTD) degree provides students with advanced professional knowledge and skills in advanced therapeutic work, administration and leadership, and/or professional education. Students ordinarily choose a primary and secondary area of focus.
Please refer to the Disability Studies section for a description of the PhD in Disability Studies jointly offered through the departments of Occupational Therapy, Physical Therapy, and Disability and Human Development.

## ADMISSION REQUIREMENTS

Applicants must obtain supplemental application materials from the department or Web site. Applicants are considered on an individual basis. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

### Professional Master of Science Degree (Entry-Level Degree)

**Baccalaureate Field** Any field, no restrictions. Baccalaureate degree in any field plus completion of the following prerequisites with a grade of C or above prior to enrollment: one course in anthropology or sociology (equivalent to ANTH 101 or SOC 100); two courses in psychology—child psychology or child development (equivalent to PSCH 320) and abnormal psychology (equivalent to PSCH 270); one course in statistics (equivalent to PSCH 343); one course in human physiology with laboratory, covering all structures and functions of the body (minimum of four semester hours); and one course in human anatomy with laboratory for a minimum of 4 semester hours (laboratory with 30 hours of human cadaver lab study required). A two-course sequence in human anatomy and physiology is acceptable if it includes the cadaver laboratory (equivalent to MVSC 251 and 252). A cadaver lab is offered at UIC for accepted students who have not yet completed this requirement.

**Grade Point Average** At least 3.00/4.00 calculated on the last 60 semester (90 quarter) hours toward the first bachelor's degree and subsequent course work.

**Tests Required** GRE General; combined verbal and quantitative scores should be at least 1000, with a minimum score of 400 in the verbal section.

**Minimum TOEFL Score** 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

**Letters of Recommendation** Three required.

**Personal Statement** Required. A curriculum vitae is also required.

*Applicants who do not meet the GPA or GRE requirements, but who demonstrate strengths in other areas, may be considered.

**These courses must be taken within five years prior to admission to the department.

### Post-Professional Master of Science Degree

**Baccalaureate Field** Applicants must have completed an occupational therapy education program at a school approved by the World Federation of Occupational Therapy and have a bachelor's degree in occupational therapy (or another field, for international applicants with certification in occupational therapy but without a bachelor's degree in occupational therapy). Applicants must have completed one course in statistics.

**Grade Point Average** At least 3.00/4.00 calculated on the last 60 semester (90 quarter) hours toward the first bachelor's degree and subsequent course work.

**Tests Required** GRE General; combined verbal and quantitative scores should be at least 1000, with a minimum score of 400 in the verbal section.

**Minimum TOEFL Score** 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

**Letters of Recommendation** Three required.

**Personal Statement** Required. A curriculum vitae is also required.

**Doctor of Occupational Therapy**

**Prior Degrees** Students must have completed a bachelor's or master's degree by the time they enroll in occupational therapy course work. The OTD Admissions Committee reserves the right to determine the appropriateness of any graduate work completed by an applicant and may limit transfer credit.

Students who have earned a bachelor's degree in OT will have two options: 1) admission and matriculation directly into the OTD program, in which case the student will complete a minimum of 90 hours, or 2) concurrent admission and matriculation into the department’s MS degree program and the OTD. In this case, the student’s master’s degree would be earned after completing the required 36 hours, and a minimum of 58 additional hours would be taken before the OTD is awarded. Both of these options require the student to matriculate full time for 3 years.

Students who have earned a master’s degree previously may be admitted to the OTD program. Up to 32 hours of the previous master’s degree can be approved for application to the OTD requirements. A minimum of 60 hours would be taken before the OTD is awarded. Students will be required to matriculate full time for a minimum of three semesters to complete the OTD requirements postmaster’s.

**Grade Point Average** A minimum of 3.00/4.00 for all work beyond the baccalaureate level and at least 3.00 for the final 60 semester hours (90 quarter hours) of undergraduate study.

**Tests Required** GRE General with a combined score of at least 1000 for the verbal and quantitative sections.

**Minimum TOEFL Score** 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

**Letters of Recommendation** Three references pertaining to the applicant’s academic skills, accomplishments, and potential for doctoral study are required.
Nondegree students may be accepted into the post-professional MS and the OTD program on a limited basis. Nondegree applicants must submit transcripts, personal statement, and curriculum vitae, in addition to the graduate application. Instructor permission is required prior to registration. Nondegree students may apply for matriculation as degree-seeking students and may petition to have up to 12 non-degree credits applied to degree requirements.

**Personal Statement** Each applicant is required to submit a 3–5 page statement addressing his or her goals for professional doctoral study and career development. A curriculum vitae is also required.

*Applicants who do not meet the GPA or GRE requirements, but who demonstrate strengths in other areas, may be considered.*

**Degree Requirements**

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

**Professional Master of Science Degree (Entry-Level Degree)**

**Minimum Semester Hours Required**: 36.

**Course Work** In order to qualify for certification as an occupational therapist, students in the professional degree program must elect clinical courses beyond the 36 credits required for graduation. Contact the Department of Occupational Therapy for more information on these required courses.

**Required Courses**: OT 500, 510, and 595.

The professional master’s degree has been fully accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA). It is located at 4720 Montgomery Lane, P.O. Box 31220, Bethesda, MD 20824-1220. AOTA’s telephone number is (301) 652-AOTA. They also maintain a Web site at http://www.aota.org. UIC graduates are able to sit for the national certification examination for the occupational therapist administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam the individual will be an occupational therapist, registered. Most states require licensure in order to practice; however, state licenses are usually based on the results of the NBCOT certification examination. A felony conviction may affect a graduate’s ability to sit for the NBCOT certification examination or attain state licensure.

**Comprehensive Examination** None.

**Thesis, Project, or Course-Work-Only Options** Thesis or project optional. Students may earn the degree through course work only.

**Thesis**: Students who elect to complete a thesis must earn at least 8 hours in OT 598.

**Project**: Students who elect to complete a project must earn at least 4 hours, but no more than 8 hours, in OT 597.

**Course Work Only**: Students who elect to complete the course-work-only option must earn at least 36 semester hours in required and elective courses to obtain the MS degree and a total of 74 hours to be eligible for the national certification examination.

**Post-Professional Master of Science Degree**

**Minimum Semester Hours Required**: 36.

**Course Work Required Courses**: OT 500, 510, and 595.

**Electives**: Students must take either a research elective (3–4 hours) or a scholarship of practice elective (3–4 hours) chosen in consultation with an adviser. At least one course must be taken in the department.

**Comprehensive Examination** None.

**Thesis, Project, or Course-Work-Only Options** Thesis or project required. No other options available.

**Thesis**: Thesis students must earn at least 8 hours in OT 598.

**Project**: Project students must earn at least 4 hours, but no more than 8 hours, in OT 597. If fewer than 8 hours in project option are taken, additional electives are required to acquire semester hours for graduation.

**Doctor of Occupational Therapy**

**Minimum Semester Hours Required**: 90 semester hours beyond the baccalaureate. Credit may be awarded for other relevant graduate work completed at UIC or another accredited institution. Any credit will be determined on an individual basis by the Admission Committee. All students are required to earn a minimum of 58 semester hours in formal course work in the program.

**Course Work Core Courses** (18–26 hours): OT 500, 510, 590, 595, and either 530, 531, or 532.

**Concentration Courses** (20 hours): Students select a primary and secondary concentration from the following three options: Advanced Therapeutic Work, Administration and Leadership, and Professional Education. The combination of courses for the concentration will be chosen by the student in consultation with the adviser and must be approved by the curriculum committee.

**Elective Courses**: Students choose 10–16 hours of elective courses which may be taken from within and/or outside the department.

**Field Examination** Required.

**Thesis, Project, or Course-Work-Only Options** Project required. No other options are available.

**Project**: Students must complete at least 20 hours of OT 592.
PHYSICAL THERAPY
Mailing Address: Department of Physical Therapy (MC 898)
1919 West Taylor Street
Chicago, IL 60612-7251
Campus Location: 456 AHSB
Program Code: 20FS1582MS
Telephone: (312) 996-7765
E-mail: aaruin@uic.edu
Web Site: http://www.ahs.uic.edu/ahs/php/?sitename=pt
Head of the Department: Suzann Campbell
Director of Graduate Studies: Alexander Aruin

The Department of Physical Therapy offers work leading to the Master of Science in Physical Therapy. Graduate study in physical therapy involves the investigation of questions related to how the body moves, how simple and complex motor skills are acquired and executed, and how therapeutic physical activity produces effects on physical performance under normal or abnormal neuromusculoskeletal conditions. Research in the field can be either basic or applied to practical clinical problems, and consequences of physical performance deficits on function and disability. Research areas include movement science, pediatrics, adult neurology, and rehabilitation.

Please refer to the Disability Studies section for a description of the PhD in Disability Studies jointly offered through the departments of Occupational Therapy, Physical Therapy, and Disability and Human Development.

ADMISSION REQUIREMENTS
In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Science

Prior Degrees Entry-level professional degree in physical therapy.
Grade Point Average At least 3.00/4.00.
Texts Required GRE General. Applicants should have a combined verbal and quantitative score of at least 1000.
Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).
Letters of Recommendation Three professional references are required.
Personal Statement Required. The statement should address the applicant’s goals for graduate study and career development.
Other Requirements Licensure to practice physical therapy (or eligibility for American Physical Therapy Association membership, if foreign-trained). Preference will be given to applicants with clinical experience beyond their professional degree.

DEGREE REQUIREMENTS
In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

Minimum Semester Hours Required 36.

Course Work At least 12 hours must be at the 500-level. At least 12 hours must be in physical therapy. Students receiving 3 or more grades of C will be dismissed from the program.

Required Courses: A graduate-level statistics course (e.g. SOC 401, BSTT 400); a research methods course (e.g. MVSC 500, NUSC 515); PT 501; and a movement science course from the following list: PT 510, 571, 572 (the last two are cross-listed as MVSC 571 and 572). A student registered full time must take PT 595.

Electives: Choice of electives should be guided by the area of interest, in consultation with the adviser.

Comprehensive Examination Required; written.
Thesis, Project, or Course-Work-Only Options Thesis required. No other options are available.
Thesis: Students must earn at least 6 hours in PT 598.

Other Requirements Students must complete at least one semester of full-time residency.
Applicants must meet the following program requirements:

Graduate College minimum requirements, students must have been accepted. In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Director of Graduate Studies: Xavier Vendrell

The School of Architecture offers graduate programs leading to the Master of Architecture degree as both the first and second professional degree. The one-year, postprofessional program (Option I) is designed for holders of a first professional degree in architecture (Bachelor of Architecture or professional Master of Architecture). The two-year program (Option II) is designed for holders of a four-year, preprofessional degree in architectural studies. The three-year program (Option III) is designed for holders of degrees in fields other than architecture.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. Transcripts of all undergraduate and any graduate work must be submitted. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Architecture

Baccalaureate Field No restrictions. Prior academic work in a university-level course in differential and integral calculus offered through a mathematics department is required. Applicants must have a basic understanding of algebra, geometry, and trigonometry. Grade Point Average At least 3.00/4.00 for the final 60 semester (90 quarter) hours of undergraduate study. Tests Required GRE General.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with sub-scores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required, preferably from individuals acquainted with the applicant’s recent academic, professional, or creative work.

Personal/Research Statement Required: 1000 words. The statement should indicate the applicant’s chosen program (Option I, II, or III); address the reasons for applying to a graduate program in architecture, particularly the UIC School of Architecture; outline current or previous work as it relates to the applicant’s plans and objectives for advanced study; include a description of particular interests and professional goals and how these goals are to be realized; and/or topics and areas of research or design inquiry the applicant might consider in the formulation of a master’s thesis.

Other Requirements Acceptance to all programs (Options I, II, and III) requires a portfolio review and evaluation of previous coursework. Portfolios should not exceed 8.5” x 11” in size, must be bound, and should not be on slides, CDs, or diskettes. Professional work in portfolios should be separated from original work.

Option I (Postprofessional): Applicants seeking admission to the one-year program must submit a portfolio with examples of their creative and/or professional work.

Option II: Applicants seeking admission to the two-year program must submit a portfolio with examples of their creative and/or professional work and meet the following requirements: prior completion of calculus I, introduction to computers in architecture, statics and strength of materials, one year of the history of architecture, one year of architectural design studio, and one year of building science.

Option III: Applicants seeking admission to the three-year program are required to submit a portfolio of current creative work that does not need to be strictly architectural: for example, photographs, 3-D work, drawing, computer visualizations, writing, and installations.

Deadlines The application deadline for this program is earlier than the Graduate College deadline; contact the program for information on current deadlines.

DEGREE REQUIREMENTS

The requirements for the degree vary according to the student’s previous studies and level of preparation. The Graduate Admissions Committee of the school will specify, at the time of admission, the program to which each student has been accepted. In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Architecture

Minimum Semester Hours Required 32–108, depending on the student’s level of preparation.

Course Work At least 24 hours must be at the 500-level in architecture.

Required Courses:

One-Year Program (Option I)—ARCH 586 and 598; 1 course from ARCH 565, 566, 567, or 568; 1 course from ARCH 410, 411, or 442; and 8 hours of electives.

Two-Year Program (Option II)—ARCH 544, 553, 554, 563, 564, 573, 574, 585, 586, 595,
and 598; 1 topic studio from ARCH 565, 566, 567, or 568; 1 course from ARCH 410, 411, or 442; and 12 hours of free electives from AH, ARCH, or UPP. Portfolio review occurs after 1st year.

Three-Year Program (Option III)—ARCH 530, 544, 551, 552, 553, 554, 561, 562, 563, 564, 572, 573, 574, 585, 586, 595, and 598; 1 topic studio from ARCH 565, 566, 567, or 568; AH 420 and 421; 1 course from ARCH 410, 411, or 442; and 12 hours of free electives from AH, ARCH, or UPP. Portfolio review occurs after 1st and 2nd years.

Comprehensive Examination None.

Thesis, Project, or Course-Work-Only Options Thesis required for all programs (Options I, II, and III) beginning with Fall 2007 entering class. No other options are available.

---

ART HISTORY

Mailing Address: Department of Art History (MC 201)
935 West Harrison Street
Chicago, IL 60607-7039

Campus Location: 302 HH
Program Codes: 20FS0250MA (MA);
20FS0250PHD (PhD)

Telephone: (312) 996-3303
E-mail: susl@uic.edu
Web site: http://www.uic.edu/depts/arch/ah
Chairperson, Department of Art History:
Peter Bacon Hales
Director of Graduate Studies: Ellen T. Baird

The Department of Art History offers work leading to degrees at both the master’s and doctoral levels. The Interdepartmental Concentration in Gender and Women’s Studies is available to students in this program. The Master of Arts in Art History offers study and research in the general areas of the history of architecture and art. The PhD in Art History is designed to promote intellectual inquiry and provide professional-level training in the discipline, in a program that provides both wide coverage and particular depth in two broad areas of unusual and exceptional faculty strengths. In addition, there is the possibility of combining and blending course work and research in those areas in a direct interdisciplinary program. These two areas, which encompass the entire faculty, are the History of Art of the Americas and the History of Architecture, Design, and Urbanism.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Arts

Baccalaureate Field No restrictions.

Grade Point Average At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study.

Tests Required GRE General.

Minimum TOEFL Score 650 (paper-based); 280 (computer-based); 95, with subscores of Reading 24, Listening 24, Speaking 24, and Writing 22 (new Internet-based TOEFL).

Letters of Recommendation Three required from faculty members or others familiar with the applicant’s training, ability, and experience.

Personal Statement Applicants must submit a short statement of purpose.

Writing Sample Applicants must submit a sample of their written work.

Application Deadlines January 1 for applicants who wish to be considered for financial aid from the department, and March 15 for all other applicants.

Doctor of Philosophy

Prior Degrees No restrictions.

Previous Degrees Completion of a Master of Arts program in art history or equivalent is required for admission to the PhD program. However, exceptional students may be admitted directly to the PhD program with a bachelor’s degree, completing the requisite 96 semester credits of courses and the other requirements of the degree, without completing an MA. Students originally accepted in the department for the MA who wish to continue on to the doctorate must satisfy the department’s Master of Arts degree requirements and be recommended by the department for further work. Doctoral applicants who have a Master of Arts degree in a related field may be accepted directly into the doctoral program with the transfer of up to 32 credits toward the doctorate. Examples of appropriate related degrees include: MArch, the MFA in Art, and the MA in such humanities areas as history, philosophy, or literature.

Grade Point Average At least 3.00/4.00 in an appropriate MA from another institution; if applying with a BA, the applicant must have a 3.20 overall and a 3.50 in the major, or approval by the Graduate Program Committee.

Tests Required GRE General.

Minimum TOEFL Score 650 (paper-based); 280 (computer-based); 95, with subscores of Reading 24, Listening 24, Speaking 24, and Writing 22 (new Internet-based TOEFL).

Letters of Recommendation Three required, preferably from professors and others who are familiar with the applicant’s potential for serious academic work.

Personal Statement Applicants must submit a short statement of purpose that should address the reasons for wishing to do doctoral work and the relationship of this work to their professional and career objectives.

Writing Sample Applicants must submit a sample of their written work.

Application Deadlines January 1 for applicants who wish to be considered for financial aid from the department, and March 15 for all other applicants.
DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

**Master of Arts**

**Minimum Semester Hours Required** 36

- **Course Work** A minimum of 16 hours at the 500-level in art history courses, excluding AH 598—Thesis Hours.

- **Required Courses**: AH 510 and 511. Teaching assistants are also required to take AH 512.

- **Foreign Language Requirements** Students must present evidence, usually by a proficiency examination, of advanced knowledge of a language other than English as it relates to the student's chosen area of research. Evidence of the ability to pursue research in additional languages may be necessary, depending on the availability of literature in the field selected, and the selection of those languages must be approved by the student's adviser.

- **Comprehensive Examination Required.**

- **Thesis, Project, or Course-Work-Only Options** Thesis or course work only. No other options are available.

- **Thesis**: Must take at least 5 hours in thesis research (AH 598). No more than 8 hours of AH 598 can be applied to the degree.

- **Course Work Only**: Students who do not write a thesis must submit two substantial research papers written in conjunction with graduate courses taken in the Department of Art History to the departmental Graduate Program Committee. No additional credit is granted for the completion of these papers.

**Doctor of Philosophy**

**Minimum Semester Hours Required** 96 semester hours beyond the baccalaureate degree.

- **Foreign Language Requirements** Students must present evidence, usually by a proficiency examination, of advanced knowledge of a language other than English as it relates to the student's chosen area of research. Evidence of the ability to pursue research in additional languages may be necessary, depending on the availability of literature in the field selected, and the selection of those languages must be approved by the student's adviser.

- **Course Work** Candidates must complete at least 64 semester hours of course work beyond the master's degree. Of this amount, 32 semester hours must be in graduate seminars, of which 18 semester hours must be taken in the department. At least 32 semester hours of credit beyond the MA degree must be at the 500-level. Of the 64 semester hours required beyond the master's degree, a maximum of 24 semester hours of dissertation research are allowed.

- **Required Core Courses**: AH 510 and 511 are required of all students who enter the PhD program with an MA from another institution.

Areas of Concentration:

- **Art of the Americas—AH 562 and 16 hours in seminars AH 460, 463, 464, 470, 530, 560, 561, 563, 570, and directed reading courses in the area of concentration, as approved by the director of graduate studies.**

- **Architecture, Design, and Urbanism—AH 522 and 16 hours in seminars AH 541, 550, 560, 561, 563, 570, and directed reading courses in the area of concentration, as approved by the director of graduate studies.**

Students who have taken equivalent course work as part of an MA degree may petition the director of graduate studies for a waiver of specific requirements; no course credit is given for a waived course.

- **Preliminary Examination Required**: written and oral, to be taken upon completion of the course work and satisfaction of the language requirement. The written examination will cover the area of concentration; the oral examination will be based on the written sections.

- **Dissertation Required**: the dissertation will make a contribution to knowledge in art history and will be publicly defended before the scholarly community.

**Grade Point Average Requirement** Students must maintain a minimum grade point average of 3.00. No credit will be given for a course taken as part of the doctoral program in which the grade earned was less than a B.

Interdepartmental Concentration in Gender and Women's Studies

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Gender and Women's Studies after consulting with their graduate adviser. See Gender and Women's Studies in the College of Liberal Arts and Sciences section for more information.

**ELECTRONIC VISUALIZATION**

Mailing Address: School of Art and Design (MC 036) 929 West Harrison Street Chicago, IL 60607-7038

Campus Location: 106 JH
Program Code: 20FS1205MFA
Telephone: (312) 996-3337
E-mail: marak@uic.edu
Web Site: http://www.uic.edu/aa/artd/
Director, School of Art and Design: Marcia Lausen
Director of Graduate Studies: Doug Ischar

The School of Art and Design offers work leading to the Master of Fine Arts (MFA) degree in Electronic Visualization. The school also offers programs leading to the MFA degree in Film/Animation/Video, Graphic Design, Industrial Design, Photography, and Studio Arts. Consult the appropriate sections of catalog for more information on these programs. The School of Art and Design is an accredited institutional member of the National Association of Schools of Art and Design (NASAD).
ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. Transcripts of all undergraduate and any graduate work must be submitted. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

**Master of Fine Arts**

**Baccalaureate Field** No restrictions; however, individuals who apply must demonstrate an advanced level of competence in electronic visualization through their portfolio submission.

**Grade Point Average** At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study.

**Tests Required** None.

**Minimum TOEFL Score** 580 (paper-based); 237 (computer-based); 92, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

**Letters of Recommendation** Three required.

**Personal Statement** Required. This statement of purpose should outline applicant’s current or previous work as relevant to plans and objectives for advanced study; describe professional goals and how these goals were developed; and state why applicant would like to study in the chosen area in the school.

**Other Requirements** Applicants must submit a portfolio of visual work demonstrating proficiency in the area of computer graphics, video, and/or electronic visualization. The portfolio may be submitted as CD-ROM (PC-Compatible), 3/4" U-matic or VHS video, and 12 to 15 slides of representative work. The school is not responsible for submissions of original work. Experience in time-based media (video or film) or computer graphics programming (C, C++, GL, Open GL) or mathematics may be required prior to entrance. Site visitation with area coordinators is encouraged.

**Deadlines** The application deadline for this program is February 1; contact the School of Art and Design for more information.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

**Master of Fine Arts**

**Minimum Semester Hours Required** 64.

**Course Work Required Courses:** 16 semester hours of AD 502. At least 48 semester hours must be in the area of specialization and must include at least 36 semester hours at the 500-level.

**Electives:** At least 12 semester hours of graduate-level electives are required. The completion of at least two courses in art history is strongly recommended.

**Comprehensive Examination** None.

**Thesis, Project, or Course-Work-Only Options** Project required. No other options are available.

**Project** All MFA candidates must present for review a public exhibition or showing. Documentation in the form of a major paper and slides of the project must be presented to the school for archival purposes.

**Other Requirements** Continuation in the MFA program beyond the first 32 semester hours requires an evaluation and recommendation of the Graduate Advisory Committee in the student’s area.

FILM/ANIMATION/VIDEO

Mailing Address: School of Art and Design

The Department of Accounting through the Liautaud Graduate School of Business offers work leading to the Master of Science in Accounting degree and participates with the MBA Program in the MBA/MS in Accounting joint degree program.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. Transcripts for all undergraduate and any graduate work must be submitted to the MSA Program Office. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Science

Baccalaureate Field No restrictions.

Grade Point Average At least 3.00/4.00 for the final 60 semester (90 quarter) hours of undergraduate study. Applicants possessing a master's degree in business or an equivalent degree from a program accredited by the AACSB-International must have maintained a grade point average of at least 3.00/4.00 in that program.

Tests Required GMAT; minimum score of 500.

Minimum TOEFL Score 570 (paper-based); 230 (computer-based); 80 with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required.

Personal Statement Required.

Resume Required.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

MBA in Accounting

Applicants to the joint degree program must satisfy the admission requirements of both the MBA and MS programs.

MBA/MS in Accounting

Applicants to the joint degree program must satisfy the admission requirements of both the MBA and MS programs.

Deadlines The application deadline for this program is the Graduate College deadline.

MINIMUM SEMESTER HOURS REQUIRED 32.

Course Work Degree candidates must present a cumulative grade point average of at least 3.00/4.00 for all 400- and 500-level courses.

Required Courses (5 courses, 20 hours): ACTG 515 and 593; and 3 courses from ACTG 417, 446, 456, 465*, 475, 484*, 509, 516*, 525*, 535*, 545*, 585 (with at least one marked *).

Background and Breadth Courses (11 courses, 44 hours): All MS in Accounting students must also complete the following 11 courses (up to 8 of these courses can be waived based on completion of prior satisfactory equivalent study): 3 Business Electives; ACTG 435, 474, 500, 502, 503, 506, 508; IDS 570. At least 5 of the courses must be at the 500-level.

Comprehensive Examination None.

Thesis, Project, or Course-Work-Only Options Course work only. No other options are available.

MBA/MS in Accounting

Minimum Semester Hours Required 68.

Course Work Students must maintain a cumulative grade point average of at least 3.00/4.00 for all course work.

Required Courses (20 courses, 44 hours): ACTG 515 and 593; 3 electives from ACTG 417, 446, 456, 465*, 475, 484*, 509, 516*, 525*, 535*, 545*, 585 (with at least one marked *); ACTG 500; ECON 520; FIN 500; IDS 522; MGMT 541; MKTG 500; a 3-course concentration within the MBA program, excluding accounting; and one 500-level business course from a department other than accounting and the MBA concentration field; Accounting Background Courses (5 courses): ACTG 435, 502, 503, 506, 508.

Any of the accounting background courses can be waived with prior credit and ACTG 500 can be waived with a competency examination. However, a minimum of 68 hours must be completed by taking additional accounting or business electives. No more than two 400-level courses can be counted toward the MS portion of the degree.

Comprehensive Examination None.

Thesis, Project, or Course-Work-Only Options Course work only. No other options are available.
BUSINESS ADMINISTRATION

Mailing Address: Doctoral Programs, UIC Liautaud Graduate School of Business (MC 077)
Suite 220, Rice Building
815 West Van Buren Street
Chicago, IL 60607-2525

Campus Location: LGSB Office, Rice Building
Program Code: 20FS0079PHD
Telephone: (312) 996-4573
E-mail: phdbus@uic.edu
Web Site: http://www.uic.edu/cba/phd/

Doctor of Philosophy

Admission is competitive. The Doctoral Studies Programs Office has its own application packets and procedures; all application materials, including transcripts and fees, must be submitted directly to this office. Transcripts for all undergraduate and any graduate work must be submitted in a signed, sealed envelope. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

**Baccalaureate Field** No restrictions. Prior academic work should include mathematics/statistics, computing/analysis, and business.

**Grade Point Average** At least 2.75/4.00 for the final 60 semester (90 quarter) hours of undergraduate study.

**Tests Required** GMAT or GRE. The score must be from a test administered within five years from the requested date of entry. The writing assessment is required.

**Minimum TOEFL Score** 600 (paper-based); 250 (computer-based); 80, with subscores of 17 for Reading, 19 for Listening, 17 for Speaking, and 21 for Writing (new Internet-based TOEFL).

**Letters of Recommendation** Three required from persons familiar with the intellectual skills, perseverance, and integrity of the applicant. At least one recommendation should be from an academic familiar with the applicant’s work.

**Personal Statement** Required; 500 words. The statement should address the applicant’s interests and qualifications, including research interests and the impact this work is expected to have on the applicant’s career.

**Other Requirements** Interviews with the faculty in the field of the degree, the PhD coordinator, the director of doctoral studies, and the department head are advised. Students are admitted only in the fall semester.

**Deadlines** The application deadline for this program is earlier than the Graduate College deadline; contact the College of Business Administration’s Doctoral Studies Programs Office for information on current deadlines.

**DEGREE REQUIREMENTS**

**Doctor of Philosophy**

**Minimum Semester Hours Required** 96 from the baccalaureate, 64 from the MBA.

**Course Work** Study will include a two-course requirement in mathematics, statistics, or computing; a four-course breadth requirement (four MBA core courses, no 2 of which are from the same functional area and none of which is from the area of inquiry); and a six-course depth requirement (advanced courses, at least two of which are sufficiently rigorous to provide the basis for the qualifying exam). Following the qualifying exam, additional course requirements are determined by the student’s adviser.

**Required Courses:** Any two from among the following: ECON 504; IDS 527; MGMT 581, 582; MKTG 571; PHIL 517, 521; POLS 500 or PPA 500; plus at least 8 hours of research methodology in the student’s degree area. Additional required courses vary by degree area; contact the Doctoral Studies Programs Office for information on the specific requirements of each area.

**Examinations** 

**Qualifying Examination:** A written exam, based upon courses used for the student’s depth requirement, is required and will be administered by faculty in the student’s area of inquiry.

**Preliminary Examination:** A written and/or oral exam, addressing advanced material in the area of inquiry and/or the student’s plans for dissertation research, is required.

**Dissertation** A dissertation demonstrating the ability to conduct original, scholarly research is required. No more than 32 hours of doctoral thesis research can be applied to the degree.

**Other Requirements** Students must serve as a teaching assistant or research assistant. This requirement may be waived for students with appropriate teaching or research experience.
**ECONOMICS**

Mailing Address: Department of Economics (MC 144)
601 South Morgan Street
Chicago, IL 60607-7121

Campus Location: 2103 UH
Program Codes: 20FS0074MA (MA); 20FS0074PHD (PhD)
Telephone: (312) 996-2683
E-mail: econ@Lx1.econ.uic.edu
Web Site: http://www.uic.edu/cba/cba-depts/economics/

Head of the Department: Barry R. Chiswick
Director of Graduate Studies: Paul J. Pieper

The Department of Economics offers work leading to the Master of Arts in Economics and the Doctor of Philosophy in Economics. The department also participates with the MBA Program in offering the MBA/MA in Economics joint degree program. In addition, the Business Administration doctoral program offers a specialization in Business Economics; consult Business Administration in the College of Business Administration section in this catalog for more information.

**ADMISSION REQUIREMENTS**

Applicants are considered on an individual basis. Transcripts from all colleges and universities attended in the last eight years must be submitted. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

**Master of Arts and Doctor of Philosophy**

**Baccalaureate Field** An undergraduate degree in economics is not required. Prior academic work should include introductory calculus, statistics, intermediate microeconomic theory, and intermediate macroeconomic theory.

**Grade Point Average** At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study.

**Tests Required** GRE or GMAT.

**Minimum TOEFL Score** 550 (paper-based); 213 (computer-based); 80, with sub-scores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

**Letters of Recommendation** Three required.

**Personal Statement** Required.

**Deadlines** The application deadline for this program is earlier than the Graduate College deadline; contact the program for information on current deadlines.

**MBA/MA in Economics**

Prospective students for the joint degree program must apply and be admitted to both programs. All application materials should be submitted to the MBA Program Office.

**DEGREE REQUIREMENTS**

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

**Master of Arts**

**Minimum Semester Hours Required** 40.

**Course Work** At least 32 hours must be in economics, of which at least 28 hours must be at the 500-level, excluding ECON 592, 596, and 598. ECON 441, 442, and 472 may be used to satisfy the 40 semester hours degree requirement but not the 32 hours of course work in economics requirement. No more than 12 hours total of ECON 596 and 598 may be applied to the degree. ECON 520, 540, 541, 592, and 599 cannot be used to satisfy any MA requirement.

**Required Courses:** ECON 501, 502, 511, 512, 534, and 535. All students must complete the 4 courses in economic theory (ECON 501, 502, 511, and 512) with a GPA in these four courses of at least 3.00/4.00. Credit will be given for at most one grade of C in any of these courses.

**Comprehensive Examination** None.

**Thesis, Project, or Course-Work-Only Options** Thesis or course work only. No other options are available.

**Thesis:** No more than 8 hours of ECON 598 can be applied to the degree.

**Course Work Only:** Students who do not write a thesis must enroll in ECON 596 for 4 hours of credit and write an acceptable paper for the course.

**MBA/MA in Economics**

**Minimum Semester Hours Required** 72.

**Course Work** No more than 12 hours total of ECON 596 and 598 can be applied to the degree.

**Required Courses:** ACTG 500; ECON 501, 502, 511, 512, 534, 535; FIN 500; IDS 532; MGMT 541; MKTG 500. All students must complete the four courses in economic theory (ECON 501, 502, 511, and 512) with a grade point average in these four courses of at least 3.00. Credit will be given for at most one grade of C in any of these courses.

**Electives:** 12 additional hours in economics at the 500-level (excluding ECON 520, 521, 540, 541, 592, 593, and 599), and 16 additional hours of 500-level courses in at least two other disciplines within the College of Business Administration except economics.

**Comprehensive Examination** None.

**Thesis, Project, or Course-Work-Only Options** Thesis or course work only. No other options are available.

**Thesis:** No more than 8 hours of ECON 598 can be applied to the degree.
Management Information Systems

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Gender and Women's Studies after consulting with their graduate adviser. See Gender and Women's Studies in the College of Liberal Arts and Sciences section of the catalog for more information.

Admission Requirements

Applicants are considered on an individual basis. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Science

Baccalaureate Field Individuals from all baccalaureate fields are encouraged to apply. The exact course requirements will be determined based on an individual's baccalaureate field and work experience. All applicants must have had the following background course work: mathematics through the level of calculus covering integration and differentiation, and statistics through regression analysis.

Grade Point Average At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate studies. Applicants with a master's degree must have maintained a GPA of at least 3.00/4.00 in that program.

Tests Required GMAT or GRE taken within five years of entry into the program.

Minimum TOEFL Score 585 (paper-based); 239 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).
**Letters of Recommendation**

Two required.

**Personal Statement**

Required.

**Doctor of Philosophy**

Baccalaureate Field

No restrictions. Prior academic work should include mathematics/statistics, computing/analysis, and business.

Grade Point Average

At least 2.75/4.00 for the final 60 semester (90 quarter) hours of undergraduate study.

Tests Required

GMAT or GRE. The score must be from a test administered within five years from the requested date of entry. The writing assessment is required.

Minimum TOEFL Score

600 (paper-based); 250 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

**Letters of Recommendation**

Three required from persons familiar with the intellectual skills, perseverance, and integrity of the applicant. At least one recommendation should be from an academic familiar with the applicant’s work.

**Personal Statement**

Required; 500 words; the statement should address the applicant's interests and qualifications, including research interests and the impact this work is expected to have on the applicant’s career. A specific statement format is available in the application packet.

**Other Requirements**

All applicants must have had mathematics through the level of calculus covering integration and differentiation, and statistics through regression. Students are admitted only in the fall semester. No part-time program is available.

**Deadlines**

The application deadline for this program is earlier than the Graduate College deadline; contact the Liautaud Graduate School of Business Doctoral Studies Programs Office for information on current deadlines.

---

*Admission to the PhD program is competitive. Application packets and procedures are different for the PhD in MIS and must be submitted to the LGSB Office. All application materials, including transcripts and fees, must be submitted directly to this office. Transcripts for all undergraduate and any graduate work must be submitted in a signed, sealed envelope.*

**MBA/MS in Management Information Systems**

Applicants to the joint degree program must apply and be accepted to both the MBA and MS in MIS programs and must satisfy the admission requirements independently for both programs. Students already enrolled in the MBA program must apply to the joint degree program before completing more than 32 semester hours of study in the MBA program.

**DEGREE REQUIREMENTS**

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

**Master of Science**

**Minimum Semester Hours Required** 32.

**Course Work** No more than two 400-level courses can be counted towards the degree.

**Required Courses**:

- Core Knowledge (0–12 hours)—IDS 517, 520, and 521. Each course may be substituted by an elective course if the student has equivalent prior course work or work experience.
- Capstone Project Experience (4 hours)—IDS 507, 508, or 596. To be taken only after the completion of the Core Knowledge courses.
- IS Management (4 hours)—IDS 514, 515, or 523.
- Technical Prerequisites (0–12 hours)—IDS 401, 405, and 410. Each course may be waived based on equivalent prior course work or appropriate work experience in the technical area. These courses will not count towards the minimum degree requirement of 32 hours.
- Business Prerequisites (0–12 hours)—Two introductory courses in any two functional areas of business: operations management, IDS 355 or 532; accounting, ACTG 110, 111, or 500; finance, FIN 300 or 500; marketing, MKTG 360 or 500; or management, MGMT 340 or 541. Each course may be waived based on equivalent prior course work or appropriate work experience in the functional area. These courses will not count towards the minimum degree requirement of 32 hours.

**Electives**:

Three to five courses chosen with the approval of the director of graduate studies. Courses from other departments and colleges may be taken as electives with his or her approval. These courses may be chosen so as to fit career tracks in E-Business Systems, E-Business Applications, Operations and Supply Chain, IS Management, IS Operations, Data and Knowledge Management, IS Consulting, or Inter-Organizational Architecture.

**Comprehensive Examination** None.

**Thesis, Project, or Course-Work-Only Options**

Course work only. No other options are available.

**MBA/MS in Management Information Systems**

**Minimum Semester Hours Required** 70.

**Course Work** All requirements of both the MBA degree and the MS in MIS must be satisfied. At most 4 courses may be counted toward the requirements of both degrees. The MBA Core courses will fulfill the Business Prerequisites...
of the MS in MIS program. Technical prerequisites may not be used to satisfy any part of the eight-course requirement for the MS in MIS part of the joint program. No more than two 400-level courses can be counted toward the MS in MIS portion of the degree.

**MBA Required Courses: Core Courses (24 hours)**—ACTG 500, ECON 520, FIN 500, IDS 532, MGMT 541, and MKTG 500.

**MBA Electives:** 16 hours of 500-level courses from at least two departments within the College of Business Administration.

**MS in MIS Required Courses:**
- Core Knowledge (0–12 hours)—IDS 517, 520, and 521. Each course may be substituted by an elective course if the student has equivalent prior course work or experience.
- Capstone Project Experience (4 hours)—IDS 507, 508, or 596. To be taken only after the completion of the Core Knowledge courses.
- IS Management (4 hours)—IDS 514, 515, or 523.

**Technical Prerequisites:** Three to five courses chosen with the approval of the director of the graduate studies. Courses from other departments and colleges may be taken as electives with the approval of the director. These courses may be chosen so as to fit career tracks in E-Business Systems, E-Business Applications, Operations and Supply Chain, IS Management, IS Operations, Data and Knowledge Management, IS Consulting, or Inter-Organizational Architecture.

**Electives:** Three to five courses chosen with the approval of the director of graduate studies. Courses from other departments and colleges may be taken as electives with the student's approval. These courses may be chosen so as to fit career tracks in E-Business Systems, E-Business Applications, Operations and Supply Chain, IS Management, IS Operations, Data and Knowledge Management, IS Consulting, or Inter-Organizational Architecture.

**Comprehensive Examination:** None.

**Thesis, Project, or Course-Work-Only Options:** Course work only. No other options are available.

**Doctor of Philosophy**

**Minimum Semester Hours Required:** 96 from the baccalaureate, 64 from MBA, MS in MIS, MSA, or a business-related master’s degree; including between 24 and 32 hours of dissertation research.

**Course Work Breadth Requirement:** Two introductory courses in any two functional areas of business (for example, IDS 532; ACTG 500; ECON 520, 521; FIN 500; MKTG 500; or MGMT 541). These courses will not count toward the 64-semester-hour requirement for entrants with a master’s degree.

**Technical Requirement:** IDS 401, 405, and 410. Each course may be waived based on equivalent prior course work or appropriate work experience in the technical area. These courses will not count towards the 64-semester-hour requirement for entrants with a master's degree.

**Basic Competency:** IDS 517, 520, and 521. Each course may be waived based on equivalent prior course work or appropriate work experience in the technical area.

**MIS Specialization:** Minimum of 6 courses (24 semester hours), including two IDS Research Seminars (IDS 529), three specialized courses in areas of individual interest, IS research topics (IDS 525), and additional courses in consultation with the director of the PhD program.

**Research Methods:** 3–4 courses (12–16 semester hours), including statistical methods in research, behavioral research methods overview, quantitative methods in research, and additional courses to be decided in consultation with the director of the PhD program.

**Examinations**
- **Annual Evaluation:** An evaluation will be held at the end of the spring semester each year that the student is in the program. The evaluation will be conducted by a “student committee,” which will include the PhD director as the chairperson, the student’s mentor, and the entire IDS faculty who taught the student during that year. The committee will administer a written exam each year until the student passes the preliminary examination; it will determine the type and scope of the exam.

- **Preliminary Examination:** A written and/or oral exam, addressing advanced material in the area of inquiry and/or the student's plans for dissertation research, is required.

- **Dissertation** A dissertation demonstrating the ability to conduct original, scholarly research is required. No more than 32 hours of doctoral thesis research can be applied to the degree.

- **Other Requirements:** Students must serve as a teaching assistant or research assistant. This requirement may be waived for students with appropriate teaching or research experience.
REAL ESTATE

Mailing Address:
Liautaud Graduate School of Business Program Office (MC 077)
UIC College of Business Administration
815 West Van Buren Street, Suite 220
Chicago, IL 60607-3525

Campus Location: Room 220, Rice Building
Program Code: 20FS1657MA
Telephone: (312) 996-4573
E-mail: mre@uic.edu
Web Site: http://www.uic.edu/cba/mare/index.html

Director of Graduate Studies: John F. McDonald

The Master of Arts in Real Estate program at the University of Illinois at Chicago Liautaud Graduate School of Business combines economics, finance, and urban planning to provide students with a full perspective of the field of real estate. The program takes advantage of UIC's location by emphasizing urban real estate markets and by using metropolitan Chicago as a working laboratory. The program is intended for professionals working in either the private or public sectors that are concerned with real estate and real estate development issues. Students will learn the basic principles of economics, finance, urban planning, and urban land use law that are needed to gain fundamental knowledge of the operation of urban real estate markets, methods of real estate finance, and systems used to plan and regulate urban real estate development. The purpose of the program is to turn students into educated professionals in the field of urban real estate.

ADMISSION REQUIREMENTS

All applications are considered on an individual basis. Transcripts for all undergraduate and any graduate work must be submitted. In addition to the Graduate College minimum requirements, applicants must meet the following requirements:

Master of Arts

Baccalaureate Field No restrictions.
Grade Point Average At least 3.00/4.00 for the final 60 semester (90 quarter) hours of undergraduate study.
Tests Required GMAT or GRE. The score must be from a test that was administered within five years of the requested date of entry. The writing assessment is required.
Minimum TOEFL Score 585 (paper-based); 239 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).
Letters of Recommendation Two required.
Personal Statement Required.
Other Requirements Fall or spring admission.

The formal prerequisites for admission to the program are a basic background in mathematics and business statistics, which can be fulfilled by completing the online minicourse, Review of Basic Mathematics and Statistics for MBA Students. For more information, please visit http://phd.cba.uic.edu/MathTutorial/Start.html. Students should also have completed a basic course in accounting, or take one upon arrival.

DEGREE REQUIREMENTS

The MA in Real Estate is offered by the College of Business Administration in collaboration with the College of Urban Planning and Public Affairs. Students in the program can choose a concentration in either Business or Urban Planning. Students can pursue the degree on either a full-time or part-time basis.

Master of Arts

Minimum Semester Hours Required 35.
Course Work Degree candidates must present a cumulative grade point average of at least 3.00/4.00 for all course work, including background (foundation) courses.
Required Courses (27 hours): ECON 520, ECON 571, ECON/FIN 472, FIN 500, UPP 501, UPP 553, MBA 590.
Areas of Concentration (8 hours): Students must declare either a Business or Urban Planning concentration.

Business Concentration (2 courses from the following)–ECON 475, 534, 572, 575.
Urban Planning Concentration (2 courses from the following)–UPP 530, 533, 542, 557.

Comprehensive Examination None.

Thesis, Project or Course-Work-Only Options Course work only. No other options are available.
College of Dentistry

ORAL SCIENCES

Mailing Address: College of Dentistry (MC 621)
801 South Paulina Street
Chicago, IL 60612-7211

Campus Location: 102 DENT
Program Code: 20FS1525MS (MS); 20FS1525PHD (PhD)
Telephone: (312) 996-0213
E-mail: marucha@uic.edu
Web Site: http://dentistry.uic.edu/admissions/ms/ (MS);
http://dentistry.uic.edu/admissions/phd/ (PhD)

Director of Graduate Studies: Phillip T. Marucha

The College of Dentistry offers a program of study and research leading to the Master of Science degree in Oral Sciences. The master’s program provides education in areas including but not limited to molecular biology, biochemistry, cell biology, histology, pathology, biomaterials, immunology, behavioral sciences, clinical sciences, and functional morphology with an emphasis on the oral structures in health and disease. The program provides graduate training to increase understanding of oral disease through a research experience, usually in conjunction with one of the clinical specialty programs.

The College of Dentistry also offers a program of study leading to the Doctor of Philosophy in Oral Sciences to train the next generation’s cadre of oral health scientists. Oral Sciences utilizes cutting edge biomedical technology and knowledge to address basic and clinical research questions of importance for promoting and maintaining oral health. This interdisciplinary research training program will lead to a graduate degree with a focus in cancer biology; wound healing; tissue regeneration; cellular, molecular, and development biology; biomaterials science; microbiology/immunology or other biomedical field relevant to oral health and disease. The program also offers an opportunity to integrate the PhD training with a DDS or dental specialty training, as well as subsequent to a BS or DDS degree.

ADMISSION REQUIREMENTS

Note: Applicants for the master’s program must first obtain an endorsement from one of the academic units in the College of Dentistry before filing an application.

Endorsement is obtained by forwarding a personal statement and resume to the department where approval is sought. Contact the graduate program in the College of Dentistry for additional guidelines and a list of department contacts.

Applicants are considered on an individual basis. Transcripts of all undergraduate and post-baccalaureate work must be submitted. In addition to Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Science

Baccalaureate Field: BS, BA, or equivalent degree. Prior academic course work should include biology, general chemistry, histology, and other related sciences.

Grade Point Average: At least 3.00/4.00 for the final 60 semester (90 quarter) hours of undergraduate and all postgraduate study.

Tests Required: The GRE General is required of all applicants. Candidates are expected to score in the upper 50th percentile.

Minimum TOEFL Score: 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation: Three required, preferably from individuals acquainted with the applicant’s recent academic work. These are sent directly to the head of the department where an endorsement has been received.

Personal Statement: Required. The statement should include a brief summary describing the applicant’s career goals, area of interest, purpose, and desired discipline of study. This statement along with a current resume is sent directly to the department in which an endorsement is being sought.

Doctor of Philosophy

Baccalaureate Field: BS, BA in relevant field of science; DDS or equivalent.

Grade Point Average: At least 3.00/4.00 for the final 60 semester (90 quarter) hours of undergraduate and all postgraduate study.

Tests Required: GRE General; candidates are expected to score in the upper 50th percentile. DAT or National Dental Boards may be considered for those currently enrolled or candidates for the DDS or a clinical specialty program.

Minimum TOEFL Score: 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation: Three required from faculty members or others familiar with the applicant’s previous academic training, academic and research potential, and research experience.

Personal Statement: Required. The personal statement should be sent directly to the director of graduate studies. The statement must address the applicant’s area of interest, research experience, and professional goals.

DEGREE REQUIREMENTS

Master of Science

Minimum Semester Hours Required: 32 semester hours as specified below.

Course Work: Required Core Courses: BSTT 400 or equivalent; OSC 451, 580, 581.
**UIC College of Dentistry**

**Oral Sciences**

---

**Additional Requirements:** At least 6 semester hours of OSCI 598; 9 semester hours of 500-level graduate courses.

**Selectives:** A minimum of 11 semester hours; two courses must be in the student’s area of research. Other courses must have application to the area of study and be selected in consultation with the student’s faculty adviser. The 9 hours of 500-level course work may be used toward fulfilling this requirement.

**Electives:** Additional courses needed to satisfy the remaining semester hours may be chosen from offerings listed in the graduate catalog. Seminar or survey courses are not counted toward the degree; a limit of 3 semester hours of Independent Study may be applied toward degree requirements.

**Comprehensive Examination** None.

**Thesis, Project, or Course-Work-Only Options** Thesis required. No other options are available.

**Thesis:** No more than 13 hours of Master’s Thesis Research may be applied toward degree requirements.

---

**Doctor of Philosophy**

**Minimum Semester Hours Required** 96 (including research). A specific requirement may be waived by the Graduate Studies Committee for any course if proficiency is demonstrated.

**Course Work Required Core Courses:** GCLS 501, 502, 503, 504, 505, and GC 401; GC 470 if research involves animals.

**Additional Requirements:** BSTT 400, 401; OSCI 580, 581, 594, and a minimum of 4 credit hours in OSCI 594.

Students will complete up to three laboratory rotations (OSCI 583) and the curriculum for their specific concentration.

**Required Concentrations:** Students must select one of the following:

- **Cellular, Molecular, and Developmental Biology Concentration**—12 hours as follows: BCMG 513, GCLS 510, GCLS 515, and PHYB 586.
- **Biomaterials Science Concentration**—A minimum of 16 hours from the following: BIOE 494, 460, 550, 555, 560, 594, PROS 504.
- **Microbiology/Immunology Concentration**—12 hours as follows: MIM 551, 553, 560, and 594.

The student and adviser may petition the Graduate Studies Committee to develop an Individualized Concentration consisting of a minimum of 12 semester hours.

**Preliminary Examination** Required; written grant proposal and oral defense.

**Dissertation** Required, including oral defense. Students must earn a minimum of 48 semester hours in OSCI 599.
College of Education

The College of Education offers course work which leads to the Doctor of Education in Urban Education Leadership with strands of study for the Illinois Type 75 Administrative Certificate, the Illinois Superintendent Endorsement, and general advanced studies in Urban Education Leadership; the Doctor of Philosophy in Education: Curriculum and Instruction with concentrations in 1) Curriculum Design and 2) Literacy, Language, and Culture; the Doctor of Philosophy in Educational Psychology with areas of specialization in Cognition and Instruction; Measurement, Evaluation, Statistics and Assessment; Social and Moral Development and Education; and Early Childhood Education; the Doctor of Philosophy in Education: Special Education; and the Doctor of Philosophy in Policy Studies in Urban Education with concentrations in 1) Educational Organization and Leadership and 2) Social Foundations of Education. The college offers course work leading to the Master of Education in Instructional Leadership with concentrations in Early Childhood Education (with strands leading to the MEd only or with the Type 04 certificate); Elementary Education (Type 03 certificate); Literacy, Language, and Culture (with strands leading to the MEd only or with the Type 10 certificate); Secondary Education (Type 09 certificate); or Educational Studies, an individualized program designed by the student with the approval of an adviser; and to the Master of Education in Special Education (with concentrations leading to the MEd only or with the Learning Behavior Specialist I certificate or Learning Behavior Specialist II certificate [pending approval]).

The College of Education offers work leading to the Doctor of Philosophy in Education: Curriculum and Instruction, with concentrations in 1) Curriculum Design and 2) Literacy, Language, and Culture.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. Applicants must submit transcripts from the last 60 hours of undergraduate work and from all postbaccalaureate work. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Doctor of Philosophy: Curriculum Design Concentration

Baccalaureate Field No restrictions.

Grade Point Average At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study and for all postbaccalaureate course work.

Tests Required GRE General.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Note: Total score is higher than the sum of the subscores.

Letters of Recommendation Three required from faculty members or others familiar with the applicant’s previous academic training, academic and research ability, and experience.

Personal Statement Required. The statement must address the applicant’s professional and scholarly goals.

Other Requirements The College of Education Application form must also be submitted. This program requires two packets of admissions materials. One set of transcripts and the official university application should be sent to the Admissions Office. Submit the following materials in one package to the College of Education: a copy of the official UIC application, the College of Education application, a second set of transcripts, GRE scores, three letters of recommendation, and personal statement.

Deadlines The application deadline for this program is January 1. Admission is restricted to the summer and fall terms.

Doctor of Philosophy: Literacy, Language, and Culture Concentration

Baccalaureate Field No restrictions.

Grade Point Average At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study and for all postbaccalaureate course work.

Tests Required GRE General.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Note: Total score is higher than the sum of the subscores.

Letters of Recommendation Three required from faculty members or others familiar with the applicant’s previous academic training, academic and research ability, and experience.

Writing Samples Required. Applicants must provide two writing samples that best represent their ability in written expression.

Personal Statement Required. The statement must address the applicant’s professional and scholarly goals.
Other Requirements The College of Education Application form must also be submitted. This program requires two packets of admissions materials. One set of transcripts and the official university application should be sent to the Admissions Office. Submit the following materials in one package to the College of Education: a copy of the official UIC application, the College of Education application, a second set of transcripts, GRE scores, three letters of recommendation, writing samples, and personal statement.

Deadlines The application deadline for this program is January 1. Admission is restricted to the fall term.

DEGREE REQUIREMENTS
In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Doctor of Philosophy: Curriculum Design Concentration

Minimum Semester Hours Required 96 from the baccalaureate or 64 hours beyond the master’s degree.

Course Work ED 500, 501, and 502, EPSY 503, CIE 574 and at least 1 hour of CIE 500. Students should contact their adviser for additional required courses.

Preliminary Examination Required; written and oral. The written examination is based on the student’s program of study. The oral portion of the examination is based on both the written examination and the student’s dissertation proposal.

Dissertation Required. Students must register for doctoral thesis research for at least 16 semester hours.

Other Requirements Students must participate in a research project in collaboration with a faculty member or a team of faculty members and students. Eight semester hours of credit are awarded for the project, requiring at least two semesters to complete. Students must complete a course sponsored by the Office for the Vice Chancellor for Research on the ethics of conducting research with human subjects. Students are required to submit an annual report of their academic and professional progress.

Interdepartmental Concentration in Gender and Women’s Studies
Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Gender and Women’s Studies after consulting with their graduate adviser. See Gender and Women’s Studies in the College of Liberal Arts and Sciences section of the catalog for more information.

EDUCATIONAL PSYCHOLOGY

Literacy, Language, and Culture: 20FS4070MED
Secondary Education: 20FS8547MED
Educational Studies: 20FS4069MED
E-mail: mherkes@uic.edu
Web Site: http://www.uic.edu/educ/index.html/
Dean of the College of Education: Victoria Chou
Director of Graduate Studies: Ruth Pearl

The College of Education offers course work which leads to the Master of Education in Instructional Leadership, with concentrations in Early Childhood Education (with strands leading to the MEd only or with the Type 04 certificate); Elementary Education (Type 03 certificate); Literacy, Language, and Culture (with strands leading to the M.Ed only or with the Type 10 certificate); Secondary Education (Type 09 certificate); or Educational Studies, an individualized program designed by the student with the approval of an adviser. The Bilingual and/or English as a Second Language (ESL) approval or endorsement can be awarded with the Type 04, Type 03, Type 10, and Type 09 certificates; contact the College of Education for specific course requirements. The middle school endorsement can be awarded with the Type 03 and Type 09 certificates, or to individuals who already have one of these certificates; see the college Web site for requirements.

ADMISSION REQUIREMENTS
Applicants are considered on an individual basis. The following requirements for admissions represent recommended minimum levels of performance. Decisions will be made on the strength of the overall evidence of academic and professional capacities and on available enrollment space.

Applicants to the Secondary Education concentration must submit transcripts from all undergraduate work; applicants to the other concentrations must submit transcripts from the last 60 hours of undergraduate work. Applicants to all concentrations must also submit transcripts from all post-
baccalaureate work. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

**Master of Education**

**Baccalaureate Field** No restrictions.

**Grade Point Average** The Secondary Education concentration requires a 3.00/4.00 for the final 60 semester (90 quarter) hours of undergraduate study, a 3.00 for any postbaccalaureate/graduate course work, and a 3.00/4.00 for the courses in the undergraduate major or in the intended teaching subject. Other concentrations: recommended minimum of 2.75/4.00 for the final 60 semester (90 quarter) hours of undergraduate study and at least 3.00 for all postbaccalaureate/graduate course work.

**Tests Required** For programs leading to Illinois certification, passing scores on the Illinois Basic Skills Test. Scores must be received by the application deadline.

**Minimum TOEFL Score** 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL). **Note:** Total score is higher than the sum of the subscores.

**Letters of Recommendation** Early Childhood Education, Elementary Education, Secondary Education, and Educational Studies: Three letters addressing the applicant’s academic qualifications, teaching experience, and ability to carry on advanced degree studies. Letters should be from current or former professors or supervisors.

**Other Requirements** Early Childhood Education: A questionnaire regarding interest and experience with young children. Applicants must also interview with program faculty.

**Elementary Education:** A 3-4 page statement of professional goals addressing the applicant’s relevant background and experience, interest in elementary-aged children, and goals for the MEd Program.

**Literacy, Language, and Culture:** A resume and personal statement (500–1000 words) that indicates strand of interest and addresses relevant personal background, professional experiences, and professional goals. For Strand B, two years of teaching experience is required. For Strands A and B, test results are required from the Basic Skills Test, Content Test, and the Assessment of Professional Teaching. Strands A and B may also require a portfolio demonstrating successful achievement of Illinois Professional Teaching Standards. If the applicant will be required to submit a portfolio, the graduate school will notify the College of Education. Applicants do not need to submit the portfolio unless it is requested.

**Secondary Education** A 3–4 page statement addressing the applicant’s commitment to and/or experiences working with urban youth. The Secondary Education concentration also requires 18 hours of courses in the subject area the applicant would like to teach and an interview with advisory staff. This concentration requires transcripts from all undergraduate and postbaccalaureate work.

**Educational Studies** A 3–4 page statement of the professional goals addressing the applicant’s relevant background and experience, and goals for the MEd Program.

**All Concentrations** Any materials required by the specific concentration which should be sent directly to the College of Education should be submitted at one time in a large envelope. All materials must be submitted by the stated application deadlines. Applicants should give themselves enough time to gather all materials (especially letters of recommendation) and submit them by the deadline.

**Deadlines** The application deadlines for these concentrations are earlier than the Graduate College deadline; contact the College of Education for information on current deadlines.

### DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

**Master of Education**

**Minimum Semester Hours Required** Varies by concentration.

**Early Childhood Education—Strand 1** (includes Type 04 Certificate): 51–52 hours.

**Early Childhood Education—Strand 2** (MEd only): 32 hours.

**Elementary:** 35 hours.

**Secondary:** 34 hours.

**Educational Studies:** 32 hours.

**Literacy, Language, and Culture:** 39 hours.

**Course Work** Early Childhood Education—Strand 1—Certification Option: ED 402 or 403; ED 422 or EPSY 526; SPED 506; EPSY 429, 449; EPSY/SPED 582; CIE 509; EPSY/SPED 466; EPSY 519, 520; SPED 508; EPSY 521.

Early Childhood Education—Strand 2—Degree Only: ED 402 or ED 403 or EPSY 449; ED 422 or EPSY 526; ED 430 or 431; EPSY 429; EPSY/SPED 582; CIE 509; EPSY 519 or EPSY 520 or SPED 508 or EPSY 596. 6–8 semester hours of graduate work offered by the College of Education and selected with consent of the faculty adviser.

Elementary Education: ED 402 or 403; ED 421 or 445; ED 429, 430, 432, and 580; SPED 410; CIE 504; and all required teaching areas and methods courses for teachers in designated...
teaching field, and other course work selected with the consent of the faculty adviser.

Educational Studies: ED 402 or 403; ED 421 or 422 or 445; ED 430 or 431; and 14 semester hours of graduate work offered by the College of Education and selected with consent of the faculty adviser.

Literacy, Language, and Culture: ED 402 or 403; ED 421 or 422 or 445; CIE 450; CIE 503 or 504; CIE 535 and 536. In addition to the above courses, students must complete one of the following 4 strands:

- **Strand A (Classroom Literacy Instruction)**—CIE 528 and 542; 2 of the following four courses: CIE 541, 544, 546, and 547; and 1 elective course (4 hours) taken with adviser approval.
- **Strand B (Reading Specialist Type I)**—CIE 525, 526, 527; and 2 elective courses (8 hours) taken with adviser approval.
- **Strand C (Inquiry into Literacy Education)**—CIE 548 or equivalent; ENGL 503 or equivalent; PS 406 or equivalent; and 1 elective course (4 hours) taken with adviser approval.
- **Strand D (Literacy Education in Alternative Contexts)**—CIE 482 or equivalent; CIE 543; SPED 463 or 471 or equivalent; and 2 elective courses (8 hours) taken with adviser approval.

**Comprehensive Examination** Required only for students in the Literacy, Language, and Culture concentration; written.

**Thesis, Project, or Course-Work-Only Options** Course work only. No other options are available.

**Interdepartmental Concentration in Gender and Women’s Studies**

Students earning a graduate degree in this department may complement their courses by enrolling in a concentration in Gender and Women’s Studies after consulting with their graduate adviser. See Gender and Women’s Studies in the College of Liberal Arts and Sciences section of the catalog for more information.

Dean of the College of Education: Victoria Chou

Director of Graduate Studies: Ruth Pearl

The College of Education offers course work which leads to the Doctor of Philosophy in Policy Studies in Urban Education with concentrations in 1) Educational Organization and Leadership and 2) Social Foundations of Education.

**ADMISSION REQUIREMENTS**

Applicants are considered on an individual basis. Applicants must submit transcripts from the last 60 hours of undergraduate work and from all postbaccalaureate work. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

**Doctor of Philosophy**

**Baccalaureate Field** No restrictions.

**Grade Point Average** At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study and for all postbaccalaureate course work.

**Tests Required** GRE General.

**Minimum TOEFL Score** 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

**Letters of Recommendation** Three required from faculty members or others familiar with the applicant’s previous academic training, academic and research ability, and experience.

**Personal Statement** Required. The statement must address the applicant’s goals for graduate study and career development.

**Other Requirements** The College of Education Application form must be submitted. This program requires two packets of admission materials. One set of transcripts and the official university application should be sent to the Admissions Office. Submit the following materials in one package to the College of Education: a copy of the official UIC application, the College of Education application, a second set of transcripts, GRE scores, 3 letters of recommendation, and the personal statement.

**Deadlines** The application deadline for this program is January 1. Admission is restricted to the summer and fall terms.
## DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

### Doctor of Philosophy

- **Minimum Semester Hours Required**: 111–116 from the baccalaureate, 79–84 from the master’s.

- **Course Work Required Courses**: Minimum beyond the master’s—20 hours in concentration-specific courses, including Seminar in Urban Education (PS 510); 20 hours in research methods; 14–16 hours in electives, including three field-related courses outside the College of Education.

- **Required Concentration-Specific Courses for Educational Organization and Leadership**: PS 510, 571, 579, 587 (one topic), 589.

- **Required Concentration-Specific Courses for Social Foundations of Education**: PS 510 and four required courses taken from the following: PS 566, 567, 570, 571, 572, 582, 583, 588.

- **Required Research Methods Courses for Educational Organization and Leadership**: ED 500, EPSY 503, ED 544; PS 512; and one course from EPSY 546, 547, 563, 583, PS 587, ED 502.

- **Related Field Courses**: Three courses taken outside the College of Education in one related discipline or field of study (e.g., business and management, economics, political science, sociology) to add depth to knowledge and research methods to the appropriate concentration (9–12 hours); selected with the faculty adviser.

- **Electives**: Each student will support the concentration with 14–16 elective hours (4 courses) from the College of Education, selected with the faculty adviser.

- **Examinations**: Comprehensive Written Qualifying Examination: Required. Successful completion of the comprehensive exam qualifies students to enter the dissertation proposal stage of the program. The examination focuses on program curriculum, the student’s area of concentration, and research methods. No student with a cumulative GPA below 3.00/4.00 will be permitted to take the qualifying examination. Students who fail to pass all components after the second attempt will be recommended by the program faculty to the Graduate College for dismissal from the program.

- **Preliminary Examination**: Required. The preliminary examination is taken at the completion of all coursework. The examination is primarily oral but may contain a written component. The primary purpose of the preliminary examination is review and approval of the dissertation proposal and admission of the student to degree candidacy.

- **Dissertation**: Required. Students must earn at least 16 semester hours in PS 599.

### Other Requirements

- **All students must complete a training course sponsored by the Office for the Vice Chancellor for Research on the ethics of conducting research with human subjects. Students are required to submit an annual report of their academic and professional progress.**

### Interdepartmental Concentration in Gender and Women’s Studies

- **Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Gender and Women’s Studies after consulting with their graduate adviser. See Gender and Women’s Studies in the College of Liberal Arts and Sciences section of the catalog for more information.**

### SPECIAL EDUCATION

- **Web Site**: [http://www.uic.edu/educ/index.html](http://www.uic.edu/educ/index.html)

### ADMISSION REQUIREMENTS

- **Applicants are considered on an individual basis. Applicants must submit transcripts from the last 60 hours of undergraduate work and from all post-baccalaureate work. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:**

#### Master of Education

- **Baccalaureate Field**: No restrictions.

- **Grade Point Average**: At least 2.75/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study, and at least 3.00/4.00 for all postbaccalaureate course work.

- **Tests Required**: For the certificate concentrations, passing scores on the Illinois Basic Skills Test. Scores must be received by the application deadline.

- **Minimum TOEFL Score**: 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).
Note: Total score is higher than the sum of the subscores.

Letters of Recommendation Three required; addressing the applicant's academic qualifications, teaching experience, and potential for advanced-degree studies. Letters should be from current or former professors or supervisors.

Personal Statement Required; minimum of 300 words.  

Interview An interview is required of each applicant.  

Impromptu Writing This is assessed at the time of the interview.  

Other Requirements All materials must be submitted by the stated application deadline. Applicants should give themselves enough time to gather all application materials (especially letters of recommendation) and submit them by the deadline.

Deadlines The application deadline for this program is earlier than the Graduate College deadline; contact the College of Education for information on current deadlines. Admission is restricted to fall and spring terms.

Doctor of Philosophy

Baccalaureate Field No restrictions.

Grade Point Average At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study and for all postbaccalaureate course work.

Tests Required GRE General.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Note: Total score is higher than the sum of the subscores.

Letters of Recommendation Three required from faculty members or others familiar with the applicant’s previous academic training, academic and research ability, and experience.

Personal Statement Required. The statement must address the applicant’s professional and scholarly goals.

Other Requirements The College of Education Application form must also be submitted. This program requires two packets of admission materials. One set of transcripts and the official university application should be sent to the Admissions Office. Applicants should submit the following materials in one package to the College of Education: a copy of the official UIC application, the College of Education application, a second set of transcripts, GRE scores, 3 letters of recommendation, and a personal statement.

Deadlines The application deadline for this program is January 1. Admission is restricted to the summer and fall terms.

For information about the personal statement, impromptu writing requirement, and interview, contact the Special Education Office at (312) 996-5650.

---

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Education

Minimum Semester Hours Required MEd Only Option: 35 semester hours.

MEd Plus LBS II Option: Contact the Special Education department in the College of Education.

MEd Plus LBS I Certificate Option: 50 hours. At least 21 hours in special education are required, 9 hours are required at the 500-level.

Course Work MEd Only Option: ED 445, SPED/EPSY 582, and SPED 573 are required. In addition, courses must be taken from the following areas:

1 course in political and social context: DHD 401; DHD 430; DHD 514; DHD 570; DIS 535; ED 402; ED 403; EPSY 449, PS 406; PS 570; PS 571; PS 582; SPED/ED 461.

1 course in characteristics of learners: ED 421; ED 422; EPSY 420; EPSY 429; EPSY 446; EPSY 502; SPED/EPSY 456, SPED/EPSY 466; SPED/EPSY 467.

1 course in promoting academic learning: CIE/SPED 480; CIE 482; SPED/ED 473; SPED 463; SPED 471; SPED 583.

1 course in promoting social and emotional learning: SPED/ED 472; SPED 572.

1 course in assessing students' needs: SPED 462; SPED 576.

1 three-hour internship course: SPED 577; SPED 578; SPED 579.

5–9 hours of electives based on the above course selections and with adviser approval.

MEd Plus LBS II Certificate Option: Contact the Special Education department in the College of Education for further information.

MEd Plus LBS I Certificate Option: SPED/ED 461, SPED 462, SPED/EPSY 465, SPED/EPSY 466; SPED/EPSY 467; SPED 573; SPED 463; SPED/ED 473; SPED 471; SPED/ED 472; SPED 572; SPED 576; SPED 577 or SPED 578; SPED/EPSY 582; SPED 583; SPED 580.

Comprehensive Examination None.

Thesis, Project, or Course-Work-Only Options Course Work Only: No other options are available.

Doctor of Philosophy

Minimum Semester Hours Required 96 from the baccalaureate or 64 from the master’s degree.

Course Work Required Courses: ED 500, 501, and 502; EPSY 503. Courses required in the area of specialization include SPED 564 and three research seminars (i.e., SPED 592). Students may take their remaining courses within the
Special Education area, in other areas of the College of Education, or in other departments of the university (e.g., Anthropology, Disability Studies, Psychology, Public Policy, Sociology, and Gender and Women’s Studies). Twenty-four hours are required if a student already possesses a master’s degree, 56 are required without the master’s degree.

Preliminary Examination Written and oral. The written exam is based on the student’s program of study. The oral portion of the examination is based on both the written examination and the student’s dissertation proposal.

Dissertation Required. Students must register for doctoral thesis research for at least 16 semester hours.

Other Requirements Students must participate in a research project in collaboration with a faculty member or a team of faculty members and students. Eight semester hours of credit are awarded for the project, requiring at least two semesters to complete. Students must complete a training course sponsored by the Office for the Vice Chancellor for Research on the ethics of conducting research with human subjects. Students are required to submit an annual report of their academic and professional progress.

The College of Education offers a program of academic work leading to the Doctor of Education in Urban Education Leadership with strands of study for the Illinois Type 75 General Administrative Certificate, the Illinois Superintendent Endorsement, and general advanced professional studies in urban education leadership.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. Applicants must submit transcripts from the last 60 hours of undergraduate work and from all post-baccalaureate work. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Doctor of Education

Baccalaureate Field No restrictions.

Master’s Degree Required.

Grade Point Average At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study and for all post-baccalaureate course work.

Tests Required GRE or GMAT.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Note: Total score is higher than the sum of the sub scores.

Letters of Recommendation Three required attesting to potential for excellence in urban education leadership.

Personal Statement Required. Statement must identify and explain applicant’s career objectives.

Other Requirements Evidence of successful classroom teaching experience and leadership experience in educational settings. The College of Education Application form must also be submitted. This program requires two packets of admissions materials. One set of transcripts and the official university application should be sent to the Admissions Office. Applicants should submit the following materials in one package to the College of Education: a copy of the official UIC application, the College of Education application, a second set of transcripts, GRE or GMAT scores, 3 letters of recommendation, and a personal statement.

Deadlines The application deadline for this program is February 1. Admission is restricted to the fall term.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Doctor of Education

Minimum Semester Hours Required 80–92 from the master’s degree, depending on strand of study.

Course Work Required Courses for All Strands of Study: PS 571, PS 579 or PS 589, ED 500, PS 586, CIE 545, PS 544, PS 599.

Required Courses in Illinois Type 75 Certificate Strand: EPSY 501, CIE/PS 548, PS 500, PS 501, PS 550, PS 552, PS 556, PS 568, PS 559, PS 573.

Required Courses in Illinois Superintendent Endorsement Strand: CIE/PS 548, PS 406, PS 500, PS 501 or PS 567, PS 550, PS 553, PS 556, PS 568, PS 581, PS 559, PS 573.

General Study Noncertification/Endorsement Strand: In addition to required courses for all strands, minimum of 10 courses (40 hours minimum) related to educational leadership
Examinations Comprehensive Written Qualifying Examination: Required. Successful completion of the comprehensive exam qualifies students to enter the research proposal stage of the program. No student with a cumulative GPA below 3.00/4.00 will be permitted to take the qualifying examination. As appropriate to each strand of study, the exam will include a review of a portfolio of performance assessments in clinical fieldwork and academic course work, and may require additional writing on educational leadership knowledge. Students have two opportunities to pass the comprehensive qualifying examination. Students who fail to pass all components after the second attempt will be recommended by the program faculty to the Graduate College for dismissal from the program.

Preliminary Examination: Required. The preliminary examination is taken at the completion of all course work. The examination is primarily oral but may contain a written component. The primary purpose of the preliminary examination is review and approval of the thesis research proposal and admission of the student to the research stage of degree candidacy.

Thesis Research Required. Students must earn at least 16 semester hours in PS 599. The completed research must be defended orally and publicly before a thesis committee.

Other Requirements All students must complete a training course sponsored by the Office for the Vice Chancellor for Research on the ethics of conducting research with human subjects. Students are required to submit an annual report of their academic and professional progress.

Interdepartmental Concentration in Gender and Women’s Studies

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Gender and Women’s Studies after consulting with their graduate advisor. See Gender and Women’s Studies in the College of Liberal Arts and Sciences section of the catalog for more information.
College of Engineering

The UIC College of Engineering also offers a program leading to a Master of Engineering (MEng) degree. This professional program is not part of the Graduate College. Contact the College of Engineering for more information at (312) 996-9806.

BIOENGINEERING

Mailing Address: Department of Bioengineering (MC 063) 851 South Morgan Street Chicago, IL 60607-7052

Campus Location: 218 SEO

Program Codes: 20FS0408MS (MS); 20FS0408PHD (PhD)

Telephone: (312) 996–2331

E-mail: bioe@uic.edu

Web Site: http://www.uic.edu/depts/bioe

Head of the Department: Richard L. Magin

Director of Graduate Studies: Michael Cho

The Department of Bioengineering offers graduate programs leading to Master of Science and Doctor of Philosophy degrees in Bioengineering, and participates in the MD/PhD joint degree program (see MD/PhD in the College of Medicine section of the catalog for more information). The Interdepartmental Concentration in Neuroscience is also available to doctoral students. The departmental focus is molecular engineering at natural and synthetic interfaces. The areas of study are in Cell and Tissue Engineering, Neural Engineering, Bioinformatics and Genomics, and Nanobiomolecular Engineering. The Bioinformatics programs have been approved by the State of Illinois, and interested students may obtain MS or PhD degree in Bioinformatics. Biocompatibility, immunotolerance, drug discovery and delivery, molecular targeting and transport, biotransduction, imaging and inducible bioactivity, computational genomics, structural bioinformatics, and proteomics are collaborative disciplines found in the areas of study. The Bioengineering Bioinformatics Lab (BBL), established by the university within its Medical Center, coordinates and implements clinically based bioengineering activities. The departmental programs are directed toward applying advanced methods of interfacial molecular bioengineering to clinical problems of diagnosis and treatment. The curriculum provides students with an introduction to molecular modeling, targeting, transport, detection, and nanofabrication complemented by collaborative molecular bioengineering research with biologists, chemists, and clinicians. In addition, curricula in the traditional bioengineering areas of signal and image processing, biocontrol, biomaterials, medical visualization, biomechanics, pattern recognition, and rehabilitation engineering are available.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

REQUIREMENTS

Each student must present at least one seminar prior to graduation.

Master of Science

Baccalaureate Field Physical sciences, engineering, computer science, mathematics, biology, or medicine. Students from other areas are also encouraged to apply if their backgrounds indicate a reasonable chance of success in the program.

Grade Point Average At least 3.00/4.00 for the final 60 semester (90 quarter) hours of undergraduate study.

Tests Required GRE General, minimum 1800 total.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required.

Personal Statement Required.

Doctor of Philosophy

Baccalaureate Field Physical sciences, engineering, computer science, mathematics, biology, or medicine. Students from other areas are also encouraged to apply if their backgrounds indicate a reasonable chance of success in the program.

Grade Point Average At least 3.00/4.00 for the final 60 semester (90 quarter) hours of undergraduate study.

Tests Required GRE General, minimum 1800 total.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required.

Personal Statement Required.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

Minimum Semester Hours Required 36.

Course Work At least twelve hours must be at the 500-level, excluding BIOE 595 and 598. Limited credit hours in BIOE 596 are allowed upon departmental approval.

Required Courses: 1 hour of BIOE 595.

Additional required courses vary by area; contact the department for the specific requirements of each area.

Comprehensive Examination None.

Thesis, Project, or Course-Work-Only Options Thesis: Required. No other options are available. Students must earn at least 8 hours in BIOE 598.

Other Requirements Each student must present at least one seminar prior to graduation.
Doctor of Philosophy

Minimum Semester Hours Required 108 from the baccalaureate.

Course Work Students admitted with a prior master's degree in bioengineering or a related field must complete a minimum of 24 hours of course work, at least 12 hours of which must be bioengineering courses. At least 12 hours must be at the 500-level, excluding BIOE 595 or 599. Limited credit hours in BIOE 596 are allowed upon department approval. A maximum of 4 hours of BIOE 590 may be applied toward the degree, provided credit for BIOE 590 or a similar course was not applied toward the prior MS degree.

Students admitted with a bachelor's degree in bioengineering or a related field must complete a minimum of 48 hours of course work. At least 24 hours must be bioengineering courses. At least 20 hours must be at the 500-level, excluding BIOE 595, 596, and 599. A maximum of 4 hours of BIOE 590 may be applied toward the degree.

Required Courses: Two hours of BIOE 595. Additional required courses vary by area of study; contact the department for the specific requirements of each area.

Examinations Departmental Qualifying Examination: Required
Preliminary Examination: Required.
Dissertation Required. Students must earn at least 60 semester hours in BIOE 599.

Other Requirements Each student is required to present at least two seminars prior to graduation. Students must be registered during the semester of intended graduation.

Interdepartmental Concentration in Neuroscience

Doctoral students may pursue the Interdepartmental Concentration in Neuroscience. Refer to Interdepartmental Concentration in Neuroscience in the Graduate College section for more information.

BIOINFORMATICS

Director of Graduate Studies: Hui Lu

The Department of Bioengineering offers a program leading to degrees in Bioinformatics at both the master's and doctoral levels.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Science

Baccalaureate Field Physical sciences, engineering, computer science, mathematics, or biology. Students from other areas are also encouraged to apply if their backgrounds indicate a reasonable chance of success in the program.

Grade Point Average At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study.

Tests Required GRE General.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required.
Personal Statement Required.

Doctor of Philosophy

Baccalaureate Field Physical sciences, engineering, computer science, mathematics, or biology. Students from other areas are also encouraged to apply if their backgrounds indicate a reasonable chance of success in the program.

Grade Point Average At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study.

Tests Required GRE General.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required.
Personal Statement Required.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

Minimum Semester Hours Required 36.

Course Work At least 12 hours must be at the 500-level, excluding BIOE 595, 596, or 598.

Required Courses: 1 hour of BIOE 595.
Additional required courses vary by area; contact the department or program for the specific courses offered.

Comprehensive Examination None.

Thesis, Project, or Course-Work-Only Options Thesis required. No other options are available.
Thesis: Students must earn at least 8 hours in BIOE 598.

Other Requirements Each student must present at least one seminar prior to graduation.

Doctor of Philosophy

Minimum Semester Hours Required 108 from the baccalaureate.

Course Work At least 32 hours must be at the 500-level, excluding BIOE 599.

Required Courses: Two hours of BIOE 595. Additional required courses vary by area; contact department or program for additional required courses in the elective areas.

Examinations Departmental Qualifying Examination: Required.

Preliminary Examination: Required.

Dissertation Required. Students must earn at least 44 semester hours in BIOE 599.

Other Requirements Each student is required to present at least two seminars prior to graduation. Students must be registered during the semester of intended graduation.

CHEMICAL ENGINEERING

Mailing Address: Department of Chemical Engineering (MC 110)
810 South Clinton Street
Chicago, IL 60607-7000

Campus Location: 204 CEB

Program Codes: 20FS0300MS (MS);
20FS0300PhD (PhD)

Telephone: (312) 996-3425
E-mail: kmilla@uic.edu
Web Site: http://www.uic.edu/depts/chme/

Head of the Department: Sohail Murad

Director of Graduate Studies: Lewis Wedgewood

The Department of Chemical Engineering offers a program leading to degrees in Chemical Engineering at both the master’s and doctoral levels. The primary areas on which this program is based are continuum and molecular fluid mechanics, heat and mass transfer, macroscopic and microscopic thermodynamics, chemical kinetics, and process analysis, microelectronic materials and processing, heterogeneous catalysis, process design, and pollution prevention.

ADMISSION REQUIREMENTS

The department reviews each applicant on an individual basis. Complete transcripts of all undergraduate and any graduate work must be submitted. In addition to meeting the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Science and Doctor of Philosophy

Baccalaureate Field Engineering.

Grade Point Average At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study for the master’s program, and at least 3.50 for the doctoral program. In exceptional cases, applicants with averages below 3.00 but above 2.75 may be admitted on limited standing if they show evidence of substantial ability to complete the program successfully.

Tests Required GRE General.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required.

Personal Statement Not required.

DEGREE REQUIREMENTS

In addition to meeting the minimum requirements of the Graduate College, students must also meet the following program requirements:

Master of Science

Minimum Semester Hours Required 36.

Course Work At least 12 semester hours must be at the 500-level.

Required Courses (5 courses, 20 hours): CHE 410; either 431 or 445; either 501 or 502; either 510 or 511 or 512; and 527.

Elective Courses: One course (4 hours) for thesis option; 3 courses (12 hours) for project option.

Research Credit: 12 hours 598 for thesis option; 4 hours 597 for project option.

Comprehensive Examination Not required.

Thesis, Project, or Course-Work-Only Options: Thesis or project required. No other options available.

Doctor of Philosophy

Entering with BS in Chemical Engineering

Minimum Semester Hours Required 108 from the baccalaureate.

Course Work At least 24 semester hours must be at the 500-level.

Required Core Courses (5 courses, 20 hours): CHE 410; either 431 or 445; either 501 or 502; either 510 or 511 or 512; and 527. Also math (2 courses, 8 hours), one at 500-level.

Elective Courses: (7 courses, 28 hours): at least 3 courses (12 hours) at the 500-level. Of these, at least 8 semester hours of advanced math, including at least one 500-level course from the Department of Mathematics, Statistics, and Computer Science. Students must register in CHE 595 for one semester hour each term, to a maximum of 4 hours.

Research Credit: 60 semester hours of CHE 599.

Entering with MS in Chemical Engineering

Minimum Semester Hours Required 108 from the baccalaureate. 32 semester hours are given for the MS.
Engineering (CME) offers programs leading to the Master of Science and Doctor of Philosophy degrees in Civil Engineering. Study and research leading to a degree in Civil Engineering is available in the areas of geotechnical and geoenvironmental engineering, environmental engineering, water resources engineering, structural engineering, structural mechanics, structural health monitoring, sensors and nondestructive testing, earthquake engineering, concrete materials, reinforced and prestressed concrete, steel structures, and transportation engineering.

The department also offers programs leading to degrees in Materials Engineering at both the master's and doctoral levels. Updated information about the faculty, staff, curriculum and courses is found on the CME home page at the following address: http://www.uic.edu/depts/cme/cme.html.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. Complete transcripts for all undergraduate and any graduate work must be submitted. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Science and Doctor of Philosophy

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

| Minimum Semester Hours Required | 36. |
| Course Work | At least 24 semester hours must be in courses chosen from major courses listed on the department Web page. At least 12 hours must be at the 500-level, and at least 8 hours must be in 500-level courses in the department, excluding CME 598. |
| Comprehensive Examination | None. |
| Thesis, Project, or Course-Work-Only Options | Thesis or course work only. No other options are available. |

Doctor of Philosophy

| Minimum Semester Hours Required | 108 from the baccalaureate. |
| Course Work | Required Courses: Minimum requirement of 56 hours of postbaccalaureate course work, excluding CME 599. Specific Course Requirements: At least 28 hours must be at the 500-level, of which 16 hours must be in the department, excluding CME 596 and 599. Credit for MS Degree: Those having an MS degree from an accredited institution may be awarded 32 hours of credit towards the PhD degree requirement with 12 hours towards the 28-hour 500-level requirement. |
| Examinations | Departmental Qualifying Review: Required. Preliminary Examination: Required. |
| Dissertation | Required. Students must earn at least 52 hours in CME 599. |
| Other Requirements | Students must be registered during the semester of intended graduation. |
COMPUTER SCIENCE

Mailing Address: Department of Computer Science (MC 152)
851 South Morgan Street
Chicago, IL 60607-7053

Campus Location: Department Office 1120 SEO;
Student Affairs Office 905 SEO

Program Codes: 20FS0112MS (MS);
20FS0112PHD (PhD)

Telephone: (312) 996-2290 or (312) 413-4950
E-mail: grad@cs.uic.edu
Web Site: http://www.cs.uic.edu

Head of the Department: Peter Nelson
Director of Graduate Studies: Robert Sloan

The Department of Computer Science offers graduate programs leading to Computer Science degrees at the master's and doctoral levels. The department offers a comprehensive range of courses in the field of computer science. Special emphasis is in the areas of artificial intelligence, computational biology, databases, graphics and human-computer interaction, networks, security, software engineering, and theoretical computer science. Consult the CS Graduate Student Manual for current requirements, policies, and regulations. Updated information about the faculty, staff, curriculum, and courses is found on the CS Web site http://www.cs.uic.edu.

The department maintains and provides full-time technical staff for several specialized research laboratories, many housed in the Engineering Research Facility. The laboratories contain over 300 workstations and servers and an extensive array of computer-based multimedia equipment. All departmental computing facilities are networked to general university computing resources and national networks, which permits high-speed access to specialized computing facilities.

ADMISSION REQUIREMENTS

Applications are considered on an individual basis by the Graduate Admissions Committee. A complete set of transcripts of all undergraduate and graduate work is required before an applicant is considered. In addition to the application requirements of the Office of Admissions and Records and the policies set by the Graduate College, applicants must meet the following program requirements:

Master of Science

- **Baccalaureate Field** Computer science or computer engineering. Outstanding candidates from other related fields will also be considered.

- **Grade Point Average** At least 3.50/4.00.

- **Tests Required** GRE General scores are required for financial aid applicants and all students with degrees from outside the U.S. All international students are required to submit Test of English as a Foreign Language (TOEFL) scores as well. Subject GRE in Computer Science and TSE scores are not required.

Minimum TOEFL Score 570 (paper-based); 230 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

- **Letters of Recommendation** Not required.

- **Personal Statement** Not required.

**Deadlines**

- The application deadline is the same as the Graduate College deadline. University fellowship nominations are due in the first week of February and department financial aid decisions (TA/TFW) are made about the middle of March.

Doctor of Philosophy

- **Prior Degrees** Computer science or computer engineering. Outstanding candidates from other related fields will also be considered.

- **Grade Point Average** At least 3.50/4.00.

- **Tests Required** GRE General scores are required for financial aid applicants and all students with degrees from outside the U.S. All international students are required to submit Test of English as a Foreign Language (TOEFL) scores as well. Subject GRE in Computer Science and TSE scores are not required.

Minimum TOEFL Score 570 (paper-based); 230 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

- **Letters of Recommendation** Three required.

- **Personal Statement** Not required.

**Deadlines**

- The application deadline is the same as the Graduate College deadline. University fellowship nominations are due in the first week of February and department financial aid decisions (TA/TFW) are made about the middle of March.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

- **Minimum Semester Hours Required** 36.

- **Course Work** At least 28 hours (with thesis)/32 hours (with project), 12 of which must be CS course offerings at the 500-level (excluding CS 595–599). No more than one special topics course (CS 594) may be counted toward the 500-level CS requirement. At most 8 hours of non-CS graduate courses may be counted toward the overall requirement.

- **Comprehensive Examination** None.
The Department of Electrical and Computer Engineering offers graduate programs leading to the master's and doctoral levels. Updated information about the curriculum, requirements, policies, courses, faculty, and staff is found on the ECE home page http://www.ece.uic.edu. The department offers a comprehensive range of courses in the field of electrical engineering and computer engineering. Major research areas include microelectromechanical systems (MEMS) and nanotechnology, microelectronics, RF electronics, electromagnetics and optics, power electronics, VLSI technology and CAD, robotics and control, parallel computing, fault-tolerant computing and systems, networking, communications, signal and image processing, adaptive and learning systems, machine vision, multimedia processing and retrieval, medical imaging, and biomedical applications. Research facilities in the ECE include a Microfabrication Applications Laboratory (MAL) with a 3,000 square-feet class 100/1000 clean room that enables a broad spectrum of innovative multidisciplinary research; Microsystems Research Center; the endowed Andrews Electromagnetics Laboratory; an industry-sponsored Power Electronics Reliability Group that supports research in increasing the reliability and lowering the costs of power electronic systems; Communication and Sensing Laboratory; Machine Vision and Neural Networks Laboratory; Computational Intelligence Laboratory; Computer Vision and Robotics Laboratory; Signal and Image Research Laboratory; Multimedia Systems Laboratory; and Biomedical Functional Imaging and Computation Laboratory.

**ADMISSION REQUIREMENTS**

Applications for admission are individually evaluated by the Graduate Admissions Committee. A complete set of transcripts of all undergraduate and graduate work is required before an application is evaluated for admission. In addition to the application requirements of the Office of Admissions and Records and the policies set by the Graduate College, applicants should meet program requirements for admission. Meeting minimum requirements does not, however, guarantee admission. Program requirements are given below:

**Master of Science**

**Baccalaureate Field** Electrical or computer engineering, or other closely related curriculum.

**Grade Point Average** At least 3.20/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study is expected.

**Tests Required** All international applicants should report general test scores of GRE. Applicants with a bachelor's degree from an accredited U.S. institution are not required to provide GRE scores; however, GRE scores may improve prospects for financial aid. Graduates of non-English-speaking countries who seek appointment as Teaching Assistants must submit a TSE score (minimum acceptable score is 50).

**Minimum TOEFL Score** 590 (paper-based); 243 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

---

**Doctor of Philosophy**

**Minimum Semester Hours Required** 108 from the baccalaureate.

**Course Work Students Admitted with Prior Master's Degree in CS or a Related Field:** Must complete a minimum of 28 hours of credit in CS or non-CS graduate course work. Credit for non-CS course work must have prior department approval. Of the 28 hours, at least 16 hours must be CS course work at the 500-level, excluding CS 595, 596, 597, 598, 599. Any course that is nearly equivalent to one taken in the bachelor's or master's program earlier will not earn PhD credit. Credit earned in CS 596 may not be applied toward the PhD degree.

**Examinations**

- **Departmental Qualifying Competency Examination:** Required; written.
- **Preliminary Examination:** Required; oral.
- **Dissertation:** Required. Candidates must earn CS 599 credit of at least 48 hours beyond a bachelor's degree.

**Support**

The department offers guarantees of multiple-year teaching and/or research assistantships each year to highly qualified, new PhD students. These assistantships will provide a stipend of at least $14,000 per academic year, plus tuition and fee waivers.
Master of Science

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

Minimum Semester Hours Required 36 for thesis option, 40 for course-work-only option.

Course Work Thesis Option: 28 hours of graduate course work required. At least 24 hours must be in ECE graduate courses, 12 of which must be 500-level ECE courses, excluding ECE 595, 596, 597, 598, and 599. Up to 4 hours of non-ECE graduate course work, completed with prior department approval, may be applied toward the MS degree. A Computer Engineering (CE) student may fulfill part of the 500-level ECE course requirement by completing up to 4 hours of graduate course work at 500-level in the CS department, excluding CS 595, 596, 597, 598, and 599.

Doctor of Philosophy

Prior Degrees Applicants must have a bachelor's or master's degree in electrical engineering or computer engineering or a related field. Applicants with a bachelor's degree and an outstanding academic record are encouraged to seek admission directly to the PhD program.

Minimum TOEFL Score 590 (paper-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required.

Personal Statement Not required.

Comprehensive Examination None.

Thesis, Project, or Course-Work-Only Options Thesis or course-work-only option. No other options are available.

Thesis: Thesis students must earn 8 hours in ECE 598; no more than 8 hours of ECE 598 may be applied toward the degree.

Doctor of Philosophy

Minimum Semester Hours Required 108 beyond the baccalaureate.

Course Work Students Admitted with Prior Master's Degree in EE, CE, or a Related Field: Must complete a minimum of 28 hours of credit in graduate course work, 16 hours of which must be ECE course work at the 500-level, excluding ECE 595, 596, 597, 598, and 599. A Computer Engineering (CE) student may replace up to 4 hours of 500-level ECE course work with 400-level ECE course work if the student completes the same number of hours of non-ECE course work at 500-level in the CS department, excluding CS 595, 596, 597, 598, and 599. Any course that is nearly equivalent to one taken in master's program earlier will not earn PhD credit. Credit earned in ECE 598 may not be applied toward the PhD degree.

Students Admitted Directly after Bachelor's Degree in EE, CE, or a Related Field: Must complete a minimum of 52 hours of graduate course work, 36 hours of which must be ECE course work with at least 24 hours at the 500-level, excluding ECE 595, 596, 597, 598, and 599. A CE student may substitute up to 8 hours of 500-level ECE course work with 400-level ECE course work if the student completes the same number of hours of non-ECE course work at 500-level in the CS depart-
The Department of Mechanical and Industrial Engineering offers work leading to the Master of Science in Industrial Engineering and the Doctor of Philosophy in Industrial Engineering and Operations Research. Course work and research is available in such topics as computer-aided design and manufacturing, supply chain logistics, optimization, quality control, virtual reality, industrial automation, safety engineering, diagnostics, prognostics, controls and statistical modeling. The department also offers a program leading to degrees in Mechanical Engineering at both the master’s and doctoral levels; consult the appropriate section of the catalog for more information on this program.

ADMISSION REQUIREMENTS

In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

**Master of Science and Doctor of Philosophy**

**Baccalaureate Field** Industrial engineering or a related curriculum. The degree must be from an American Board of Engineering Technology (ABET) accredited college or university or the equivalent.

**Grade Point Average** At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study. A grade point average of at least 3.50 is preferred for applicants to the PhD program.

**Tests Required** International applicants are strongly encouraged to take the GRE General. Additional information and the procedure to apply for financial aid can be found on the ECE home page http://www.ece.uic.edu by clicking on the Financial Aid link.

**Letters of Recommendation** Three required.

**Personal Statement** Required.

**Other Requirements** Admission to the PhD program is not automatic for students completing their MS degree in the department. Master’s students who desire to continue on to the PhD must see the department’s graduate coordinator for forms to apply to the PhD program.

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

**Master of Science**

**Minimum Semester Hours Required** 36.

**Course Work**

**Course Work Option:** At least 36 hours must be in didactic courses. Twenty semester hours must be in courses in the department, of which at least 12 hours must be at the 500-level, excluding IE 596. IE 596 may be used to fulfill a 400-level course requirement. No more than 4 hours of IE 596 can be applied toward the PhD degree.

**Thesis Option:** At least 24 hours must be in didactic courses. Twenty semester hours must be in courses in the department, of which at least 12 hours must be at the 500-level, excluding IE 596 and IE 598. Twelve hours must be in IE 598.
Updated information about the faculty, staff, courses, and degree programs in Materials Engineering is available. Study and research in the areas of ceramics, polymers, electronic materials, composites, welding and joining, solidification, corrosion, tribology, and processing is available. The department also offers programs leading to degrees in Civil Engineering at both the master's and doctoral levels. Consult the appropriate sections of the catalog for more information. Updated information about the faculty, staff, curriculums, and courses is found on the CME homepage [http://www.uic.edu/depts/cme/cme.html].

**ADMISSION REQUIREMENTS**

Applicants are considered on an individual basis. Complete transcripts for all undergraduate and any graduate work must be submitted. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

**Master of Science and Doctor of Philosophy**

- **Baccalaureate Field** Engineering or a related field.
- **Grade Point Average** At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study.
- **Tests Required** GRE General.
- **Minimum TOEFL Score** 600 (paper-based); 250 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).
- **Letters of Recommendation** Three required for PhD applicants.
- **Personal Statement** Required for PhD applicants.
- **DEGREE REQUIREMENTS**

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

**Master of Science**

- **Minimum Semester Hours Required** 36.

- **Course Work** At least 24 hours must be in courses chosen from major courses listed on the department Web page. At least 12 hours must be at the 500-level, and at least 8 hours must be in 500-level didactic courses in the department. No more than 4 hours of CME 598 can be used to satisfy the 500-level course requirement.

- **Comprehensive Examination** None.

- **Thesis, Project, or Course-Work-Only Options** Thesis required. No other options are available.

- **Thesis** No more than 12 hours of CME 598 can be applied to the degree.

**Doctor of Philosophy**

- **Minimum Semester Hours Required** 108 from the baccalaureate.

- **Course Work** **Required Courses:** Minimum requirement of 56 hours of course work post-baccalaureate (not including CME 598).

- **Specific Course Requirements:** At least 28 hours must be at the 500-level, of which 16 hours must be in the department (excluding CME 596 and 599).

- **Credit for MS Degree:** Those having an MS degree from an accredited institution may be awarded 32 semester hours of credit towards the PhD degree requirement. Twenty-four hours may be applied towards the course work requirement with 16 hours being in the department, excluding CME 596 and 599. Eight hours of course work must be at the 500-level, and at least 8 hours must be in 500-level didactic courses in the department.

- **Thesis** If 52 semester hours (90 quarter hours) of course work post-baccalaureate are taken, at least 52 semester hours in IE 599.

- **Dissertation** Required. Students must earn at least 52 semester hours in IE 599.

- **Other Requirements** Students must be registered during the semester of intended graduation.

**MATERIALS ENGINEERING**

- **Mailing Address:** Department of Civil and Materials Engineering (MC 246) 842 West Taylor Street Chicago, IL 60607-7023
- **Campus Location:** 2095 ERF
- **Program Codes:** 20FS1434MS (MS); 20FS1434PhD (PhD)
- **Telephone:** (312) 996-3428
- **E-mail:** cmegrad@uic.edu
- **Web Site:** [http://www.uic.edu/depts/cme/cme.html](http://www.uic.edu/depts/cme/cme.html)
- **Head of the Department:** Farhad Ansari
- **Director of Graduate Studies:** Michael McNallan
- **Web Site:** [http://www.uic.edu/depts/cme/cme.html](http://www.uic.edu/depts/cme/cme.html)
awarded 32 hours of credit towards the PhD degree requirement (with 12 hours towards the 28-hour 500-level requirement).

Examinations

Departmental Qualifying Review: Required.

Preliminary Examination: Required.

Dissertation Required. Students must earn at least 52 semester hours in CME 599.

Other Requirements

Students must be registered during the semester of intended graduation.

MECHANICAL ENGINEERING

Mailing Address: Department of Mechanical and Industrial Engineering (MC 251)
842 West Taylor Street
Chicago, IL 60607-7022

Campus Location: 2041 ERF
Program Codes: 20FS0133MS (MS); 20FS0133PHD (PhD)
Telephone: (312) 996-6122
E-mail: megrad@uic.edu
Web Site: http://www.me.uic.edu/
Head of the Department: William Worek
Director of Graduate Studies: Farzad Mashayek

The Department of Mechanical and Industrial Engineering offers work leading to degrees in Mechanical Engineering at both the master's and doctoral levels. In addition, the department offers a program leading to the Master of Science in Industrial Engineering and the Doctor of Philosophy in Industrial Engineering and Operations Research; consult the appropriate section of the catalog for more information. Course work and research is available in such topics as fluid mechanics, stress analysis, mechanisms, dynamics and vibration, mechanical design, computer-aided design and manufacturing, heat transfer, mass transfer, combustion, multiphase flow and heat transfer, automatic control, industrial automation, and energy conversion. Interdisciplinary and interdepartmental work is encouraged, especially in the biological, environmental, electrical engineering, and computer science areas.

ADMISSION REQUIREMENTS

In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Science and Doctor of Philosophy

Baccalaureate Field

Mechanical engineering. The degree must be from an American Board of Engineering Technology (ABET) accredited college or university or equivalent.

Grade Point Average

At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study. A grade point average of at least 3.50 is preferred for applicants to the PhD program.

Tests Required

International applicants are required to take the GRE. Applicants seeking a teaching or research assistantship are strongly encouraged to take the GRE General.

Minimum TOEFL Score

550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation

Three required.

Personal Statement

Required.

Other Requirements

Admission to the PhD program is not automatic for students completing their MS degree in the department. Master's students who desire to continue on to the PhD must see the department's graduate coordinator for forms to apply to the PhD program.

Nondegree Applicants

Nondegree applicants may be admitted for no more than 8 semester hours.

Deadlines

The application deadline for this program is earlier than the Graduate College deadline; contact the program for information on current deadlines.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

Minimum Semester Hours Required

36. Students may elect one of two options: course work only or thesis.

Course Work

Course-Work-Only Option: At least 36 hours must be in didactic courses. Twenty semester hours must be in courses in the department, of which at least 12 hours must be at the 500-level, excluding ME 596. ME 596 may be used to fulfill a 400-level course requirement. No more than 4 hours of ME 596 can be applied to the degree. A 400- or 500-level course may be taken in place of ME 596.

Thesis Option: At least 24 hours must be in didactic courses. Twenty semester hours must be in courses in the department, of which at least 12 hours must be at the 500-level, excluding ME 596 and ME 598. Twelve hours must be in ME 598.

Comprehensive Examination

None.

Thesis, Project, or Course-Work-Only Options

Thesis or course work only. No other options are available.

Thesis

No more than 12 hours of ME 598 can be applied to the degree.

Doctor of Philosophy

Minimum Semester Hours Required

108 from the baccalaureate.

Course Work

Required Courses: Minimum requirement of 56 semester hours of postbaccalaureate course work, excluding ME 599.

Specific Course Requirements: At least 28 hours must be in 500-level courses, of which at least 16 hours must be in the department, excluding ME 596 and 599. Eight semester hours must be in graduate courses offered by the Department of Mathematics. ME 494 and 594 may count as part of the math requirement.
Credit for MS Degree: Those having an MS degree from an accredited institution may be awarded 32 hours of credit towards the PhD degree requirement. Twenty-four hours may be applied toward the course work requirement with 12 hours towards the 28-hour 500-level requirement. The remaining 8 hours may be applied towards the PhD dissertation hours (ME 599).

Examinations

- Departmental Qualifying Examination: Required.
- Preliminary Examination: Required.
- Dissertation: Required. Students must earn at least 52 hours in ME 599.

Other Requirements: Students must be registered during the semester of intended graduation.
Graduate College

NEUROSCIENCE

Mailing Address: James R. Unnerstall, PhD
Director of Graduate Studies
Graduate Program in Neuroscience
Department of Anatomy and Cell Biology (MC 512)
808 South Wood Street
Chicago, IL 60612-7308

Campus Location: 304 CSN
Program Codes: 20FS0323MS (MS);
20FS0323PHD (PhD)
Telephone: (312) 996-7370
E-mail: jru@uic.edu
Web Site: http://www.uic.edu/depts/neurosci/
E-mail: jru@uic.edu

Program Coordinators: Mark M. Rasenick, Simon T. Alford, and Keith Thulborn
Director of Graduate Studies: James R. Unnerstall

The Program in Neuroscience offers work leading to a Doctor of Philosophy degree in Neuroscience and a Master of Science degree in Neuroscience for physician residents in Psychiatry. As a multidisciplinary program, students have numerous research opportunities in several departments across the campus. Fields of study cluster around three areas of concentration: neural signal transduction and molecular biology; systems and integrative neuroscience; human/therapeutic neuroscience, cognition, and neural imaging.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. Transcripts of all undergraduate and any graduate work must be submitted. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements for Doctor of Philosophy and Master of Science:

Master of Science

Degree Requirements Doctor of Medicine (MD) degree from a nationally accredited program.
Grade Point Average Successful completion of a Doctor of Medicine program from a nationally accredited program and admission to the Psychiatry Residency Program.
Tests Required Successful completion of USMLE Steps 1 and 2.
Minimum TOEFL Score (if applicable) 620 (paper-based); 260 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).
Letters of Recommendation Three required, preferably from instructors and advisers who are familiar with the applicant’s recent work.
Personal Statement A one to three page statement of the applicant’s professional goals, including the justification for pursuing a career in neurosciences, is required.

Deadlines Completed applications must be received by February 15.

Doctor of Philosophy

Baccalaureate Field No restrictions. Prior academic work in the following disciplines is strongly recommended:
- Biology (8 hours)—introductory biology plus lab
- Chemistry (16 hours)—general chemistry and organic chemistry plus labs or Biochemistry (3–4 hours)
- Physics (6 hours)—introductory physics

Grade Point Average A minimum average of 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study.

Tests Required GRE General.

Minimum TOEFL Score (if applicable) 620 (paper-based); 260 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required, preferably from instructors and advisers who are familiar with the applicant’s recent work.

Personal Statement A one to three page statement of the applicant’s professional goals, including the justification for pursuing a career in neurosciences, is required.

Deadlines Completed applications must be received by February 15.

Nondegree Applicants Rarely accepted. Nondegree applicants must submit all credentials and meet the same admission requirements as degree applicants. The department only accepts nondegree applicants who have exceptional credentials and who desire to take a few specific courses for professional purposes. Nondegree applicants may not take practicum or individual study courses. Nondegree students will not be admitted to the degree program at a later time.
DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

Three areas of concentration are available for study. These concentrations are:

1. Neural Signal Transduction and Molecular Biology
2. Systems and Integrative Neuroscience
3. Human/Therapeutic Neuroscience and Methods of Neural Imaging

Minimum Semester Hours Required: 32 beyond the baccalaureate.

Course Work: All students must take or show proficiency in GCLS 503, ANAT/NEUS 403, NEUS 501 and NEUS 502, and NEUS 511. Students will be required to take two modules per semester of GCLS 504 in their first year of study. Remaining courses will be chosen depending upon the concentration selected by the student. Registration and attendance for NEUS 595—Journal Club is required each semester.

Comprehensive Examination: None.

Thesis, Project, or Course-Work-Only Options: A master’s thesis is required.

Other Requirements: Each student must present at least one seminar prior to graduation.

Doctor of Philosophy

Three areas of concentration are available for study. These concentrations are:

1. Neural Signal Transduction and Molecular Biology
2. Systems and Integrative Neuroscience
3. Human/Therapeutic Neuroscience and Methods of Neural Imaging

Minimum Semester Hours Required: Students must complete 96 hours of credit within 9 years from the baccalaureate. For those students entering the program with a valid Master of Science degree from an accredited institution, up to 32 hours of credit may be transferred if considered equivalent to core courses within the program.

Course Work: All students must take or show proficiency in GCLS 503, ANAT/NEUS 403, NEUS 501 and NEUS 502, and NEUS 511. Students will be required to take two modules per semester of GCLS 504 and GCLS 505 in their second year of study. A minimum of two research rotations (NEUS 506) is required during the first year. Of the 96 total credit hours, 32 will be from formal course work. Remaining courses will be selected depending upon the concentration chosen by the student. The remaining credit hours will be filled by research credit. Registration and attendance for Journal Club (NEUS 595) is required each semester.

Examinations: A preliminary examination, both written and oral, is required.

Dissertation: Required.

Other Requirements: Each student must present at least one midthesis seminar prior to graduation. A final public seminar and oral defense of the dissertation are required.

Interdepartmental Concentration in Neuroscience

The Graduate Program in Neuroscience offers work leading to the graduate Interdepartmental Concentration in Neuroscience. Students in the following graduate programs may be eligible to complete the Interdepartmental Concentration in Neuroscience:

Graduate Program | Level
--- | ---
Anatomy and Cell Biology | PhD
Biochemistry and Molecular Genetics | PhD
Bioengineering | PhD
Biological Sciences | PhD
Biopharmaceutical Science | PhD
Chemistry | PhD
Nursing Science | PhD
Pharmacology | PhD
Philosophy | PhD
Physiology and Biophysics | PhD
Psychology | PhD

Concentration Requirements

Students pursuing a concentration in Neuroscience must take NEUS 501 and 502 and at least 12 additional hours of neuroscience courses at the 400- or 500-level or BIOS/PHIL/PSYC 484 and 485 and at least 10 additional hours of neuroscience courses at the 400- or 500-level. Neuroscience electives will be assessed and approved by the Graduate Studies Committee of the Program in Neuroscience. Research, departmental seminars (journal clubs), and independent study cannot be included in these 10–12 hours of course credit. Of these 10–12 hours, at least 50% must be outside the student’s major department and must be divided among at least 2 other departments. Students must submit the topic of their doctoral dissertation and a list of the courses in neuroscience that they have successfully completed (a grade of B or better) to the Graduate Studies Committee of the Program in Neuroscience for approval no later than the time of the preliminary examination.
SURVEY RESEARCH METHODOLOGY

Mailing Address: Community Health Sciences (MC 923)
School of Public Health, 645 SPHPI
1603 West Taylor Street
Chicago, IL 60612-4394
Attn: Fred Kviz

Campus Location: Survey Research Laboratory, CUPPA Hall, 6th Floor
Telephone: (312) 996-4889, (312) 996-0471
Co-Directors: Allyson Holbrook, Fred Kviz
E-mail: allyson@uic.edu, fkviz@uic.edu
Web Site: http://www.srl.uic.edu/gcsrm.htm

Interdepartmental Graduate Concentration in Survey Research Methodology

The Interdepartmental Graduate Concentration in Survey Research Methodology (GCSRM) is available at both the master’s and doctoral levels, in conjunction with several participating units. The primary goal of the interdisciplinary graduate curriculum in survey research methodology is to provide graduate students with the opportunity for systematic, integrated study of issues relevant to the conduct of professional survey research. Graduate students electing the concentration receive the masters or PhD after having fulfilled the requirements of the Graduate College, their major academic units, and the Interdepartmental Graduate Concentration in Survey Research Methodology. Students in the following graduate programs may be eligible to participate in the Interdepartmental Graduate Concentration in Survey Research Methodology:

<table>
<thead>
<tr>
<th>Graduate Program</th>
<th>Level</th>
</tr>
</thead>
<tbody>
<tr>
<td>Political Science</td>
<td>MA, PhD</td>
</tr>
<tr>
<td>Public Health-Community Health Sciences</td>
<td>MS, PhD</td>
</tr>
<tr>
<td>Public Administration</td>
<td>MPA, PhD</td>
</tr>
<tr>
<td>Sociology</td>
<td>MA, PhD</td>
</tr>
</tbody>
</table>

Other academic units may have become participants since the publication of this catalog. Students in academic units not listed above should contact one of the GCSRM Co-Directors for current information.

Admissions Requirements

Applicants are considered on an individual basis. Applicants must be admitted or enrolled as regular graduate students in one of the participating academic units. Application forms can be obtained from the GCSRM Web site. Admission to the concentration must be made before the term in which the student will obtain the degree.

Degree Requirements

1. Fulfillment of all academic unit requirements.

2. Selection of an adviser from among the Survey Research Methodology Graduate Faculty. In the case of doctoral students who have opted to use the concentration as a minor, this adviser or some other member of the Survey Research Methodology Graduate Faculty must participate in evaluating the candidate’s doctoral examination.

3. A minimum of 14 semester hours of coursework, of which at least 7 must be from among the core courses in the concentration (CHSC 447, CHSC 577, BSTT 440, PA 588, PA 579, and STAT 431). If a student elects to complete both BSTT 440 and STAT 431, only one of those courses may be counted toward fulfilling the core course requirement.

4. The remaining hours must come from survey research methodology elective courses, independent study decided in consultation with the adviser, or alternative courses approved by the adviser and the director(s). Doctoral students may not apply dissertation supervision credits toward the survey research methodology electives.
College of Liberal Arts and Sciences

ANTHROPOLOGY

Mailing Address: Department of Anthropology
(027)
1007 West Harrison Street
Chicago, IL 60607-7139

Campus Location: 2102 BSB
Program Codes: 20FS0340MA (MA);
20FS0340PHD (PhD)

Telephone: (312) 413-3570
E-mail: krizzo1@uic.edu
Web Site: http://www.uic.edu/depts/anth/anthro.htm

Head of the Department: John Monaghan
Director of Graduate Studies: Laura Lee Junker

The Department of Anthropology offers a program leading to degrees in Anthropology at both the master’s and doctoral levels. The Interdepartmental Concentration in Gender and Women’s Studies is available to students in this program, as well as the Interdepartmental Concentration in Latin American and Latino Studies. The department has research laboratories supporting studies in prehistory, archaeology, sociocultural anthropology, linguistic anthropology, and physical anthropology. The department and the Field Museum of Natural History have a joint program whereby students can take courses and complete research under the direction of a curator, use the collections and facilities of the museum for research projects. Students interested in pursuing a course of study in the conservation of anthropological materials should contact faculty at the Field Museum.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Arts

Baccalaureate Field No restrictions.

Grade Point Average At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study.

Tests Required GRE General.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required preferably from former professors.

Personal Statement Required. 700–1000 word statement of academic and professional intent.

Deadlines The application deadline is January 1.

Doctor of Philosophy

Prior Degrees Students may enter either with an Anthropology MA or equivalent, from an accredited college or university, in the U.S. or abroad.

Grade Point Average At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study.

Tests Required GRE scores are required.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three letters of recommendation addressing the applicant’s academic accomplishments and potential.

Personal Statement Required; 700–1000 word statement of academic and professional intent.

Deadlines The application deadline is January 1.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Arts

Minimum Semester Hours Required 36.

Course Work Required Courses: ANTH 500, 501, 502, 503, and 595. Candidates must complete ANTH 500, 501, 502, and 503 with grades of B or better and ANTH 595 with an S. Courses must be completed within the first two semesters of the program.

Electives: All students must take an additional 12 hours in anthropology. At least three of the courses must be 500-level courses, and at least two of the courses must be in anthropology.

Comprehensive Examination Required; the final examinations in ANTH 500, 501, 502, and 503 constitute the four sections of the comprehensive examination.

Thesis, Project, or Course-Work-Only Options Project or course work only. No other options are available.

Doctor of Philosophy

Minimum Semester Hours Required 96 from the baccalaureate, 64 hours from the Master of Arts.

Course Work Required Courses: ANTH 500, 501, 502, 503, and 595. Candidates must complete ANTH 500, 501, 502, and 503 with grades of B or better and ANTH 595 with an S. Courses must be completed within the first two semesters of the program.

Preliminary Examination Required, written.

Dissertation Required.

Other Requirements Students must demonstrate a reading knowledge of a research language.

Interdepartmental Concentration in Gender and Women’s Studies

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Gender and Women’s Studies after consulting with their graduate adviser. See Gender and Women’s Studies in the College of Liberal Arts and Sciences section for more information.
Interdepartmental Concentration in Latin American and Latino Studies

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Latin American and Latino Studies. See Latin American and Latino Studies in the College of Liberal Arts and Sciences section for more information.

BIOLOGICAL SCIENCES

Mailing Address: Department of Biological Sciences (MC 066)
845 West Taylor Street
Chicago, IL 60607-7060

Campus Location: 3250 SES
Program Codes: 20FS1072:MS (MS); 20FS1072:PHD (PhD)
Telephone: (312) 996-2931
E-mail: gradbios@uic.edu
Web Site: http://www.uic.edu/depts/bios/

Head of the Department: Brian K. Kay
Director of Graduate Studies: Aixa Alfonso

The Department of Biological Sciences offers work leading to the Doctor of Philosophy and the Master of Science degrees in Biological Sciences. Areas of research include cell biology, development, ecology, evolution, genetics, molecular biology, neurobiology, and plant biology. The Interdepartmental Concentration in Neuroscience is available to qualified PhD students.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. Transcripts of all undergraduate and any graduate work must be submitted. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Science and Doctor of Philosophy

Baccalaureate Field

No restrictions. It is recommended that prior academic work include courses in biological sciences beyond the introductory level (such as cell biology, genetics, ecology, evolution, and physiology), two semesters of organic chemistry, two semesters of physics, and mathematics through introductory calculus. Otherwise qualified applicants may be required by the department to remove specific course work deficiencies by enrolling in undergraduate classes during their first year.

Grade Point Average

At least 3.00/4.00 for the final 60 semester (90 quarter) hours of undergraduate study.

Tests Required

GRE General.

Minimum TOEFL Score

620 (paper-based); 260 (computer-based); 84, with sub scores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL). Recommended sub scores of Reading 19, Listening 19, Speaking 23, and Writing 21.

Letters of Recommendation

Three required, preferably from faculty who are familiar with the applicant's recent work.

Personal Statement

A one to three page statement of the applicant's professional goals and reasons for wishing to attend graduate school is required.

Deadlines

The application deadline for this program is earlier than the Graduate College deadline; contact the program for information on current deadlines.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

Two tracks are available, research or course work. (Note: Until further notice, no new students will be admitted to the course work track.)

Research Track

Minimum Semester Hours Required 32.

Course Work

At least 24 credit hours of 400- and 500-level courses are required. A minimum of 9 credit hours of 500-level courses must be letter-graded courses (A to F), not project (BIOS 597), thesis (BIOS 598), independent study (BIOS 596), or seminar courses which are graded Satisfactory (S) or Unsatisfactory (U).

Comprehensive Final Examination

Required. The examination typically includes an oral presentation and defense of the research thesis.

Thesis, Project, or Course-Work-Only Options

Thesis required. No other options are available.

Thesis: Students must earn at least 5 credit hours of BIOS 598.

Course Work Track

Minimum Semester Hours Required 32.

Course Work

At least 24 credit hours of 400- and 500-level courses are required. A minimum of 9 credit hours of 500-level courses must be letter-graded courses (A to F), not project (BIOS 597), thesis (BIOS 598), independent study (BIOS 596), or seminar courses which are graded Satisfactory (S) or Unsatisfactory (U).

Comprehensive Final Examination

Required. The examination typically includes an oral presentation of the project.

Thesis, Project, or Course-Work-Only Options

Project required. No other options are available.

Project: Students must take at least 5 semester hours of BIOS 597.

Doctor of Philosophy

Minimum Semester Hours Required 96 from the baccalaureate.

Course Work

At least 22 credit hours of 400- and 500-level courses are required. A minimum of 8 semester hours of 500-level courses must be letter-graded courses (A to F), not project (BIOS 597), thesis (BIOS 599), independent study (BIOS 596), or seminar courses
Study and research is available in analytical, inorganic, organic, physical, and biochemistry.

College Concentration in Neuroscience
Interdepartmental Concentration in Neuroscience

In addition to the meeting the above requirements, qualified PhD students interested in pursuing a concentration in Neuroscience may complement their studies through the Interdepartmental Concentration in Neuroscience. Refer to Interdepartmental Concentration in Neuroscience in the Graduate College section for more information.

CHEMISTRY

Mailing Address: Department of Chemistry (MC 111)
845 West Taylor Street
Room 4500, SES
Chicago, IL 60607-7061

Campus Location: 4500 SES

Program Codes: 20FS0335MS (MS);
20FS0335PHD (PhD)

Telephone: (312) 996-3161
E-mail: chemgrad@uic.edu

Web Site: http://www.chem.uic.edu/

Director of Graduate Studies: Timothy A. Keiderling
Head of the Department: Robert J. Gordon

The Department of Chemistry offers work leading to Chemistry degrees at both the master's and doctoral levels, and participates in the Interdepartmental Concentration in Neuroscience. Study and research is available in analytical, inorganic, organic, physical, and biochemistry.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. They are urged to contact the director of graduate studies prior to submitting a formal application. Complete transcripts of all undergraduate and any graduate course work must be submitted. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Science and Doctor of Philosophy

Baccalaureate Field
Chemistry or biochemistry. Other fields are considered on an individual basis.

Grade Point Average
At least 3.00/4.00 in mathematics and science courses other than independent study or research courses and at least 2.75 for the final 60 semester hours (90 quarter hours) of undergraduate study.

Tests Required
GRE Subject Test in Chemistry and GRE General Test. After admission, all entering students must take placement examinations. The placement examinations, which are at a level of typical terminal college courses, are offered in analytical, inorganic, organic, physical, and biochemistry. Students in the PhD program must show proficiency in three areas of their choice. Students in the MS program must show proficiency in inorganic, organic, and physical chemistry. A deficiency in an area must be remedied by taking an advanced undergraduate or a graduate-level course in the area.

Minimum TOEFL Score
570 (paper-based); 230 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation
Three required.

Personal Statement
Required as part of the Application for Graduate Appointment which is accessible online http://www.uic.edu/depts/grad/gcforms/.

Nondegree Applicants
Nondegree applicants must submit a transcript from their baccalaureate institution.

DEGREE REQUIREMENTS

The MS degree is not a prerequisite to the PhD degree in Chemistry. In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

Students may elect one of three options: course work only, examination, or thesis.

Minimum Semester Hours Required
32.

Course Work
For students in all options, at least 24 of the 32 hours must be within the Department of Chemistry. All courses from outside the Department of Chemistry must be approved by the Graduate Advising Committee. At least four lecture courses must be taken at the 500-level. No more than 8 semester hours of seminar or research courses may be applied to the master’s degree. If research courses are used, a project report must be submitted. Students in the coursework-only option must complete all course work for the master’s degree within three semesters, excluding summers; those who fail to do so must then select one of the other two options.

Comprehensive Examination
Required only for students who elect to pursue the examination option. These students must pass two cumulative examinations by the end of the second year.

Thesis, Project, or Course-Work-Only Options
Thesis, course work only, or course work with examination. No other options are available. Students who do not submit a thesis must fulfill the requirements of either the coursework-only or examination options.

Doctor of Philosophy

Students seeking a PhD degree are encouraged to enter this program immediately after completion of their undergraduate studies. The MS degree is not a prerequisite to the PhD degree in Chemistry.

Minimum Semester Hours Required
96 from the baccalaureate.
**Course Work** At least 9 hours must be in lecture courses at the 500-level in the student's major area and 3 hours must be in a chemistry lecture course at the 500-level (or 6 hours in lecture courses at the 400-level in one field) outside the student's major area. Students must meet the seminar requirements of their major within the program. Students found to be deficient in specific areas of chemistry on the basis of placement examinations may have to complete additional courses.

**Preliminary Examination** Required. Candidates must pass six cumulative examinations within the time limit set by the department.

**Dissertation** Required.

**Interdepartmental Concentration in Neuroscience**

Doctoral students may pursue the Interdepartmental Concentration in Neuroscience. Refer to Interdepartmental Concentration in Neuroscience in the Graduate College section for more information.

**COMMUNICATION**

Mailing Address: Department of Communication (MC 132)

1007 West Harrison Street

Chicago, IL 60607-7137

Campus Location: 1140 BSB

Program Code: 20FS1113MA

Telephone: (312) 996-4460

E-mail: arojecki@uic.edu

Web Site: http://www.uic.edu/depts/comm/

Head of the Department: Kevin G. Barnhurst

Director of Graduate Studies: Andrew Rojecki

The Department of Communication offers work leading to the Master of Arts in Communication. The Interdepartmental Concentration in Gender and Women's Studies is available to students in this program. The department's goal is to produce scholars and researchers who will contribute to the growth of knowledge about communication, whether they work in academic or applied settings, and who will be critical consumers of communication research in those settings. Study and research is available in media studies, political communication, intercultural communication, and rhetoric. The emphasis is on breadth and integration; inquiry in media studies, for example, ranges from journalism ethics to media effects, electronic media, and computer-mediated communication, while the study of intercultural communication may range from language and symbolic representation to social inequality, racism, discourse analysis, and international media in cross-cultural settings. Students develop, in consultation with their advisers, a program of study that best meets their personal and professional interests and also provides a rigorous and expansive understanding of new media, political discourse, intercultural communication, and modes of argumentation.

**ADMISSION REQUIREMENTS**

Applicants are considered on an individual basis. Complete transcripts of all undergraduate and any graduate work must be submitted. In addition to the Graduate College minimum requirements, applicants must also meet the following program requirements:

**Master of Arts**

**Baccalaureate Field** No restrictions. Applicants must have the equivalent of 20 semester hours of study in communication or related programs of social inquiry, like political science and sociology.

**Grade Point Average** At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study.

**Tests Required** GRE General.

**Minimum TOEFL Score** 600 (paper-based); 250 (computer-based); 95, with subscores of Reading 24, Listening 24, Speaking 24, and Writing 22 (new Internet-based TOEFL).

**Letters of Recommendation** Three required, at least two of which must be of an academic nature.

**Personal Statement** Required; 600 words. The statement should address the way in which graduate study in the department relates to the applicant's career or other aims.

**Writing Sample** Recommended.

**Other Requirements** Students are only admitted for the fall semester.

**Nondegree Applicants** Rarely accepted. Nondegree applicants must submit all credentials and meet the same admission requirements as degree applicants. Nondegree students may not take individual study courses.

**DEGREE REQUIREMENTS**

In addition to the Graduate College minimum requirements, students must also meet the following program requirements:

**Master of Arts**

**Minimum Semester Hours Required** 32. Students may elect one of two options: examination or thesis. Students declare their intention for either the thesis or nonthesis option at the beginning of their second year of full-time studies, after completing 24 hours of course work.

**Course Work** At least 20 hours (excluding thesis hours) must be at the 500-level. Credit in COMM 474 and COMM 498 cannot be applied to the degree. Students who receive more than one grade below B in their graduate course work, or four incompletes that have not been made up within the regulatory one term, will be dropped from the program.

**Required Courses**: COMM 500 and 501; and either COMM 502 or 503. COMM 500 must be taken before COMM 501 unless a petition for exception is granted.

**Electives**: No more than 8 hours may be taken in courses outside the department, except for students in the concentration in Gender and Women's Studies. No more than 4 hours may be in COMM 596. Students taking a 400-level course as an elective should note that additional work may be required by the instructor and higher standards will be applied than for undergraduate students.
Comprehensive Examination Required only for students who elect to pursue the examination option. These students must also complete 8 additional credit hours of course work.

Thesis, Project, or Course-Work-Only Options Thesis or course work only.

Thesis: Required only for students who elect the thesis. These students must earn at least 8 hours in COMM 598.

Course Work Only: Students who elect this option must successfully pass a comprehensive examination.

Interdepartmental Concentration in Gender and Women's Studies

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Gender and Women's Studies after consulting with their graduate adviser. See Gender and Women's Studies in the College of Liberal Arts and Sciences section for more information.

CRIMINAL JUSTICE

Mailing Address: Department of Criminal Justice (MC 141)
1007 West Harrison Street
Chicago, IL 60607-7140

Campus Location: 4022 BSB

Program Codes: 20FS1137MA (MA);
20FS1137PHD (PhD)

Telephone: (312) 996-2383
E-mail: casillas@uic.edu

Web Site: http://www.uic.edu/depts/cjus/

Acting Chair: Gregory Matoesian

Director of Graduate Studies: Sarah Ullman

The Department of Criminal Justice offers work leading to the Master of Arts and the Doctor of Philosophy in Criminal Justice. The Master of Arts is organized into four curricular areas that include: the nature and development of rule, rule breaking behavior, rule application, and research methodology. It is designed for careers in research, evaluation, and criminal justice administration. The Interdepartmental Concentration in Gender and Women's Studies is available to students in this program. Building on the above general curricular areas, the Doctor of Philosophy degree offers additional course work in theory, substantive specialties, and research methods. Concentrations are offered in Law and Society, Criminology, and Organizations and Administration.

The Department of Criminal Justice also cosponsors, with the College of Pharmacy, a program leading to the Master of Science in Forensic Science; consult Forensic Science in the College of Pharmacy section of the catalog for more information.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. Complete transcripts of all undergraduate and any graduate work must be submitted. In addition to the Graduate College minimum requirements, applicants must also meet the following program requirements:

Master of Arts

Baccalaureate Field Applicants must have a baccalaureate degree in criminal justice or a related field from an accredited college or university.

Grade Point Average At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study.

Tests Required GRE General (verbal, quantitative, and analytical). The combined verbal and quantitative scores on the GRE must be at least 1000.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with sub-scores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required, preferably from professors familiar with student’s recent work or in case of the applicants with professional experience, from supervisors.

Personal Statement Required; one page. The statement should address the applicant’s reasons for wanting to take graduate work in criminal justice and the relationship of this advanced training to the applicant’s professional and other goals.

Other Requirements Applicants must submit a sample of their academic writing.

Nondegree Applicants The department will consider applicants for nondegree status who hold a baccalaureate degree from an accredited college or university and meet the admission requirements of the Graduate College.

Doctor of Philosophy

Baccalaureate Field Students may enter either with an MA or a BA. If applicants received their Criminal Justice MA from UIC, then they must have received a “high pass” (3.50) on their MA comprehensive exam.

Grade Point Average: At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study, with a GPA of at least 3.25 in all graduate courses taken.

Tests Required GRE scores (verbal, quantitative, and analytical) with a minimum combined verbal and quantitative score of 1000.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with sub-scores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three letters of recommendation addressing the applicant’s academic accomplishments and potential.

Personal Statement Required; a statement of academic and professional goals.

Other Requirements An MA thesis or other major research paper; a writing sample (if applying with a BA only).

*In exceptional situations, students with GPAs less than 3.00 but higher than 2.75, or without strong backgrounds in the social sciences, may be admitted on lim-
DEGREE REQUIREMENTS

In addition to the minimum requirements of the Graduate College, students must meet the following program requirements:

Master of Arts

Minimum Semester Hours Required 40.

Course Work Required Courses: CRJ 500, 520, 540, 547, 560, 561, and 562.

Electives: 12 semester hours, 4 hours must be from among the three CRJ Signature Seminars (CRJ 541, 546, 548). Of the remaining 8 hours, 4 hours must be at the 500-level.

Comprehensive Examination Required.

Thesis, Project, or Course-Work-Only Options Course work only with comprehensive examination required. No other options are available.

Doctor of Philosophy

Students who have received a master’s degree or its equivalent prior to being admitted to the doctoral program can receive up to 32 semester hours of credit toward the 96-hour requirement. Credit for other graduate work in a related field, whether taken at UIC or another institution, may be given on an individual basis. Students may earn up to 20 hours of credit for dissertation research in CRJ 599. Students admitted with a BA degree must complete both the MA and PhD requirements which include the MA comprehensive examination. Students with an MA from other institutions must satisfy UIC Criminal Justice MA requirements. The graduate director will evaluate students’ prior preparation and determine remedial work if necessary.

Minimum Semester Hours Required 96 beyond the baccalaureate.

Course Work Required Courses: CRJ 500, 520, 540, 547, 560, 561, 562, 564, and 570. Note: For CRJ 570, upon departmental approval, an equivalent methods course may be taken either outside the department or as an independent study course in the department, dependent on the student’s dissertation research.

Electives, Areas of Concentration: Upon successful completion of the core curriculum students are required to complete 40 additional hours, no more than 12 of which may be taken outside the department. This includes two CRJ Signature Seminars (selected from CRJ 541, 546, and 548) one of which coincides with the student’s area of concentration. Signature Seminars are courses within the areas of concentration that offer further inquiry into central questions in the discipline. Three areas of concentration are offered, each of which typically requires students to complete five additional courses in an area.

1. Law and Society, which examines the nature of formal and informal social norms, their development, use and variation across cultures, societies, and over time.
2. Criminology, which examines the theories of deviance, crime causation, criminal behavior, and explanations of rule breaking from psychological, sociological, economic, and political perspectives.
3. Organizations and Administration, which explores organizations and agencies whose principal function is the application of law, and theories explaining practices of decision making and how organizations are created, maintain and develop resources, and relate to internal and external environments.

Examinations Departmental Qualifying Examination: None.

Preliminary Examination: Required; written and oral.

Dissertation Required.

Interdepartmental Concentration in Gender and Women’s Studies

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Gender and Women’s Studies after consulting with their graduate adviser. See Gender and Women's Studies in the College of Liberal Arts and Sciences section for more information.

EARTH AND ENVIRONMENTAL SCIENCES

Mailing Address: Department of Earth and Environmental Sciences (MC 186) 845 West Taylor Street Chicago, IL 60607-7059

Campus Location: 2440 SES

Program Codes: 20FS1174MS (MS); 20FS1174PHD (PhD)

Telephone: (312) 996-3154

E-mail: pdoran@uic.edu

Web Site: http://www.uic.edu/depts/geos/

Head of the Department: Neil Sturchio

Director of Graduate Studies: Peter T. Doran

The Department of Earth and Environmental Sciences offers work leading to the Master of Science and Doctor of Philosophy degrees in Earth and Environmental Sciences. Both programs are based in a geology curriculum, but applicants with interdisciplinary natural science backgrounds are encouraged to apply.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

1. Law and Society, which examines the nature of formal and informal social norms, their development, use and variation across cultures, societies, and over time.
2. Criminology, which examines the theories of deviance, crime causation, criminal behavior, and explanations of rule breaking from psychological, sociological, economic, and political perspectives.
3. Organizations and Administration, which explores organizations and agencies whose principal function is the application of law, and theories explaining practices of decision making and how organizations are created, maintain and develop resources, and relate to internal and external environments.

Examinations Departmental Qualifying Examination: None.

Preliminary Examination: Required; written and oral.

Dissertation Required.

Interdepartmental Concentration in Gender and Women’s Studies

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Gender and Women’s Studies after consulting with their graduate adviser. See Gender and Women's Studies in the College of Liberal Arts and Sciences section for more information.
Master of Science and Doctor of Philosophy

Baccalaureate Field Geosciences, other natural or physical sciences, or engineering (also applies to those applicants having an MS degree). Students from other areas are also encouraged to apply if their backgrounds indicate a reasonable chance for success in the program.

Prerequisites (PhD Applicants Only) Students entering with an MS degree in the sciences can receive up to 32 hours of credit toward the PhD. Highly qualified students lacking in one or more of the prerequisites will be considered for admission under “limited standing” with specific additional prescribed courses. Specific prerequisites are listed below:

- Baccalaureate degree in Earth and Environmental Sciences, related science or engineering field, or other (in special cases)
- General Chemistry (1 year)
- Physics (1 year)
- Biology (1 year), ecology recommended
- Calculus (1 year)

Grade Point Average At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study.

Tests Required GRE General. (For PhD, individual scores of at least 600. For master’s, combined verbal and quantitative scores of at least 1100).

Minimum TOEFL Score For PhD, 600 (paper-based); 250 (computer-based). For master’s, 550 (paper-based); 213 (computer-based). For all applicants, 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new computer-based TOEFL).

Letters of Recommendation Three required, preferably from professors familiar with the applicant’s academic work. Letters of recommendation should be sent directly to the graduate director by the referee and not by the applicant.

Personal Statement Required.

Other Requirements All application material should be sent directly to the department’s director of graduate studies by January 31 for fall semester admission and April 30 for spring semester admission.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

Minimum Semester Hours Required 32.

Course Work Twelve of the 32 hours must be in the student’s major area, as set forth in the departmental graduate handbook. No more than 4 of these hours may be taken in EAES 596. Twelve additional hours must be taken in departmental courses from outside the major area. With departmental consent, 400- or 500-level courses outside the department may be taken to fulfill this requirement. Each course must be taken for a letter grade, not on a credit/no credit basis. At least 9 of the 32 hours must be in 500-level courses, not including EAES 598 or EAES 595.

Comprehensive Examination None.

Thesis, Project, or Course-Work-Only Options Thesis required. No other options are available.

Thesis: No more than 8 hours of EAES 598 can be applied to the degree.

Doctor of Philosophy

Minimum Semester Hours Required 104 past the baccalaureate are required (44 thesis hours, 8 seminar hours, and 52 course hours).

Course Work Out of the 52 course hours, at least 24 hours are to be selected from the list of core courses, and at least 20 hours are to be selected as elective courses in EAES or from the relevant offerings of other departments and colleges. Each course must be taken for a letter grade, not on a credit/no credit basis. At least 24 hours must be taken at the 500-level, excluding EAES 599 and EAES 595. Entering students are required to have completed courses in physics, chemistry, biology, and calculus. A maximum of 32 hours of course work may be transferred in from a previous master’s.

Examinations Departmental Qualifying Examination: Required.

Preliminary Examination: Required.

Dissertation Required. Students must earn at least 44 semester hours in EAES 599 (dissertation research).

ENGLISH

Mailing Address: Department of English (MC 162) 601 South Morgan Street Chicago, IL 60607-7120

Campus Location: 2000 UH

Program Codes: 20FS0311MA (MA); 20FS0311PHD (PhD)

Telephone: (312) 413-2239

E-mail: meemain@uic.edu

Web Site: http://www.uic.edu/depts/engl/index.html

Head of the Department: Walter Benn Michaels

Director of Graduate Studies: Mark Canuel

The Department of English offers work leading to degrees in English at both the master’s and doctoral levels. The department offers the MA with three concentrations: English Studies, Creative Writing, and English Education. The department offers the PhD in English Studies and Creative Writing.

Interdepartmental concentrations in Gender and Women’s Studies, Latin American and Latino Studies, and Second Language Teaching are available to both master’s and PhD students. The department also offers a program leading to the Master of Arts in Linguistics/TESOL; see Linguistics in the College of Liberal Arts and Sciences section of the catalog for more information.
ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Arts and Doctor of Philosophy

Baccalaureate Field Applications who intend to concentrate in English Studies or English Education must have an undergraduate major in English or the equivalent that includes a balanced program in English and American literature beyond the level of sophomore surveys. Applicants who intend to concentrate in Creative Writing may have an undergraduate major or a graduate degree in any field, if they show substantial evidence of ability to complete the work in literature required for the degree in English.

Grade Point Average At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study and for all graduate work.

Tests Required GRE General.

Minimum TOEFL Score 590 (paper-based); 243 (computer-based); 95, with subscores of Reading 24, Listening 24, Speaking 24, and Writing 22 (new Internet-based TOEFL).

Letters of Recommendation Three required, preferably from individuals acquainted with the applicant’s recent academic, professional, or creative work.

Personal Statement Required. Domestic applicants must submit a statement of about 500 words presenting their reasons for wanting to do graduate work in English at UIC and the relationship of this advanced training to professional and other goals.

International applicants must submit a two- or three-page summary of their educational experience that emphasizes their work in English and American literature and language. They should conclude this summary with their reasons for wanting to do graduate work in the English department.

Other Requirements All MA and PhD applicants must submit a copy of their written work of no more than 20 pages appropriate to their proposed area of study. In addition, all MA and PhD applicants must submit a coversheet (available as a writable PDF from http://www.uic.edu/depts/engl/grad/with_their_application_materials).

Applicants in Creative Writing should submit two copies of 20 pages of material (may be by genre of interest; at least 5 poems, one or more stories, a chapter from a novel, or comparable work). Applicants may, in addition, submit a critical writing sample of no more than 20 pages.

Deadlines The application deadline for the PhD program is January 1 preceding fall admission; February 1 is the deadline for the MA programs; May 15 is the deadline for the non-degree program.

DEGREE REQUIREMENTS

Master of Arts

Minimum Semester Hours Required 32.

Course Work At least 12 of the 32 hours must be at the 500-level, and at least 24 of the 32 hours must be in the Department of English. Credit toward the MA is not given for any course in which the student receives a grade of less than B.

Required Courses: All master’s students are required to take the following courses (4 hours each): ENGL 500 and 2 courses from the Bridge Series (ENGL 507, 517, 527, 537, 547, 557, 567) for a total of 12 hours of required courses. Master’s students who wish to take courses from the other 500-level series (Discourse, Text, and Context; or Theoretical Engagements) must have the permission of the instructor.

In addition, students are required to meet the following distribution requirements: 2 courses in British and American studies from the beginnings to 1914; and 2 courses in British and American studies since 1914. These distribution requirements can be fulfilled through Bridge Series work and 400-level offerings in the department. Advanced undergraduate courses with a grade of B or better may be counted toward these distribution requirements with the permission of the director of graduate studies. No more than 4 hours of credit each taken in ENGL 596 and 597 (master’s independent study) may be counted toward the degree.

Creative Writing: At least 12 and no more than 16 hours of creative writing workshops in addition to the above requirements.

English Education: As part of the 32 hours required for the MA degree, students must take the following courses (4 hours each): ENGL 557 as 1 of the 2 Bridge Series courses; 2 courses in Teaching Methods (ENGL 481, 482, 486, 489, or 555); 1 additional course in literature; 2 electives chosen with approval of the adviser.

Additional Requirements for Teacher Certification—Students who wish to seek teacher certification must take additional courses in the College of Education and complete student teaching to be eligible for state certification. Such students are also more restricted in their choices of courses within the concentration. Courses should be selected in consultation with an adviser. Contact the Department of English for the current requirements. At the time of this writing, in addition to the MA requirements and the requirements for the Concentration in English Education, students seeking certification must complete ENGL 481, 486, and 489. They must also complete the following education courses and student teaching program:

- One course from ED 402 or 403
- One course from ED 421 or 445
Doctor of Philosophy

Minimum Semester Hours Required: 96 from the baccalaureate, 64 from the MA.

Course Work: Credit toward the PhD is not given for any course in which the student receives a grade of less than B.

Required Courses: All students in the PhD program must take the following courses (4 hours each): year-long proseminar (ENGL 503 and 504); 1 Bridge Series course (ENGL 507, 517, 527, 537, 547, 557, and 567); 2 seminars from the Discourse, Text, and Context Series (ENGL 505, 510, 515, 520, 525, 530, 535, 540, 545, and 550) and/or the Theoretical Engagements Series (ENGL 579, 580, 581, 582, 583, 584, 585, 586, and 588) for a total of 20 hours of required courses.

Creative Writing: Students in Creative Writing are also required to take 3 workshops (12 hours), not including translation and publishing workshops; students in fiction must take 8 hours in fiction workshops, students in poetry must take at least 8 hours in poetry workshops, and nonfiction writers must take 8 hours in nonfiction workshops.

Preliminary Examination: Required; written and oral.

Dissertation: Required. No more than 32 hours of ENGL 599 can be applied to the degree. Degree candidates in English Studies write dissertations involving innovative research in criticism, theory, rhetoric, and/or literary/cultural histories.

Candidates pursuing Creative Writing are expected to produce a dissertation one of the following: a novel, a volume of short stories or poems, a play or group of plays, or a unified collection of essays.

Other Requirements: Language: Students must present evidence of advanced knowledge of a language other than English. Contact the director of graduate studies for more information.

Teaching: Students lacking teaching experience must take ENGL 555 during their first year. All students must serve as teaching assistants for at least four semesters. All teaching assistants teach sections of ENGL 160 and 161. Teaching assistants are often assigned to other lower-level courses in English appropriate to their concentration.

Interdepartmental Concentration in Gender and Women's Studies: Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Gender and Women's Studies after consulting with their graduate adviser. See Gender and Women's Studies in the College of Liberal Arts and Sciences section for more information.

Interdepartmental Concentration in Latin American and Latino Studies: Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Latin American and Latino Studies. See Latin American and Latino Studies in the College of Liberal Arts and Sciences section for more information.

Interdepartmental Concentration in Second Language Teaching: Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Second Language Teaching. See Second Language Teaching in the College of Liberal Arts and Sciences section of the catalog for more information.

ENVIRONMENTAL AND URBAN GEOGRAPHY

Mailing Address: Department of Anthropology (MC 027)
1007 West Harrison Street
Chicago, IL 60607-7138

Campus Location: 2102 BSB
Program Code: 20FS1238MA
Telephone: (312) 413-3570
E-mail: megand@uic.edu
Web Site: http://www.uic.edu/depts/anth/anthro.htm

Chair of the Department: John Monaghan
Director of Graduate Studies: John Monaghan

The Department of Anthropology offers work leading to the Master of Arts in Environmental and Urban Geography. The program has two major areas of study: 1) environmental analysis and monitoring, environmental behavior, and environmental management; and 2) urban geography, including the environmental impact of urbanization, industrial and commercial development, transportation, residential area analysis, and urban and regional structures. The department also offers work leading to master's and doctoral degrees in Anthropology; consult the appropriate section of the catalog for more information.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:
The Department of Spanish, French, Italian, and Portuguese offers work leading to the Master of Arts in French. Interdepartmental concentrations in Gender and Women’s Studies and Second Language Teaching are available to students in this program. The department also offers work leading to degrees in Hispanic Studies; consult the appropriate section of the catalog for more information on this program.

**ADMISSION REQUIREMENTS**

Applicants are considered on an individual basis. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

**Master of Arts**

- **Baccalaureate Field** A substantial background in French literature is essential, as is fluency in written and spoken French.
- **Grade Point Average** At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study.
- **Tests Required** GRE General.
- **Minimum TOEFL Score** 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).
- **Letters of Recommendation** Three required.
- **Personal Statement** Required; 250 words, in French; the statement should address the applicant's reasons for wanting to take graduate work.

**Other Requirements**

- Applicants must submit a sample of their academic writing in French.
- **Comprehensive Examination** Required only for students who do not complete a thesis; written.
- **Thesis, Project, or Course-Work-Only Options** Thesis or course work only. No other options available.
- **Thesis** Thesis students must earn at least 9 hours in GEG 596 and 598, of which at least 6 hours must be in GEOG 598; no more than 9 hours of GEOG 598 can be applied to the degree.

**DEGREE REQUIREMENTS**

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

**Master of Arts**

- **Minimum Semester Hours Required** 32.
- **Course Work** At least 9 hours must be in 500-level geography courses (excluding GEOG 592 and 595). For students with an undergraduate geography major, at least 6 hours must be in cognate courses recognized by the student's faculty adviser as supporting the student’s program of study.
- **Required Courses** GEOG 595. Nonthesis students must take 8 semester hours in geographic information systems or cartography and remote sensing.
- **Electives** Nonthesis students must take 5 courses, including at least two 500-level seminars, to define a program major in either environmental or urban geography, and 1 geography course outside their major area. No more than 8 hours may be taken in other disciplines by nonthesis students; outside courses must support the student's major.
- **Comprehensive Examination** Required only for students who do not complete a thesis; written.
- **Thesis, Project, or Course-Work-Only Options** Thesis or course work only. No other options available.
- **Thesis** Thesis students must earn at least 9 hours in GEOG 596 and 598, of which at least 6 hours must be in GEOG 598; no more than 9 hours of GEOG 598 can be applied to the degree.

Concentration Requirements

Students earning graduate degrees in the programs listed above may complement their courses by enrolling for a concentration in Gender and Women’s Studies after consulting with their graduate adviser. Students pursuing this concentration must apply to the director of the Gender and Women’s Studies Program and obtain approval from a Gender and Women’s Studies graduate faculty member, preferably from within the department of the degree, who becomes the student’s Gender and Women’s Studies adviser.

Students should enroll in a total of 16 hours of graduate course work for the concentration, including GWS 501 and 502, plus eight additional hours of Gender and Women’s Studies or cross-listed courses at the graduate level. Up to four of these hours can be directed study or thesis research on an appropriate topic approved by the student’s Gender and Women’s Studies adviser.

Interdepartmental Graduate Concentration in Women’s Health

Students with an interest in Gender and Women’s Studies who are pursuing a graduate degree in the College of Nursing or School of Public Health may complement their courses by enrolling for a concentration in Women’s Health after consulting with their adviser. See Interdepartmental Graduate Concentration in Women’s Health in the College of Nursing section for more information.
GERMANIC STUDIES

Mailing Address: Department of Germanic Studies
(MC 189)
601 South Morgan Street
Chicago, IL 60607-7115

Campus Location: 1524 UH
Program Codes: 20FS1292MA (MA);
20FS1292PHD (PhD)
Telephone: (312) 996-3205
E-mail: dlorenz@uic.edu, loentz@uic.edu
Web Site:
http://www.uic.edu/depts/germ/geman2.html

Director of Graduate Studies: Dagmar C.G. Lorenz
Head of the Department: David Weible
Graduate Adviser: Elizabeth Loentz

The Department of Germanic Studies offers the Master of Arts degree and the Doctor of Philosophy degree in Germanic Studies. Doctoral students may concentrate in the fields of Film Studies, Jewish Cultural Studies, Gender and Women’s Studies, Second Language Acquisition, or Literature and Culture.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Arts and Doctor of Philosophy

Baccalaureate Field No restrictions. A substantial background in German literature or culture is expected, as is proficiency in written and spoken German.

Grade Point Average At least 3.00/4.00 in all German courses and in the final 60 semester hours (90 quarter hours) of undergraduate study.

Tests Required GRE General scores are mandatory for university fellowship candidates.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required from persons familiar with the applicant’s academic work.

Personal Statement Required; 250 words. The statement should address the applicant’s purpose and goals.

Other Requirements Applicants must submit a sample of their academic writing.

Nondegree Applicants Nondegree applicants must submit a transcript from their baccalaureate institution.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Arts

Minimum Semester Hours Required 32.

Course Work At least 12 hours must be at the 500-level. These courses will be chosen from GER 513, 514, 515, 531, and 593. GER 407 is required for students with a Teaching Assistantship.

Comprehensive Examination Required for students who do not complete a thesis; written and oral examinations administered by a committee of one exam coordinator and two other faculty members.

Thesis, Project, or Course-Work-Only Options Thesis or course work only. No other options available.

Thesis: Optional; requires a committee of a supervisor and two other faculty members. No more than 8 hours of GER 588 can be applied to the degree.

Other Requirements All nonnative-German students must pass the Zentrale Mittelstufenprüfung with the grade of “gut.”

Doctor of Philosophy

Minimum Semester Hours Required 72 beyond the master’s degree.

Course Work 40 hours exclusive of credit for thesis research, with a minimum of 32 credits in Germanic Studies.

Required Courses: GER 407 and 599.

Examinations Preliminary Examination: Required; written and oral.

Dissertation Required.

Other Requirements By the time of the dissertation defense, candidates must have taught the equivalent of three one-semester courses. Students must demonstrate a reading proficiency in two foreign languages other than German that are relevant to their plan of study. All nonnative-German students must pass the Zentrale Mittelstufenprüfung with the grade of “gut.”

Concentration in Jewish Studies

Students earning a graduate degree in Germanic Studies may enroll for a Graduate Concentration in Jewish Studies. The requirements for this concentration are application to the director of the Jewish Studies Program; approval by a Jewish Studies faculty member, who becomes the student’s Jewish Studies adviser; a total of 16 hours graduate course work, including JST 478 and JST 494; and eight additional hours of course work approved by the student’s Jewish Studies adviser. Up to four of these hours can be in directed study or thesis research on an appropriate topic approved by the Jewish Studies adviser. Language competence in Hebrew or Yiddish is required.

Interdepartmental Concentration in Gender and Women’s Studies

Students earning a graduate degree in Germanic Studies may complement their courses by enrolling for a concentration in Gender and Women’s Studies after consulting with their graduate adviser. See Gender and Women’s Studies in
the College of Liberal Arts and Sciences section of the catalog for more information.

**Interdepartmental Concentration in Second Language Teaching**

Students earning a graduate degree in the department may complement their courses by enrolling for a concentration in Second Language Teaching. See Second Language Teaching in the College of Liberal Arts and Sciences section of the catalog for more information.

**HISPANIC STUDIES**

Mailing Address: Department of Spanish, French, Italian, and Portuguese (MC 315) 601 South Morgan Street Chicago, IL 60607-7117

Campus Location: 1733 UH
Program Codes: 20FS1312MA (MA); 20FS1900PHD (PhD)
Telephone: (312) 996-5218
E-mail: mexotic@uic.edu
Web Site: http://www.uic.edu/depts/sfip/
Head of the Department: Dianna C. Niebylski
Director of Graduate Studies: Rafael Nuñez-Cedeño

The Department of Spanish, French, Italian, and Portuguese offers work leading to degrees in Hispanic Studies at both the master's and doctoral levels. The master's program offers three concentrations: Hispanic Literary Studies, Spanish Applied Linguistics, and Spanish Descriptive and Theoretical Linguistics. At the doctoral level, concentrations are available in Descriptive and Theoretical Linguistics, Hispanic Literature and Cultures, and Second Language Acquisition. Interdepartmental concentrations in Gender and Women's Studies, Latin American and Latino Studies, and Second Language Teaching are available to students in both the master's and doctoral programs. The department also offers work leading to the Master of Arts in French; consult the appropriate section of the catalog for more information on this program.

**ADMISSION REQUIREMENTS**

Applicants are considered on an individual basis. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

**Master of Arts**

**Baccalaureate Field** Spanish or related field.

**Grade Point Average** At least 3.50/4.00 for the final 60 semester hours (90 quarter hours) of study.

**Tests Required** Applicants are urged to take the GRE.

**Language Proficiency** Applicants must give evidence of proficiency in spoken and written formal standard Spanish.

**Minimum TOEFL Score** 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

**Sample of Writing in Spanish** Applicants are required to submit one sample of their written work in Spanish in the form of an essay for an academic course.

**Letters of Recommendation** Three required from professors; at least two should be from instructors in upper-level or graduate Spanish courses.

**Personal Statement** A statement of 250 words is required in which applicants should address their reasons for applying to a Spanish graduate program in the option selected.

**Nondegree Applicants** Nondegree applicants must apply and pay online, as well as submit transcripts from all institutions where a degree or academic credit was earned during the last eight years.

**Doctor of Philosophy**

**MA or Equivalent** Spanish or related field.

**Grade Point Average** At least 3.50/4.00 for all graduate courses.

**Tests Required** Applicants are urged to take the GRE.

**Minimum TOEFL Score** 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL). For applicants to SLA concentration, the following minimums are required: 570 (paper-based); 230 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

**Samples of Writing in Spanish** Applicants are required to submit two samples of their written work in Spanish in the form of an essay for an academic course.

**Letters of Recommendation** Three required; at least two from professors in graduate-level Spanish courses or equivalent.

**Personal Statement** A 250-word statement addressing the applicant’s purpose and goals.

**Other Requirements** All applicants must present evidence of advanced knowledge of a modern Romance language in addition to Spanish and reading knowledge of one other ancient or modern language. The requirement for competence in foreign languages may be satisfied by evidence from the applicant's prior record (university grades, supervised study in a foreign country, etc.) The requirement may also be satisfied by passing a proficiency test prior to the doctoral examination.

**Nondegree Applicants** None at the PhD level

**Note:** All application documents for master's and doctoral students, including transcripts, must be forwarded directly to the program office: Rocio Garcia, UIC Department of Spanish (MC 315), 601 South Morgan Street, Chicago, Illinois 60607-7117. In addition, please contact the department for information on current program changes and updates.

**DEGREE REQUIREMENTS**

In addition to the Graduate College minimum requirements, students must meet the following program requirements:
Master of Arts

Minimum Semester Hours Required 36.

Course Work Required Course for All Concentrations: SPAN 502 or equivalent. All students must complete at least three courses at the 500-level other than SPAN 502 and any independent study hours (SPAN 596).

Concentration Courses:

Hispanic Literary Studies—Eight elective courses (32 hours) chosen in consultation with the graduate adviser. At least one of the eight courses must be in Linguistics other than SPAN 502, for a total of 36 hours.

Spanish Descriptive and Theoretical Linguistics—SPAN 402, 404, and 505, plus one other course at the 500-level other than SPAN 502, one course in literature, and three electives chosen in consultation with the graduate adviser, for a total of 36 hours.

Spanish Applied Linguistics—SPAN 402, 404, 453 or 556, and 507, plus one other course at the 500-level other than SPAN 502, and three electives chosen in consultation with the graduate adviser, for a total of 36 hours.

Comprehensive Examination Required.

Thesis, Project, or Course-Work-Only Options Thesis or course work only. No other options available.

Thesis: Permission of the department’s graduate committee is required.

Doctor of Philosophy

Minimum Semester Hours Required 96 from the baccalaureate.

Course Work Required for All Concentrations: SPAN 502 or equivalent.

Concentration Courses:

Hispanic Literature and Cultures—A minimum of eight graduate courses (32 hours) of which three related to the field of study may be taken outside the department. A course in literary theory is required. It may be taken within or outside the department.

Descriptive and Theoretical Linguistics—A minimum of eight graduate courses (32 hours), which should include SPAN 403 and 405. Three courses may be taken outside the department. At least two courses for the concentration must be in general linguistic theory.

Second Language Acquisition—A minimum of 10 courses (40 hours) distributed in three areas: SLA (SPAN 556, SPAN 557, and 2 other courses); Linguistics/Language Analysis (4 courses); and Research Methods (2 courses).

Examinations Preliminary Examination: Required; written and oral. The written exam will cover the area of concentration. The oral part of the exam will be based on the written sections and the dissertation prospectus submitted by the candidate.

Dissertation Required. No more than 28 hours of SPAN 599 can be applied to the degree. The dissertation should be based on original research in the candidate’s concentration. The emphasis may be on any of the approaches covered by the areas of research (literary, linguistics, cultural).

Other Requirements Unless exempted by the director of graduate studies, all students must serve as teaching assistants for at least four semester hours and teach sections of elementary or intermediate Spanish.

Interdepartmental Concentration in Gender and Women’s Studies

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Gender and Women’s Studies after consulting with their graduate adviser. See Gender and Women’s Studies in the College of Liberal Arts and Sciences section for more information.

Interdepartmental Concentration in Latin American and Latino Studies

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Latin American and Latino Studies. See Latin American and Latino Studies in the College of Liberal Arts and Sciences section for more information.

Interdepartmental Concentration in Second Language Teaching

Students earning a graduate degree in the department may complement their courses by enrolling for a concentration in Second Language Teaching. See Second Language Teaching in the College of Liberal Arts and Sciences section of the catalog for more information.
the United States. The PhD major fields are Africa, ancient Mediterranean world, medieval Europe, early modern Europe, modern Europe, Great Britain and Ireland, Russia, Latin America, Colonial America and the United States. Each major field is further subdivided into minor fields, of which there are more than 60 for the MA and more than sixty for the PhD. Consult the department’s graduate student handbook for more information.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Arts, Master of Arts in the Teaching of History, and Doctor of Philosophy

Baccalaureate Field Applicants must have either an undergraduate major in history or a minimum of 16 semester hours in history.

Grade Point Average At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study. A GPA of 3.50/4.00 is recommended.

Tests Required GRE General. A score of 550 on the verbal portion of the test is the minimum recommended.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required, from former professors.

Personal Statement Required.

Writing Sample Required.

Nondegree Applicants Rarely accepted. Nondegree applicants must submit all credentials and meet the same admission requirements as degree applicants. Nondegree students may not take individual study courses.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Arts

Minimum Semester Hours Required 32.

Course Work Two tracks exist, one for students for whom this degree is intended to be final (the “MA-only track”), and one for whom this degree is intended to lead toward the Doctor of Philosophy in History (the “doctoral track”). At least 20 semester hours must be at the 500-level, and at least 16 semester hours must be in 500-level courses taught by the Department of History. Courses taken in a field other than history that are to count toward the degree need the approval of the adviser and the director of graduate studies. Credit toward the degree is not given for any course in which the student received a grade of less than B.

Required Courses: 4 hours of the 500-level seminar in the student’s major area. Students majoring in United States history must complete 8 hours of HIST 551 designated as the historiographical/bibliographical colloquium. All entering graduate students are required to take HIST 501.

Comprehensive Examination Required for students on MA-only track. Students on the doctoral track do not take master’s comprehensive exams.

Thesis, Project, or Course-Work-Only Options Course work only. No other options are available.

Other Requirements Students must complete a seminar paper. Students must pass a reading examination in one foreign language relevant to the plan of study. Any additional foreign language (or skills in quantitative methods) requirement will be determined by faculty in the major field. After the student has completed 24 hours of course work, a faculty committee representing the student’s major and minor fields will review the record of each doctoral-track MA student in the final semester of her/his MA studies to decide whether it justifies the pursuit of doctoral studies. If the decision is negative, the student will be put on MA-only track, and will be required to take comprehensive examinations and fulfill all other requirements of the MA degree.

Master of Arts in the Teaching of History

Minimum Semester Hours Required 54 (entering without certification); 32 (entering with certification). Students seeking teacher certification must complete a minimum of 54 semester hours, which includes hours taken in the Department of History and the College of Education. Students not seeking certification must complete a minimum of 32 semester hours.

Course Work At least 16 hours must be in 500-level history courses. Credit toward the degree is not given for any course in which the student receives a grade of less than B.

Students must complete 16 hours in graduate-level readings courses across the three fields of U.S., European, or world history, with at least four hours in each of these. These hours are to be drawn, where possible, from 500-level colloquia. Students must complete 8 hours in courses that focus on the teaching of history and the social sciences, HIST 420 and 500. HIST 420 has a prerequisite of 9 hours in social sciences.

Students seeking teacher certification must take 30 hours in required courses toward certification: CIE 504; ED 402 or 403; 421 or 445; 432; HIST 475 and 476; SPED 410.

Students not seeking certification must take a minimum of 8 hours in a specific field of history of their choosing in consultation with their adviser.

Additional Requirements for Teacher Certification In addition to specified course work, students seeking teacher certification must fulfill certain other requirements as well as maintain a minimum grade point average of 3.00/4.00 in history course work, and a 3.00/4.00 in...
required education courses. For detailed information, see the Program Guide for Teacher Education in History available from the secondary education coordinator in the Department of History.

The teaching certificate is not automatically awarded upon successful completion of certification and degree requirements. Before the certificate is issued, the candidate must file an application for the Illinois teaching certificate in the Council on Teacher Education. The candidate must also pass a series of examinations required by the Illinois State Board of Education. The Basic Skills Test must be passed prior to applying for candidacy in the Council on Teacher Education. The Content Area Test must be passed before the candidate is allowed to student teach. The Assessment of Professional Teaching must be passed prior to certification. For information on application procedures, contact the Council on Teacher Education located in 3015 EPASW.

Comprehensive Examination Required.

Thesis, Project, or Course-Work-Only Options Course work only. No other options are available.

Doctor of Philosophy

Minimum Semester Hours Required 96 from the baccalaureate.

Course Work Candidates must complete at least 64 semester hours of graduate work beyond the master’s degree exclusive of HIST 501. Of this amount, 16 are in didactic courses, and 48 are in thesis research. Eight hours of didactic course work are in HIST 591 to be taken after all other requirements for didactic course work have been met. Credit toward the degree is not given for any course in which the student receives a grade of less than B. All entering graduate students are required to take HIST 501. PhD students are not required to repeat any specific course offered by this department that they have successfully completed as MA students. Students entering the PhD program with a master’s degree from a department in another discipline may be required to complete additional hours of didactic course work, as appropriate and specified upon admission.

Examinations Comprehensive Examination: None.

Preliminary Examination: Required; written.

Dissertation Prospectus Required; written and oral.

Dissertation Required.

Other Requirements Students must pass a reading examination in one foreign language relevant to the plan of study. Any additional foreign language (or skills in quantitative methods) requirement will be determined by faculty in the major field.

Interdepartmental Concentration in Gender and Women’s Studies

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Gender and Women’s Studies after consulting with their graduate adviser. See Gender and Women’s Studies in the College of Liberal Arts and Sciences section for more information.

Interdepartmental Concentration in Latin American and Latino Studies

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Latin American and Latino Studies. See Latin American and Latino Studies in the College of Liberal Arts and Sciences section for more information.

Director of the Latin American and Latino Studies Program: Maria de los Angeles Torres
Director of Graduate Studies: Amalia Pallares

Interdepartmental Concentration in Latin American and Latino Studies

The Latin American and Latino Studies Program offers work leading to the graduate Interdepartmental Concentration in Latin American and Latino Studies. Students in the following graduate programs may be eligible to complete the Interdepartmental Concentration in Latin American and Latino Studies:

Graduate Program Level

Anthropology MA, PhD

English MA, PhD

Hispanic Studies MA, PhD

History MA, PhD

Political Science MA, PhD

Sociology MA, PhD

Concentration Requirements

Students must take at least 16 hours of course work approved by their advisers for the concentration, of which 4 hours must be the core seminar LALS 501. The remaining 12 hours may come for courses offered by the Latin American and Latino Studies Program or cross-listed courses, departmental offerings with Latin American or Latino content, or independent study courses chosen in consultation with the adviser. Up to 8 hours may be taken in the home discipline, although students are encouraged to take advantage of the multidisciplinary nature of the concentration.
**Linguistics**

Mailing Address: Department of English (MC 162)
601 South Morgan Street
Chicago, IL 60607-7120

Campus Location: 2227 UH
Program Code: 20FS0301MA
Telephone: (312) 413-5028
E-mail: vtdavis@uic.edu

Web Site: http://www.uic.edu/depts/engl/programs/TE SOL/program_overview.htm

Head of the Department: Walter Benn Michaels
Director of Graduate Studies: Elliot Judd

The Department of English offers course work leading to the Master of Arts in Linguistics with a concentration in Teaching English to Speakers of Other Languages (TESOL)/Applied Linguistics. The Interdepartmental Concentration in Gender and Women's Studies is available to students in this program. The English department also offers a program leading to degrees in English at both the master's and doctoral levels; consult the appropriate section in this catalog for more information.

**Admission Requirements**

Applicants are considered on an individual basis. In addition to the Graduate College minimum requirement, applicants must meet the following program requirements:

**Master of Arts**

**Baccalaureate Field** No restrictions. Prior academic work should include the equivalent of at least two years of a foreign language and a broad background in the humanities and social sciences. Training in mathematics or philosophy is also desirable. Applicants may offer backgrounds in education rather than in the liberal arts.

**Grade Point Average** At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study.

**Tests Required** Applicants from countries where the primary language is not English must take the Test of Spoken English (TSE) in addition to the TOEFL. A TSE score of at least 50 is required for consideration. Students taking the new Internet-based TOEFL do not have to take the TSE.

**Minimum TOEFL Score** 590 (paper-based); 243 (computer-based); 95, with subscores of Reading 24, Listening 24, Speaking 24, and Writing 22 (new Internet-based TOEFL).

**Letters of Recommendation** Three required. Letters must be sent directly to the department by professors who are familiar with the applicant's recent work. Those with teaching experience may submit letters from their supervisors.

**Personal Statement** Required; 250 words; the statement should address the applicant’s reasons for wishing to do graduate work in linguistics and the relationship of this work to the applicant's professional and other goals. Applicants who are not native speakers of English must submit a four- to five-page summary of their educational experience, emphasizing work in English and other literatures and languages and concluding with a statement of reasons for wanting to do graduate work in the United States; this replaces the 250-word statement required of other applicants.

**Nondegree Applicants** Nondegree applicants must submit a transcript from their baccalaureate institution.

**Degree Requirements**

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

**Master of Arts**

**Minimum Semester Hours Required** Varies by option. TESOL/Applied Linguistics with thesis, 44 and TESOL/Applied Linguistics with internship, 49.

**Course Work** At least 12 hours must be at the 500-level.

**Required Courses**

- LING 415, 425, 480, 483, 531, 556, 583, 586, and one other TESOL or related course, to be approved by an adviser.
- No more than one-fourth of the total hours required for the degree (excluding LING 597 or 598) can be in independent study courses.

**Comprehensive Examination** Required; written. Students cannot take the examination more than twice.

**Thesis, Project, or Course-Work-Only Options**

Students in TESOL/Applied Linguistics must complete either a thesis or an internship. They must earn 8 hours of LING 598 for thesis research or 13 hours of LING 594 for an internship.

**Other Requirements** All students must demonstrate proficiency in one foreign language either by examination or by completion (with a grade of B or higher) of appropriate course work beyond the second-year university level.

**Interdepartmental Concentration in Gender and Women’s Studies**

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Gender and Women's Studies after consulting with their graduate adviser. See Gender and Women's Studies in the College of Liberal Arts and Sciences section for more information.
**Admission Requirements**

Transcripts of all undergraduate and any graduate work must be submitted. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

**Master of Arts and Master of Science**

**Baccalaureate Field** Mathematics or a related field. Applicants must have 20 semester hours of undergraduate work in mathematics beyond calculus. Additional requirements vary by area; contact the department for more information on the specific admission requirements of each area.

**Grade Point Average** At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study, and an average of 3.00 in all mathematics courses beyond calculus.

**Tests Required** GRE General and GRE Subject Test (in Mathematics or in Computer Science, depending on the area of interest).

**Minimum TOEFL Score** 600 (paper-based); 250 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

**Letters of Recommendation** Three required from persons familiar with the applicant's academic work.

---

**Doctor of Arts and Doctor of Philosophy**

**Prior Degrees** Completion of a master's program is required for entrance to the doctoral programs. MS students in the department who intend to continue on to the doctorate must satisfy the department's master's degree requirements and be recommended by the department for further work. Applicants who have a master's degree from another university must have completed an MS program.
Master of Arts and Master of Science

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Arts and Master of Science

Minimum Semester Hours Required 32.

Course Work At least 24 hours must be in mathematics courses, of which 12 hours must be at the 500-level. The student must complete a course of study in one of the following concentrations or, in exceptional cases approved by the Graduate Studies Committee, a general program of study without concentration can be followed.

Concentration in Pure Mathematics: Students must take the following courses: MATH 417, 516, 533, and 4 hours from MATH 446, 517, 594, 535, 536. Other courses may be substituted with the permission of the director of graduate studies. The remaining courses are selected in consultation with an adviser. Students must pass a written comprehensive examination in pure mathematics or write a thesis and pass an oral defense.

Concentration in Applied Mathematics: Students must take the following courses: MATH 417, 480, 481 plus 8 hours from MATH 578, 579, 580, 581. The remaining 12 hours must include previously listed courses or courses selected from the following areas: calculus, probability and statistics, computer science, or history of mathematics.

Concentration in Mathematical Computer Science: Students must take the following courses: MCS 401, 421, 471. Students must select at least three courses, two 500-level MCS courses plus one course selected from the MCS graduate-level course list or STAT 471. Other courses may be substituted with the permission of the director of graduate studies. The remaining courses are selected in consultation with an adviser. Students must pass a written comprehensive examination in mathematical computer science or write a thesis and pass an oral defense.

Concentration in Probability and Statistics: Students must take the following courses: STAT 401, 411, and one course selected from STAT 431, 461, 471, 477, 481. Other courses may be substituted with the permission of the director of graduate studies. The remaining courses are selected in consultation with an adviser. Students must pass a written comprehensive examination in probability and statistics or write a thesis and pass an oral defense.

Comprehensive Examination Optional. Students who do not pass a written comprehensive examination must complete a thesis.

Thesis, Project, or Course-Work-Only Options Thesis or course work only (with written comprehensive examination). No other options are available.

Master of Science in Mathematics and Information Sciences for Industry

Minimum Semester Hours Required 32.

Electives: 12 semester hours chosen from the department’s 500-level courses, excluding MTHT courses.

Comprehensive Examination None.

Thesis, Project, or Course-Work-Only Options Thesis or project required. No other options are available.

Master of Science in the Teaching of Mathematics

Minimum Semester Hours Required Two options (secondary and elementary) are available to MST students. Secondary option—32 hours; Elementary option—36 hours.

Course Work Required Courses: Varies by option.

Secondary Option—MTHT 410, 411, 510, and 530; and MATH 425 or MTHT 435.

Elementary Option—MTHT 465, 550, 565, and 589; EPSY 446; and CIE 484.

Elementary option students must also take three additional mathematics courses. At least one course must be taken from one of the following areas: calculus, probability and statistics, computer science, or history of mathematics.

Minimum TOEFL Score 600 (paper-based); 250 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Tests Required GRE General and GRE Subject Test in Mathematics.

Minimum GRE General Test Score 320.

Examinations

Personal Statement Required.
Electives: The specific distribution of courses varies by option; contact the department for the specific requirements of each option.

Comprehensive Examination None.

Thesis, Project, or Course-Work-Only Options Course work only. No other options are available.

Other Requirements Students in the secondary option must be eligible for a certificate to teach mathematics at the secondary level in Illinois. This requirement may be waived for candidates with teaching experience. If a candidate is not certified to teach mathematics at the secondary level in Illinois, up to 8 elective hours may be selected from courses in psychology or education, if taken at the graduate level. Certification may be earned before the MST degree is completed.

Doctor of Arts
Minimum Semester Hours Required 96 from the baccalaureate.

Course Work At least 40 hours must be in mathematics, including 24 semester hours of regular 500-level courses. Mathematics courses must be chosen so that the areas of computer science, differential equations, geometry, logic, and probability and statistics are all represented.

Required Courses: MATH 417, 445, 446, 516, 517, 533, and 534; 12 hours in education and math education, including MATH 591 and 592; and 8 hours of graduate-level courses in an area of mathematics or a related science, such as physics, philosophy, history of science, or another science approved by the department.

Electives: Restricted to math and/or science. Courses in economics and statistical methods in psychology and education may, under certain conditions, be selected as electives.

Examinations Students should pass the department's master's examination within one year of completion of 24 semester hours. Students who already have a master's degree upon entering the program must pass the examination within one year of entrance.

Preliminary Examination: Required.

Dissertation Required. Students must earn at least 20 hours in MATH 599.

Doctor of Philosophy
Minimum Semester Hours Required 96 from the baccalaureate.

Course Work At least 40 hours must be in 500-level mathematics courses, excluding thesis research (MATH 599, MCS 599, or STAT 599).

Preliminary Examination Required.

Dissertation Required. Students earn at least 32 hours in thesis research (MATH 599, MCS 599, or STAT 599).

Other Requirements The language requirement for each student is decided by the Graduate Studies Committee. The determination is based on the student's area of interest. In no case will examination in more than one language be required. In those areas in which the primary sources are in English, a foreign language may not be required.

Philosophy
Mailing Address: Department of Philosophy (MC 267)
601 South Morgan Street
Chicago, IL 60607-7114

Program Codes: 20FS0332MA (MA); 20FS0332PHD (PhD)

Telephone: (312) 996-3023
E-mail: val@uic.edu
Web Site: http://www.uic.edu/depts/phil/
Chairperson of the Department: Peter Hyton
Director of Graduate Studies: Walter Edelberg

The Department of Philosophy offers work leading to degrees in Philosophy at both the master's and doctoral levels, and participates in the Interdepartmental Concentration in Gender and Women's Studies and the Interdepartmental Concentration in Neuroscience.

Admission Requirements
Applicants are considered on an individual basis. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Arts and Doctor of Philosophy

Baccalaureate Field No restrictions. Prior academic work should include courses in modern formal logic, ethics, history of philosophy, epistemology, metaphysics, and philosophy of science or philosophy of language.

Grade Point Average At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study.

Tests Required GRE.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required, preferably from professors who are familiar with the student's recent work.

Personal Statement Required; 250 words. The statement should address the applicant's past work in philosophy and plans for graduate study.

Degree Requirements
In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Arts

Minimum Semester Hours Required 36.

Course Work At least 24 hours must be in courses at the 500-level. At least 24 hours must be in courses in the Department of Philosophy,
of which at least 20 must at the 500-level (excluding PHIL 590–599). Students must receive a B or better in one course in the history of philosophy; one course in metaphysics, epistemology, logic, philosophy of science, or philosophy of language; and one course in ethics, political philosophy, or aesthetics.

Comprehensive Examination None.

Thesis, Project, or Course-Work-Only Options Course work only. No other options are available.

Doctor of Philosophy

Minimum Semester Hours Required 96 for students entering with a baccalaureate, and 64 for students entering with a master’s.

Course Work Students must achieve a grade of B or better in each of 14 regularly scheduled graduate courses by the middle of their third year. At least 10 of these must be at the 500-level or be 400-level logic courses; and at least 10 must be in the UIC Department of Philosophy. PHIL 593, 596, and 599 may not be counted toward the fourteen, and PHIL 590 may not be counted more than once toward the fourteen.

Required Courses: A grade of B or better in each of the following courses: PHIL 500; three 500-level courses in the history of philosophy (at least one in ancient or medieval and one in modern); five 500-level courses (except for logic courses, one of which may be at the 400-level) in (a) metaphysics or epistemology, (b) logic, philosophy of science, or philosophy of language, or (c) ethics or value theory, with at least 10 of the 5 courses in each of the areas (a), (b), and (c); PHIL 500, 593, 590, and 596 may not be used to satisfy these requirements. Third-year students may register for PHIL 593—Independent Research to prepare for the departmental qualifying exam.

Logic Requirement: A grade of B or better in PHIL 210 or a higher level UIC logic course.

Examinations Departmental Qualifying Examination: Required. The examination consists of a research paper and a written or oral exam within the student’s general area.

Preliminary Examination: Required. Performance in courses, departmental qualifying examination, and teaching will be considered in determining whether the student passes the preliminary examination.

Dissertation Required.

Other Requirements: The language requirement for each student is decided by a department committee of graduate faculty. The determination is based on a consideration of the student’s area of interest. In no case is proficiency in more than two languages required. In those areas in which the primary sources are in English, a foreign language may not be required.

Interdepartmental Concentration in Gender and Women’s Studies

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Gender and Women’s Studies after consulting with their graduate adviser. See Gender and Women’s Studies in the College of Liberal Arts and Sciences section for more information.

Interdepartmental Concentration in Neuroscience

Doctoral students may pursue the Interdepartmental Concentration in Neuroscience. Refer to Interdepartmental Concentration in Neuroscience in the Graduate College section for more information.

PHYSICS

Mailing Address: Department of Physics (MC 273) 845 West Taylor Street Chicago, IL 60607-7059

Campus Location: 2236 SES

Program Codes: 20FS0240MS (MS); 20FS0240PHD (PhD)

Telephone: (312) 996-3400

E-mail: physics@uic.edu

Web Site: http://www.uic.edu/casp/depts/phys/index.asp

Head of the Department: Henrik Aratyn

Director of Graduate Studies: Christoph Grein

The Department of Physics offers work leading to degrees in Physics at both the master’s and doctoral levels. Experimental and theoretical work leading to a graduate degree is available in the following general areas: atomic, molecular, and laser physics; biophysics; condensed matter and materials physics; high-energy particle physics; and high-energy nuclear physics.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. Complete transcripts of all undergraduate and any graduate work must be submitted. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Science and Doctor of Philosophy

Baccalaureate Field No restrictions. Prior academic work must include at least 20 semester hours of physics, including PHYS 401, 421, and 441; or the equivalents.

Grade Point Average At least 2.75/4.00 for the final 60 semester (90 quarter) hours of undergraduate study.

Tests Required GRE General exam is required; GRE Physics subject exam is highly recommended, but not required.

Minimum TOEFL Score 580 (paper-based); 237 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required.

Personal Statement Required.

Nondegree Applicants Nondegree applicants must submit transcripts and a personal statement.
DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

Minimum Semester Hours Required: 32.

Course Work: At least 20 hours must be at the 500-level, of which no more than 4 hours may be in PHYS 596. No more than 8 hours may be in PHYS 598 if in thesis option.

Required Courses: PHYS 501, 502, 511, and 512.

Comprehensive Examination: None.

Thesis, Project, or Course-Work-Only Options: Thesis or course work only. No other options are available.

Thesis: No more than 8 hours of PHYS 598 can be applied to the degree.

Doctor of Philosophy

Minimum Semester Hours Required: 96 from the baccalaureate.

Course Work: At least 36 hours must be in 500-level courses other than PHYS 596 and 599.

Required Courses: PHYS 501, 502, 511, 512, and 561; five semesters of PHYS 595—Graduate Seminar; and at least one complete sequence chosen from among the following: PHYS 513 and 514 or PHYS 521 and 522 or PHYS 531 and 532 or PHYS 551 and 552.

Examinations: Departmental Qualifying Examination: Required.

Preliminary Examination: Required.

Dissertation: Required.

Other Requirements: Each student must serve as a teaching assistant for at least two semesters.

ADMISSION REQUIREMENTS

In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Arts and Doctor of Philosophy

Baccalaureate Field: No restrictions.

Grade Point Average: At least 3.00/4.00 for the final 60 semester (90 quarter) hours of undergraduate study.

Tests Required: GRE General.

Minimum TOEFL Score: 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation: Three required, preferably from faculty members in political science or cognate disciplines who are familiar with the applicant’s training and ability.

Personal Statement: Required. The statement should address the applicant’s professional goals.

Deadlines: The application deadline for this program is earlier than the Graduate College deadline; contact the program for more information on current deadlines.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Arts

Minimum Semester Hours Required: 32.

Course Work: Required Courses: POLS 401, 500, 505, 506, 593; and one of the following: POLS 504, 551, 560, 570, or 571. Required course work totals 20 semester hours. Required courses will not be waived. A grade of B or better is required in all required courses.

Electives: At least 12 additional hours at the 500-level. No more than two courses (8 semester hours) may be taken outside the department.

Thesis, Project, or Course-Work-Only Options: Course work only. No other options are available.

Doctor of Philosophy

Minimum Semester Hours Required: 96 from the baccalaureate.

Course Work: Required Courses: POLS 401, 500, 501, 504, 505, 506. A grade of B or better is required in all required courses.

Examinations: Preliminary Examination: Required. After successful completion of the required course work, students, in conjunction with an adviser, will choose to be examined over...
two of five traditional subfields (Urban Politics, American Politics, Political Theory, Comparative Politics, and International Relations) and a field based on dissertation work. The preliminary exam will consist of a written examination in each of the chosen areas.

**Dissertation Required.** It is expected that students will submit a full statement of dissertation plans to the dissertation committee no later than three months following passage of the preliminary exam. The dissertation prospectus will contain an analysis of the relevant literature, the theoretical issues to be addressed, the data to be used, the methods of analysis, and a statement of the anticipated significance of the research project. Students will not be authorized to proceed with dissertation research until their prospectus has been approved.

**Other Requirements** In addition to the required courses, the student may also be requested to satisfy an advanced methodology requirement appropriate to the student’s plan of study and approved by the director of graduate studies. Students whose plan of study will require reading or oral proficiency in a foreign language must pass an examination arranged by the department; course work required to prepare for this examination does not count toward the hours required for the degree.

**Faculty Review** At the end of every spring semester the director of graduate studies conducts a review of the student’s progress in the program to date, based on a variety of student performance indicators which may include grades, seminar papers, and research interests. Before taking the preliminary examination, all students must complete an extensive research project. The paper will be evaluated by the project supervisor and one other member of the faculty who has been appointed by the director of graduate studies.

**Interdepartmental Concentration in Gender and Women’s Studies**

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Gender and Women’s Studies after consulting with their graduate advisor. See Gender and Women’s Studies in the College of Liberal Arts and Sciences section for more information.

**Interdepartmental Concentration in Latin American and Latino Studies**

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Latin American and Latino Studies. See Latin American and Latino Studies in the College of Liberal Arts and Sciences section for more information.

**Interdepartmental Graduate Concentration in Survey Research Methodology**

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Survey Research Methodology. See Interdepartmental Graduate Concentration in Survey Research Methodology in the Graduate College section for more information.
Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required from faculty members, preferably psychologists, who are familiar with the applicant’s training and ability. Information concerning an applicant’s research experience and ability is especially pertinent.

Personal Statement Required.

Other Requirements Applicants must complete all forms contained in the department’s application packet.

Nondegree Applicants Rarely accepted. Nondegree applicants must submit all credentials and meet the same admission requirements as degree applicants. The department only accepts nondegree applicants who have exceptional credentials and who desire to take a few specific courses for professional purposes. Nondegree students may not take practicum or individual study courses. Nondegree students will not be admitted to the degree program at a later time.

Deadlines Students may start the program only in the fall semester. Complete applications must be received by January 2 (December 15 preferred).

### DEGREE REQUIREMENTS

#### Master of Arts

- Minimum Semester Hours Required 32.

- Course Work At least 9 semester hours must be in one of the five divisions. The exact program will be established by the division.

- Required Courses: PSCH 543, 545, and 5 hours of PSCH 591.

- Comprehensive Examination None.

- Thesis, Project, or Course-Work-Only Options Thesis required. No other options are available.

#### Doctor of Philosophy

- Minimum Semester Hours Required 96 from the baccalaureate.

- Course Work The specific distribution of courses will depend on the student’s area of interest; students must complete the major in one of the five divisions as well as a minor requirement.

- Required Courses: PSCH 505, 543, and 545.

- Preliminary Examination Required; the examination depends on the major and minor.

- Dissertation Required.

#### Interdepartmental Concentration in Gender and Women’s Studies

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Gender and Women’s Studies after consulting with their graduate adviser. See Gender and Women’s Studies in the College of Liberal Arts and Sciences section for more information.

### Interdepartmental Concentration in Neuroscience

Doctoral students may pursue the Interdepartmental Concentration in Neuroscience. Refer to Interdepartmental Concentration in Neuroscience in the Graduate College section for more information.

### SECOND LANGUAGE TEACHING

Mailing Address: Department of English (MC 162)
601 South Morgan Street
Chicago, IL 60607-7120

Campus Location: 2021 UH

Telephone: (312) 413-7378

E-mail: jessicaw@uic.edu

Web Site: http://www.uic.edu/depts/engl/programs/grad_english/SLT.htm

#### Interdepartmental Concentration in Second Language Teaching

The Interdepartmental Concentration in Second Language Teaching is intended for those graduate students whose primary research and teaching interests lie in literary, cultural, and linguistic studies in English, Spanish, French, German, and other languages. The concentration provides them with advanced education in the processes of language learning and approaches to language teaching, including the teaching of composition.

The concentration is an option in addition to the candidate’s regular course of study and is not intended as a replacement for requirements in individual degree programs. It consists of four courses that are chosen from particular areas of study useful to the development of the candidate’s knowledge and skill in language teaching. These areas are as follows: Introduction to Language Teaching, Foundations in Second Language Acquisition, and Specific or Special Topics in Language Teaching.

Students in the following graduate programs may be eligible to participate in the Interdepartmental Concentration in Second Language Teaching:

<table>
<thead>
<tr>
<th>Graduate Program</th>
<th>Level</th>
</tr>
</thead>
<tbody>
<tr>
<td>English</td>
<td>MA, PhD</td>
</tr>
<tr>
<td>French</td>
<td>MA</td>
</tr>
<tr>
<td>Germanic Studies</td>
<td>MA, PhD</td>
</tr>
<tr>
<td>Hispanic Studies</td>
<td>MA, PhD</td>
</tr>
</tbody>
</table>

This concentration is not intended for those specializing in either second language acquisition or second language teaching at the master’s level or doctoral level (e.g., MATESL students, students in Applied Linguistics; PhD students in Hispanic Linguistics with a concentration in Second Language Acquisition).

#### Concentration Requirements

Candidates interested in the Interdepartmental Concentration in Second Language Teaching...
Concentration in Gender and Women's Studies is available to students in the program. The department also offers a program leading to the MA in Slavic Studies; consult the appropriate section of the catalog for more information.

**ADMISSION REQUIREMENTS**

Applicants are considered on an individual basis. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

**Doctor of Philosophy**

**Prior Degrees** Applicants must have a master's degree from an accredited institution or the equivalent from a foreign institution. Students who enter with a master's degree or the equivalent from an institution other than UIC or from another discipline may be granted limited standing until they pass a qualifying examination during the second term after admission as graduate students. Upon the recommendation of the examination committee, the examination may be retaken only once, and before the end of the third term.

**Grade Point Average** At least 3.00/4.00 for the final 60 semester (90 quarter) hours of undergraduate study and for all graduate work.

**Tests Required** GRE General.

**Minimum TOEFL Score** 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

**Letters of Recommendation** Three required.

**Personal Statement** Required; 300 words, in the language of the applicant's intended area. The statement should summarize the applicant's scholastic experience and career objectives.

**DEGREE REQUIREMENTS**

**Doctor of Philosophy**

**Minimum Semester Hours Required:** 64 from the master's degree.

**Course Work** At least 44 hours (11 courses) must be in the student's major area, of which at least 28 hours (7 courses) must be at the 500-level. No more than 20 hours of SLAV 599 can be applied to the degree.

**Slavic Literatures:** Doctoral students in Slavic literatures will major in one Slavic literature of their choice and minor in another from a different Slavic language family (e.g., Polish and Russian, Polish and Serbian, or Polish and Ukrainian), complementing their literary training with sound preparation in both languages.

**Slavic Linguistics:** Doctoral students in Slavic linguistics will major in one Slavic language of their choice and minor in another from a different Slavic language family (e.g., Russian and Polish or Polish and Serbian), complementing their linguistic training with sound preparation in the literatures of both areas.

---

**SLAVIC LANGUAGES AND LITERATURES**

Mailing Address: Department of Slavic and Baltic Languages and Literatures (MC 306) 601 South Morgan Street Chicago, IL 60607-7116

Campus Location: 1628 UH

Program Code: 20FS0302PHD

Telephone: (312) 996-4412

E-mail: slavbalt@uic.edu

Web Site: http://www.uic.edu/depts/slav/

Head of the Department: Alfred Thomas

Director of Graduate Studies: Alex Kurczaba

The Department of Slavic and Baltic Languages and Literatures offers work leading to the PhD in Slavic Languages and Literatures. Concentrations are available in Lithuanian Literature, Slavic Literatures, and Slavic Linguistics. The Interdepartmental...
Lithuanian Literature: Doctoral students in Lithuanian literature will major in Lithuanian literature and minor in a Slavic, Germanic, or Romance literature, complementing their literary training with sound preparation in the languages of both areas.

**Required Courses:** Students in the Slavic literatures and Slavic linguistics tracks must take SLAV 505 (4 hours), and either POL 510, RUSS 510, SLAV 510, or SLAV 530 (depending on the student’s major). Students in the Lithuanian literature track must take LITH 510 (4 hours).

**Electives:** In addition to the required courses, students must also take the following electives, which vary by concentration:

- **Slavic Literatures—Six courses (24 hours) in the major literature; two courses (8 hours) in the minor literature; and one course (4 hours) in the major or minor language or Slavic linguistics.**
- **Slavic Linguistics—Four courses (16 hours) in the major language; two courses (8 hours) in the minor language; three courses (12 hours) in the major literature or two courses (8 hours) in the major literature and one course (4 hours) in the minor literature.**
- **Lithuanian Literature—Six courses (24 hours) in Lithuanian literature; two courses (8 hours) in the minor literature; two courses (8 hours) in Lithuanian language, general linguistics, and the minor language, of which at least one must be in the minor language.**

With the concurrence of their adviser and the approval of the departmental graduate committee, doctoral students may substitute up to two courses (8 hours) in their major or minor with course work in any academic discipline relevant to their specific career goals.

**Preliminary Examination** Required. After at least one semester in residence, students select a major adviser from the departmental graduate faculty in their area. When students have completed their course work and passed the reading proficiency test in French or German, the adviser and four additional members of the graduate faculty (at least four of whom must hold full membership in the Graduate College) will be appointed by the dean of the Graduate College on the recommendation of the departmental director of graduate studies to serve as a preliminary doctoral examination committee. The committee will ordinarily be chaired by the student’s major adviser.

With the exception of the Lithuanian program, no more than two faculty members from outside the graduate faculty of the department may be invited to serve on an examining committee. The outside members must be distinguished scholars who currently hold tenured appointments and have graduate standing in a department with a PhD program. All invitations must be approved by the departmental graduate committee composed of all the graduate faculty members in the department. The examining committee must be formally proposed by the student to the director of graduate studies no less than five weeks before the date planned for the preliminary examination.

**Dissertation** Required. No more than 20 hours of SLAV 599 can be applied to the degree. Students who have passed the preliminary exam and been admitted to doctoral candidacy must prepare and defend a doctoral dissertation produced under the guidance of a member of the department’s graduate faculty, chosen by the candidate and approved by the director of graduate studies. The completed dissertation will be defended in an oral examination before a committee of at least five persons, of whom at least four must be full members of the graduate faculty. This committee (which will include the candidate’s dissertation adviser) will be appointed by the dean of the Graduate College on the recommendation of the director of graduate studies and will ordinarily be chaired by the student’s dissertation adviser.

**Other Requirements** All doctoral students must demonstrate an adequate reading knowledge of either French or German before they attempt their written preliminary doctoral examination. Students in Lithuanian studies may elect Russian or Spanish instead of French or German.

**Interdepartmental Concentration in Gender and Women’s Studies**

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Gender and Women’s Studies after consulting with their graduate adviser. See Gender and Women’s Studies in the College of Liberal Arts and Sciences section for more information.
Women’s Studies is available to students in this program. The department also offers work leading to the PhD in Slavic Languages and Literatures: consult the appropriate section of the catalog for more information.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Arts

Baccalaureate Field No restrictions. Applicants without a substantial background in Slavic or Baltic languages and literatures will be considered for admission on limited status only and required to remedy their deficiencies within a reasonable length of time before being granted full standing in the graduate program. Ordinarily an adequate background should include at least 9 semester (12 quarter) hours of upper-division undergraduate work broadly pertinent to the applicant’s intended graduate concentration and the level of fluency in the relevant Slavic or Baltic language equivalent to that attained in advanced conversation and composition courses offered by the department.

Grade Point Average At least 3.00/4.00 for the final 60 semester (90 quarter) hours of undergraduate study and for all graduate work.

Tests Required GRE General.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required.

Personal Statement Required; 300 words, in the language of the applicant’s intended specialization. The statement should summarize the applicant’s scholastic experience and career objectives.

DEGREE REQUIREMENTS

Master of Arts

Minimum Semester Hours Required 36.

Course Work: Required Courses: Students in all areas of specialization are required to take the course on the structure of the language in their area (LITH 410, POL 410, RUSS 410, SLAV 410, or SLAV 530). Students who have taken such a course prior to enrolling in the MA program must substitute the appropriate 515 course.

Electives: In addition to the required course, students must take 8 electives in their area of specialization, of which at least 3 must be at the 500-level. For literature majors, 6 courses (24 hours) must be in literature and 2 courses (8 hours) must be in linguistics. For language majors, 5 courses (20 hours) must be in linguistics and 3 courses (12 hours) must be in literature.

Comprehensive Examination Required; written and oral.

Thesis, Project, or Course-Work-Only Options Course work only. No other options are available.

Other Requirements Course work required for certification in high school teaching is in addition to the above departmental MA requirements.

Interdepartmental Concentration in Gender and Women’s Studies

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Gender and Women’s Studies after consulting with their graduate adviser. See Gender and Women’s Studies in the College of Liberal Arts and Sciences section for more information.

SOCIETY

Mailing Address: Department of Sociology (MC 312) 1007 West Harrison Street Chicago, IL 60607-7140

Campus Location: 4112 BSB

Program Codes: 20FS0344MA (MA); 20FS0344PHD (PhD)

Telephone: (312) 996-3005

E-mail: gradsoc@uic.edu

Web Site: http://www.uic.edu/depts/soci/

Head of the Department: Barbara J. Risman

Director of Graduate Studies: Sharon M. Collins

The Department of Sociology offers work leading to degrees in Sociology at both the master’s and doctoral levels. Course work and research leading to a graduate degree is available in general or applied sociology at the MA level, and sociology of health and illness; work, labor markets and organizations; race and ethnicity; and international/comparative/Asian societies at the PhD level. Interdepartmental concentrations in Gender and Women’s Studies, Latin American and Latino Studies, and Survey Research Methodology are available to students in this program.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. Complete transcripts of all undergraduate and any graduate work must be submitted. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Arts

Baccalaureate Field No restrictions. Prior work in social science and sociology is recommended.

Grade Point Average At least 3.00/4.00 for the final 60 semester (90 quarter) hours of undergraduate study, and at least 3.50 for any previous graduate work.

Tests Required GRE General Test.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).
Letters of Recommendation Three required from former professors or others best able to judge the applicant’s aptitude and potential for sociological research.

Personal Statement Required.

Doctor of Philosophy

Prior Degrees A master’s degree in sociology or equivalent is required. Doctoral applicants who do not already have a master’s degree in sociology will obtain a master’s degree as they complete requirements for the doctorate.

Grade Point Average At least 3.00/4.00 for the final 60 semester (90 quarter) hours of undergraduate study, and at least 3.50 for any previous graduate work.

Tests Required: GRE General Test.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required. At least two should be from professors at the university where the master’s degree was obtained.

Personal Statement Required.

DEGREE REQUIREMENTS

Master of Arts

Minimum Semester Hours Required 32–40, depending on the student’s level of preparation.

Course Work Required Courses: SOC 401, 402, 500, and 501; one course in sociological theory (e.g., SOC 485, 487, or 488); one course in social organization (e.g., SOC 441 or 447); and one course in social psychology or population (e.g., SOC 410, 451, 471, or 473). Students may petition the graduate committee to apply up to 8 hours of comparable course work taken prior to admission toward the course requirements in sociological theory, social organization, and social psychology or population.

Electives: Two 4-hour, 500-level seminars in sociology, excluding SOC 593 and 595. Students may petition the graduate committee to apply one seminar taken outside the department to the sociology seminar requirement. In this case, a 3-hour seminar may count toward this requirement.

Comprehensive Examination None.

Thesis, Project, or Course-Work-Only Options Project or course work only. No other options are available.

Project: Students must earn at least 4 hours in SOC 597.

Other Requirements Applied sociology students must complete an internship.

Doctor of Philosophy

Minimum Semester Hours Required 40–48 hours of course work beyond the MA; 16–24 dissertation research hours. The minimum number of hours beyond the baccalaureate is 96.

Course Work Required Courses: MA in Sociology course requirements (32–40 hours depending on the student’s level of preparation). Students with an MA from another institution must satisfy UIC Sociology MA requirements. The graduate director will evaluate student’s prior preparation and performance in satisfying these requirements.

SOC 509—Seminar: Sociological Research Methods is required. 16 hours of 500-level seminars, which may include SOC 509. (These are in addition to the 8 hours of 500-level seminars required for the MA). Depending on specialty requirements, these may include seminars outside the department. Students choosing one major specialty must complete 16 hours in that specialty. Students choosing a major specialty and a minor specialty must complete 12 hours in the major and 8 hours in the minor. Students should consult the department for current requirements in each specialty. Remaining hours shall be chosen in consultation with the student’s adviser.

Examinations Departmental Qualifying Examination: None.

Preliminary Examination: Required. The examination is comprised of an examination in a major specialty (or in a major and a minor specialty) and defense of the dissertation proposal.

Dissertation Required.

Interdepartmental Concentration in Gender and Women’s Studies

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Gender and Women’s Studies after consulting with their graduate advisor. See Gender and Women’s Studies in the College of Liberal Arts and Sciences section for more information.

Interdepartmental Concentration in Latin American and Latino Studies

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Latin American and Latino Studies. See Latin American and Latino Studies in the College of Liberal Arts and Sciences section for more information.

Interdepartmental Graduate Concentration in Survey Research Methodology

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Survey Research Methodology. See Interdepartmental Graduate Concentration in Survey Research Methodology in the Graduate College section for more information.
ANATOMY AND CELL BIOLOGY

Mailing Address: Department of Anatomy and Cell Biology (MC 512)
Room 578 CME
808 South Wood Street
Chicago, IL 60612-7308

Campus Location: 578 CME
Program Codes: 20FS1024MS (MS);
20FS1024PHD (PhD)

Telephone: (312) 996-6791
E-mail: conwell@uic.edu
Web Site: http://www.uic.edu/depts/mcan/

Head of the Department: Scott T. Brady
Director of Graduate Studies: Conwell Anderson

The Department of Anatomy and Cell Biology offers work leading to degrees in Anatomy and Cell Biology at both the master’s and doctoral levels, and participates in the MD/PhD joint degree program (see the MD/PhD section for more information). Areas of study include neurobiology, cell biology, and developmental biology. There is a strong emphasis on interdisciplinary studies that examine the relationship between structure and function. Research leading to a graduate degree is available in the following areas: neurobiology of the synapse, axonal transport, cytoskeleton, and response to stress; sensory systems; neuroplasticity; Alzheimer’s disease, ion channel regulation, cell motility, connective tissue, and stem cell biology. The Interdepartmental Concentration in Neuroscience is available to doctoral students.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. Transcripts of all undergraduate and any graduate work must be submitted. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Science and Doctor of Philosophy

Baccalaureate Field Biology or a closely related field. Students who have majored in other fields may be admitted if they show substantial evidence of ability to complete the program.

Grade Point Average At least 2.75/4.00 for the final 60 semester (90 quarter) hours of undergraduate study.

Tests Required GRE General.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required.

Personal Statement Required. The statement must address the applicant’s research interests and career goals.

Other Requirements Preference for admission is given to students who intend to complete a doctoral program.

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

Minimum Semester Hours Required 32.

Course Work All students must take or show proficiency in GCLS 501, 502, 503, 504, 505, and 510. At least 3 additional semester hours must be in 500-level courses specifically related to the thesis research proposed.

Comprehensive Examination None.

Thesis, Project, or Course-Work-Only Options Thesis required. No other options are available.

Other Requirements All graduate students must serve once as laboratory teaching assistants for one of the following: Tissue Biology, Neuroanatomy, or one section of Gross Human Anatomy.

Doctor of Philosophy

Minimum Semester Hours Required 96 from the baccalaureate.

Course Work All students must take or show proficiency in GCLS 501, 502, 503, 504, 505, and 510. At least 6 additional semester hours must be in 500-level courses specifically related to the dissertation research proposed.

Preliminary Examination Required; oral examination based on dissertation proposal.

Dissertation Required.

Other Requirements All graduate students must serve once as laboratory teaching assistants for one of the following: Tissue Biology, Neuroanatomy, or one section of Gross Human Anatomy.

Interdepartmental Concentration in Neuroscience

Doctoral students may pursue the Interdepartmental Concentration in Neuroscience. Refer to Interdepartmental Concentration in Neuroscience in the Graduate College section for more information.
BIOCHEMISTRY AND
MOLECULAR GENETICS

Mailing Address: Department of Biochemistry and Molecular Genetics (MC 669)
900 South Ashland Avenue
Chicago, IL 60607-7170

Campus Location: 2150 MBB
Program Codes: 20FS1069MS (MS);
20FS4050PHD (PhD)
Telephone: (312) 996-6984
E-mail: phyllisg@uic.edu
Web Site: http://www.uic.edu/com/bcmg/

Head of the Department: Jack Kaplan
Co-Directors of Graduate Studies: Alisa Katzen, Lester F. Lau

The Department of Biochemistry and Molecular Genetics offers work leading to the Master of Science degree in Biochemistry and Molecular Biology and the Doctor of Philosophy degree in Biochemistry and Molecular Genetics, and participates in the MD/PhD (see the Doctor of Philosophy degree in Biochemistry and Molecular Genetics, and participates in the MD/PhD program requirement section). The department has active, well-funded research programs in the molecular biology of growth and development, oncogenesis, metabolic regulation, macromolecular structure and function, signal transduction, and the biochemical basis of diseases. The Interdepartmental Concentration in Neuroscience is available to doctoral students.

ADMISSION REQUIREMENTS

In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Science and Doctor of Philosophy

Baccalaureate Field No restrictions. Prior academic work should include 16 semester hours of chemistry (including organic chemistry, physical chemistry, and quantitative analysis), and at least one advanced course in biology.

Grade Point Average At least 2.90/4.00 for the final 60 semester (90 quarter) hours of undergraduate study.

Tests Required GRE General.

Minimum TOEFL Score 570 (paper-based); 230 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Required.

Personal Statement Required.

Deadlines The application deadline for this program is earlier than the Graduate College deadline; contact the program for information on current deadlines.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

Minimum Semester Hours Required 32.

Course Work Two tracks (thesis and nonthesis) are available to students in this program.

Required Courses: GCLS 501; 502 or 503; 504; 505; 2 semesters of BCHE 595; BCHE 598. Students enrolled in the nonthesis track must also take 3 semesters of BCHE 521 (or equivalent); both GCLS 502 and 503; and are not required to take BCHE 598.

Electives: Students must take 9 hours of electives in the second semester of the first year choosing from BCHE 513, GCLS 510, GCLS 511, or other 500-level courses. All elective courses are subject to the approval of the departmental graduate committee.

Doctor of Philosophy

Minimum Semester Hours Required 96 from the baccalaureate.

Course Work Required Core: All students must take or show proficiency in GCLS 501, 502, 503, 504, and 505; GCLS 506 or BCMG 503; 6 semesters of BCMG 515; BCMG 575; BCMG 595 every semester; BCMG 501.

Electives: Two 500-level electives chosen from the following: GCLS 510, GCLS 511, GCLS 515, BCHE/BCM 513, PHYB 586.

Preliminary Examination Required. Students take a preliminary qualifying examination for advancement to PhD candidacy at the end of their second year of study. This examination will test a student’s ability to design and orally defend a scientific research plan as well as his/her general knowledge of biochemistry and molecular genetics.

Dissertation Required. A defined research experience and completion of an approved thesis is required. The thesis will be presented in a public forum and defended in front of a faculty jury. The research presented in the thesis is expected to be of publishable quality.

Other Requirements Supervised part-time teaching experiences during one term of each year are regularly assigned to students in the program.

Interdepartmental Concentration in Neuroscience

Doctoral students may pursue the Interdepartmental Concentration in Neuroscience. Refer to Interdepartmental Concentration in Neuroscience in the Graduate College section for more information.
GRADUATE EDUCATION IN MEDICAL SCIENCES

Mailing Address: College of Medicine (MC 784)
1853 West Polk Street
Chicago, IL 60612
Campus Location: Suite 300, Room 324 CSN
Program Code: 20FS8060PHD
Phone: (312) 355-0389
Fax: (312) 355-0389
E-mail: gemsinfo@uic.edu
Web Site: http://gems.comd.uic.edu/
E-mail: gemsinfo@uic.edu
Fax: (312) 355-0389

The GEMS Program offers students integrated training in the biomedical sciences. PhD programs include the areas of Anatomy, Biochemistry, Biophysics, Cell and Molecular Biology, Genetics, Immunology, Microbiology, Neurosciences, Pharmacology, and Physiology. Students have the flexibility to choose a mentor from among more than 150 funded research faculty in all departments and PhD programs of the College of Medicine. Areas of research excellence within the broader disciplines include cancer; development; gene regulation; host-pathogen biology; lung biology; molecular and integrated cardiac and vascular biology; proteomics, genomics, and bioinformatics; reproductive biology; signal transduction; and virology.

ADMISSION REQUIREMENTS

Students apply using the GEMS PhD program code and list in order of preference up to three of the participating departments as an area of interest. Participating departments are: Anatomy and Cell Biology, Biochemistry and Molecular Genetics, Microbiology and Immunology, Pharmacology, and Physiology. Specific requirements are listed under each participating graduate program. In general, students should have the following:

Baccalaureate Field No restrictions. Applicants must have a satisfactory record of courses in biology, inorganic and organic chemistry, and at least one year of physics and mathematics.

Grade Point Average At least 2.75/4.00 for the final 60 semester hours of undergraduate study. Preference is given to those applicants who have a GPA greater than 3.00.

Tests Required GRE General. This test should be taken prior to submission of the formal application. Preference is given to applicants with a combined verbal and quantitative, above 1200 and analytical writing above 4.0.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80 (new Internet-based TOEFL).

Letters of Recommendation Required.

Personal Statement Required.

Other Requirements Preference is given to applicants with a documented record of research accomplishment.

DEGREE REQUIREMENTS

GEMS students engage, during their first year of study, in a core curriculum that focuses on the fundamentals of biochemistry and cell and molecular biology, and integrates these with topics in molecular medicine and physiology. Beginning in the second semester, students elect to take a variety of courses with the goal of concentrating more selectively within a chosen area of interest.

Students initially pick three or four potential mentors in whose laboratories they spend 10-week rotations during the first year. At the end of their first year, students select a mentor and College of Medicine department with whom they will undertake their thesis research. The PhD is granted in the program that the student selects.

Minimum Semester Hours Required 96 from the baccalaureate.

Course Work Required Courses: All students must take or show proficiency in GCLS 501, 502, 503, 504, 505. Students must take additional 500-level courses as specified by their chosen PhD program.

Preliminary Examination Required.

Dissertation Required. Students must earn at least 52 hours in MIM 599.

Other Requirements During the second year of graduate study students must pass a preliminary exam in a format specified by their chosen department.

HEALTH PROFESSIONS EDUCATION

Mailing Address: Department of Medical Education
808 South Wood Street
Chicago, IL 60612-7309
Campus Location: 986 CME
Program Code: 20FS1306MHPE
Telephone: (312) 996-3590
E-mail: lhbarris@uic.edu
Web Site: http://www.uic.edu/com/mcme/mhpeweb/Home.html

Head of the Department: Leslie J. Sandlow
Director of Graduate Studies: Ilene Harris

The Department of Medical Education offers a program of studies leading to the Master of Health Professions Education (MHPE) degree. The purpose of the MHPE program is to provide the training necessary to produce effective leaders and scholars in health professions education. Disciplinary and interdisciplinary offerings are available on topics related to management and leadership in health professions education, scholarship methods, curriculum, instruction, competence assessment, program evaluation, quality assessment, primary care education, clinical decision making, and medical humanities and ethics. The Interdepartmental Concentration in Gender and Women’s Studies is available to students in this program.
ADMISSIONS REQUIREMENTS

Applicants are considered on an individual basis. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

**Master of Health Professions Education**

- **Baccalaureate Field**: Applicants must hold a baccalaureate degree or an advanced professional degree in a health professions discipline.
- **Other Requirements**: At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study.
- **Tests Required**: None.
- **Minimum TOEFL Score**: 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).
- **Letters of Recommendation**: Three required.
- **Personal Statement**: Required. The statement should address the applicant’s professional goals.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

**Master of Health Professions Education**

- **Minimum Semester Hours Required**: 32.
- **Course Work**
  - **Required Courses**: MHPE 501, 502, 503, and 504. Students must also complete 6–10 semester hours of electives, 4 of which must be in a content area related to their thesis.
- **Comprehensive Examination**: None.
- **Thesis, Project, or Course-Work-Only Options**: Thesis. No other options available.
- **Thesis**: Students must earn at least 6 semester hours in MHPE 598; no more than 10 semester hours of MHPE 598 can be applied to the degree.

**Interdepartmental Concentration in Gender and Women's Studies**

Students earning an MHPE degree in the Department of Medical Education may complement their courses by enrolling for a concentration in Gender and Women’s Studies after consulting with the director of graduate studies. See Gender and Women’s Studies in the College of Liberal Arts and Sciences section for more information.

MD/PHD TRAINING PROGRAM

Mailing Address: MD/PhD Training Program
College of Medicine c/o Office of the Dean (MC 784)
1853 West Polk Street
Chicago, IL 60612

Campus Location: Suite 3000 CSN
Telephone: (312) 996-7473
E-mail: Roberta@uic.edu
Web Site: http://www.uic.edu/com/mdphd/
Program Director: Larry S. Tobacman
Program Coordinator: Roberta L. Bernstein

The UIC College of Medicine offers a select number of students the opportunity to work toward both the MD and PhD degrees. The objective of the program is to train students for careers in academic medicine and research. Students admitted to this highly competitive program participate in the medical school curriculum and pursue original doctoral research projects in the laboratories of the university’s graduate faculty.

The first two years of the program are used to complete the M-1 and M-2 years of the medical curriculum. Students enter “at large,” that is, without affiliation to a particular graduate department. During this time, they may explore research opportunities in any academic department of the College of Medicine and selected graduate departments. A series of seminars designed for new MD/PhD students provides an overview of opportunities for research. After admission, the students complete several rotations through the laboratories of several potential advisers before a choice is made. An ongoing series of seminars is presented to MD/PhD students in all stages of the program by the faculty and invited physician-scientists from other academic health science centers. These seminars enhance the students’ general knowledge and help to develop new approaches toward the investigation of problems in biomedical research. The seminar series, along with the annual research day and other gatherings with faculty, serve to bring together trainees and preceptors.

Choice of a permanent thesis adviser and graduate department take place by the end of the second year. Students in the graduate phase of the program work side-by-side with PhD students in the basic sciences and meet all departmental requirements for the PhD degree. Original publications and presentations at national biomedical science meetings are often accomplished.

In the PhD phase of the program, students may associate with one of the five basic science departments of the College of Medicine (see descriptions in this section), with the Neuroscience Program, or with one of many program-approved departments across the university. In the final two years of the program, MD/PhD candidates rejoin other medical students to complete the remaining medical school requirements. Third- and fourth-year clerkships include medicine, surgery, pediatrics, obstetrics and gynecology, neurology and psychiatry, among other disciplines.

Graduates of the program have routinely gained admission to the most competitive residency programs at many of the premier academic institutions in the country.
ADMISSION REQUIREMENTS

Application to the program requires completion of both the MD/PhD Training Program application and application through AMCAS to the University of Illinois College of Medicine. The application form is available on the program’s Web site http://www.uic.edu/com/mdphd. It is recommended that applicants request 1 or 2 additional letters of recommendation to be sent directly to the program which focus on the applicant’s research experience. The MCAT examination, which is required for COM application, is accepted by the MD/PhD program in lieu of the GRE examination. Students should apply in the autumn of the year preceding admission to provide the fullest opportunity for consideration, since a rolling admissions procedure is used. A personal interview will be scheduled for each applicant under final consideration for admission.

Application to the program is normally made at the time of application to the College of Medicine. However, candidates will also be considered during their first two years of medical training. Admission to the program requires acceptance by the Admissions Committees of both of the MD/PhD Training Program and the College of Medicine. Criteria for admission to the program include academic excellence, prior research experience, potential for independent and creative research, and commitment to a career in academic medicine. Laboratory work concentrating in biology, chemistry, physics, biophysics, or behavioral sciences is helpful in preparing for study in the MD/PhD program. The admissions policy is flexible enough to accommodate those students who have already identified the field in which they wish to carry out research as well as those who are still undecided about their areas of research specialization. Admission to the MD/PhD Training Program is open to U.S. citizens or permanent residents.

ADMISSIONS REQUIREMENTS

In addition to the Graduate College minimum requirements, applicants must meet the following admissions requirements:

Master of Science

Baccalaureate Field A baccalaureate degree or its equivalent in a science or engineering related field from an accredited college or university will be required, except in special cases. Prior academic work should include college mathematics through calculus, general biology, general and organic chemistry or the equivalent engineering courses.

Generally qualified candidates may be required by the department to remove specific course work deficiencies by completing selected undergraduate courses prior to matriculation or graduation.

Other Requirements At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study. The student’s grade point average for any postbaccalaureate course work must be 3.00/4.00 or greater.

Transcripts Required from all institutions where the applicant earned the last 60 semester hours (90 quarter hours) of credit toward the baccalaureate degree and from all institutions where postbaccalaureate work has been done.

Tests Required GRE General is required and GRE Subject Test in Biology or Chemistry is recommended. Exceptions to the GRE requirement are made on a case-by-case basis.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 20, Listening 18, Speaking 21, and Writing 21 (new Internet-based TOEFL). The TOEFL Internet-based Test (iBT) is the preferred test. Note: Exemptions to the TOEFL requirement are as stated in the UIC Graduate College Application Instructions, page 4.

DEGREE REQUIREMENTS

Students in the program complete requirements of the College of Medicine for the MD degree and requirements of their chosen research department for the PhD degree. They must complete and submit their PhD dissertation and complete or schedule its defense before returning to the medical school for the M-3 and M-4 years.

MEDICAL BIOTECHNOLOGY

Mailing Address: U of I College of Medicine at Rockford
1601 Parkview Avenue
Rockford, IL 61107

Campus Location: U of I College of Medicine at Rockford

Program Code: 20FS5020MS7

Telephone: (815) 396-5728

E-mail: jfss@uic.edu (Janet Stull-Snow)

Web Site: www.uirockford.com/academic/biomedical/index.htm

Director of Graduate Studies: Dr. Thomas M. Sutliff

The University of Illinois College of Medicine at Rockford offers work leading to the Master of Science in Medical Biotechnology. The program is administered by the Department of Biomedical Sciences.

The Master of Science in Medical Biotechnology will train students in the major techniques and disciplines in biotechnology. Course subjects may include recombinant DNA and genomics, protein production and proteomics, federal regulatory issues, biological systems, and physiology. In addition, students will receive direct experience with many of the analytical and testing techniques used in the biotechnology and healthcare industries along with an introduction to pertinent regulatory issues and basic training in program management and product development techniques. A unique aspect of this program is the focus on Medical Biotechnology, where students are trained in the medically focused aspects and considerations of biotechnology. Instructors with industrial biotechnology experience and practicing physicians will participate in the experience directed course work and research activities.

The majority of the classes will be offered in the evenings or weekends, thereby allowing student to earn their MS degree while still working full- or part-time.
Letters of Recommendation Three required. If applicant is employed one of the letters of reference must come from the employer confirming employer commitment to student participation. The other letters should be from former professors, teachers, or persons who can refer the candidate based on personal experience with the candidate’s professional competence.

Personal Statement Required; statement of career goals.

DEGREE REQUIREMENTS
In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

Minimum Semester Hours Required 34 for project option, 38 for thesis option. The research project option is directed toward students who wish to conduct their research in an industrial lab with the associated legal requirements. The thesis option is a more traditional master’s research option which is conducted in university laboratories or laboratories affiliated directly with the university and follows the university requirements for intellectual property.

Course Work Required Courses: MBT 500, MBT 502, MBT 503, MBT 510, MBT 513, MBT 595, MBT 597 or MBT 598, and BSTT 400.

Electives: At least 6 hours.

Comprehensive Examination Not required.

Thesis, Project, or Course-Work-Only Options Thesis or project. No other options are available.

Thesis: Thesis students must earn at least 12 hours in MBT 598. A maximum of 14 hours in MBT 598 may be used to meet degree requirements.

Project: Project students must earn at least 8 hours in MBT 597.

MICROBIOLOGY AND IMMUNOLOGY
Mailing Address: Department of Microbiology and Immunology (MC 790)
835 South Wolcott Avenue
Chicago, IL 60612-7344
Campus Location: E-704 MSB
Program Codes: 20FS1468MS (MS);
20FS1468PhD (PhD)
Telephone: (312) 996-9477
E-mail: mim@uic.edu
Web Site: http://www.uic.edu/depts/mcmi/
index2.html
Head of the Department: Bellur Prabhakar
Director of Graduate Studies: William Hendrickson

The Department of Microbiology and Immunology offers work leading to the Master of Science and the Doctor of Philosophy degrees and participates in the MD/PhD joint degree program (see the MD/PhD section of the catalog for more information). The department carries out basic research in the areas of immunology, virology, and microbial molecular biology. Research leading to a graduate degree is available in the general areas of molecular, cellular, and tumor immunology; molecular biology and genetics of procaryotes; and molecular biology of eucaryotic cells and viruses.

ADMISSION REQUIREMENTS
In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Science and Doctor of Philosophy

Baccalaureate Field No restrictions. Applicants must have a solid background in biology and inorganic and organic chemistry, and at least one year of physics and mathematics.

Other Requirements At least 2.75/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study. Preference is given to those applicants who have a GPA greater than 3.00.

Tests Required GRE General. This test should be taken prior to submission of the formal application. Preference is given to applicants with a combined verbal and quantitative score above 1200, and analytical writing above 4.0.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Required.

Personal Statement Required.

Other Requirements Preference is given to applicants with a documented record of research accomplishment who intend to complete the doctoral program.

DEGREE REQUIREMENTS
In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

Minimum Semester Hours Required 34.

Course Work Required Courses: All students must take or show proficiency in GCLS 501, 502, 503, 504, 505, 510, and 511.

Comprehensive Examination None.

Thesis, Project, or Course-Work-Only Options Thesis: Required. No other options are available. Students must register in MIM 598 for 9 semester hours.

Doctor of Philosophy

Minimum Semester Hours Required 96 from the baccalaureate.
**Course Work Required Courses:** Nine hours of MIM 455. All students must take or show proficiency in GCLS 501, 502, 503, 504, 505, 510, and 511. In addition students must take MIM 594 for 1 hour, and 2 additional 500-level courses, MIM 551 and MIM 553 are recommended. Four additional hours of MIM 595 and 52 semester hours of MIM 599 are required.

**Preliminary Examination Required.**

**Dissertation Required.** Students must earn at least 52 hours in MIM 599.

**Other Requirements** During the second year of graduate study, students must conduct a satisfactory oral defense of a written research proposal that is different from their thesis subject. All graduate students, regardless of their means of financial support, must participate in the teaching programs of the department for one semester of each academic year. This requirement includes experiences in laboratory instruction, lecturing, and audiovisual presentations.

**MD/PhD**

Students with an MD degree earned in the United States or who are working toward one at UIC may use medical science courses to fulfill the 500-level course requirements. Such students must take 3 semester hours of MIM 455; one credit of MIM 594; 6 semester hours of MIM 595; and 59 semester hours of MIM 599. Other courses required will be determined by the graduate committee based on the student’s area of interest.

**PHARMACOLOGY**

Mailing Address: Department of Pharmacology (MC 868)
835 South Wolcott Avenue
Chicago, IL 60612-7343

Campus Location: E-403 MSB
Program Codes: 20FS1564MS (MS);
20FS1564PHD (PhD)

Telephone: (312) 355-3281
E-mail: rskidgel@uic.edu; tmg@uic.edu
Web Site: http://www.uic.edu/depts/mcph/

Head of the Department: Asrar B. Malik
Directors of Graduate Studies: Randal A. Skidgel and Thomas M. Guenthner

The Department of Pharmacology offers work leading to a degree in Pharmacology at the doctoral level and participates in the MD/PhD joint degree program (see the MD/PhD section for more information). The Interdepartmental Concentration in Neuroscience is also available. The department is particularly strong in research on signal transduction, vascular biology, inflammation, cardiovascular pharmacology, and neuropharmacology. Research in these areas is pursued at the molecular, cellular, organ-system, and whole-organism levels of investigation.

**ADMISSION REQUIREMENTS**

Applicants are considered on an individual basis. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

**Master of Science and Doctor of Philosophy**

**Baccalaureate Field** No restrictions. Prior academic work should include chemistry, biology, physics, and math. Biochemistry, cell biology, molecular biology, and physiology are also helpful.

**Other Requirements**

- At least 2.75/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study.
- Tests Required
  - GRE General. Preference is given to applicants with a combined verbal and quantitative GRE score of at least 1100 and an analytical writing score of at least 4.5.
- Minimum TOEFL Score
  - 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).
- Letters of Recommendation Required.
- Personal Statement Required. One page summarizing past academic and research experience (if any) and motivation for pursuing a PhD in Pharmacology.
- Nondegree Applicants
  - Nondegree applicants must show adequate preparation to enroll in desired courses and must obtain the permission of the director of graduate studies.
- Master of Science Applicants
  - The department does not admit students to a master’s program. A student in the PhD program may be awarded a terminal master’s degree if he or she decides not to complete the PhD, provided enough research has been accomplished to write and defend a thesis.

**DEGREE REQUIREMENTS**

**Master of Science**

**Minimum Semester Hours Required:** 32.

**Course Work Required Courses:** All students must take or show proficiency in GCLS 501, 502, 503, 504, 505, 510. In addition, students must take GCLS 515 and PCOL 501 and 502. Students in their second year and beyond must also register for PCOL 505 and 599 each semester.

**Electives:** At least 2 semester hours must be in 500-level didactic courses in the department.

**Comprehensive Examination** None.

**Thesis, Project, or Course-Work-Only Options**

- Thesis required. No other options are available.

**Other Requirements** Students may be called upon to assist in aspects of teaching and research activities of the department. Students are expected to attend special seminars sponsored by the department.
Doctor of Philosophy

Minimum Semester Hours Required 96 from the baccalaureate.

Course Work Required Courses: All students must take or show proficiency in GCLS 501, 502, 503, 504, 505, 510. In addition, students must take GCLS 515 and PCOL 501 and 502. Students in their second year and beyond must also register for PCOL 595 and 599 each semester.

Electives: At least 2 semester hours must be in 500-level didactic courses in the department.

Preliminary Examination Required.

Dissertation Required.

Other Requirements Students may be called upon to assist in aspects of the teaching and research activities of the department. Students are expected to attend special seminars sponsored by the department.

Interdepartmental Concentration in Neuroscience

Doctoral students may pursue the Interdepartmental Concentration in Neuroscience. Refer to Interdepartmental Concentration in Neuroscience in the Graduate College section for more information.

MD/PhD

Students with an MD degree earned in the United States or who are working toward one at UIC may use medical science courses to fulfill most of the 500-level course requirements. Such students must take GCLS 515 and 2 semester hours of an elective 500-level didactic course in the department. Students must also register for PCOL 595 and 599 each semester. Other courses may be required as determined by the adviser and the graduate committee based on the student’s area of interest.

Physiology and Biophysics

Mailing Address: Department of Physiology and Biophysics (MC 901)
835 South Wolcott Avenue
Chicago, IL 60612-7342

Campus Location: E202 MSB
Program Codes: 20FS1584MS (MS); 20FS1584PhD (PhD)

Telephone: (312) 996-7620
E-mail: phyb@uic.edu
Web Site: http://www.uic.edu/depts/mcpb/index2.html

Head of the Department: R. John Solaro
Director of Graduate Studies: Jesús García-Martínez

The Department of Physiology and Biophysics offers work leading to a doctoral degree, and participates in the MD/PhD joint degree program (see the MD/PhD section for more information). The Interdepartmental Concentration in Neuroscience is available. The department is oriented toward the study of mammalian physiology. Students are initially immersed in an integrated curriculum and later they complete specialized training in an area of physiology of their choice: Cardiovascular Physiology and Metabolism, Cytoskeleton and Vascular Biology, Gastrointestinal Physiology, Neurosciences, Reproductive and Endocrine Sciences, Signal Transduction and Gene Regulation, Smooth and Skeletal Muscle Physiology. All areas focus on the integrative aspects of physiology, studying gene expression to the whole organism.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Science and Doctor of Philosophy

Baccalaureate Field No restrictions. Prior academic work should include college mathematics through calculus, physics, biology, organic chemistry, and physical chemistry.

Other Requirements At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study.

Tests Required GRE General.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required.

Personal Statement Required. One page summarizing past academic and research experience (if any) and motivation for pursuing a PhD in Physiology.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

Minimum Semester Hours Required 32.

Course Work Required Courses: PHYB 551, 552, 555, and 598. Students must also register for PHYB 591 each fall and spring semester after the first year they are enrolled in the graduate program. All students must take or show proficiency in GCLS 501, 502, 503, 504, 505, and 510.

Comprehensive Examination Required.

Thesis, Project, or Course-Work-Only Options Thesis required. No other options are available.

Other Requirements All graduate students must participate in the teaching programs of the department.

Doctor of Philosophy

Minimum Semester Hours Required 96 from the baccalaureate.

Course Work Required Courses: PHYB 551, 552, 586, 585, 599, and 2 additional 500-level
courses. Students must also register for PHYB 591 each fall and spring semester after the first year that they are enrolled in the graduate program. All students must take or show proficiency in GCLS 501, 502, 503, 504, 505, and 510.

**Preliminary Examination Required.**

**Dissertation Required.**

**Other Requirements** All graduate students must participate in the teaching programs of the department. Candidates must present a mid-thesis seminar as a scheduled departmental seminar.

**Interdepartmental Concentration in Neuroscience**

Doctoral students may pursue the Interdepartmental Concentration in Neuroscience. Refer to **Interdepartmental Concentration in Neuroscience in the Graduate College section** for more information.

**SURGERY**

Mailing Address: Department of Surgery (MC 958)
840 South Wood Street
Chicago, IL 60612-7322

Campus Location: 518 CSB
Program Code: 20FS1721MS
Telephone: (312) 996-6765
E-mail: jespat@uic.edu
Web Site: http://www.uic.edu/com/surgery/
Head of the Department: Herand Abcarian, MD, FACS
Director of Graduate Studies: N. Joseph Espat, MD, MS FACS

The Department of Surgery offers work leading to the Master of Science in Surgery. The aim of the program is to introduce the surgeon-in-training to the methods of scientific research in preparation for a career as a research physician. While pursuing a specific research project in depth, the student is expected to maintain contact with clinical science as a participant in the activities of the Department of Surgery.

**ADMISSION REQUIREMENTS**

In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

**Master of Science**

**Prior Degrees** Applicants must have an MD or equivalent medical degree.

**Other Requirements** At least 3.75/4.00 for the final 60 semester (90 quarter) hours of undergraduate study.

**Tests Required** GRE General. Recent graduates may substitute the MCAT.

**Minimum TOEFL Score** 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

**Letters of Recommendation** Contact the director of graduate studies for information.

**Personal Statement** Contact the director of graduate studies for information.

**Other Requirements** Applicants must be enrolled in or have completed an approved residency program.

**DEGREE REQUIREMENTS**

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

**Master of Science**

**Minimum Semester Hours Required** 32.

**Course Work** At least 9 hours must be at the 500-level. Students must take at least three graduate-level courses other than SURG 597 or 598, including a course in statistical methods.

**Comprehensive Examination** None.

**Thesis, Project, or Course-Work-Only Options** Thesis or project required. No other options are available.
College of Nursing

NURSING SCIENCE

Mailing Address: College of Nursing (MC 802)
845 South Damen Avenue
Chicago, IL 60612-7350

Campus Location: 138 NURS

Program Codes: 20FS1500MS (Administration);
20FS1501MS (Maternal-Child);
20FS1502MS (Medical-Surgical);
20FS1503MS (Medical Health); 
20FS1504MS (Public Health);
20FS1499PhD (PhD)

Telephone: (312) 996-3566
E-mail: kdiana@uic.edu
Web Site: http://www.uic.edu/nursing/
Dean of the College: Joan Shaver
Director of Graduate Studies: Patricia Lewis and
Mark Foreman

The College of Nursing offers work leading to the
Master of Science and Doctor of Philosophy degrees
in Nursing. Concentrations are available in
Administrative Studies in Nursing; Maternal-Child
Nursing; Medical-Surgical Nursing; Mental Health
Nursing; and Public Health Nursing. Interdepartmental concentrations in Gender and
Women's Studies and in Neuroscience are available to
doctoral students; and the Interdepartmental
Graduate Concentration in Women's Health is
available to master's and doctoral students. In addi­
tion, the college participates with the Graduate
Professional Business Program in the MS in
Nursing/MBA joint degree program, with the
School of Public Health in the MS in Nursing/MPH
joint degree program, with the School of Biomedical
and Health Information Sciences in the MS in
Nursing/MS in Health Informatics, and offers a
Baccalaureate to Doctoral program. The College of
Nursing is fully accredited by the Commission on
Collegiate Nursing Education.

ADMISSION REQUIREMENTS

Transcripts of all undergraduate and any grad­
uate work must be submitted. In addition to the
Graduate College minimum requirements, applicants must meet the following program
requirements:

Master of Science

Baccalaureate Field Applicants must have a bac­
calaureate degree with an upper-division major
in nursing from an NLNAC or CCNE accredit­
ted program or a baccalaureate degree in
another field and have graduated from a nurs­
ing program preparing the student for registred
professional nursing. For the student with
a baccalaureate degree in a field other than
nursing, the courses NUSC 210, 242, and 385
must be completed. Additional course work may
be required in some specializations. Consult the
College of Nursing's Graduate Manual.

Grade Point Average At least 3.00/4.00 for the
final 60 semester (90 quarter) hours of under­
graduate study.

Tests Required GRE General. Applicants to the
MS/MBA joint degree program may substitute
the GMAT. The GRE is waived for applicants
with a 3.25/4.00 GPA in the last 60 hours of
their degree.

Minimum TOEFL Score 550 (paper-based); 213
(computer-based); 80, with subscores of
Reading 19, Listening 17, Speaking 20, and
Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required; the
letters should describe the applicant’s suitability
for further study in professional nursing.

Personal Statement Required. The statement
should address the applicant’s previous work
and academic experience.

Other Requirements Applicants must be licensed
to practice as a professional nurse in at least
one political jurisdiction. Applicants whose
baccalaureate degree is in a nonnursing field
have additional course requirements.

Master of Science Graduate Entry Program

Graduate Entry Program The Graduate Entry
Program is designed for individuals who hold a
baccalaureate degree in a field other than
nursing and wish to become an advanced prac­tice
nurse. The program begins every January
with a highly intensive 15-month program in
the foundations of nursing which prepares stu­
dents to take the National Council Licensure
Examination for Registered Nurses (NCLEX-
RN). After successful completion of the exam,
students complete a master’s degree.

Baccalaureate Field Baccalaureate degree, no
restrictions.

Grade Point Average At least 3.00/4.00 for the
final 60 semester (90 quarter) hours of under­
graduate study.

Tests Required GRE General. Applicants to the
MS/MBA may substitute the GMAT.

Minimum TOEFL Score 550 (paper-based); 213
(computer-based); 80, with subscores of
Reading 19, Listening 17, Speaking 20, and
Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required; the
letters should describe the applicant’s suitability
for study in professional nursing.

Personal Statement Required. The statement
should address the applicant’s professional
and academic goals.

Prior Academic Course Work Prior (within five
years of matriculation) academic work must
include English Composition (6 semester
hours), General Biology or Chemistry (4 sh)
Human Anatomy and Physiology (8 sh),
Humanities (6 sh in two different fields),
Introduction to Research Methods (3 sh), and
Social Sciences (6 sh in two different fields)

Other Requirements Applicants must be inter­
viewed by a GEP faculty member and a graduate
faculty member in the selected specialty area.
Doctor of Philosophy

Baccalaureate Field Applicant must have a baccalaureate degree with an upper-division major in nursing or a master’s degree in nursing from an NLNAC or CCNE accredited program. Applicants who have a baccalaureate degree from an accredited nursing program, but have a master’s degree in a field other than nursing are also eligible for consideration for admission. Students enrolled in graduate study in nursing at UIC may continue their graduate study in the doctoral program after being approved by the Admissions and Academic Standards Committee of the College of Nursing.

Grade Point Average At least 3.00/4.00 for the final 60 semester (90 quarter) hours of undergraduate study.

Tests Required GRE General.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required. The letters should describe the applicant’s suitability for further study in professional nursing.

Personal Statement Required. The statement should address the applicant’s overall career goals, previous work, and academic experience.

Other Requirements Applicants must be licensed to practice as a professional nurse in at least one political jurisdiction. Applicants must be interviewed by a graduate faculty member in the program area selected. Admission is conditional on the availability of a faculty expert in the student’s research area.

MS in Nursing/MBA

Prospective students for the joint degree program must apply and be admitted to both programs. The requirements for admission to the MS program are listed above. Additional requirements for the joint degree program are one course in computer programming (any higher-level language) and mathematics through the level of calculus (covering integration and differentiation).

MS in Nursing/MPH

Prospective students must apply and be admitted to both programs. The requirements for admission to the MS program are listed above. The joint program is designed for baccalaureate-prepared registered nurses seeking advanced nursing and public health backgrounds and public health nursing positions. Consult the School of Public Health’s Student Handbook for information on the admission requirements of the MPH program.

MS in Nursing/MS in Health Informatics

A student must meet the admissions criteria of both programs and is admitted separately to each through separate applications. The program of study may be completed on a full-time or part-time basis.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

Minimum Semester Hours Required Varies by concentration.

Maternal-Child Nursing: Nurse Midwifery—NUSC 530, 531, and 532; NUMC 507, 508, 510, 515, 517, 518, 519, 524, 525, and 526; 77 semester hours.

Maternal-Child Nursing: Pediatric Clinical Nurse Specialist—NUSC 500, 531, and 532; NUMC 507, 508, 510, 515, 517, 518, 519, 524, and 525; 77 semester hours.

Public Health Nursing: Advanced Community Health Nurse Practitioner—NUSC 515; OCHS 519, 521, 522, and 524; 69 semester hours.

Public Health Nursing: Occupational Health Nurse Practitioner—NUSC 515; OCHS 519, 521, 522, and 524; 69 semester hours.

Nursing: Administrative Studies in Nursing—NUSC 536; OCHS 519, 521, 522, and 524; 58 semester hours.

Course Work Required Core Courses: NUSC 525, 526, 527, 528, 529, and 530; 74 semester hours.

Concentration Courses:

Maternal-Child Nursing: Nurse Midwifery—NUSC 530, 531, and 532; NUMC 507, 508, 510, 515, 517, 518, 519, 524, 525, and 526; 77 semester hours.

Maternal-Child Nursing: Pediatric Clinical Nurse Specialist—NUSC 500, 531, and 532; NUMC 507, 508, 510, 515, 517, 518, 519, 524, and 525; 77 semester hours.

Maternal-Child Nursing: Pediatric Nurse Practitioner—NUSC 515; OCHS 519, 521, 522, and 524; 69 semester hours.

Maternal-Child Nursing: Perinatal Clinical Nurse Specialist—NUSC 500, 531, and 532; NUMC 507, 508, 510, 515, 517, 518, 519, 524, and 525; NUWH elective; 78 semester hours.

Maternal-Child Nursing: Women’s Health Nurse Practitioner—NUSC 531, 532, and 533; NUMS 500, 507, 508, 510, 517, 518, 519, 524, and 525; NUWH elective; 78 semester hours.

Medical-Surgical Nursing: Acute Care Clinical Nurse Specialist—NUSC 530, 531, and 532; NUMS 530, 532, 533, and 534; 59 semester hours.

Medical-Surgical Nursing: Acute Care Nurse Practitioner—NUSC 530, 531, and 532; NUMS 530, 532, 533, and 534; 59 semester hours.

Medical-Surgical Nursing: Adult/Geriatric Nurse Practitioner—NUSC 530, 531, and 532; NUMS 530, 532, 533, and 534; 59 semester hours.
Medical-Surgical Nursing: Adult Nurse Practitioner—NUSC 530, 531, 532, and 533. NUSM 530, 534, 540, 544, 548, and 560.

Medical-Surgical Nursing: Geriatric Clinical Nurse Specialist—NUSC 530, 531, 532, and 533; NUSM 540, 550, 552, 553, 555, and 557.

Medical-Surgical Nursing: Geriatric Nurse Practitioner—NUSC 530, 531, 532, and 533; NUSM 540, 550, 552, 554, 556, and 558.

Mental Health Nursing: Mental Health Clinical Nurse Specialist—NUSC 531, 532, and 533; NUSP 400, 515, 516, 517, 518, 521, and 522.

Mental Health Nursing: Mental Health Nurse Practitioner—NUSC 531, 532, and 533. NUSP 400, 515, 516, 517, 521, 522, 523; PSCH 467 or a comparable neuroscience course approved by their adviser.

Nursing: Administrative Studies in Nursing—NUAS 501, 502, 505, 512, 517, and 520; HPA 511; MGMT 541; electives.

Public Health Nursing: Advanced Community Health Nurse Specialist—NUSC 525 or BSTT 400; NUPH 505, 507, 509, 511, 512, 517, and 520; EOHS 400; EPID 400.

Public Health Nursing: Family Nurse Practitioner—NUSC 525 or BSTT 400; NUSC 531, 532 and 533; NUPH 500, 509, 511, 524, 525, and 528; EPID 400.

Public Health Nursing: Occupational Health Nursing Clinical Nurse Specialist—NUSC 525 or BSTT 400; NUPH 400, 505, 509 or 509, 511, 517, and 520. EPID 400; EOHS 421, 482, 551, and 558.

Public Health Nursing: Occupational Health Nurse Practitioner—NUSC 525 or BSTT 400; NUSC 531, 532 and 533; NUPH 500, 509, 511, 517, and 520; EPID 400; EOHS 421, 482, 551 and 558; EPID 400.

Public Health Nursing: School Nurse Practitioner—NUSC 525 or BSTT 400; NUSC 531, 532, and 533; NUPH 500, 509, 511, 519, 524, 525, and 528; EPID 400.

Public Health Nursing: School Nurse Specialist—NUSC 525 or BSTT 400; NUPH 502, 505, 509, 511, 512, 517, and 519; EPID 400; EOHS 400.

Comprehensive Examination None.

Thesis, Project, or Course-Work-Only Options Thesis or project required. No other options are available.

Thesis: Students must earn 5 hours in NUSC 598.

Project: Students must earn 3 hours in NUSC 597.

MS in Nursing/MPH

Minimum Semester Hours Required 53–57.

Course Work Required Core Courses: BSTT 400 or NUSC 525; NUSC 526, 527, 528, 529, and 597 or 598.

Concentration Core: NUPH 505, 507, 512, and 517; CHSC 400, 431, 432, and 480; EPID 400; EOHS 400; CHSC 401; IPHS 698; Choose one of the following: CHSC 527, CHSC 543, or HPA 430; IPHS 650.

Comprehensive Examination None.

Thesis, Project, or Course-Work-Only Options Thesis or project required. No other options are available.

Thesis: Students must earn 5 hours in NUSC 598.

Project: Students must earn 3 hours in NUSC 597.

Other Requirements Students in the joint program will have two advisers, one from the public health nursing faculty in the College of Nursing, and one from the community health sciences program in the School of Public Health. Students may withdraw from the joint program and transfer to one of the two degree programs.

MS in Nursing/MS in Health Informatics

Minimum Semester Hours Required 65.

Course Work Core and Support Courses: NUSC 525, 526, 527, 528, 529, and 597 or 598.

Concentration Core: NUSC 501, 502, 505, 512, 517, 520; BHIS 437, 503, 505, 510, 511, 525, 537, and 13–15 hours of BHIS electives. BHIS 515, 517, and 520 are recommended electives for the Informatics Nurse Certification Exam.

Doctor of Philosophy

Minimum Semester Hours Required 96 from the baccalaureate.

Course Work Required Courses: NUSC 505, 506, 511, 515, 517, 585, 590, and 6 hours of statistics or 9 hours of statistics if without a master’s in nursing.

Electives: At least 14 hours must be in 400- and 500-level didactic courses with a focus on advanced nursing science and 18 hours of additional course work are required if without a master’s in nursing.
Interdepartmental Concentration in Nursing and Women’s Studies

Doctoral students in this department may complement their courses by enrolling for a concentration in Gender and Women’s Studies after consulting with their graduate adviser. See Gender and Women’s Studies in the College of Liberal Arts and Sciences section for more information.

Interdepartmental Concentration in Neuroscience

Doctoral students may pursue the Interdepartmental Concentration in Neuroscience. Refer to Interdepartmental Concentration in Neuroscience in the Graduate College section for more information.

Interdepartmental Graduate Concentration in Women’s Health

Web Site: http://www.uic.edu/nursing/
Concentration Director: Beverly McElmurry
Students earning a graduate degree in the College of Nursing or the School of Public Health may complement their courses by enrolling for a concentration in Women’s Health after consulting with their graduate adviser.

</tr>
</tbody>
</table>

Students from the above programs pursuing this concentration must elect the concentration by submitting a letter to the director of the Interdepartmental Graduate Concentration in Women’s Health, and obtain approval of a course of study from a concentration adviser. Students should enroll in a minimum of 12 hours of course work, including one from NUSH 550, NUAS 550, and NUSC 550. Of the 12 hours, at least 6 hours must be taken outside of the students’ primary school or college in approved Women’s Health related courses. At least one course must be through the Gender and Women’s Studies Program, and at least 1 course must be in the health-related sciences, such as through the School of Public Health or the College of Nursing. Up to 3 semester hours may be taken in independent study or thesis research as approved by the student’s concentration adviser after development of and submission of a plan of work to the director of the concentration.

Admission Requirements

A student intending to participate in the Interdepartmental Graduate Concentration in Women’s Health must be admitted or enrolled at the University of Illinois in one of the designated degree programs in order to elect this concentration. Designated degree programs include the MS and PhD in Nursing, and the MS, MPH, PhD, and DrPH in Public Health. Students must formally elect the concentration by submitting a plan of work, which is developed with the assistance of a concentration adviser, to the director of the concentration and by informing their home department. The plan of work is a 500-word proposal to the concentration director indicating their interest in the concentration, what they hope to learn from this concentration, the relation of the concentration to their future career goals, and their anticipated course of study in the concentration.

Degree Requirements

1. Relation to primary program requirements: Students must meet all of the requirements of their primary department or school and of the graduate program. This concentration does not alter those requirements in any manner.

2. Adviser selection: Students must select a concentration adviser from a list of designated or affiliated faculty.

3. Total concentration hours, core and elective hours, listing of core course numbers: This is a minimum 4-course concentration totaling a minimum of 12 credit hours. It is composed of 3 core courses, with one course being an introduction to the field of Women’s Health, one Women’s Health issues course, and one theory/methods course. Students also take 1 elective course for a minimum of 3 semester hours. A maximum of 3 semester hours may be in independent study. Students may obtain a list of approved courses in each area from their concentration adviser.

4. Interdepartmental requirement: At least one course must be through the Gender and Women’s Studies Program, and at least 1 course must be in the health-related sciences, such as through the School of Public Health or the College of Nursing. A minimum of 6 semester hours must be outside of a student’s home area. Home area refers to the sponsoring academic unit. For cross-listed courses, the primary academic unit controlling the course is considered the home area.

5. Selection options for electives: Electives comprise at least 3 semester hours in this concentration and may be in independent study.

6. Independent study or thesis research: Students may choose independent study or thesis research as an elective in this concentration for a maximum of 3 credit hours. The student, in consultation with the concentration adviser, develops a plan of work for the independent study or thesis research. This plan of study specifies the goals for the semester, a reading list, and any expected product. A copy of this plan is submitted to the director of the concentration. For thesis research to count toward the concentration, it must also be approved by the student’s primary academic unit.

7. Students must obtain an A, B, or Satisfactory grade for all courses in this concentration.

College of Pharmacy

BIOPHARMACEUTICAL SCIENCES

Mailing Address: 335 College of Pharmacy Building (MC 865)  
833 South Wood Street  
Chicago, Illinois 60612-7231

Campus Location: 335 PHARM  
Program Codes: 20FS1003MS (MS);  
20FS1003PHD (PhD)  
Telephone: (312) 996-0888  
E-mail: bpsdgs@uic.edu  
Web Site: http://www.bps.uic.edu/

Director of Graduate Studies:  
Richard A. Gemeinhart, PhD

The Department of Biopharmaceutical Sciences offers work leading to degrees in Biopharmaceutical sciences at both the master's and doctoral levels. Course work and research are available in the areas of pharmaceutics, pharmacodynamics, toxicology, cellular and molecular biology, nanopharmacy, and pharmacogenomics. Biopharmaceutical Sciences also participates in a joint PharmD/PhD program (see Joint PharmD/PhD information at the end of the College of Pharmacy section of the catalog) and the Interdepartmental Concentration in Neuroscience.

ADMISSION REQUIREMENTS

Transcripts of all undergraduate and any graduate work must be submitted. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Science and Doctor of Philosophy

Prior Degrees  Baccalaureate degree in pharmacy, pharmaceutical sciences, chemistry, biochemistry, bioengineering, biological sciences, a related biomedical science area, or a doctor of pharmacy degree.

Grade Point Average  At least 3.00/4.00.

Tests Required  GRE General.

Minimum TOEFL Score  550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation  Three required from individuals who are familiar with the applicant’s training, ability, character, and potential for successful completion of the program.

Personal Statement  Required; one page. The statement should address the applicant’s educational and professional objectives.

Other  This program does not typically admit applicants for an MS degree.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

Minimum Semester Hours Required  32.

Course Work  Required Core Courses: BPS 501, 502; BSTT 400; GC 401, 470, 471; GCLS 504, 505; plus BPS 595 (seminar) every semester for 4 hours total.

Comprehensive Examination  None.

Thesis, Project, or Course-Work-Only Options  Thesis required. Students must earn at least 6 hours in BPS 598.

Doctor of Philosophy

Minimum Semester Hours Required  96 from the baccalaureate, 64 from the master’s.

Course Work  Required Core Courses: BPS 501, 502; BSTT 400; GC 401, 470, 471; GCLS 504, 505 (3 semester hours); plus BPS 595 (seminar) every semester for 8 hours total; and a minimum of 10 semester hours of program elective courses from a current list maintained by the department. At least 20 hours must be in 500-level didactic courses.

Examinations  Departmental Qualifying Examination: May be required for certain admitted students to be used as a basis for advisement on additional course work to insure an appropriate level of preparedness.

Preliminary (Candidacy) Examination: Required.

Dissertation  Required. Students must earn at least 40 hours in BPS 599.

Interdepartmental Concentration in Neuroscience

Doctoral students may pursue the Interdepartmental Concentration in Neuroscience. Refer to Interdepartmental Concentration in Neuroscience in the Graduate College section for more information.

FORENSIC SCIENCE

Mailing Address: Forensic Science Program (MC 866)  
833 South Wood Street  
Chicago, IL 60612-7231

Campus Location: 452 PHARM  
Program Code: 20FS1274MS  
Telephone: (312) 996-2250  
E-mail: reg@uic.edu  
Web Site: http://www.uic.edu/pharmacy/depts/forensicsci/

Head of the Program and Director of Graduate Studies: R. E. Gaensslen

The master’s program in Forensic Science is administered by the Department of Biopharmaceutical Sciences. The program encompasses a broad knowledge of the basic areas of forensic science laboratory disciplines (biology/biochemistry, chemistry and trace evidence analysis;
drug identification and toxicology; and pattern evidence) with emphasis on the integration of analytical and interpretative skills. The role of forensic laboratory sciences in justice system processes is an integrating theme. There is an opportunity for some specialization through the selection of electives and/or through the residency option.

ADMISSIONS REQUIREMENTS

In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Science

Baccalaureate Field BS in physical, biological, or pharmaceutical sciences (chemistry recommended). Minimum of one semester analytical chemistry and one semester physical chemistry. Instrumental analysis, biochemistry, and additional physical chemistry desirable.

Grade Point Average At least 3.00/4.00 overall. Applications are strengthened by 3.25/4.00 overall GPA and 3.00/4.00 GPA in core science and mathematics courses.

Tests Required GRE General Test; applications are strengthened by scores corresponding to 60th percentile or higher, and minimum TOEFL score of 600 (if applicable).

Minimum TOEFL Score 600 (paper-based); 250 (computer-based); 80, with sub-scores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL). Recommended score of 87, with sub-scores of Reading 21, Listening 21, Speaking 23, and Writing 22.

Letters of Recommendation Three required.

Personal Statement Required.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

Minimum Semester Hours Required 36.

Course Work Required Courses: BPS 580, 581, 582, 583, 584, and 588.

Electives: 9–12 semester hours that may be selected in the student’s area of interest; may include 2–4 hours of internship (BPS 592), or up to 12 hours of residency (BPS 590) for those interested and who are accepted by the host agencies.

Comprehensive Examination Required for students choosing to fulfill the research requirement with BPS 597.

Thesis, Project, or Course-Work-Only Options Thesis or project. No other options are available.

Thesis: Thesis students must earn at least 6 hours in BPS 598.

Project: Project students must earn 3 hours in BPS 597. Those electing the project option must also take a comprehensive exam.

MEDICINAL CHEMISTRY

Mailing Address: Department of Medicinal Chemistry and Pharmacognosy (MC 781)
833 South Wood Street
Chicago, IL 60612-7231

Campus Location: 539 South Wood Street
Telephone: (312) 996-7245
Fax: (312) 996-7107
E-mail: medchem@uic.edu, fitzloff@uic.edu
Web Site:
http://www.uic.edu/pharmacy/depts/pmch/
Head of the Department: Judy Bolton
Director of Graduate Studies: John F. Fitzloff

The Department of Medicinal Chemistry and Pharmacognosy offers work leading to degrees in Medicinal Chemistry at both the master’s and doctoral levels. Medicinal chemistry is focused on the discovery and development of biologically active agents with potential therapeutic application. The program offers concentrations in Analytical and Chemical Toxicology, Biomedical Chemistry, Computational Medicinal Chemistry, Structural Biology, and Synthetic Medicinal Chemistry. Medicinal chemistry also participates in a joint PharmD/PhD program; see the Joint PharmD/PhD information at the end of the College of Pharmacy section of the catalog. The department also offers a graduate program in Pharmacognosy; consult the Pharmacognosy information in the College of Pharmacy section of the catalog for more information on that program.

ADMISSION REQUIREMENTS

In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Science and Doctor of Philosophy

Baccalaureate Field Pharmacy, chemistry, or the biological sciences. Prior academic work should include a year each of biology or biochemistry and organic chemistry.

Grade Point Average At least 3.00/4.00 for the final 60 semester (90 quarter) hours of baccalaureate study.

Tests Required GRE General. The GRE Advanced Chemistry or Biology test is recommended.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with sub-scores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required.

Personal Statement Required.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:
Master of Science

Minimum Semester Hours Required 32. At least 16 semester hours must be completed in didactic courses.

Course Work Required Core Courses: GCLS 501; MDCH 561; 4 hours of MDCH 592; 2 hours of MDCH 595 (one hour literature seminar and one hour thesis seminar); plus a minimum of 6 additional hours of required concentration and elective courses. Students must select one of five concentrations: Analytical and Chemical Toxicology, Biomedicinal Chemistry, Computational Medicinal Chemistry, Structural Biology, or Synthetic Medicinal Chemistry.

Required Concentration Courses:

Analytical and Chemical Toxicology—MDCH 412, 562, 571.
Biomedicinal Chemistry—GCLS 502; MDCH 412.
Computational Medicinal Chemistry—MDCH 572.
Structural Biology—BCHE 513, MDCH 564.
Synthetic Medicinal Chemistry—MDCH 560, 562, 564, 571, 573.

Recommended Electives:

Analytical and Chemical Toxicology—Elective courses selected in consultation with the student’s adviser. Suggested electives include GCLS 502; MDCH 564, 572, 594; PCOL 505, 508.
Biomedicinal Chemistry—Elective courses selected in consultation with the student’s adviser. Suggested electives include BCMG 513, 561, 563; GCLS 503, 504, 505; MDCH 562, 594; MIM 552.
Computational Medicinal Chemistry—Elective courses selected in consultation with the student’s adviser. Suggested electives include BCMG 513; BIOE 407; BSTT 400; CHEM 542, 558; CS 559; ECE 560; GCLS 502; MDCH 564, 594.
Structural Biology—Elective courses selected in consultation with the student’s adviser. Suggested electives include CHEM 553, 554 and 558; GCLS 502; MDCH 412, 562, 571, 572, 594.
Synthetic Medicinal Chemistry—Elective courses selected in consultation with the student’s adviser. Suggested electives include CHEM 532, 533, 535, 545 and 553; MDCH 572, 594.

Thesis, Project, or Course-Work-Only Options Thesis and oral defense required. No other options are available. Students must complete at least 5 semester hours in MDCH 598.

Doctor of Philosophy

Minimum Semester Hours Required 96 from the baccalaureate.

Course Work Required Core Courses: GCLS 501; MDCH 561; 4 hours of MDCH 592; 2 hours of MDCH 595 (1-hour literature seminar and 1-hour thesis seminar); and a minimum of 11 additional hours of required concentration and elective courses. Students must select one of five concentrations: Analytical and Chemical Toxicology, Biomedicinal Chemistry, Computational Medicinal Chemistry, Structural Biology, or Synthetic Medicinal Chemistry.

Required Concentration Courses:

Analytical and Chemical Toxicology—MDCH 412, 562, 571.
Biomedicinal Chemistry—GCLS 502; MDCH 412.
Computational Medicinal Chemistry—MDCH 572.
Structural Biology—BCHE 513; MDCH 564.
Synthetic Medicinal Chemistry—MDCH 560, 562, 564, 571, 573.

Recommended Electives:

Analytical and Chemical Toxicology—Elective courses selected in consultation with the student’s adviser. Suggested electives include MDCH 564, 572, and 594; PCOL 505, 508.
Biomedicinal Chemistry—Elective courses selected in consultation with the student’s adviser. Suggested electives include BCMG 513, 561, 563; GCLS 503, 504, 505; MDCH 562, 594; MIM 552.
Computational Medicinal Chemistry—Elective courses selected in consultation with the student’s adviser. Suggested electives include BCMG 513; BSTT 400; CHEM 542, 558; ECE 559; GCLS 502; MDCH 564, 594.
Structural Biology—Elective courses selected in consultation with the student’s adviser. Suggested electives include CHEM 532, 533, 535, 553; MDCH 572.
Synthetic Medicinal Chemistry—Elective courses selected in consultation with the student’s adviser. Suggested electives include CHEM 532, 533, 535, 553; MDCH 572.

Examinations Departmental Qualifying and Preliminary Examination: Required. Passing this examination permits doctoral students to bypass the formal requirement of writing a master’s thesis. Good academic standing required for eligibility to take the examination. The exam is given following completion of the second semester of required coursework.

Dissertation Required; including oral defense.

Other Requirements All candidates must assist in teaching one or more of the courses offered by the College of Pharmacy or the department. Minimum of 70 semester hours of MDCH 599.
Pharmacognosy

Mailing Address: Pharmacognosy Program (MC 781) College of Pharmacy
833 South Wood Street
Chicago, IL 60612-7231

Campus Location: 539 PHARM

Program Codes: 20FS1563MS (MS); 20FS1563PHD (PhD)

Telephone: (312) 996-7253
E-mail: Pharmacognosy@uic.edu
Web Site: http://www.uic.edu/pharmacy/depts/pmcg/full_frame.html

Director of the Program: Norman R. Farnsworth
Director of Graduate Studies: Steven M. Swanson

The Department of Medicinal Chemistry and Pharmacognosy offers a program of study leading to degrees in Pharmacognosy at both the master’s and doctoral levels. Major research areas concern the isolation, structure elucidation, and bioassay of natural products, including plant and microbial constituents having biological activity, the use and conservation of plants employed in traditional medicine, the fundamental mechanisms of activity of potential drugs and their targets, structure and function of cellular enzymes, microbial genomics, and rational drug design. Pharmacognosy participates in a joint PharmD/PhD program; see the Joint PharmD/PhD section of the catalog for more information. The department also offers work leading to graduate degrees in Medicinal Chemistry; consult the appropriate section of the catalog for more information.

Admission Requirements

Applicants are considered on an individual basis. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Science and Doctor of Philosophy

Baccalaureate Field: Chemistry or the biological sciences. Prior academic work should include a year each of biology and/or biochemistry, and organic chemistry.

Grade Point Average: At least 3.00/4.00 for the final 60 semester (90 quarter) hours of undergraduate study.

Tests Required: GRE General.

Minimum TOEFL Score: 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation: Three required.

Personal Statement: Required.

Other Requirements: PhD applicants strongly preferred.

Degree Requirements

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Science

Minimum Semester Hours Required: 32.

Course Work: At least 16 hours must be in didactic courses.

Required Courses: PMPG 480, 510, and one hour of 595.

Comprehensive Examination: None.

Thesis, Project, or Course-Work-Only Options: Thesis required. No other options are available.

Other Requirements: Candidates must assist in one or more of the courses offered by the college or the department.

Doctor of Philosophy

Minimum Semester Hours Required: 96 from the baccalaureate.

Course Work: At least 26 semester hours must be in didactic courses.

Required Courses: PMPG 507 and two hours of PMPG 595. Students must select one of four concentrations: Natural Product Drug Discovery, Medical Ethnobotany, Biomedical and Molecular Toxicology, or Pharmaceutical Biotechnology.

Concentration-Specific Required Courses:

Natural Product Drug Discovery—PMPG 510, 511, 515, 516, 521, 590, and 592.

Biomedical and Molecular Toxicology—GCLS 501, 502, 504/505; PMPG 522, 523.

Electives:

Natural Products Drug Discovery—Minimum of 10 hours, selected in consultation with the student’s adviser. Suggested electives are: GCLS 501; MDCH 562, 573; PMPG 515, 517, 540, 565, 569.

Medical Ethnobotany—Minimum of 4 hours, selected in consultation with the student’s adviser. Suggested electives are: ANTH 415, 594; BIOS 539, 594; CHSC 450, 554; PMPG 534, 565, 569.

Biomedical and Molecular Toxicology—Minimum of 11 hours, selected in consultation with the student’s adviser. Suggested electives are: GCLS 502, 503, 515; MDCH 412, 561, 562, 571, and 594; NUSC 525; PMPG 561, 562.
Pharmaceutical Biotechnology—Minimum of 10 hours, selected in consultation with the student’s adviser. Suggested electives are BIOS 524, 525; GLS 503, 515; BCMG 513, 514; MDC 412, 562, 564.

**Examinations**

**Departmental Qualifying Examination:** Not required.

**Preliminary Examination:** Required; written and oral. Passing this examination permits doctoral students to bypass the formal requirement of writing a master’s thesis.

**Dissertation** Required; including oral defense.

**Other Requirements**

Candidates must assist in one or more of the courses offered by the college or the department.

---

### PHARMACY

**Mailing Address:** College of Pharmacy (MC 871)
833 South Wood Street
Chicago, Illinois 60612-7231

**Campus Location:** 214 PHARM

**Program Codes:** 20FS1568MS (MS); 20FS1568PHD (PhD)

**Telephone:** (312) 413-1337

**E-mail:** crawford@uic.edu

**Web Site:** http://www.uic.edu/pharmacy/depts/pmaddmission.htm

**Director of Graduate Studies:** Stephanie Crawford

The College of Pharmacy offers work leading to a graduate degree in Pharmacy at both the master’s (MS) and doctoral (PhD) levels. The general area of focus is Pharmacy administration, i.e., the social, behavioral, and economic pharmaceutical sciences. **Note:** These pharmacy graduate degrees are research degrees, not practice degrees. Students who wish to apply to the professional program in Pharmacy, see requirements for the UIC Doctor of Pharmacy (PharmD) program on the Web [http://www.uic.edu/pharmacy/](http://www.uic.edu/pharmacy/). Pharmacy (Administration) also participates in a joint PharmD/PhD program; see the Joint PharmD/PhD section of the catalog.

---

### ADMISSION REQUIREMENTS

Transcripts of all undergraduate and any graduate work must be submitted. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

#### Master of Science and Doctor of Philosophy

**Prior Degrees**

Baccalaureate or doctorate in pharmacy or a related field.

**Grade Point Average**

At least 3.00/4.00 in work for the first academic degree.

**Tests Required**

GRE General.

**Minimum TOEFL Score**

600 (paper-based); 250 (computer-based); 90, with subscores of Reading 21, Listening 21, Speaking 23, and Writing 22 (new Internet-based TOEFL). Minimum TOEFL scores are subject to change.

---

### DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

#### Master of Science

**Minimum Semester Hours Required**

42.

**Course Work**

Required Core Courses: EPSY 503; HPA 463; MGMT 541; PMAD 507, 510, 595; SOC 500.

**Comprehensive Examination**

None.

**Thesis, Project, or Course-Work-Only Options**

Thesis required. No other options are available.

**Thesis**

Students must earn 6 hours in PMAD 598.

---

### Doctor of Philosophy

**Minimum Semester Hours Required**

96 from the baccalaureate, 64 from the master’s.

**Course Work**

At least 20 hours must be in 500-level didactic courses.

Required Core Courses: HPA 463; PMAD 482, 500, 507, 510, 516, 525, 535, 571, 595, and one PMAD elective; PSCH 443, 543, 545; SOC 500.

**Examinations**

Departmental Qualifying Examination: Required for Pharmacy Administration students only.

**Preliminary Examination:** Required.

**Dissertation**

Required.

**Other Requirements**

Students must demonstrate satisfactory proficiency in written and verbal communications and in the use of computer technology, according to the specifications developed for their area.

---

### JOINT PHARM/D/PHD PROGRAM

The college invites highly qualified pharmacy students who are interested in both clinical aspects of pharmacy and the pharmaceutical sciences research to consider the joint PharmD/PhD program. The joint program permits a student to combine the PharmD with any of the PhD programs offered in the college: Biopharmaceutical Sciences, Medicinal Chemistry, Pharmacognosy, and Pharmacy (pharmacy administration). This makes it possible for students to earn both degrees more quickly than would be possible if each were done separately.

---

**Letters of Recommendation**

Three (master’s) or four (doctoral) required from individuals who are familiar with the applicant’s training, ability, character, and potential for successful completion of the program.

**Personal Statement**

Required; 1–2 pages. The statement should address the applicant’s educational and professional objectives.

**Other Requirements**

Applicants to the PhD program must have completed a relevant master’s degree prior to matriculation in the doctoral program.
Students already attending the UIC PharmD program may apply for the joint program following the requirements stated below. Students wishing to apply for the joint program at the same time they apply to Pharmacy School should; 1) follow the procedures for applying to the PharmD program; and 2) follow the procedures below for applying to the desired PhD program.

**APPLICATION PROCEDURE**

The following materials should be submitted to the director of graduate studies for the PhD program to which the student wishes to apply:

*Biopharmaceutical Sciences*: Dr. Richard A. Gemeinhart, Room 335 PHARM, bpsdgs@uic.edu.

*Medicinal Chemistry*: Dr. John Fitzloff, Room 539 PHARM, Fitzloff@uic.edu.

*Pharmacognosy*: Dr. Steven Swanson, Room 302 PHARM, swanson@uic.edu.

For the Pharmaceutical Biotechnology track in the PhD Pharmacognosy program: Dr. Alexander Mankin, Room 3052 MBRB, shura@uic.edu.

*Pharmacy (Administration)*: Dr. Stephanie Crawford, Room 258 PHARM, crawford@uic.edu.

**Doctor of Pharmacy/Doctor of Philosophy**

- **Transcripts** Official copies of all prior college work, including the applicant’s PharmD program.

- **Test Scores**: GRE General Test. The PhD program in Medicinal Chemistry recommends taking and reporting a score for the GRE Advanced Test in Chemistry or Biology.

- **Letters of Recommendation**: Three required from individuals who can comment knowledgeably on the applicant’s academic abilities and research potential.

- **Statement of Purpose**: One page in length, setting forth the basis for applicant’s interest in the joint degree program, amplifying on the applicant’s qualifications for admission to the particular PhD program, and explaining how completion of the PharmD and the PhD fits into overall educational and career goals.

- **Deadlines**: Contact PhD program for the applicable deadline.
School of Public Health

HEALTHCARE ADMINISTRATION

Mailing Address: MHA Program
Division of Health Policy and Administration
School of Public Health (MC 923)
1603 West Taylor Street
Chicago, IL 60612-4394

Campus Location: 778A SPHPI
Program Code: 20FS4060MHA
Telephone: (312) 996-7816
E-mail: mha@uic.edu
Web Site: http://www.uic.edu/sph/mha

Directors of Graduate Studies: Sylvia Furner
The School of Public Health (SPH), with support from the College of Business Administration (CBA), offers a two-year graduate program leading to the Master of Healthcare Administration (MHA). The Master of Healthcare Administration is a program designed for students who have chosen a management career in health services organizations such as hospitals, community-based ambulatory care centers, managed care plans, the health supply chain, and long-term care providers. These students will receive an educational program that combines competence in management with an in-depth knowledge of the healthcare sector and of the management issues it faces. Required core courses emphasize accounting, economics, finance, human resources, informatics, marketing, and management. Courses in CBA are an integral component of the MHA program. The program coordinates practical experience through the MHA Preceptorship with medical centers, hospitals, long-term care organizations, and ambulatory care centers.

ADMISSION REQUIREMENTS

In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Healthcare Administration

Baccalaureate Degree Required.
Grade Point Average 3.00/4.00 for the final 60 semester (90 quarter) hours of undergraduate study and for all cumulative graduate work previously taken.
Tests Required All MHA applicants must submit GRE verbal and quantitative or GMAT scores taken within five years. GRE or GMAT scores should typically be 70th percentile or better. Applicants can use a demonstrated record of success in management in a health services organization to compensate for somewhat lower scores on the GRE or GMAT. Applicants with advanced professional degrees may have this requirement waived.

Minimum TOEFL Score All international applicants must submit TOEFL scores taken within 5 years. 585–600 (paper-based), plus Test of Written English scores in the range of 5–6; 230–240 (computer-based), no Test of Written English scores required; 80, with sub­cores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required, preferably from instructors or employers using Graduate College forms.

Personal Statement Required; addressing the applicant’s goals for graduate study and career development.

Deadlines. Applications from domestic students must be complete by May 15 for the academic year starting the following fall semester. Applications from international applicants must be complete by February 1 for consideration for the academic year starting the following fall semester. International applicants are strongly encouraged to complete their applications by January 1 for the fullest consideration.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Healthcare Administration

Minimum Semester Hours Required 60.
Course Work Required Courses: ACTG 500, BSTT 400, EPID 400, FIN 500, HPA 403, HPA 410, HPA 417, HPA 434, HPA 441, HPA 451, HPA 460, HPA 463, HPA 465, HPA 495, HPA 496, HPA 525, HPA 551, MGMT 553.
Comprehensive Examination None.

Thesis, Project, or Course-Work-Only Options A capstone project (HPS 496) is required. No other options are available.

Other Requirements Each student must complete a preceptorship (HPA 495). Credit will be granted for completion of the tasks in the published preceptor syllabus, and submission of an acceptable portfolio that is the primary academic product of the MHA Preceptorship.

The School of Public Health offers work leading to the Master of Science and Doctor of Philosophy degrees in Public Health, participates with the College of Nursing in offering the MS in Nursing/MPH joint degree program, and also participates with the College of Medicine in offering the MD/PhD joint degree training program. Master’s and doctoral concentrations are offered in the following areas: Biostatistics; Community Health Sciences; Environmental and Occupational Health Sciences; Epidemiology; and Health Policy and Administration. Concentrations in Clinical Research and Industrial Hygiene are also available to master’s students. Master’s and doctoral students within the School of Public Health may also elect interdepartmental concentrations in Gender and Women’s Studies, Survey Research Methodology, or Women’s Health.

The School of Public Health also offers programs leading to the Master of Public Health and Doctor of Public Health, and participates with other academic units in offering the MBA/MPH, MD/MPH, DDS/MPH, and DVM/MPH joint degree programs. These professional degree programs are not part of the Graduate College; consult the School of Public Health Catalog for more information.

REQUIREMENTS

In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

**Master of Science and Doctor of Philosophy**

**Baccalaureate Field** A major in the biological, physical, or social sciences is preferred.

**Prior Degrees** For the Master of Science Clinical Research concentration, preferred candidates will have terminal clinical degrees, such as the MD, DDS, PharmD, or PhD in Clinical Psychology, since the intent of this concentration is to provide trained clinicians with clinical research skills.

**Grade Point Average** At least 3.00/4.00.

**Tests Required** GRE General. The combined verbal and quantitative scores must be at least 1000. This requirement can be waived for applicants to the MS Clinical Research concentration that have graduate or professional degrees at the doctoral level.

**Minimum TOEFL Score** 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

**Letters of Recommendation** Three required.

**Personal Statement** Required; the statement should address the applicant’s intended research, career goals, and reason for pursuing the MS or PhD degree in the chosen area.

**Other Requirements** Generally, applicants to the PhD program must have a master’s degree. Applicants may submit their master’s thesis as evidence of their ability to plan and complete significant health-related research.

**MPH/MS in Nursing**

To be admitted to the joint program, applicants must meet the admissions criteria of both programs and be admitted to each through separate applications. Consult the College of Nursing section for information on the admission requirements of the MS in Nursing program. Consult the School of Public Health Catalog for information on the admission requirements of the MPH program. Joint degree students must take their MPH training in Community Health Sciences (CHS).

**DEGREE REQUIREMENTS**

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

**Master of Science**

**Minimum Semester Hours Required** 48; 50–51 for the Epidemiology concentration; 56 for the Industrial Hygiene concentration.

**Course Work** At least 32 semester hours must be in courses other than IPHS 598, and at least 9 semester hours must be at the 500-level (requirements for the Biostatistics concentration are described below). No more than 4 hours of IPHS 596 may be applied to the degree.

**Required Courses** EPID 403 and BSTT 400. Remaining courses and their distribution...
depend on the student’s area of concentration. MS students select from the following areas of concentration: Biostatistics, Clinical Research, Community Health Sciences, Environmental and Occupational Health Sciences, Epidemiology, Health Policy and Administration, and Industrial Hygiene.

**Biostatistics Concentration Requirements:** EPID 403; BSTT 430 or 440, 502, 503, 504, 511, 512, 513, 514, 522; STAT 401, 411; and a minimum of 8 semester hours of electives with at least one course selected from the SPH core courses not given in the Epidemiology and Biostatistics Division: CHSC 400, EOHS 400, HPA 400, or CHSC 401 (formerly HPA 401).

**Clinical Research Concentration Requirements:** MS students concentrating in Clinical Research must complete a minimum of 31 semester hours of required course work, including the MS required courses; BSTT 401; CHSC 401 and 447; EPID 406; HPA 460 and 590; MHPE 512, 531, and 535; PMAD 571; and at least 1 hour of elective course work.

**Community Health Sciences Concentration Requirements:** MS students concentrating in Community Health Sciences must complete all of the SPH requirements for the MS degree. In addition, students must take CHSC 400 and select one of the following: HPA 400, EOHS 400, or CHSC 401.

**Environmental and Occupational Health Sciences Concentration Requirements:** MS students concentrating in Environmental and Occupational Health Sciences must complete all of the SPH requirements for the MS degree in addition to BSTT 401. Students must also complete the division core of 12 semester hours in EOHS courses, choosing at least one course in each of the following three areas: Exposure Assessment and Measurement, Health Assessment, and Intervention Strategies. Students should see their adviser for a list of courses in each area.

**Epidemiology Concentration Requirements:** MS students concentrating in Epidemiology must complete all of the SPH requirements for the MS degree. In addition, students must take: EPID 404, 406, 591, 595; BSTT 401; and one course from BSTT 402, 430, or 440.

**Health Policy and Administration Concentration Requirements:** MS students concentrating in Health Policy and Administration must complete all of the SPH requirements for the MS degree. In addition, 26 hours of course work relevant to the disciplinary area of Health Policy and Administration is taken in consultation with the faculty adviser.

**Industrial Hygiene Concentration Requirements:** MS students concentrating in the ASAC-ABET-Accredited Program in Industrial Hygiene within the Environmental and Occupational Health Sciences Division must complete all of the SPH requirements for the MS degree. In addition, students must take the following courses for a total of 56 semester hours for the MS degree. Students complete the division core of 12 semester hours in EOHS courses, choosing at least one course in each of the following areas: Exposure Assessment and Measurement, Health Assessment, and Intervention Strategies. Additional requirements (if not selected to meet the division core requirements) include the following: EOHS 405, 421, 424, 428, 431, 438, 482, 523, 529, 570, 584; either EOHS 455 and 554 or EOHS 551.

**Comprehensive Examination** Required only for Biostatistics students.

**Thesis, Project, or Course-Work-Only Options** Thesis or course work only. No other options available.

**Thesis:** Thesis required for all areas except Biostatistics. Thesis students must earn at least 16 hours in IPHS 598; students in the Epidemiology concentration must earn at least 8 hours in IPHS 598.

**Course Work Only:** Only for Biostatistics students. Comprehensive examination required.

---

### MPH/MS in Nursing

**Minimum Semester Hours Required** 53–57.

**Course Work Required Core Courses:** BSTT 400 or NUSC 525; NUSC 526, 527, 528, 529, and 597 or 598.

**Concentration Core:** NUPH 505, 507, 512, and 517; CHSC 400, 431, 432, and 480; EPID 400; EOHS 400; CHSC 401; IPHS 698; Choose one of the following: CHSC 527, CHSC 543, or HPA 430; IPHS 650.

**Comprehensive Examination** None.

**Thesis, Project, or Course-Work-Only Options** Thesis or project required. No other options available.

**Thesis:** Students must earn 5 hours in NUSC 598.

**Project:** Students must earn 3 hours in NUSC 597.

**Other Requirements** Students in the joint program will have two advisers, one from the public health nursing faculty in the College of Nursing, and one from the Community Health Sciences program in the School of Public Health. Students may withdraw from the joint program and transfer to one of the two degree programs.

---

### Doctor of Philosophy

**Minimum Semester Hours Required** 96 from the baccalaureate.

**Course Work** At least 9 hours must be in 500-level didactic courses in the student’s major area. If a collateral area is required by the major, at least 6 hours must be in the collateral area at the 500-level.

**Required Courses:** EPID 403, BSTT 400 and 401. Remaining courses and their distribution depend on the student’s area of concentration. PhD students select from the following areas of concentration: Biostatistics, Community

---
Health Sciences, Environmental and Occupational Health Sciences, Epidemiology, and Health Policy and Administration.

**Biostatistics Concentration Requirements:**
EPID 403; BSTT 531 and 533; at least 2 semesters of BSTT 595; BSTT 594 including the following topics (generalized linear models, Bayesian methods, missing data, computational statistics, and PhD consulting); 19 semester hours of electives; and 3 hours of electives that may include courses in a collateral area.

**Community Health Sciences Concentration Requirements:** PhD students in Community Health Sciences must complete all of the SPH requirements for the PhD degree. In addition, students must take CHSC 400 and CHSC 551 and select HPA 400, EOHS 400, or CHSC 401. PhD students must select a major area of concentration in which at least 9 semester hours are completed at the 500-level. Adviser approval is necessary for elective course selection. In addition, PhD students must select a collateral area in which at least 6 semester hours are completed at the 500-level. The student will be tested in the collateral area as part of the preliminary examination. PhD students with a concentration in Maternal and Child Health Epidemiology have additional requirements.

**Environmental and Occupational Health Sciences Concentration Requirements:** PhD students concentrating in Environmental and Occupational Health Sciences must complete all of the SPH requirements for the PhD degree. In addition, students must complete the division core, choosing at least one course in each of the following three areas: Exposure Assessment and Measurement, Health Assessment, and Intervention Strategies. Students should see their adviser for a list of courses in each area.

**Epidemiology Concentration Requirements:**
PhD students concentrating in Epidemiology must complete all of the SPH requirements for the PhD degree. In addition, students must take: EPID 404, 406, 410, 411, 501, 591, 595; BSTT 430 or 440.

**Health Policy and Administration Concentration Requirements:**
PhD students in Health Policy and Administration must complete all of the SPH requirements for the PhD degree. No additional course requirements are specified. In addition, a minimum of 22 hours of course work relevant to the disciplinary area of Health Policy and Administration is taken in consultation with the faculty adviser.

**Dissertation Required.** Students must register in IPHS 599 for at least 32 semester hours.

**Other Requirements** Students must obtain supervised experience in classroom teaching in at least one course for at least part of a semester.

**Interdepartmental Concentration in Gender and Women’s Studies**
Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Gender and

**Women’s Studies after consulting with their graduate adviser.** See Gender and Women’s Studies in the College of Liberal Arts and Sciences section for more information.

**Interdepartmental Graduate Concentration in Survey Research Methodology**
Students earning a graduate degree in Public Health-Community Health Sciences may complement their courses by enrolling for a concentration in Survey Research Methodology. See Interdepartmental Graduate Concentration in Survey Research Methodology in the Graduate College section for more information.

**Interdepartmental Graduate Concentration in Women’s Health**
Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Women’s Health after consulting with their adviser. See Interdepartmental Graduate Concentration in Women’s Health in the College of Nursing section for more information.

**MD/PhD Training Program**
The UIC School of Public Health has particularly strong programs in epidemiology, biostatistics, prevention research, community health, health systems management, occupational and environmental safety and health, and quantitative methods. Application to the PhD program is normally made at the time of application to the College of Medicine; however, applicants will also be considered during their first two years of medical training. Students must apply to the MD/PhD Training Program and to the College of Medicine and indicate in their application that they are interested in one of the divisions of the UIC School of Public Health. Criteria for admission to the program include academic excellence, prior research experience, potential for independent and creative research, and commitment to a career in academic medicine. Students receive a stipend throughout their years of study. For more information, contact Sylvia Furner, PhD, Senior Associate Dean, SPS, (312) 996-5013, sfurner@uic.edu, or the MD/PhD Training Program: Larry Tobacman, MD, Director, (312) 413-1010, lst@uic.edu, or Roberta Bernstein, Coordinator, (312) 996-7473, roberta@uic.edu.
Jane Addams College of Social Work

SOCIAL WORK

Mailing Address: Jane Addams College of Social Work (MC 309)

Dean of the Jane Addams College of Social Work:
Creasie Finney Hairston

Director of Graduate Studies: Christopher G. Mitchell

The Jane Addams College of Social Work offers a program leading to the Master of Social Work degree; this professional degree program is not part of the Graduate College.

The Interdepartmental Concentration in Gender and Women's Studies is available to students not part of the Graduate College.

The Interdepartmental Concentration in Gender and Women's Studies is available to students not part of the Graduate College.

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Doctor of Philosophy

Minimum Semester Hours Required 96 from the baccalaureate.

Required Courses: SOCW 577, 590, 591, 592, 593, and 594.

Electives: At least 15 hours must be in courses outside of the Jane Addams College of Social Work. Six hours of the outside credit must be in an advanced statistics course supportive of the dissertation research. At least 9 credits of outside course work should constitute a single substantive emphasis. At least 9 additional course work credits are required (either at Jane Addams College or outside the college), at least 3 of which must be in advanced research methodology supporting the dissertation.

Examinations Qualifying Examination: Required.
Preliminary Examination: Required.
Dissertation Required.

Interdepartmental Concentration in Gender and Women's Studies

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Gender and Women's Studies after consulting with their graduate adviser. See Gender and Women's Studies in the College of Liberal Arts and Sciences section for more information.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. Transcripts from all colleges attended must be submitted. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Doctor of Philosophy

Prior Degrees Master's degree required. Most applicants have a Master of Social Work degree; applicants with advanced training in other human service professions or in related social sciences are also eligible for consideration. Applicants must have satisfactorily passed a course in college-level statistics.

Grade Point Average At least 3.00/4.00 in the final 60 semester (90 quarter) hours of undergraduate study and for all work beyond the baccalaureate.

Tests Required GRE.

Minimum TOEFL Score 580 (paper-based); 237 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Four letters of recommendation required, ordinarily including former instructors and work supervisors. Contact the Jane Addams College of Social Work for more information.

Personal Statement Required. Applicants must submit a statement of their interest in social work, their long range career goals and scholarly interests, and how those fit with the mission of the college.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Doctor of Philosophy

Minimum Semester Hours Required 96 from the baccalaureate.

Required Courses: SOCW 577, 590, 591, 592, 593, and 594.

Electives: At least 15 hours must be in courses outside of the Jane Addams College of Social Work. Six hours of the outside credit must be in an advanced statistics course supportive of the dissertation research. At least 9 credits of outside course work should constitute a single substantive emphasis. At least 9 additional course work credits are required (either at Jane Addams College or outside the college), at least 3 of which must be in advanced research methodology supporting the dissertation.

Examinations Qualifying Examination: Required.
Preliminary Examination: Required.
Dissertation Required.

Interdepartmental Concentration in Gender and Women's Studies

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Gender and Women's Studies after consulting with their graduate adviser. See Gender and Women's Studies in the College of Liberal Arts and Sciences section for more information.
College of Urban Planning and Public Affairs

PUBLIC ADMINISTRATION

Mailing Address: Public Administration Program
412 South Peoria Street
Chicago, IL 60607-7064

Campus Location: 130 CUPPAH
Program Codes: 20FS0339MPA (MPA);
20FS0339PHD (PhD)

Telephone: (312) 996-3109
E-mail: sean@uic.edu
Web Site: http://www.uic.edu/cuppa/pa/
Head of the Department: Michael Pagano
Director of Graduate Studies: Eric Welch

The graduate program in Public Administration is part of the College of Urban Planning and Public Affairs. The unit offers course work leading to the Master of Public Administration (MPA) and the Doctor of Philosophy in Public Administration.

The MPA is a professional program fully accredited by the National Association of Schools of Public Affairs and Administration. Its broad goal is to train both preservice and working professionals for productive careers in the public service.

The doctoral program is designed to produce graduates with demonstrated analytic abilities, and the creativity and potential for making significant, original contributions to the profession, whether as scholars, practitioners, or both. The program builds on a core of ideas and issues, with strong emphasis on theory construction and empirical research in the areas of Public Management; Financial Management; Science, Technology, and Information Policy; and Survey Methods.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Public Administration

Baccalaureate Field No restrictions.

Grade Point Average At least 3.00/4.00 for the final 60 semester (90 quarter) hours of undergraduate study.

Tests Required GRE or GMAT scores are required from applicants who are requesting program-administered financial assistance. GRE or GMAT scores are recommended but not required from applicants who are not requesting program-administered financial assistance.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required from instructors familiar with the applicant’s academic training or supervisors familiar with the applicant’s professional experiences.

Personal Statement Required. Applicants must submit a brief statement of their professional goals and academic interests.

Additional Materials Applicants must submit a resume and a 5–10 page writing sample.

Doctor of Philosophy

Prior Degrees Master’s degree required. Applicants must present evidence of having completed a graduate-level statistics course. Students with a deficiency in this area will be required to take additional course work as prescribed by the program director. Such course work will not apply to the degree requirements.

Grade Point Average At least 3.00/4.00 in all undergraduate course work and 3.50 in all postbaccalaureate course work.

Tests Required GRE General. All applicants should have a combined score of at least 1100 on the verbal and quantitative portions of the GRE. If an applicant fails to present a minimum GRE score of 1100 and a GPA of 3.50, the applicant may still be considered by the PhD Committee. The committee will review all evidence of high promise including, but not limited to, trend of graduate grade, type of graduate program, and mature work experience.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required from persons familiar with the applicant’s academic achievements or professional experience.

Personal Statement Required. Applicants must submit a brief statement of their professional goals and academic interests.

Nondegree Applicants Nondegree applicants must submit an official transcript from their baccalaureate institution, resume, writing sample, and a letter stating which courses they would like to take and why they feel non-degree admission would be beneficial.

DEGREE REQUIREMENTS

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

Master of Public Administration

Minimum Semester Hours Required 52.

Course Work Required Core Courses: PA 400, 407, 410, 415, 502, 503, 504, 506, and 590. In addition to the core courses, students must
select one of four areas of concentration: Public Management; Financial Management; Management of Information Technology; or Survey Methods. At least 12 semester hours must be taken in the area of concentration. One additional course of the student’s choosing is to be selected in consultation with the student’s advisor. PA 490—Field Experience in Public Administration may be used to substitute for this additional course.

The courses included in each area of concentration are as follows:

**Public Management—** PA 521, 522, 523, 524, 526, 529, 532, 533, and 534.

**Financial Management—** PA 521, 523, 550, 551, 552, and 553; and UPP 533.

**Management of Information Technology—** PA 460, 461, 463, and 567.

**Survey Methods—** BSTT 440; CHSC 447 (required), 577; PA 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, and 588.

**Comprehensive Examination** None.

**Thesis, Project, or Course-Work-Only Options** Course work only. No other options are available.

---

**Doctor of Philosophy**

**Minimum Semester Hours Required** 96 from the baccalaureate. Students holding a master’s degree from UIC or an equivalent program will ordinarily receive a maximum of 32 semester hours toward the degree requirement.

**Course Work** A cumulative grade point average of at least 3.00/4.00 in all graduate courses taken at UIC is required for graduation. Credit is not given for any required course in which a grade of less than B is earned.

**Required Core Theory Courses:** PA 510, 511, 515.

**Required Core Methods Courses:** PA 540, 541; and either PA 542, PA 544, or CHSC 447.

**Required Applied Research Seminars:** PA 545, 546

Students must select two of four areas of concentration: Public Management; Financial Management; Science, Technology, and Information Policy; or Survey Methods. At least 2 courses must be taken in each area of concentration. A total of 14 hours are required in the Survey Methods area of concentration, including PA 578 and one of the following: CHSC 447, CHSC 577, BSTT 440, PA 448.

The courses included in each concentration are as follows:

**Public Management—** PA 521, 522, 523, 524, 526, 527 (required), 528, 529, 532, 533, 534.

**Financial Management—** PA 521, 523, 550, 551, 552, 553, 554 (required); UPP 533.

**Science, Technology, and Information Policy—** PA 460, 461, 463, 464 (required), 466 (required); PS 567.

**Survey Methods—** BSTT 440; CHSC 447, 577; PA 578 (required), 579, 580, 581, 582, 583, 584, 585, 586, 587, 588.

**Preliminary Examination** Required. After completion of course work students must pass a preliminary examination designed to test their scholarly competence and knowledge. The doctoral preliminary examination is designed to assess the degree of mastery which degree candidates have achieved over a body of knowledge, to measure their ability to integrate the knowledge, and to apply it creatively in the analysis of problems to which it is germane. The preliminary examination will consist of three parts: core PA theory and each area of concentration.

**Dissertation** Required. The dissertation will make a contribution to knowledge in public administration and will be publicly defended before the scholarly community and a committee appointed by the dean of the Graduate College on the recommendation of the program director. At least 16 and no more than 28 semester hours may be awarded for dissertation research.

It is expected that no later than the end of the semester following the completion of the preliminary examination the student will submit a written statement of the dissertation plans to his/her major adviser. Upon the recommendation of the program director and approval of the dean of the Graduate College, a five-person dissertation committee will be appointed. The committee will include at least one member from outside the Public Administration program.

The dissertation prospectus will contain an analysis of the relevant literature, the theoretical issues to be pursued, the data to be used and the methods of analysis, and a statement of the anticipated significance of the research project. The prospectus will be defended before the committee. Until the prospectus is approved, the student will not be authorized to proceed with dissertation research. The final version of the dissertation will incorporate any changes recommended by the committee.

**Interdepartmental Graduate Concentration in Survey Research Methodology**

Students earning a graduate degree in this department may complement their courses by enrolling for a concentration in Survey Research Methodology. See Interdepartmental Graduate Concentration in Survey Research Methodology in the Graduate College section for more information.
URBAN PLANNING AND POLICY

Mailing Address: Urban Planning and Policy Program (MC 348)
412 South Peoria Street
Chicago, IL 60607-7137

Campus Location: 215 CUPPAH

Program Codes: 20FS1786MUPP (MUPP);
20FS1785PHD (PhD)

Telephone: (312) 996-5240
E-mail: upp@uic.edu
Web Site: http://www.uic.edu/cuppa/upp/

Director, Urban Planning and Policy: Curt Winkle
Director of Graduate Studies: Doug Gills

The Urban Planning and Policy Program offers programs of professional study leading to the Master of Urban Planning and Policy (MUPP) degree and to the Doctor of Philosophy (PhD) in Urban Planning and Policy. The MUPP program is accredited by the Planning Accreditation Board of the American Institute of Certified Planners and the Association of Collegiate Schools of Planning. Students in the MUPP program generally choose one of five substantive concentrations: Community Development, Economic Development, Globalization and International Planning, Physical Planning, or Urban Transportation. Students with special interests or career goals may, with faculty approval, pursue a program area of their own design, such as environmental planning.

ADMISSION REQUIREMENTS

Applicants are considered on an individual basis. In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

Master of Urban Planning and Policy

Baccalaureate Field No restrictions.

Grade Point Average At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study.

Tests Required None required for admission. Applicants for research assistantships and fellowships must submit GRE General scores. Applicants with undergraduate degrees from universities outside the U.S. are strongly urged to submit GRE General scores.

Minimum TOEFL Score 550 (paper-based); 213 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required.

Personal Statement Required. The statement must address the applicant’s educational and career goals, research interests, and previous pertinent work, volunteer, and/or academic experience.

Other Requirements Applicants must submit a recent paper, essay, or project of which they are the sole author or designer. This material may be of an academic, professional, or personal nature, and must be at least 1000 words in length. Applicants for research assistantship positions are encouraged to submit a resume.

DEADLINES The application deadline for this program is earlier than the Graduate College deadline; contact the program for information on current deadlines.

DOCTOR OF PHILOSOPHY

Prior Degrees Applicants must normally have a master’s degree in Urban Planning or related program.

Grade Point Average At least 3.00/4.00 for the final 60 semester hours (90 quarter hours) of undergraduate study.

Tests Required GRE General. Applicants may substitute the GMAT or LSAT.

Minimum TOEFL Score 600 (paper-based); 250 (computer-based); 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (new Internet-based TOEFL).

Letters of Recommendation Three required.

Personal Statement Required. The statement must address the applicant’s educational and career goals, research interests, and previous pertinent work, volunteer, and/or academic experience.

Other Requirements Applicants must submit a recent paper, essay, or project of which they are the sole author or designer. This material may be of an academic, professional, or personal nature, and must be at least 1000 words in length. Applicants for research assistantship positions are encouraged to submit a resume.

DEGREE REQUIREMENTS

Master of Urban Planning and Policy

Minimum Semester Hours Required 60.

Course Work At least 24 hours must be at the 500-level, and at least 16 hours must be in the student’s major area, including 12 at the 500-level.

Required Courses: UPP 500, 501, 502, 503, 504.

Concentration Courses: Students must complete at least one three-course concentration in a substantive field of planning. Students may select from the following approved concentrations or develop their own with faculty approval:

Community Development—UPP 540, UPP 541, and another 540 series or faculty-approved course.

Economic Development—UPP 530, UPP 531, and another 530 series or faculty-approved course.

Globalization and International Planning—UPP 520, UPP 521, and another 520 series or faculty-approved course.

Physical Planning—UPP 550, UPP 551, and UPP 552.
Urban Transportation—UPP 560, UPP 561, and UPP 562.

Methods Courses Students must take at least two methods courses approved by their adviser.

Comprehensive Examination None.

Thesis, Project, or Course-Work-Only Options Thesis or project. No other options available.

Thesis: No more than 16 hours of UPP 598 can be applied to the degree.

Project: No more than 4 hours of UPP 597 can be applied to the degree.

Other Requirements Continuous Registration: Students who have completed all degree requirements except the thesis/project must register for zero semester hours to maintain continuity of registration.

Internship: Students must complete an approved one-term internship and register for UPP 591—Professional Practice Seminar.

Doctor of Philosophy

Minimum Semester Hours Required 96 from the baccalaureate, up to 72 from the master's.

Course Work Required Courses: UPP 503 (or alternate), UPP 580, UPP 583, UPP 588, and either UPP 589 or PA 544. Must demonstrate competency in urban theory, policy evaluation, statistics, and economic analysis through previous master's degree or course work.

Plan of Study: Each student must have a written plan of study approved by an advisory committee.

Concentration Courses: At least 28 hours must be taken in the area of concentration, selected in consultation with a faculty committee. At least 8 hours in advanced research design and methods are required in the area of concentration. Concentrations include Physical Planning, Urban Transportation, Community Development, Economic Development, Globalization and International Planning, or another faculty-approved concentration.

Preliminary Examination Required; written. An oral examination may also be required at the discretion of the committee.

Dissertation Required.

Other Requirements Career Training: Students must complete an internship in a public or private agency; a collaborative faculty/student research project; or classroom teaching under faculty supervision. No more than 12 hours of credit for career training can be applied to the degree.
Rubrics
The following is a list of rubrics used for graduate courses. Please note that not all course rubrics currently list courses in the catalog.

Accounting ...........................................(ACTG)
Administrative Studies in Nursing ..........(NUAS)
African-American Studies ......................(AAST)
Anatomy and Cell Biology .......................(ANAT)
Ancient Greek ....................................(GKA)
Anthropology .....................................(ANTH)
Architecture ......................................(ARCH)
Art and Design ..................................(AD)

**Accounting (ACTG)**

**417 Advanced Financial Accounting** 3 OR 4 hours. Financial accounting theory for business combinations, consolidated financial statements, international transactions and investments, and partnership accounting. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ACTG 316.

**435 Auditing** 4 hours. Introduction to the audit function: ethical and legal environment; audit standards; objectives and procedures; materiality and audit risk; sampling; auditing in a computer environment; reporting. Extensive computer use required. Prerequisite(s): ACTG 316.

**445 Federal Income Tax I** 3 OR 4 hours. Concepts and provisions of federal income taxation applicable to individual taxpayers, partnerships, individuals and trusts. 3 undergraduate hours. 4 graduate hours. Credit is not given for ACTG 445 if the student has credit for ACTG 508. Extensive computer use required. Prerequisite(s): ACTG 315.

**446 Federal Income Tax II** 3 OR 4 hours. Concepts and provisions of federal income taxation on corporations and partnerships; special problems in the recognition of income, liquidations, and personal holding companies. 3 undergraduate hours. 4 graduate hours. Extensive computer use required. Prerequisite(s): ACTG 445 or the equivalent.

**456 Business Law II** 3 OR 4 hours. Commercial law of partnerships, corporations, secured transactions, bankruptcy, real and personal property, wills and trusts, SEC regulations, unfair trade activities. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ACTG 355 or the equivalent.

**465 Governmental and Nonprofit Accounting** 3 OR 4 hours. Financial transaction analysis and recording system; budget preparation and control; concepts and principles underlying the financial reports of governmental and nonprofit organizations. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ACTG 316.

**474 Accounting Information Systems** 3 OR 4 hours. Skills and concepts that enable the documentation, design, and use of accounting information systems; understanding transaction cycles; sound internal controls; accounting software and the electronic business environment. 3 undergraduate hours. 4 graduate hours. Extensive computer use required. Prerequisite(s): Grade of C or better in ACTG 110 and Grade of C or better in ACTG 111; and EIS 100.

**475 Database Accounting Systems** 3 OR 4 hours. Concepts and principles of designing database systems to perform accounting functions, applications of microcomputer accounting software packages systems design tools, and computerized transaction cycles. Same as IDS 475. 3 undergraduate hours. 4 graduate hours. Extensive computer use required. Prerequisite(s): ACTG 111 and EIS 100.

**484 International Accounting** 3 OR 4 hours. Financial accounting for international operations, multinational managerial accounting and control, comparative international accounting, international reporting issues, and international taxation. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ACTG 316.

**485 Valuation and Analysis** 3 OR 4 hours. Financial analysis and valuation of firms. Corporate strategies, financial reporting issues, and market perceptions. 3 undergraduate hours. 4 graduate hours. Extensive computer use required. Prerequisite(s): ACTG 315 and FIN 300 for undergraduate students. One accounting and one finance class or consent of the instructor for graduate students.

**494 Special Topics in Accounting** 1 TO 4 hours. Topics rotate in various areas of accounting, including but not restricted to financial, managerial, governmental and nonprofit accounting, law and business ethics. Explores current issues and proposed alternatives. Prerequisite(s): Two courses in accounting or finance beyond ACTG 111 and FIN 300 or the equivalent.

**495 Competitive Strategy** 4 hours. Multidisciplinary analysis of organizational strategy and policy, using case method, and/or business simulation. Assignments involve extensive library research and oral and written reports. Prerequisite(s): Senior standing in the College of Business Administration and completion of all other CBA core courses, or consent of the instructor.

**500 Introduction to Financial Accounting** 4 hours. Concepts and principles of financial accounting for preparation and evaluation of external reports and financial statements. Credit is not given for ACTG 500 if the student has credit for MBA 501. Extensive computer use required. Prerequisite(s): Admission to the MBA or MS in Accounting or Master of Healthcare Administration program.

**502 Financial Accounting I** 4 hours. Accounting theory and practice related to asset valuation, revenue recognition, and the determination of short-term liabilities; aspects of financial statement analysis related to these issues. Prerequisite(s): ACTG 500.

**503 Financial Accounting II** 4 hours. Contemporary financial accounting issues, including liabilities, pensions, tax allocation, leases, price level reporting, investments, capital transactions, and financial statement analysis. Prerequisite(s): ACTG 500 and ACTG 502 or the equivalents.

**506 Management Accounting** 4 hours. Design of cost accounting systems; alternative costing methods; costing for decision making; and budget planning and performance evaluation. Prerequisite(s): ACTG 500.

**508 Federal Income Tax** — Graduate 4 hours. Concepts and provisions of federal income taxation generally applicable to individual taxpayers, corporations, and partnerships. Credit is not given for ACTG 508 if the student has credit for ACTG 445. Prerequisite(s): ACTG 500.

**509 Business Law** — Graduate 4 hours. Commercial law of contracts, sales, commercial paper, agency, suretyship, insurance law, and liability of management. Prerequisite(s): ACTG 500 or the equivalent.

**515 Accounting Theory and Paradigms** 4 hours. Conventional and regulatory approaches to standard setting and theory construction, conceptual framework, and paradigmatic avenues in accounting. Prerequisite(s): ACTG 503 or the equivalent.

**516 Financial Statement Analysis** 4 hours. Use of financial information by decision makers external to the firm; profitability and risk analysis; financial forecasting, and equity valuation. Extensive computer use required. Prerequisite(s): ACTG 502; or approval of the department.

**525 Management Control of Strategic Performance** 4 hours. Contemporary overview of the management control systems measuring technological activities, measuring value added, outsourcing noncore compensation plan and performance measurement. Extensive computer use required. Prerequisite(s): ACTG 506; or approval of the department.

**535 Advanced Auditing** 4 hours. Review and evaluation of academic research in auditing behavioral and capital market research. Overview of audit research methodology, examination of Sarbanes-Oxley and its effect on Internal Controls, auditing standards, and the accounting profession. Extensive computer use required. Prerequisite(s): ACTG 435.

**537 Fraud Examination** 4 hours. Concepts and skills necessary for examining financial fraud. Content will include fraud schemes, prevention and detection of fraud, ethics, forensic software tools, auditing techniques, and the law and regulations governing fraud cases. Extensive computer use required. Prerequisite(s): ACTG 474 and ACTG 502 or equivalents.

**545 Taxes and Business Policy** 4 hours. The role of taxes in business decisions. Emphasizes integrating taxes with other variables—behavioral, financial, environmen-
tual, and others. Also discusses the relationship between taxation and financial and managerial accounting.
Prerequisite(s): ACTG 345 and ACTG 446.

565 Advanced Government and Nonprofit Accounting 4 hours. Financial accounting principles applicable to governments and nonprofit organizations. Transaction events and events are analyzed, leading to the preparation and analysis of financial statements. Prerequisite(s): ACTG 503 or equivalent.

585 Corporate Valuation and Accounting Information 4 hours. Valuation using discounted cash flow and multiples. Use of financial disclosures to construct forecasts. How multiples behave. How accounting affects valuation ratios. Credit is not given for ACTG 565 if the student has credit for ACTG 465. Prerequisite(s): ACTG 502; and FIN 510 or FIN 520; or approval of the department.

590 Case-Based Research in Accounting 4 hours. Development of skills necessary to research and interpret accounting standards and guidelines to resolve recognition and disclosure issues using real-life and simulated cases. Prerequisite(s): ACTG 503 or equivalent.

593 Accounting Research: Methodology and Communication 4 hours. Instruction in research methods, issues, and research appreciation and evaluation together with individual practice in planning, conducting, and reporting professional research projects in accounting and capital markets. Extensive computer use required. Prerequisite(s): ACTG 502.

594 Special Topics in Accounting—Graduate 1 TO 4 hours. Topics rotate in the various areas of accounting, including but not restricted to financial, managerial, governmental, and nonprofit accounting, explores current issues and proposed alternatives. May be repeated. Students may register in more than one section per term. Extensive computer use required. Prerequisite(s): Approval of the department.

596 Independent Study in Accounting—Master’s 1 TO 4 hours. Independent study on an accounting topic chosen with faculty approval; requires a study plan and a paper of length and specification required by a faculty member. Prerequisite(s): ACTG 515 and ACTG 525.

599 PhD Thesis Research 0 TO 16 hours. Research on topic of the doctoral dissertation. Satisfactory/ Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Faculty acceptance of thesis proposal.

Administrative Studies in Nursing (NUAS)

501 Administrative Nursing Models 2 hours. Appraisal and synthesis of theory, research, and practice in the organization and management of the delivery of nursing and health-care services, including currently used models of nursing care delivery. Prerequisite(s): Consent of the instructor.

502 Strategic Management in Healthcare 3 hours. Examines the essentials of strategic management. An analysis of current and future trends and issues affecting healthcare are reviewed in the context of visioning, strategic planning, and tactical planning. Prerequisite(s): Consent of the instructor.

505 Nursing Systems Operations Management 3 hours. Nursing systems operations management of health services. Examines the managerial role at individual, program, work unit, department, and organizational levels. Includes focus on interaction of the organization and environment. Same as NUHP 505. Prerequisite(s): Consent of the instructor.

510 Seminar in Black Child Development 3 OR 4 hours. Focuses on the development of a strategic human resource plan to support the mission of the health-care organization. Current human resources management and organizational performance research findings are explored. Same as NUPH 512. Prerequisite(s): NUAS 505 or NUHP 505.

515 Advanced Nursing Management in Community-Focused Health Services 3 hours. Theory and research in leadership, management, and community-focused assessment for advanced nursing practice in complex and integrated health systems. Same as NUHP 515. Prerequisite(s): NUHP 528 or consent of the instructor.

516 Evaluation of Health Services Outcomes for Nursing 3 hours. Program planning and evaluation in community-focused health services. Measurement of quality, performance, and impact on health programs and services. Interdisciplinary perspective. Influenced quality improvement systems. Same as NUHP 516. Prerequisite(s): NUAS 515 or NUHP 515 or consent of the instructor.

517 Budget and Finance of Health and Nursing Services 3 hours. Financial management techniques, supply and demand, cost behaviors, revenue sources, provider reimbursement, and public and private health insurance for health and nursing services will be analyzed. Same as NUHP 517. Prerequisite(s): NUAS 505 or NUHP 505.

520 Internship in Advanced Nursing 1 TO 3 hours. Intensive field study for advanced nursing practice with emphasis on integration of graduate course work. Same as NUHP 520. May be repeated. Prerequisite(s): Consent of the instructor.

African-American Studies (AAST)

410 Seminar in African-American Literature 3 OR 4 hours. African-American literature and culture for students with significant background in the field. Topics vary. Same as ENGL 473. 3 undergraduate hours. May be repeated if topics vary. Students may register in more than one section per term. Prerequisite(s): AAST 247 or AAST 248 or HIST 104 or HIST 247 or HIST 248 or consent of the instructor.

490 Topics in African-American History 3 OR 4 hours. African-American history for students with significant background in the field. Topics vary. Same as HIST 485. 3 undergraduate hours. May be repeated if topics vary. Students may register in more than one section per term. Prerequisite(s): AAST 247 or AAST 248 or HIST 104 or HIST 247 or HIST 248 or consent of the instructor.

441 Topics in African History 3 OR 4 hours. Specific topics are announced each term. Same as HIST 441. 3 undergraduate hours. 4 graduate hours. May be repeated. Prerequisite(s): 3 hours of African history, African-American studies, or consent of the instructor.

445 History of Islam in the African World 3 OR 4 hours. A comprehensive study of the history of Islam and its role among the people of African descent in sub-Saharan Africa and the United States. Same as HIST 445. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Consent of the instructor.
AAS 360 or ENGL 357; and senior standing or above; or consent of the instructor.

492
Topics in Social Science
Research 3 OR 4 hours.
Inclusive examination of a selected specialized topic based on instructor's field. Topics are drawn from research in political science, psychology, sociology, and history. 3 undergraduate hours. 4 graduate hours. May be repeated if topics vary. Students may register in more than one section per term. Prerequisite(s): AAST 100 or consent of the instructor.

496
Topics in Race, Ethnic and Minority History 3 OR 4 hours.
Specific topics are announced each term. Same as HST 496. 3 undergraduate hours. 4 graduate hours. May be repeated. Prerequisite(s): 3 hours of history or consent of the instructor.

Anatomy and Cell Biology (ANAT)

403
Human Neuroanatomy 3 hours.
Morphological organization of the nervous system. Functional correlations of neural structures. Same as NEUS 403. Meets eight weeks of the semester. Prerequisite(s): Graduate standing and consent of the instructor. Must be in a degree program.

414
Neuroanatomy for Allied Health Program 3 hours.
Basic development and gross features of the central nervous system and systems neuroanatomy; motor, sensory, and integrative functional areas.

439
Gross Human Anatomy I 5 hours.
Functional and structural anatomy and embryology of the body. Prerequisite(s): Graduate standing and consent of the instructor.

440
Gross Human Anatomy II 2 hours.
Gross morphology and function of the human body. Prerequisite(s): Graduate standing and ANAT 439; or consent of the instructor.

441
Gross Human Anatomy 5 hours.
Functional and structural anatomy of the body. For allied health students. Prerequisite(s): Graduate standing and consent of the instructor; or enrollment in the Doctor of Physical Therapy program or MS in Biomedical Visualization program.

442
Cell Structure and Human Histology 5 hours.
Structure and function of cells and fundamental tissues. Function and microscopic anatomy of organs. Prerequisite(s): Graduate standing and consent of the instructor.

520
Concepts of Synaptic Function and Morphology 2 hours.
Overview of current and classical methods employed in the study of synapses. A review of some of the most interesting aspects of synaptic function, such as sources of synaptic vesicles, synaptic patterns, synaptic plasticity, and synaptic specificity. Prerequisite(s): Consent of the instructor.

521
Plasticity in the Nervous System 2 hours.
Neural plasticity is the ability to adaptively modify neural structure or function. Topics range from developmental plasticity to aging, including response to injury and neurodegenerative diseases; trophic factors, learning and memory, and neural transplantation. Prerequisite(s): ANAT 403 or consent of instructor.

523
Biology of MicroRNAs and other Small RNAs 2 hours.
History overview, and biology of small RNA pathways, including microRNAs, siRNAs, RNA interference, roles in various biological processes, implication in disease pathophysiology and potential therapies. Satisfactory/Unsatisfactory grading only.

527
Cellular and Systems Neurobiology 3 hours.
Molecular and cellular properties of neuron circuits in neurons and sensory cells and their relationship to brain and sensory systems. Same as BIOS 527. Prerequisite(s): Credit in one neuroscience course or consent of the instructor.

544
Advanced Craniofacial Anatomy 3 hours.
Functional and clinical aspects of head and neck anatomy based on detailed laboratory section, original readings, and project work. Prerequisite(s): Any human gross anatomy course or the equivalent.

554
Neuroendocrinology 2 hours.
Survey of neuroendocrine integration including neuroendocrine regulation of development, homeostasis, reproduction, and behavior. The hypothalamo-hypophyseal axis receives special attention from both morphologic and functional viewpoints. Prerequisite(s): ANAT 403 or the equivalent.

560
Practicum in the Teaching of Anatomy 1 hour.
Provides an opportunity for supervised discussion and evaluation of materials and methods in teaching the basic anatomical sciences. Satisfactory/Unsatisfactory grading only. May be repeated. No graduation credit. For anatomy and cell biology teaching assistants. Prerequisite(s): Consent of the instructor.

585
Cell Biology 4 hours.
Functional and structural organization of the cell with emphasis on the cellular basis of physiological activity. Same as IMM 585 and PHNB 585.

586
Cell and Molecular Neurobiology 3 hours.
Structure and function of voltage-dependent and neurotransmitter-gated ion channels; the role of these ion channels in synaptic transmission, synaptic modification, and neuromodulation. Same as BIOS 586. Prerequisite(s): BIOS 442 or consent of the instructor.

595
Department Seminar 1 hour.
Oral presentations are made by students each session on timely journal articles, followed by in-depth discussions of the reported research. Presentation of research by invited lecturers. Satisfactory/Unsatisfactory grading only.

596
Independent Study 1 TO 4 hours.
Independent study under the direction of a faculty member. Satisfactory/Unsatisfactory grading only.

598
Master's Thesis Research 0 TO 16 hours.
Thesis research under the direction of a faculty member. Satisfactory/Unsatisfactory grading only.

599
Research in Anatomy 0 TO 16 hours.
Independent research, directed by a faculty member. Satisfactory/Unsatisfactory grading only.

Ancient Greek (GKA)

498
Advanced Topics in Ancient Greek Literature 3 OR 4 hours.
Intensive reading of ancient Greek literature. Topics vary. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 9 hours. Students may register in more than one section per term. Prerequisite(s): 4 hours of ancient Greek at the 200-level or the equivalent.

499
Independent Reading 3 OR 4 hours.
Individual study under faculty direction. For students qualified by preparation and interest. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 4 hours of ancient Greek at the 200-level or the equivalent.

Anthropology (ANTH)

401
Linguistic Anthropology 3 OR 4 hours.
Exploration of the relationship between language and culture in a cross-cultural perspective. Attention to methods of field research as well as theory and substantive issues. Course information: 3 undergraduate hours. 4 graduate hours.

405
Human Growth and Nutrition 3 hours.
Worldwide variation in human growth and the factors that contribute to differences between populations and individuals in the timing and pattern of growth and development. Same as EPID 405.

409
Ancient Maya Writing, Language, and Culture 3 OR 4 hours.
Recent trends in Maya epigraphy, information gained from Maya hieroglyphs, linguistics, and historical ethnographies are applied to anthropological analyses of past lifeways. Same as LALS 409. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Junior standing or above; and consistent of the instructor.

411
Urban Cultural Problems 3 OR 4 hours.
A study of the processes of urbanization and of cultural and social adjustments to the city, illustrated by case studies. 3 undergraduate hours. 4 graduate hours.

16 GradCourseDescr.qxd 7/13/06 1:37 PM Page 165
413  Social Organization 3 OR 4 hours. Theory and method in the study of kinship and social organization for advanced undergraduate and graduate students. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ANTH 213 or graduate standing or consent of the instructor.

414  Symbolic Anthropology 3 OR 4 hours. The interpretation of cultures through their ritual, religions, culture, and other types of symbolism. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ANTH 101 or consent of the instructor.

415  Medical Anthropology 3 OR 4 hours. Survey of the history of non-Western medicine; analysis of ecological relationships behind folk medicine; principles and methods of studying ethnomedicine. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ANTH 200 or consent of the instructor.

417  Marxist Approaches to Anthropology 3 OR 4 hours. Issues concerning Marx's theories on primitive societies; the development of his evolutionary model from Morgan's work; and current use of Marxist concepts in anthropology. 3 undergraduate hours. 4 graduate hours.

418  Ethnographic and Qualitative Research Methods 3 OR 4 hours. Practical introduction to the techniques of social scientists for research in natural social settings: participant observation/non-participant observation, interviewing, use of documentary sources, etc. Same as GEOG 418. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Junior standing or above.

420  Seminar in Archaeology and Ethnography 3 OR 4 hours. Case studies of investigations in archeology using research monographs and other primary sources. Substantive data and related theoretical problems are examined simultaneously. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 15 hours. Prerequisite(s): Junior standing or consent of the instructor.

421  Geomorphology and Archaeology 3 OR 4 hours. Relevance of geomorphologic processes and landscape development to archaeology; role of geomorphology in archaeological surveys, paleographic reconstruction, and archeological interpretation. Elements of gearchaeology. Same as GEOG 432. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): GEOG 131 or EAES 101 or consent of the instructor.

422  Prehistory of the Levant and the Nile Valley 3 OR 4 hours. Detailed analysis of Levantine and Nile Valley prehistoric during the Pleistocene and early Holocene. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ANTH 221 or ANTH 222 or consent of the instructor.

423  Andean Prehistory 3 OR 4 hours. An overview of the cultural evolution of the Andean region from the arrival of the first inhabitants to the development of the Inca empire. Same as LALS 423. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ANTH 228 or ANTH 269; or consent of the instructor.

424  Violence 3 OR 4 hours. Explores how men and women have experienced violence historically and in modern times. Students examine how violence is perpetrated through words, pictures, physical harm, and silences. Same as CRJ 424. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CRJ 101 and CRJ 200.

425  Field Techniques in Archaeology 4 hours. Exposure to field methods in archaeology through participation in an actual research project. Students are instructed in field excavation techniques. Usually offered in summer session. Same as GEOG 425. May be repeated to a maximum of 8 hours. Prerequisite(s): ANTH 102 or consent of the instructor. Recommended: Concurrent registration in ANTH 426 or GEOG 426.

426  Laboratory Techniques in Archaeology 4 hours. Exposes students to laboratory methods in archaeology through analysis of excavated materials. Students are instructed in laboratory techniques. Same as GEOG 426. May be repeated to a maximum of 8 hours. Prerequisite(s): ANTH 102 or consent of the instructor. Recommended: Concurrent registration in ANTH 425 or GEOG 425.

427  Theory and Application in Ethno-archaeology 3 OR 4 hours. Focuses on the application of scientific experimentation and ethnographic information to enhance our understanding of the archaeo­logical record, material culture, and past human behavior. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): One 100- or 200-level archaeology course; or graduate standing and consent of the instructor.

428  Chiefdoms 3 OR 4 hours. Focus on traditional nonstate, yet complex, societies known as “chiefdoms.” Examine the organization and evolution of such societies through a combination of ethnographic, historical, and archaeological data. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ANTH 101 or ANTH 102; or consent of the instructor.

429  Archaeological Methods 3 OR 4 hours. This course will familiarize students with various methodologies used by archaeologists and geoarchaeologists. Course will concentrate on a different method each time it is taught. Course information: Same as GEOG 429. 3 undergraduate hours. 4 graduate hours. May be repeated up to 2 times. Students may register for more than one section per term.

430  Seminar in Primate Biology 4 OR 5 hours. Theoretical and substantive issues in the study of nonhuman primates and hominids, as represented in current journals and topical volumes. 4 undergraduate hours. 5 graduate hours.

437  Bioarchaeology 5 hours. Provides an overview of mortuary theory and the bioarchaeological methods used to study health and disease, diet, activity patterns, kinship, and cultural practices in archaeological populations. Prerequisite(s): Grade of B or better in ANTH 237 and consent of the instructor.

440  The Experience of Culture Difference: Culture Shock 3 OR 4 hours. Explores experience of different cultures, the process of learning a different culture, and issues arising from the nature of the encounter in fieldwork. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): One course in social or cultural anthropology, or experience in another culture.

441  Psychoanalytic Anthropology I: Cross-Cultural Theory 3 OR 4 hours. Introduction for social scientists to psychoanalytic theory and methods including Freud’s theories and more recent developments. Cross-cultural tests and applications of psychoanalytic theories. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): One course in anthropology or psychology, or consent of the instructor.

442  Psychoanalytic Anthropology II: Cross-Cultural Applications 3 OR 4 hours. Explores ways in which anthropologists and analysts have used psychoanalysis to understand individuals, practices, and institutions of other cultures. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ANTH 441 or consent of the instructor.

443  Leadership: Psychology, Strategy, Culture 3 OR 4 hours. Psychological and anthropological theories of leadership developed on our culture will be tested against descriptions of leadership in diverse non-Western societies. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): One course in anthropology.

444  Dreams, Dreaming, and Dream Beliefs 3 OR 4 hours. The dreaming experience examined from the point of view of psychological interpretation, laboratory experiments, and anthropological study of dreams in other cultures. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): One course in anthropology or psychology and junior or senior standing, or consent of the instructor.
453 Seminar in Cultural Ecology 3 or 4 hours. Cultural ecology and cultural evolution, emphasizing peasant farming and other subsistence systems. Soil management under shifting and sedentary agriculture. Same as GEOG 453. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ANTH 101 or GEOG 151 or consent of the instructor.

455 Quantitative Methods 3 or 4 hours. Introductory statistics course in statistical methods for anthropological problem-solving. Primary emphasis is on univariate and bivariate statistics, such as means, standard deviations, correlation, chi square, t-tests, and simple regressions. Same as GEOG 455. 3 undergraduate hours. 4 graduate hours. Extensive computer use required. Prerequisite(s): Junio standing or above; and consent of the instructor.

470 Classic Ethnographies 3 or 4 hours. Analysis of method and theory reflected in selected classic anthropological works, studied in their historical contexts and contemporary uses. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ANTH 101 or ANTH 213 or consent of the instructor.

474 Urban Cultures of Africa 3 or 4 hours. A study of the indigenous urban centers of sub-Saharan Africa, the multicultural cities of colonial and contemporary Africa, and the processes of detribalization. 3 undergraduate hours. 4 graduate hours.

475 Indians of the Andes and the Amazon 3 or 4 hours. Intensive research in theoretical and ethnographic problems in South American Indian social structures and cultures. Special attention will be given to Levi-Strauss’ ideas on the formulation of cultural theory in South America. Same as LALS 475. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ANTH 213 or consent of the instructor.

476 Rise and Fall of the Inca Empire 3 hours. Using an integration of ethnographic, historical, and archaeological information, this course is designed to provide a thorough introduction to the study of the Incas. Prerequisite(s): Sophomore standing or above.

477 Remote Sensing of the Environment 4 hours. Principles and practices of processing and interpretation of remotely sensed imagery, including aerial photographs, radar, and multispectral satellite images. Hands-on use of image-processing software. Same as GEOG 477. Extensive computer use required.

479 Culture and Colonialism in South Asia 3 or 4 hours. Examines the emergence of colonial cultures of domination and resistance on the Indian subcontinent from the eighteenth century to 1947. Same as ASST 479 and HST 479. 3 undergraduate hours. 4 graduate hours.

480 Sociolectuistics 3 or 4 hours. Variations in language that correlate with variation in societies and smaller social groups; interactions of languages and societies. Same as LING 480. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): LING 405 or junior standing and consent of the instructor.

487 Culture and Colonialism in South America 3 or 4 hours. Same as GEOG 487. Extensive use of Latin American case studies and geographic information systems. Prerequisite(s): GEOG 100 and one from GEOG 278, GEOG 386, IDS 100, or consent of the instructor.

482 Geographic Information Systems II 4 hours. Application of raster- (or grid-based) geographic information systems to the spatial analysis of landscapes. Same as GEOG 482.

483 Geographic Information Systems III 4 hours. Problems encountered in the analysis and portrayal of geographic data. Topics include taxonomy, regionalization, trend surface analysis, time series, markov probabilities, and computer cartographic procedures for displaying output from analytic procedures. Same as GEOG 483. Prerequisite(s): GEOG 482 or ANTH 482 or consent of the instructor.

484 Mapping with Microcomputers 4 hours. Microcomputer applications, including computer principles for mapping, alternative design for coordinate files, kinds of devices for mapping, direct control of devices for mapping, and characteristics and limitations of mapping programs. Same as GEOG 478. Prerequisite(s): GEOG 475 or consent of the instructor.

485 Computer Cartography 4 hours. The fundamentals of cartography and cartographic design. The use of state-of-the-art, Windows-based computer mapping software for querying and displaying cartographic data contained in GIS databases. Same as GEOG 485.

490 Independent Study 1 to 6 hours. Independent study under the supervision of a faculty member. May be repeated to a maximum of 8 hours with approval. Students may register in more than one section per term. Prerequisite(s): Junior standing and consent of the instructor.

494 Special Topics in Anthropology 3 to 4 hours. Reading, study, and discussion of selected problems for graduate students and majors in anthropology. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 12 hours. Students may register in more than one section per term. Prerequisite(s): Junior standing or approval of the department.

496 Internship 1 to 4 hours. Professional field experience with an agency or organization in the private or public sector on projects related to the student’s area of specialization. Same as GEOG 496. May be repeated to a maximum of 8 hours. Only 4 hours of credit may be applied toward the minor in Geography. Prerequisite(s): Declared major in Anthropology, minor in Geography, or full graduate standing in Anthropology or Geography and consent of the faculty adviser, head of the department, or the director of internship programs.

500 Social and Cultural Theory I 4 hours. Historical survey of approaches to field and library research in anthropology.

501 Social and Cultural Theory II 4 hours. Continuation of ANTH 500. Prerequisite(s): ANTH 500.

502 Theory and Method in Archaeology 4 hours. Middle-range and general theory in prehistoric archaeology: the reconstruction of prehistoric economic, social, and political systems; cultural materialism and its critiques; cultural ecology and systems theory; social evolution.

503 Hominid, Phylogeny, and Adaptations 5 hours. Data, methods, and approaches for reconstruction of osteological relationships of species; interpretation of adaptations of extinct species in an evolutionary context.

510 Seminar in Social Organization 4 hours. Theoretical and substantive issues about how societies are organized. Same as GEOG 510. May be repeated to a maximum of 12 hours.

514 Gender Issues in Cross-Cultural Perspectives 4 hours. Selected substantive and theoretical issues in the cross-cultural study of gender roles, conceptions, and relations. Same as GWS 514. Prerequisite(s): ANTH 500 or consent of the instructor.

520 Seminar in Archaeological Theory and Method 4 hours. Theoretical and substantive issues in the study of prehistory and the recovery and interpretation of the archaeological record. May be repeated. Prerequisite(s): ANTH 502 or consent of the instructor.

521 Analysis of Stone Artifacts 4 hours. Analyzing stone objects.
168

530 Seminar in Physical Anthropology 5 hours. A critical examination of current literature on methods and theories dealing with the evolution of primate biology and behavior. May be repeated. Students may register in more than one section per term.

531 Anthropological Genetics 4 hours. Basic overview of genetic theory and techniques, followed by a survey of the contributions of human genetics to human adaptation and evolution. Prerequisite(s): Grade of B or better in ANTH 508 or grade of B or better in BIOS 220; or consent of the instructor.

532 Advances in Ancient DNA 4 hours. Basic techniques and special concerns in the application of molecular biology techniques to the study of ancient DNA, followed by a discussion of recent advances and contributions to the field. Prerequisite(s): Grade of B or better in ANTH 531 or grade of B or better in BIOS 220.

533 Lab Methods for Ancient DNA 2 hours. Provides students with laboratory training in molecular biology techniques commonly used in studies of ancient DNA. Prerequisite(s): Consent of the instructor.

534 Dental and Medical Anthropology Within Human Evolution 1 TO 3 hours. Studies the biological and physical anthropology of hominid teeth and the craniofacial complex with relevant medical anthropology, ethno-pharmacology, forensic sciences, and palaeopathology topics. Same as OSCE 534 and PMPG 534. Field work required. A lab experience, independent study, and a research paper is required for 3 hours of credit. Prerequisite(s): Graduate standing and consent of the instructor.

570 Regional Application of Anthropology 4 hours. Application of a specific theory or theoretical framework to data provided by one of the major geographical or cultural areas of the world. Emphasis on deductive reasoning and the derivation and testing of hypotheses with data from several cultures of a single culture area. May be repeated.

594 Special Topics in Anthropology 4 hours. Study of a selected topic in anthropology. May be repeated to a maximum of 12 hours. Students may register in more than one section per term.

595 Graduate Seminar in Anthropology 1 hour. Presentations of current research by faculty followed by student discussion. Course is to be taken during student’s first year in the graduate program as one of the core courses. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Admission to the graduate program in Anthropology.

596 Independent Study 2 TO 6 hours. Independent research is done under the supervision of a faculty member. May be repeated to a maximum of 12 hours with approval. Students may register in more than one section per term. Approval to repeat course granted by the department. Prerequisite(s): Consent of the instructor.

597 Project Research 2 TO 6 hours. The student will do an independent research project with the aid of a faculty advisor. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

599 PhD Thesis Research 0 TO 16 hours. Research on doctoral dissertation topic. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

411 Theory and Critical Analysis in Architecture 4 hours. Architectural theory and criticism from historical and contemporary examples; development of architectural theory and relationship between architecture and architectural criticism. Prerequisite(s): ARCH 410 and graduate standing in the Master of Architecture program.

412 Women and the Environment 3 OR 4 hours. Women’s place in the built environment; the role of gender in environmental experience, including women as users, designers, planners, policy makers, and critics. Same as GWS 412. Undergraduate hours. 4 graduate hours. Prerequisite(s): Advanced undergraduate or graduate standing, or consent of the instructor.

414 Professional Practices 3 hours. Relationship of the discipline of architecture to the profession. Exposure to interdisciplinary studies that may lead to alternative careers in allied businesses and professions. Prerequisite(s): ARCH 252 and approval of the department.

415 Architectural Design Lecture III 2 hours. Examination of the relationship of architecture to society, technological change, and structural and environmental innovation. Prerequisite(s): ARCH 307 and ARCH 308; and approval of the school. Must enroll concurrently in ARCH 416.

416 Architectural Design Laboratory III 4 hours. Laboratory component of ARCH 415. Prerequisite(s): ARCH 307 and ARCH 308; and approval of the school. Must enroll concurrently in ARCH 415.

417 Architectural Design Lecture IV 2 hours. Diverse topics in architecture and interdisciplinary practices; design problems representing areas of specialized interest within and allied to the practice of architecture. Prerequisite(s): ARCH 415. Must enroll concurrently in ARCH 418.

418 Architectural Design Laboratory IV 4 hours. Laboratory component of ARCH 417. Prerequisite(s): ARCH 416. Must enroll concurrently in ARCH 417.

422 Theory of Architecture and Building Analysis 4 hours. Introduction to discipline of architecture, considering symbolic and use patterns, compositional, spatial, and typological patterns. Prerequisite(s): Graduate standing in the Master of Architecture program.

443 Professional Practice I 2 hours. Legal and ethical considerations in architectural practice; operation and management guidelines. Overview of the history of the professional architectural practice. Prerequisite(s): Completion of the second plateau or approval of the school.

444 Professional Practice II 2 hours. Business and financial considerations in architectural practice, scope of services, and communications and marketing guidelines. Interrelationship with clients, consultants, collaborators, and the manufacturing and construction industry. Prerequisite(s): ARCH 443 and approval of the school.

465 Capstone Studio 6 hours. Capstone senior design studio that culminates in a comprehensive project that explores the relationship of architecture to society, technological change, and structural and environmental innovation. Extensive computer use required. Field trip required. Fieldwork required. Students will use city as a research laboratory with fieldwork on project sites. Additional scheduled field trips will be made to significant or historical architectural buildings as part of preliminary design research and analysis. Prerequisite(s): ARCH 360 and ARCH 366 and ARCH 372 and junior standing or above and approval of the department.

466 Option Studio 6 hours. Topic options studio that culminates B. Arts studio sequence exploring topics at the scale of room, building, city, and region dependent on interests of faculty. Extensive computer use required.
Field trip required at a nominal fee. Fieldwork required. Students will use city as a research laboratory with fieldwork on project sites. Additional scheduled field trips will be made to significant or historical architectural buildings as part of preliminary design research and analysis. Prerequisite(s): ARCH 465 and approval of the department.

470 Structures I: Structural Analysis 4 hours. Introduction to the analysis of structural elements. Introduction to fundamental structural planning criteria and relevant concepts of tension, compression, and bending. Introduction to historical and contemporary structural precedents. Prerequisite(s): MATH 180 and PHYS 105 and PHYS 106.

471 Structures II 3 hours. Introduction to material properties; strength-characteristics of building materials and material assemblies; stress and strain; rigidity and deformation; temperature effects; torsion effects; and combined loading of elements and systems. Prerequisite(s): ARCH 470 and approval of the school.

486 Urban Ecologies and Infrastructures 4 hours. Introduction to dynamic relationship of ecology and infrastructure in the context of contemporary urban landscape. Built and natural environments as inseparable networks of a dynamic process. Prerequisite(s): Graduate standing in the Master of Architecture program or, for students in the Bachelor of Arts in Architectural Studies program, consent of the instructor.

494 Special Topics in Architecture 2 TO 4 hours. Current problems. May be repeated to a maximum of 8 hours. Students may register in more than one section per term. Prerequisite(s): 12 hours of history and architecture and graduate standing in the Master of Architecture program.

499 Architecture Elective II 2 TO 6 hours. Special problems in theory, design, building science, or graphic skills (manual or automated). May be repeated to a maximum of 12 hours. Students may register in more than one section per term. Prerequisite(s): Completion of architecture graduate course work; or consent of the instructor.

510 Advanced Architectural Design I 8 hours. Design of multiple or complex building types with emphasis on varying topics related to architectural design. Prerequisite(s): ARCH 554 and ARCH 564 and ARCH 574 or approval of the school. Restricted to students in the final year of study in the Master of Architecture program.

511 Advanced Architectural Design II 8 hours. Design of a comprehensive, single case study with emphasis on varying topics related to architectural design. Prerequisite(s): ARCH 510 or ARCH 512 or ARCH 514 or ARCH 516 or ARCH 518 or ARCH 551 or ARCH 554 or ARCH 591 or ARCH 596. Restricted to students in the final year of study in the Master of Architecture program.

512 Advanced Architectural Design III: Activist Practice 8 hours. Design of multiple or complex building types, with an emphasis on the theoretical, technical, political, and economic considerations relating to community activism and identity politics. Prerequisite(s): ARCH 554 and ARCH 564 and ARCH 574 or approval of the school. Restricted to students in the final year of study in the Master of Architecture program.

513 Advanced Architectural Design II: Activist Practice 8 hours. Design of a comprehensive, single case study, with emphasis on theory and site planning, interior space, building systems, and materials relating to community activism and identity politics. Prerequisite(s): ARCH 510 or ARCH 512 or ARCH 514 or ARCH 516 or ARCH 518 or ARCH 551 or ARCH 554 or ARCH 591 or ARCH 596. Restricted to students in the final year of study in the Master of Architecture program.

514 Advanced Architectural Design I: Architectural Technologies 8 hours. Design of multiple, public buildings, with emphasis on the relationship of aesthetics and construction methods in the making of comprehensive architecture. Prerequisite(s): ARCH 554 and ARCH 564 and ARCH 574 or approval of the school. Restricted to students in the final year of study in the Master of Architecture program.

515 Advanced Architectural Design II: Architectural Technologies 8 hours. Design of a single, public building, with emphasis on the relationship of aesthetics and construction methods in the making of comprehensive architecture. Prerequisite(s): ARCH 510 or ARCH 512 or ARCH 514 or ARCH 516 or ARCH 518 or ARCH 551 or ARCH 554 or ARCH 591 or ARCH 596. Restricted to students in the final year of study in the Master of Architecture program.

516 Advanced Architectural Design I: Digital Media 8 hours. Design of multiple or complex building types, with an emphasis on the theoretical, technical, societal, and economic considerations relating to digital media. Extensive computer use required. Prerequisite(s): ARCH 530 and ARCH 554 and ARCH 564 and ARCH 574 or approval of the school. Restricted to students in the final year of study in the Master of Architecture program.

517 Advanced Architectural Design II: Digital Media 8 hours. Design of a comprehensive, single case study, with emphasis on theory and site planning, interior space, building systems, and materials relating to digital media. Extensive computer use required. Prerequisite(s): ARCH 510 or ARCH 512 or ARCH 514 or ARCH 516 or ARCH 518 or ARCH 551 or ARCH 554 or ARCH 591 or ARCH 596. Restricted to students in the final year of study in the Master of Architecture program.

518 Advanced Architectural Design I: Landscape Urbanism 8 hours. Design of urban landscapes and public spaces as informed by large scale infrastructures, natural environments, and urban systems. Prerequisite(s): ARCH 554 and ARCH 564 and ARCH 574 or approval of the school. Restricted to students in the final year of study in the Master of Architecture program.

519 Advanced Architectural Design II: Landscape Urbanism 8 hours. Design of public building and/or space, including surrounding urban landscape with emphasis on perceptual, phenomenal, and temporal aspects of design. Prerequisite(s): ARCH 510 or ARCH 512 or ARCH 514 or ARCH 516 or ARCH 518 or ARCH 551 or ARCH 554 or ARCH 591 or ARCH 596. Restricted to students in the final year of study in the Master of Architecture program.

520 Advanced Elective in Activist Practice 4 hours. Study of contemporary theories and practices in community activism and identity politics. Restricted to students in the final year of study in the Master of Architecture program.

521 Advanced Elective in Architectural Technologies 4 hours. Examination and analysis of influences on architecture relating to concept, program, function, location, cost, systems, regulation, materials, assembly, and environmental influences on the resulting building aesthetic. Restricted to students in the final year of study in the Master of Architecture program.

522 Advanced Elective in Digital Media 4 hours. Study of contemporary theories and practices in digital media and its relation to architecture. Restricted to students in the final year of study in the Master of Architecture program.

523 Advanced Elective in Landscape Urbanism 4 hours. Examination of urban landscape projects from historical, theoretical, ecological, and infrastructural points of view. Restricted to students in the final year of study in the Master of Architecture program.

524 Advanced Elective: Special Topics 4 hours. Advanced study in varying topics related to architecture. Restricted to students in the final year of study in the Master of Architecture program.

530 Computers in Architecture 4 hours. The theory, tools, and techniques in applications of the computer as a
561 Building Science I 4 hours. Examines the architect’s role in protecting the health, safety, and welfare of the public through responsible and ethical building practices. Previously listed as ARCH 461. Prerequisite(s): Approval of the school.

562 Building Science II 4 hours. Introduction to building construction processes, terminology, principles, conventions, standards, applications, restrictions, and communications pertaining to construction materials and assemblies. Previously listed as ARCH 462. Prerequisite(s): ARCH 561.

563 Building Science III 4 hours. Analysis and integration of architectural building systems. Building envelope, mechanical, electrical, plumbing, vertical transportation, life safety, and structural systems are examined. Previously listed as ARCH 463. Prerequisite(s): ARCH 562.

564 Building Science IV 4 hours. Exploration into the concept of Total Building Performance. Exploration of conceptual and philosophical issues related to the application of advanced technology in the design, construction, and use of buildings. Previously listed as ARCH 464. Prerequisite(s): ARCH 563.

565 Topics Studio in Interior Intervention 8 hours. Design of a complex project, with emphasis on design and programming of interiors. Fieldwork and field trips required at a nominal fee. Prerequisite(s): Approval of the department. Corequisite(s): Requires concurrent registration in ARCH 595.

566 Topics Studio in Building Intervention 8 hours. Design of a complex project, with emphasis on design and programming of buildings (e.g., institutional or civic buildings) supported by the theoretical, technical, social, and economic considerations relating to the culture and production of architecture. Extensive computer use required. Fieldwork and field trips required at a nominal fee. Prerequisite(s): Approval of the department.

567 Topics Studio in Urban Intervention 8 hours. Design of a complex project, with emphasis on design and programming of buildings supported by the theoretical, technical, social, and economic considerations relating to the culture and production of architecture. Extensive computer use required. Fieldwork and field trips required at a nominal fee. Prerequisite(s): Approval of the department. Corequisite(s): Requires concurrent registration in ARCH 595.

568 Topics Studio in Regional Intervention 8 hours. Design of a complex project, with emphasis on design and programming of buildings supported by the theoretical, technical, social, and economic considerations relating to the culture and production of architecture. Extensive computer use required. Fieldwork and field trips required at a nominal fee. Prerequisite(s): Approval of the department. Corequisite(s): Requires concurrent registration in ARCH 595.

569 Thesis Seminar 2 hours. This seminar is an intensive, advanced program of readings, discussions, presentations, and discussions that structures and supports research activity related to individual thesis projects. Satisfactory/unsatisfactory grading only. Fieldwork required. Prerequisite(s): Approval of the department.

570 Independent Study for Graduate Students 1 TO 8 hours. Individual study. May be repeated to a maximum of 16 hours. Prerequisite(s): ARCH 512 or ARCH 514 or ARCH 516 or ARCH 552 or ARCH 555 or ARCH 559; and approval of the department. Corequisite(s): Requires concurrent registration in ARCH 595.

571 Architectural Structures I 4 hours. Introduction to the planning, analysis, and design of structural steel and timber assemblies. Previously listed as ARCH 473. Prerequisite(s): ARCH 470 and ARCH 471; or ARCH 572.

572 Architectural Structures II 4 hours. Advanced analysis of structural elements, including fundamental structural planning criteria, stability and rigid body equilibrium, material properties/strong character-istics, historical and contemporary structural precedents. Previously listed as ARCH 472.

573 Architectural Structures III 4 hours. Advanced analysis of structural elements, including fundamental structural planning criteria, stability and rigid body equilibrium, material properties/strong character-istics, historical and contemporary structural precedents. Previously listed as ARCH 472.

574 Architectural Structures IV 4 hours. Advanced analysis of structural elements, including fundamental structural planning criteria, stability and rigid body equilibrium, material properties/strong character-istics, historical and contemporary structural precedents. Previously listed as ARCH 472.

575 Architecture Theory and Critical Analysis 4 hours. Introduction to the intellectual tradition of modern architectural theory, with emphasis on methods and procedures of analysis, explored through the critical interpretation and discussion of exemplary theoretical and historical texts. Previously listed as ARCH 485.

576 Readings in Contemporary Architectural Theory 4 hours. Introduces students to contemporary theoretical texts in architecture and adjacent disciplines, exploring alternative critical perspectives on a variety of topics, including time, form, space, technology, perception, and representation. Prerequisite(s): Approval of the department.

578 Professional Practices in the Architecture Profession 4 hours. Introduction to the culture and production of architecture. Extensive computer use required. Fieldwork and field trips required at a nominal fee. Prerequisite(s): Approval of the department. Corequisite(s): Requires concurrent registration in ARCH 595.

579 Independent Study 0 TO 17 hours. Independent study. May be repeated to a maximum of 16 hours. Prerequisite(s): ARCH 510 or ARCH 512 or ARCH 514 or ARCH 516 or ARCH 552 or ARCH 555 or ARCH 559; and approval of the department. Corequisite(s): Requires concurrent registration in ARCH 595.

580 Independent Study 0 TO 17 hours. Independent study. May be repeated to a maximum of 16 hours. Prerequisite(s): ARCH 510 or ARCH 512 or ARCH 514 or ARCH 516 or ARCH 552 or ARCH 555 or ARCH 559; and approval of the department. Corequisite(s): Requires concurrent registration in ARCH 595.

581 Independent Study 0 TO 17 hours. Independent study. May be repeated to a maximum of 16 hours. Prerequisite(s): ARCH 510 or ARCH 512 or ARCH 514 or ARCH 516 or ARCH 552 or ARCH 555 or ARCH 559; and approval of the department. Corequisite(s): Requires concurrent registration in ARCH 595.

582 Independent Study 0 TO 17 hours. Independent study. May be repeated to a maximum of 16 hours. Prerequisite(s): ARCH 510 or ARCH 512 or ARCH 514 or ARCH 516 or ARCH 552 or ARCH 555 or ARCH 559; and approval of the department. Corequisite(s): Requires concurrent registration in ARCH 595.

583 Independent Study 0 TO 17 hours. Independent study. May be repeated to a maximum of 16 hours. Prerequisite(s): ARCH 510 or ARCH 512 or ARCH 514 or ARCH 516 or ARCH 552 or ARCH 555 or ARCH 559; and approval of the department. Corequisite(s): Requires concurrent registration in ARCH 595.

584 Independent Study 0 TO 17 hours. Independent study. May be repeated to a maximum of 16 hours. Prerequisite(s): ARCH 510 or ARCH 512 or ARCH 514 or ARCH 516 or ARCH 552 or ARCH 555 or ARCH 559; and approval of the department. Corequisite(s): Requires concurrent registration in ARCH 595.

585 Independent Study 0 TO 17 hours. Independent study. May be repeated to a maximum of 16 hours. Prerequisite(s): ARCH 510 or ARCH 512 or ARCH 514 or ARCH 516 or ARCH 552 or ARCH 555 or ARCH 559; and approval of the department. Corequisite(s): Requires concurrent registration in ARCH 595.

586 Independent Study 0 TO 17 hours. Independent study. May be repeated to a maximum of 16 hours. Prerequisite(s): ARCH 510 or ARCH 512 or ARCH 514 or ARCH 516 or ARCH 552 or ARCH 555 or ARCH 559; and approval of the department. Corequisite(s): Requires concurrent registration in ARCH 595.

587 Independent Study 0 TO 17 hours. Independent study. May be repeated to a maximum of 16 hours. Prerequisite(s): ARCH 510 or ARCH 512 or ARCH 514 or ARCH 516 or ARCH 552 or ARCH 555 or ARCH 559; and approval of the department. Corequisite(s): Requires concurrent registration in ARCH 595.

588 Independent Study 0 TO 17 hours. Independent study. May be repeated to a maximum of 16 hours. Prerequisite(s): ARCH 510 or ARCH 512 or ARCH 514 or ARCH 516 or ARCH 552 or ARCH 555 or ARCH 559; and approval of the department. Corequisite(s): Requires concurrent registration in ARCH 595.

589 Independent Study 0 TO 17 hours. Independent study. May be repeated to a maximum of 16 hours. Prerequisite(s): ARCH 510 or ARCH 512 or ARCH 514 or ARCH 516 or ARCH 552 or ARCH 555 or ARCH 559; and approval of the department. Corequisite(s): Requires concurrent registration in ARCH 595.

590 Independent Study 0 TO 17 hours. Independent study. May be repeated to a maximum of 16 hours. Prerequisite(s): ARCH 510 or ARCH 512 or ARCH 514 or ARCH 516 or ARCH 552 or ARCH 555 or ARCH 559; and approval of the department. Corequisite(s): Requires concurrent registration in ARCH 595.

591 Independent Study 0 TO 17 hours. Independent study. May be repeated to a maximum of 16 hours. Prerequisite(s): ARCH 510 or ARCH 512 or ARCH 514 or ARCH 516 or ARCH 552 or ARCH 555 or ARCH 559; and approval of the department. Corequisite(s): Requires concurrent registration in ARCH 595.
Art and Design (AD)

400 Foreign Studies in Art and Design 1 TO 16 hours. Study abroad within approved programs of foreign exchange and/or education. Satisfactory/Unsatisfactory grading only. May be repeated with approval. Approval to repeat course granted by the appropriate major area faculty committee, the director of the school, and/or director of graduate studies. Graduate credit only with approval of the director of the school and the director of graduate studies. Prerequisite(s): Junior or graduate standing within a major program within the School of Art and Design and approval of the appropriate major area faculty committee, director of the school, and/or director of graduate studies.

405 Smart Art: Physical Computing 0 TO 5 hours. A practical and conceptual exploration into electronic sensors, processors, and effectors as applied to interactive media and interaction design. 4 undergraduate hours. 5 graduate hours. Extensive computer use required. Prerequisite(s): AD 309 and credit or concurrent registration in AD 407; and senior standing or above; or consent of the instructor.

406 Advanced Special Topics in Art and Design 0 TO 5 hours. Intensive workshops in specific art and design related topics and techniques directed and announced by the instructor. 1 to 4 undergraduate hours. 2 to 5 graduate hours. May be repeated. Prerequisite(s): Junior or graduate standing, and consent of the instructor.

407 Virtual Reality 1 0 TO 5 hours. A practical and conceptual exploration into the production of interactive virtual reality experiences for art and design. Virtual reality authoring tools and scripting. 4 undergraduate hours. 5 graduate hours. Extensive computer use required. Prerequisite(s): AD 309 and credit or concurrent registration in AD 405; and senior standing or above; or consent of the instructor.

408 Virtual Reality II 0 TO 5 hours. Advanced concepts and methods in interactive media and virtual reality production for art and design. Programming for customized software tool development. 4 undergraduate hours. 5 graduate hours. Extensive computer use required. Prerequisite(s): AD 405 and AD 407 and credit or concurrent registration in AD 409; and credit or concurrent registration in AD 415; and senior standing or above; or consent of the instructor.

409 Electronic Visualization: Senior Project 0 TO 5 hours. A practical and conceptual exploration into the production of a public interactive media event. 4 undergraduate hours. 5 graduate hours. Extensive computer use required. Prerequisite(s): AD 405 and AD 407 and credit or concurrent registration in AD 408; and senior standing or above; or consent of the instructor.

410 Advanced Special Topics in Graphic Design 1 TO 5 hours. Intensive workshops in specific graphic design related topics and techniques directed and announced by the instructor. 1 to 4 undergraduate hours. 2 to 5 graduate hours. May be repeated. A maximum of 8 hours of credit is allowed for undergraduates; 10 hours for graduate students. Extensive computer use required. Prerequisite(s): AD 315; and junior standing or above; and consent of the instructor. Portfolio review required.

411 Graphic Design Professional Practice 0 TO 5 hours. Design projects with real-world clients in the private or public sector. The designer/client relationship, 4 undergraduate hours. 5 graduate hours. Prerequisite(s): AD 315 and AD 317; and senior standing or above; and consent of the instructor.

412 Graphic Design Thesis 0 TO 5 hours. Thesis topics chosen in consultation with graphic design faculty. 4 undergraduate hours. 5 graduate hours. May be repeated up to 1 time. Prerequisite(s): Credit or concurrent registration in AD 315 and credit or concurrent registration in AD 317 and credit or concurrent registration in AD 411; and consent of the instructor.

413 Interactive Design 0 TO 5 hours. Advanced examination of graphic design in the new media technologies. 4 undergraduate hours. 5 graduate hours. Extensive computer use required. Prerequisite(s): AD 315 and credit or concurrent registration in AD 412; and senior standing or above.

414 Interactivity in Graphic Design 0 TO 5 hours. Advanced examination of graphic design in the new media technologies. 4 undergraduate hours. 5 graduate hours. Extensive computer use required. Prerequisite(s): AD 315 and AD 317 and credit or concurrent registration in AD 412.

415 Design Colloquium 4 OR 5 hours. Presentations, lectures, and discussions conducted by faculty, design professionals, and individuals from design-related disciplines. Overview and contextual understanding of design theory, practice, process, and research. 4 undergraduate hours. 5 graduate hours. Prerequisite(s): Senior standing or above, and consent of the instructor. Senior students must be in their final semester and preparing to graduate at the end of that semester.

418 Independent Study in Graphic Design 1 TO 5 hours. Supervised independent study in graphic design. 1 to 4 undergraduate hours. 2 to 5 graduate hours. May be repeated. A maximum of 8 hours of credit is allowed for undergraduates; 10 hours for graduate students. Extensive computer use required. Prerequisite(s): Senior standing or above and consent of the instructor. Taken by faculty invitation only.

420 Interdisciplinary Product Development I 0 TO 5 hours. "Real world" simulation collaborating in teams with other disciplines to assimilate and synthesize information into action plan, design development, and implementation within structured stage-gated product development process. 4 undergraduate hours. 5 graduate hours. Extensive computer use required. Prerequisite(s): AD 321 and AD 326 and credit or concurrent registration in AD 420; and senior standing or above; or consent of the instructor.

421 Interdisciplinary Product Development II 0 TO 5 hours. Advanced 2-D and 3-D methods in the design of interactive products and art works. Includes human factors, 3-D modeling, and design of 3-D virtual products. 4 undergraduate hours. 5 graduate hours. Extensive computer use required. Prerequisite(s): AD 420 and AD 422 and credit or concurrent registration in AD 423; and credit or concurrent registration in AD 415; and senior standing or above; or consent of the instructor.

422 Interactive Product Design Study 4 OR 5 hours. Capstone course that enables students to select and explore an area of industrial design research. 4 undergraduate hours. 5 graduate hours. Extensive computer use required. Prerequisite(s): AD 316 and AD 317 and credit or concurrent registration in AD 420 and AD 421; and credit or concurrent registration in AD 415; and senior standing or above; and consent of the instructor.

423 Industrial Design Thesis 0 TO 5 hours. Capstone course that enables students to select and explore an area of industrial design research. 4 undergraduate hours. 5 graduate hours. Extensive computer use required. Prerequisite(s): AD 316 and AD 317 and credit or concurrent registration in AD 420 and AD 421; and credit or concurrent registration in AD 415; and senior standing or above; and consent of the instructor.

424 Industrial Design Independent Study 4 OR 5 hours. Supervised independent study in any area of industrial design activity not covered in the regular curriculum. 4 undergraduate hours. 5 graduate hours. May be repeated up to 1 time. Prerequisite(s): AD 320 and AD 321 and senior standing or above; and consent of the instructor.

425 Design Visualization 0 TO 5 hours. Advanced principles, methodologies, and tools for designing both mechanical and electronic interactive products using digital tools as well as analysis utilizing prototyping and user-testing methods.
Applications include interactive Web site design, 4 undergraduate hours. 5 graduate hours. May be repeated up to 1 time. Extensive computer use required. **Prerequisite(s):** AD 322 and senior standing or above; and consent of the instructor.

### 462 Advanced Art/ Studio Critique 6 hours.
Critique/discussion for art majors. **Prerequisite(s):** AD 391 and senior standing or above; and consent of the instructor. Open only to Studio Arts, Photography, and Moving Image majors who have completed their major art requirements.

### 463 Art/Studio Thesis 6 hours.
Exhibition/thesis production and seminar culminating in an exhibition/final thesis show for graduating seniors. **Prerequisite(s):** AD 462 and senior standing or above; and consent of the instructor. Open only to Studio Arts, Photography, and Moving Image majors who have completed all requirements and are prepared to graduate.

### 471 Advanced Film/Video/ Animation 0 TO 5 hours.
Investigation of contemporary concerns in various areas of film and/or video activity under the direction of an instructor. 4 undergraduate hours. 5 graduate hours. May be repeated up to 2 times. **Prerequisite(s):** AD 272 or AD 474, and consent of the instructor.

### 472 Independent Study in Film/Video/ Electronic Visualization 4 TO 12 hours.
Supervised independent study in any areas of film, video production, or electronic visualization. May be repeated to a maximum of 12 hours. Students may register for more than one four-hour section per term, or repeat the course in four-hour sections in subsequent terms. **Prerequisite(s):** AD 12 hours in any film, video, and/or electronic visualization courses and consent of the instructor.

### 482 Visual and Verbal Literacy in Art Education 4 hours.
Explores relevance of critical theory, text-based contemporary art, cultural studies, and aesthetics to the school art curriculum. Strategies for incorporating reading and writing into arts education.

May be repeated once if grade is lower than B. Fieldwork required. **Prerequisite(s):** Grade of B or better in AD 261; and credit or concurrent registration in AD 382; and junior standing or above; and approval of the school.

### 484 Educational Practice with Seminar I 6 hours.
The first half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Field experience plus lecture, demonstration, and discussion. May be repeated once if grade lower than B. Graduate credit only with approval of the school.

**Prerequisite(s):** Grade of B or better in AD 261 and grade of B or better in AD 382 and grade of B or better in AD 482; and credit or concurrent registration in AD 485; and senior standing or above and completion of 100-clock hours of pre-student-teaching field experiences and approval of the school.

### 485 Educational Practice with Seminar II 6 hours.
The second half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Field experience, plus lecture, demonstration, and discussion. May be repeated once if grade lower than B. Graduate credit only with approval of the school.

**Prerequisite(s):** Grade of B or better in AD 261 and grade of B or better in AD 382 and grade of B or better in AD 482; and credit or concurrent registration in AD 484; and senior standing or above and good academic standing in a teacher education program and completion of 100-clock hours of pre-student-teaching field experience and approval of the school.

### 488 Computer Graphics I 0 TO 4 hours.
Principles of interactive computer graphics. Raster and vector display, techniques, and hardware considerations. Introduction to two-dimensional and three-dimensional rendering. Laboratory. **Same as** CS 488. 3 undergraduate hours. 4 graduate hours. **Prerequisite(s):** Credit or concurrent registration in CS 430.

### 494 Special Topics in Art Therapy 1 TO 5 hours.
Specializations, new developments, in-depth study of theory, process, application, or independent study. 1 to 4 undergraduate hours. 2 to 5 graduate hours. May be repeated. Students may register in more than one section per term. A maximum of 8 hours of credit is allowed for undergraduates; 10 hours for graduate students. **Prerequisite(s):** Consent of the instructor.

### 499 Cooperative Education 0 TO 4 hours.
Introduction to professional practice offering students the opportunity to couple academic learning with professional experience in an off-campus placement. Satisfactory/ Unsatisfactory grading only. May be repeated. Only 6 hours of credit may be counted toward satisfying requirements for any art and design major. **Prerequisite(s):** Junior standing, a minimum cumulative grade point average of 3.00, and approval of the school.

### 500 Art and Design Teaching Internship 0 TO 2 hours.
Practical and theoretical aspects of teaching lecture/lab studio, and/or seminar courses in art and design. Satisfactory/Unsatisfactory grading only. May be repeated. No graduation credit. **Prerequisite(s):** Consent of the instructor and consent of director of graduate studies.

### 502 Seminar in Contemporary Theory 4 hours.
Developments and current issues in contemporary design, studio, and media arts; major philosophies, debates, and social/environmental aspects (may include visiting lecturers, critics, and discussants). May be repeated. Must be repeated for a minimum of 16 hours of credit. **Prerequisite(s):** Consent of the school, graduate faculty committee, and the student’s adviser.

### 507 Special Projects in Art and Design 0 TO 16 hours.
Student initiated projects not covered in available curriculum. May be repeated. Students may register in more than one section per term. **Prerequisite(s):** Consent of the sponsoring instructor and the graduate faculty committee in the student’s area of specialization.

### 508 Advanced Electronic Visualization and Critique 4 hours.
Individualized graduate study; creative projects and research in electronic visualization through a consensual agreement with graduate adviser. May be repeated. **Prerequisite(s):** Consent of the school graduate faculty committee and the student’s adviser.

### 510 Advanced Graphic Design and Critique 4 hours.
Individualized graduate study; creative projects and research in graphic design by each student through consensual agreement with graduate faculty committee. May be repeated. **Prerequisite(s):** Approval of the school graduate faculty committee.

### 511 Advanced Industrial Design and Critique 4 hours.
Individualized graduate study; creative projects and research in industrial design by each student through consensual agreement with graduate adviser. May be repeated. **Prerequisite(s):** Consent of the school graduate faculty committee and the student’s adviser.

### 520 Advanced Industrial Design 5 hours.
Individualized graduate study; creative projects and research in industrial design by each student through consensual agreement with graduate faculty committee. May be repeated. **Prerequisite(s):** Approval of the school graduate faculty committee.

### 521 Advanced Industrial Design 5 hours.
Individualized graduate study; creative projects and research in industrial design by each student through consensual agreement with graduate adviser. May be repeated. **Prerequisite(s):** Consent of the school graduate faculty committee and the student’s adviser.
530 Advanced Studio Arts and Critique 4 hours. Individualized graduate study; creative projects and research in studio arts by each student through consultive agreement with graduate faculty committee. May be repeated. Prerequisite(s): Approval of the school graduate faculty committee.

531 Advanced Studio Arts 5 hours. Individualized graduate study; creative projects and research in studio arts by each student through consultive agreement with graduate adviser. May be repeated. Prerequisite(s): Consent of the School graduate faculty committee and the student’s adviser.

540 Advanced Photography and Critique 4 hours. A forum for presenting and discussing individual work with all photography graduates and faculty participating. May be repeated. Prerequisite(s): Approval of the school graduate faculty committee.

541 Advanced Photography 5 hours. Individualized graduate study; creative projects and research in photography by each student through consultive agreement with graduate adviser. May be repeated. Prerequisite(s): Consent of the school graduate faculty committee and the student’s adviser.

542 Advanced Film/Animation/Video and Critique 4 hours. Individualized graduate study; projects for creative research in film, video, and animation by each student through conference and consultive agreement with graduate faculty committee. May involve supportive consultation in other areas. May be repeated. Prerequisite(s): Approval of the school graduate faculty committee.

543 Advanced Film/Animation/Video 5 hours. Individualized graduate study; projects for creative research in film, video, and animation by each student through consultive agreement with graduate adviser. May involve supportive consultation in other areas. May be repeated. Prerequisite(s): Approval of the school graduate faculty committee and the student’s adviser.

588 Computer Graphics II 4 hours. State of the art in computer graphics and interactive techniques: Three-dimensional surface and volumetric models. A laboratory is required. Same as CS 526. Prerequisite(s): CS 448.

594 Special Topics in Art and Design 1 TO 4 hours. Specialized research topics in art and design directed and announced by the instructor. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor and the student’s adviser.

597 Master’s Project 0 TO 16 hours. Independent research under faculty supervision in a specific area of interest. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 16 hours. Prerequisite(s): 29 hours of 500-level courses and consent of the instructor.

Art History (AH)

404 Topics in Architecture, Art, and Design 3 OR 4 hours. Selected topics in the history of European and North American architecture, art, and design. 3 undergraduate hours. 4 graduate hours. May be repeated up to 2 times if topics vary. Students may register in more than one section per term. Prerequisite(s): 3 hours of art history at the 200-level or consent of the instructor.

420 History of Architecture I 4 hours. Introduction to architecture, urbanism, and architectural theory worldwide from antiquity to 1450. Prerequisite(s): Graduating standing.

421 History of Architecture II 4 hours. Introduction to architecture, urbanism, and architectural theory worldwide from 1450 to the present. Prerequisite(s): Graduating standing and AH 420.

422 Topics in the Literature of Architecture 3 OR 4 hours. Discussion of selected readings in the theory and criticism of architecture. 3 undergraduate hours. 4 graduate hours. May be repeated if topics vary. Prerequisite(s): 3 hours in the history of architecture or consent of the instructor.

423 Topics in Modern and Contemporary Architecture 4 hours. Selected topics in modern and contemporary architecture. May be repeated if topics vary. Prerequisite(s): Graduating standing and, if required, 4 hours in the history of architecture or consent of the instructor.

424 Topics in Architecture and Urban Form in Chicago 2 TO 4 hours. Topics on the development of the built environment of the Chicago metropolitan area, and the effect of its architecture of social, political, and economic forces.

430 Contemporary Photography 3 OR 4 hours. Developments in the history of photography since 1950. 3 undergraduate hours. 4 graduate hours. May be repeated if topics vary. Prerequisite(s): 3 hours in the history of photography or consent of the instructor.

432 Topics in Film and Video 3 OR 4 hours. Selected topics in the history of film or video. 3 undergraduate hours. 4 graduate hours. May be repeated if topics vary. Prerequisite(s): 3 hours in the history of film or consent of the instructor.

434 Women and Film 3 OR 4 hours. Role and representation of women in classical Hollywood, European art, and independent feminist cinemas. Same as ENGL 472 and GWS 472. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ENGL 302 or ENGL 342 or ENGL 361 or ENGL 362 or ENGL 363, and senior standing or above, or consent of instructor.

435 Topics in Modern and Contemporary Design 3 OR 4 hours. Topics in modern and contemporary design. 3 undergraduate hours. 4 graduate hours. May be repeated if topics vary. Prerequisite(s): 3 hours in the history of design or consent of the instructor.

441 Topics in Medieval Art and Architecture 3 OR 4 hours. Selected topics in European art and architecture of the Middle Ages. 3 undergraduate hours. 4 graduate hours. May be repeated if topics vary. Prerequisite(s): 3 hours of medieval art and architecture or consent of the instructor.

450 Topics in Renaissance Art 3 OR 4 hours. Selected topics in Early Renaissance, High Renaissance, or Mannerist Art and Architecture. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): 3 hours in art history at the 200-level or above, or consent of the instructor.

460 Topics in Modern and Contemporary Art 3 OR 4 hours. Selected topics in nineteenth- and twentieth-century modern and contemporary art. 3 undergraduate hours. 4 graduate hours. May be repeated if topics vary. Prerequisite(s): 3 hours of modern art and architecture or consent of the instructor.

463 Topics in North American Art and Architecture 3 OR 4 hours. Selected topics in North American art and architecture from colonial times to 1945. 3 undergraduate hours. 4 graduate hours. May be repeated if topics vary. Prerequisite(s): 3 hours of North American art and architecture or consent of the instructor.

464 Topics on Art in Chicago 2 TO 4 hours. Topics on the survey of art in Chicago, from the nineteenth century to the present, with an emphasis on contemporary Chicago art expressions.

465 Arts of the Black Atlantic 3 OR 4 hours. Interdisciplinary and discursive explorations of the visual and artistic expressions of artists of African descent in the New World. 3 undergraduate hours. 4 graduate hours.

470 Topics in Non-Western Art and Architecture 3 OR 4 hours. Selected topics in the art and architecture of Africa, Asia, Oceania, and the indigenous peoples of the Americas. 3 undergraduate hours. 4 graduate hours. May be repeated if topics vary.
471 Topics in Asian Art and Architecture 3 OR 4 hours.
Selected topics in the art and architecture of Asia. Same as ASST 471. 3 undergraduate hours. 4 graduate hours. May be repeated if topics vary. Prerequisite(s): 3 hours of Asian art and/or architecture or consent of the instructor.

480 History of Collecting and Museology 3 OR 4 hours.
The history of collecting and patronage: public and private collections, museums, and commercial art galleries. Government funding and the arts. Exhibition planning, research, selection, and catalog preparation. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): AH 110 and AH 111 or consent of the instructor.

481 Museum Practices 3 OR 4 hours.
Administration of visual arts organizations, their budgets, staffing, structures, accreditation, and long-range planning. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): AH 480 or consent of the instructor.

482 Museology Internship 6 OR 8 hours.
Practical supervised experience in institutions serving the visual arts. Placements in museums, community art centers, college, commercial, or nontraditional galleries, and public libraries. Prerequisite(s): AH 481 or consent of the instructor.

485 Introduction to Historic Preservation 3 OR 4 hours.
Preservation planning, historic building restoration, and the political and economic factors affecting the conservation of historic resources. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of art history at the 200-level or consent of the instructor.

490 Honors Thesis 3 hours.
Individual study on a project selected with the approval of the adviser. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Open only to seniors.

491 Study Abroad in Art History 0 TO 12 hours.
Study abroad within an approved foreign exchange program or department-sponsored program. May be repeated without approval. Approval to repeat course granted by the department. Prerequisite(s): Approval of the department.

492 Readings in Art and Architecture History 3 OR 4 hours.
Individually planned readings on selected topics under the supervision of a faculty member. 3 undergraduate hours. 4 graduate hours. May be repeated up to 2 times. Students may register in more than one section per term. Prerequisite(s): Junior standing and 3 hours of Art History above the 100-level and consent of the instructor. Enrollment priority will be given to majors and graduate students in Art History.

510 Historiography of the Visual Arts, 1750 to 1960 4 hours.
Examines some of the intellectual underpinnings of art history, theory, and criticism and explores ways of doing research and making arguments in art history. Prerequisite(s): Graduate standing in Art History or consent of the instructor.

511 Toward New Histories of the Visual Arts, 1960 to the Present 4 hours.
Examines the transformation of Art History theory and criticism since 1960, with regard to issues of gender, class, ethnicity, popular culture, postcolonialism, and contemporary aesthetics. Prerequisite(s): Graduate standing in Art History or consent of the instructor.

515 Art History Teaching Seminar 0 hours.
Theoretical and practical aspects of teaching in undergraduate courses in the history of visual arts. Satisfactory/Unsatisfactory grading only. May be repeated up to 1 time. Prerequisite(s): Graduate standing in the Art History program and appointment as a teaching assistant in the department.

522 Issues in Architecture, Design and Urbanism 4 hours.
Theories and contemporary critical issues relating to the history of the environment created and modified by people. Readings and presentations on historic and regional variations.

530 Seminar in the History of Photography 4 hours.
Selected topics in the history of photography, with emphasis on primary source materials for research purposes. May be repeated if topics vary.

550 Seminar in Renaissance and Baroque Art and Architecture 4 hours.
European art and architecture of the Renaissance. May be repeated if topics vary.

560 Seminar in Modern Architecture, Art, and Design 4 hours.
North American and European art, architecture, and design between 1780 and 1945. May be repeated if topics vary. Students may register in more than one section per term.

561 Seminar in Contemporary Architecture and Art 4 hours.
Selected topics in recent North American or European art, architecture, and design. Prerequisite(s): Consent of the instructor.

562 Issues in the Art of the Americas 4 hours.
Historical, theoretical, and critical issues in the art of the Americas and the Caribbean; indigenous, imported, and diasporan cultures and the interaction between them.

563 Seminar in North American Architecture and Art 4 hours.
North American art and architecture from the colonial period to 1945. May be repeated if topics vary. Prerequisite(s): Consent of the instructor.

570 Seminar in Non-Western Art and Architecture 4 hours.
Selected topics in Pre-Columbian, North American Indian, African, and Oceanic art.

590 MA Paper Research 0 hours.
Student will work with adviser on two qualifying papers. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor.

592 Preliminary Examination Research 0 TO 16 hours.
Supervised research and reading in preparation for the preliminary examinations. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 12 hours. Prerequisite(s): Open only to PhD degree students. Only by consent of the director of graduate studies and after all other coursework has been completed.

596 Readings in Art and Architecture 1 TO 4 hours.
Individually planned readings on selected topics under the supervision of a faculty member. Prerequisite(s): Consent of the instructor.

598 Master’s Thesis Research 0 TO 8 hours.
Individual research under faculty direction. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 8 hours. Prerequisite(s): Consent of the instructor.

599 PhD Dissertation Research 0 TO 16 hours.
Supervised research on the part of the student. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 24 hours. Prerequisite(s): Consent of the instructor and satisfactory completion of the preliminary examination.

Asian Studies (ASST) 471 Topics in Asian Art and Architecture 3 OR 4 hours.
Selected topics in the art and architecture of Asia. Same as AH 471. 3 undergraduate hours. 4 graduate hours. May be repeated if topics vary. Prerequisite(s): 3 hours of Asian art and/or architecture or consent of the instructor.

472 Issues and Events in Twentieth-Century China 3 OR 4 hours.
Covers the events, places, people, political movements, ideologies, and issues that shaped twentieth-century China, and considers different approaches to the writing of that history. Same as HST 472. 3 undergraduate hours. 4 graduate hours. Recommended background: Previous course work in Chinese history at the 100- or 200-level.

473 Topics in East Asian History 3 OR 4 hours.
Specific topics are announced each term. Same as HST 473. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of East Asian history or consent of the instructor.
478 **Women in Chinese History**
3 OR 4 hours.
Focuses on scholarship on women in Chinese society throughout history, dealing with topics such as marriage and family, literacy, career options, women in revolution, and the historiography of the field. Same as GWS 478, and HST 478. 3 undergraduate hours. 4 graduate hours.
Recommended background: Previous course work in Chinese history or women's studies.

479 **Culture and Colonialism in South Asia**
3 OR 4 hours.
Examines the emergence of colonial cultures of domination and resistance on the Indian subcontinent from the 18th century to 1947. Same as ANTH 479 and HST 479. 3 undergraduate hours. 4 graduate hours.

**Associated Health Sciences (AHS)**

495 **Urban Health Multicultural Seminar**
1 hour.
Students attend multicultural and urban health-related seminars, participate in faculty-student discussion, academic presentations, and directed reading groups to integrate issues of cultural difference into students' professional development. Satisfactory/Unsatisfactory grading only. May be repeated. All Academy seminars are pre-approved; other approved events will be announced to students. Any off-campus events must have prior approval. One academic year is required for completion of seminar. Students should register the semester they begin attending lectures; grades will be deferred until course is completed. Prerequisite(s): Sophomore standing or above.

510 **Research Methods in Allied Health**
3 hours.
Application of basic concepts of research methodology to allied health, including problem formulation, research design, sampling, measurement, and data analysis. Emphasis on critique of research studies and preliminary proposal writing. Prerequisite(s): Consent of the instructor.

512 **Experimental Design and Analysis in Molecular Genetics**
4 hours.
Methods and logic in analysis of gene function, gene cloning, analysis of genetic changes, studies of gene expression, design of experimental controls. Prerequisite(s): GOLS 501 or consent of the instructor.

537 **Structure of Biopolymers**
3 hours.
Explores the relationship between structural stability, kinetic properties, and function of biopolymers, with particular emphasis on proteins and nucleic acids. Same as MIM 513 and PMPG 513. Prerequisite(s): GOLS 501 and one year of physical chemistry, or consent of the instructor.

514 **Structure and Function of Nucleic Acids**
4 hours.
Describes the structure and function of nucleic acids. Unravels the basic molecular mechanisms underlying heredity, including replication, transcription, and recombination. Prerequisite(s): GOLS 501 or consent of the instructor.

515 **Journal Club**
1 hour.
Student presentation and critical analysis of recent journal articles and current topics in biochemistry and molecular genetics. Prerequisite(s): Consent of the instructor.

522 **Strategies for Effective Scientific Communication**
1 hour.
Development of critical skills for evaluation, development, and execution of forms of scientific communication, including research and grant proposals, manuscripts describing original research, and review summaries. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor.

526 **Molecular and Genetic Analysis of Development**
3 hours.
Examines developmental mechanisms used in animal model systems. Same as BIOS 526. Prerequisite(s): Graduate standing or consent of the instructor.

531 **Medical Microbiology I**
3 hours.
Chemistry of biopolymers; enzymology, metabolism of carbohydrates, lipids, amino acids and proteins; molecular biology. Prerequisite(s): Membership in the medical school class or consent of the instructor. Intended primarily for first-year medical students.

532 **Introduction to Molecular Medicine and Genetics**
3 hours.
Introduction to the principles of molecular medicine and genetics, including molecular biology, hemostasis, gene therapy, mechanisms of mutation, pharmacogenomics, cancer genetics, and immunogenetics. Intended primarily for medical students. Prerequisite(s): BCMG 551 and membership in the medical school and consent of the course coordinator.

533 **Nutrition for Medical Students**
2 hours.
Biochemical and nutritional basis of disease including heart disease, hypertension, obesity, malnutrition, and cancer. Prerequisite(s): BCMG 551 and BCMG 552 and membership in the medical school or consent of the instructor. Intended primarily for medical students.

561 **Biochemistry of Cellular Regulation**
3 hours.
Membrane structure and function, transport, receptor and signal transduction mechanisms, and growth factors. Cytoskeleton and motility, cell-cell communication, enzyme cascades, and cellular control mechanisms.

563 **Principles of Molecular Medicine**
3 hours.
A lecture/discussion/writing course which integrates biochemical and molecular biological concepts into a clinical context. Diseases will be described in terms of molecular mechanisms. Prerequisite(s): Consent of the instructor.
575
Topics in Biochemistry and Molecular Genetics 3 hours.
Students will be exposed to, present, and discuss recent scientific literature in biochemistry and molecular genetics. Prerequisite(s): Completion of the first year of the program and consent of the instructor.

594
Special Topics in Biochemistry and Molecular Genetics 1 TO 3 hours.
Topics of current interest in the field of biochemistry and molecular genetics. May include protein structure, membrane proteins and trafficking, development and gene regulation, signal transduction, and cancer biology. May be repeated to a maximum of 6 hours. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

595
Seminars 1 hour.
Research presentations by graduate students in the Biochemistry and Molecular Genetics program. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

598
Master's Thesis Research 0 TO 16 hours.
Investigation carried out by MS candidate under the direction of a faculty member leading to the MS in Biochemistry and Molecular Genetics. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

599
Ph.D. Thesis Research 0 TO 16 hours.
Independent dissertation research by the student, under the guidance of the adviser. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Advanced standing in the Ph.D. in Biochemistry and Molecular Genetics program.

Bioengineering (BIOE)

402
Medical Technology Assessment 2 OR 3 hours.
Biotechnology course. Assessment of medical technology in the context of commercialization. Objectives, competition, market share, funding, pricing, manufacturing, growth, and intellectual property; many issues unique to biomedical products. 2 undergraduate hours. 3 graduate hours. Prerequisite(s): Junior standing or above and consent of the instructor.

406
Regulation and Manufacturing Practices in Medical Technology 2 OR 3 hours.
Biotechnology course. Product requirement definition, FDA, quality system regulation, community Europe, medical device directive, role of management, United States pharmacopoeia, toxicity testing, hazard analysis, risk assessment, import/export. 2 undergraduate hours. 3 graduate hours. Prerequisite(s): Junior standing or above and consent of the instructor.

407
Pattern Recognition I 3 OR 4 hours.
The design of automated systems for detection, recognition, classification, and diagnosis. Parametric and nonparametric decision-making techniques. Applications in computerized medical and industrial image and waveform analysis. Same as ECE 407. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): MATH 220.

408
Medical Product Development 2 OR 3 hours.
Biotechnology course. Major stages of medical product development (investigative, feasibility, development, commercialization, maturation, and growth), regulatory issues, product performance, failure mode and effect analysis, hazard analysis, 2 undergraduate hours. 3 graduate hours. Prerequisite(s): Junior standing or above and consent of the instructor.

415
Biomechanics 3 OR 4 hours.
Use of rigid and deformable bodies and rigid body dynamics to analyze various aspects of the human musculoskeletal system. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CME 204 and ME 210, and either BIOS 442 or BIOS 443.

420
Introduction to Field and Waves in Biological Tissues 3 OR 4 hours.
Principles of electromagnetic and ultrasonic interaction with biological systems; characterization of biological materials; diagnostic and therapeutic uses; and techniques of dosimetry and measurement. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ECE 310.

421
Biomedical Imaging 3 OR 4 hours.
Introduction to engineering and scientific principles associated with X-ray, magnetic resonance, ultrasound, computed tomographic, and nuclear imaging. 3 undergraduate hours. 4 graduate hours. Extensive computer use required. Prerequisite(s): MATH 210 and PHYS 142.

430
Bioinstrumentation and Measurement Laboratory 2 hours.
Practical experience in the use of biomedicine instrumentation for physiological measurements. Prerequisite(s): Credit or concurrent registration in BIOE 430.

432
Bioinstrumentation and Measurements II 3 OR 4 hours.
Principles of bioinstrumentation for the assessment of physiological function and therapeutic intervention. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): BIOE 430.

433
Bioinstrumentation and Measurements II Laboratory 1 hour.
Laboratory experiments using instruments to assess physiological function. Prerequisite(s): Credit or concurrent registration in BIOE 432.

439
Biostatistics II 4 hours.
Statistical treatment of data, model estimation, and inference are treated in a framework of biological experiments and attributes of data generated from such experiments. Credit is not given for BIOE 439 if the student has credit for BSTT 400. Extensive computer use required. Prerequisite(s): MATH 210 and CS 108 and consent of the instructor. Recommended background: Knowledge of MATLAB.

440
Biological Signal Analysis 3 OR 4 hours.
Analysis of signals of biological origin. Transient signals, Stability analysis. Control. Probabilities, stochastic processes. Medical applications. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): MATH 210 and senior or graduate standing.

450
Molecular Biophysics of the Cell 4 hours.
Introduction to molecular length, time, force, energy scales; statistical thermodynamics of solutions; DNA, RNA, and protein structure and function; experimental methods. Same as PHYS 450. Prerequisite(s): PHYS 245 or the equivalent.

452
Biocontrol 3 OR 4 hours.
Considers the unique characteristics of physiological systems using the framework of linear systems and control theory. Static and dynamic operating characteristics, stability, and the relationship of physiology control function. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ECE 310; and either BIOS 442 or BIOS 443.

455
Introduction to Cell and Tissue Engineering 3 OR 4 hours.
Foundation of cell and tissue engineering covering cell technology, construct technology, and cell-substrate interactions. Emphasis on emerging trends and technologies in tissue engineering. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): BIOS 100 and CME 260 or the equivalent.

456
Cell and Tissue Engineering Laboratory 2 hours.
Includes polymer scaffold fabrication, microstamping biomolecules, cellular adhesion and proliferation assays, and immuno/fluorescent tagging. Prerequisite(s): BIOE 455 or consent of the instructor.

460
Materials in Bioengineering 3 OR 4 hours.
Analysis and design considerations of problems associated with prostheses and other implanted biomedical devices. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CME 260 and either BIOS 442 or BIOS 443.

470
Bio-Optics 3 OR 4 hours.
Physical principles and instrumentation relevant to the use of light in...
biomedical research. Several current and developing clinical applications are explored. 3 undergraduate hours; 4 graduate hours.

**Prerequisite(s):** PHYS 442.

### 472 Models of the Nervous System 3 OR 4 hours.

Mathematical models of neural excitation and nerve conduction, stochastic models and simulation of neuronal activity, models of neuron pools and information processing, models of specific neural networks. 3 undergraduate hours; 4 graduate hours.

**Prerequisite(s):** PHYS 442 and either BIOS 442 or BIOS 443.

### 475 Neural Engineering I: Introduction to Hybrid Neural Systems 3 OR 4 hours.

Modeling, design, and analysis of hybrid systems comprised of living neurons and artificial components; examples drawn from neural and neuromuscular prostheses, biosensors, and biopotential control of robotics. Same as BIOS 475. 3 undergraduate hours; 4 graduate hours.

**Prerequisite(s):** BIOS 442 and credit or concurrent registration in BIOS 472.

### 476 Neural Engineering Laboratory 2 hours.

Hands-on experience with computational and experimental models of engineered neural systems, with emphasis on neuroprosthetics and biosensors. Animals used in instruction. **Prerequisite(s):** Credit or concurrent registration in BIOS 475.

### 480 Introduction to Bioinformatics 3 OR 4 hours.

Computational analysis of genomic sequences and other high throughput data. Sequence alignment, dynamic programming, database search, protein motifs, cDNA expression array, and structural bioinformatics. 3 undergraduate hours; 4 graduate hours.

**Prerequisite(s):** BIOS 100 and CS 201; or consent of the instructor.

### 481 Bioinformatics Laboratory 2 hours.

How to use bioinformatics tools, including sequence alignment methods such as Blast, FastA, and Pfam, as well as structural bioinformatics tools, such as Rasmol and CastP. Extensive computer use required.

**Prerequisite(s):** Credit or concurrent registration in BIOS 480; and senior standing or above; and consent of the instructor.

482 Introduction to Optimization Methods in Bioinformatics 3 OR 4 hours.

The objectives are to provide the students with a basis for understanding principles of the optimization methods and insight on how these methods are used in bioinformatics. 3 undergraduate hours; 4 graduate hours. Extensive computer use required.

**Prerequisite(s):** BIOS 100 and CS 201.

### 483 Molecular Modeling in Bioinformatics 3 OR 4 hours.

Basic structural and dynamics tools in protein structure prediction, structure comparison, function prediction, Monte Carlo, and molecular dynamics simulations. 3 undergraduate hours; 4 graduate hours.

**Prerequisite(s):** BIOS 442 or consent of the instructor.

### 494 Special Topics in Bioengineering 1 TO 4 hours.

Special topics to be arranged. May be repeated. Students may register in more than one section per term. **Prerequisite(s):** Consent of the instructor.

### 500 Interfacial Biosystems Engineering 4 hours.

Advanced and detailed exposition of the fundamentals of biological systems using quantitative approaches. Areas of concentration include bioinformatics, cell and tissue engineering, and neuroengineering.

**Prerequisite(s):** BIOS 442.

### 504 Emerging Medical Technologies 2 hours.

Investigates new and emerging medical technologies following the technical due diligence process. **Prerequisite(s):** BIOS 401 or BIOS 402 or BIOS 403 or the equivalent.

### 514 Biotransport 4 hours.

Diffusion and flow in living systems. Blood rheology and flow, microcirculation, oxygen transport, diffusive transport across membranes. Membrane structure, water and ion flows, active transport. Same as CHE 514. **Prerequisite(s):** CHE 410 or consent of the instructor.

### 515 Mechanics of the Human Spine 4 hours.

Biomechanics as applied to the human spine. Spinal loading.

### 522 Principles of Polymeric Science and Engineering 3 hours.

Intermediate polymer science, thermodynamics of polymer solutions, phase separations, MWD determination, crystallization, elasticity, kinetics, and processing.

**Same as:** BPS 522. **Prerequisite(s):** MATH 220 or consent of the instructor.

### 525 Physiological and Cellular Effects of Biomechanical Forces 4 hours.

Discuss how biomechanical forces are generated, the impact the forces have on cells and tissues, plus methods for studying them. Mechanisms by which cells may sense forces and transduce this information to the nucleus are also covered.

**Prerequisite(s):** Consent of the instructor.

### 540 Micro and Nanotechnology for Biomedical Applications 4 hours.

This course covers selected topics in micro and nanotechnology underlying biomedical applications; topics include: microfluidic and nanofabrication; microfluidic processes; neuralMEMS; nanoscale structures as functional biointerfaces.

**Prerequisite(s):** PHYS 244.

### 550 Principles of Cell and Tissue Engineering 4 hours.

Introduction to tissue engineering. Presents principles of biomedical, biochemical, and biomaterials science applied to tissue-engineered organ replacements, implantable medical devices, and drug delivery systems. **Prerequisite(s):** BIOS 442 or BIOS 443; and CME 260. Recommended background: A course in cell biology.

### 552 Advanced Biocontrol 4 hours.

Modeling and analysis of physiological systems, including such topics as adaptive control, statistical analysis, error signal analysis and the characterization of individual neural control elements.

**Prerequisite(s):** BIOS 452.

### 560 Processing and Properties of Structural Biomaterials 4 hours.

Considers the interrelationships between atomic bonding, atomic/molecular structure, and material processing to provide a fundamental understanding of the properties and performance of advanced biomaterials.

**Prerequisite(s):** CME 260. Recommended background: Credit in BIOS 460.

### 575 Neural Engineering II—Neural Coding 4 hours.

Analytical techniques and models used to assess and predict neural activity. Emphasis on information coding in sensory systems.

**Prerequisite(s):** Consent of the instructor. Recommended background: Working knowledge of M at Lab.

### 576 Sensory Prostheses Engineering 4 hours.

Critical review of existing and emerging prosthetic devices for sensory systems damaged by trauma or disease. Technology and information flow in hybrid systems are emphasized. **Prerequisite(s):** BIOS 475 and BIOS 442; or consent of the instructor.

### 579 Neural and Neuromuscular Prostheses 4 hours.

Neuromuscular electrical stimulation for ambulation by paryleneics, of upper limb in tetraplegics, of vocal cord and breathing functions, stimulation of bladder, recta, and visual cortex.

**Prerequisite(s):** Consent of the instructor.

### 580 Principles of Bioinformatics 4 hours.

Bioinformatics analysis of sequence, phylogeny and molecular structure. Focus on probabilistic models and algorithms, as well as structural
analysis. Extensive computer use required. Prerequisite(s): BOE 480, and graduate or professional standing; or consent of the instructor. Recommended background: Exposure to biochemistry, molecular biology, or evolution.

590 Internship in Bioengineering 1 TO 4 hours. Current clinical practice experience in a healthcare setting culminating in a written and oral report. Satisfactory/Unsatisfactory grading only. Prerequisite(s): BOE 430 and BOE 431 and BOE 479.

594 Advanced Special Topics in Bioengineering 1 TO 4 hours. Systematic review of selected topics in bioengineering theory and practice. Subjects vary from year to year. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

595 Seminar on Bioengineering 0 TO 1 hour. Recent innovations in bioengineering theory and practice presented by invited speakers, faculty, and graduate students. Satisfactory/Unsatisfactory grading only. May be repeated. Students who are presenting seminars should register for 1 hour, others for 0 hours.

596 Independent Study 1 TO 5 hours. Research on special problems not included in thesis research. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

598 Masters Thesis Research 0 TO 16 hours. Research in MS thesis project. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term.

599 PhD Thesis Research 0 TO 16 hours. Research in PhD thesis project. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term.

Biological Sciences (BIOS)

402 Educational Practice with Seminar I 6 hours. The first half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Graduate credit only with approval of the department. Prerequisite(s): Good academic standing in a teacher education program, completion of 100-clock hours of pre-student-teaching field experiences, and approval of the department.

403 Educational Practice with Seminar II 6 hours. The second half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Graduate credit only with approval of the department. Prerequisite(s): Good academic standing in a teacher education program, completion of 100-clock hours of pre-student-teaching field experiences, credit or concurrent registration in BIOS 402, and approval of the department.

416 Natural Products 3 OR 4 hours. Biogenetic approach to secondary metabolites. General principles and selected studies of phenolic compounds, terpenes, alkaloids, and other interesting natural products. Same as CHEM 456. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): One year of organic chemistry.

424 Mammalian Histology 4 hours. The microscopic anatomy of tissues and organs in relation to their function. Prerequisite(s): BIOS 225 or BIOS 272.

429 Laboratory in Electron Microscopy 3 hours. Laboratory instruction in cell preparation and instrument operation in transmission and scanning electron microscopy. Satisfactory/Unsatisfactory grading only.

Animals used in instruction. Prerequisite(s): Consent of the instructor.

430 Evolution 4 hours. Mechanisms of genetic and phenotypic stability and change in populations and species; modes of speciation and macroevolution; trends in evolution. Lecture and discussion. Prerequisite(s): BIOS 220.

431 Plant and Animal Interactions 3 hours. Ecology of nonsymbiotic relationships of plants and animals, including protection mutualisms, pollination, seed dispersal, animal herbivory, and plant defense. Prerequisite(s): BIOS 100 and BIOS 101 or the equivalent, and any 200- or 300-level course in biological sciences.

432 Restoration Ecology 3 hours. Philosophical, historical, and ecological basis for ecological restoration with emphasis on readings in the primary literature and writing. Prerequisite(s): BIOS 330 or the equivalent.

433 Plant Diversity and Conservation 4 hours. Focus on seed-plant diversity; morphological features and family identification; major evolutionary process; evolutionary relationships among plant groups; and goals, problems, and progress in the conservation of plant diversity. Prerequisite(s): BIOS 230.

434 Population Biology 3 hours. Evolution, ecology, genetics, and geography of populations; role of genetic and phenotypic variation in the regulation of population numbers and evolutionary potential and on the analysis of population data. Prerequisite(s): BIOS 220 and MATH 180.

442 Nerve and Muscle Physiology 4 hours. Function of excitable cells in neural, muscular, and cardiovascular tissues will be studied at both cellular and system levels. Prerequisite(s): Two years of biological sciences.

443 Animal Physiological Systems 4 hours. Basic function of renal, respiratory, and digestive systems. Integrative role of endocrine systems. Animals used in instruction. Prerequisite(s): Two years of biological sciences.

Recommended background: Credit in BIOS 442.

448 Environmental Toxicology 3 hours. Sources of environmental pollution and their ecological and health effects. Prerequisite(s): BIOS 100 and BIOS 101; and one physiology course; and credit or concurrent registration in CHEM 232.

450 Advanced Microbiology 3 hours. Comprehensive analysis of metabolic, ecological, phylogenetic, and cytoplologial diversity among the major groups of eubacteria and archaeabacteria. Prerequisite(s): BIOS 350. Recommended background: Credit in BIOS 456 is strongly recommended.

452 Biochemistry I 4 hours. Chemistry of proteins, nucleic acids, carbohydrates, and lipids. Same as CHEM 452. Prerequisite(s): Credit or concurrent registration in CHEM 234.

454 Biochemistry II 4 hours. Continues BIOS 452. Carbohydrate and lipid metabolism, electron transport. Metabolism of amino acids, nucleic acids, proteins. Biosynthesis of macromolecules and regulation of macromolecular synthesis. Same as CHEM 454. Prerequisite(s): BIOS 452 or CHEM 452.

457 General Virology 4 hours. Nature of viruses, their morphology, chemical composition, assay, host-parasite interactions, and life cycles. Prerequisite(s): BIOS 220; and either BIOS 222 or BIOS 350.

466 Principles of Paleontology 4 hours. Theory and methods of evolutionary paleobiology; includes paleoecology, functional morphology, and major features of organic evolution. Same as EANS 466. Prerequisite(s): EANS 360 or BIOS 360 or consent of the instructor.

475 Neural Engineering I: Introduction to Hybrid Neural Systems 3 OR 4 hours. Modeling, design, and analysis of hybrid systems comprised of living neurons and artificial components; examples drawn from neural and neuromuscular prostheses, biosensors, and bioprotect control of
repeat. Students may register in
of DNA, RNA, and proteins; princi­
physiological, anatomical, and bio­
splicing, developmental regulation; 
protein secretion and targeting.

Methods in Modern 
presentation. Satisfactory/
learning, memory, and language. 
and evolution. Credit is given only
ation of BIOS/PSCH/PHIL 484.

works, and other electrically theories of distribution and abun-
Laboratory 3 hours. Population Ecology 3 hours. 
neurobiology, action potential mechanisms, synaptic transmis-
tions of techniques used to ana-
uclear neurobiology, action potential mechanisms, synaptic transmis-
stion, student presentations, and critical discus-
Credit varies according to the topic offered. May be repeated.
Students may register in more than one section per term.

Research 
Seminar 1 TO 2 hours. 
Presentation of student research with an emphasis on problem-
solving and theoretical implica-
tions. Satisfactory/Unsatisfactory grading only. May be repeated.
Prerequisite(s): Consent of instructor.

Introduction to 
Laboratory 
Research 2 TO 6 hours. 
A hands-on, in-depth introduction to selected research topics and lab oratory techniques designed for the beginning graduate student. Satisfactory/Unsatisfactory grading only May be repeated. Students may register in more than one section per term. 
Prerequisite(s): Consent of the instructor.

Special Topics in 
Biological 
Sciences 1 TO 2 hours. 
Selected aspects in biological sciences. Credit varies according to the seminar offered. May be repeated. Students may register in more than one section per term.

Departmental Seminar 0 hours. 
Weekly seminar by staff and invited speakers. Required of graduate students every semester. Satisfactory/Unsatisfactory grading only. May be repeated.

Independent Study 1 TO 4 hours. 
Individualized research projects of limited scope. Not to be used for MS/PhD thesis research. Satisfactory/Unsatisfactory grading only. May be repeated. Students
UIC

Biomedical and Health Information Sciences (BHIS)

405 Medical Sciences and Human Pathophysiology 0 TO 4 hours. Introduction of fundamental concepts in pathophysiology. Specific disorders of major organ systems including etiology, manifestations, diagnostic tests, treatment modalities, pharmacotherapy, and complications. Credit is not given for BHIS 405 if the student has credit for AHS 420 or HIM 513 or HIM 514. Students who require a medical terminology component register for 4 hours and participate in both laboratory and lecture-discussion; all others register for 3 hours and attend lecture-discussion only. Restricted to students who require this course for graduation. Students outside these restrictions may be admitted with consent of the instructor.

410 Health Information Structures and Management 3 hours. Data structures in clinical information systems, including database design and management, networking and security. Emphasis on "entrepreneurial" skills required to solve organizational information management problems. Prerequisite(s): BHS 400 and BHS 480.

433 Principles of Evidence-Based Healthcare 2 hours. Qualitative and quantitative assessment of human subject clinical research: locating, evaluating, and comparing scientific papers as bases for healthcare education and practice. Same as MHPE 433. Prerequisite(s): Graduate or professional standing and approval of the school. May be repeated. Prerequisite(s): Consent of the instructor.

437 Healthcare Data 3 hours. Review of data types in a healthcare information system. How data is transformed into information and then again transformed into knowledge through integrated computer systems. Same as HPA 437. Taught online only. A UIC netid is required. Prerequisite(s): Graduate standing and consent of the instructor.

460 Introduction to Health Informatics 1 hour. Introduction to information technology and systems in a healthcare setting: collection, analysis, and management of healthcare data; storage, retrieval, and networking; system security. Credit is not given for BHS 460 if the student has credit for MUSC 218 or HHS 420. Taught online with some essential classroom lectures. Students must have an active UIC netid with valid password and access to a computer and the Internet. Prerequisite(s): Students should demonstrate basic computing skills including knowledge of an office productivity suite (AHS Office or other), electronic mail, and Internet browsers. Recommended background: IDS 100 or the equivalent.

461 Information Systems for Health Information Management 2 hours. Advanced topics in information technology and systems in a healthcare setting: collection, analysis and management of healthcare data; special issues related to the role of health information administrators. Credit is not given for BHS 461 if the student has credit for BHS 400. Extensive computer use required. Prerequisite(s): DS 100 and credit or concurrent registration in BHS 460.

480 Management and Business Practices 3 hours. Principles of management with emphasis on business functions, procedures, and organizational structure as applied to various healthcare settings including private and institutional practice. Prerequisite(s): Advanced undergraduate or graduate standing in the Department of Biomedical and Health Information Sciences or consent of the instructor.

499 Information Sources in Biomedical and Health Information Sciences 1 hour. Prepares students to locate, interpret, and evaluate pertinent research information sources. Includes discussion on writing literature reviews. Assignments require the use of a computer with Internet access. Prerequisite(s): Junior standing or above required; or consent of the instructor.

500 Strategic Inquiry in BHS 3 hours. An overview of research methods appropriate for BHS, in order to better enable students to make research methods decisions appropriate for their self-selected research project topics. Prerequisite(s): Consent of the instructor.

503 Communication Skills in Health Informatics 2 hours. An application course in which students assess and practice effective written and oral methods of communication skills necessary for health informatics professionals. Prerequisite(s): Consent of the instructor.

504 Methods in Qualitative Inquiry 3 hours. Qualitative research methods to account for systematic description of environments where quantitative methods are not sufficient. Prerequisite(s): BHS 500 and BHS 510 or consent of the instructor.

505 Ethics and Legal Issues in Health Informatics 3 hours. Examination of the legal and ethical issues involved in computerized health information systems. Taught online only. A UIC netid is required. Prerequisite(s): Consent of the instructor.

510 Healthcare Information Systems 4 hours. Examination, through case studies, group and class discussions, and problem-based learning, of the effective utilization of information technology applications currently in place and on the horizon in healthcare organizations. Same as HPA 510. Taught online only. A UIC netid is required. Prerequisite(s): Graduate standing and consent of the instructor.

511 Application of Healthcare Information Systems 2 hours. Experience with a variety of healthcare applications utilizing current information technology and systems implemented in healthcare provider organizations. Students are expected and required to attend computer training laboratory sessions in the UICMC, times to be arranged with training department personnel. Students will be working in UICMC and are required to comply with security, patient confidentiality, and HIPAA regulations. Prerequisite(s): BHS 510 or consent of the instructor.

Registration restriction(s): Certification of completion of netlearning HIPAA training module is required for admission to this course.

515 Management of Healthcare Communication Systems 4 hours. Examination and management of data communications in and between healthcare facilities, including examination of issues, standards, technologies, and system configurations. Same as HPA 520. Taught online only. A UIC netid is required. Prerequisite(s): BHS 510 or HPA 510; and graduate standing and consent of the instructor.

517 Healthcare Information Security 3 hours. Health information security and methods to achieve it: stress assessment and preemptive action; outlines important role of security policies and procedures; surveys
security technology with focus on non-technical security approaches. Taught only online. A UIC netid is required. Prerequisite(s): BHS 437 and BHS 510 or consent of the instructor.

520 Health Information Systems Analysis and Design 4 hours.
A project course applying systems analysis and design theory to healthcare systems evaluation, modeling, and implementation. Same as HPA 531. Taught online only. A UIC netid is required. Prerequisite(s): BHS 510 or HPA 510; and graduate standing and consent of the instructor.

523 Social and Organizational Issues in Health Informatics 4 hours.
Examines the impact of information systems on the healthcare organization and applies theory through case study analysis. Same as HPA 540. Taught only online. A UIC netid is required. Prerequisite(s): BHS 510 or HPA 510; and BHS 515 or BHS 520 or BHS 530 or HPA 520 or HPA 531 or HPA 550; or consent of the instructor.

527 Knowledge Management in Healthcare Organizations 3 hours.
An examination, through readings, case studies, research publications, and discussion, of the current issues, concepts, and technologies of knowledge management in healthcare organizations. Extensive computer use required. May be offered online, using synchronous and asynchronous discussion, in conjunction with seminar format. Prerequisite(s): Grade of B or better in BHS 510; and consent of the instructor.

529 Consumer Health Informatics 3 hours.
Examines the developing area of consumer health informatics from both theoretical and practical knowledge management perspectives through class discussions. Prerequisite(s): BHS 510 and BHS 527 or consent of the instructor. Recommended background: BHS 505.

530 Topics in Health Informatics 4 hours.
Current theories and methods in health informatics. Same as HPA 550. Taught online only. A UIC netid is required. Prerequisite(s): BHS 510 or HPA 510; and BHS 515 or HPA 520, or BHS 520 or BHS 531, or BHS 525 or HPA 540; and graduate standing and consent of the instructor.

535 Group Dynamics for HI Professionals 2 hours.
Team and negotiation skills as well as developing project management competencies unique to the health informatics profession. Prerequisite(s): Consent of the instructor.

537 Healthcare IT Vendor Management 3 hours.
Examines the environment and activities necessary to plan, select, contract, and implement systems from suppliers in the healthcare IT industry. Prerequisite(s): BHS 510 or consent of the instructor.

538 Healthcare IT Administration 3 hours.
Examines organizational and management issues in healthcare IT. Prerequisite(s): BHS 510 and BHS 511 and BHS 537 or consent of the instructor.

546 Leadership Development in Health Informatics 3 hours.
Students will analyze, evaluate, and practice the competencies necessary for leadership unique to the health informatics profession. Prerequisite(s): Consent of the instructor.

580 Practicum in Biomedical and Health Information Sciences 3 TO 12 hours.
Field experience under supervision of a professional expert in a biomedical and health information sciences setting that is consistent with the student's area of study and career goals. May be repeated. Prerequisite(s): Consent of the instructor.

594 Special Topics in Biomedical and Health Information Sciences 1 TO 3 hours.
An in-depth study of a health informatics topic of importance selected by the faculty. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

595 Seminar in Biomedical and Health Information Sciences 1 hour.
Provides students with an opportunity to present preliminary research for critique by peers and faculty. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): BHIS 499 and BHS 550 or consent of the instructor.

596 Independent Study 1 TO 4 hours.
For graduate students who wish to pursue independent study not related to their project/thesis research. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

597 Project Research in Biomedical and Health Informatics 0 TO 5 hours.
Independent investigation that draws upon the professional experience and knowledge synthesis of the student. Students investigate a topic/problem in their field, write an article, and deliver an oral presentation. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

598 Research in Biomedical and Health Informatics 0 TO 16 hours.
Independent research in one area of biomedical and health information sciences directed by a faculty member. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Foundation courses in research and statistics, or consent of the instructor.

Biomedical Visualization (BVIS)

400 Clinical Sciences for Biomedical Visualization 2 hours.
The application of neuroanatomy, genetics, immunology, imaging, and pharmacology to biomedical visualization. An introduction to visual information processing, visual perception, and related technology. Prerequisite(s): Graduate standing.

405 Anatomical Visualization 3 hours.
Graphic manipulation and representation of human morphology and gross anatomy. Graphic construction skills, visual standards and conventions, data collection methods, and personal sketch style development. Prerequisite(s): Graduate standing and consent of the instructor.

415 Computer Applications 2 hours.
Using the Internet as a communication tool with emphasis on the World Wide Web, FTP, Telnet, HTML authoring, image processing, navigation and interface design. Prerequisite(s): Graduate standing and consent of the instructor.

420 Illustration Techniques 3 hours.
Introduction to line, continuous tone, and color rendering techniques. Digital image creation and manipulation, color theory and design, print and electronic publication issues. Prerequisite(s): Graduate standing and BVIS 405 or consent of the instructor.

430 Surgical Orientation 1 hour.
Survey of surgical specialties, including an historical survey and relationship to visual communication. Instruments, aseptic technique, incisions, suturing, principles of wound healing, imaging modalities, and surgical terminology. Prerequisite(s): Graduate standing, and BVIS 405 and consent of the instructor.

440 Instructional Design 2 hours.
Instructional design process for print and audiovisual media development in the health sciences. Emphasis on theory in communication, learning, and the instructional design process. Prerequisite(s): Graduate standing and consent of the instructor.

450 Graphic Design 2 hours.
Fundamentals of graphic design techniques and imagery production as applied to health science print media. Prerequisite(s): Graduate standing and one year of basic design courses.

460 3-D Model Design 2 hours.
Introduction to the communicator's role in 3-D models, anatomical simulators, prosthetics, healthcare exhibits. Exploration of materials and techniques for impression taking, sculpting, mold construction, and casting. Prerequisite(s): Graduate standing.

480 Business Practices 2 hours.
Business procedures and organizational structures associated with the role of a biocommunicator in
Course Descriptions

UIC

Biomedical Visualization (BVS)

Biopharmaceutical Sciences (BPS)

institutional, freelance, and small business settings. Topics range from business forms and procedures to legal and ethical issues.

**Prerequisite(s):** Graduate standing and consent of the instructor.

515 Advanced Graphic Design 3 hours. Application of graphic design techniques to a simulated, multicomponent client project. Exploration of conceptualizing techniques and project management.

**Prerequisite(s):** BVS 450.

520 Advanced Imaging Applications 3 hours. Instruction in advanced line imaging and visualization for patient education, editorial and product, and diagnostic image interpretation.

**Prerequisite(s):** BVS 420 or consent of the instructor.

525 Animation and Multimedia 4 hours. Production experiences in selected biomedical communications specialties: electronic print media, multimedia, animation, Web site design. Guest instructors with special expertise utilized whenever feasible. **Prerequisite(s):** BVS 542 or consent of the instructor.

530 Surgical Illustration 4 hours. Students attend surgery, research surgical procedures, and prepare illustrations for educational and commercial use. Students integrate knowledge of instructional design, anatomy, graphic design, and illustration techniques.

**Prerequisite(s):** ANAT 441 and BVS 420 and BVS 430 and BVS 440 and BVS 450.

540 Computer Visualization 4 hours. Construction of 3-D computer models of biological and anatomical structures using software models, 3-D input devices, and medical scans and data.

**Prerequisite(s):** BVS 415.  

542 Computer Animation 4 hours. Investigates principles of motion using computer animation techniques to solve contemporary problems in medical education and communication where motion can be used effectively. Involves production from concept to final presentation. **Prerequisite(s):** BVS 415 and BVS 540 and consent of instructor.

543 Computer Animation II 4 hours. Builds on concepts introduced in BVS 542—Computer Animation. Further investigation of motion using computer animation techniques to solve contemporary problems in medical education and communication where motion can effectively be used.

**Prerequisite(s):** BVS 542 and consent of the instructor.

545 Computer-Based Multimedia 4 hours. An introduction to the use of desktop multimedia development systems. Software options for creating, manipulating, animating and combining graphics, text, video and sound for presentation and electronic publication. **Prerequisite(s):** BVS 415 and BVS 440.

546 Virtual Reality and Stereography in Biomedical Visualization 2 hours. Introduction to 3-D perception, digital 3-D model creation, 3-D presentation methods; computer configuration for 3-D display; virtual reality in medicine.

**Prerequisite(s):** Consent of the instructor.

550 Simulators and Models 2 hours. An extension of the principles learned in BVS 460. Emphasis on materials research and problem solving strategies for complex 3-D projects. **Prerequisite(s):** BVS 460.

554 Anaplastology Materials and Techniques 2 hours. Hands-on experience with prosthetic materials and techniques. Emphasis on health and safety issues related to laboratory equipment and clinical procedures.

**Prerequisite(s):** AHS 420 and ANAT 441 and BVS 460.

555 Clinical Anaplastology 4 hours. Concepts of prosthetic rehabilitation. Provision of facial/homato prosthetic services in a multidisciplinary clinical setting requiring direct interaction with patients with disfigurements. Emphasis on prosthetic techniques and materials. **Prerequisite(s):** ANAT 441 and AHS 420 and BVS 460 or consent of the instructor.

580 Practicum in Biomedical Visualization 2 TO 12 hours. Field experience under supervision of a professional expert in a biomedical communication setting that is consistent with student's area of concentration and career goals. May be repeated. **Prerequisite(s):** Consent of the instructor.

594 Special Topics in Biomedical Visualization 1 TO 4 hours. Selected topics in specialty areas of biomedical visualization, depending on sufficient student demand and faculty availability, such as pharmaceutical illustration and ocular prosthetic design. May be repeated. Students may register in more than one section per term. **Prerequisite(s):** Consent of the instructor.

595 Seminar in Biomedical Visualisation 1 hour. Topics of current interest in biomedical visualization. Includes discussion of current journal articles and important new developments in the field. Satisfactory/Unsatisfactory grading only. May be repeated. **Prerequisite(s):** Consent of the instructor.

596 Independent Study 1 TO 4 hours. For students who wish to pursue independent study not related to their project research. May be repeated. Students may register in more than one section per term. **Prerequisite(s):** Consent of the instructor.

597 Project Research 0 TO 5 hours. Independent investigation which engenders the responsibilities of professionals to contribute to their field. Students investigate a topic/problem in their field, write an article, and deliver an oral presentation. Satisfactory/Unsatisfactory grading only. May be repeated. **Prerequisite(s):** Consent of the instructor.

598 Research in Biomedical Visualization 0 TO 16 hours. Independent research in biomedical visualization directed by a faculty member. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. **Prerequisite(s):** Foundation courses in research and statistics, or consent of instructor.

**Biopharmaceutical Sciences (BPS)**

423 Adverse Drug Reactions 2 hours. Attention focused on the epidemiology and characterization of adverse reactions. Factors which interplay in adverse reactions to medications are discussed. Reactions characterized in relation to organ systems. **Prerequisite(s):** PHAR 403 and PHAR 404, or consent of the instructor.

430 Principles of Toxicology 2 hours. Examines the toxic effects of drugs and chemicals on organ systems. Lectures emphasize basic principles, effects on specific organ systems, major classes of toxic chemicals, and specialized topics such as forensic and industrial toxicology. Same as PCOL 430. Credit is not given for BPS 430 if student has credit for EHHS 457.

470 Clinical Pharmacology I 1 hour. Basic principles of clinical pharmacology/toxicology including clinical trial design, statistical interpretation, pharmacokinetics, drug interactions (side effects) as well as basic mechanisms involved in the above. **Prerequisite(s):** Open only to students with third-year professional standing in the Doctor of Pharmacy program or with graduate standing.

471 Clinical Pharmacology II 1 hour. Basic principles of clinical pharmacology applied to critical analysis of patient case histories in major disease states and FDA requirements. **Prerequisite(s):** BPS 470.

480 Application of Science to the Law 4 hours. Issues affecting the development, accessibility, and admissibility of forensic science services by the criminal justice system; problems which may compromise the quality, fairness, and effectiveness of scientific inquiries. Same as CRJ 480. **Prerequisite(s):** CRJ 210 and CRJ 260; or graduate standing.
494 Special Topics of Current Interest in Biopharmaceutical Sciences 1 TO 3 hours.
Courses offered by faculty or a visiting lecturer on a current topic of selected interest. Topics are available on an experimental basis for one offering only. May be repeated to a maximum of 6 hours.
Prerequisite(s): Consent of the instructor; good academic standing as defined by UIC policies.

501 Biopharmaceutical Sciences I 4 hours.
First part of the fundamental didactic core courses in biopharmaceutical sciences, including fundamental principles of pharmacology, pharmacokinetics, scientific ethics, and research design. Prerequisite(s): Graduate standing in the biopharmaceutical sciences program; or approval of the department.

502 Biopharmaceutical Sciences II 4 hours.
Second part of fundamental didactic core courses in biopharmaceutical sciences; fundamental principles of cell and molecular biology and pharmacogenomics, pharmacodynamics including toxicology, research communication, and regulatory processes. Prerequisite(s): BPS 501; and graduate standing in the biopharmaceutical sciences program; or approval of the department.

503 Laboratory Techniques in Biopharmaceutical Sciences 3 hours.
Laboratory-based core course in methods and techniques employed in biopharmaceutical sciences research. Credit is not given for BPS 503 if the student has credit for MAMD 500. Prerequisite(s): BPS 502 or consent of the instructor.

506 Industrial Experience 4 TO 10 hours.
Recommended to graduate students with no industrial experience. Students spend time working in the pharmaceutical, imaging or cosmetic industry under academic supervision to obtain practical experience. Satisfactory/Unsatisfactory grading only. Prerequisite(s): BPS 501 and BPS 502 and BPS 503 and BPS 510 and BPS 515 and BSTT 400 and GC 401 and GC 470 and GC 471 and BCHE 460.

507 Drug Discovery, Design, and Development 3 hours.
Overview of drug development process from target identification and screening through clinical trials and FDA evaluation. Same as MDCH 507 and PMPG 507.

510 Principles of Interfacial Phenomena 3 hours.
Quantitative and theoretical principles of physical and chemical sciences as applied to pharmacy, thermodynamics, kinetics, colloid, and surface chemistry in evaluation of pharmaceutical formulations. Prerequisite(s): MATH 480.

515 Dissolution and Bioavailability of Dosage Forms 2 hours.
Theories and testing of the release of drug from solid dosage forms, including the effect of dissolution rate on bioavailability. Prerequisite(s): PHAR 323; and approval of the department.

518 Controlled Drug Delivery 3 hours.
Controlled drug delivery systems utilizing polymers, synthesis of different types of devices, the delivery expected from these devices, and mathematical modeling of delivery systems. Same as BOE 518. Prerequisite(s): MATH 220 or approval of the department.

519 Percutaneous Drug Delivery 2 hours.
Modern methods of drug delivery covering the use of enhancers, prodrugs, liposomal and ultrasound are presented. Toxicity testing, regulatory issues for successful marketing, and production issues. Prerequisite(s): Consent of the instructor.

520 Lipid-Based Drug Delivery Systems 2 hours.
The preparation, characterization, stability, pharmaceutical cosmetic and diagnostic applications of lipid-based drug delivery systems, including liposomes, micelles, and emulsions prepared with phospholipids. Prerequisite(s): PHAR 323; and approval of the department.

522 Principles of Polymeric Science and Engineering 3 hours.
Intermediate polymer science, thermodynamics of polymer solutions, phase separations, MW determination, crystallization, elasticity, kinetics, and processing. Same as BOE 522. Prerequisite(s): MATH 220 or consent of the instructor.

540 Topics in Adverse Drug Reactions 2 hours.
Advanced treatment of current adverse drug reaction incidents, involving evaluation of the issues. Prerequisite(s): Consent of the instructor.

542 Pharmacodynamics of Substance Abuse 2 hours.
Considers the mechanisms of action, responses, pharmacokinetics, and dependence factors of substance abuse. Emphasis will be placed on research strategies in studying the biological aspects of drug abuse.

543 Psychoneuroimmunology 2 hours.
The interactions between the immune system, the endocrine system, and the central nervous system specifically as they relate to stress and immunity.

544 Immunotoxicology 2 hours.
Basic mechanisms of toxicologic responses to drugs and chemicals due to immediate and delayed hypersensitivity reactions. Emphasis on laboratory methods used in the study of immunotoxicology. Prerequisite(s): Consent of the instructor.

545 Advanced Pharmacokinetics 3 hours.
Kinetics of absorption, distribution, metabolism, and excretion of drugs factors affecting these kinetics and their relationship to pharmacodynamics. Prerequisite(s): Consent of the instructor.

551 Pharmacological Basis of Therapeutics I 2 hours.
Pharmacological basis of drugs for the treatment of diseases, including cancer, and conditions, such as inflammation of the nervous and gastrointestinal systems. Prerequisite(s): Credit or concurrent registration in BCHE 460 and BPS 502; or approval of the department.

552 Pharmacological Basis of Therapeutics II 2 hours.
Pharmacological basis of drugs for treatment of diseases, including cancer, and conditions, such as inflammation of the cardiovascular, renal, and endocrine systems. Prerequisite(s): BPS 551; or approval of the department.

555 Principles of Pharmacogenomics 2 hours.
Concept and application of pharmacogenomics in disease diagnosis, prevention, and treatment. Prerequisite(s): BPS 502 or consent of the instructor.

580 Forensic Science: Survey and Foundations 2 hours.
Survey course for forensic sciences with emphasis on criminalistics; unique characteristics, underlying philosophies; nature, analytical methods; significance of results with chemical, biological, trace, pattern evidence. Same as CRJ 580. Prerequisite(s): Approval of the department.

581 Forensic Analysis of Biological Evidence 4 hours.
Forensic: blood and physiological fluid identification; DNA typing of biological evidence; report writing; expert testimony. Prerequisite(s): Consent of the instructor.

582 Forensic Chemistry and Trace Evidence Analysis 4 hours.
Trace evidence: hairs, fibers, glass, soil, paint and miscellaneous; nature, chemical, instrumental, microscopic methods of analysis; interpretation and significance of trace similars; expert testimony. Prerequisite(s): Consent of the director of graduate studies.

583 Physical Pattern Evidence Analysis 4 hours.
Pattern evidence: individualization, reconstruction; fingerprint classification; questioned documents; handwriting comparison; firearms and toolmark comparisons; scene patterns and reconstruction will be studied in depth. Prerequisite(s): Consent of the instructor.

584 Forensic Drug Analysis and Toxicology 4 hours.
Analysis of commonly abused drugs in their solid-dosage form and in biological media with
emphasis on modern instrumental methods and interpretation of results. Prerequisite(s): Consent of the instructor.

586 Topics in Specialty Forensic Examinations 1 TO 4 hours. Topics may vary but will revolve around specialty forensic examinations, covering specific evidentiary classes (e.g., drug identification, DNA typing, fingerprints), including forensic laboratory methods, approaches, and data interpretation. May be repeated if topics vary. Students may register in more than one section per term. Prerequisite(s): BPS 581 or BPS 582 and consent of the instructor. Students must have credit in the forensic science program core course that covers the specific topic.

588 Expert Witness Testimony and Courtroom Demeanor 3 hours. Trials; hearings; grand jury; expert versus lay witness; personal and behavioral characteristics on the stand; results and courtroom testimony; simulated trial testimony. Prerequisite(s): Approval of the department.

589 Special Topics in Forensic Science 3 hours. Content may vary but will revolve around the philosophic, moral, and managerial problems associated with criminalistics practice. Topics may include evidence collection, analysis, reporting, and testimony to noncriminalistics fields. Same as CRJ 589. May be repeated if topics vary. Prerequisite(s): Consent of the instructor.

590 Forensic Science Residency 3 hours. In-depth training for coursework analysis in a specific forensic discipline (e.g., drug identification, DNA typing, fingerprints) in an approved forensic science laboratory. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 12 hours. Prerequisite(s): BPS 581 or BPS 582 or BPS 583 or BPS 584; and consent of the instructor. Students must have credit in the forensic science program core course that covers the specific topic.

591 Topics in Forensic Microscopy 1 TO 4 hours. Topics may vary but will revolve around microscopical characterization of various materials, with emphasis on forensic laboratory methods and approaches, and interpretation of materials comparisons as evidence. May be repeated if topics vary. Students may register in more than one section per term. Prerequisite(s): BPS 582 and consent of the instructor.

592 Forensic Science Internship 2 TO 4 hours. Placement in a forensic science or toxicology laboratory or setting, under the supervision of a faculty member, with an accepted research project or paper required. May be repeated to a maximum of 4 hours. Students may register in more than one section per term. Prerequisite(s): BPS 580, and consent of the instructor and a minimum of 15 hours of credit earned in the MS in Forensic Science program. Prerequisite(s): Approval of the department.

593 Research in Biopharmaceutical Sciences 0 TO 16 hours. Research in biopharmaceutical sciences with the guidance of a faculty mentor. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

594 Special Topics in Biopharmaceutical Sciences 1 TO 4 hours. Content varies. Special topics in biopharmaceutical sciences not covered in regular core or elective offerings. May be repeated to a maximum of 4 hours if topics vary. Prerequisite(s): Consent of the instructor.

595 Departmental Seminar 1 TO 2 hours. Weekly seminar series on research and experimental techniques in biopharmaceutical sciences. Also consists of journal club at which students will present an article once a year. Satisfactory/Unsatisfactory grading only. May be repeated. Weekly seminar and journal club meet separately from one another. Prerequisite(s): Approval of the department.

596 Independent Study in Forensic Science 1 TO 8 hours. Supervised projects may consist of extensive reading or laboratory work, or both, on topics not covered in regular course offerings. Research undertaken for this course may not duplicate that being done for BPS 597 or BPS 598. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

597 Forensic Science Project Research 3 hours. Supervised research in forensic science; a research project to be designed and completed within one semester. Satisfactory/Unsatisfactory grading only. Prerequisite(s): BPS 580, and at least the core course in the MS in Forensic Science program covering the subject area in which the research is to be conducted and consent of the instructor.

598 MS Thesis Research 0 TO 16 hours. For students doing MS thesis research or thesis writing. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

599 Dissertation Research 0 TO 16 hours. PhD thesis research. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

Biostatistics (BSTT)

400 Biostatistics I 3 hours. Descriptive statistics, basic probability concepts, one- and two-sample statistical inference, analysis of variance, and simple linear regression. Introduction to a statistical computer package such as MINITAB or SAS. Enrollment restricted to public health students; other graduate, professional, and advanced undergraduate students admitted by consent as space permits. To obtain consent, see the SPH registrar.

401 Biostatistics II 4 hours. Simple and multiple linear regression, stepwise regression, multivariable analysis of variance and covariance, nonparametric methods, logistic regression, analysis of categorical data; extensive use of computer software. Prerequisite(s): BSTT 400.

402 Logistic Regression and Survival Analysis 2 hours. Interpretation of logistic regression and survival analysis models. Running logistic and proportional hazards regression models and constructing life tables using SAS. Prerequisite(s): BSTT 401.

410 Introduction to Statistical Computing 1 hour. Application of statistical packages for appropriate statistical analysis and interpretation. Students will use computers for homework assignments. Prerequisite(s): Credit or concurrent registration in BSTT 400.

430 Design of Clinical Trials 3 hours. Rationale for clinical trials, blinding, ethical issues, methods of randomization, crossover trials, power and sample size calculations, data management, protocol deviation, data analysis, interim analysis. Prerequisite(s): BSTT 401 or the equivalent and EPID 401 and consent of the instructor.

440 Sampling and Estimation Methods Applied to Public Health 3 hours. Major sampling designs and estimation procedures used in the conduct of sample surveys with emphasis on topics relevant to the health sciences. Credit is not given for BSTT 440 if the student has credit in STAT 451. Restriction applies only to certification for students pursuing the Interdepartmental Graduate Concentration in Survey Methodology. Prerequisite(s): BSTT 401 or BSTT 502 or consent of the instructor.

494 Introductory Special Topics in Biostatistics 1 TO 4 hours. Special topics in biostatistics. Content varies. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

502 Biostatistics Methods I 4 hours. Foundations and introduction to statistical inference, including one- and two-sample problems; regression analysis, including multiple regression and indicator variables. Prerequisite(s): College calculus, including multivariable calculus, concurrent registration in BSTT 503, and consent of the instructor.
503 Biostatistics Laboratory 2 hours. Use of spreadsheets for statistical investigations; use of statistical software; matrix theory, including methods relevant in biostatistical analysis.

Prerequisite(s): Concurrent registration in BSTT 502 and consent of the instructor.

504 Biostatistics Methods II 4 hours. Analysis of variance and multiple comparisons; model building and diagnostics; generalized linear models; logistic and Poisson regression; introduction to repeated measures and mixed models. Prerequisite(s): BSTT 502 and BSTT 503, or consent of the instructor.

511 Categorical Data Analysis 3 hours. Contingency tables and their tests, measures of association, stratified analysis; logistic regression, generalized linear model, Poisson regression, logistic-linear model, matched data, marginal homogeneity, ordinal data. Prerequisite(s): BSTT 504 and STAT 411, or consent of the instructor.

512 Survival Analysis 3 hours. Concepts of lifetime or survival distributions, especially with censored data; nonparametric estimation of the survival function; rank tests; proportional hazards regression models; parametric models. Prerequisite(s): BSTT 504 and STAT 411, or consent of the instructor.

513 Longitudinal Data Analysis 4 hours. Application and theory of models for longitudinal data analysis for both continuous and categorical response data, including use of statistical software for these methods. Prerequisite(s): STAT 411 and BSTT 504, or consent of the instructor.

514 Biostatistical Consulting 2 hours. Discussion of techniques required for successful biostatistical consultation; effective communication, problem formulation, data analysis, oral and written reports, supervised consulting experience. Prerequisite(s): BSTT 504 and consent of the instructor. Restricted to students enrolled in the Biostatistics major.

521 Applied Multivariate Analysis 3 hours. Analysis of vector of responses; MANOVA, data reduction methods; introduction to cluster analysis, discriminant analysis, and structural equation models. Prerequisite(s): BSTT 513 and consent of the instructor.

522 Biostatistical Investigations 4 hours. Analysis of several large data sets that will require integration of numerous biostatistical tools; written summarization and discussion of results. Prerequisite(s): BSTT 511 and BSTT 512 and BSTT 513 and BSTT 514; and concurrent registration in BSTT 521.

531 Advanced Statistical Inference 3 hours. An in-depth consideration of some important ideas of statistical inference including large-sample theory, estimation, and testing. Specific topics to be covered include asymptotic theory, parameter estimation methods, and hypothesis testing. Some computer use in class. Prerequisite(s): Consent of the instructor. Open only to PhD degree students. Recommended background: MS degree in Biostatistics or the equivalent.

533 Linear Models 4 hours. Generalized inverse matrices; distributions for quadratic forms; estimability and testable hypotheses; constrained linear model, applications to regression, ANOVA, ANCOVA models; variance component models. Prerequisite(s): Consent of the instructor. Open only to PhD degree students. Recommended background: MS degree in Biostatistics or the equivalent.

594 Special Topics in Biostatistics 1 TO 4 hours. Advanced special topics. Content varies. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

594 Special Topics in Biostatistics 1 TO 4 hours. Advanced special topics. Content varies. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

595 Special Topics in Biostatistics Research Seminar 1 hour. Current developments in theory and application of biostatistics and epidemiology with presentations by faculty and visiting scientists. Satisfactory/Unsatisfactory grading only. May be repeated.

Business Administration (BA)

589 Corporate Business Internship Program 0 TO 3 hours. Corporate business internship provides graduate students an opportunity to gain practical work experience in their field of study and to test their career choice. Satisfactory/Unsatisfactory grading on file. May be repeated to a maximum of 6 hours. No graduation credit for students in the following: MS in Accounting or MS in Management Information Systems. Prerequisite(s): Consent of the director of the Business Career Center. Approval by the director of graduate studies prior to registration is required for students in the MS in Accounting and MS in Management Information Systems programs.

594 Special Topics in Business Administration 1 TO 4 hours. An intensive study of a selected topic in business administration. Topics vary by section and by term. May be repeated to a maximum of 16 hours if topics vary. Students may register in more than one section per term. Prerequisite(s): Consent of the graduate business program adviser.

Chemical Engineering (CHE)

410 Transport Phenomena 3 OR 4 hours. Continuum theory of momentum, energy, and mass transfer. Viscous behavior of fluids. Laminar and turbulent flow. Thermal conduction and convection, diffusion and coupled operations. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CHE 312 or consent of the instructor.

413 Introduction to Flow in Porous Media 3 OR 4 hours. Theoretical modeling of single-phase and multiphase flow in porous media. Darcy’s law and relative permeabilities. Oil production and hydrology. Capillary phenomena. Dispersion and miscible displacement. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CHE 312 or consent of the instructor.

245 Mathematical Methods in Chemical Engineering 3 OR 4 hours.
Advanced mathematical techniques in chemical engineering. Includes
finite series in thermodynamic perturbation theory, Laplace transforms
in process control, chemical diffusion transport theories and differen-
tial equations. 3 undergraduate hours, 4 graduate hours.
Prerequisite(s): MATH 220 or the equivalent.

246 Fundamentals and Design of Microelectronics Processes 3 OR 4 hours.
Design and practical aspects of the most advanced state of micro and
nanoelectronics processing with emphasis on thin film deposition,
substrate passivation, lithography and etching with thermodynamics,
kinetics, reactor design, and optimization. 3 undergraduate hours, 4
graduate hours. Extensive computer use required. Prerequisite(s):
Graduate standing or consent of the instructor. Recommended back-
ground: Engineering/science.

249 Selected Topics in Chemical Engineering 1 TO 4 hours.
Systematic study of selected topics in chemical engineering theory and
practice. May be repeated. Students may register in more than one sec-
tion per term. Prerequisite(s): Consent of the instructor.

251 Advanced Thermodynamics 4 hours.
Laws of thermodynamics. General
conditions for equilibrium and stabili-
ty. Thermodynamic potentials. Phase transition and critical phe-
omena. Principle of irreversibility thermodynamics, Onsager’s funda-
mental theorem and engineering applications. Prerequisite(s): CHE 410
and CHE 445 or consent of the instructor.

252 Fluid Phase Equilibria 4 hours.
Application molecular theories of fluids to phase equilibrium systems.
Intermolecular potentials, partition functions, correlation functions,
chemical potentials, fugacity and activity coefficient and their rela-
tionships. Prerequisite(s): CHE 301 or equivalent.

253 Thermodynamics of Multicomponent Mixtures 4 hours.
Thermodynamic theories of mix-
tures. Molecular principles of vari-
ous solution theories. Conformal solutions, lattice theories, group
contribution function theories, and perturbation and variational theo-
ries. Prerequisite(s): CHE 502 or the equivalent.

255 Advanced Statistical Thermodynamics 4 hours.
Development of the principles of statistical mechanics. Calculation of
partition functions and properties for the ideal gas including polyatomic
Prerequisite(s): CHE 502.

259 Separation Processes 4 hours.
Advanced coverage of equilibrium stage separations. Multicomponent
separation and distillation, unsteady state adsorption processes.
Separation efficiencies and energy requirements. Prerequisite(s):
CHE 410.

261 Advanced Mass Transfer 4 hours.
Analysis of diffusion and mass
transport in chemical engineering systems. Unsteady state diffusion
convection diffusion, mass transfer coefficient dispersion and the study
of diffusion and reaction and simul-
taneous mass transport. Prerequisite(s): CHE 410.

262 Microhdrodynamics, Diffusion, and
Membrane Transport 4 hours.
Theoretical and numerical fluid
mechanics of microstructure:
potential flow and virtual mass,
quasi-steady versus transient Stokes
flow, integral theorems, multiple expansions, singularity solutions,
fluctuations, and current applications. Prerequisite(s): CHE 410
and CHE 445 or consent of the instructor.

514 Biortransport 4 hours.
Diffusion and flow in living systems. Blood rheology and flow.
Microcirculation, oxygen transport, diffusive transport across mem-
branes. Membrane structure, water and ion flows, active transport.
Same as BOE 514.
Prerequisite(s): CHE 410 or con-
sent of the instructor.

524 Characterization Techniques in Catalysis 4 hours.
The most common crystallographic, spectrosopic, and physicochemical
techniques for characterization of bulk solids, solid surfaces, and gas-
soil interactions are surveyed. Prerequisite(s): Consent of the
instructor.

527 Advanced Chemical Reaction Engineering 4 hours.
Multiplicities in chemically reacting systems, nonideal reactions: effects
of residence time distribution and mixing history. Heterogeneous non-
catastrophic reactions: gas-liquid, liquid-liquid, and solid-fluid systems.
Heterogeneous catastrophic reactions. Prerequisite(s): CHE 321.

530 Gas Kinetics 4 hours.
Modern theory and experimental methods in the rates of gas reac-
tions. Review of phenomenological kinetics, collision theory, energy
transfer, unimolecular reactions, transition state and RRKM theory.
Modern applications. Prerequisite(s): CHE 505.

592 Specialized Problems 4 TO 8 hours.
Specialized problems under faculty supervision. Prerequisite(s):
Consent of the instructor.

594 Advanced Topics in Chemical Engineering 1 TO 4 hours.
Systematic study of advanced topics in chemical engineering theory and
practice. Subjects vary from year to year. May be repeated. Students
may register in more than one sec-
tion per term. Prerequisite(s):
Consent of the instructor.

595 Seminar in Chemical Engineering Research 1 hour.
Advances in chemical engineering research will be discussed in a sem-
inari setting. Students will be
expected to make presentations in
areas of catalysis, thermodynamics,
transport phenomena, and kinetics.
Prerequisite(s): Graduate standing
in chemical engineering.
416
Inorganic Chemistry II 3 OR 4 hours. Structural and descriptive chemistry of the transition elements. 3 undergraduate hours. 4 graduate hours. 

Prerequisite(s): CHEM 414.

421
Instrumental Analysis 4 hours. A survey of contemporary instrumentation for chemical analysis. Emphasis on fundamentals of instrumental methods with actual experience on typical equipment. Includes two weekly three-hour laboratories. 

Prerequisite(s): CHEM 222 and CHEM 343 or the equivalent.

432
Intermediate Organic Chemistry 2 OR 3 hours. Rigorous treatment of the principles upon which modern organic chemistry is developed. 2 undergraduate hours. 3 graduate hours. 

Prerequisite(s): CHEM 235 and CHEM 342.

444
Physical Chemistry II 2 OR 3 hours. Application of quantum mechanics to molecular spectroscopy, statistical mechanics and activated complex theory. 2 undergraduate hours. 3 graduate hours. 

Prerequisite(s): CHEM 346.

450
Seminar in Quantum Chemistry 1 hour. The synthesis, structure, and bonding of selected main group and transition metal species. Describes materials science applications of these compounds. 

Prerequisite(s): CHEM 416 or the equivalent.

451
Advanced Physical Chemistry 1 hour. Synthesis, structure, and bonding of selected main group and transition metal species. Describes materials science applications of these compounds. 

Prerequisite(s): CHEM 416 or the equivalent.

454

Prerequisite(s): BIOS 452 or CHEM 452.

455
Biochemistry Laboratory 3 hours. Introduction to modern biochemistry and molecular biology research. Includes recombinant DNA techniques, protein purification, site-directed mutagenesis, polymerase chain reaction, enzyme kinetics, protein structure data analysis, and molecular graphics. 

Prerequisite(s): CHEM 222 and CHEM 452.

456
Natural Products 3 OR 4 hours. Biogenic approach to secondary metabolites. General principles and selected studies of phenolic compounds, terpenoids, alkaloids, and other interesting natural products. Same as BIOS 416. 3 undergraduate hours. 4 graduate hours. 

Prerequisite(s): One year of organic chemistry.

470
Educational Practice with Seminar I 6 hours. The first half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Graduate credit only with approval of the department. 

Prerequisite(s): Good academic standing in a teacher education program, completion of 100-clock hours of pre-student-teaching field experiences, and approval of the department.

471
Educational Practice with Seminar II 6 hours. The second half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Graduate credit only with approval of the department. 

Prerequisite(s): Good academic standing in a teacher education program, completion of 100-clock hours of pre-student-teaching field experiences, credit or concurrent registration in CHEM 470, and approval of the department.

472
Teaching Methods in Chemistry 0 TO 4 hours. A course in the methods of teaching high school chemistry, including laboratory and the integration of technology. 3 undergraduate hours. 4 graduate hours. Extensive computer use required. 

Prerequisite(s): 24 semester hours of undergraduate chemistry including two semesters of laboratory chemistry. 

Recommended background: ED 210 and physical chemistry I.

474
Teaching Chemistry in High Schools 1 hour. Modern ways to help beginning learners construct in their own minds an understanding of scientific concepts and scientific method. Emphasis on the concepts of chemistry. Satisfactory/ Unsatisfactory grading only. May be repeated. 

Prerequisite(s): Approval of the department.

488
Cooperative Chemistry Practice 1 hour. Off-campus participation in a governmental or industrial training program. Credit is contingent on the submission of a final report. Satisfactory/ Unsatisfactory grading only. May be repeated. 

Prerequisite(s): Graduation standing or consent of the instructor.

492
Independent Study 1 TO 2 hours. Individual study under supervision of a faculty member in areas not covered in standard courses. Credit is contingent on the submission of a final report. Satisfactory/ Unsatisfactory grading only. May be repeated. 

Prerequisite(s): Concurrent registration in LAS 289 or consent of the instructor.

494
Special Topics in Chemistry 1 TO 4 hours. Course content is announced prior to each term in which the course is given. May be repeated. Students may register in more than one section per term. 

Prerequisite(s): Approval of the department.

499
Supervised Research 3 hours. Individual research performed under supervision of a faculty member. Credit is contingent on the submission of a final report. Research experience is strongly encouraged for career students. Satisfactory/ Unsatisfactory grading only. May be repeated to a maximum of 6 hours. 

A maximum of 6 hours of CHEM 488, CHEM 492, and CHEM 499 combined may be credited toward departmental undergraduate degree course requirements. 

Prerequisite(s): Junior standing or above, approval of the department, consent of the instructor and a grade point average of 2.50 in science courses; or graduate standing. 

Recommended background: Credit in CHEM 235 or CHEM 314.

500
Faculty Research 1 hour. Mandatory for first-year students. Faculty present their research interests to new graduate students. Satisfactory/Unsatisfactory grading only.

510
Literature Seminar in Inorganic Chemistry 1 hour. Discussion of inorganic research from the current literature. Emphasis on student presentations. Satisfactory/Unsatisfactory grading only. 

Prerequisite(s): Graduate standing or consent of the instructor.

514
Advanced Inorganic Chemistry I 4 hours. The synthesis, structure, and bonding of selected main group and transition metal species. Describes materials science applications of these compounds. 

Prerequisite(s): CHEM 416 or the equivalent.

516
Advanced Inorganic Chemistry II 4 hours. Structural and descriptive chemistry of the transition elements; spectroscopy and magnetism. 

Prerequisite(s): CHEM 416 or the equivalent.

518

Prerequisite(s): CHEM 416 or the equivalent or consent of the instructor.

519
Special Topics in Inorganic Chemistry 3 TO 4 hours. Lectures on topics not represented in regularly scheduled courses. May be repeated. 

Prerequisite(s): Graduate standing or consent of instructor.

520
Literature Seminar in Analytical Chemistry 1 hour. Discussion of analytical chemical research from the current literature. Emphasis upon student presentations. Satisfactory/Unsatisfactory grading only.
522 Techniques in Mass Spectrometry and Surface Analysis 4 hours. Various methods in mass spectrometry. Nonoptical applied surface analysis, including X-ray photoelectron spectroscopy, Auger spectroscopy, and scanning probe microscopy. Instrumentation, applications, and data analysis. Prerequisite(s): CHEM 421 or the equivalent.

524 Optical Spectroscopies in Analytical Chemistry 4 hours. Theory and experimental methods in infrared, ultraviolet, and visible spectroscopies, both absorption and emission. Prerequisite(s): CHEM 346 and CHEM 421, or consent of the instructor.

526 NMR Spectroscopy in Analytical Chemistry 4 hours. Principles governing one- and multidimensional nuclear magnetic resonance (NMR) spectroscopy; applications of NMR to chemical analysis. Prerequisite(s): CHEM 346 and CHEM 421, or the equivalent or consent of the instructor.

528 Chemical Separations 4 hours. Fundamentals and recent advances in techniques and technologies for the separation of chemical substances, including both chromatographic and electrophoretic methods. Special emphasis on trace and microscale methods. Prerequisite(s): CHEM 421 or approval of the department.

529 Special Topics in Analytical Chemistry 3 TO 4 hours. Lectures and readings in areas not normally treated in standard courses. Discussion of topics of current interest in analytical chemistry. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

530 Literature Seminar in Organic Chemistry 1 hour. Discussion of organic chemical research from the current literature. Emphasis upon student presentations. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor.

531 Spectroscopic Organic Structure Determination 3 hours. Discussion of principles and modern practice in the elucidation of the structures of organic molecules using NMR, IR, UV, and mass spectrometry. With practical examples. Prerequisite(s): CHEM 234 or the equivalent.

532 Advanced Organic Chemistry I 4 hours. Introduction to advanced organic chemistry: drawing molecules and mechanisms, FMO theory, stereoisomerism and conformational analysis, stereoelectronic effects, selected functional group interconversions. Some computer use will be required. Prerequisite(s): CHEM 432 or the equivalent.

533 Advanced Organic Chemistry II 4 hours. Continues CHEM 532. Chemical literature, chemical bonding, periodic reactions, physical organic chemistry, reactive intermediates, organic reaction mechanisms with an emphasis on physical principles. Prerequisite(s): CHEM 532 or the equivalent.

534 Advanced Organic Chemistry III 4 hours. Continues CHEM 533. The major reactions in organic chemistry and their uses in organic synthesis. Prerequisite(s): CHEM 533 or the equivalent.

535 Advanced Synthetic Chemistry 4 hours. Topics include control of stereochemistry (cyclic + acyclic), synthesis of complex natural and unnatural products (such as alkaloids, terpenes) and new methodologies. Prerequisite(s): CHEM 533.

536 Physical Organic Chemistry 4 hours. Theoretical and experimental methods of studying reaction mechanisms with an emphasis on kinetic methods and linear free energy correlations. Prerequisite(s): CHEM 533 or consent of the instructor.

537 Special Topics in Organic Chemistry 3 TO 4 hours. Discussion of topics of current interest. May be repeated. Students may register in more than one section per term. Prerequisite(s): CHEM 533.

538 Current Problems in Physical Chemistry 1 hour. Student seminars presented on varied topics in physical chemistry. Special emphasis on the application of quantum mechanics and statistical mechanics to the solving of problems in molecular structure, dynamics, and spectroscopy. Satisfactory/Unsatisfactory grading only.

539 Quantum Mechanics 4 hours. Exact solutions of the Schrödinger equation for simple systems; variational principle and perturbation theory, many-electron atoms and diatomic molecules and their electronic structures; angular momentum. Prerequisite(s): CHEM 346 or the equivalent.

541 Angular Momentum in Quantum Mechanics 4 hours. Quantum-mechanical theory of angular momentum. Application to spectroscopy, reaction dynamics, coupling of angular momenta, rotational transformations, graphical methods, Wigner-Eckart theorem, spherical tensors, rotational spectroscopy. Prerequisite(s): CHEM 542 or consent of the instructor.

542 Special Topics in Physical Chemistry 3 TO 4 hours. Lectures and readings in areas not normally treated in standard courses. Discussion of topics of current interest in physical chemistry. Prerequisite(s): Consent of the instructor.

549 Literature Seminar in Biochemistry 1 hour. Presentation of student papers on current research topics in biochemistry. Satisfactory/Unsatisfactory grading only.

550 Advanced Biochemistry I 4 hours. Basic and current topics on proteins, including protein structure, protein stability, protein folding and misfolding, and proteomics. Prerequisite(s): CHEM 454, and CHEM 346 or CHEM 348, or CHEM 346 or CHEM 348.
598 Master’s Thesis Research 0 TO 16 hours. Master’s thesis work under the supervision of a faculty member. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Approval of the department.

599 PhD Thesis Research 0 TO 16 hours. PhD thesis work under the supervision of a faculty member. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Approval of the department.

Civil and Materials Engineering (CME)

400 Advanced Design of Reinforced Concrete Structures 3 OR 4 hours. Design of reinforced concrete building structures, including design for lateral loads due to wind, structural systems for reinforced concrete buildings, shear walls, and design for seismic forces, 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CME 301 or the equivalent.

401 Advanced Design of Metal Structures 3 OR 4 hours. Plate girders, unsymmetrical bending; torsion of thin-walled structures; lateral-torsional instability; composite construction, 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CME 301.

402 Geometric Design of Highway Facilities 3 OR 4 hours. Elements of geometric design, Driver, vehicle, and roadway system characteristics. Horizontal and vertical alignment design, Intersection design and operation, Capacity and level of service, 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CME 302.

403 Hydraulic Design 3 OR 4 hours. Selection of applications of hydraulics and hydrology; pipe, pipe network and water distribution system design, unsteady pipe flow, open channel design, storm water engineering, 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CME 215.

405 Foundation Analysis and Design 3 TO 4 hours. Site characterization; analysis and design of shallow foundations, deep foundations and earth retaining structures; foundations on difficult soils; effects of construction; instrumentation and monitoring, 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CME 315.

406 Bridge Design 3 OR 4 hours. Theory and design procedures related to the analysis and design of modern bridges. Using the AASHTO Code, includes concrete and steel structures, construction practices and procedures, 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CME 301 and CME 310.

407 Soil and Site Improvement Methods 3 OR 4 hours. Compaction, preload, vertical drains, grouting, admixture stabilization, thermal stabilization, soil reinforcement, geosynthetics; construction of embankments on soft clay, embankments on mechanically stabilized earth walls, hydraulic barriers; case studies, 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CME 315.

408 Traffic Engineering and Design 3 OR 4 hours. Highway traffic control with an emphasis on highway capacity analysis and traffic signal design. Queuing theory, traffic flow theory, controller management, and traffic safety, 3 undergraduate hours. 4 graduate hours. Extensive computer use required. Fieldwork required. Prerequisite(s): CME 302 or consent of the instructor.

409 Structural Analysis II 3 OR 4 hours. Approximate analysis of structures including trusses and multistory frames. Influence lines, cables, and arches. Principles of limit analysis for structures and structural elements. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CME 205 or consent of the instructor.

410 Design of Prestressed Concrete Structures 3 OR 4 hours. Principles of prestressed concrete, Analysis and design of statically determinate prestressed concrete members. Introduction to design and detailing of connections. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CME 310.

411 Chemistry for Environmental Professionals 3 hours. Introduction to atmospheric chemistry, aspects of air pollution, chemistry related to natural water and water treatment, priority organic pollutants and heavy metals. Same as EOH 440. Prerequisite(s): One year of college chemistry.

415 Environmental Geotechnology 3 OR 4 hours. Environmental laws and regulations, sources and types of waste materials, waste materials in geotechnical applications, geotechnical management of municipal, industrial, mine, and nuclear wastes. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CME 315.

419 Air Quality Management I 3 hours. Sources, control, dispersion, and effects upon receptors of air pollution; health and other adverse effects, meteorology and dispersion estimation, photochemistry aerosol characterization. Same as EOH 431. Prerequisite(s): EOH 405 or CME 216 or consent of instructor.

420 Water and Wastewater Analysis Laboratory 0 TO 4 hours. Laborato class for environmental engineering, Analysis of water, wastewater, and soil for nutrients, pollutants, physical parameters, and biological parameters. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CME 216; or consent of instructor.

421 Water Treatment Design 3 OR 4 hours. Water quality control systems, Physical-chemical unit processes applied to systems designed for treatment of municipal and industrial waters. 3 undergraduate hours. 4 graduate hours. Field trip required at nominal fee. Prerequisite(s): CME 216.

422 Biological Wastewater Treatment Design 3 OR 4 hours. Processes involved in the biological treatment of wastewater. Aerobic and anaerobic treatment, sludge stabilization, and nutrient removal, 3 undergraduate hours. 4 graduate hours. Field trip required at nominal fee. Prerequisite(s): CME 216 or the equivalent.

423 Management of Solid and Hazardous Wastes 3 hours. Management of solid and hazardous waste, including radioactive waste, landfill, incineration, recycling, composting, source reduction, groundwater and air pollution impacts, control, regulations, siting, health impacts. Same as EOH 472 and GEOG 444.

425 Environmental Remediation Engineering 3 OR 4 hours. Sources of contamination, regulations, site characterization, impact assessment, waste disposal and containment options, waste treatment options, case studies. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CME 315.

427 Engineering Hydrology 3 OR 4 hours. Processes, techniques, and concepts in hydrology of interest to the engineer: precipitation, interception, evaporation, groundwater, unit hydrographs, flood routing, and statistics. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CME 215.

430 Theory of Elasticity I 3 OR 4 hours. The boundary value problems of linear elasticity. Uniqueness of solution. Reduction to two dimensions: the plane problems, torsion, bending. Polar coordinates and general orthogonal coordinates, 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CME 204 and MATH 481 or the equivalents.

431 Introduction to Continuum Mechanics 3 OR 4 hours. Vectors and tensors, stress, principal stresses and principal axes, deformation, compatibility conditions, constitutive equations, isotropy and mechanical properties of fluids and solids, 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CME 203 and ME 211; or CME 203 and ME 211.
432 Energy Methods in Mechanics 3 OR 4 hours. Variational theorems of elasticity. Applications to establish approximate systems and their solution. Beams (including shear deformation). Introduction to instability theory. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CME 205.

434 Finite Element Analysis I 3 OR 4 hours. Establishment of basic finite element, matrix relations for one-dimensional heat conduction problems: Truss, beam, and frame structural systems. Solution methods of the resulting equations. Introduction to two-dimensional analysis. 3 undergraduate hours. 4 graduate hour. Prerequisite(s): CME 205 or ME 401 and CS 108.

435 Theory of Vibrations I 3 OR 4 hours. Analytical and numerical treatment of linear, discrete systems. Nonlinear discrete systems. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CME 200 or the equivalent and MATH 220.

450 Probability and Reliability in Structural Design 3 OR 4 hours. Maximum uncertainly principle and probability distributions of random variables. Distributions of extremes and their applications. Statistics of failure. The weakest link theory. Time to failure. Structural reliability. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Consent of the instructor.

453 Experimental Stress Analysis 0 TO 4 hours. Structural similitude and dimensional analysis. Strain measurement techniques. Introduction to photoelasticity. 3 undergraduate hours, 4 graduate hours. Prerequisite(s): CME 430.

454 Structural Analysis and Design of Tall Buildings 3 OR 4 hours. State-of-the-art introduction to structural analysis and design of tall buildings. Load impact on different structural systems. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CME 401 or CME 409 or the equivalent or consent of the instructor. Recommended background: Major structural analysis and design courses.

470 Physical and Mechanical Properties of Materials 4 hours. Basic metallographic phenomena; kinetics and phase stability; diffusion and transformation rates. Mechanical properties of materials; creep; fatigue and fracture. Prerequisite(s): CME 260.

471 Thermodynamics of Materials 0 TO 4 hours. Application of chemical and thermodynamic principles to processing and characterization of materials. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CME 260.

480 Welding Metallurgy 4 hours. Metallurgy of metals joining processes. Selection of processes and design of products manufactured by joining processes. Prerequisite(s): CME 368.

493 Seminar 1 TO 3 hours. Topics of mutual interest to a faculty member and a group of students. Offered as announced in the Schedule of Classes.

494 Special Topics in Civil Engineering, Mechanics, and Materials 1 TO 4 hours. Subject matter varies from section to section and from semester to semester, depending on the specialities of the instructor. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

496 Special Problems 1 TO 4 hours. Special problems or reading by special arrangement with a faculty member. Prerequisite(s): Consent of the instructor.

500 Design of Concrete Plate and Shell Structures 4 hours. Practical design of reinforced concrete slabs, walls, and shells of single and double curvatures. Includes barrel roofs, domes, and storage tanks. Prerequisite(s): CME 310.

501 Urban Transportation 4 hours. Transportation technology and its relation to travel and location phenomena in large urban areas, as a basis for planning, operating and design of multimodal transportation systems. Prerequisite(s): Grade of C or better or concurrent registration in CME 302; and MATH 210 and ECON 120. Recommended background: For transportation and urban planning majors.

502 Bridge Design II 4 hours. Theory and design procedures related to the analysis and design of modern bridges, using AASHTO Code. Includes concrete and steel structures, construction practices and procedures. Prerequisite(s): CME 406.

503 Advanced Transportation Demand Analysis 4 hours. Advanced quantitative analysis and modeling of transportation demand for planning purposes. Disaggregate choice models, traveler behavior and values, activity-based and microsimulation approach to demand modeling. Extensive computer use required. Prerequisite(s): CME 508.

505 Advanced Soil Mechanics 4 hours. Soil structure, stresses in soil mass, fluid flow, consolidation, drained and undrained shear strength, stress-strain relations, laboratory determination of strength and compressibility of soils. Prerequisite(s): CME 315.

506 Physical/Chemical Principles in Environmental Systems 4 hours. Physical and chemical principles in natural and engineered environmental systems. Environmental process equilibria and rates. Reactor design and mass transfer in environmental systems. Multiphase environmental processes. Prerequisite(s): CME 216.

508 Urban Travel Forecasting 4 hours. Theory and method of forecasting travelers’ choices of route, mode, destination, departure time, trip frequency, and origin location in congested urban transportation networks. Prerequisite(s): CME 302 and MATH 210 and ECON 120.

509 Transportation Networks 4 hours. Application of constrained optimization methods to the analysis, planning, and design of urban transportation networks. Prerequisite(s): CME 507 and ECON 501 and MATH 484 and CME 508.

510 Advanced Design of Prestressed Concrete Structures 4 hours. Analysis and design of indeterminate prestressed concrete members. Composite beams, tension, deflections, and design and detailing of connections; special topics, such as anchorage zone design. Prerequisite(s): CME 410.

516 Design of Landfills and Impoundments 4 hours. Regular overview, site selection, waste characterization, design, and construction of landfill and impoundment components, operations, performance monitoring, closure plans, long-term impacts and monitoring, economic analysis. Prerequisite(s): CME 315.

518 Pollution Prevention Engineering 4 hours. Pollution prevention concepts, planning, and economics. Improved manufacturing operations and life cycle assessment. Design for the environment, resource conservation and sustainable development. Prerequisite(s): CME 216.

520 Earthquake Engineering of Concrete Structures 4 hours. Earthquake phenomena; response spectrum and design spectrum concepts; dynamic response of structures to earthquakes, methods of analysis; code approach to earthquake resistant design; alternative approaches. Prerequisite(s): CME 310.

521 Biological Treatment Fundamentals 4 hours. Fundamental processes for the biological treatment of wastewater, pollutants, and bioremediation. Growth and metabolism, kinetics, microbial
ecology, biogeochemistry, and pollutant biodegradation.

Prerequisite(s): Credit or concurrent registration in CME 422; or consent of the instructor.

Recommended background: A basic understanding of biology.

523 Environmental Organic Chemistry 4 hours.

Prerequisite(s): EOHS 440 or CME 411.

524 Water Chemistry 4 hours.

Chemical equilibria and kinetic principles as applied to processes occurring in natural and engineered water systems. Same as EOHS 542. Prerequisite(s): EOHS 440 or CME 411.

525 Advanced Biological Treatment and Bioremediation 4 hours.

Advanced biological treatment processes. Stoichiometry of biological reactions, kinetics, bioremediation, biochemical pathways for pollutant biodegradation, immunological and genetic characterization of microbial cultures. Prerequisite(s): Credit or concurrent registration in CME 521; or consent of the instructor.

526 Air Quality Management II 2 hours.

Air quality management: integration of diverse aspects. Data interpretation; standards setting; policy implementation; equipment design; hazardous spill modeling; indoor air pollution; case studies. Same as EOHS 532. Prerequisite(s): EOHS 431 or CME 419.

530 Theory of Elasticity II 4 hours.

Review of complex variable formulation of plane problems. Singularities and crack problems. Prerequisite(s): CME 430.

531 Nonlinear Continuum Mechanics 4 hours.

Matrices and general tensors, isotropic tensor functions, representation theorem, kinematics, polar decompositions, Cauchy-Green tensors, Cauchy stress, Piola-Kirchhoff stresses, constitutive laws, frame indifference, hyperelastic materials and universal solutions. Prerequisite(s): CME 430 or CME 431.

533 Fracture Mechanics and Failure Analysis II 4 hours.

534 Finite Element Analysis II 4 hours.

Application of the finite element method to the analysis of complex continuum and structural linear systems. Introduction to error analysis and convergence of the finite element solutions. Prerequisite(s): CME 434.

535 Theory of Vibration II 4 hours.

Harmonic vibrations; vibrations of a string; vibrations of a beam; vibrations of a membrane; periodic systems; forced waves; nonlinear vibrations. Same as ME 535.

Prerequisite(s): CME 435 or ME 408 or the equivalent.

536 Nondestructive Testing of Concrete 4 hours.

Strength and durability of concrete structures by nondestructive evaluation of the material through acoustic, magnetic, thermal, electrical, and optical phenomena; nondestructive methodologies for evaluation of concrete structures. Prerequisite(s): CME 310.

537 Plasticity I 4 hours.

539 Elastic Stability 4 hours.

541 Mechanics of Composite Materials 4 hours.

Anisotropic elastic materials; stress analysis for isotropic materials; Stress formality for anisotropic materials; singularities at free-edges; stress analysis in composites; wave propagation in composites. Prerequisite(s): CME 430 or equivalent.

544 Structural Dynamics 4 hours.

Formulation and solution methods for time-dependent systems. Pertinent numerical techniques and their application to seismic analysis, blast loading, and heat transfer problems. Prerequisite(s): CME 434.

549 Subsurface Flow and Contaminant Transport Modeling 4 hours.

Definitions, basic principles, fluid flow in vadose zone, groundwater flow, contaminant transport in vadose zone, contaminant transport in groundwater, numerical models and field implementation, case studies. Prerequisite(s): CME 415 or consent of the instructor.

554 Nonlinear Finite Element Analysis 4 hours.

Nonlinear elastostatics, consistent linearization, Newton and modified Newton methods, line search techniques, arc-length methods. Hyperelement, B-bar type methods. Finite deformation elastodynamics, semi-discretization, time-stepping algorithms. Prerequisite(s): CME 531 and CME 534; or consent of the instructor.

556 Kinetics of Reactions and Phase Transformations in Metals 4 hours.

Nucleation and growth kinetics, order of transformation, grain growth, recovery, recrystallization, solidification, phase transformation in solids, precipitation hardening, spinodal decomposition and martensitic transformations. Prerequisite(s): Consent of the instructor.

570 Diffusion Phenomena in Materials 4 hours.

Diffusion mechanisms in crystals, Kinkedeall effect; diffusion in ionic solids; diffusion in gases and liquids; diffusion through porous media; kinetics of diffusion controlled processes.

572 Advanced Thermodynamics of Materials 4 hours.

Treatment of multicomponent systems thermodynamics with emphasis on metallurgical process applications. Development of relation between structure of metallic solutions, molten salts, and quasi-chemical models.

580 Infrastructure Management 4 hours.

Integrated approach to the management of infrastructure systems.

416 Conflict and Communication 3 OR 4 hours. Students learn to manage and resolve conflict in business, government, and community settings. Practical analysis of interpersonal and group conflict cases. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): COMM 312 and COMM 313, or approval of the department.

430 Media, Information, and Society 3 OR 4 hours. News as a distinct form of mass communication, involving social functions and significant questions about facts, truth, knowledge, and values. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): COMM 103 and COMM 200, or approval of the department.

434 Global Communication Systems 3 OR 4 hours. Structure and flow of international communication. Media organization systems. International impact of new media and information technology. Impact of U.S. media reporting on foreign affairs. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Approval of the department.

454 Cognitive Psychology of Language 3 hours. Provides students with a survey of methods, theory and research in language and discourse processing. Same as LING 474 and PSCH 454. Prerequisite(s): Graduate standing or consent of the instructor.

456 Topics in the History of Communications 3 OR 4 hours. This course introduces students to major developments in the history of communications, with a focus on the political and cultural dimension of technologies. Same as HIST 456. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Consent of the instructor.

467 Public Opinion and Political Communication 3 OR 4 hours. Nature of public opinion and political communication systems. Patterns of opinion distribution and its measurement. Forces shaping public opinion and its impact on public policy. Same as POLS 467. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): POLS 200 or the equivalent or consent of the instructor.

473 Organizations and Their Publics 3 OR 4 hours. History of relevant theories and models; problem solving: analyzing goals, identifying publics, setting objectives, designing messages, choosing channels, planning implementation (budgeting, staffing, timetables), evaluating effects. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): COMM 201 and COMM 306, or approval of the department.

474 Internship 3 TO 8 hours. Students work in an approved professional setting. Individual projects developed through conferences with a faculty member and a field supervisor. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the faculty member and department.

501 Organizational Communication Research 4 hours. History of the field, research traditions, communication viewed as social science; forming research questions, reviewing and critiquing literature, formulating hypotheses and rationale, conceptually defining variables. Prerequisite(s): Consent of the instructor or graduate standing in communication.

503 Seminar in Intercultural Communication 4 hours. Introduction to basic theoretical concepts and important issues in intercultural communication. Prerequisite(s): COMM 500, or consent of the instructor.

505 Organizational Communication 4 hours. Classic and current research. Models that examine organizational communication; assessment of organizational problems and conduct of problem-solving research. Prerequisite(s): COMM 306 and COMM 500, or consent of the instructor.
506 Cross-Cultural Communication 4 hours. Analysis of different theoretical approaches to cross-cultural communication (sociolinguistic, attributional); contrastive analysis of Western and non-Western cultural systems (interpersonal etiquette, discourse rules). Same as LING 506.

525 Approaches to Rhetorical Criticism 4 hours. Contemporary approaches to rhetorical criticism. Each offering focuses upon the distinctive contributions of specified rhetoricians to the theory and practice of rhetorical criticism. May be repeated to a maximum of 12 hours. Prerequisite(s): COMM 410.

534 Mass Communication Theory 4 hours. Introduction to major theories of mass communication: their social history and substantive claims; distinction between mass mediated and other forms of communication, implications of distinction.

567 Topics in Political Communication 4 hours. Intensive study of selected aspects; organizational communication in public institutions, urban political communication patterns, community elites. Independent research using a variety of community research techniques. Same as PA 567 and POLS 567. Prerequisite(s): Consent of the instructor.

580 Qualitative Methods in Communication 4 hours. Qualitative methods course analyzing language and culture patterns. Same as LING 582. Prerequisite(s): COMM 501 or consent of the instructor.

591 Health Communication 4 hours. Focusing on interpersonal, organizational and public contexts; seminar participants will review current literature in health communication, and apply selected communication concepts to health-related situations. Prerequisite(s): Graduate standing in communication, or enrollment in a health professions school or college, or consent of the instructor.

594 Advanced Special Topics in Communication 1 TO 4 hours. Student may register for more than one section per term. Advanced topics in communication theory and research. Subject matter varies. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

596 Independent Research 1 TO 4 hours. Department approved research projects not included in thesis research. May be repeated to a maximum of 6 hours. Students may register in more than one section per term. Prerequisite(s): Consent of the head of the department.

598 Thesis Research 0 TO 16 hours. Under guidance of an adviser and committee the student develops and conducts a research project addressing a communication problem of a basic or applied nature. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

599 Course Description 1 TO 4 hours. Requires prior approval of instructor. Consent of the instructor. May be repeated to a maximum of 12 hours. Prerequisite(s): COMM 501.

Community Health Sciences (CHSC)

400 Public Health Concepts and Practice 3 hours. Concepts, principles, discussion, exercises, and case studies that provide an overview of the philosophy, purpose, history, organization, functions, tools, activities, and results of public health practice. Prerequisite(s): Enrolment restricted to public health students; other graduate, professional, and advanced undergraduate students admitted by consent as space permits. To obtain consent, see the SFH registrar.

401 Behavioral Sciences in Public Health 3 hours. Provides grounding in the social and behavioral sciences to analyze public health issues. Includes analysis of individual, community, institutional, and societal factors influencing health and illness. Prerequisite(s): Enrolment restricted to public health students; other graduate, professional, and advanced undergraduate students admitted by consent as space permits. To obtain consent, see the SFH registrar.

403 The Future of Public Health 2 hours. Examines the critical issues facing the public health system in the United States by considering concepts, issues, and recommendations of public health practice experts. Recommended background: Completion of CHSC 400.

405 Leadership in Public Health Practice 3 hours. Utilizing public health core functions, this course explores leadership style and practice through case studies and techniques which enhance leadership development. Same as HPA 405. Prerequisite(s): CHSC 400 and consent of the instructor.

411 Nutrition for Public Health Professionals 3 hours. Foundation course to introduce nutrition principles and their application to public health populations and problems. Prerequisite(s): CHSC 400; and graduate or professional standing; or consent of the instructor.

419 Public Health Aspects of Sexuality and Women’s Health 3 hours. An overview of human sexuality from a public health view with special emphasis on family planning, sexuality, and behavior effects on women’s health. Same as GWS 419. Prerequisite(s): Graduate standing; or junior standing or above with consent of the instructor.

425 Public Health and Aging 3 hours. Gerontological public health issues are examined through the psychosocial and physical dimensions of the aging process and interactions between the elderly and the healthcare system. Prerequisite(s): Consent of the instructor. Recommended background: Some knowledge of maternal and child health issues.

446 Research Methods in Community Health 3 hours. Introduction to principles and techniques for scientific investigation of problems in public health research and practice. Prerequisite(s): BSTT 400 or the equivalent. Restricted to graduate or professional standing, or consent of the instructor.

447 Survey Planning and Design 3 hours. Theoretical applications of sample survey planning and design for conducting research in health sciences and related fields. Addresses three major topics: survey design and planning, sampling, and data collection procedures. Same as PA 447. Prerequisite(s): Graduate or professional standing and BSTT 400 or the equivalent. Recommended background: Credit in CHSC 446 or the equivalent.

450 Introduction to International Health 3 hours. Survey of health conditions focus-
194

Topics vary by semester.

Prerequisite(s):

Same as CHSC 400 and CHSC 425; or consent of the instructor.

Recommended background: For CHSC students, CHSC 401 is recommended as a prerequisite.

Advanced Applied Methods in MCH

Epidemiology 3 hours.

Gives conceptual and technical understanding of statistical and epidemiological methods, builds skills/proficiency in applying these.

Attention is given to data handling tasks and to statistical/epidemiologic strategies for analysis and presentation. Same as EPID 549

Prerequisite(s): EPID 402 or EPID 404; and BSTT 401 and EPID 406; or consent of the instructor.

Recommended background: Credit or concurrent registration in EPID 501.

Foundations of Public Health Inquiry 3 hours.

Examination of research paradigms, precepts of theory development, literature synthesis, and ethical principles. All enhance the scholarliness and meaningfulness of doctoral students’ public health inquiry.

Prerequisite(s): Open only to PhD degree students.

International Women’s Health: Current and Emerging Issues 3 hours.

Enhance students’ understanding of, and sensitivity to, current and emerging international women’s health issues. The focus will include studying social and cultural factors affecting women’s physical as well as psychosocial health.

Prerequisite(s): CHSC 400; or consent of the instructor.

Theory and Methods of Needs Assessment in Aging and Disability 4 hours.

Introduces theories of need, models of the needs assessment process, and reviews research methods typically used in conducting needs assessments. Emphasis will be on needs assessments in health-related community agencies. Same as DIS 556 and OT 556.

Prerequisite(s): A 400- or 500-level research course such as OT 510, CHSC 445, CHSC 446, or SOC 500.

The prerequisite research course needs to provide students with an understanding of basic research design, sampling strategies, and an introduction to methods with particular emphasis on methodologic issues. Same as EPID 548.

Prerequisite(s): CHSC 441 and EPID 404; or consent of the instructor. Recommended background: Maternal and child health and epidemiology.
such as surveys and focus groups.

**Recommended background:** Health or behavioral sciences, research methods.

564

Community Integration in Developmental Disabilities 3 hours.

Historical and contemporary issues pertaining to the empowerment and integration of persons with developmental disabilities into community settings. Same as DHD 564 and DIS 564.

577

Survey Questionnaire Design 3 hours.

Concepts and strategies for developing survey questionnaires for various modes of survey data collection. Students develop and present questionnaires related to their individual interests. Same as PA 577.

Prerequisite(s): CHSC 446 or CHSC 447; or consent of the instructor.

584

Community Organizing for Health 3 hours.

Focus on the bases of facilitating community organizing processes in health promotion including theories, fieldwork tools, and feminist and international perspectives. Fieldwork required. Prerequisite(s): CHSC 480 or consent of the instructor.

586

Health Behavior Interventions 3 hours.

Advanced concepts and strategies for the development, implementation, and evaluation of public health interventions to change health behaviors. Individual intervention project proposal (according to federal guidelines) or equivalent final paper required. Prerequisite(s): CHSC 446 and CHSC 480.

594

Advanced Special Topics in Community Health Sciences 1 TO 4 hours.

Advanced study of topics in maternal and child health, gerontology, behavioral science of health and illness, international health, community health, and public health practice. May be repeated. Students may register in more than one section per term. Topic vary by semester. Prerequisite(s): BISTT 400 and CHSC 440 and EPID 400 or equivalent and consent of the instructor. Recommended background: Advanced placement in graduate program.

595

Seminar in Community Health Sciences 1 TO 3 hours.

Analysis of current theory and research in community health sciences. Satisfactory/unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Topics vary by semester. Prerequisite(s): Consent of the instructor.

Recommended background: Advanced placement in graduate program.

**Computer Science (CS)**

401

Computer Algorithms I 3 OR 4 hours.

Design and analysis of computer algorithms. Divide-and-conquer, dynamic programming, greedy method, backtracking. Algorithms for sorting, searching, graph computations, pattern matching, NP-complete problems. Same as MCS 401. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in MCS 360 and grade of C or better in STAT 381; or grade of C or better in CS 202.

411

Artificial Intelligence I 3 OR 4 hours.

Problem representation; rule-based problem-solving methods; heuristic search techniques. Application to expert systems, theorem proving, language understanding. Individual projects. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CS 202.

415

Computer Vision I 3 OR 4 hours.

Computer vision system design. Segmentation and representation of regions and boundaries; image filtering; object recognition; advanced topics (examples: texture, stereo, color, applications). Programming assignments. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CS 202 or MCS 360, or consent of the instructor.

421

Natural Language Processing 3 OR 4 hours.

Design of natural language processing systems; part-of-speech tagging, statistical and symbolic parsers; semantic interpretation; discourse and dialogue processing; natural language generation; applications. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CS 301 or MCS 441.

422

User Interface Design and Programming 3 OR 4 hours.

User interface design, implementation, and evaluation: user-centered design methodologies, windowing systems, I/O devices and techniques, event-loop programming, user studies. Programming projects. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CS 340.

426

Multimedia Computing 3 OR 4 hours.

Processing multimedia information, including video, images, audio, text, and specialty data. Multimedia sources, formats, operations, and algorithms. Implementation projects. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CS 340 and CS 450.

440

Software Engineering I 3 OR 4 hours.

Software lifecycle model, requirement specification techniques, large-scale software design techniques and tools, implementation issues, testing and debugging techniques, software maintenance. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CS 340.

441

Distributed Object Programming Using Middleware 3 OR 4 hours.

Design and implementation of distributed object programs using middleware software standards; interface definition languages and programming language mappings; static and dynamic object communication mechanisms. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CS 340 and CS 385.

442

Software Engineering II 3 OR 4 hours.

Advanced concepts in software development; requirements engineering, cost estimation, risk analysis, extreme programming, regression test case selection, and design patterns. Software lab assignments required. 3 undergraduate hours. 4 graduate hours. Extensive computer use required. Prerequisite(s): CS 340 and CS 385.

450

Introduction to Networking 3 OR 4 hours.

Network protocols, algorithms, and software issues. Topics include the Open Systems Interconnection model, data link, network and transport layers, TCP/IP, ATM, mobile networks. 3 undergraduate hours. 4 graduate hours. Credit is not given for CS 450 if the student has credit for ECE 438. Prerequisite(s): CS 202 and CS 385, and STAT 381 or STAT 401 or E 342.

455

Design and Implementation of Network Protocols 3 OR 4 hours.

Network protocols and their software. Examines CS network interfaces through network layers. Topics include routing, congestion control, fault tolerance, security, name servers, multicast, and performance. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CS 340 and CS 450.

466

Advanced Computer Architecture 3 OR 4 hours.

Design of high performance computer architecture. Cost-Performance; Instruction Sets; Pipelining; Memory Hierarchy; I/O. 3 undergraduate hours. 4 graduate hours. Credit is not given for CS 466 if the student has credit for ECE 466. Prerequisite(s): CS 366.

469

Computer Systems Design 3 OR 4 hours.

Analysis and modeling of digital systems; hardware description languages; CAD tools for simulation, synthesis, and verification of computer systems. Project: a simple processor design. 3 undergraduate hours. 4 graduate hours. Credit is not given for CS 469 if the student has credit in either ECE 368 or ECE 469. Prerequisite(s): CS 366.

473

Compiler Design 3 OR 4 hours.

Language translation; lexical analysis, parsing schemes, symbol table management, syntax and semantic error detection, and code generation. Development of fully-functional compiler. Same as MCS 411. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in CS 301 or grade of C or better in MCS 441; and grade of C or better in CS 202 or grade of C or better in MCS 360; and grade of C or better in CS 266.

474

Object-Oriented Languages and Environments 3 OR 4 hours.

Database, objects and classes, messages and methods, polymorphism and dynamic binding, inheritance. Object-oriented design. Pure and hybrid object-oriented languages. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CS 340.
475 Object-Oriented Programming 3 OR 4 hours. O0 Paradigm: classes, messages, methods, variables, inheritance, polymorphism; the C++ and Java languages; programming labs required. 3 undergraduate hours. 4 graduate hours. Credit is not given for CS 475 if the student has credit for CS 540 or CS 474. Extensive computer use required. Prerequisite(s): CS 202; and consent of the instructor.

476 Programming Language Design 3 OR 4 hours. Definition, design, and implementation of programming languages. Syntactic and semantic description; variable bindings, control and data structures, parsing, code generation, optimization; exception handling; debugging techniques. Same as MCS 415. 3 undergraduate hours. 4 graduate hours. Prereq: listed as EECS 476. Prerequisite(s): MCS 360 or CS 340.

480 Database Systems 3 OR 4 hours. Database design, logical design, physical design. Relational databases: Recovery concurrency control; Normalization. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CS 202.

485 Networked Operating Systems Programming 4 OR 5 hours. Concepts, design, and programming of multiprocess and distributed systems; internode communications; fault tolerance; distributed programming semantics. Programming assignments and project required. 4 undergraduate hours. 5 graduate hours. Prerequisite(s): CS 385.

488 Computer Graphics I 0 TO 4 hours. Principles of interactive computer graphics. Raster and vector display, techniques, and hardware considerations. Introduction to two-dimensional and three-dimensional rendering. Laboratory Same as AD 488. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Credit or concurrent registration in CS 340.

491 Seminar 1 TO 4 hours. Topics of mutual interest to a faculty member and a group of students. Offered as announced by department bulletin or the Schedule of Classes. May be repeated. Prerequisite(s): Consent of the instructor.

493 Special Problems 2 TO 4 hours. Special problems or reading by special arrangement with the faculty. No graduate credit for Computer Science majors. Prerequisite(s): Consent of the instructor.

502 Design and Analysis of Efficient Algorithms in Computational Molecular Biology 4 hours. Design and analysis of efficient algorithms for computational problems in molecular biology such as genome sequencing and construction of evolutionary trees. Prerequisite(s): Grade of B or better in CS 401; or consent of the instructor. Recommended background: CS 301 and some exposure to basic chemistry and biology.

503 Applied Graph Theory 4 hours. Paths, circuits, trees, cutsets, planarity, duality, matrices, and vector space of graphs, directed graphs, coloring, covering, matching, and applications to switching networks and computer science. Prerequisite(s): Consent of the instructor.

505 Computability and Complexity Theory 4 hours. Turing machines, undecidability, Rice’s theorem, recursively enumerable sets, complexity theory, hierarchy theorems, alternation, parallel complexity classes, complete problems. Prerequisite(s): CS 301.

511 Artificial Intelligence II 4 hours. Predicate logic and resolution strategies, reasoning under uncertainty, incomplete information reasoning, state and change, planning, temporal reasoning knowledge representation, learning, advanced search techniques, and current topics. Prerequisite(s): CS 411.

515 Advanced Computer Vision 4 hours. Analysis of 3-D scene images. Shape from shading, texture, line drawings, and surface orientation. Surface representation methods and reconstruction of 3-D scenes. Design of knowledge-based vision systems and 3-D-Duplications. Prerequisite(s): CS 415.

521 Statistical Natural Language Processing 4 hours. Statistical techniques for Natural Language Processing, including maximum likelihood estimation, Hidden Markov Models, and probabilistic grammars, and their applications, including parsing, semantic inference, dialogue processing, and summarization. Prerequisite(s): CS 421; or consent of the instructor.

522 Human-Computer Interaction 4 hours. The computer-user interface: media, languages, interaction techniques, user modeling. Human factors in software development. Theory, experimental methods, evaluation tools. Project required. Prerequisite(s): CS 422.

523 Multimedia Systems 4 hours. Principles of multimedia interface design for computer applications. Multidisciplinary approaches to integrating text, still images, animation, and sound into human-computer interfaces. Prerequisite(s): CS 422; or consent of the instructor.

526 Computer Graphics II 4 hours. State of the art in computer graphics and interactive techniques: three-dimensional surface and volumetric models. A laboratory is required. Same as AD 588. Prerequisite(s): CS 488.

527 Computer Animation 4 hours. Theoretical and practical aspects of computer animation and computer-assisted animation in two and three dimensions and in black and white or full color. Laboratory. Prerequisite(s): CS 488.

528 Virtual Reality 4 hours. Principles of virtual reality and virtual environments. Hardware, software, and design issues in presenting images and sound in immersive environments. Input and control devices. Quantitative assessment of virtual reality systems. Prerequisite(s): CS 488.

540 Advanced Topics in Software Engineering 4 hours. Formal methods; requirements and specification languages; program flow analysis; validation and verification; software metrics; program representations; software tools; software testing; software process. Prerequisite(s): CS 440; or consent of the instructor.

541 Software Engineering Environments 4 hours. Software configuration management; software quality assurance; software engineering economics; software factory; software reuse; computer aided software engineering; software prototyping. Prerequisite(s): CS 540; or consent of the instructor.

542 Distributed Software Engineering 4 hours. Fundamental concepts of distributed software. Task allocation algorithms, language concepts for concurrency and communication, analysis methods and tools, and formal models. Prerequisite(s): CS 440.

545 Formal Methods in Concurrent and Distributed Systems 4 hours. Formal methods in concurrent and distributed systems, particularly temporal logic and automata for specifying and reasoning real-time properties. Automated and manual techniques for checking correctness. Prerequisite(s): Consent of the instructor.

553 Distributed Computing Systems 4 hours. Distributed computing systems terminology and design issues. Data communications protocols; distributed operating systems, resource management, and synchronization; security; database systems. Prerequisite(s): CS 366 and CS 385.

554 Advanced Topics in Concurrent Computing Systems 4 hours. Petri nets, methods and their applications to concurrent, distributed,
parallel, and data-flow systems; and logic programming and rule-based systems. Prerequisite(s): Consent of the instructor.

559 Neural Networks 4 hours. Artificial neural networks, perceptron, backpropagation, Kohonen nets, statistical methods, Hopfield nets, associative memories, cognition. Same as ECE 559. Prerequisite(s): Consent of the instructor.

560 Fuzzy Logic 4 hours. Crisp and fuzzy sets; membership functions; fuzzy operators; fuzzy relations and their solutions; approximate reasoning; fuzzy modeling and programming; applications; project. Prerequisite(s): Consent of the instructor.

565 Algorithms for VLSI Physical Design 4 hours. Computer-aided physical design of integrated circuits; circuit partitioning and placement; floorplanning; global and detailed routing; timing optimization; general optimization tools; local search; constraint relaxation. Credit is not given for CS 565 if the student has credit for ECE 565. Prerequisite(s): CS 401 and CS 469, or consent of the instructor.

566 Parallel Processing 4 hours. Parallel processing from the computer science perspective. Includes architecture (bus based, lockstep, SIMD), programming languages (functional, traditional and extensions), compilers, interconnection networks, and algorithms. Prerequisite(s): CS 466.

569 High-Performance Processors and Systems 4 hours. Instruction-level parallelism, multiple-instruction issue, branch prediction, instruction and data prefetching, novel cache and DRAM organization, high-performance interconnect, compilation issues, case studies. Prerequisite(s): CS 466.

577 Object Stores 4 hours. Use, design, and implementation of object stores. An object store enables object-oriented programming to be extended by storing objects on disk and communicating objects between processes. Prerequisite(s): CS 385 and CS 480; and knowledge of C++, or consent of the instructor.
present enforcement strategies. 3 undergraduate hours. 4 graduate hours. **Prerequisite(s):** Two 200-level criminal justice courses.

### 442 Comparative Criminal Justice
**Institutions** 3 OR 4 hours. Comparative study of law, jurisprudence, enforcement, and punishment in Western and non-Western societies, including civil law, common law, and Islamic systems. 3 undergraduate hours. 4 graduate hours. **Prerequisite(s):** Two 200-level criminal justice courses.

### 456 Community Corrections 3 OR 4 hours.
History, processes, and functions of programs organized for sanctioning offenders in community settings, such as probation, parole, halfway houses, restitution, community service, home confinement, 3 undergraduate hours. 4 graduate hours. **Prerequisite(s):** CRJ 350 or CRJ 355; plus one 200-level criminal justice course.

### 480 Application of Science to the Law 4 hours.
Issues affecting the development, accessibility, and admissibility of forensic science services by the criminal justice system; problems which may compromise the quality, fairness and effectiveness of scientific inquiries. **Same as BPS 480. Prerequisite(s):** CRJ 210 and CRJ 260; or graduate standing.

### 491 Topics in Rule Breaking 3 OR 4 hours.
Content of course varies, addressing major issues. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time. Students may register in more than one section per term. **Prerequisite(s):** Six 200- or 300-level criminal justice courses.

### 492 Topics in Rule Application 3 OR 4 hours.
Content of course varies, addressing major issues. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time. Students may register in more than one section per term. **Prerequisite(s):** Six 200- or 300-level criminal justice courses.

### 500 Law and Society 4 hours.
Emergence and growth of rule-governed social order; social organization of legal actors; functional aspects of law including social control, dispute resolution, rule-interpreta-

### 520 Criminological Theory 4 hours.
Critical examination of the major traditions in criminological theories; emphasis on critical, positivist, interpretivist, and postmodern. **Prerequisite(s):** Consent of the instructor.

### 539 Seminar in Rule Breaking 4 hours.
Study of a specific area of rule-breaking such as licencing, criminal violence, corporate crime, criminal public order criminality, or occupational crime. Content varies. May be repeated to a maximum of 8 hours. **Prerequisite(s):** Consent of the instructor.

### 540 Criminal Justice: Process and Institutions 4 hours.
Criminal examination of the criminal justice system. The dynamics and processes of contemporary police, judicial, and correctional institutions are evaluated in the context of key historical developments and relevant research. **Same as CRJ 540.**

### 541 The Dynamics of Behavior in Criminal Justice Agencies 4 hours.
Leading theories of organizational behavior used to interpret organizational patterns, functions, and constraints in rule-applying institutions; emphasis on the application of these theories to the problems of planned change.

### 547 Race, Class, and Gender Dimensions of Crime and Justice 4 hours.
Theories addressing the intersections of race, class, gender, crime, and justice. Specifically, students examine criminological theories; social construction of race, class, and gender; legal decision-making and implications of this for justice in our society. **Same as GWS 547.**

### 548 Legal Discourse and Culture in Law and Society 4 hours.
Discourse, power, and culture in legal settings and analysis of power and resistance in the construction of law as a social fact. **Prerequisite(s):** CRJ 500.

### 555 Corrections: Institutions and Field Operations 4 hours.
Examines institutions and field services in public and private sectors. Addresses historical and empirical approaches to the analysis of policy and correctional effectiveness; the neoclassical challenge to rehabilitation, and corrections case law. **Prerequisite(s): CRJ 540.**

### 560 Quantitative Methods and Design 4 hours.
Fundamentals of scientific inquiry, the logic of causal inference, and quantitative methods. Development of critical perspective and identification of weaknesses in research design and measurement. Development of skills in proposal development and data collection unique to criminal justice. **Prerequisite(s):** CRJ 262 or consent of the instructor.

### 561 Qualitative Methods and Design 4 hours.
Theories and techniques of qualitative research methods, particularly fieldwork and in-depth interviews. Criminal justice problems amenable to these techniques and methods and interrelationship between the researcher role and substantive findings. **Prerequisite(s):** CRJ 262 or consent of the instructor.

### 562 Statistical Applications in Criminal Justice I 4 hours.
Basic descriptive and inferential statistics, their applications in data analysis, and assumptions underlying use of these procedures in criminal justice research. **Prerequisite(s):** CRJ 262 or the equivalent.

### 563 Evaluation Research in Criminal Justice 4 hours.
Experimental, quasi-experimental, and non-experimental approaches to evaluation research; indicators of effectiveness. Applications to crime prevention, police, courts, and correctional programs. Politics of researcher-agency interactions. **Prerequisite(s):** One graduate-level course in research methods and consent of the instructor.

### 564 Statistical Applications in Criminal Justice II 4 hours.
Introduction to multivariate statistics with emphasis on multiple regression in criminal justice research, analysis, and interpretation of regression output, coding of variables, and path analysis. **Prerequisite(s):** CRJ 562.

### 570 Advanced Methods in Criminal Justice 4 hours.
Methodological problems in criminal justice measurement including the identification problem in estimating deterrence and the limitations of survival analysis. Students are required to submit a project demonstrating evidence of independent research skills. **Prerequisite(s):** CRJ 560 and CRJ 561 or the equivalent.

### 580 Forensic Science: Survey and Foundations 2 hours.
Survey course for forensic sciences with emphasis on criministics; unique characteristics, underlying philosophies; future, analytical methods; significance of results with chemical, biological, trace, and pattern evidence. **Same as BPS 580. Prerequisite(s):** Approval of the department.

### 589 Special Topics in Forensic Science 3 hours.
Content may vary but will revolve around the philosophic, moral, and managerial problems associated with criministics practice. Topics may include evidence collection, analysis, reporting, and testimony to non-criministics fields. **Same as BPS 589. May be repeated if topics vary. Prerequisite(s):** Consent of the instructor.

### 592 Internship in Criminal Justice 2 TO 4 hours.
Placement in a criminal justice agency or setting under the supervision of a faculty member with an accepted research project and paper. May be repeated to a maximum of 4 hours. Students may register in more than one section per term. **Prerequisite(s):** Consent of the instructor.

### 594 Selected Issues in Crime and Criminal Justice 4 hours.
Current issues and advanced problem areas related to deviance, crime, etiology, labeling, criminal careers, organized crime, and victimology. May be repeated to a maximum of 12 hours. Students may register in more than one section per term.

### 596 Independent Study or Research 2 TO 8 hours.
Research undertaken for this course may not duplicate that being done for CRJ 596. Supervised projects, which may consist of extensive readings in criminal justice, research on special problems not included in the regular course offering. May be repeated. Students may register in more than one section per term. **Prerequisite(s):** Consent of instructor and approval of the director of graduate studies.
597 Project Research 0 TO 8 hours. Independent research project under the supervision of a faculty member. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 8 hours. Prerequisite(s): Graduate standing in the MA in Criminal Justice program and consent of the instructor.

598 Thesis Research 0 TO 16 hours. For students doing thesis research or writing. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 8 hours. Prerequisite(s): Consent of the student's adviser; and acceptance of the thesis topic and preliminary thesis outline by the thesis committee.

599 Dissertation Research 0 TO 16 hours. Research on the topic of the doctoral dissertation. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 20 hours. Prerequisite(s): Consent of faculty adviser and director of graduate studies.

Curriculum, Instruction, and Evaluation (CIE)

410 Literature, Social Studies, and the Arts in the Elementary School 4 hours. Theory and practice in curriculum development, planning instruction, and assessing learning in elementary classrooms. Literature, social studies, and the arts content focus.

411 Creating Learning Environments in the Elementary School 3 hours. Examination of beliefs about teaching culture and learning in urban America in relation to the creation of learning environments with emphasis on application of state standards in classrooms and the development of an electronic teaching portfolio. 20 hours of fieldwork required. Prerequisite(s): Open only to master's degree students.

412 Dynamics of Learning Environments 3 hours. Exploration of multiculturalism and bilingualism/biculturalism in schools and families. Continued development of electronic portfolio for meeting Illinois professional teaching and technology standards. Prerequisite(s): Graduate standing and satisfactory completion of fieldwork and grade of B or better in CIE 411.

413 Foundations of Literacy Instruction, K–8 4 hours. Instruction to teaching literacy K–8: examining cognitive, social, developmental perspectives, relationships between language and literacy; connections to other school subjects; aligning instruction, assessment, standards. Extensive computer use required [word processing on writing, search engines for examining literacy curriculum, professional organizations, e-mail networks]. Prerequisite(s): CE 450, and consent of the instructor. Open to Master's degree students and PhD degree students. Recommended background: Admission to MEd in Instructional Leadership: Literacy, Language, and Culture.

414 Middle and High School Literacy 3 hours. Focuses on the teaching of reading and writing strategies appropriate for disciplinary learning and expression. Fieldwork required. Prerequisite(s): Junior standing or above, and consent of the instructor.

415 Urban Youth Fieldwork 3 hours. Experience in planning, teaching in, and evaluating innovative physical activity-based urban youth programs. Accompanying seminar to examine related literature and explore the interface between theory and practice. May be repeated to a maximum of 6 hours. Fieldwork required. Prerequisite(s): Junior standing or above, and consent of the instructor. Requires interview and placement.

416 Programs for Underserved Youth 3 hours. Survey and evaluation of physical activity-based and other models and programs designed to help underserved youth in school, extended day, and special programs. Includes development of new models. Prerequisite(s): Junior standing or above, and consent of the instructor.

450 Literacy and Society 4 hours. Explores the significant role of literacy in cognition, law, economics, social and personal life, and its implications for teaching and learning. Extensive computer use required. Prerequisite(s): Graduate standing.

464 Bilingualism and Literacy in a Second Language 4 hours. Theoretical foundations of second language acquisition and the teaching of English as second language. Methods and materials for teaching reading and writing in bilingual/ESL settings. Prerequisite(s): Junior standing and admission into the College of Education or consent of instructor.

472 Language Proficiency Assessment and ESL Instruction 4 hours. English language proficiency assessment instruments and procedures; effective planning and ESL instructional practices; methods, materials, and technology resources for teaching ESL in K–12 school settings. Prerequisite(s): Junior standing or above.

480 Technology and Multimedia: Learning Tools in the Classroom 3 OR 4 hours. New technologies to support teaching and learning in precollege classrooms. Same as SPED 480. 3 undergraduate hours. 4 graduate hours.

481 Foundations and Current Issues in Educating English Language Learners 4 hours. Philosophical, theoretical, socio-cultural, and educational examination of learning and achievement issues that culturally and linguistically diverse students face in American schools. Fieldwork required. Prerequisite(s): Junior standing or above.

482 Assessment and Instruction: A Multilingual/Multicultural Perspective 4 hours. Methods and materials for teaching English language learners (ELLs) in bilingual/ESL classrooms. Emphasis upon curricular and methodological practices, assessment for academic placement, and instruction. Prerequisite(s): Junior standing or above. Recommended background: CE 481.

483 Methodology of TESOL 3 OR 4 hours. Methods of teaching listening, speaking, reading, and writing to speakers of English as a second or foreign language. Same as LING 483. 3 undergraduate hours. 4 graduate hours.

Prerequisite(s): Junior standing and consent of the instructor.

484 Curriculum and Instruction in the Middle School 3 hours. Philosophy, curriculum, and instructional methods for teaching middle grade students (grades five through eight). Content area reading is included. Prerequisite(s): ED 200 and ED 210, or graduate standing and either ED 402 or ED 403, and either ED 421 or ED 422 or ED 445 and either ED 430 or ED 431 and approval of the College of Education.

494 Special Topics in Curriculum, Instruction, and Evaluation 1 TO 4 hours. Exploration of an area not covered in existing course offerings. Content varies. May be repeated to a maximum of 12 hours. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

500 Proseminar in Curriculum and Instruction 1 hour. Research-oriented colloquia on issues in curriculum and instruction. Series as introduction to faculty research interests. Provides opportunity to consider issues in research design. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Admission to the PhD in Education program or consent of instructor.

502 Mathematics and Science in the Elementary School 4 hours. Integrating mathematics and science content with issues of teaching and learning, including planning and developing curriculum, planning, classroom interactions, and assessment in elementary classrooms. Prerequisite(s): CIE 450, and either ED 421 or ED 422 or ED 445, and CE 460, and a second reading methods course.

503 Advanced Foundations of Literacy Instruction, K–8 4 hours. Introduction to teaching literacy K–8: examining cognitive, social, developmental perspectives; relationships between language and literacy; connections to other school subjects; aligning instruction, assessment, and standards. Extensive computer use required [word processing on writing, search engines for examining literacy curriculum, professional organizations, e-mail networks].
512 Student Teaching in the Elementary
Grades II 6 hours.
The culminating course in the
graduate elementary teacher educa-
tion sequence. Meets Illinois State
Board of Education require-
ments for certification.
Prerequisite(s): CIE 501 and
CIE 502. Must enroll concurrently
in CIE 511.
515 Urban Youth Program
Evaluation 3 hours.
Analysis of the impact of social
trends and problems on urban
youth. Evaluation of urban youth
programs with emphasis on affective
and moral dimensions.
517 Seminar in Urban Youth
Development 3 hours.
In-depth analysis of topics and
issues in the field of youth develop-
ment, with special attention to the
urban context and the role of physi-
cal activity.
Prerequisite(s): Consent of the
instructor.
520 The K–12 Mathematics
Curriculum: Theory,
Politics, and Reform 4 hours.
A look at the K–12 curriculum from
three perspectives: theoretical (epis-
temological, learning, teaching),
political (whose interests are served)
and practical (implementation issues
in schools).
Prerequisite(s): Consent of the
instructor.
521 Learning and Teaching
Mathematics with
Technology 4 hours.
Can technology support conceptu-
ally-based learning of mathematics?
Issues of learning, teaching, and
equity related to technology in the
K–12 mathematics classroom.
Prerequisite(s): Consent of the
instructor.
522 Social Context of
Mathematics
Education 4 hours.
Examination of contextual, social,
and linguistic factors which influence
the learning of mathematics; emphasis
on sociohistorical and activity theo-
ries; and equity in schooling.
Prerequisite(s): Graduate standing
in the College of Education or con-
sent of the instructor.
525 Assessment and Instruction
for Struggling
Readers, K–12:
Part 1 4 hours.
Theoretical and practical issues con-
cerning the etiology of reading prob-
lems and clinical diagnostic
techniques. Children with reading
problems are diagnosed and taught
in the practicum component.
Prerequisite(s): CE 450; and
CIE 503 or CIE 504; and consent of
the instructor.
526 Assessment and Instruction
for Struggling
Readers, K–12:
Part 2 4 hours.
Continued study of theoretical and
practical issues concerning the etio-
logy of literacy problems and clinical
diagnostic and instructional tech-
niques. Practicum involves tutoring
clients in the UIC Reading Clinic.
Prerequisite(s): CIE 525.
527 Reading Specialists As
Literacy Leaders 4 hours.
Theories and practices related to the
role of the reading specialist, includ-
ing management and evaluation of
support systems, programs, person-
nel, and professional development in
literacy.
Prerequisite(s): CIE 450 and
CIE 503 and CIE 504.
528 Assessing Literacy in
Classrooms 4 hours.
Introduction to K–12 classroom liter-
acy assessment, focus on relations
among assessment, teaching and
learning, tools and procedures, data
analysis and interpretation, reporting
and record keeping. Extensive com-
puter use required (word processing
on writing; search engines for exam-
in ing literacy curriculum, professional
organizations, e-mail networks, use of
Powerpoint, Excel, and SPSS).
Prerequisite(s): CIE 450 and CE
503 and CE 504; and consent of
the instructor. Open only to Master's
degree students. Recommended
background: Admission to MEd in
Institutional Leadership: Literacy,
Language, and Culture.
532 Staff Development and
School Improvement 4 hours.
Analysis of issues of school
improvement and teacher profes-
sional development. Emphasis on
processes of and alternative
approaches to individual and organi-
izational change.
Prerequisite(s): ED 430 or ED
574 or ED 431 or ED 543; and consent of
the instructor.
535 Studies in Literacy
Research and
Teacher Inquiry 4 hours.
Analysis of methodologies and top-
ics of reading research; decision-
making processes for effective
literacy instruction based on
research; skills and strategies in
designing teacher inquiry. Extensive
computer use required (word pro-
cessing on writing; search engines
for identifying research studies,
including teacher research Web
sites).
Prerequisite(s): CE 450 or
CIE 503 or CE 504; and consent of
the instructor. Requires admission
to the MEd in Institutional
Leadership: Language, Literacy,
and Culture program or consent of the
instructor.
536 Colloquium on
Literacy 1 hour.
Various areas of reading, writing,
and literacy, including research on
learning, instruction, and use.
Satisfactory/Unsatisfactory grading
only. May be repeated to a maxi-
mum of 12 hours.
Prerequisite(s): Enrollment in a
graduate specialization in reading,
and consent of the instructor.
539 Internship in
Institutional
Leadership 4 hours.
Conceptualization, development,
implementation, analysis, and inter-
pretation of a curriculum and/or
instructional improvement in an edu-
cational setting (supervised by uni-
versity faculty and leadership from
the setting). May be repeated to a
maximum of 9 hours.
Prerequisite(s): CE 532.
540 Linguistics for
Teachers 4 hours.
Introduction to linguistic concepts as
they apply to teaching in monolin-
gual and bilingual classrooms.
Relation of linguistic theory to theo-
ries of language and cognition.
541 Oral Language: Its
Development and
Role in the
Classroom 4 hours.
Analysis of oral language develop-
ment and children’s varying patterns
of language use; analysis of talk in
classroom settings; and instruc-
tional decision-making processes to
assess and optimize student learn-
ing. Extensive computer use
required. Fieldwork required.
Prerequisite(s): CE 450 and
either CE 503 or CE 504.
Restricted to graduate students in
education, psychology or English.
542 Improving School/
District Literacy
Achievement 4 hours.
Review of research on school/fac-
tors implicated in improvement of lit-
eracy achievement. Role of empirical
evidence-based practices, scientifi-
cal/empirical research, research syn-
thesis, best the odds studying in
school decision making and policy. **Prerequisite(s):** CE 450 and CE 503 and CE 504.

543 Using Multimedia Environments to Support Literacy and Learning 4 hours.
Introduction to ways changes in technologies of communication transform environments for teaching and learning. Analyzing technologies, linear and nonlinear reading environments, and designing instructional strategies to enhance multiple literacies. Extensive computer use required. **Prerequisite(s):** One social science course or one computing course focused on the human use of computing.

544 Foundations of Writing 4 hours.
Introduction to K–8 writing research, theory and practice, including writing development, processes, test pedagogy assessment. Combination of academic study of writing with guided inquiry. Computer use required (word processing on writing; search engines for examining literacy curriculum, professional organizations, e-mail networks, use of PowerPoint and Web page composers). **Prerequisite(s):** CE 450. Recommended background: Admission to the MED in Instructional Leadership: Literacy, Language, and Culture.

545 Educational Evaluation 4 hours.
Examination of theoretical and operational assumptions of alternative evaluation models; analysis and critique of evaluation case studies. **Prerequisite(s):** Admission to PhD in Education program or PhD in Public Policy Analysis program.

546 Children’s and Adolescent Literature 4 hours.
Overview of trade books written for children from preschool through adolescence. Emphasizes critically reading, selecting, evaluating books appropriate for developmental stages, curricular connections, and students in our multicultural society. **Prerequisite(s):** CE 450 and CE 503 and CE 504; and consent of the instructor.

547 Integrating Literacy Instruction 4 hours.
Engaging in professional experiences (e.g., teacher inquiry, teacher book clubs) that support the design and adaptation of frameworks and units that emphasize meaningful instructional connections among reading, writing, and talk in the classroom. Extensive computer use required. **Prerequisite(s):** CE 450 and either CE 503 or CE 504. Restricted to graduate students in Education, Psychology or English.

548 Leadership for Literacy Instruction 4 hours.
School and system leadership practices for promoting effective literacy instruction in urban elementary and secondary schools. Assessment and improvement of literacy curriculum, pedagogy, and evaluation. Same as PS 548. **Prerequisite(s):** Consent of the instructor; admission to a degree program in the College of Education. Students admitted to the EDU in Urban Education Leadership, prerequisites also include PS 550 and PS 552.

Examine theory and practice of social justice teaching in schools, including history, literacy pedagogies, culturally relevant and critical pedagogies, funds of knowledge, critical multiculturalism and antiracist pedagogy, critical race theory. Same as PS 549. **Prerequisite(s):** Consent of the instructor.

550 Conflicts in Curriculum Development 4 hours.
Analysis of theoretical models for curriculum development; special attention to alternative and often conflicting viewpoints about the particulars of the development process. **Prerequisite(s):** Admission to a graduate program in education.

552 Curriculum and Cultural Context 4 hours.
Influence of cultural, political, sociological, and economic factors on curriculum at the institutional, institutional, societal, and ideological levels. **Prerequisite(s):** CE 574 or consent of instructor.

553 History of Curriculum Thought 4 hours.
Analysis of selected documents on curriculum theory and policy from antiquity to present; secondary treatments and primary sources; interaction of theory and practice. **Prerequisite(s):** CE 574 or consent of the instructor.

556 Proseminar in Literacy, Language, and Culture I 4 hours.
Socialization of students into field through intensive introduction to literacy, its relationship to language and culture, using the collective knowledge and research experience of faculty. Emphasis on developing student inquiry in urban contexts. Restricted to first-year doctoral students with a specialization in Literacy, Language, and Culture.

557 Proseminar in Literacy, Language, and Culture II 4 hours.
Socialization of students into field through intensive introduction to literacy, its relationship to language and culture, using the collective knowledge and research experience of faculty. Emphasis on developing student inquiry in urban contexts. Restricted to first-year doctoral students with a specialization in Literacy, Language, and Culture.

558 The Historical and Philosophical Bases of Literacy and Language Instruction 4 hours.
Critical examination of historical and philosophical bases of current literacy and language instruction from social, cultural, and psychological perspectives. Emphasis on historical patterns of reading and writing instruction in the U.S. **Prerequisite(s):** Consent of the instructor.

559 The Social and Cultural Contexts of Literacy and Language Instruction 4 hours.
Critical examination of theoretical and methodological orientations that inform the study of sociocultural influences on the definition and practices of literacy in classrooms; at school level, and in out-of-school contexts. **Prerequisite(s):** Consent of the instructor.

561 Genre Theory and Practice 4 hours.
Analysis of perspectives and methodologies employed in genre theory and practice; exploration and evaluation of historical-genre-approaches used in genre research; critical examination of sociocultural bases of genre. **Prerequisite(s):** Consent of the instructor.

562 Design and Conduct of Literacy Research 4 hours.
Design principles for the study of literacy development and education. Emphasis is on examining lines of literacy research from multiple design perspectives; relationship between research design and theory and epistemology. Fieldwork required. Computer use required. **Prerequisite(s):** Consent of the instructor.

563 Analysis of Research in Literacy 4 hours.
Critical analyses of literacy-related research methods, their implications for interpreting research, the forms in which research is published, manuscript review process, and ethical considerations that inform all of the above. **Prerequisite(s):** CE 561 or CE 569; and consent of the instructor.

564 Design and Conduct of Literacy Research 4 hours.
Introduction to design principles informing the study of literacy development and education. Emphasis on conducting literacy research from multiple design perspectives and the relationship between epistemology, theory and research design. **Prerequisite(s):** ED 502 and ED 503 and CE 563. Priority enrollment will be given to students admitted into Literacy, Language, and Culture doctoral program.

568 Research in Children’s and Adolescent Literature 4 hours.
Topical seminar that examines research on a specific area of children’s or adolescent literature, such as multicultural literature, picture books, nonfiction texts, or the development of literacy understanding in children/adolescents. May be repeated to a maximum of 8 hours. **Prerequisite(s):** Consent of the instructor and an undergraduate or master’s level survey course on children’s/adolescent literature.

570 Critical Issues in Science Education 4 hours.
Explores the nature of scientific activity and educational issues, such as constructivism, discourse, gender and multicultural issues, assessment, the role of technology, and teacher research. **Prerequisite(s):** Admission to a graduate program in the College of Education or consent of the instructor.

571 Integrating Mathematics, Science, and ESL 4 hours.
Curriculum and instructional issues and practice related to the integra-
572 Assessment in Science and Math Education 4 hours. 
Explores different purposes of assessment, generates principles to guide assessment, studies new assessment practices, and explores ways to implement them in science and mathematics classes. 
Prerequisite(s): Admission to graduate study in education or consent of the instructor.

574 Foundations of Curriculum Design 4 hours. 
Curriculum as area of inquiry; historical, philosophical, cultural, and related foundations; variations on curriculum theory and practice; alternative paradigms of curriculum inquiry. 
Prerequisite(s): ED 430 or admission to the PhD in Education program or the PhD in Public Policy Analysis program.

575 Seminar in Research Issues with English Language Learners 4 hours. 
Selected topics on research in the education of language minority students for advanced M.Ed and PhD students. Topics vary each semester. May be repeated to a maximum of 12 hours. Prerequisite(s): CE 481.

576 Conceptions of Teaching and Schooling 4 hours. 
Philosophical and conceptual analysis of teaching and schooling and the impact of those conceptions on the conduct of educational practice. 
Prerequisite(s): CE 574 or consent of the instructor.

577 Literacy In and Out of School 4 hours. 
Analysis of literacy practices in formal and informal contexts. Focus on community and family contributions to literacy learning; emphasis on consequences of cultural congruity and discontinuity between in- and out-of-school literacy practices. 
Prerequisite(s): Consent of the instructor.

578 Advanced Studies in Qualitative Research Methods 4 hours. 
The dynamics of data collection and analysis, the use of theory and interdisciplinary frameworks, and writing up and presenting original research. 
Prerequisite(s): ED 502.

579 Biliteracy: Theory, Research, and Practice 4 hours. 
Theoretical foundations, research paradigms, and issues focusing on bilingual and biliteracy practices in and between home, school, and community contexts. 
Prerequisite(s): Consent of the instructor.

581 Perspectives on Reading: Theory, Research, and Practice 4 hours. 
Introduction of doctoral students to perspectives underlying theory, research, and practices related to understanding reading and reading instruction. Study of how research and practice are framed, shaped, and constrained by theoretical perspectives. 
Prerequisite(s): Priority will be given to students admitted into the Literacy, Language, and Culture doctoral program.

582 Research Perspectives on Literacy in the Disciplines 4 hours. 
Literacy is an integral part of expertise in the major fields of study. This course reviews the research in literacy and its related constructs in the disciplines of mathematics, science, history, and English. 
Prerequisite(s): Consent of the instructor.

583 Early Literacy: Theory, Research, and Practice 4 hours. 
Analysis of theories and research focusing on the initial phases of young children’s acquisition of reading and writing, with emphasis on issues related to instruction. 
Prerequisite(s): CE 503 and consent of the instructor.

584 Semiotics, Literacy, and Learning 4 hours. 
Theory and research focusing on meaning making; how these varied meanings are socially and culturally mediated; the ways in which they enable and constrain processes of learning. 
Prerequisite(s): Consent of the instructor.

585 Seminar in Literacy Studies 4 hours. 
Selected topics in literacy theory, research, and practice for advanced PhD students. Topics vary each semester. May be repeated to a maximum of 12 hours. 
Prerequisite(s): CE 563 or the equivalent or consent of instructor.

586 Perspectives on Writing Instruction: Theory, Research, and Practice 4 hours. 
An examination of research and theoretical perspectives on writing and multimodal text construction, including critical reflection on perspectives that have contributed to changes in the ways we view texts, writing, writers, and instruction. 
Prerequisite(s): CE 544; and consent of the instructor. Priority in enrollment will be given to students admitted into the Literacy, Language, and Culture doctoral program.

587 Literacy Assessment: Theory, Research, and Practice 4 hours. 
Theory and practice in literacy assessment. Measurement issues unique to literacy assessment, including word recognition, vocabulary, comprehension, and writing. Critical consideration of how assessment both enables and constrains instruction. 
Prerequisite(s): CE 563 and consent of the instructor.

588 Design Research in the Study of Literacy 4 hours. 
Emphasis on understanding the conceptual frameworks that form design research, integrating literacy theory into the design of teaching and learning environments; the use of design research in the study of literacy in various instructional settings. Individual and group participation, including participation on course listserv. 
Prerequisite(s): Consent of the instructor.

589 Literacy and Learning Technologies: Theory, Research, and Practice 4 hours. 
Critical analyses of how technologically based, multimedia transform instruction, with a focus on the design of strategies to enhance written, visual, and oral literacies using linear and non-linear software and online environments. 
Prerequisite(s): Consent of the instructor.

590 Alternative Paradigms of Qualitative Research in Education 4 hours. 
Methodology cases, and rationale for action research, educational critique, critical ethnography, hermeneutics, and phenomenological hermeneutics as alternatives in qualitative research in education. 
Prerequisite(s): CE 578 or consent of instructor; and admission to PhD in Education program or PhD in Public Policy Analysis program.

592 Apprenticeship in Teacher Education 1 TO 4 hours. 
Faculty guidance and supervision of doctoral students teaching experience related to curriculum and instruction. Variable credit (1-4 hrs) given based upon scope of students’ teaching responsibilities and proposed reflection on them. 
Prerequisite(s): Consent of the instructor and program coordinator.

593 PhD Research Project 1 TO 8 hours. 
Students design, implement, and analyze results of a research problem in this area of specialization. Completed study is reviewed by faculty. May be repeated to a maximum of 8 hours. Prerequisite(s): Admission to the PhD in Education program.

594 Special Topics in Curriculum, Instruction, and Evaluation 2 TO 4 hours. 
Seminar on a preannounced topic focusing on methodology, research, and educational implications of recent models of learning, problem solving, and thinking. May be repeated to a maximum of 12 hours. Students may register in more than one section per term. 
Prerequisite(s): Consent of instructor.

596 Independent Study 1 TO 4 hours. 
Students design, implement, and analyze the results of a research problem in this area of specialization. May be repeated to a maximum of 12 hours. Students may register in more than one section per term. 
Prerequisite(s): Consent of study advisor.

599 Thesis Research 0 TO 16 hours. 
Research on the topic of the student’s dissertation. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. 
Prerequisite(s): Consent of the dissertation advisor.
Disability and Human Development (DHD)

401 Foundations of Disability and Human Development 3 hours.
A critical review of key concepts and issues in disability. Students will
develop a framework for understanding disability as a multifaceted
entity, including the impact of disability at personal, social, and socie-
tal levels. Prerequisite(s): Enrollment in the MS in Disability and Human Development program or consent of the instructor.

430 Introduction to Disability Policy and Organization 3 hours.
Legislative, legal, and administrative foundations for the provision of ser-
dices to persons with disabilities in the U.S. Roles of residential institu-
tions, the independent living movement, class action litigation, and
advocacy. Prerequisite(s): DHD 401 or consent of the instructor.

440 Introduction to Assistive Technology: Principles and Practice 3 hours.
Principles and exemplary practice of assistive technology used by individ-
uals with disabilities, including augmentative communication, seating,
mobility, computer access, environmental control, home modifications,
and workplace modifications. Prerequisite(s): Graduate standing or consent of the instructor. Recommended background: Undergraduates enrolled in health sciences, education, or engineering and working professionals seeking to develop assistive technology as an area of concentration.

444 Assistive Technology for Literacy, Learning, and Participation in Pre-K through High School 3 hours.
Use of communication systems, computers, adapted equipment, and strategies to foster participation and inclusion of students in grades pre-
school through high school. Same as SPED 444.

445 Topics in Disability Studies 3 OR 4 hours.
This course will focus on topics structured around particular aspects of disability studies and its practical, cultural, and theoretical implications. Same as ENGL 445. 3 undergraduate hours, 4 graduate hours. May be repeated up to 1 time. Prerequisite(s): ENGL 361 or ENGL 362 or ENGL 363 or ENGL 364, and senior standing or above; or consent of the instructor.

460 Fundamentals of Behavior Analysis 3 hours.
Introduction to the principles, concepts, and applications of behavioral principles. Content includes philosophic origins, historic and current practices of experimental and applied behavior analysis. Prerequisite(s): Credit or concurrent registration in DHD 401 or the equivalent.

464 Survey of Developmental Disabilities 3 hours.
Survey of the developmental disabilities field, including basic definitions, history of DD services, relevant public policies and legislation, service delivery systems, and research. Same as CHSC 464. Prerequisite(s): Graduate standing or consent of the instructor.

494 Special Topics in Disability and Human Development 1 TO 4 hours.
Systematic study of selected topics in disability and human develop-
ment. May be repeated. Students may register in more than one sec-
tion per term. Prerequisite(s): Graduate standing or consent of the instructor.

510 Concepts in Interdisciplinary Research on Disability 3 hours.
Core concepts and methodologies of the major research traditions used in disability research. Same as DIS 510.

514 Ethical Issues in Disability 3 hours.
Examines contemporary ethical issues affecting the lives of persons with disabilities and disability professionals. Critiques the application of ethical principles to problems of genetics, treatment decisions, and competency.

515 Statistical Methods in Disability Studies 3 hours.
Examination of parametric and nonparametric statistical methods commonly used in disability research with microcomputer applica-
tions to supplement text and lecture materials. Same as DIS 515. Prerequisite(s): An introductory course in statistics.

517 Ethics and Disability: Contemporary Problems 3 hours.
Ethical theories and ethical decision making are examined from an inter-
disciplinary/disability studies pers-
pective in relation to people with disabilities. Topics include assisted suicide, deinstitutionalization, and genetic discrimination. Same as DIS 517. Prerequisite(s): DHD 514 or consent of the instructor.

520 Disability and Physical Activity 3 hours.
Examination of the foundations of physical activity for persons with dis-
abilities. Emphasis on strategies for promoting physical activity among persons with disabilities in community settings. Same as MVSC 520.

525 Technology to Promote Physical Activity Among Persons with Disabilities 3 hours.
Applications of new and emerging technologies to promote participation in and adherence to healthful physical activity by people with dis-
abilities. Consideration of ways of redesigning physical, social, and attitudinal environments to achieve these outcomes. Recommended background: DHD 515 or an equivalent course in interpreting research findings.

526 Family Perspectives on Disability 3 hours.
Examines trends, theories and research methods, policies, and family-centered intervention approaches for families of persons with disabilities. Same as DIS 526 and CHSC 526. Prerequisite(s): Consent of the instructor.

532 Community Intervention 3 hours.
Theory, research, and practice of community interventions in public,
nonprofit, and voluntary settings, such as disability organizations; intervention types and effectiveness; role of community intervenor. Same as PSCH 532. Prerequisite(s): Consent of the instructor.

535 Advocacy and Empowerment in Disability 3 hours.
An in-depth review of academic litera-
ture on advocacy and empower-
ment. Relevant theories, research, and interventions in the context of individuals with disabilities will be reviewed. Same as DIS 535.

537 Disability and Health Promotion 3 hours.
Examines health issues in disability with emphasis on health promotion and preventing secondary disease. Relationship of emerging theories of health promotion to disability are discussed.

541 Advanced Concepts in Disability Research 3 hours.
Seminar-based applications of advanced scholarship skills. Topics covered include problem formulation, manuscript development, and critical reviews. Same as DIS 541.

546 Qualitative Methods in Disability Research 4 hours.
Examines qualitative research meth-
ods, design, data collection, analy-
sis, and report writing. Issues of ethical conduct, power relationships, and collaboration approaches. Same as DIS 546.

551 Computers, Communication, and Controls in Rehabilitation Technology 3 hours.
Provides information on operation and use of alternative controls for computers, augmentative communication devices, and powered mobility. Emphasis on matching consumer’s need and assistive technol-
yogy. Same as OT 551. Recommended background: Speech-language pathology, occupational therapy, special education.

552 Seating and Wheeled Mobility 3 hours.
Focuses on issues of wheelchair seating, positioning, and mobility for children and adults with physical disabilities. Assessment proce-
dures, technology selection, current research, and analysis of funding sources. Prerequisite(s): DHD 532.
440 or consent of the instructor.  

Referred background:  
Physical therapy, occupational therapy, speech-language pathology, special education, engineering.  

553 Program Evaluation:  
Documenting the Impact of Human Services 3 hours.  
Examines methods in program evaluation with emphasis on empowering and participatory evaluation. Students will study quantitative and qualitative strategies, how to communicate information to stakeholders, and how to design evaluations.  
Same as OT 553.  

Referred background:  
Interest in research, health or behavioral sciences, and implementation and evaluation of community initiatives and community-based organizations.  

554 Augmentative Communication Assessment 3 hours.  
Augmentative communication assessment strategies and evaluation of materials development. Utilizes case examples for discussion of specific approaches for different ages, disabilities, and settings. Prerequisite(s): DHD 440. Recommended background: Speech-language pathology, occupational therapy, special education.  

560 Behavioral Assessment and Functional Analysis 3 hours.  
Concepts and principles for use in behavioral assessment and functional analysis. Prerequisite(s): DHD 460; or consent of the instructor.  

564 Community Integration in Developmental Disabilities 3 hours.  
Historical and contemporary issues pertaining to the empowerment and integration of persons with developmental disabilities into community settings. Same as CHSC 564 and DIS 564.  

565 Research Methodology and Outcomes Measures in Rehabilitation Technology 3 hours.  
Analyzes the research process in rehabilitation technology and assistive technology and how such analysis leads to the development of a research proposal. Outcome measures related to assistive technology will be evaluated for their applicability. Same as OT 565.  

570 Disability and Culture 3 hours.  
Development of a cultural comparative approach in disability studies; American and cross-cultural aspects of disability; identity and disability; disability and the body; gender and life-course issues; cultures of disability. Prerequisite(s): DHD 401 or consent of the instructor.  

571 Eugenics in America, 1845-1945 4 hours.  
Critical examination of the philosophy and practice of eugenics toward people with disabilities during the period from mid-nineteenth to mid-twentieth centuries. Same as DIS 571.  

572 A Representative History of Disability 4 hours.  
Examines historical and contemporary representations of “the body” to demonstrate how cultural concepts such as normality, health, and morality are created in reference to “aberrant bodies.” Same as DIS 572. Prerequisite(s): Graduate or professional standing.  

575 History of Human Differences: Disability Minorities in America 3 hours.  
Historical experiences of disability minorities during the modern era. Focus on American experiences and comparing them to premodern and contemporaneous experiences in Western European societies. Prerequisite(s): DHD 401 or consent of the instructor.  

576 Visualizing the Body 4 hours.  
Survey of key moments in the representation of disability in film. Film portrayals of disability will be analyzed from the perspective of narrative theory, film grammar, and social history. Same as DIS 576. Prerequisite(s): Graduate or professional standing.  

590 Field Experience in Disability and Human Development 0 TO 12 hours.  
Opportunities for guided experience working with agencies, families, and persons with disabilities providing concrete, practical applications of concepts and principles of disability and human development. May be repeated to a maximum of 12 hours. Prerequisite(s): DHD 401 and DHD 415; or consent of the instructor.  

593 Independent Research 1 TO 8 hours.  
Advanced study and analysis of a topic selected by a student under the supervision of a faculty member. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.  

594 Advanced Special Topics in Disability and Human Development 1 TO 4 hours.  
Systematic study of advanced selected topics in disability and human development. May be repeated. Students may register in more than one section per term.  

595 Seminar in Disability and Human Development 1 TO 4 hours.  
Identifies and analyzes a broad range of issues related to disability and human development. Topics vary according to student interests and instructor availability. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.  

596 Independent Study 1 TO 4 hours.  
Advanced study and analysis of a topic under guidance of a faculty member. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.  

597 Project Research 0 TO 16 hours.  
Independent research project under the supervision of a faculty member. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Graduate standing in the MS in Disability and Human Development program and consent of the instructor.  

598 Master’s Thesis Research 0 TO 16 hours.  
Thesis research to fulfill master’s degree requirements. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Graduate standing in the MS in Disability and Human Development program and consent of the instructor.  

599 Disability Studies (DIS)  

501 Disability Studies I 4 hours.  
Provides analysis of contemporary classification and diagnosis systems for disability, as well as the conceptual foundations for disability studies as a content area.  

502 Disability Studies II 4 hours.  
Current approaches and practices in disability studies, critically considered from a variety of perspectives. Service delivery systems and the influence that civil rights and self-determination have had. Prerequisite(s): DIS 501.  

510 Concepts in Interdisciplinary Research on Disability 3 hours.  
Core concepts and methodologies of the major research traditions used in disability research. Same as DHD 510.  

515 Statistical Methods in Disability Studies 3 hours.  
Examination of parametric and nonparametric statistical methods commonly used in disability research with microcomputer applications to supplement text and lecture materials. Same as DHD 515. Prerequisite(s): An introductory course in statistics.  

517 Ethics and Disability: Contemporary Problems 3 hours.  
Ethical theories and ethical decision making are examined from an interdisciplinary perspective in relation to people with disabilities. Topics include assisted suicide, deinstitutionalization, and genetic discrimination. Same as DHD 517. Prerequisite(s): DHD 514 or consent of the instructor.  

528 Family Perspectives on Disability 3 hours.  
Examines trends, theories and research methods, policies, and family-centered intervention approaches for families of persons with disabilities. Same as DHD 526 and CHSC 526. Prerequisite(s): Consent of the instructor.  

535 Advocacy and Empowerment in Disability 3 hours.  
In-depth review of academic literature on advocacy and empowerment. Relevant theories, research, and interventions in the context of individuals with disabilities will be reviewed. Same as DHD 535.  

536 Fatiguing Conditions and Disability 3 hours.  
Empirically supported concepts related to assessment and mani-
agument of fatiguing conditions. Course also explores the relationship between fatigue and disability from social, psychological, and community-based perspectives. 

**Same as OT 536.**

**Recommended background:** Health or behavioral sciences.

### 541	Advanced Concepts in Disability Research 3 hours.

Seminar-based applications of advanced scholarship skills. Topics covered include problem formulation, manuscript development, and critical review. 

**Same as DHD 541.**

### 546	Qualitative Methods in Disability Research 4 hours.

Examines qualitative research methods, design, data collection, analysis, and report writing. Issues of ethical conduct, power relationships, and collaborative approaches.

**Same as DHD 546.**

### 550	Disability in the Urban Environment 4 hours.

Features of urban contexts that influence experiences of persons with disabilities are examined as they exacerbate problems or enhance resources in low income communities. 

**Same as OT 550.**

### 556	Theory and Methods of Needs Assessment in Aging and Disability 4 hours.

Introduces theories of need, models of the needs assessment process, and reviews research methods typically used in conducting needs assessments. Emphasis will be on needs assessments in health-related community agencies. 

**Same as CHSC 556 and OT 556. Prerequisite(s):** A 400- or 500-level research course such as OT 510, DHD 415, CHSC 446, or SOC 500. The prerequisite research course needs to provide students with an understanding of basic research design, sampling strategies, and an introduction to methods such as surveys and focus groups. 

**Recommended background:** Health or behavioral sciences, research methods.

### 564	Community Integration in Developmental Disabilities 3 hours.

Historical and contemporary issues pertaining to the empowerment and integration of persons with developmental disabilities into community settings. 

**Same as CHSC 564 and DHD 564.**

### 571	Eugenics in America, 1849-1945 4 hours.

Critical examination of the philosophy and practice of eugenics toward people with disabilities during the period from mid-nineteenth to mid-twentieth centuries. 

**Same as DHD 571.**

### 572	A Representational History of Disability 4 hours.

Examines historical and contemporary representations of the body to demonstrate how cultural concepts such as normality, health, and morality are created in reference to “abnormal bodies.” 

**Same as DHD 572. Prerequisite(s):** Graduate or professional standing.

### 576	Visualizing the Body 4 hours.

Survey of key moments in the representational life of disability in film. Film portrayals of disability will be analyzed from the perspective of narrative theory, film grammar, and social history. 

**Same as DHD 576. Prerequisite(s):** Graduate or professional standing.

### 589	Current Research in Disability Studies 1 hour.

A review of the current primary source literature in the area of disability research. 

**Unsatisfactory grading only. May be repeated to a maximum of 10 hours. Prerequisite(s):** Consent of the instructor.

### 590	Research Project in Disability Studies 1 TO 8 hours.

Formal research project for students not having prior research experience. 

**Satisfactory/ Unsatisfactory grading only. May be repeated to a maximum of 8 hours. Students may register in more than one section per term. Prerequisite(s):** Consent of the instructor.

### 593	Independent Research in Disability Studies 1 TO 8 hours.

Advanced study and analysis of a topic selected by a student under the supervision of a faculty member. 

**Satisfactory/ Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s):** Consent of the instructor.

### 594	Special Topics in Disability Studies 1 TO 4 hours.

Systematic study of advanced selected topics in disability studies. 

**May be repeated. Students may register in more than one section per term. Prerequisite(s):** Consent of the instructor.

### 595	Interdisciplinary Seminar in Disability Studies 1 hour.

Students, faculty, and guest speakers present topics addressing current issues in research in the area of disability studies. 

**Satisfactory/ Unsatisfactory grading only. May be repeated to a maximum of 4 hours. Students may register in more than one section per term. Prerequisite(s):** Consent of the faculty advisor.

### 596	Independent Study 1 TO 4 hours.

Advanced study and analysis of a topic under guidance of a faculty member. 

**May be repeated. Students may register in more than one section per term. Prerequisite(s):** Consent of the instructor.

### 599	PhD Thesis Research 0 TO 16 hours.

Independent research in one area of disability studies. 

**Satisfactory/ Unsatisfactory grading only. May be repeated. Prerequisite(s):** Graduate standing in the PhD in Disability Studies program and consent of the instructor.

### 400	Field Experience in Earth Sciences 6 hours.

Application of geologic mapping and other field techniques to a summer field camp in the Black Hills of South Dakota for a period of six weeks. 

**Prerequisite(s):** EAES 330 and EAES 440, or consent of the instructor.

### 410	Geochemistry 4 hours.

**Thermodynamic considerations of mineral equilibria.** Geochemistry of continental waters. Ocean geochemistry. 

**Prerequisite(s):** CHEM 114 or consent of the instructor.

### 415	Environmental Geochemistry 4 hours.

Chemical reactions in natural environments; surface chemistry of metals and organic compounds. 

**Clay minerals in soils and sediments.** Chemistry of contaminant remediation. 

**Prerequisite(s):** EAES 310 or consent of the instructor.

### 416	Organic Geochemistry 4 hours.

Global carbon cycle, chemical composition of biogenic matter, sedimentology, and diagenesis of organic matter, molecular fossils, geopolymeric organic compounds, carbon isotope geochemistry. 

**Prerequisite(s):** CHEM 114 or CHEM 130 and EAES 350; or consent of the instructor.

### 422	Crystal Chemistry of Rock-Forming Minerals 4 hours.

The crystal chemistry, chemistry, phase equilibria, and properties of minerals and minerals. 

**Prerequisite(s):** EAES 220 or consent of the instructor.

### 424	X-ray Crystallography 4 hours.

Introduction to the use of X-ray techniques for the identification and characterization of materials. 

**Prerequisite(s):** Consent of the instructor.

### 430	Igneous Petrology 4 hours.

Discussion of petrogenesis, application of thermodynamic principles to the crystallization of rocks. 

**Prerequisite(s):** CHEM 114 and EAES 330.

### 440	Structural Geology and Tectonics 4 hours.

Elementary stress and strain relations; folds, fabrics, and faults; deformation mechanisms; basic plate tectonic concepts with regional geological examples. 

**Required weekend field trip at a nominal fee. Prerequisite(s):** EAES 102 and MATH 180; and either PHYS 105 and 106 or PHYS 141; or consent of the instructor.

### 444	Geophysics 4 hours.

Introduction to basic principles of geophysics applicable for environmental problems and the solid earth, including magnetics, electric, seismic, gravity, geophysical well logging, radioactivity, and heat flow. 

**Prerequisite(s):** EAES 440 and MATH 181, and either PHYS 105 and 106 or PHYS 141; or consent of the instructor.
107 and 108 or PHYS 142; or consent of the instructor.

448 Plate Tectonics 4 hours.
Basic concepts and recent developments including plate kinematics, marine magnetics and paleomagnetics, evolution of oceanic lithosphere, subduction zones, and passive margins. Prerequisite(s): MATH 180 and PHYS 107 and 108 or PHYS 142; or consent of the instructor.

455 Clastic Sedimentology and Sequence Stratigraphy 4 hours.
Processes, facies, and sedimentary architecture in fluvial, deltaic, coastal, and offshore marine clastic depositional environments. Relative sea-level change and its controls on the stratigraphic record. Basin and reservoir modeling. Field trips required at nominal fee. Prerequisite(s): EAES 350 or consent of the instructor.

466 Principles of Paleontology 4 hours.
Theory and methods of evolutionary paleobiology; includes paleoecology, functional morphology, and major features of organic evolution. Same as BOS 466. Prerequisite(s): EAES 360 or BOS 360 or consent of the instructor.

470 Surficial Processes 4 hours.
Quantitative analysis of the mechanics, rates, and distribution of physical processes that modify Earth’s and other planets’ surfaces. Introduction to field, theoretical, and modeling approaches. Prerequisite(s): EAES 101 and MATH 181.

475 Hydrology/ Hydrogeology 4 hours.
The occurrence, storage, movement, and quality of water above, on, and below the Earth’s surface. Topics progress through atmospheric vapor processes, Earth surface hydrology, and groundwater hydrology. Field trip required at nominal fee. Prerequisite(s): EAES 101 or EAES 107; and MATH 181; or consent of the instructor.

480 Statistical Methods in Earth and Environmental Sciences 4 hours.
Techniques of probability and data analysis as applied to problems in environmental sciences. Sampling, statistical inference, descriptive statistics, multivariate methods, time series analysis. Prerequisite(s): Consent of the instructor.

488 Instrumental Analysis 3 hours.
Scanning electron microscopy with energy-dispersive system. DC plasma analysis. Prerequisite(s): CHEM 114 and EAES 220; or consent of the instructor.

492 Internship in the Earth and Environmental Sciences 1 hour.
Off-campus participation in governmental or private-sector training program. Credit is contingent on submission of a final report. Satisfactory/Unsatisfactory grading only. May be repeated with approval. A combined maximum of 6 hours of credit in EAES 492 and EAES 391 may be applied toward the degree. Prerequisite(s): Approval of the department.

494 Current Topics in Earth and Environmental Sciences 4 hours.
Discussion of current research topics in earth and environmental sciences. Prerequisite(s): Consent of the instructor. Recommended background: Senior standing and 12 hours of advanced courses in earth and environmental sciences.

510 Advanced Geochemistry 3 TO 4 hours.
Advanced topics in one of the following categories: isotope geochemistry and geochronology, distribution of elements in the Earth’s crust, mineral systems with and without volatile components, low-temperature mineral systems. Lectures and seminars. May be repeated if topics vary. Prerequisite(s): Consent of the instructor. Recommended background: Credit in EAES 410.

516 Advanced Organic Geochemistry/Biochemistry 4 hours.
Carbon biogeochemical cycle, carbon fixation and carbon isotope fractionation, compound specific isotopic analysis, biomarker geochemistry, paleoenvironment. Prerequisite(s): EAES 416 or consent of the instructor.

520 Advanced Mineralogy 4 hours.
Various types in one of the following categories: structural determination, advanced diffraction techniques, crystal chemistry, and structural mineralogy. Lectures, seminars, and laboratory. May be repeated if topics vary. Prerequisite(s): Consent of the instructor.

530 Advanced Petrology 3 TO 4 hours.
Selected topics: generation and properties of magmas, formation of metamorphic rocks, reaction rates in metamorphic rocks. May be repeated if topics vary. Prerequisite(s): Consent of the instructor. Recommended background: Credit in EAES 430.

541 Seismology 4 hours.
Elastic wave propagation theory, instrumentation, seismic source mechanisms, body and surface waves, free oscillations, Earth’s interior, local mechanisms, earthquakes, and plate tectonics. Prerequisite(s): EAES 444 or consent of the instructor.

543 Advanced Geophysics and Plate Tectonics 4 hours.
Advanced topics in geophysics and plate tectonics, including subjects such as mantle convection, driving forces of plate tectonics, and evolution of rifted continental margins. May be repeated if topics vary. Students may register in more than one section per term. Prerequisite(s): EAES 444 or EAES 448.

545 Spatial and Temporal Analysis and Modeling 4 hours.
Methods for the analysis and modeling of spatial and temporal patterns in the earth and environmental sciences. Data acquisition. Prerequisite(s): Graduate standing; and consent of the instructor.

555 Advanced Sedimentary Geology 3 hours.
Advanced topics in modern sedimentology and stratigraphy. May be repeated if topics vary. Field trips required at nominal fee. Prerequisite(s): EAES 455 or consent of the instructor.

560 Topics in Paleontology 3 TO 4 hours.
In-depth analysis of current problems and issues in paleontology, involving reading primary literature, student presentations, and critical discussions. Same as BIOS 560. May be repeated if topics vary. Prerequisite(s): Consent of the instructor.

570 Advanced Surficial Processes 4 hours.
Advanced topics in theoretical, empirical, and applied aspects of hillslope processes, sediment transport mechanics, river mechanics, weathering and soil development, or drainage basin development. May be repeated if topics vary. Prerequisite(s): EAES 470.

572 Quaternary Environmental Systems 3 hours.
Intertemperatures between eolian, lacustrine, marine, and glacial environments for the past 1.8 million years; geochronologic and isotopic methods; stratigraphic and geomorphic approaches. Prerequisite(s): EAES 470.

575 Advanced Hydrology 3 hours.
Selective topics: mechanics of near-surface groundwater flow in fractured rocks, groundwater contamination, unsaturated-saturated flow, surface-groundwater interactions. May be repeated if topics vary. Prerequisite(s): EAES 475.

576 Paleoclimatology 3 hours.
Principles of climatology and paleoclimatology: mechanisms and causes of climate change for the past 63 million years; geologic records of climate and modeling. Prerequisite(s): EAES 470.

580 Aquatic Science 3 hours.
Addresses environmental issues related to lakes, rivers, estuaries, and coastal zones. Topics will cover sampling techniques, impact of humans, and global change. Field trip required at nominal fee. Prerequisite(s): EAES 475; or consent of the instructor.

585 Departmental Seminar 1 hour.
Special one-hour seminar, every Thursday, by invited speakers from other earth and environmental sciences departments, governmental agencies, and industry. Satisfactory/Unsatisfactory grading only.
Economics (ECON)

436 Mathematical Economics 3 OR 4 hours.
Application of mathematics to theories of consumer and producer behavior, determination of prices in markets, growth, and stability features of macroeconomic models. 3 undergraduate hours, 4 graduate hours. Prerequisite(s): ECON 218 or ECON 220; and either ECON 345 or MATH 165 or MATH 180.

441 Teaching Methods in Economics 3 OR 4 hours.
Develops skills in preparing and giving lectures and examinations, computer usage, and other aspects of teaching economics and consumer economics at secondary/higher education levels. 3 undergraduate hours, 4 graduate hours. Credit earned in ECON 441 may not be used to satisfy Economics credit requirements for the BA, BS, MA, or PhD degree as awarded by the Department of Economics. Credit earned in ECON 441 may be applied toward the degree as an elective.
Prerequisite(s): For under graduate students, two 300- or 400-Level electives in economics; for graduate students in economics, one course in a graduate-level microeconomics or macroeconomics.

442 Topics in Economic Education 1 TO 4 hours.
Topics vary. Course content is announced prior to each term in which it is given. May be repeated for credit. Students may register for more than one section per term. Credit for this course may not be used to satisfy the minimum number of economics credit hours needed for the BA, BS, MA, or PhD in Economics. It may be used as general elective credit for these degree programs or as the Economic Education course requirement for the Certificate in the Teaching of Economics. Prerequisite(s): Consent of the instructor. Prerequisites may vary according to topic.

450 Business Forecasting Using Time Series Methods 3 OR 4 hours.
Autoregressive, moving average, and seasonal models for time series analysis and business forecasting. Forecasting using multivariable transfer function models. Same as IDS 476. 3 undergraduate hours, 4 graduate hours. Prerequisite(s): IDS 371 or ECON 346 or consent of the instructor.

472 Real Estate Finance 3 OR 4 hours.
Finance principles applied to real estate; financing of residential and income-producing real estate; real estate development finance; secondary mortgage market; taxation and real estate finance. Same as FIN 472. 3 undergraduate hours, 4 graduate hours. May not be used to satisfy the economics credit requirement for the MA in Economics and PhD in Economics. Elective credit only may be applied toward these degrees. Prerequisite(s): ECON 218 or ECON 220.

475 Real Estate Markets and Valuation 3 OR 4 hours.
Real estate market analysis. Sales comparison, cost, and income approaches to estimating residential and commercial property values. Statistical procedures for real estate analysis. 3 undergraduate hours, 4 graduate hours. Course may not be applied toward the minimum required courses in economics for the MA or PhD in Economics.

Prerequisite(s): ECON 218 or ECON 220; and ECON 270 or IDS 270; or consent of the instructor.

495 Competitive Strategy 4 hours.
Multidisciplinary analysis of organizational strategy and policy, using case method and/or business simulation. Assignments involve extensive library research and oral and written reports. Prerequisite(s): Senior standing in the College of Business Administration and completion of all other CBA core courses, or consent of the instructor.

499 Independent Study in Economics 1 TO 3 hours.
Independent study of a topic not covered in a graduate-level course. Prerequisite(s): Graduate standing and consent of the director of graduate studies and the instructor.

500 Managerial Economics 4 hours.
Economic analysis applied to business operations; demand theory; production cost analysis; capital theory; pricing policies; capital budgeting. Prerequisite(s): ECON 501 or ECON 520.

501 Microeconomics I 4 hours.
Theories of consumer and producer behavior and determination of market price. Systematic treatment of the core of microeconomic theory. Prerequisite(s): ECON 220 and MATH 165.

502 Microeconomics II 4 hours.
Advanced microeconomic theory. Theories of consumer behavior, uncertainty, general equilibrium, welfare economics. Prerequisite(s): ECON 501.

504 The Economics of Organization of Business Enterprises 4 hours.
The economic reasons for the existence of firms, the determinants of firm size, and the theory of organizational structure. Prerequisite(s): ECON 501 or ECON 520.

511 Macroeconomics I 4 hours.
Static and dynamic theories of income, employment, and the price level; advanced treatment of consumption, investment, money demand, and aggregate production functions; stabilization theory and policy. Prerequisite(s): ECON 221.

512 Macroeconomics II 4 hours.
Neoclassical and modern market-clearing models of real and monetary influences on economic growth, inflation, and business cycles. Prerequisite(s): ECON 511.

513 Special Topics in Macroeconomics and International Economics 4 hours.
Intensive study of selected research topics in macroeconomics and international economics. Topics may vary. Prerequisite(s): ECON 512.

514 International Trade Policy 4 hours.
Theoretical models on the causes and consequences of international trade and their empirical validation. Effects of tariff and nontariff trade policies and preferential trade agreements. Prerequisite(s): ECON 501; or ECON 520 and ECON 521.

515 International Monetary Policy 4 hours.
Capital mobility and stabilization policy under fixed and flexible exchange rates; optimum currency areas; reform of international monetary system; problems of liquidity adjustment and confidence. Prerequisite(s): ECON 511 or ECON 521.

516 Economic Development in an Interdependent World 4 hours.
Theoretical and empirical studies of economic development with intersectoral and international perspectives; structural change and resource reallocation; factor proportions, substitutability, and movement; export-led growth. Prerequisite(s): ECON 501 or ECON 520 or consent of the instructor.

520 Microeconomics for Business Decisions 4 hours.
Efficient allocation of resources by consumers, profit and nonprofit firms and government, regulation of industry, monopoly and imperfect competition, business ethics and the market place, efficiency versus equity, social welfare. Credit is not given for ECON 520 if the student has credit in ECON 501 or ECON 540 or MBA 502.
Prerequisite(s): MATH 165 or MATH 181 or the equivalent.
521 Macro and International Economics for Business 4 hours.
Impact of the macro economy and international economics on business decisions. Determination of economic activity, inflation, interest rates, and exchange rates. Role of monetary and fiscal policy. Credit is not given for ECON 521 if the student has credit in ECON 511 or MBA 502 and MBA 508.
531 Labor Economics I 4 hours.
Determinants of wage differentials; analysis of determinants and consequences of investments in human capital (schooling, on-the-job training, health); labor mobility, supply, and allocation of time.
Prerequisite(s): ECON 501 or ECON 520.
532 Labor Economics II 4 hours.
Impact of training, legislation, institutional constraints, and discrimination on the labor market. Focus on demographic groups (race, nativity, ethnicity, gender).
Prerequisite(s): ECON 501 or ECON 520.
533 Economic Development and Human Resources 4 hours.
Economic theory applied to less developed countries, focusing on human aspects of development. Household economy, employment, earnings; labor productivity, unemployment, migration, population growth, income distribution.
Prerequisite(s): ECON 501 or ECON 520.
534 Econometrics I 4 hours.
Detailed treatment of the multivariate linear regression model using matrix algebra. Emphasis on formulating and testing static and dynamic econometric models.
Prerequisite(s): ECON 445 or IDS 532.
535 Econometrics II 4 hours.
Detailed treatment of simultaneous equations estimation; evaluation of alternative estimators; problems of estimation, including PROBIT, LOGIT, TOBIT, and error component models. Prerequisite(s): ECON 534.
536 Advanced Mathematical Economics 4 hours.
Mathematics theory and applications, including calculus and linear algebra, to theories of consumer and producer behavior, general equilibrium, welfare economics, externalities, and social choice. Prerequisite(s): MATH 181.
537 Business Research and Forecasting I 4 hours.
The role of research in business; forecasting methods and techniques, including models and their applications. Same as IDS 582.
Prerequisite(s): ECON 534 and at least one statistics course with regression analysis at the 300-level or above.
538 Business Research and Forecasting II 4 hours.
The role of research in business; forecasting methods and techniques, including multivariate time series models and their applications. Same as IDS 583.
Prerequisite(s): IDS 476 or IDS 582 or ECON 537.
539 Microeconometrics 4 hours.
Application of econometric techniques to empirical problems in microeconomics with emphasis on issues of identification and causality; and the selection, implementation, and testing of statistical models. Prerequisite(s): ECON 501 and ECON 535.
540 Economics for the Noneconomists 4 hours.
Basic introduction to economics for graduate and professional school students. Supply/demand, opportunity cost, economic behavior of consumers/business firms, macroeconomy, inflation, and business cycles. Credit is not given for ECON 540 if the student has credit in ECON 501 or ECON 520. No graduation credit given to students enrolled in MBA, MA, or PhD in Economics, or PhD in Business Administration.
552 Economic Demography 4 hours.
Economic analysis of fertility (number and timing of children), mortality, marriage and divorce, population age structure, the relationship between population growth and economic development. Prerequisite(s): ECON 501 or ECON 520.
553 Economics of Religion 4 hours.
The economic determinants of participation in religious activities; the effects of religion on economic and demographic behavior; health, and well-being. Prerequisite(s): ECON 501 or ECON 520.
555 Health Economics I 4 hours.
Topics in the supply and demand for health services; the role of insurance in the medical care industry; public policy issues of cost and quality regulation.
Prerequisite(s): ECON 501 or ECON 520; or consent of the instructor.
556 Health Economics II 4 hours.
Economics of health-related behaviors, prevention and health promotion, health disparities, health and development, evaluation of health-related interests.
Prerequisite(s): ECON 501 or ECON 520; or consent of the instructor.
560 Industrial Organization 4 hours.
Analysis of industry structure, behavior and performance; firms in imperfect competition; concentration measurement; oligopoly; theory; cartels; price discrimination; vertical and horizontal integration.
Prerequisite(s): ECON 501 or ECON 520; or consent of the instructor.
566 Environmental and Natural Resource Economics 4 hours.
Analytical methods for evaluating the impacts and control costs of pollution externalities and natural resource changes. Consequent implications for public and business policy. Prerequisite(s): ECON 501 or ECON 520 or MBA 502.
571 Urban Real Estate and Land Economics 4 hours.
Economic analysis of urban real estate and land. Real estate appraisal. Demand for urban land; supply of land and improvements. Prerequisite(s): ECON 501 or ECON 520.
572 Urban Economics 4 hours.
Urban economic models and economic analysis of urban problems. Firm location, housing, transportation, local public finance.
Prerequisite(s): ECON 501 or ECON 520.
575 Economic Analysis of Public Expenditures 4 hours.
Microeconomic theory as applied to public expenditure decisions; externalities, shadow prices and investment criteria in cost-benefit analysis; uncertainty and the value of life, extensive illustrative case studies. Prerequisite(s): ECON 501 or ECON 520.
576 Economics of Taxation 4 hours.
Analysis of the effects of taxation on economic behavior; taxation and public choice; the effects of taxation on the distribution of income; theory and empirical analysis of welfare effects of taxes; optimal tax theory; issues in tax policy and tax reform.
Prerequisite(s): ECON 501 or ECON 520.
592 Workshop in Economics 4 hours.
Bridges the transition from course work to dissertation research. The nature of a PhD dissertation, topic selection, career design, research support networks. Students define a potential dissertation topic, survey the literature, and present it in class. Prerequisite(s): Comprehensive exams in micro and macro.
593 Internship Program 0 TO 8 hours.
Under the direction of a faculty supervisor, students work in government or a private firm on problems related to their major field of interest. Specific credit allotted is determined by the Graduate Curriculum Committee after receiving the supervisor’s recommendation. Prerequisite(s): Completion of the core courses in the degree program in which the student is enrolled and approval of the internship program by the graduate adviser and the Graduate Curriculum Committee.
Practicum in Secondary Classrooms 2 hours. Students will observe secondary classrooms, tutor individuals, and teach small groups. Discussions explore curriculum, instruction, and assessment practices within content areas and cultural contexts. Prerequisite(s): Admission to a secondary teacher education program and graduate standing. Must enroll concurrently in ED 430.

Improving Learning Environments 3 hours. Analysis of structural, normative, and social dimensions of learning environments and their relationships to student learning. Exploration of change processes to improve those environments. Prerequisite(s): Graduate standing or consent of the instructor.

Instruction and Evaluation in Secondary Education 5 hours. Instructional planning and curriculum design; strategies for instruction and classroom management; forms of formative and summative evaluation; and professional development issues. Fieldwork required. Prerequisite(s): Completion of education core courses in undergraduate teacher certification programs: ED 200 and ED 210 or in graduate teacher certification program: ED 402 or ED 403 or PS 401; and ED 421 or ED 422 or ED 445.

Adolescence and the Schools 3 hours. Physiological, intellectual, and social development of adolescence. Relations between aspects of adolescent development and the academic and social demands of secondary schools. Prerequisite(s): ED 210 or the equivalent, or graduate standing.

445

Composing a Teaching Life I 15 hours. Begins the capstone experience of the program, full-time student teaching in an elementary classroom. It is accompanied with a weekly seminar to discuss experiences, reason about learning, and reflect on students’ own learning. Prerequisite(s): Senior standing or above and admission to the Bachelor of Arts in Elementary Education program.

451

Composition a Teaching Life II/ Senior Reflective Seminar 5 hours. Provides the capstone experience for students, with a weekly Senior Reflective Seminar in which students reflect upon their teaching through the lenses of the five program curricular strands. Fieldwork required. Prerequisite(s): Admission to the Bachelor of Arts in Elementary Education program. Senior standing and successful completion of ED 450.

450

Political and Sociocultural Perspectives on Special Education 3 hours. Students will examine issues of access and equity through legislation, litigation, and sociocultural perspectives and be introduced to major theoretical frameworks that influence special education programs. Same as SPED 461. Fieldwork required. Prerequisite(s): SPED 461 or ED 461 or the equivalent or consent of the instructor.

461

Educational Practice with Seminar I 6 hours. The first half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Graduate credit only with approval of the college. Prerequisite(s): Good academic standing in a teacher education program, completion of 100-clock hours of pre-student-teaching field experiences, credit or concurrent registration in ED 470, and approval of the college or department of specialization.

472

Promoting Academic and Prosocial Behavior I 3 hours. The importance of school-wide and classroom structure and climate in the educational process. Strategies to promote academic success and desired social behavior. Same as SPED 472. Fieldwork required. Prerequisite(s): SPED 461 or ED 461 or the equivalent or consent of the instructor.

473

Teaching Math and Science with Adaptations 3 hours. Provides prospective teachers with assessment strategies and a range of adaptations, modifications, and interventions in math and science for students with disabilities. Same as SPED 473. Fieldwork required. Prerequisite(s): SPED 461 or ED 461 or the equivalent or consent of the instructor.

500

Philosophical Foundations of Educational Inquiry 4 hours. Philosophical foundations of various forms of educational inquiry. Epistemological and ethical dimensions of different research approaches. Prerequisite(s): Admission to the PhD in Education program or consent of the instructor.

501

Data and Interpretation in Educational Inquiry 4 hours. Data, interpretation, reliability, validity, accuracy, stability, and generalizability from different methodological perspectives; how research design, data collection, and interpretation vary with different philosophical approaches. Prerequisite(s): Admission to the PhD in Education program or consent of the instructor.

502

Essentials of Qualitative Inquiry in Education 4 hours. Hands-on introduction to qualitative research methods, including foundations, practices, and ethics in qualitative research. Prerequisite(s): Admission to
the PhD in Education program or consent of the instructor.

503 Essentials of Quantitative Inquiry in Education 4 hours. Introduces theory and assumptions behind parametric statistics. Also provides hands-on experience in conducting basic quantitative research (t-test, correlation, regression, analysis of variance). Same as EPSY 503. Prerequisite(s): Admission to the PhD in Education program or consent of the instructor.

543 Research on Teaching 4 hours. Review and analysis of history, paradigms, methods, and findings of research on teaching. Focus on the development of research questions and strategy. Prerequisite(s): ED 490 or ED 503 or GE 578, and consent of the instructor.

544 Research Design 4 hours. Alternative research design models and evaluation methodologies; quantitative and qualitative approaches; ethnography; historiography; experimentation and quasi-experimentation; institutional and practitioner research designs and methods. May be repeated. Prerequisite(s): Admission to the PhD in Policy Studies in Urban Education (Educational Organization and Leadership Concentration) or the EdD in Urban School Leadership Program and consent of the instructor.

580 Colloquium on Diversity in Secondary Education 2 hours. Designed to provide candidates with opportunities to interact with experts who deal with various issues of diversity in education, to discuss those issues with their cohorts, and to explore ways of meeting students’ diverse needs. Satisfactory/Unsatisfactory grading only.

594 Special Topics in Education 1 TO 4 hours. Exploration of a topic not covered in existing course offerings. May be repeated if topics vary. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.
Emphasis is placed on learning in early childhood classes and social science inquiry as they apply to educational issues.

Nonparametric Statistics and Regression 4 hours. Distribution free statistical tests that are robust for small samples. Also, nonparametric (nonlinear) regression models that relax the assumptions of classical linear regression. Prerequisite(s): ED 501 and EPSY 503 or the equivalent, and appropriate score on the department placement test.

Curriculum, Instruction, and Assessment in Early Primary Grades 5 hours. Language arts, mathematics, science, social studies, and fine arts curriculum development and instruction in the primary grades. Prerequisite(s): EPSY 429 and EPSY 520, and consent of the instructor.

Curriculum and Practice in Early Childhood Education 1 5 hours. Examines curriculum models and methods for fostering learning and development in early childhood. Provides extensive clinical experience in early childhood classrooms. Prerequisite(s): EPSY 429 and ED 422; and consent of the instructor.

Early Childhood Education Student Teaching 10 hours. Instructional methods and curricula in the early childhood classrooms. Discussion of program and child evaluation. Includes full-time supervised student teaching. Meets Illinois State Board of Education requirement for Type 04 Certification by providing supervised student teaching experience. Prerequisite(s): EPSY 519 and EPSY 520; and consent of the instructor.

Student Teaching in the Primary Grades 6 hours. Instructional methods in curricula in primary grades. Meets Illinois State Board of Education requirement for Type 04 Certification. Fieldwork required. Meets 8 weeks of the semester. Prerequisite(s): EPSY 519, and consent of the instructor.

Parent and Staff Relations in Early Education 4 hours. Methods for involving parents in early childhood programs. The role of the director in program administration and in hiring, training, and supervising teachers and staff. Prerequisite(s): Consent of the instructor.

Advanced Adolescent Development 3 hours. Examines current theories and research on psychological, intellectual, emotional, and social development during the adolescent years. Examines relationships amongst individual, interpersonal, and contextual factors related to adolescent development. Prerequisite(s): EPSY 446 or EPSY 502 or ED 421 or ED 422 or ED 445; or consent of the instructor. Recommended background: Course work in Educational Psychology or Psychology.

Development in Infancy and Early Childhood 4 hours. Consideration of development in the preschool years. Stress on theory, research, individual child study, and educational implications. Same as PSCH 520. Prerequisite(s): ED 422 or PSCH 422 or the equivalent.

Seminar in Moral Development, Character Formation, and Education 4 hours. Philosophical assumptions, psychology research, and theories underlying current approaches to moral and character education. Cultural and developmental factors in value formation. Same as PSCH 527. Prerequisite(s): ED 422 or PSCH 422 or the equivalent, or admission to the PhD in Education program, PhD in Psychology program, or PhD in Social Work program, or consent of the instructor.

Cognition and Instruction: Advanced Constructivist Approaches 4 hours. Piaget's and Vygotsky's theories of knowledge development. Emphasis on competing approaches concerning the relation of thought to action, to language, and to social relations. Same as PSCH 552. Prerequisite(s): EPSY 429 or PSCH 429 or the equivalent, and admission into a PhD program in the College of Education or Psychology or consent of instructor.

Achievement Motivation 4 hours. The psychology of achievement motivation will be explored from the perspectives of personality, social, and educational psychology. Same as PSCH 525. Prerequisite(s): Graduate standing in education or psychology or consent of the instructor.

Educational Measurement 4 hours. Introduction to multiple correlation and regression techniques as tools for the analysis and interpretation of educational and behavioral science data. Prerequisite(s): EPSY 503.

Multiple Regression in Educational Research 4 hours. Introduction to multiple correlation and regression techniques as tools for the analysis and interpretation of educational and behavioral science data. Prerequisite(s): EPSY 503.

Assessment for Teachers 4 hours. Plan, construct, administer, score, and report on classroom assessments that measure a wide variety of learning outcomes, from simple to complex; select and use standardized achievement tests; developing defensible grading procedures. Prerequisite(s): EPSY 421 and EPSY 422; or consent of the instructor.

Educational Program Evaluation 4 hours. An introduction to concepts, approaches, techniques, and practices of educational program evaluation. Students work toward acquiring knowledge and skills to plan and conduct evaluations of programs, projects, curriculum and institutions. Prerequisite(s): ED 501 and EPSY 503; or consent of the instructor.
Electrical and Computer Engineering (ECE)

589 Topics in Educational Statistics 4 hours. Seminar on a preannounced topic on educational statistical methodology for the analysis of educational data. May be repeated. Prerequisite(s): EPSY 547.

593 PhD Research Project 1 TO 8 hours. Students design, implement, and analyze results of a research problem in this area of specialization. Completed study is reviewed by faculty. May be repeated to a maximum of 8 hours. Prerequisite(s): Admission to the PhD in Education program.

594 Special Topics in Educational Psychology 1 TO 4 hours. Seminar on a preannounced topic focusing on methodology, research, and educational implications of recent models of learning, problem solving, and thinking. May be repeated to a maximum of 12 hours. Prerequisite(s): ED 421 or the equivalent, and consent of the instructor.

596 Independent Study 1 TO 4 hours. Students carry out independent study in educational psychology under the direction of a faculty member. May be repeated to a maximum of 12 hours. Students may register in more than one section per term. Prerequisite(s): ED 490 or the equivalent, and consent of the adviser and instructor.

599 Thesis Research 0 TO 16 hours. Research on the topic of the student’s dissertation. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the dissertation adviser.

Electronic and Computer Engineering (ECE)

400 Introduction to Microelectromechanical Systems 3 OR 4 hours. Definition, classification, and case studies of transducers, sensors, and actuators. Microfabrication methods for microelectromechanical systems (MEMS). Design, simulation, and modeling of MEMS. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ECE 310 or a grade of C or better in ECE 310.

401 Quasi-Static Electric and Magnetic Fields 3 OR 4 hours. Static electric and magnetic fields. Material description, boundary value problems. Field energy, its conversion, and scaling laws. Quasi-static fields, field diffusion, eddy currents, energy losses. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ECE 322.

407 Pattern Recognition 1 3 OR 4 hours. The design of automated systems for detection, recognition, classification, and diagnosis. Parametric and nonparametric decision-making techniques. Applications in computerized medical and industrial image and waveform analysis. Same as BICE 407. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): MATH 220.

434 Network Analysis 3 OR 4 hours. Matrix algebra for network analysis, network parameters, macro-modeling, high-frequency measurements, network functions and theorems. Topics in computer-aided analysis. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in ECE 310.

412 Introduction to Filter Synthesis 3 OR 4 hours. Fundamentals of network synthesis, filter approximations, and frequency transformations. Active filter synthesis using bilinear and biquad circuits. Topics in computer-aided design. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in ECE 310.

415 Image Analysis and Computer Vision 1 3 OR 4 hours. Image formation, geometry, and stereo. Two-dimensional image analysis by Fourier and other 2-D transforms. Image enhancement, color, image segmentation, compression, feature extraction, object recognition. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): MATH 310 or a grade of C or better in ECE 310.

417 Digital Signal Processing 1 0 TO 5 hours. Computer-aided design of digital filters; quantization and round-off effects; FFT algorithms; number-theoretic algorithms; multidimensional signal processing; DSP architectures and programming. 4 undergraduate hours. Prerequisite(s): ECE 317.

418 Statistical Processing 3 OR 4 hours. Stochastic signal models, LMS identification, identification of signals from noise, Wiener filtering, blind separation of mixed signal, discrete Wavelet Transforms, compression and denoising, cepstral analysis. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ECE 317 and ECE 341.

421 Introduction to Antennas and Propagation 1 3 OR 4 hours. Potential, antenna parameters, radiation from linear wires and loops, impedance, arrays, communication links and path loss, tropospheric propagation, fading and diversity. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ECE 325 and ECE 322.

423 Electromagnetic Compatibility 3 OR 4 hours. EMC requirements for electronic systems. Nonideal behavior of components. Radiated and conducted emissions. Susceptibility. Coupling and shielding. Electrostastic discharge. System design for EMS. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ECE 320 and ECE 322.

424 RF and Microwave-Guided Propagation 1 0 TO 5 hours. Maxwell’s equations, transmission lines, Smith chart, strip lines, rectangular and circular waveguides, TE and TM waves, wave impedance, resonators, two-port parameters, power and energy considerations. 4 undergraduate hours. 5 graduate hours. Prerequisite(s): ECE 225 and ECE 322.

427 Modern Linear Optics 1 3 OR 4 hours. Geometrical optics, wave optics, two-dimensional Fourier analysis, scalar diffraction theory, Fourier transforming properties of lenses, coherent and incoherent images, holography, electromagnetic optics, polarization and crystal optics, resonators. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ECE 331 and ECE 322.

431 Analog Communication Circuits 1 0 OR 5 hours. Introduction to radio frequency circuit design: narrowband transistor amplifiers, impedance matching networks, oscillators, mixers, amplitude and frequency modulation/demodulation, phase-lock loop circuits, amplifier noise and stability analysis. Laboratory. 4 undergraduate hours. 5 graduate hours. Prerequisite(s): ECE 311 and ECE 341.

432 Digital Communications 1 3 OR 4 hours. Source coding, quantization, signal representation, channel noise, optimum signal reception, digital modulation: ASK, PSK, FSK, MSK, M-ary modulation. Probability of error. Intersymbol interference. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ECE 311 and ECE 341.

434 Multimedia Systems 1 3 OR 4 hours. Multimedia systems; compression standards; asynchronous transfer mode; Internet; wireless networks; television; videoconferencing; telephony; applications. 3 undergraduate hours. 4 graduate hours. Extensive computer use required. Prerequisite(s): ECE 333.

435 Wireless Communication Networks 1 3 OR 4 hours. Radio technology fundamentals; channel and propagation models; channel multiple access technologies; wireless mobile communications fundamentals; generic wireless mobile network; cellular/PCS wireless mobile network standards. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ECE 432 and ECE 333.

436 Computer Communication Networks II 1 3 OR 4 hours. Explores integrated network architecture of service, control signaling and management, examples of high-speed LAN/WAN, next generation Internet, and mobile wireless network. 3 undergraduate hours. 4 graduate hours. Extensive computer use required. Prerequisite(s): ECE 333.
Wireless Communications 3 OR 4 hours. Cellular concept, frequency reuse, mobile radio propagation, channel fading, noise in analog communications, mobile radio channel equalization, multiple access techniques (FDMA, TDMA, CDMA), wireless networking. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ECE 311 and ECE 341.

Power Semiconductor Devices and Integrated Circuits 0 TO 5 hours. Covers the physics of devices encountered in the power-electronic and switching converter systems. 4 undergraduate hours. 5 graduate hours. Credit is not given for ECE 442 if the student has credit for EECS 442. ECE 442 is a supplement for ECE 445 and ECE 545. Prerequisite(s): ECE 442 and ECE 346.

Analysis and Design of Power Electronic Circuits 0 TO 5 hours. Analysis of different isolated and nonisolated power-converter topologies, understanding of power-converter components, switching schemes. 4 undergraduate hours. 5 graduate hours. Prerequisite(s): ECE 342 and a grade of C or better in ECE 310.

Transistors 3 OR 4 hours. Bipolar junction transistors, electronic processes in surface-controlled semiconductor and dielectric devices. Metal oxide semiconductor field effect transistors, surface and interface effects, diode lasers, integrated optoelectronic devices. 5 undergraduate hours. 4 graduate hours. Prerequisite(s): ECE 346.

Microdevices and Micromachining Technology 0 TO 5 hours. Microfabrication techniques for microstructures, microstructures, and microdevices. Selected examples of physical/chemical sensors and actuators. Simulation experiments. Laboratory. Same as ME 449. 4 undergraduate hours. 5 graduate hours. Prerequisite(s): ECE 347.

Control Engineering 3 OR 4 hours. State-space representation of systems; realization theory; stability; performance; modern control design techniques, including fuzzy, learning, adaptive, and nonlinear control. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ECE 350.

Robotics: Algorithms and Control 3 OR 4 hours. Kinematic and dynamic modeling of robots; configuration space; motion planning algorithms; control of robots; sensors and perception; reasoning; mobile robots. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ECE 201; and a grade of C or better in ECE 210 or a grade of C or better in ECE 225.

Electromechanical Energy Conversion 0 TO 4 hours. Electromagnetic forces and torque; magnetic circuits and transformers; DC machines; three-phase AC synchronous and induction machines; laboratory demonstrations. Projects are required. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in ECE 225.

Digital Systems Design 3 OR 4 hours. Switching algebra, combinational circuits, Mux, ROM, DCO, PLA-based designs, advanced combinational circuit minimization techniques, synchronous and asynchronous sequential circuit synthesis (minimization, hazards, races, state assignment) testing. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in CS 366 and a grade of C or better in ECE 265 and a grade of C or better in PHYS 142.

Computer Architecture 3 OR 4 hours. Design and analysis of high performance uniprocessors. Topics include arithmetic: multiplication, division, shifting; processor: pipelining, multiple function units, instruction sets; memory: caches, modules; virtual machines. 3 undergraduate hours. 4 graduate hours. Credit is not given for ECE 466 if the student has credit for CS 466. Prerequisite(s): ECE 366.

Introduction to VLSI Design 0 TO 5 hours. MOS, CMOS circuits VLSI technology, CMOS circuit characterization and evaluation. Static and dynamic MOS circuits, system design, faults, testing, and symbolic layout. Laboratory. 4 undergraduate hours. 5 graduate hours. Prerequisite(s): ECE 340.

Analog and Mixed-Signal VLSI Design 0 TO 5 hours. Elementary transistor stages and analog components; low-power design; comparison of bipolar, CMOS, and BiCMOS, s-parameters and high-frequency ASIC design and modeling; RF wireless communication system components; behavioral modeling. 4 undergraduate hours. 5 graduate hours. Prerequisite(s): ECE 467.

CAD-Based Computer Design 3 OR 4 hours. Use of modern CAD tools for computer system design, hardware, description languages, simulation, design verification, synthesis. Design assignments, projects using CAD. 3 undergraduate hours. 4 graduate hours. Credit is not given for ECE 469 if the student has credit for CS 469. Extensive computer use required. Prerequisite(s): ECE 368 and ECE 465 and ECE 466.

Seminar 1 TO 4 hours. Topics of mutual interest to a faculty member and a group of students. Offered as announced by department bulletin or the Schedule of Classes. May be repeated. Prerequisite(s): Consent of the instructor.

Special Problems 2 TO 4 hours. Special problems or reading by special arrangement with the faculty. No graduation credit for students in the following: MS in Electrical and Computer Engineering or PhD in Electrical and Computer Engineering. Prerequisite(s): Consent of the instructor.

Advanced Analog Filter Synthesis 4 hours. The active biquad, sensitivity analysis, realization of active two-port networks, design of broad-band matching networks, and the theory of passive cascade synthesis. Prerequisite(s): ECE 412.

Image Analysis and Computer Vision II 4 hours. Image analysis techniques, 2-D and 3-D shape representation, segmentation, camera and stereo modeling, motion, generic object and face recognition, parallel and neural architectures for image and visual processing. Prerequisite(s): ECE 415; or consent of the instructor.

Adaptive Digital Filters 4 hours. Properties of signals; optimal filters, Wiener and Kalman filters; signal modeling, adaptive filters channel equalizing, echo canceling, noise canceling, and linear prediction; filter properties. Prerequisite(s): ECE 317 and ECE 341.

Digital Image Processing 4 hours. Operations on 2-D digital images, such as transforms, enhancement, restoration, warping, segmentation, registration, compression, and reconstruction from projection. Prerequisite(s): ECE 317 and ECE 341.

Advanced Microwave Theory 4 hours. Microwave integrated circuits: analysis, design. Microwave devices: filters, cavities, and phase shifters. Millimeter waves: components and circuits, millimeter wave applications. Prerequisite(s): ECE 420 and ECE 520.

Prerequisites and Consent of the Instructor: Many courses require specific prerequisites and consent of the instructor. For instance, ECE 520 requires consent of the instructor.
572 Nanoscale Semiconductor Structures: Electronic and Optical Properties 4 hours. Electronic and optical properties of nanoscale semiconductors and devices, carrier interactions in dimensionally confined nanostructures, deformation potential, piezo-electric potential, polar-optical, phonon interaction potential. Prerequisite(s): PHYS 244 and ECE 346. Recommended background: Background in semiconductor device fundamentals, such as covered in ECE 346 as well as the underlying physical principles as covered in PHYS 244.

594 Special Topics 4 hours. Subject matter varies from term to term and section to section, depending on the specializations of the instructor. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

595 Departmental Seminar 0 hours. Seminar by faculty and invited speakers. Satisfactory/Unsatisfactory grading only. May be repeated.

596 Individual Study 1 TO 4 hours. Individual study or research under close supervision of a faculty member. May be repeated. Students may register in more than one section per term. No graduation credit for students in the following: MS in Electrical and Computer Engineering and PhD in Electrical and Computer Engineering. Prerequisite(s): Consent of the instructor.

597 Project Research 0 TO 9 hours. A research design or reading project approved by the committee appointed by the director of graduate studies. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor. For ECE majors only.

598 MS Thesis Research 0 TO 16 hours. MS thesis work under the supervision of a graduate adviser. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor. For ECE majors only.

599 PhD Thesis Research 0 TO 16 hours. PhD thesis work under supervision of a graduate adviser. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor. For ECE majors only.

Engineering (ENGR) 400 Engineering Law 3 OR 4 hours. Overview of the legal system. Legal principles affecting the engineering profession. Professional ethics in engineering. Intellectual property law. Basic contract and tort principles. Environmental law. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Senior standing or above.

401 Engineering Management 3 OR 4 hours. Theory, strategy, and tactics of the use of project management, including project planning, matrix management concept, and team meetings. 3 undergraduate hours. 4 graduate hours. Extensive computer use required. This is an online Web-based course. Prerequisite(s): Senior standing or above.

402 Intellectual Property Law 3 OR 4 hours. Patent, copyright, trade secret, mask work, and cyber-squatter legal and procedural principles; protection for novel software, biotech inventions, and business methods; and trademark protection for domain names. 3 undergraduate hours. 4 graduate hours. Extensive computer use required. This is an online Web-based course. Prerequisite(s): Senior standing or above.

403 Reliability Engineering 3 OR 4 hours. Probability overview; statistics overview; system reliability modeling and prediction-static methods; system reliability modeling and prediction-dynamic methods; maintainability and availability; reliability optimization; and risk analysis. 3 undergraduate hours. 4 graduate hours. Extensive computer use required. This is an online Web-based course. Prerequisite(s): Senior standing or above.

404 Entrepreneurship 3 hours. Identify new business opportunities in technology, market value assessment, competition, business plan, funding acquisition, intellectual property protection, and case studies. Prerequisite(s): Open only to seniors; and consent of the instructor.

410 Wireless Data 3 OR 4 hours. Data communications, existing wireless data networks, planning, topology, performance, and operation. 3 undergraduate hours. 4 graduate hours. Extensive computer use required. This is an online Web-based course. Prerequisite(s): A course in digital communications and an introductory course in wireless communications. Graduate or professional standing.

420 Engineering for Success 1 hour. Interactive seminars will be given by persons with engineering degrees having shown high achievement in either engineering or nonengineering endeavors. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Junior standing or above.

494 Special Topics in Engineering 3 OR 4 hours. Course on multidisciplinary engineering topics that vary from term to term depending on current student and instructor interests. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): Junior standing or above; and consent of the instructor.

499 History of the English Language 3 OR 4 hours. Development of English from its Proto-Indo-European origin to the present; detailed examination of the external and internal history of Old, Middle, and Modern English. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Senior standing or above; or consent of the instructor. Recommended background: ENGL 200.

401 Modern English 3 OR 4 hours. This is a course on the sound system, the lexicon, and syntax-grammar of modern American English taught from the linguistic perspective. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Senior standing or 9 hours of English or consent of the instructor. Recommended background: ENGL 200.

402 Rhetoric 3 OR 4 hours. Intensive study of central topics in rhetorical theory in their historical depths. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ENGL 542 or ENGL 361 or ENGL 370 or ENGL 372 or ENGL 374 or ENGL 375; and senior standing or above; or consent of the instructor.

403 Introduction to Old English Literature 3 OR 4 hours. The elements of Old English grammar and readings from the literature of England before the Norman Conquest. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ENGL 240; and ENGL 241 or ENGL 242 or ENGL 243; or consent of the instructor.

405 Topics in Old English Literature 3 OR 4 hours. Studies in the language and literature of pre-Conquest England. Content varies. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time. Prerequisite(s): ENGL 403; or consent of the instructor.

408 Topics in Medieval Literature 3 OR 4 hours. Topics in English literature from the period 450-1500. Content varies. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time. Prerequisite(s): ENGL 311 or ENGL 312 or ENGL 313 or ENGL 314; and senior standing or above; or consent of the instructor.

413 Topics in Shakespeare 3 OR 4 hours. Study of a genre, topic, or period in Shakespeare’s work. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time. Prerequisite(s): ENGL 312 or ENGL 313 or ENGL 314; and senior standing or above; or consent of the instructor.
18 GradCourseDescr.qxd  7/13/06  1:40 PM  Page 216

155

Study of a specific topic relating American literature to society, culture, history, race, gender, ethnicity. Content varies. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time.

Prerequisite(s): ENGL 324 or ENGL 325 or ENGL 326 or ENGL 327; and senior standing or above; or consent of the instructor.

427

Topics in American Literature and Culture, 1900–Present 3 OR 4 hours.

Study of a specific topic relating American literature to society, culture, history, race, gender, ethnicity. Content varies. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time.

Prerequisite(s): ENGL 324 or ENGL 325 or ENGL 326 or ENGL 327; and senior standing or above; or consent of the instructor.

428

Topics in Literature and Culture, 1900–Present 3 OR 4 hours.

Study of a specific topic relating twentieth-century literature to society, culture, history, race, gender, ethnicity. Content varies. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time.

Prerequisite(s): English 318 or ENGL 319 or ENGL 320 or ENGL 325 or ENGL 326 or ENGL 327; and senior standing or above; or consent of the instructor.

429

Topics in Literary and Cultural Studies 3 OR 4 hours.

Study of a specific topic relating literature to society, culture, history, race, gender, ethnicity. Content varies. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time.

Prerequisite(s): Six hours of English at the 300-level and senior standing or above; or consent of the instructor.

437

Topics in Poetry and Poetic Theory 3 OR 4 hours.

Investigations into the nature of poetry. Discussions of issues such as technical, theoretical, formal, and historical developments. Topics and readings vary. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time.

Prerequisite(s): ENGL 303 or ENGL 316 or ENGL 355; and senior standing or above; or consent of the instructor.

438

Topics in Performance Studies 3 OR 4 hours.

In-depth study of a topic, movement, artist, or author in the field of drama and performance studies, broadly defined. Content varies. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time.

Prerequisite(s): ENGL 304 or ENGL 313 or ENGL 341 or ENGL 342 or ENGL 370 or ENGL 375; and senior standing or above; or consent of the instructor.

439

Topics in Fiction and Theories of Fiction 3 OR 4 hours.

Study of fiction related to a particular theory of fiction (realism, romantic, literary naturalism, narrative theory, fictional poetic). Content varies. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time.

Prerequisite(s): ENGL 305; and senior standing or above; or consent of the instructor.

440

Topics in Cultural and Media Studies 3 OR 4 hours.

Study of a medium, genre, theme, period, influence, or problem in culture and cultural theory. Topics vary. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time.

Prerequisite(s): ENGL 302 or ENGL 341 or ENGL 342; and senior standing or above; or consent of the instructor.

441

Topics in Asian American Literature and Culture 3 OR 4 hours.

An advanced seminar that examines various forms of cultural production by Asian American artists of diverse ethnic backgrounds. Topics vary. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time.

Prerequisite(s): English 372; and senior standing or above; or consent of the instructor.

442

Topics in Postcolonial and World Literature in English 3 OR 4 hours.

Study of a major author, topic, movement, or genre within postcolonial and world literatures in English. Content varies. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time.

Prerequisite(s): ENGL 318 or ENGL 319 or ENGL 320 or ENGL 333; and senior standing or above; or consent of the instructor.

443

Topics in Gender, Sexuality, and Literature 3 OR 4 hours.

Specific study of topics in gender and literature. Content varies.

Same as GWS 443. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time.

Prerequisite(s): ENGL 361 or ENGL 362 or ENGL 363 or GWS 101 or GWS 102; and senior standing or above; or consent of the instructor.

444

Topics in Theories of Gender and Sexuality 3 OR 4 hours.

Advanced study of topics related to theories of gender and sexuality. Same as GWS 444. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time.

Prerequisite(s): ENGL 361 or ENGL 362 or ENGL 363 or GWS 101 or GWS 102; and senior standing or above; or consent of the instructor.

445

Topics in Disability Studies 3 OR 4 hours.

This course will focus on topics structured around particular aspects of disability studies and its practical, cultural, and theoretical implications. Same as DHO 445. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time.

Prerequisite(s): ENGL 361 or ENGL 362 or ENGL 363 or ENGL 364; and senior standing or above; or consent of the instructor.

446

Topics in Criticism and Theory 3 OR 4 hours.

Focus on a particular critical or theoretical topic, movement, tradition, or figure. Content varies. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time.

Prerequisite(s): English 361 or ENGL 362 or ENGL 370 or ENGL 372; and senior standing or above; or consent of the instructor.

448

Topics in Rhetorical Studies 3 OR 4 hours.

Study of theoretical intersections between rhetoric and cultural studies to describe and explain the ways in which discourse constructs identity, knowledge, and values. Content varies. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time.

Prerequisite(s): English 374 or ENGL 375 or ENGL 342 or ENGL 402; and senior standing or above; or consent of the instructor.

449

Introduction to the Teaching of English in Middle and Secondary Schools 3 OR 4 hours.

Intended as a general initiation to the field of secondary English teaching, the course focuses on many of the crucial issues facing teachers in contemporary language arts classrooms. 3 undergraduate hours. 4 graduate hours. Fieldwork required.

Prerequisite(s): Completion of the English Composition require-
469 Women’s Literary Traditions 3 OR 4 hours. An exploration of issues such as the female aesthetic, women’s popular literature, factors that enable creativity, and differences of race and class. Same as GWS 469. 3 undergraduate hours, 4 graduate hours. Prerequisite(s): ENGL 301 or ENGL 362 or ENGL 363; and senior standing or above; or consent of instructor.

470 Topics in Multiethnic Literatures in the United States 3 OR 4 hours. Topics in the literatures of American racial and ethnic groups. Content varies. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time. Prerequisite(s): ENGL 341 or ENGL 342 or ENGL 350 or ENGL 351 or ENGL 355 or ENGL 357; or ENGL 359; and senior standing or above; or consent of the instructor.

471 Topics in Native American Literatures 3 OR 4 hours. The history and development of literature by and about American Indians. Content varies. Same as NAST 471. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time. Prerequisite(s): Senior standing or above and 6 hours of English, African-American studies, or Latin American studies or consent of the instructor.

472 Women and Film 3 OR 4 hours. Roles and representations of women in classical Hollywood, European art, and independent feminist cinemas. Same as AH 434 and GWS 472. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ENGL 302 or ENGL 342 or ENGL 361 or ENGL 362 or ENGL 363; and senior standing or above; or consent of instructor.

473 Topics in African-American Literature 3 OR 4 hours. African-American literature and culture for students with significant background in the field. Topics vary. Same as AAST 490. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): AAST 357 or AAST 360 or ENGL 357; and senior standing or above; or consent of the instructor.

474 Topics in Popular Culture and Literature 3 OR 4 hours. Study of a specific topic relating literature to popular culture, such as sport, television, and best-sellers. Critical analysis of the cultural mythology enunciating these subjects. Content varies. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time. Prerequisite(s): ENGL 302 or ENGL 341 or ENGL 342; and senior standing or above; or consent of the instructor.

478 The Bible as Literature 3 OR 4 hours. Literary analysis of the English Bible (including the Apocrypha) in its historical and religious contexts; study of the King James Version and successive revisions of it. Same as JST 478 and RELS 478. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in ENGL 240; and grade of C or better in ENGL 241 or grade of C or better in ENGL 242 or grade of C or better in ENGL 243; or consent of the instructor.

480 Reading Black Women Writing 3 OR 4 hours. Examines inscriptions of race, gender, class, and sexuality as they shape the literary and critical practices of nineteenth- and twentieth-century black women writers. Same as AAST 470 and GWS 470. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in ENGL 210 or ENGL 212. Registration restrictions: Graduate students must obtain approval of the Department of English.

482 Campus Writing Consultants 4 hours. Tutoring in the Writing Center. Students are required to consult with others on their writing. Emphasis on practice and theories of writing. Appropriate for prospective teachers. Prerequisite(s): Senior standing or 9 hours of English and consent of the instructor. Students must obtain override from the Writing Center.

483 Studies in Language and Rhetoric 3 OR 4 hours. Study of a particular topic or movement in language or rhetoric. Content varies. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time. Prerequisite(s): Senior standing or above; or consent of the instructor.

484 Studies in Language and Cognition 3 OR 4 hours. Examination of relationships among theories of language structure, cognition, and discourse, with applications of such theories to the writing process. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ENGL 401; or consent of the instructor.

485 Studies in the English Language and Linguistics 3 OR 4 hours. Study of a topic such as language diversity and literacy, theories of grammar, literacy in society, or ethnicity and language. Content varies. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time. Prerequisite(s): Senior standing or above; or consent of the instructor.

486 The Teaching of Writing in Middle and Secondary Schools 3 OR 4 hours. Theory and practice; emphasis on current approaches to language and literature. 3 undergraduate hours. 4 graduate hours. All students in the teacher education program must take this course in the term preceding their student teaching. Prerequisite(s): Senior standing or 9 hours of English or consent of the instructor.

487 Fieldwork in Language and Literature 3 OR 4 hours. Fieldwork required. Prerequisite(s): ENGL 459; and completion of the English Composition requirement; or consent of the instructor.

490 Advanced Writing of Poetry 3 OR 4 hours. Advanced work on poetic techniques and practices; emphasis on analysis of student work, using published examples; particular attention to individual student development. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time by undergraduates. Prerequisite(s): Undergraduates: Grade of B or better in ENGL 210. Registration restrictions: Graduate students must obtain approval of the Department of English.

491 Advanced Writing of Fiction 3 OR 4 hours. Advanced practice; emphasis on analysis of student work and published examples. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time by undergraduates. Prerequisite(s): Undergraduates: Grade of B or better in ENGL 212. Registration restrictions: Graduate students must obtain approval of the Department of English.

492 Advanced Writing of Nonfiction Prose 3 OR 4 hours. Advanced practice in writing essays, articles, reviews, or other forms of nonfiction prose. Content varies. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time by undergraduates. Prerequisite(s): Undergraduates: Grade of B or better in ENGL 201. Registration restrictions: Graduate students must obtain approval of the Department of English.

493 Internship in Nonfiction Writing 3 hours. Individual projects in approved professional setting to practice writing skills at an advanced level. May be repeated up to 1 time. A maximum of 3 hours may be applied toward either the undergraduate major in English or a graduate degree in English. Credit is not given for ENGL 493 if the student has credit in ENGL 593. Prerequisite(s): ENGL 201 and ENGL 202 or the equivalent and an interview with the coordinator of the internship program prior to
registration. Students will be registered in this course subject to approval by the coordinator. Resume and writing samples are required for the application process.

494 Topics in the Teaching of English 1 TO 4 hours. Study of a topic in literature, composition, and/or pedagogy. The content varies with each offering. May be repeated to a maximum of 8 hours. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

495 Playwriting 3 OR 4 hours. The development of scripts for stage performance. Same as THTR 423. 3 undergraduate, 4 graduate hours. Prerequisite(s): Junior standing or above; and approval of the department and submission and approval of a playwriting sample or dialog-centered fiction prior to registration.

498 Educational Practice with Seminar I 6 hours. The first half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Satisfactory/Unsatisfactory grading only. Graduate credit only with approval of the department. Prerequisite(s): Good academic standing in a teacher education program, completion of 100-clock hours of pre-student-teaching field experiences, and approval of the department.

499 Educational Practice with Seminar II 6 hours. The second half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Satisfactory/Unsatisfactory grading only. Graduate credit only with approval of the department. Prerequisite(s): Good academic standing in a teacher education program, completion of 100-clock hours of pre-student-teaching field experiences, credit or concurrent registration in ENG 498, and approval of the department.

500 Master’s Proseminar 4 hours. Study of disciplinary foundations of research in literary criticism, broadly defined.

501 Introduction to Research in Language, Literacy, and Rhetoric 4 hours. Surveys disciplinary foundations of research on language, literacy, and rhetoric. Issues and methods are introduced with special emphasis on work relating to culture, cognition, and rhetoric.

503 Proseminar I: Theory and Practice of Criticism 4 hours. Forms and theories of criticism, analysis of their application to specific genres and works, and practice in writing criticism. The first semester of the two-part required PhD proseminar.

504 Proseminar II: Seminar in Critical Studies 4 hours. More focused attention on the themes presented in Proseminar I. Students will complete major research projects based on bibliographies compiled in Proseminar I. Prerequisite(s): ENGL 503.

505 Seminar in Old English 4 hours. A topic in Old English, emphasis on literature or philology. Content varies.

507 Theory, Rhetoric, and Aesthetics 4 hours. Emphasizing breadth of knowledge in a field of inquiry involving genres, authors, topics, or periods in theory, rhetoric, or aesthetics.

510 Seminar in Language and Rhetoric 4 hours. Study of a topic or movement in linguistic or rhetorical theory. Content varies. May be repeated to a maximum of 12 hours. Prerequisite(s): ENGL 401 or ENGL 402 or consent of the instructor.

515 Seminar in Medieval Studies 4 hours. The works of Chaucer and other Middle English writers. Content varies. May be repeated to a maximum of 12 hours. Prerequisite(s): A minimum of three hours in Middle English literature.

517 British Literature and Culture 4 hours. Emphasizing breadth of knowledge in a field of inquiry involving genres, authors, topics, or periods in British literature and culture.

518 Newberry Library Seminar in Renaissance Literature 4 hours. Late medieval and Renaissance literature. In conjunction with the Newberry Library Center for Renaissance Studies, may be repeated to a maximum of 12 hours. Prerequisite(s): English 503 and 3 hours of medieval or Renaissance literature.

520 Seminar in Renaissance Studies 4 hours. English literature and culture of the sixteenth and seventeenth centuries. Topic varies. May be repeated to a maximum of 12 hours. Prerequisite(s): One course in Renaissance literature.

525 Seminar in Restoration and Eighteenth-Century Studies 4 hours. Content varies. Restoration and 18th-century studies by topic. May be repeated to a maximum of 12 hours. Prerequisite(s): One course in Restoration or 18th-century literature.

527 American Literature and Culture 4 hours. Emphasizing breadth of knowledge in a field of inquiry involving genres, authors, topics, or periods in American literature and culture.

530 Seminar in British Romantic Studies 4 hours. Advanced study of author(s), topic, movement, or genre. Content varies. May be repeated to a maximum of 12 hours. Prerequisite(s): A course in Romantic literature.

535 Seminar in Victorian Studies 4 hours. Focus on author, topic, movement, or genre. Content varies. May be repeated to a maximum of 12 hours. Prerequisite(s): 3 hours Victorian literature or consent of the instructor.

537 Global and Multicultural Literatures and Cultures 4 hours. Emphasizing breadth of knowledge in a field of inquiry involving genres, authors, topics, or periods in global and/multicultural literatures and cultures.

540 Seminar in Modern and/or Contemporary Studies in English 4 hours. Study of an author, topic, movement, or genre. Content varies. As part of the Discourse, Text, and Context series, provides seminar-level instruction in a key field in Modern or Contemporary English studies. Topic varies by instructor. May be repeated to a maximum of 12 hours. Prerequisite(s): A minimum of three hours in modern literature.

545 Seminar in American Studies to 1865 4 hours. As part of the Discourse, Text, and Context series, provides seminar-level instruction in a key field in American studies to 1865. May be repeated to a maximum of 12 hours. Prerequisite(s): One advanced course in American literature.

547 Media, Film, and Performance Studies 4 hours. Emphasizing breadth of knowledge in a field of inquiry involving genres, authors, topics, or periods in media, film, and/or performance studies.

550 Seminar in American Studies after 1865 4 hours. Seminar topic in American studies, possibly including mixed media, after 1865. May be repeated to a maximum of 12 hours.

552 Research Practicum in Language and Cognition 4 hours. Research design and methods examining theories of the development of literacy and relationships among learner, text, and context. May be repeated to a maximum of 12 hours. Prerequisite(s): ENG 484.

553 Research Practicum in Discourse Analysis 4 hours. Discourse analysis addresses issues of intentional communication, inference, the structure of texts or talk-in-interaction, and the interactive construction of social actions or identities in discourse. Same as LING 553. May be repeated to a maximum of 12 hours.

554 Seminar in English Education 4 hours. Critical examination of theory and practice in the teaching of English. Content varies.
555
Teaching
College Writing 4 hours. Methods, materials, and practice in teaching college writing. Satisfactory/Unsatisfactory grading only.

556
Teaching Creative
Writing 4 hours. Methods, materials, and practice in teaching creative writing. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Admission to the Program for Writers or consent of the instructor.

557
Language and
Literacy 4 hours. Emphasizing breadth of knowledge in a field of inquiry involving genres, authors, topics, periods, or issues in language and literacy, broadly conceived.

560
Practicum in the
Teaching of
English 1 TO 4 hours. Provides an opportunity for supervised discussion and evaluation of materials and methods used in undergraduate English instruction. Participation in appropriate departmental workshops. For English department teaching assistants. Satisfactory/Unsatisfactory grading only. May be repeated. No graduation credit. Prerequisite(s): Students may enroll only during terms in which they hold a teaching assistantship in the English department.

567
Discourse
Analysis 4 hours. Emphasizing breadth of knowledge in a field of inquiry involving discourse.

570
Program for
Writers: Poetry
Workshop 4 hours. Emphasis on poems written by students. May be repeated to a maximum of 12 hours. Prerequisite(s): Admission to the Program for Writers.

571
Program for
Writers: Fiction
Workshop 4 hours. Emphasis on fiction written by students. May be repeated to a maximum of 12 hours. Prerequisite(s): Admission to the program for writers.

572
Program for
Writers: Novel
Workshop 4 hours. Emphasis on novels written by students. May be repeated to a maximum of 12 hours. Prerequisite(s): Admission to the Program for Writers.

573
Program for
Writers: Translation
Workshop 4 hours. Emphasis on translations by students. May be repeated to a maximum of 12 hours. Prerequisite(s): Admission to the Program for Writers or consent of the instructor.

574
Program for
Writers: Nonfiction
Workshop 4 hours. Emphasis on nonfiction written by students. May be repeated to a maximum of 12 hours. Prerequisite(s): Admission to the Program for Writers.

575
Program for
Writers: Experimental Writing
Workshop 4 hours. Emphasis on experimentation by students. May be repeated to a maximum of 12 hours. Prerequisite(s): Admission to the Program for Writers.

576
Program for
Writers: Editing and
Publishing 4 hours. Practicum in basic procedures for students desiring careers in publishing, or who wish to understand the stages of production from preparation to publication. Prerequisite(s): Consent of the instructor.

577
The Past Decade 4 hours. Discussion of the past decade of critical work in any given field within literary, rhetorical, linguistic, or cultural studies.

580
Seminar in Genres of
Literature, Film, and
Media 4 hours. A single genre, such as the Gothic novel, or mode, such as poetry, fiction, or drama. May be repeated to a maximum of 12 hours.

581
Seminar in
Interdisciplinary
English Studies 4 hours. Relation between literature and such fields as fine arts, philosophy, psychology, religion, science, sociology, and politics. Content varies. May be repeated to a maximum of 12 hours. Prerequisite(s): 4 hours in area of literature to be studied.

582
Seminar in
Multiethnic and
Transatlantic
Cultures 4 hours. Study of a genre, movement, topic, or author in American multiethnic and/or transatlantic culture. Content varies. May be repeated to a maximum of 12 hours. Prerequisite(s): Minimum of 3 hours in Native American literature.

583
Seminar in Theories
of the Popular 4 hours. Study of a theme, form, era, or methodological approach. Content varies. May be repeated to a maximum of 12 hours. Prerequisite(s): Minimum of 3 hours in film.

584
Seminar in Visual
Technologies 4 hours. One topic or movement. Content varies. May be repeated to a maximum of 12 hours. Prerequisite(s): Theory course at the undergraduate or graduate level.

585
Seminar in
Theoretical Sites 4 hours. One author, topic, or movement in advanced theory. Topic varies by instructor. May be repeated to a maximum of 12 hours. Prerequisite(s): Consent of the instructor and consent of the director of graduate studies.

586
Seminar in Discourse,
Culture, Mind 4 hours. Interdisciplinary readings relating language and cognition from writing, rhetoric, cognitive psychology, and linguistics on a particular topic. May be repeated to a maximum of 12 hours. Prerequisite(s): ENGL 484.

588
Seminar in
Great Cities/Global
Cultures 4 hours. One author, topic, or movement in text, culture, and public space. May be repeated to a maximum of 12 hours.

591
Prospectus
Preparation 1 TO 4 hours. Students who have passed their preliminary exams may enroll in this independent study with their primary advisor the semester after they have successfully completed their exams. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of instructor and the director of graduate studies.

592
Preliminary
Examination
Research 1 TO 8 hours. Supervised research and reading in preparation for the preliminary examinations. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 12 hours. Prerequisite(s): Consent of the instructor and consent of the director of graduate studies.

593
Graduate Internship
in Nonfiction
Writing 1 TO 4 hours. Directed field experience in an approved professional setting to practice writing, editing, and research skills at an advanced level. May be repeated. A maximum of four hours of credit may be applied toward a graduate degree in English. Credit is not given for ENGL 483.

596
Independent
Study 1 TO 4 hours. Independent study and research in literature, creative writing, or language, literacy, and rhetoric. May be repeated to a maximum of 12 hours. Students may register in more than one section per term.

597
Master's Project
Research in
English 1 TO 4 hours. Supervised research and reading that facilitates the student in preparation of the project research. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 12 hours. No more than 4 hours of ENGL 597 may be applied toward the degree. Prerequisite(s): Consent of the instructor and consent of the director of graduate studies. Open only to master's degree students.

599
Thesis
Research 0 TO 16 hours. For students involved in dissertation research and writing. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of instructor and the director of graduate studies.
English as a Second Language (ESL)

401 Teaching Methods for International Teaching Assistants 1 TO 3 hours. Basic communication and presentation skills for international teaching assistants. The culture of the American college classroom. Satisfactory/Unsatisfactory grading only. No graduation credit. Prerequisite(s): Score of 150 on the Test of Spoken English (TSE or Speak test) and consent of the instructor.

Entrepreneurship (ENTR)

430 Family Business Management 3 hours. Competitive strengths/weaknesses of a family business; dynamics of family interactions within the overlapping family; management and ownership systems. Credit is not given for ENTR 430 if the student has credit for MGMT 430. Recommended background: Prior experience in a family business.

454 Introduction to Entrepreneurship 3 hours. Awareness and realistic understanding of the new venture formation process; role of the entrepreneur in the economy and society; self-evaluation; venture feasibility. Credit is not given for ENTR 454 if the student has credit for MGMT 455 or MKTG 454. Prerequisite(s): FIN 300 and MGMT 340 and MKTG 360, or consent of the instructor.

464 Entrepreneurial Consulting 3 hours. Student teams diagnose and recommend solutions to problems and opportunities facing Chicago-area entrepreneurs and smaller enterprises. Application of previous coursework. Credit is not given for ENTR 464 if the student has credit for MKTG 464. Prerequisite(s): ENTR 454; and ECON 218 or ECON 220, and 6 credit hours of other entrepreneurship courses.

494 Special Topics in Entrepreneurship 3 hours. Exploration of areas not covered in existing course offerings or study of selected topics in greater depth. Subject will vary from semester to semester. May be repeated if topics vary. Prerequisite(s): ENTR 454 and senior standing or above and approval of the department.

499 Independent Study in Entrepreneurship 1 TO 3 hours. Independent study of an approved topic in entrepreneurship. Student must prepare a written report under the guidance of the instructor. Prerequisite(s): Approval of the department.

502 Entrepreneurship 4 hours. Launching new ventures and entrepreneurial companies; components of successful business plans and feasibility studies; perceptual processes of opportunity recognition; entrepreneurial creativity and innovation. Credit is not given for ENTR 502 if the student has credit for MBA 510 or MGMT 502 or MKTG 502. Prerequisite(s): ACTG 500 and MKTG 500 or the equivalent courses.

558 Entrepreneurship: New Venture Formation 4 hours. Awareness and understanding of new venture creation and/or acquisition by developing a plan for a business; assessment of personal entrepreneurial potential. Credit is not given for ENTR 558 if the student has credit for MGMT 555 or MKTG 555. Prerequisite(s): ENTR 502 or consent of the instructor.

594 Special Topics in Entrepreneurship 4 hours. Exploration of areas not covered in existing course offerings or study of selected topics in greater depth. Subject will vary from semester to semester. Prerequisite(s): ENTR 502 and approval of the department.

596 Independent Study in Entrepreneurship 1 TO 4 hours. Independent study of an approved topic in entrepreneurship. Student must prepare a written report under the guidance of the instructor. Prerequisite(s): Approval of the department.

Environmental and Occupational Health Sciences (EOHS)

400 Principles of Environmental Health Sciences 3 hours. Environmental influences on health: population, food, energy; community hygiene and injury control; solid/hazardous wastes, air and water pollution; radiation; industrial hygiene and occupational health. Prerequisite(s): Admission restricted to public health students; other graduate, professional, and advanced undergraduate students admitted by consent as space permits. To obtain consent, see the SPH registrar.

405 Environmental Calculations 2 hours. Problem solving techniques as applied to environmental and occupational health: dimensional analysis, mass and energy balances, trial and error solutions, numerical and graphical techniques. Recommended background: Mathematics through calculus, college physics and chemistry.

408 Biological, Chemical, Explosives, and Nuclear Weapons as Public Health Threats 3 hours. Preparation, understanding of threats, and rescue and response issues pertaining to potential terrorist incidents from a public health perspective. Same as EPID 408. Prerequisite(s): Graduate or professional standing; or consent of the instructor. Recommended background: EOH 400 and EPID 410.
438 Air Quality Laboratory 2 hours. Basic instrumentation and procedures related to measurement and surveillance of ambient air quality. Methods for collection and identification of gaseous and particulate pollutants. Prerequisite(s): CHEM 405 or consent of the instructor.

440 Chemistry for Environmental Professionals 3 hours. Introductory atmospheric chemistry, aspects of air pollution, chemistry related to natural water and water treatment; priority pollutants; and biocides. Prerequisite(s): One year of college chemistry.

450 Principles of Occupational and Environmental Medicine 2 hours. Causes, transmission, control, and prevention of the physical/chemical environmental stressors in the work environment; industrial processes and hazards, contrasts between developed and developing countries.

455 Environmental and Occupational Toxicology 3 hours. General and applied toxicology as it relates to environmental and occupational exposures to hazardous agents. Emphasis on basic principles, specific types of toxicity, and major classes of toxic agents. Prerequisite(s): CHEM 232 and CHEM 234 and BIOS 100 or the equivalent courses and senior standing or above or consent of the instructor.

461 Community Health and Consumer Protection 2 hours. Prevention of health hazards due to infectious and chemical agents and physical processes, especially in the home and small community environments; role of health agencies. Prerequisite(s): CHEM 405 or consent of the instructor.

472 Management of Solid and Hazardous Wastes 3 hours. Management of solid and hazardous waste, including radioactive waste, landfills, incineration, recycling, composting, source reduction, groundwater and air pollution impacts, control, regulations, siting, health impacts. Same as CME 425 and GEOG 444.

482 Occupational Safety Science 2 hours. Principles of occupational safety, safety regulations, accident investigation procedures, and engineering, behavioral, and administrative techniques for occupational accident control. Prerequisite(s): CHEM 421 or consent of the instructor.

495 Environmental/Occupational Health Seminar 1 hour. Discussions of current environmental and occupational health topics, with presentations by students, faculty members, and visiting scientists.

512 Water and Wastewater Treatment 3 hours. Water and wastewater characterization: physical, chemical, and biological methods of water and wastewater treatment; regulatory and control trends; and environmental impact determinations. Prerequisite(s): CHEM 411 or consent of the instructor.

523 Engineering Controls/ Ventilation 4 hours. Design/evaluation of engineering control technology for workplace hazards: process modification, industrial ventilation, air cleaning, shielding, toxic air contaminants, mechanical hazards, [non]ionizing radiation, and temperature. Prerequisite(s): CHEM 405 and CHEM 421 and CHEM 428, or consent of the instructor.

529 Industrial Hygiene Laboratory II 2 hours. Fieldwork: comprehensive industrial hygiene surveys of local work places. Health hazard analysis, design of sampling strategies, collection of field data, report preparation. Prerequisite(s): CHEM 428 and CHEM 438; or consent of the instructor.

532 Air Quality Management II 2 hours. Air quality management: integration of diverse aspects. Data interpretation; standards setting; policy implementation; equipment design; hazardous spill modeling; indoor air pollution; case studies. Same as CME 526. Prerequisite(s): CHEM 431 or CME 419.

542 Water Chemistry 4 hours. Chemical equilibria and kinetic principles as applied to processes occurring in natural and engineered water systems. Same as CME 524. Prerequisite(s): CHEM 440 or CME 411.

551 Occupational Diseases 4 hours. Diseases caused by physical, chemical, and biological agents in the workplace: toxicology, epidemiology, pathophysiology, diagnosis, treatment, prevention, high risk populations, early detection.

554 Environmental and Occupational Epidemiology 2 hours. Methods and issues of environmental epidemiology: outbreak, cluster analysis, cross-sectional, case-control, cohort, ecological, and time series designs; contemporary issues: cancer and reproductive hazards. Same as EPID 554. Prerequisite(s): EPID 401 and BSTT 401 and EPID 400; or consent of the instructor.

555 Advanced Topics in Toxicology 3 hours. An in-depth consideration of bio-transformation, toxicokinetic modeling, biomarkers, and chemical carcinogenesis. The course is based on articles from the primary literature. Molecular through physiological level effects are considered. Prerequisite(s): Grade of B or better in CHEM 455; or consent of the instructor.

556 Risk Assessment in Environmental and Occupational Health 3 hours. Methodologies for utilizing toxicological and epidemiological data to estimate health risks due to exposures to pollutants in environments. Prerequisite(s): CHEM 405 and BSTT 401 and EPID 400; or consent of the instructor.

557 Design and Analysis of Experiments 4 hours. Detailed consideration of the mathematical, statistical, and practical aspects of design and analysis of experiments that are encountered in physicochemical, biological, and engineering investigations. Extensive computer use required. Prerequisite(s): Completion of one course in statistics, working knowledge of at least one statistical software package (SAS, Design Expert, Minitab, etc.), and consent of the instructor. Recommended background: A working knowledge of linear algebra and additional advanced course work in statistics.

558 Industrial Toxicology 2 hours. Clinical toxicology and mechanisms of workplace toxicants: metals, fibers, dusts, and organics. Diagnosis and treatment. Prerequisite(s): CHEM 400 and CHEM 457.

564 Geographic Information System Application in Public Health 3 hours. Examination of GIS applications in public health and the process of designing a GIS-based public health investigation. Same as HPA 564. This is an online course. Prerequisite(s): BSTT 400 and HPA 405 and consent of the instructor.

565 Datamining Applications in Public Health 3 hours. Presents the key public health information system sources, describes the process of datamining, and introduces the student to a sample of datamining techniques. Same as HPA 565. Extensive computer use required. Prerequisite(s): BSTT 400.

570 Hazardous Materials Management 3 hours. Definition and application of methods for managing hazardous materials: site health and safety plans; development; remediation technique evaluations; incinerator design; computerized hazard response program applications. Prerequisite(s): CHEM 405 and CHEM 421 and CHEM 428; or consent of instructor.

572 Environmental Risk Assessment and Management 4 hours. Risk assessment from a public health, quantitative, and environmental risk management perspective.
584 Radiation Protection 3 hours. Radioactivity, energetics, kinetics, interactions, external protection, dosimetry, recommendations and standards, measurement, radon. 
Prerequisite(s): EHOS 405 or consent of the instructor.

594 Advanced Special Topics in Environmental Health 1 TO 4 hours. Environmental/occupational topics of current importance to public health: pollution, industrial hygiene, and related topics. Variable course content arranged with consent of the instructor. 
Recommended background: EHOS 400 and EPID 410.

597 Advanced Laboratory Projects in Environmental Health 1 TO 4 hours. Application and integration of sampling and measurement techniques for characterization of inside and ambient environments. Individuals or groups supervised by EHOS faculty members. 
Prerequisite(s): Consent of the instructor.

**Epidemiology (EPID)**

400 Principles of Epidemiology 3 hours. Introduction to descriptive and analytic epidemiology, determinants of health and disease in populations, and application of epidemiologic methods to disease control; includes use of basic epidemiologic software. 
Prerequisite(s): EHOS 405 or consent of instructor.

403 Introduction to Epidemiology: Principles and Methods 3 hours. Introduction to descriptive and analytic epidemiology, and determinants of health and disease in populations. Measures of occurrence, association, and statistical testing will be addressed, along with study designs, bias, and confounding. 
Prerequisite(s): Credit or concurrent registration in BSTT 400 and graduate or professional standing; or consent of the instructor.

404 Intermediate Epidemiologic Methods 4 hours. Introduction to multivariable methods in epidemiology, including stratified analysis and regression modeling. Students will use statistical software to analyze data from epidemiologic studies. 
Prerequisite(s): EPID 403 and EPID 406; or credit or concurrent registration in BSTT 404 and graduate or professional standing; or consent of the instructor.

405 Human Growth and Nutrition 3 hours. Worldwide variation in human growth and the factors that contribute to differences between populations and individuals in the timing and pattern of growth and development. 
Same as ANTH 405.

406 Epidemiologic Computing 3 hours. Hands-on course for students using SAS and other computer tools for epidemiologic analysis. Addresses theoretical and practical issues in statistical programming for epidemiology students. 
Prerequisite(s): BSTT 400 and EPID 406; or BSTT 405 and EPID 403; or consent of the instructor.

408 Biological, Chemical, Explosives, and Nuclear Weapons as Public Health Threats 3 hours. Preparation, understanding of threats, and rescue and response issues pertaining to potential terrorist incidents from a public health perspective. 
Same as EHOS 408. 
Prerequisite(s): Graduate or professional standing; or consent of the instructor. 
Recommended background: EHOS 400 and EPID 410.

Prerequisite(s): EPID 400 or consent of the instructor.

410 Epidemiology of Infectious Diseases 2 hours. Epidemiology of selected infectious diseases, including incidence, prevalence, and control of disease. Epidemic investigation is emphasized. 
Prerequisite(s): Credit or concurrent registration in EPID 400; or credit or concurrent registration in EPID 403.

411 Epidemiology of Chronic Diseases 3 hours. Selected topics in chronic diseases with critical analysis of current epidemiologic literature. 
Prerequisite(s): EPID 400 or consent of the instructor.

412 Introduction to Psychosocial Epidemiology 2 hours. Reviews landmark studies of psychosocial and psychiatric disorders in U.S. communities; evaluates research methodology, case definition, identification, and empirical findings. 
Prerequisite(s): EPID 400 or consent of instructor.

426 Pharmacoepidemiology 2 hours. Reviews processes of ethical drug development. Epi methodologies for drug evaluation are presented, giving students opportunity to critically appraise efficacy and safety of clinical data. 
Prerequisite(s): EPID 400 or consent of instructor.

428 Epidemiology of Violence 2 hours. Reviews public health aspects of violence-related mortality and morbidity; examines existing data bases and conceptual frameworks focusing on etiology, epidemiology, surveillance, and prevention. 
Prerequisite(s): EPID 400 or consent of the instructor.

471 Population 3 OR 4 hours. The measurement and study of major trends and differentials in fertility, mortality, migration, growth, and compositional characteristics of the United States and other nations. 
Same as SOC 471. 3 undergraduate hours. 4 graduate hours. 
Prerequisite(s): 6 hours of upper-division sociology, including SOC 201, or consent of the instructor.

494 Introductory Special Topics in Epidemiology 1 TO 4 hours. Special topics in substantive areas of epidemiology (including infectious disease, chronic disease, environmental/occupational, social). Course content will vary with each offering. May be repeated. Students may register in more than one section per term. 
Prerequisite(s): EPID 400 or EPID 403 or consent of instructor; and graduate or professional standing.

501 Advanced Quantitative Methods in Epidemiology 3 hours. Advanced quantitative methods used in the analysis of case-control and cohort studies, including computer applications. 
Prerequisite(s): EPID 401 and BSTT 401; or consent of the instructor.

510 Advanced Epidemiology of Infectious Diseases 2 hours. Controversies regarding the etiology, transmission, and prevention of selected infectious diseases. 
Prerequisite(s): EPID 410 or consent of instructor.

513 Epidemiology of Aging 2 hours. Current methodologic and public health issues in the epidemiology of aging will be explored. 
Prerequisite(s): EPID 401 or EPID 411; and consent of the instructor.

515 Cancer Epidemiology 3 hours. Critical review of topics and issues relevant to cancer epidemiology to promote synthesis of current knowledge and awareness of research issues.
516 Advanced Cancer Epidemiology 2 hours. Critical review of the epidemiology of selected cancer sites to promote synthesis of knowledge, awareness of methodologic issues, and stimulate future research. Prerequisite(s): EPID 501 and EPID 515; or consent of the instructor. Recommended background: EPID 520.

517 Epidemiology of Cardiovascular Diseases 2 hours. Epidemiology and risk factors of cardiovascular diseases. Prerequisite(s): EPID 411 or consent of instructor.

518 The Epidemiology of Pediatric Diseases 3 hours. Familiarizes the student with issues unique to research on children. Lecture topics include epidemiology of childhood diseases, important research studies, and methodologic problems specific to studying children. Prerequisite(s): EPID 401 and BSTT 401; or consent of instructor.

519 Research Protocol and Grant Development 1 hour. A review of funding options and examples of developing fundable research proposals. Satisfactory/Unsatisfactory grading only. Prerequisite(s): EPID 401.

520 Genetics in Epidemiology 2 hours. Topics in genetic/molecular epidemiology, including genetics, population genetics, molecular biology, and molecular genetics. Familiarizes students with laboratory/statistical concepts and applications in epidemiological studies. Prerequisite(s): EPID 401 or consent of instructor.

548 Readings in Reproductive and Perinatal Epidemiology 2 hours. Advanced seminar in reproductive/perinatal epidemiology with particular emphasis on methodologic issues. Same as CHSC 548. Prerequisite(s): CHSC 441 and EPID 404 or consent of the instructor. Recommended background: Maternal and child health and epidemiology.

549 Advanced Applied Methods in MCH Epidemiology 3 hours. Gives conceptual and technical understanding of statistical and epidemiological methods, builds skills/proficiency in applying these. Attention is given to data handling tasks and to statistical/epidemiologic strategies for analysis and presentation. Same as CHSC 549. Prerequisite(s): EPID 402 or EPID 404; and BSTT 401 and EPID 460; or consent of the instructor. Recommended background: Credit or concurrent registration in EPID 501.

554 Occupational and Environmental Epidemiology 2 hours. Methods and issues of environmental epidemiology: outbreak, cluster analysis, cross-sectional, case-control, cohort, ecological, and time series designs; contemporary issues: cancer and reproductive hazards. Same as EHHS 554. Prerequisite(s): EPID 401 and BSTT 401 and EHHS 400; or consent of the instructor.

591 Current Epidemiologic Literature 2 hours. Student presentation of recently published scientific papers of epidemiologic interest to promote breadth of knowledge and critical examination of evidence. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): EPID 401 or EPID 403 or consent of instructor.

594 Advanced Special Topics in Epidemiology 1 TO 4 hours. Advanced special topics in substantive areas of epidemiology (including infectious disease, chronic disease, environmental/occupational, social, methods, etc). Course content will vary with each offering. May be repeated. Students may register in more than one section per term.

595 Epidemiology Research Seminar 1 hour. Current developments in theory and application of biostatistics and epidemiology with presentations by faculty and visiting scientists. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Credit or concurrent registration in EPID 400 or EPID 403 or consent of the instructor.

596 Finance (FIN) 412 Portfolio Management 3 hours. Development of portfolio theory; establishment of portfolio objectives for individuals, corporations, banks, pension, and mutual funds; evaluation of portfolio performance. Prerequisite(s): FIN 510.

415 Fixed Income Securities 3 hours. Valuation of fixed income securities, term structure estimation, and arbitrage trading with practical application using real data. Prerequisite(s): FIN 310.

416 Options and Futures Markets 3 hours. History and institutional structure of options and futures markets. Uses of futures and options for arbitrage, speculation, and hedging by managers of domestic and multinational organizations. Analysis of factors which determine futures and options prices. Prerequisite(s): FIN 310.

430 Introduction to Money and Banking 3 hours. Payment and banking systems; credit and market risk management; the Federal Reserve System; globalization of monetary, banking, and regulatory systems. Prerequisite(s): FIN 300.

431 Theory and Structure of Financial Markets 3 hours. The distribution of saving and credit over time and risk categories. The financial services industry. Administration and regulation of global money, security, and derivatives markets. Prerequisite(s): FIN 300.

442 International Finance 3 hours. Financial management within an international context. International monetary system and financial markets, management of foreign investments, working capital management, exchange risks, taxation, and earning reports. Prerequisite(s): FIN 300 and FIN 310.

444 Small Business Finance 3 hours. Aspects of acquiring funds for small business enterprises. Topics include the trade-off of liquidity and profitability, management of working capital, and capitalization. Prerequisite(s): FIN 300.

465 Property and Liability Insurance 3 OR 4 hours. Using property and liability insurance to manage risk. Topics may include fire, marine, consequential loss, crime, title, automobile, and workers’ compensation insurance. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): FIN 300; or consent of the instructor.

466 Life and Health Insurance 3 OR 4 hours. Types, uses, and evaluation of life and health insurance. Economics of the industry. Regulation and taxation. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): FIN 300; or consent of the instructor.

472 Real Estate Finance 3 OR 4 hours. Finance principles applied to real estate; financing of residential and income-producing real estate; real estate development finance; secondary mortgage market; taxation and real estate finance. Same as ECON 472. 3 undergraduate hours. 4 graduate hours. May not be used to satisfy the economics credit requirement for the MA in Economics and PhD in Economics. Elective credit only will be applied toward these degrees. Prerequisite(s): ECON 218 or ECON 220.

473 Introduction to Risk Management 3 hours. Introduction to risk management. Loan and credit management; credit scoring. Risk measurements and reserves; banking and insurance capital requirements, the BASEL accord, tail events, and catastrophic event insurance. Financial contracts and hedging. Same as IDS 473. Prerequisite(s): FIN 300 and IDS 371.
Special Topics in Finance
1 TO 4 hours. An intensive study of a selected topic in finance. Topics vary by sections and term. 1 to 3 undergraduate hours. 2 to 4 graduate hours. May be repeated if topics vary. Students may register for more than one section per term. May be repeated to a maximum of 6 hours for undergraduates; may be repeated to a maximum of 8 hours for graduate students. Prerequisite(s): Consent of the instructor.

Competitive Strategy
4 hours. Multidisciplinary analysis of organization strategy and policy using case method and/or business simulation. Assignments involve extensive library research as well as oral and written reports. Prerequisite(s): Senior standing in the College of Business Administration and completion of all other CBA core courses, or consent of the instructor.

Introduction to Corporate Finance
4 hours. Theory of corporate finance: goal of the firm, time value of money, investment decisions (under certainty and uncertainty), net present value, capital markets, and corporate financing decisions. Prerequisite(s): ACTG 500 and credit or concurrent registration in ECON 520 and admission to the MBA program, the MBA in Real Estate program, the Master of Health Administration program, or approval of the director of graduate studies.

Investments
4 hours. Theory and practice of investment analysis. Topics included are the institutional organization of security markets, and fundamental principles of asset valuation with application to specific securities. Prerequisite(s): FIN 500.

Portfolio Analysis
4 hours. Development of portfolio theory; establishment of portfolio objectives; evaluation of portfolio performance; investment objectives for individuals, corporations, banks, pension and mutual funds, and their integration with economic environment. Prerequisite(s): FIN 510.

Theory and Structure of Options and Futures Markets
4 hours. History and institutional structure of options and futures markets. Uses of futures and options for arbitrage, speculation, and hedging by financial and portfolio managers of domestic and multinational organizations. Analysis of factors which determine futures and options prices. Prerequisite(s): FIN 510.

Corporate Finance
4 hours. Advanced topics in corporate finance including capital structure, dividend policy, financial restructuring, bankruptcy, and leasing. Emphasis on recent developments in corporate finance and financial economics. Prerequisite(s): FIN 500.

Money and Banking
4 hours. The functions of money, monetary standards, development and operation of commercial banking and the Federal Reserve System. Theories of the supply and demand for money; effects of monetary changes on economic activity, interest rates, and income. Prerequisite(s): FIN 500.

Capital Markets

International Finance
4 hours. Financial management within an international context. International monetary system, exchange rates, foreign investments, working capital management, financing trade, taxation, and earnings reports. Prerequisite(s): FIN 510.

Entrepreneurial and New Venture Financing
4 hours. The financing of new business. Estimating cash needs and then determining sources to finance them. This course is designed for those wanting to start their own business. Prerequisite(s): FIN 500.

Financial Decision Making
4 hours. First foundation course for the study of modern financial economics. Two-period individual consumption and portfolio decisions under uncertainty and their implications for the valuation of securities. Prerequisite(s): Consent of the instructor.

Empirical Issues in Finance
4 hours. The methodology used in analyses of market efficiency, asset pricing, and capital allocation. Prerequisite(s): FIN 500 and consent of the instructor.

Risk Management
4 hours. Introduction to risk management. Risk measurements and reserves, banking and insurance capital requirements, the BASEL accord, tail events, catastrophic event insurance, reinsurance. Financial contracts and hedging. Same as IDS 573. Prerequisite(s): Credit or concurrent registration in IDS 570 and FIN 500.

Special Topics in Finance
1 TO 4 hours. An intensive study of a selected topic in finance. Topics vary by sections and by term. May be repeated to a maximum of 12 hours if topics vary. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

Independent Study in Finance
1 TO 4 hours. Independent study under the direction of a faculty member. Must be arranged before the start of the semester. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of department head or instructor.

PhD Thesis Research
0 TO 16 hours. Independent research on topic approved for doctoral dissertation under supervision of faculty adviser. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

French for Graduate Students
4 hours. Grammar, vocabulary, general and specialized reading practice; for graduate students wishing to fulfill French reading requirements for the PhD. Credit may not be applied toward a graduate degree. Taught in English. Prerequisite(s): Graduate standing and consent of the instructor. Recommended background: Some prior experience with elementary French.

French Feminist and Gender Theory
3 OR 4 hours. An introduction to French theories of gender, including feminisms influenced by Lacanian psychoanalysis, political philosophy, and multicultural studies. Same as GWS 413. 3 undergraduate hours. 4 graduate hours. May be used for credit in the French major only with consent of the director of undergraduate studies. Taught in English. Students who intend to use French 413 toward the major in French must complete assignments in French. Prerequisite(s): FR 301 or FR 502; or consent of the instructor.

French Literature of the Middle Ages
3 OR 4 hours. Introduction to major medieval genres (epic, romance, lyric, theater, allegory), works and authors, such as le Chanson de Roland, Tristan, Chrétien de Troyes, Marie de France, Villon. 3 undergraduate hours. 4 graduate hours. May be repeated up to 2 times. Prerequisite(s): FR 301 or consent of the instructor.

Topics in Sixteenth-Century French Literature
3 OR 4 hours. Intensive analysis of Renaissance literature (Rabelais, Montaigne, Marguerite de Navarra, poetry of the Pleiade, etc.) in the cultural context of Humanism and the Reformation. 3 undergraduate hours. 4 graduate hours. May be repeated up to 2 times. Prerequisite(s): FR 301 or consent of the instructor.
433 Advanced Oral and Written French 3 OR 4 hours. Exercises in French pronunciation; oral interpretation of different texts (familiar style and formal discourse); discussion of newspapers, magazine articles; practice in critical writing. 3 undergraduate hours. 4 graduate hours. May be repeated up to 2 times. Prerequisite(s): FR 301 or consent of the instructor.

440 Topics in French and Francophone Cinema 3 OR 4 hours. This course will examine a selection of French and Francophone films chosen around a period, theme, or genre. Topics will vary. 3 undergraduate hours. 4 graduate hour. May be used for credit in the French major only with consent of the director of undergraduate studies. Taught in English. Students who intend to use French 440 toward the major in French must complete assignments in French. Prerequisite(s): FR 301 or FR 302; or consent of the instructor.

446 French Civilization I: Medieval and Renaissance 3 OR 4 hours. Interdisciplinary approach to French civilization of the Middle Ages and the Renaissance, including history, literature, the beaux-arts, and philosophy. 3 undergraduate hours. 4 graduate hours. Lectures and discussion in French. Prerequisite(s): FR 302 or consent of the instructor.

502 Theoretical and Research Foundations of Communicative Language Teaching 4 hours. Introduces students to contemporary theory and research on second language acquisition. Emphasis is on understanding the research and examining classroom practice. Same as SPAN 502. Credit is not given for FR 502/SPAN 502 if the student has credit for SPAN 450 or FR 450 or GER 407. Taught in English. Prerequisite(s): Appointment as a teaching assistant. For students outside the department: consent of the instructor.

601 Educational Practice with Seminar I 6 hours. The second half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Graduate credit only with approval of the department. Prerequisite(s): Good academic standing in a teacher education program, completion of 100-clock hours of pre-student-teaching field experiences, and approval of the department.
planners, policy makers, and critics. Same as ARCH 412. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Advanced undergraduate or graduate standing, or consent of the instructor.

439 Gender and Cultural Production 3 OR 4 hours. Issues of gender representation and gender politics examined through the use of theoretical texts or through the study of women authors. Same as GER 439. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time if topics vary. Taught in English. Students who intend to use GER 439/GWS 439 toward a degree offered by the Department of Germanic Studies will do assignments in German. Area: Literature/Culture. Prerequisite(s): GER 212 or consent of the instructor.

441 Introduction to Maternal and Child Health 3 hours. Title V maternal and child health programs; concepts of delivery risks by age; effective interventions and public sector organizations for delivery of MCH services. Same as CHSC 441. Prerequisite(s): Consent of the instructor. Recommended background: Some knowledge of maternal and child health issues.

443 Topics in Gender, Sexuality, and Literature 3 OR 4 hours. Specific study of topics in gender and literature. Content varies. Same as ENGL 443. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time. Prerequisite(s): ENGL 362 or ENGL 363 or GWS 102; and senior standing or above; or consent of the instructor.

444 Topics in Theories of Gender and Sexuality 3 OR 4 hours. Advanced study of topics related to theories of gender and sexuality. Same as ENGL 444. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time. Prerequisite(s): ENGL 361 or ENGL 362 or ENGL 363 or GWS 101 or GWS 102; and senior standing or above; or consent of the instructor.

450 Women and Mental Health Nursing 3 hours. Theories of female psychology; women’s daily lives and mental health; gender differences in mental illness; strategies for improving women’s mental health. Same as NUSC 450 and NUWH 450. Prerequisite(s): Consent of the instructor. Students enrolled in the College of Liberal Arts and Sciences must have credit in PSCH 100 and either PSCH 270 or PSCH 315 or GWS 315.

469 Women’s Literary Traditions 3 OR 4 hours. An exploration of issues such as the female aesthetic, women’s popular literature, factors that enable creativity, and differences of race and class. Same as ENGL 469. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ENGL 361 or ENGL 362 or ENGL 363; and senior standing or above; or consent of instructor.

470 Reading Black Women Writing 3 OR 4 hours. Examines inscriptions of race, gender, class, and sexuality as they shape the literary and critical practices of nineteenth- and twentieth-century black women writers. Same as AAST 470 and ENGL 480. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): AAST 350 or AAST 351 or AAST 355 or AAST 357 or AAST 360, or ENGL 355 or ENGL 357 or ENGL 355 or ENGL 361 or ENGL 363; or consent of the instructor.

472 Women and Film 3 OR 4 hours. Roles and representations of women in classical Hollywood, European art, and independent feminist cinemas. Same as AH 434 and ENGL 472. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ENGL 302 or ENGL 342 or ENGL 361 or ENGL 362 or ENGL 363, and senior standing or above; or consent of instructor.

478 Women in Chinese History 3 OR 4 hours. Focuses on scholarship on women in Chinese society throughout history, dealing with topics such as marriage and family, literacy, career options, women in revolution, and the historiography of the field. Same as AAST 478 and HST 478. 3 undergraduate hours. 4 graduate hours. Recommended background: Previous course work in Chinese history or women’s studies.

484 Topics in the History of Women 3 OR 4 hours. Specific topics are announced each term. Same as HST 484. 3 under-
graduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of history or gender and women's studies or consent of the instructor.

485 Gender and Politics 3 OR 4 hours. Impact of gender on basic categories of Western political thought. Distinctions between reason and emotion, public and private, among others, examined from feminist perspective. Same as POLS 485. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): POLS 100 and one 200-level course in political theory or consent of the instructor.

490 Advanced Topics in the Study of Sexuality 3 OR 4 hours. Special study at an advanced level of a topic concerning sexuality. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of gender and women's studies, or consent of the instructor.

494 Advanced Topics in Gender and Women's Studies 3 OR 4 hours. Specialized study of a problem, topic, or issue relevant to the interdisciplinary area of gender and women's studies at the advanced level. Content varies. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of gender and women's studies, or consent of the instructor.

515 Psychology of Women and Gender 3 hours. Critical examination of psychological theories and research on women and gender, including biological, psychoanalytic, socialization, power, and social constructionist perspectives. Same as PSCH 515. Prerequisite(s): Graduate standing in psychology; or PSCH 315 or GWS 315, and consent of the instructor.

525 Social Work with Women 3 hours. Research, policy, and practice approaches to working with women in diverse urban settings; empowerment and diversity perspectives. Same as SOCW 525. Prerequisite(s): SOCW 410; or consent of the instructor.

540 Language and Gender 4 hours. Examination of sociolinguistic research and theories on the interrelationships between language and gender, including gender categories in linguistic systems, gender differences in language use, interaction, and cross-cultural comparisons. Same as LNG 540.

547 Race, Class, and Gender Dimensions of Crime and Justice 4 hours. Theories addressing the intersections of race, class, gender, crime, and justice. Specifically, students examine criminological theories, social construction of race, class, and gender, legal decision making, and implications of this for justice in our society. Same as CRJ 547.

583 Women in Education 4 hours. An overview of girl's and women's educational experiences and placement within the academic structure (as students, professionals, and intellectuals). The impact of gender on the realization of educational, economic, and social opportunities. Same as PS 583. Prerequisite(s): Consent of the instructor or enrollment in the PhD in Policy Studies in Urban Education program.

594 Special Topics in Gender and Women's Studies 1 TO 4 hours. Study of a problem, topic, or issue relevant to the interdisciplinary area of gender and women's studies. Content varies. May be repeated to a maximum of 12 hours. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor or one course in gender and women's studies.

596 Independent Study 1 TO 4 hours. Topics and plan of study must be approved by the instructor. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

Geography (GEOG)

401 Topics in Regional Geography 3 OR 4 hours. Geographical analysis of cultural and environmental systems of a political, economic, or climatic region of the world as defined by the instructor. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 6 hours. Prerequisite(s): One upper-division course in each of the areas of skills, systematic and regional/urban geography.

418 Ethnographic and Qualitative Research Methods 3 OR 4 hours. Practical introduction to the techniques of social scientists for research in natural social settings: participant observation/nonparticipant observation, interviewing, use of documentary sources, etc. Same as ANTH 418. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Junior standing or above.

425 Field Techniques in Archaeology 4 hours. Exposure to field methods in archaeology through participation in an actual research project. Students are instructed in field excavation techniques. Usually offered in summer session. Same as ANTH 425. May be repeated to a maximum of 6 hours. Prerequisite(s): ANTH 102 or consent of the instructor. Recommended: Concurrent registration in ANTH 426 or GEOG 426.

426 Laboratory Techniques in Archaeology 4 hours. Exposes students to laboratory methods in archaeology through the analysis of excavated materials. Students are instructed in laboratory techniques. Same as ANTH 426. May be repeated to a maximum of 8 hours. Prerequisite(s): ANTH 102 or consent of the instructor. Recommended: Concurrent registration in ANTH 425 or GEOG 425.

429 Archaeological Methods 3 OR 4 hours. This course will familiarize students with various methodologies used by archaeologists and geo-archaeologists. Course will concentrate on a different method each time it is taught. Same as ANTH 429. 3 undergraduate hours. 4 graduate hours. May be repeated up to 2 times. Students may register for more than one section per term.

431 Advanced Landform Geography 3 OR 4 hours. Genesis of surficial landforms and processes that sculpt them. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): GEOG 131 or GEOL 101 or consent of the instructor.

432 Geomorphology and Archaeology 3 OR 4 hours. Relevance of geomorphic processes and landform development to archaeology; role of geomorphology in archaeological surveys, paleogeographic reconstruction, and archaeological interpretation. Elements of geoarchaeology. Same as ANTH 421. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): GEOG 131 or EAES 101 or consent of the instructor.

441 Topics in Resource Management and Policy 3 OR 4 hours. Selected topics dealing with environmental problems at local, regional, or global levels. Topics vary. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 6 hours. Prerequisite(s): GEOG 341 or GEOG 361 or consent of the instructor.

442 Environmental Hazards and Risks 3 OR 4 hours. Environmental risks of natural and technological hazards; causes and consequences to people; social theories of risks; coping mechanisms used to reduce risk. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): GEOG 251 or GEOG 441 or consent of the instructor.
444 Management of Solid and Hazardous Wastes 3 hours. Management of solid and hazardous waste, including radioactive waste, landfills, incineration, recycling, composting, source reduction, groundwater and air pollution impacts, control, regulations, siting, health impacts. Same as CME 423 and ECHS 472.

453 Seminar in Cultural Ecology 3 OR 4 hours. Cultural ecology and cultural evolution, emphasizing peasant farming and other subsistence systems. Soil management under shifting and sedentary agriculture. Same as ANTH 453. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ANTH 101 or GEOG 101 or consent of the instructor.

455 Quantitative Methods 3 OR 4 hours. Introductory statistics course in statistical methods for anthropological problem solving. Primary emphasis is on univariate and bivariate statistics, such as means, standard deviations, correlation, chi square, t-tests, and simple regressions. Same as ANTH 455. 3 undergraduate hours. 4 graduate hours. Extensive computer use required. Prerequisite(s): Junior standing or above, and consent of the instructor.

461 Location and Land Use 3 OR 4 hours. Environmental, demographic, and institutional influences on land availability/use at global/local scales; geographies of production/use intensity; market/governmental controls over land/uses. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): GEOG 361 or consent of the instructor.

464 Geographic Modeling of Transportation Systems 3 OR 4 hours. Discussions of the principles of spatial interaction, emphasizing passenger movements, commodity flows, the practicality of network analysis, and the impact of transportation facilities on land use and regional development. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): GEOG 100 and GEOG 161.

470 Educational Practice with Seminar I 4 hours. The first half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Graduate credit only with approval of the department. Prerequisite(s): Good academic standing in a teacher education program, completion of 100-clock hours of pre-student-teaching field experiences, and approval of the department.

471 Educational Practice with Seminar II 6 hours. The second half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Graduate credit only with approval of the department. Prerequisite(s): Good academic standing in a teacher education program, completion of 100-clock hours of pre-student-teaching field experiences, credit or concurrent registration in GEOG 470, and approval of the department.

475 Thematic Cartography 4 hours. Discussion and projects involving representation of real-world areal patterns; preservation of geodetic, locational, and informational relationships; information generalization and reconstruction; computer software and programs for computer-assisted cartography. Prerequisite(s): GEOG 276 or GEOG 276 or consent of the instructor.

477 Remote Sensing of the Environment 4 hours. Principles and practices of processing and interpretation of remotely sensed imagery including aerial photographs, radar, and multispectral satellite images. Hands-on use of image-processing software. Same as ANTH 477. Extensive computer use required.

478 Mapping with Microcomputers 4 hours. Microcomputer applications including computer principles for mapping, alternative design for coordinate files, kinds of devices for mapping, direct control of devices for mapping, characteristics and limitations of mapping programs. Same as ANTH 484. Prerequisite(s): GEOG 475 or consent of the instructor.

481 Geographic Information Systems I 4 hours. Components and performance properties of geographic information systems. Geographic hierarchies and data structures. Problems and solutions in handling large geographic files. Geocoding. Same as ANTH 481. Prerequisite(s): GEOG 100 and one from GEOG 278, GEOG 386, IDS 100; or consent of the instructor.

482 Geographic Information Systems II 4 hours. Application of raster- or grid-based geographic information systems to the spatial analysis of landscapes. Same as ANTH 482.

483 Geographic Information Systems III 4 hours. Problems encountered in the analysis and portrayal of geographic data. Topics include taxonomic, regionalization, trend surface analysis, time series, Markov probabilities, and computer cartographic procedures for displaying output from analytic procedures. Same as ANTH 483. Prerequisite(s): GEOG 482 or ANTH 482 or consent of the instructor.

484 Qualitative Methods in Geographic Research 3 OR 4 hours. Use of qualitative methods in geographic research. Research design choices, data collection and analysis, and writing. Applications in environmental and urban geography. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): GEOG 481 or Geography major or minor or consent of instructor.

485 Computer Cartography 4 hours. The fundamentals of cartography and cartographic design. The use of state-of-the-art, Windows-based computer mapping software for querying and displaying cartographic data contained in GIS databases. Same as ANTH 485.

486 Analysis of Geographic Patterns 4 hours. Analytical methods for evaluating arrangements of points, lines, and subareas across regions. Development of noncentral measures of spatial association as an alternative to correlation analysis. Prerequisite(s): GEOG 482 or consent of the instructor.

491 History and Philosophy of Geography 3 OR 4 hours. The philosophy of geography; its theory and research techniques. Analysis of bibliographic sources; criticism of papers on assigned topics. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Declared major or minor in Geography; or consent of the instructor.

496 Internship 1 TO 4 hours. Professional field experience with an agency or organization in the private or public sector on projects related to the student's area of specialization. Same as ANTH 496. May be repeated to a maximum of 8 hours. Only 4 hours of credit may be applied toward the Minor in Geography. Prerequisite(s): Declared major in Anthropology, minor in Geography, or full graduate standing in Anthropology or Geography and consent of the faculty adviser, head of the department, or the director of internship programs.

505 Seminar on the Geography of Colonialism and Neocolonialism 3 hours. Colonialism: historical, political, and development geographies. Colonialism in the evolution of Europe and the Third World. Anti-colonial liberation movements. Theories of neocolonialism, under-development, dependency. May be repeated to a maximum of 6 hours. Prerequisite(s): GEOG 353 or GEOG 401 or consent of the instructor.

510 Seminar in Social Organization 4 hours. Theoretical and substantive issues about how societies are organized. Same as ANTH 510. May be repeated to a maximum of 12 hours.

511 Topics in Urban Geography 3 hours. Critical analysis of selected theories, methods, and problems of urban and settlement geography. May be repeated to a maximum of 9 hours. Prerequisite(s): One 400-level course in urban, economic, or transportation geography.

530 Seminar in Physical Geography 3 hours. General topic to be defined by instructor, specific approved topic to be defined, researched, and discussed by student. May be...
repeated to a maximum of 6 hours. Prerequisite(s): GEOG 421 or GEOG 431 or consent of the instructor.

541 Seminar on Resource Management and Policy 3 hours.
Social policy issues in the resolution of resource management conflicts. Topics will vary. May be repeated to a maximum of 6 hours. Prerequisite(s): GEOG 441 or GEOG 461 or consent of the instructor.

551 Research Seminar on the Ecology of Mapping Behavior 4 hours.
Mapping behavior examined cross-culturally, historically, and developmentally. Ecological functions of mapping in macrospatial behavior. Prerequisite(s): Consent of the instructor.

575 Seminar in Cartography 3 hours.
Review of recent developments in computer mapping and identification of mapping needs. Research on conceptual and program solutions to computer mapping problems. May be repeated to a maximum of 6 hours. Prerequisite(s): GEOG 475 and GEOG 481; or consent of the instructor.

589 Geographic Information Systems for Planning 4 hours.
Applications of Geographic Information Systems to urban planning and policy making. Same as UPP 508. Prerequisite(s): Graduate standing in Urban Planning and Policy or consent of the instructor.

592 Research Proposal Design 1 hour.
Research techniques, including problem definition, literature search, and methodological design. Prerequisite(s): GEOG 595.

595 Departmental Seminar 3 hours.
Review of contemporary geographic theory in academic research and professional practice. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Graduate standing in Geography.

596 Independent Study 1 TO 4 hours.
Independent research on an approved topic not related to thesis preparation. May be repeated to a maximum of 6 hours. Students may register in more than one section per term. Prerequisite(s): Consent of faculty adviser and the instructor.

598 Master’s Thesis Research 0 TO 16 hours.
Independent research on a topic approved for a graduate thesis. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 16 hours. Prerequisite(s): Consent of thesis research adviser.

Germanic Studies (GER)

400 German for Reading Knowledge 3 OR 4 hours.
Preparation for the Graduate Proficiency Exam. Basic components of German grammar, sentence structure, and vocabulary. Selected texts in humanities, social sciences, and natural sciences. 3 undergraduate hours. 4 graduate hours. Credit may not be applied toward a degree or minor offered by the Department of Germanic Studies. Does not satisfy the graduation requirement in foreign languages.

401 Advanced Practice in German Language Skills 3 OR 4 hours.
Communicative use of German techniques for understanding written and spoken texts, practicing conversation, and writing texts such as essays, compositions, letters, and e-mail. 3 undergraduate hours. 4 graduate hours. May be repeated. Only majors and minors outside the Department of Germanic Studies may repeat this course for a maximum of 6 hours of credit. Area language. Prerequisite(s): GER 212 or the equivalent. Recommended background: Credit or concurrent registration in GER 310.

404 Yiddish for Reading Knowledge 3 OR 4 hours.
Preparation for the Graduate Proficiency Exam. Basic components of Yiddish grammar, sentence structure, and vocabulary. Selected texts in the original language will be studied. 3 undergraduate hours. 4 graduate hours. Does not satisfy the graduation requirement in foreign languages. Prerequisite(s): GER 211; or consent of the instructor or graduate standing.

407 Theoretical and Research Foundations of Communicative Language Teaching 3 OR 4 hours.
Focuses on theory and practice of communicative language teaching and explores current approaches of task-based instruction, testing, and media-enhanced instruction. 3 undergraduate hours. 4 graduate hours. Taught in English. Pedagogical examples are in German. Ten hours of high school observation required. Area language. Prerequisite(s): GER 212 or the equivalent.

408 Introduction to Translation Theory 3 OR 4 hours.
The study of translation theory and its application to translating German texts of various types into English. Prerequisite(s): Consent of the instructor.

411 The City as Cultural Focus 3 OR 4 hours.
Intercultural study of urban culture with focus on German-speaking countries. 3 undergraduate hours. 4 graduate hours. May be repeated up to 2 times if topics vary. Taught in English. No knowledge of German required. Prerequisite(s): Consent of the instructor.

420 Germanic Cultural Studies I: Genres 3 OR 4 hours.
Concentration on a genre, with an emphasis on current issues and recent critical approaches to literature. 3 undergraduate hours. 4 graduate hours. May be repeated up to 2 times if topics vary. Area literature. Prerequisite(s): GER 211 or the equivalent or consent of the instructor.

421 Germanic Cultural Studies II: Authors, Movements, Periods 3 OR 4 hours.
Critical analysis of texts in the biographical, social, cultural, and historical context. 3 undergraduate hours. 4 graduate hours. May be repeated up to 2 times if topics vary. Students who intend to use GER 421 toward a degree offered by the Department of Germanic Studies will do assignments in German. Area: literature. Prerequisite(s): GER 212 or consent of the instructor.

422 Germanic Cultural Studies III: Themes 3 OR 4 hours.
Explores themes in German-speaking societies, such as the family, xenophobia, crime, and science, with stress on literary analysis and interpretation. 3 undergraduate hours. 4 graduate hours. May be repeated up to 2 times if topics vary. Students who intend to use GER 422 toward a degree offered by the Department of Germanic Studies will do assignments in German. Area: literature. Prerequisite(s): GER 212 or consent of the instructor.

430 Classical German Philosophy 3 OR 4 hours.
Introduction to German philosophy and intellectual history through the critical analysis of major authors and texts. 3 undergraduate hours. 4 graduate hours. Area: literature. Prerequisite(s): One 300-level course in Germanic Studies or consent of the instructor.

437 Contemporary German Literature 3 OR 4 hours.
Literature of the German-speaking world since World War II, with emphasis on current issues and recent critical approaches to literature. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time if topics vary. Area: literature. Prerequisite(s): GER 211 or the equivalent or graduate standing or consent of the instructor.

438 The Faust Legend 3 OR 4 hours.
Discusses Goethe’s Faust within the context of European and non-European literatures. Traces the origins, significance, and interpretation of the Faust figure. 3 undergraduate hours. 4 graduate hours. Area: literature. Prerequisite(s): GER 212 or the equivalent or graduate standing or consent of the instructor.
439 Gender and Cultural Production 3 OR 4 hours.
Issues of gender representation and gender politics examined through the use of theoretical texts or through the study of women authors. Same as GW 439. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time if topics vary. Taught in English. Students who intend to use GER 439 toward a degree offered by the Department of Germanic Studies will do assignments in German. Area: Literature/culture. Prerequisite(s): GER 212 or consent of the instructor.

448 Foundations of Second Language Teaching 3 OR 4 hours.
Provides an introduction to second language acquisition research and its implications for communicative language teaching. Emphasis is on creating activities to develop high school students’ communicative abilities in speaking and listening. Same as FR 448 and SPAN 448. 3 undergraduate hours. 4 graduate hours. Taught in English. Prerequisite(s): Junior standing or above; and consent of the instructor and three courses at the 200- and 300-levels.

449 Teaching Second Language Literacy and Cultural Awareness 3 OR 4 hours.
Examines the nature of literacy as a reciprocal relationship between readers, writers, texts, and culture. Students learn the practical and theoretical foundations of classroom teaching of second language reading and writing skills. Same as FR 449 and SPAN 449. 3 undergraduate hours. 4 graduate hours. Taught in English. Prerequisite(s): Junior standing or above, and consent of the instructor.

450 Business Operations in German-Speaking Countries 3 OR 4 hours.
The political, cultural, historical, and economic environment in which business operates in the German-speaking countries; the effects of this environment on international business. 3 undergraduate hours. 4 graduate hours. Knowledge of German not required.

461 German Abroad 0 TO 17 hours.
Takes in a German-speaking country. Lectures, seminars, practical work. May be repeated to a maximum of 34 hours. Prerequisite(s): GER 104 or the equivalent, at 2.75 overall grade point average, or a 3.00 grade point average in German Studies, and approval of the department.

470 Exploring the Field of Germanic Studies 3 OR 4 hours.
Team-taught. Research in film studies, gender studies, Jewish culture, minority literatures, intelectual history, applied linguistics in Germanic Studies. Each unit taught by a different faculty member from the Department of Germanic Studies. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Undergraduate students must obtain approval of the department.

480 Hegel Studies 3 OR 4 hours.
Studies in the philosophy of Hegel, including principal texts (e.g., Phenomenology), or problems (e.g., critique of metaphysics), or comparative studies (e.g., Hegel’s critique of Kant). 3 undergraduate hours. 4 graduate hours. May be repeated if topics vary. Taught in English. Area: Literature/culture. Prerequisite(s): GER 430 or consent of the instructor. Recommended background: PHIL 224 or PHIL 425.

492 Internship in International Business 0 TO 12 hours.
Student placement in an international organization or firm in a German-speaking country or its U.S. subsidiary or division. Satisfactory/Unsatisfactory grading only. May be repeated with approval. Approval to repeat course granted by the department. Prerequisite(s): GER 211 and consent of the instructor and a GPA of 2.00. Recommended background: Concurrent registration in GER 493 or registration in GER 493 in the semester immediately following.

493 Internship Seminar: Business 1 TO 4 hours.
Academic component of the internship experience. Studies in the field of the internship. Further investigation of related topics. May be repeated with approval. Approval to repeat course granted by the department. A maximum of 3 hours of credit may be applied toward an undergraduate degree offered by the Department of Germanic Studies, and a maximum of 4 hours of credit may be applied toward a graduate degree offered by the Department of Germanic Studies. Prerequisite(s): GER 211 and credit or concurrent registration in GER 492 and consent of the instructor and a grade point average of 2.00.

494 Educational Practice with Seminar I 6 hours.
The first half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Graduate credit only with approval of the department. Prerequisite(s): Good academic standing in a teacher education program, completion of 100-clock hours of pre-student-teaching field experiences, and approval of the department.

495 Educational Practice with Seminar II 6 hours.
The second half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Graduate credit only with approval of the department. Prerequisite(s): Good academic standing in a teacher education program, completion of 100-clock hours of pre-student-teaching field experiences, credit, or concurrent registration in GER 494, and approval of the department.

513 Germanic Culture from the Enlightenment to the 1848 Revolution 4 hours.
Representative works and authors studied in a cultural context. May be repeated if topics vary.

514 Germanic Culture from the Industrial Revolution to the Present 4 hours.
Representative works and authors are studied in a cultural context. May be repeated if topics vary.

515 Film and Media Culture 4 hours.
Explores the theory and history of film and other visual media. Emphasis will be given to the status of media texts in their cultural contexts, as well as to their function as components of modern social institutions. Taught in English. Students will be asked to watch films outside of class.

531 Seminar in Special Topics 4 hours.
In-depth study of a theme, genre, or other element in Germanic literature and culture not confined to a single historical period. Topics vary. May be repeated to a maximum of 12 hours if topics vary.

572 The Role of Reading in Second Language Acquisition 4 hours.
Analyzes current theoretical and research directions in text comprehension processes as well as reading as a source of input for second language acquisition. Taught in English.

593 Internship Seminar: Academic Training 4 hours.
Training in instruction of literature and culture courses at the college level. Students will be involved in a faculty-taught culture/literature course. Restricted to graduate students in Germanic studies.

596 Independent Study for Graduate Students 1 TO 4 hours.
Independent study in the field of Germanic studies. Prerequisite(s): Consent of the instructor.

598 Master’s Thesis Research 0 TO 16 hours.
Independent research under faculty supervision on a topic approved by the Graduate Program Committee. Satisfactory/Unsatisfactory grading only. May be repeated.
Prerequisite(s): Consent of supervising faculty member and committee approval.

599 PhD Thesis Research 0 TO 16 hours.
Independent research for the PhD. Satisfactory/Unsatisfactory grading only. May be repeated.
Prerequisite(s): Approval of the department and consent of the instructor.
Animals used in instruction. Will acquaint the students with the regulations, sources of information, humane principles, and ethical considerations involving the appropriate use of animals for research and teaching purposes. Satisfactory/Unsatisfactory grading only. Animals used in instruction. Prerequisite(s): GC 470.

Graduate College—Life Sciences (GCLS)

495 Graduate Summer Interdisciplinary Seminar 3 hours. These summer seminars provide unique opportunities for students and faculty to explore new and interdisciplinary fields of inquiry in intense periods of mutual inquiry outside the regular curriculum. Topics vary. May be repeated. Students must check with program director to apply credit toward degree. Prerequisite(s): Graduate standing and consent of the instructor.

501 Biochemistry 3 hours. Fundamental properties of biomacromolecules, the thermodynamics underlying basic biochemical processes and the properties of enzymes, including the kinetics of operation, and regulation, illustrated with important examples. Restricted to students enrolled in a graduate program offered through the Colleges of Medicine or Pharmacy or the departments of Bioengineering or Biological Sciences or consent of the instructor.

502 Molecular Biology 3 hours. Core molecular biology course covering basic principles of gene expression, genome replication, and molecular interactions important to biological processes in prokaryotes and eukaryotes. Restricted to students enrolled in a graduate program offered through the Colleges of Medicine or Pharmacy or the departments of Bioengineering or Biological Sciences or consent of the instructor.

503 Cell Biology and Integrative Physiology 4 hours. Advanced course on fundamental aspects of cell biology; basic concepts will be integrated with key examples of human physiology which span gene, protein, cell, tissue, organ, and whole body function. Credit is not given for GCLS 503 if the student has credit in BCHE 561 or ANAT 585 or IMM 585 or PHVB 585. Restricted to students enrolled in a graduate program offered through the Colleges of Medicine or Pharmacy or the departments of Bioengineering or Biological Sciences or consent of the instructor.

504 Research Methods I 1 to 2 hours. Lectures, demonstrations, and discussions concerned with principles and practical aspects of modern quantitative biochemical, molecular biological, physiological, and biophysical methodology such as separation techniques and studies of biomembranes. May be repeated. Students may register for more than one section per term. Restricted to students enrolled in a graduate program offered through the Colleges of Medicine or Pharmacy or the departments of Bioengineering or Biological Sciences or consent of the instructor.

505 Research Methods II 1 to 3 hours. Lectures, demonstrations, and discussions concerned with principles and practical aspects of modern quantitative biochemical, molecular biological, physiological, and biophysical methodology such as biomaging and biochemical analysis. May be repeated. Students may register for more than one section per term. Restricted to students enrolled in a graduate program offered through the Colleges of Medicine or Pharmacy or the departments of Bioengineering or Biological Sciences or consent of the instructor.

506 GEMS Research Rotation 2 to 5 hours. Research rotation course in which first-year students from the GEMS program will undertake research projects in laboratories affiliated with this program. Satisfactory/Unsatisfactory grading only. May be repeated. Animals used in instruction. Prerequisite(s): Open only to PhD degree students.

510 Integrative Biology 3 hours. Advanced-level, intensive course addressing fundamental topics of developmental biology, immunology, and cancer biology, with concentration on thematic issues that integrate these subjects. Prerequisite(s): GCLS 501 and GCLS 502 and GCLS 503; or demonstrated proficiency of the material covered in these courses. Restricted to students enrolled in a graduate program offered through the Colleges of Medicine or Pharmacy or the departments of Bioengineering or Biological Sciences or consent of the instructor.

511 Molecular Genetics 3 hours. Core molecular genetics course covering classical and molecular principles of microbial and Mendelian genetics. Systems covered include bacteria, bacteriophage, animal viruses, yeast, Drosophila, mouse, and human. Prerequisite(s): GCLS 501 and GCLS 502 and GCLS 503; or demonstrated proficiency of the material covered in these courses. Restricted to students enrolled in a graduate program offered through the Colleges of Medicine or Pharmacy or the departments of Bioengineering or Biological Sciences or consent of the instructor.

515 Receptor Pharmacology and Cell Signaling 3 hours. Advanced course on cell-surface and nuclear receptors and mechanisms of signaling through receptors. Provides an overview of receptor theory, hands-on data analysis, and lectures and discussions on various signaling mechanisms. Credit is not given for GCLS 515 if the student has credit in PCOL 505 or PHYB 505. Prerequisite(s): GCLS 501 or approval of the department. Restricted to students enrolled in a graduate program offered through the Colleges of Medicine or Pharmacy or the departments of Bioengineering or Biological Sciences or consent of the instructor.

594 Special Topics in Life Sciences 1 to 4 hours. Systematic study of advanced selected topics in life sciences from an interdisciplinary approach. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

Health Policy and Administration (HPA)

400 Principles of Management in Public Health 3 hours. A detailed discussion of the conceptual and theoretical foundations to the principles of management with an emphasis on public health and healthcare settings. Prerequisite(s): Enrollment restricted to public health students; other graduate, professional, and advanced undergraduate students admitted by consent as space permits. To obtain consent, see the Registrar.
402 Social Ethics and Public Health 3 hours.
Application of ideas from philosophy, law, political science, and economics to the ethical basis of public health policies and programs.

403 U.S. Healthcare System 3 hours.
Overview of the U.S. healthcare system, including its evolution, utilization patterns, providers—human, institutional, and organizational—financing, regulating, evaluating, and reforming.

405 Leadership in Public Health Practice 3 hours.
Utilizing public health core functions, this course explores leadership style and practice through case studies and techniques which enhance leadership development. Same as CHSC 405. Prerequisite(s): CHSC 400 and consent of the instructor.

410 Health Organizational Leadership 3 hours.
Examines the roles, responsibilities, and impact of leaders of organizations in the health industry. Critical structures and techniques of effective organizational leaders are taught.

417 Quality Management in Health Services 3 hours.
Surveys development of quality management, theoretical bases, and diverse perspectives of quality management and regulation. Presents relevant research and management methodologies.

420 Introduction to Health Services Research 2 hours.
Introduction to health services research using classic studies and current trends which examine access, cost, quality, and organization of healthcare. Prerequisite(s): HPA 400.

430 Introduction to Public Health Policy Analysis 3 hours.
Identifies and discusses health status as a function of public policy; policymaking to improve the public’s health; current health policy topics and methodology.

431 Law and Public Health 3 hours.
Surveys basic concepts and content in major areas of health law; explains the sources of legal authority, and develops familiarity with legal language and thinking.

432 Public Health Advocacy 3 hours.
Examination of the courts, government agencies, legislatures, and public opinion, and an analysis of their decision making; planning an advocacy campaign using “strategic analysis.”

434 Law and the Healthcare System 3 hours.
Survey of legal topics important to the management of healthcare organizations, including relationships among the parties involved in the delivery of healthcare and the law of business organizations. Prerequisite(s): Graduate or professional standing and approval of the department.

437 Healthcare Data 3 hours.
Review of data types in a healthcare information system. How data is transformed into information and then again transformed into knowledge through integrated computer systems. Same as BHS 437. Taught online only. A UIC netid is required. Prerequisite(s): Graduate standing and consent of the instructor.

441 Strategic Management of Healthcare Organizations 4 hours.
Introduction to strategic competitive analysis for healthcare organizations. Topics include healthcare competition, entrepreneurship, technology and innovation, multi-constituent environment, and human resources. Prerequisite(s): Graduate or professional standing and approval of the department.

444 Healthcare Budgeting and Strategic Planning 3 hours.
Budgeting systems in healthcare; budgeting techniques; flexible budgeting, cost behavior and forecasting, revenue and expense analysis; strategic planning in healthcare agencies; continuous quality improvement.

451 Healthcare Finance 3 hours.
Examines practical aspects of finance in healthcare and recent developments in financial management of healthcare organizations, and applications of financial management techniques to specific problems facing healthcare managers. Prerequisite(s): Graduate or professional standing and approval of the department.

460 Introduction to the Economics of Health and Healthcare 2 hours.
Introduces principles of economic analysis, with examples from public health and medical care. Examines how consumers and companies decide what to buy or sell, why markets determine a product’s price, and when public intervention improves welfare.

463 Managerial Health Economics 3 hours.
Uses managerial economics to study healthcare system: demand for medical services; role of health insurance; productivity/cost measurement, labor markets and competition. Prerequisite(s): HPA 400 or consent of the instructor.

465 Health Information and Decision Support Systems 4 hours.
Introduction to computer-assisted management information and decision systems in health organizations: analysis and design of databases; data and information flow; reports; and uses microcomputers. This is an online course.

494 Introductory Special Topics in Health Policy and Administration 1 TO 4 hours.
Survey of key ethical issues involved in conducting research with human subjects, including informed consent, confidentiality, access and equity. Same as MHP 512. Extensive computer use required. Requires completion of an online course in human subjects research, to be supplemented by classroom discussion of the topics raised in that course and others. Prerequisite(s): Approval of the department. Students must be enrolled in the Master of Science in Public Health program.

516 Health Personnel Management 3 hours.
Health personnel policies and programs, human resources requirements, recruitment, development, performance appraisal, salary and wage administration, and management/labor relations in the health industry. Prerequisite(s): HPA 400 and consent of the instructor.

520 Management of Healthcare Communication Systems 4 hours.
Examination and management of data communications in and between healthcare facilities including examination of issues, standards, technologies, and system configurations. Same as BHS 510. Taught online only. A UIC netid is required. Prerequisite(s): HPA 510 or BHS 510; and graduate standing and consent of the instructor.
522 Health Evaluation Methods 4 hours. 
Applies scientific research methods and theory to the evaluation of health interventions. Uses quasi-experimental designs to evaluate program effectiveness. Students design their own studies. Prerequisite(s): BIST 401 and HPA 400 or consent of the instructor.

525 Management of Population Health Risks 3 hours. 
Examines the roles that healthcare delivery organizations can play, and methodologies used, in developing programs specific to the needs of the community they serve. Prerequisite(s): HPA 403 and HPA 410 and HPA 495.

527 Critical Issues in Long-Term Care Policy 3 hours. 
Long-term care organization, financing, delivery utilization and policy, emphasizing affordability, access and quality in a managed care environment. Same as CHSC 527. Prerequisite(s): CHSC 400 and CHSC 425; or consent of the instructor.

531 Health Information Systems Analysis and Design 4 hours. 
A project course applying systems analysis and design theory to healthcare systems evaluation, modeling, and implementation. Same as BHS 520. Taught online only. A UIC netid is required. Prerequisite(s): HPA 510 or HPA 510; and graduate standing and consent of the instructor.

534 Research Design and Grant Writing 2 hours. 
Introduction to the skills necessary to plan a research project and write a research grant proposal using a systematic approach. Same as MHPE 534. Previously listed as MHPE 431. Prerequisite(s): Graduate or professional standing; and approval of the department.

535 Translating Research into Practice 3 hours. 
Current theory and practical reality related to the adoption and use of new scientific findings in patient care. The influence of research on public policy. Same as MHPE 535. Extensive computer use required. Prerequisite(s): Graduate or professional standing; and approval of the department.

540 Social and Organizational Issues in Health Informatics 4 hours. 
Examines the impact of information systems on the healthcare organization and applies theory through case study analysis. Same as BHS 525. Taught online only. A UIC netid is required. Prerequisite(s): HPS 510 or HPA 510; and BHS 515 or BHS 520 or BHS 530 or HPA 520 or HPA 531 or HPA 550; or consent of the instructor.

550 Topics in Health Informatics 4 hours. 
Current theories and methods in health informatics. Same as BHS 530. Taught online only. A UIC netid is required. Prerequisite(s): HPA 510 or BHS 510; and BHS 520 or BHS 515, or HPA 531 or BHS 520, or HPA 540 or BHS 525; and graduate standing and consent of the instructor.

551 Marketing Health Programs 3 hours. 
Concepts of marketing as a management tool/application of marketing to healthcare—the marketing process, marketing resources, and strategies for accomplishing marketing objectives. Prerequisite(s): HPA 400 or MKTG 563 or consent of the instructor.

556 U.S. Mental Health Policy 2 hours. 
Public policies which have supported the U.S. mental health service system from 1946 to the present. Theory, development, and evaluation of mental health policy in the U.S. Prerequisite(s): HPA 400 and HPA 430 and either EPID 400 or BIST 400.

557 Measurement in Health Services Research 3 hours. 
Prerequisite(s): Graduate or professional standing; and approval of the department.

565 Datamining Applications in Public Health 3 hours. 
Examination of GIS applications in Public Health and the process of designing a GIS-based public health investigation. Same as EGIS 564. This is an online course. Prerequisite(s): BIST 400 and HPA 465 and consent of the instructor.

573 Principles of Economic Evaluations of Healthcare Interventions 3 hours. 
Principles, models, and practical methods for the economic evaluation of healthcare services with an emphasis on pharmaceutical care. Same as PMAD 573. Previously listed as PMAD 571. Prerequisite(s): Graduate standing; and consent of the instructor.

590 Grant Writing 1 hour. 
Students will learn how to write a grant application through the guidance of a mentoring committee. They will formulate a research proposal which will be presented to a panel of researchers who will critique the proposed study.

594 Advanced Special Topics in Health Policy and Administration 1 TO 4 hours. 
Advanced topics in health administration, policy analysis, healthcare financing, cost-effectiveness evaluation. Topics vary by semester. Prerequisite(s): Consent of the instructor.

History (HSTL) 451 Oral Pathology 4 hours. 
Comprehensive learning experiences in the structure and function of human tissue, organs, and organ systems with special emphasis on the oral cavity. Registration in HSTL 451 is required in the Spring term. Prerequisite(s): Approval of the department students.

452 Histology II 4 hours. 
Continuation of HSTL 451. Provides a base line of normal structure and function of human tissues necessary for the study of Oral Pathology and advanced courses in Histology. Prerequisite(s): HSTL 451; and approval of the department or first-year standing in the Doctor of Dental Surgery Program.

503 Biology of Mineralized Tissues 2 hours. 
Lectures and discussion on the formation, structure, and functions of bone, dentin, and enamel. Emphasizes the mechanisms of mineralization. Prerequisite(s): A basic course in histology and consent of the instructor.

504 Fine Structure of Oral Soft Tissues 2 hours. 
Discussions of electron microscopic research methodologies as applied to oral biology, with special emphasis on structural-functional relationships in oral soft tissues. Prerequisite(s): HSTL 452 and HSTL 451 or the equivalents and consent of the instructor.

506 Advanced Oral Histology-Lymphoid Tissues 2 hours. 
Lectures and discussions on the structure and functions of lymphoid tissues with special interest in orally-related diseases. Prerequisite(s): HSTL 452, a course in microbiology and consent of the instructor.

507 Physiological Basis of Pathology 2 hours. 
Subject matter allied to general pathology but going deeper into physical chemistry and physiological principles, as set forth in N.R. Joseph’s “Comparative Physical Biology.” Same as PATH 507.

508 Oral Histology 4 hours. 
Provides a base line of normal structure and function of human tissues necessary for the study of Oral Pathology and advanced courses in Histology. Prerequisite(s): HSTL 451; and approval of the department or first-year standing in the Doctor of Dental Surgery Program.
404 Roman Law and the Civil Law Tradition 3 OR 4 hours. Roman law and its relationship to values and social structure; social analysis through law; continental law tradition. Same as CL 404, and CRJ 404. 3 undergraduate hours, 4 graduate hours. Prerequisite(s): CRJ 200 or CL 203 or HIST 203 or consent of the instructor.

406 Topics in Medieval History 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours, 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of history.

409 Topics in Early Modern European History 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours, 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of history.

410 Topics in Modern European History 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours, 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of history.

415 American Indian Ethnohistory 3 OR 4 hours. Introduction to ethnohistory, an interdisciplinary approach to researching, conceptualizing, and writing American Indian history. The course is organized topically and centers on classic and current monographs and articles. Same as NAST 415; 3 undergraduate hours, 4 graduate hours. Prerequisite(s): Junior standing or above and consent of the instructor. Recommended background: Courses in cultural anthropology, American Indian anthropology, American Indian literature.

418 Topics in German History 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours, 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of European history or consent of the instructor.

420 Teaching the Social Sciences 3 OR 4 hours. This course focuses on acquiring and practicing the skills for teaching the social sciences at the secondary level within the context of history. 3 undergraduate hours, 4 graduate hours. Prerequisite(s): 9 hours of credit in the social sciences and approval of the instructor.

421 Topics in British and Irish History 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours, 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 6 hours of history or consent of the instructor.

424 Topics in French History 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours, 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): One 200-level course in French or European history or consent of the instructor.

429 Topics in Italian History 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours, 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of history.

433 Topics in Eastern European History 3 OR 4 hours. Specific topics are announced each term. Same as SLAV 433; 3 undergraduate hours, 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of European history or consent of the instructor.

435 Topics in Russian History 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours, 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of European history or consent of the instructor.

441 Topics in African History 3 OR 4 hours. Specific topics are announced each term. Same as AAST 441; 3 undergraduate hours, 4 graduate hours. May be repeated. Prerequisite(s): 3 hours of African history, African-American studies, or consent of the instructor.

445 History of Islam in the African World 3 OR 4 hours. A comprehensive study of the history of Islam and its role among the people of African descent in sub-Saharan Africa and the United States. Same as AAST 445; 3 undergraduate hours, 4 graduate hours. Prerequisite(s): Consent of the instructor.

451 Topics in Colonial American History 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours, 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of U.S. history or consent of the instructor.

452 Topics in Revolutionary and Early National United States History 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours, 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of history.

453 Topics in Nineteenth-Century United States History 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours, 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of history.

454 Topics in Twentieth-Century United States History 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours, 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of U.S. history or consent of the instructor.

455 Topics in Southern History 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours, 4 graduate hours. May be repeated. Students may register in
more than one section per term. Prerequisite(s): 3 hours of history.

456
Topics in the History of Communications 3 OR 4 hours. This course introduces students to major developments in the history of communications, with a focus on the political and cultural dimension of technologies. Same as COMM 456. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Consent of the instructor. Recommended background: At least one history course at the 100-level.

461
Topics in Latin American History 3 OR 4 hours. Specific topics are announced each term. Same as LALS 461. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of history, Latin American and Latino studies, or consent of the instructor.

472
Issues and Events in Twentieth-Century China 3 OR 4 hours. Covers the events, places, people, political movements, ideologies, and issues that shaped twentieth-century China, and considers different approaches to the writing of that history. Same as ASST 472. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Consent of the instructor. Recommended background: Previous course work in Chinese history or at the 100- or 200-level.

473
Topics in East Asian History 3 OR 4 hours. Specific topics are announced each term. Same as ASST 473. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of East Asian history or consent of the instructor.

475
Educational Practice with Seminar I 6 hours. The first half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Graduate credit only with approval of the department. Prerequisite(s): Good academic standing in a teacher education program, completion of 100-clock hours of pre-student-teaching field experiences, and approval of the department.

476
Educational Practice with Seminar II 6 hours. The second half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Graduate credit only with approval of the department. Prerequisite(s): Good academic standing in a teacher education program, completion of 100-clock hours of pre-student-teaching field experiences, credit or concurrent registration in HST 475, and approval of the department.

477
Topics in Middle Eastern History 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of history.

478
Women in Chinese History 3 OR 4 hours. Focuses on scholarship on women in Chinese society throughout history, dealing with topics such as marriage and family, literacy, career options, women in revolution, and the historiography of the field. Same as ASST 478 and GWS 478. 3 undergraduate hours. 4 graduate hours. Recommended background: Previous course work in Chinese history or women’s studies.

479
Culture and Colonialism in South Asia 3 OR 4 hours. Examines the emergence of colonial cultures of domination and resistance on the Indian subcontinent from the 18th century to 1947. Same as ANTH 479 and ASST 479. 3 undergraduate hours. 4 graduate hours.

480
Topics in Economic History 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of history or consent of the instructor.

481
Topics in Social History 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of history.

482
Topics in Migration History 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of history.

483
Topics in the History of Public Policy 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of history.

484
Topics in the History of Women 3 OR 4 hours. Specific topics are announced each term. Same as GWS 484. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of history.

485
Topics in African-American History 3 OR 4 hours. African-American history for students with significant background in the field. Topics vary. Same as AAST 481. 3 undergraduate hours. 4 graduate hours. May be repeated if topics vary. Students may register in more than one section per term. Prerequisite(s): AAST 247 or AAST 248 or HST 104 or HST 247 or HST 248 or consent of the instructor.

486
Topics in the History of Science 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 credit hours of history.

487
Topics in the History of Sexuality 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of history.

488
Topics in Urban History 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of history.

489
Topics in Military History 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of history.

490
Topics in Diplomatic History 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of history.

491
Topics in Constitutional History 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of history.

492
Topics in Intellectual History 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of history.

493
Topics in Historiography 3 OR 4 hours. Specific topics are announced each term. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in
more than one section per term.  
Prerequisite(s): 3 hours of history.

494  
Topics in Political History 3 OR 4 hours.  
Specific topics are announced each term. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term.  
Prerequisite(s): 3 hours of history.

495  
Topics in Religious History 3 OR 4 hours.  
Specific topics are announced each term. Same as RELS 495. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term.  
Prerequisite(s): 3 hours of history or consent of the instructor.

496  
Topics in Race, Ethnic and Minority History 3 OR 4 hours.  
Specific topics are announced each term. Same as AAST 496. 3 undergraduate hours. 4 graduate hours. May be repeated.  
Prerequisite(s): 3 hours of history or consent of the instructor.

497  
Topics in Cultural History 3 OR 4 hours.  
Specific topics are announced each term. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term.  
Prerequisite(s): 3 hours of history or consent of the instructor.

498  
Topics in Quantitative Methods 3 OR 4 hours.  
Specific topics are announced each term. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term.  
Prerequisite(s): 3 hours of history or consent of the instructor.

500  
Colloquium on the Teaching of History 1 TO 4 hours.  
Reading in topics. May be repeated. Students may register in more than one section per term.  
Prerequisite(s): Consent of the instructor.

501  
Introduction to Graduate Study in History 4 hours.  
Introduction to history as a discipline and profession. Approach is comparative and by topic. Required for graduate students in the MA and PhD in History programs.  
Prerequisite(s): Graduate standing in history.

502  
Seminar on Ancient History 4 hours.  
Research in topics. May be repeated. Students may register in more than one section per term.  
Prerequisite(s): Consent of the instructor.

503  
Colloquium on World History 4 hours.  
Graduate introduction to theories and historiography of the new world history.  
Prerequisite(s): Open only to PhD degree students, and approval of the department.

508  
Seminar on Medieval History 4 hours.  
Research in topics. May be repeated. Students may register in more than one section per term.  
Prerequisite(s): Consent of the instructor.

511  
Colloquium on European History 4 hours.  
Reading in topics. May be repeated. Students may register in more than one section per term.  
Prerequisite(s): Consent of the instructor.

512  
Seminar on European History 4 hours.  
Reading in topics. May be repeated. Students may register in more than one section per term.  
Prerequisite(s): Consent of the instructor.

521  
Colloquium on British History 4 hours.  
Reading in topics. May be repeated. Students may register in more than one section per term.  
Prerequisite(s): Consent of the instructor.

522  
Seminar on British History 4 hours.  
Research in topics. May be repeated. Students may register in more than one section per term.  
Prerequisite(s): Consent of the instructor.

532  
Seminar on Russian History 4 hours.  
Research in topics. May be repeated. Students may register in more than one section per term.  
Prerequisite(s): Consent of the instructor.

541  
Colloquium on African History 4 hours.  
Readings on select topics in African history. May be repeated.  
Prerequisite(s): Consent of the instructor.

542  
Seminar on African History 4 hours.  
Research in topics. May be repeated. Students may register in more than one section per term.  
Prerequisite(s): Consent of the instructor.

551  
Colloquium on American History 4 hours.  
Readings in topics. May be repeated. Students may register in more than one section per term.  
Prerequisite(s): Consent of the instructor.

552  
Seminar on American History 4 hours.  
Research in topics. May be repeated. Students may register in more than one section per term.  
Prerequisite(s): Consent of the instructor.

561  
Colloquium on Latin American History 4 hours.  
Topics on themes in Latin American history. Specific topics are announced each term. Same as LALS 561. May be repeated. Students may register in more than one section per term.

562  
Seminar on Latin American History 4 hours.  
Research in topics. May be repeated. Students may register in more than one section per term.  
Prerequisite(s): Consent of the instructor.

580  
Chicago Consortium in Ancient History 0 TO 16 hours.  
Holding course for graduate students having course work at other universities through the Chicago Consortium in Ancient History. May be repeated. Students may register in more than one section per term.  
Prerequisite(s): Admission to a graduate program and approval of the director of graduate studies.

591  
Preliminary Examination and Dissertation Prospectus  
Preparation 1 TO 8 hours.  
Under the supervision of a faculty mentor, the student will prepare for the preliminary examination and prepare the dissertation prospectus required by the department. Satisfactory/unsatisfactory grading only. May be repeated to a maximum of 8 hours.  
Prerequisite(s): Approval of the department or completion of all didactic course work in the PhD in History program.

592  
Colloquium on Approaches to History 4 hours.  
Reading in topics. May be repeated. Students may register in more than one section per term.  
Prerequisite(s): Consent of the instructor.

596  
Independent Study 1 TO 4 hours.  
Independent study in selected areas in history. May be repeated. Students may register in more than one section per term.  
Prerequisite(s): Consent of the instructor.

599  
PhD Thesis Research 0 TO 16 hours.  
Thesis research for the PhD in History. Satisfactory/unsatisfactory grading only. May be repeated.  
Prerequisite(s): Preliminary examination.

Honors College Courses (HON)  
401  
Advanced Honors Seminar 3 hours.  
Student, faculty, and invited guests act as partners in the in-depth exploration of a focused topic. This interaction is fostered through common readings, written assignments, and open discussions. May be repeated to a maximum of 6 hours. Students may register for more than one section per term.  
Prerequisite(s): Sophomore standing or above and consent of the instructor. Graduate students may obtain instructor consent.  
Recommended background: HON 201.
Human Nutrition (HN)

413 Principles of Delivering Public Health Nutrition Services 3 hours. Assessment, planning, and evaluation of community nutrition programs using a systems approach.

420 Clinical Nutrition II 2 hours. Principles of nutrition, biochemistry, physiology, pathology, education, and psychology related to management of selected diseases (renal disease, AIDS, cancer, and pediatrics). Prerequisite(s): HN 320; or consent of the instructor.

421 Clinical Practice II 4 hours. Practical experiences in the nutritional management and support of selected disease processes such as cancer, gastrointestinal, and hypermetabolic states. Satisfactory/Unsatisfactory grading only. Prerequisite(s): HN 321 and credit or concurrent registration in HN 420; or consent of the instructor.

422 Clinical Nutrition III 2 hours. Principles of nutrition, biochemistry, physiology, and pathology related to the management of critically ill patients. Prerequisite(s): HN 300 and HN 420; or consent of the instructor.

423 Clinical Practice III 5 hours. Clinical practicum which focuses on the nutritional management of critically ill patients or specialized patient populations (renal and pediatric patients). Satisfactory/Unsatisfactory grading only. Prerequisite(s): HN 421 and credit or concurrent registration in HN 422; or consent of the instructor.

450 Professional Practice 6 hours. Extended practicum which integrates acquired skills, knowledge, and attitudes in dietetics. Special emphasis on current dietetic issues facing the healthcare professional. Satisfactory/Unsatisfactory grading only. Prerequisite(s): HN 423; or consent of the instructor.

480 Field Study 2 hours. Provides practical experience to develop/strengthen the student’s knowledge and skills in an area of nutrition practice. Prerequisite(s): HN 410; or consent of the instructor.

510 Nutrition—Physiological Aspects 3 hours. A thorough discussion of the absorption, transport, and metabolism of macronutrients, plus factors affecting these processes. Treats in an integrated fashion how various organs participate. Prerequisite(s): HN 410 and PHY 341 or the equivalent, or consent of the instructor.

514 Vitamins in Human Nutrition 2 hours. Clinical aspects of vitamin requirements and metabolism in human nutrition; bioavailability, nutrient interactions and interrelationships of vitamins with various disease states. Prerequisite(s): HN 410; or consent of the instructor.

515 Minerals in Human Nutrition 2 hours. Clinical aspects of essential mineral requirements and metabolism in human nutrition; bioavailability; nutrient interactions and trace and ultratrace elements. Prerequisite(s): HN 410; or consent of the instructor.

520 Research Methods in Human Nutrition 3 hours. Research designs in human nutrition; conceptual issues in clinical and population studies; problems in collection and analysis of dietary, behavioral, and self-reported data. Prerequisite(s): AHS 510; or consent of the instructor.

532 Evaluation of Nutritional Status 3 hours. Community and clinical considerations in nutrition status surveillance and monitoring systems; characterization in the collection, standards, and reference population development. Prerequisite(s): HN 410; or consent of the instructor.

535 Nutrition and Human Performance 2 hours. Nutrition which impacts on human performance; impaired performance due to nutritional problems; aspects relevant to the professional athlete. Same as MVS 535. Prerequisite(s): HN 410; and PHY 341 or MVS 352; or consent of the instructor.

541 Research on Clinical Nutrition Problems 2 hours. Development and conduct of research on clinical nutrition problems, patient outcomes, or nutrition or food service delivery systems within a hospital or ambulatory care setting. Prerequisite(s): Consent of the instructor.

550 Quantitative Methods in Nutritional and Epidemiological Studies 3 hours. Address methodological issues of nutritional/epidemiological studies; discuss concepts, principles, study designs, statistical methods, and specific issues, such as measurement error/validity, energy adjustment; practice data management/analysis. Extensive computer use required. Prerequisite(s): HN 200 and BTT 400 and 410 and EPID 400; or consent of the instructor.

560 Advanced Field Practicum 2 hours. Advanced practical experience in a specialized area of human nutrition and dietetics. The practicum may be carried out in a clinical setting, business, industry, or government agency. Prerequisite(s): HN 410; or consent of the instructor.

581 Dietetics/Nutrition Instructional Practicum 2 hours. Teaching practicum in clinical dietetics and/or nutrition. Prerequisite(s): HN 201 and HN 410 and HN 570 or the equivalent, or consent of the instructor.

594 Special Topics in Human Nutrition 1 TO 4 hours. Advanced course dealing with selected topics. Topics vary from year to year and may include drug/nutrient interaction, protein metabolism, nutrition and behavior, nutrition and exercise. May be repeated. Prerequisite(s): HN 410; or consent of the instructor.

595 Seminar in Human Nutrition 1 hour. Topics of current interest in human nutrition. Includes discussions of current journal articles and important new developments in the specific disciplines. Satisfactory/Unsatisfactory grading only. May be repeated with approval. Approval to repeat course granted by the department. Prerequisite(s): HN 410; or consent of the instructor.

596 Independent Study in Human Nutrition 1 TO 4 hours. Study in selected areas of human nutrition carried out under the direction of a faculty member. Modes of investigation are determined by the nature of the problem selected. May be repeated. Students may register in more than one section per term. Prerequisite(s): Admission to the human nutrition graduate program and consent of the instructor.

597 Project Research 1 TO 4 hours. For graduate students who wish to pursue a project other than thesis research. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 4 hours. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

598 Research in Human Nutrition 0 TO 16 hours. Independent research in one area of human nutrition. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

599 PhD Thesis Research 0 TO 16 hours. Independent dissertation research by the student, under the guidance of the adviser. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the faculty adviser.

Industrial Engineering (IE)

411 Mechatronics I 0 TO 4 hours. Elements of mechatronic systems, sensors, actuators, microcontrollers, modeling, hardware in the loop simulations, real-time software, Electromechanical systems laboratory experiments. Same as ME 411. 3 undergraduate hours. 4 graduate hours. Extensive computer use required. Prerequisite(s): Senior standing or above or approval of the department.
412 Dynamic Systems
Analysis I 3 OR 4 hours.
Classical control theory; concept of feedback, laplace transform, transfer functions, control system characteristics, root locus, frequency response, compensator design. Same as ME 412. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ME 308.

446 Quality Control and Reliability 3 OR 4 hours.
Principles of statistical quality control, including control by variable and by attribute; construction and use of control charts for variables; fraction defectives and number of defects; and use of standard plans, reliability, and life cycle testing. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): IE 342.

461 Safety
Engineering 3 OR 4 hours.
Accident losses; standards and codes; hazards control; accident investigations; mechanical injuries; heat, pressure, and electrical hazards; fires and explosions; toxic materials and radiation; vibration and noise. Course project. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): IE 342.

463 Plant Layout and Materials Handling 3 OR 4 hours.
Facilities design functions, computer-aided plant layout, facility location, warehouse layout, minimum location, deterministic and probabilistic conveyor models. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): IE 432.

464 Virtual
Automation 3 OR 4 hours.
Fundamentals of manufacturing and automation modeling using CAD/CAM and computer-integrated manufacturing methods; concepts of virtual manufacturing; industrial robots and automated factory models within virtual environments. Same as ME 464. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): IE 201; and CS 107 or CS 108.

465 Manufacturing Information Systems 0 TO 4 hours.
Design and implementation of supervisory control and data acquisition systems; manufacturing systems controller and communication networks. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): IE 342; and IE 471 or the equivalent.

494 Special Topics in Industrial Engineering 3 OR 4 hours.
Particular topics vary from term to term depending on the interests of the students and the specialties of the instructor. 3 undergraduate hours. 4 graduate hours. May be repeated. Prerequisite(s): Consent of the instructor.

511 Mechatronics II 4 hours.
Microcontrollers used in electro-mechanical systems for measurement and control purposes, interface hardware, real-time software and development tools, applications in robotic motion control and factory automation. Same as ME 511. Prerequisite(s): ME 411 and consent of the instructor.

542 Advanced Computational Methods for Product and Process Design 4 hours.
Deterministic and statistical methods for modeling and optimizing engineering systems, in the broad context of product design, manufacturing process development, and designing for life cycle issues. Same as ME 542. Prerequisite(s): Programming language experience.

552 Applied Stochastic Processes 4 hours.
Stationary point processes; Markov renewal theory; semi-Markov processes; regenerative processes; computational methods and applications to queues, inventories, dams, and reliability. Prerequisite(s): IE 342.

562 Supervisory Control of Discrete Event Systems 4 hours.
Discrete event systems; languages and automata, supervisory control, timed models, supervisory control applications. Extensive computer use required.

565 Expert Systems in Manufacturing 4 hours.
Industrial uses of expert systems; applicability to industrial processes; availability of commercial expert systems; design and implementation of expert systems; knowledge engineering, research uses of expert systems. Prerequisite(s): CS 102 or CS 107 or the equivalent.

567 Statistical Analysis of Simulation Outputs 4 hours.
Principles and techniques of analyzing the outputs of stochastic simulated models, including determination of run lengths, reduction of variance, time-series methods, and experimental design. Prerequisite(s): IE 467.

569 Advanced Virtual Manufacturing 4 hours.
Manufacturing systems design optimization using virtual environments; optimization of manufacturing decision support virtual reality interfaces, analysis and evaluation of virtual environments. Same as ME 569. Prerequisite(s): Consent of the instructor.

571 Statistical Quality Control and Assurance 4 hours.
The importance of quality in products and services, quality surveillance, Deming’s management method, Ishikawa’s seven tools, control charts, acceptance sampling, quality improvement using directed experiments. Same as IDS 571. Prerequisite(s): At least one term of statistics.

575 Integer and Combinatorial Optimization 4 hours.
Modeling, computational complexity, polyhedral theory, valid inequalities, duality and relaxation, branch-and-bound algorithms, cutting plane algorithms, heuristic algorithms, and real-world applications. Prerequisite(s): IE 471.

576 Nonlinear Optimization 4 hours.
Convex analysis, line search techniques, unconstrained and constrained optimization, optimality conditions, duality, convex and nonconvex optimization, large-scale optimization, and real-world applications. Prerequisite(s): IE 471 or the equivalent.

594 Current Topics in Industrial Engineering 4 hours.
Particular topics vary from term to term depending on the interests of the students and the specialties of the instructor. May be repeated. Prerequisite(s): Consent of the instructor.

596 Seminar on Industrial Engineering Research 1 hour.
Advances in industrial engineering research will be discussed in a seminar setting. Students will be expected to make presentations in various areas, as well as invited

472 Business Data Mining 3 OR 4 hours. Searching for relationships between variables in databases. Decision trees, cluster analysis, logistic regression, path analysis. Applications to marketing, quality assurance, operations management, human resources. 3 undergraduate hours. 4 graduate hours. Credit is not given for IDS 472 if the student has credit for IDS 572. Prerequisite(s): IDS 371 or the equivalent.

473 Introduction to Risk Management 3 hours. Introduction to risk management. Loan and credit management, credit scoring. Risk measurements and reserves; banking and insurance capital requirements, the BASEL accord, tail events, and catastrophic event insurance. Financial contracts and hedging. Same as FIN 473. Prerequisite(s): FIN 300 and IDS 371.

474 Quality and Productivity Improvement Using Statistical Methods 3 OR 4 hours. Directed experimentation for quality and productivity improvement, quality surveillance, design and analysis of two-level factorial experiments and multi-level experiments, and data transformation. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): IDS 371 or consent of the instructor.

475 Database Accounting Systems 3 OR 4 hours. Concepts and principles of designing database systems to perform accounting functions, applications of microcomputer accounting software packages systems design tools, and computerized transaction cycles. Same as ACTG 475. 3 undergraduate hours. 4 graduate hours. Extensive computer use required. Prerequisite(s): ACTG 111 and IDS 100.

476 Business Forecasting Using Time Series Methods 3 OR 4 hours. Autoregressive, moving average, and seasonal models for time series analysis and business forecasting. Forecasting using multivariable transfer function models is also included. Same as ECON 450. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): IDS 371 or ECON 346 or consent of the instructor.

478 Regression Analysis 3 OR 4 hours. Data collection and exploration; model building; variable least squares; residual analysis; variable selection; multicollinearity; ridge regression; nonlinear regression; nonparametric regression. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): IDS 371.

494 Topics in Information and Decision Sciences 3 OR 4 hours. Topics vary; selected readings; case analysis. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time if topics vary. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

495 Competitive Strategy 4 hours. Multidisciplinary analysis of organizational strategy and policy using case method and/or business simulation. Assignments involve extensive library research and oral and written reports. Prerequisite(s): Senior standing in the College of Business Administration and completion of all other BSA core courses, or consent of the instructor.

499 Independent Study in Information and Decision Sciences 1 TO 3 hours. Intensive study of selected topics determined in consultation with the instructor and department head. May be repeated to a maximum of 9 hours. Students may register in more than one section per term. Prerequisite(s): Major in Information and Decision Sciences and consent of the instructor.

500 Information Systems in Organizations 4 hours. Use of information technology in business; planning, management, and strategic use of information technology including the role of enterprise-wide systems, the Internet, and electronic commerce. Prerequisite(s): Admission to the MBA Program.

504 Introduction to Electronic Commerce 4 hours. Addresses issues on electronic commerce for businesses and consumers, considering topics such as competition, distribution, infrastructure on the Internet, shopping, and product characteristics.

505 Business Information Systems Analysis and Design 4 hours. Analysis, design and development of information systems. Management concerns in systems design, development, and evaluation. A student who has taken IDS 405 must see an adviser to determine whether another graduate course from IDS, MATH, or CS must be substituted for IDS 505. Prerequisite(s): IDS 500; or consent of the instructor.

506 Survey of Healthcare and Information Technology 4 hours. Impact, use, and trends of information technology in healthcare. Healthcare systems technology and stakeholders. Analysis of strategic, economic, operational, ethical, privacy, and security considerations. Prerequisite(s): Introductory information systems course is required. Recommended background: Advanced information system courses such as databases and system analysis.

507 Advanced Systems Analysis and Design Project 4 hours. Principles and concepts of analysis, design, and development of information systems including project management. Includes a project at an outside company or university office. Prerequisite(s): Consent of the instructor; and completion of three MIS in MIS courses.

508 E-commerce Project 4 hours. Electronic commerce project initiated by local small and medium enterprises, teaching students with technical or entrepreneurial skills/interests, supervised by faculty on board of directors. Prerequisite(s): IDS 504 or MGMT 558 or MKTG 558; and consent of the instructor.

509 Business Process Analysis and Modeling 4 hours. Principles and concepts for the analysis and design of business processes and for the development of information systems that support such processes. Prerequisite(s): IDS 401 or consent of the instructor.

510 Organizational Data Resources 4 hours. Data as a competitive resource. Understanding, organizing, and utilizing data in enterprises. Data resource development and management. Leveraging data assets. Exploiting the power of data. Understanding regulatory requirements. A student who has taken IDS 410 must see an adviser to determine whether another graduate course from IDS, MATH, or CS must be substituted for IDS 510. Prerequisite(s): IDS 500.

511 Query Processing in Database Systems 4 hours. Query processing in deductive databases and in distributed/parallel databases systems. Same as CS 580. Prerequisite(s): CS 480.

512 Information Systems Project and Program Management 4 hours. Theory and practice of managing IS projects based on a life cycle management model. Technology, organizational behavior, team dynamics, and economic analysis in the context of larger organizational strategies. Project plans, budgets, and schedules. Extensive computer use required. Prerequisite(s): Introductory information systems course. Recommended background: Advanced information system courses such as databases and system analysis.

513 Enterprise Components and Web Services 4 hours. Exposes students to advances in the technical aspects of electronic business. The key emphasis is on developing Web-based electronic business applications. Extensive computer use required.

514 Management of Information Systems 4 hours. Administration, control, and management of computer-based information systems, projects, and relationships with the organization. Scheduling of operations; management of computer professionals; planning and control of the systems activity. Prerequisite(s): IDS 505 or IDS 510.

515 Information Systems Strategy and Policy 4 hours. Examines how businesses can leverage IT and digital technologies to maximize business performance. Covers IS strategy.
formulation, strategy implementation, e-business transformation, interorganizational and multi-organizational strategies. Prerequisite(s): IDS 505 or IDS 510; or consent of the instructor.

516 Data Warehousing and Decision Support 4 hours. Analysis, design, and development of data warehousing. Related methods and tools in the provision of decision support and business analytics/intelligence. Prerequisite(s): IDS 505 or IDS 510 or consent of the instructor.

517 Enterprise Application Infrastructure 4 hours. The course explores the choices available for building an enterprise applications infrastructure. Topics such as advanced applications design, development, tools, methodologies, and technologies will be covered. Extensive computer use required. Prerequisite(s): IDS 201 or IDS 400 and IDS 401 and IDS 410 or the equivalent.

518 Electronic Marketing 4 hours. Overview of the electronic marketing value chain. Internet and Web technologies, system design, payment systems, business requirements for e-marketing, design, and ethical issues. Same as MKTG 518. Prerequisite(s): MKTG 500 or MBA 506 or consent of the instructor.

519 Topics in Information Systems 4 hours. Selected topics in information systems, information management, and information technology. Content varies. Topics will be announced. May be repeated if topics vary. Prerequisite(s): IDS 505 or IDS 510; and consent of the instructor.

520 Distributed Processing and Telecommunication Systems 4 hours. Topics include components of telecommunications and distributed information systems, data communication devices, computer networks, configuration management, and distributed databases. Prerequisite(s): IDS 505 or IDS 510.

521 Advanced Database Management 4 hours. Data analysis for database design; logical data modeling, transaction modeling, implementation models; physical database design; database tuning and performance evaluation; database decomposition; distributed database; database security. Prerequisite(s): IDS 505 or IDS 510.

523 Audit and Control of Information Systems 4 hours. Modeling and analysis of information systems application in organizations; measurement of effectiveness; strategies for implementation and updating; interface with other management control systems. Prerequisite(s): IDS 505 or IDS 510.

526 Computer Performance Evaluation and Modeling 4 hours. Probabilistic, simulation, and statistical techniques for modeling computer systems with a view to evaluating their performance. Models of multiprogramming systems, multiaccess systems, input/output systems, priority queues, and paging systems. A student who has taken IDS 426 must see an advisor to determine whether another graduate course from IDS, NATH, or CS must be substituted for IDS 526. Prerequisite(s): IDS 532; and IDS 505 or IDS 510.

529 Seminar on Management Information Systems 4 hours. Special research topics in management information systems. Topics vary from term to term depending on the interests of the instructor and students. May be repeated if topics vary. Prerequisite(s): IDS 505 or IDS 510.

532 Introduction to Operations Management 4 hours. The management of operations for the production and delivery of goods and services. Topics include the management of projects, production, supply chain, inventory, and quality. Credit is not given for IDS 532 if the student has credit in MBA 507 and MBA 509. Prerequisite(s): Admission to the MBA Program.

551 Operations Management in the Service Sector 4 hours. Comparison of service and manufacturing operations; analysis of effects of capacity, quality, and service firm life cycle on operations. Prerequisite(s): Credit or concurrent registration in IDS 532 or the consent of the instructor.

552 Supply Chain Management 4 hours. Structure of inventory decision and operating procedures; single event and continuous systems for both single and multiple products; order quantity and periodic review models; demand forecasting. Prerequisite(s): Credit or concurrent registration in IDS 532 or the consent of the instructor.

553 Production Process Management and Control 4 hours. Project scheduling and resource allocation; capacity planning; aggregate planning; scheduling and dispatching; plant layout; material requirement planning; production flow and line balancing. Prerequisite(s): IDS 532.

570 Statistics for Management 4 hours. Survey of statistical methods with applications for business and management. Prerequisite(s): Admission to any business graduate program or consent of the instructor.

571 Statistical Quality Control and Assurance 4 hours. The importance of quality in products and services, quality surveillance, Deming’s management method, Ishikawa’s seven tools, control charts, acceptance sampling, quality improvement using directed experiments. Same as ECON 571. Prerequisite(s): At least one term of statistics.

572 Data Mining for Business 4 hours. Introduction to data mining for business. Applications to marketing, credit scoring, quality assurance, operations management, and human resources management. Credit is not given for IDS 572 if the student has credit for IDS 472. Prerequisite(s): IDS 532.

573 Risk Management 4 hours. Introduction to risk management. Risk measurements and reserves; banking and insurance capital requirements, the BASEL accord, tail events, catastrophic event insurance, reinsurance. Financial contracts and hedging. Same as FIN 573. Prerequisite(s): Credit or concurrent registration in IDS 570 and FIN 500.

577 Research Methodology I 4 hours. Use of statistics and computers in research. Data collection and organization, survey sampling, questionnaire design, experimental design. Prerequisite(s): IDS 532 or the equivalent and admission to the PhD program in Business Administration.

578 Research Methodology II 4 hours. Data analysis, including estimation, hypothesis testing, nonparametric methods, analysis of variance, regression analysis, economic forecasting, and time series. Prerequisite(s): IDS 577 or the equivalent.

582 Business Research and Forecasting I 4 hours. The role of research in business; forecasting methods and techniques, including models and their applications. Same as ECON 537. Prerequisite(s): ECON 534 and at least one statistics course with regression analysis at the 300-level or above.

583 Business Research and Forecasting II 4 hours. The role of research in business; forecasting methods and techniques, including multivariate time series models and their applications. Same as ECON 538. Prerequisite(s): IDS 476 or IDS 582 or ECON 537.

584 Special Topics in Information and Decision Sciences 4 hours. Intensive study of a selected topic. Content varies. Topics are announced. Prerequisite(s): Consent of the instructor.

595 Seminar in Information and Decision Sciences 1 TO 4 hours. Topics vary from term to term depending on the interests of the instructor. May be taken for up to four credit hours depending on the outline of the seminar as determined by the instructor. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 8 hours. Students may register for more than one section per term. Prerequisite(s): Admission to the PhD program in Business Administration or the PhD program in Management Information Systems.
Interdisciplinary Public Health Sciences (IPHS)

494 Introductory Special Topics—Interdepartmental 1 TO 4 hours.
Introductory special topics in public health. Course content will vary from semester to semester. May be repeated. Students may register in more than one section per term.

501 Public Health Leadership Seminar I 3 hours.
Doctoral seminar in advanced public health leadership topics, primarily for DrPH degree students. Prerequisite(s): Enrollment in the DrPH program or consent of the instructor.

502 Public Health Leadership Seminar II 3 hours.
Doctoral seminar in advanced public health leadership topics. Primarily for DrPH degree students. Prerequisite(s): Enrollment in the DrPH program or consent of the instructor.

503 Public Health Integrative Seminar I 3 hours.
Doctoral seminar in advanced public health leadership topics, primarily for DrPH degree students. Prerequisite(s): Consent of the instructor. Recommended background: Enrollment in the DrPH of PhD degree program.

504 Public Health Integrative Seminar II 3 hours.
Doctoral integrative seminar in advanced public health topics, primarily for DrPH degree students. Prerequisite(s): IPHS 503 or equivalent experience and consent of the instructor. Recommended background: Enrollment in the DrPH or PhD in Public Health degree program.

530 Practicum in Mental Health Diagnosis 4 TO 8 hours.
Review of mental health diagnostic process. Students in psychological epidemiology participate with medical students in a psychiatry clerkship. Prerequisite(s): CHSC 460 and consent of the instructor.

594 Advanced Special Topics—Interdepartmental 1 TO 4 hours.
Advanced special topics in public health. Course content will vary from semester to semester. May be repeated. Students may register in more than one section per term.

595 Seminar in Interdisciplinary Public Health Sciences 1 TO 3 hours.
Analysis of current research in public health. Course content will vary from semester to semester. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

596 Independent Study in Public Health 1 TO 4 hours.
Selected aspects of specific public health problems; independent study under close supervision of faculty. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of instructor who has supervised at least one course in the area of the independent study.

598 Research in Public Health Sciences—MS 0 TO 16 hours.
Individual research in public health directed by a faculty member. Directed toward the thesis requirements for the Master of Science degree. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

599 Research in Public Health Sciences—PhD 0 TO 16 hours.
Individual research in public health directed by a faculty member. Directed toward the dissertation for the Doctor of Philosophy degree. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

Interdisciplinary Studies in the Arts (ISA)

411 Literary Forms in Early Renaissance 3 OR 4 hours.
The development of epic poetry (Pulci, Boccaccio, Ariosto) within the literary, political, and social context (Medieval and Renaissance). 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ITAL 310 or consent of the instructor.

412 Literary Forms in Late Renaissance and Baroque 3 OR 4 hours.
Representative literary works of the genres of the late sixteenth and seventeenth centuries: Epic poem of Tasso and poetry of Marino. The birth of the Commedia dell’Arte form. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ITAL 310 or consent of the instructor.
Prerequisite(s): Good academic standing in a teacher education program, completion of 100-hour hours of pre-service teaching field experiences, credit or concurrent registration in ITAL 461, and approval of the department.

494 Special Topics 3 OR 4 hours. Topics will vary from term to term and may cover such areas as literary theory or culture. Same as FR 494 and SPAN 494. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Taught in English. Prerequisite(s): Junior standing or above, and approval of the department.

Jewish Studies (JST)

478 The Bible as Literature 3 OR 4 hours. Literary analysis of the English Bible (including the Apocalypse) in its historical and religious contexts; study of the King James Version and successive revisions of it. Same as ENGL 478 and RELS 478. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in ENGL 240; and grade of C or better in ENGL 241 or grade of C or better in ENGL 242 or grade of C or better in ENGL 243; or consent of the instructor.

494 Topics in Jewish Studies 3 OR 4 hours. Selected topics in Jewish studies. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): JST 101 or JST 102 or consent of the instructor.

Latin (LAT)

499 Independent Reading 3 OR 4 hours. Individual study under faculty direction. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 4 hours in Latin at the 200-level or the equivalent.

Latin American and Latino Studies (LALS)

409 Ancient Maya Writing, Language, and Culture 3 OR 4 hours. Recent trends in Maya epigraphy, information gained from Maya hieroglyphs, linguistics, and historical ethnographies are applied to anthropological analyses of past lifeways. Same as ANTH 409. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Junior standing or above, and consent of the instructor.

423 Andean Prehistory 3 OR 4 hours. An overview of the cultural evolution of the Andean region from the arrival of the first inhabitants to the development of the Inca empire. Same as ANTH 423. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ANTH 228 or ANTH 269 or consent of the instructor.

427 Studies in Language Policy and Cultural Identity 3 OR 4 hours. Examines the development, articulation, and effects of language policies on identity formation and culture. Focuses on the United States and the Spanish language, although other countries and languages are included. Same as SPAN 427. 3 undergraduate hours. 4 graduate hours. Taught in English. Prerequisite(s): Junior standing or above. Reading and writing knowledge of Spanish.

461 Topics in Latin American History 3 OR 4 hours. Specific topics are announced each term. Same as HIST 461. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of history, Latin American and Latino studies, or consent of the instructor.

475 Indians of the Andes and the Amazon 3 OR 4 hours. Intensive research in theoretical and ethnographic problems in South American Indian social structures and cultures. Special attention will be given Levi-Strauss’ ideas on the formulation of cultural theory in South America. Same as ANTH 475. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ANTH 213 or consent of the instructor.

491 Interdisciplinary Seminar in Latin American Studies 3 OR 4 hours. Specific topics as announced each semester. In-depth study of selected topics, such as process of state formation, education, populism, the family, democratization, industrialization, and ideological currents. 3 undergraduate hours. 4 graduate hours. May be repeated if topics vary. Prerequisite(s): Any two 200-level Latin American and Latino Studies courses or consent of the instructor.

502 Topics in Latin American and Latino Studies 4 hours. In-depth study of selected research topics related to Latin America and/or U.S. Latinos that reflect the major and most current debates in these fields. May be repeated if topics vary. Prerequisite(s): Graduate or professional standing; or consent of the instructor.

561 Colloquium on Latin American History 4 hours. Topics on themes in Latin American history. Specific topics are announced each term. Same as HIST 561. May be repeated. Students may register in more than one section per term.

596 Independent Study 1 TO 4 hours. Investigation of special problems under the direction of a faculty member. May be repeated to a maximum of 8 hours. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

Liberal Arts and Sciences (LAS)

494 Topics in Cultural Studies 3 OR 4 hours. An interdisciplinary approach to a current cultural debate. Topics will vary. 3 undergraduate hours. 4 graduate hours. May be repeated if topics vary. Taught at the Field Museum.

495 The Newberry Library Undergraduate Seminar 6 hours. Seminar with a topic related to the holdings of the Newberry Library. Classes held in Newberry Library. Topics vary. May be repeated if topics vary. Previously listed as LAS 395. Students are required to conduct research at the Newberry Library beyond designated class hours. Pretour of the Newberry is recommended. Prerequisite(s): Consent of UIC’s Newberry Library seminar coordinator.

Linguistics (LING)

402 Trial Interaction 3 OR 4 hours. Language use, culture, and law in the trial process. Analysis of qualitative methods applied to legal processes and change. Same as CRJ 402. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CRJ 261 and CRJ 350; or consent of the instructor.

405 Introduction to General Linguistics 3 OR 4 hours. Introduction to the theories and methods of the phonological, morphological, and syntactic analysis of language. The historical development of languages. Language use. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Junior standing.
415 Linguistic Structures I 3 OR 4 hours. Introduction to key concepts in the field, including descriptive and prescriptive grammars, competence and performance, and human language as a system; articulatory phonetics; phonology; morphology. 3 undergraduate hours. 4 graduate hours.

428 Linguistic Structures II 3 OR 4 hours. Fundamentals of semantics and syntax within the broad framework of generative and functional linguistics, including key concepts such as sense reference, utterance, sentence, form, and function. 3 undergraduate hours. 4 graduate hours.

459 Topics in Linguistics 3 OR 4 hours. Topics vary. 3 undergraduate hours. 4 graduate hours. May be repeated up to 2 times. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

474 Cognitive Psychology of Language 3 hours. Provides students with a survey of methods, theory, and research in language and discourse processing. Same as COMM 454 and PSCH 454. Prerequisite(s): Graduate standing or consent of the instructor.

480 Sociolinguistics 3 OR 4 hours. Variations in language that correlate with variation in societies and smaller social groups: interactions of languages and societies. Same as ANTH 480. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): LING 405 or junior standing and consent of the instructor.

483 Methodology of TESOL 3 OR 4 hours. Methods of teaching listening, speaking, reading, and writing to speakers of English as a second or foreign language. Same as CE 483. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Junior standing and consent of the instructor.

496 Independent Study 1 TO 4 hours. Students are assigned to this course at the discretion of the department. Independent study in an area of linguistics not normally covered by regular course offerings. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. A maximum of 6 hours is allowed for undergraduate students, and 8 hours of credit for graduate students. Prerequisite(s): 9 hours of linguistics and approval of the head of the department.

506 Cross-Cultural Communication 4 hours. Analysis of different theoretical approaches to cross-cultural communication (sociolinguistic, attributional, contrastive analysis of Western and non-Western cultural systems (intercultural etiquette, discourse rules). Same as COMM 506.

531 Grammar for TESOL 4 hours. Survey of major grammatical structures and patterns as they relate to TESOL instruction.

540 Language and Gender 4 hours. Examination of sociolinguistic research and theories on the interrelationships between language and gender, including gender categories in linguistic systems, gender differences in language use, interaction, and cross-cultural comparisons. Same as GWS 540.

551 Research Practicum in Sociolinguistics 4 hours. Strategies and methods for studying language use in communities: participant-observation, interviewing, elicitation, using public-domain data, note taking vs. tape recording, and issues of transcription and ethics. May be repeated to a maximum of 12 hours. Prerequisite(s): LING 407 or LING 480, or consent of the instructor.

553 Research Practicum in Discourse Analysis 4 hours. Discourse analysis addresses issues of intentional communication, inference, the structure of texts or talk-in-interaction, and the interactive construction of social actions or identities in discourse. Same as ENGL 553. May be repeated to a maximum of 12 hours.

556 Second Language Learning 4 hours. An introduction to research findings and methods in second language learning. Same as SPAN 556. Prerequisite(s): Consent of the instructor.

559 Seminar in Linguistics 4 hours. Advanced study in linguistics. Topics vary. May be repeated to a maximum of 12 hours. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

582 Qualitative Methods in Communication 4 hours. Qualitative methods course analyzing language and culture patterns. Same as COMM 580. Prerequisite(s): COMM 501 or consent of the instructor.

583 Materials and Curriculum Development in TESOL 4 hours. Evaluation, adaptation, and development of curricula, syllabi, and materials for TESOL. Prerequisite(s): LING 483.

586 Classroom Testing for TESOL 4 hours. Theory and practice in the creation and evaluation of classroom tests for TESOL.

594 Internship in TESOL 1 TO 12 hours. Observation, tutoring, and supervised teaching for teachers of English as a second or foreign language. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 13 hours. Students register for 1 to 12 hours. Prerequisite(s): LING 583 and consent of the instructor.

596 Independent Study in Linguistics 1 TO 6 hours. Students are assigned to this course at the discretion of the department. Independent study and research on a topic other than that approved for a graduate thesis. May be repeated to a maximum of 6 hours. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor and approval of the head of the department.

597 Research in Linguistics 0 TO 16 hours. Independent research in linguistics. Satisfactory/Unsatisfactory grading only. May be repeated with approval. Approval to repeat course granted by the department. A maximum of 4 hours of credit may be applied toward the MA in Linguistics degree. Prerequisite(s): Consent of the instructor and the director of graduate studies. Open only to degree candidates.

598 Master’s Thesis Research 0 TO 16 hours. Students engaged in thesis research and writing are assigned to this course at the discretion of the department. Independent research on a topic approved for a graduate thesis. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 12 hours. Students may register in more than one section per term. Prerequisite(s): Consent of the thesis supervisor and approval of the head of the department. Open only to degree candidates.

**Lithuanian (LITH)**

410 Structure of Lithuanian 3 OR 4 hours. Synchronic analysis of the structure of Lithuanian; emphasis on discourse analysis of oral and written texts. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): LITH 405 or 18 hours of Lithuanian or the equivalent.

425 Translation of Lithuanian Texts 3 OR 4 hours. Problems of translating Lithuanian texts; workshop in translating Lithuanian works into English. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): LITH 302 or consent of the instructor.

499 Independent Study 1 TO 4 hours. Investigation of special problems under the general direction of a staff member. May be repeated to a maximum of 8 hours. Graduate students may register for more than one section per term; undergraduates may only register for one section per term. Prerequisite(s): Senior or graduate standing, consent of the instructor and the head of the department.
510 History of Lithuanian Language 4 hours. Development of Lithuanian from its Indo-European origins to the formation of the standard language; the aspects of Lithuanian literary language and its lexical, syntactical, and stylistic problems.

515 Lithuanian Linguistics and Poetics 4 hours. Linguistic and stylistic analysis of Lithuanian texts based on contemporary theories of style.

520 Topics in Historical Lithuanian Linguistics 4 hours. Covers major topics and trends in historical Lithuanian linguistics: linguistic history, sociolinguistic history, history of grammars, and dictionaries. Will also cover historical sites of various linguistic schools. May be repeated to a maximum of 12 hours. Taught in Lithuanian. Prerequisite(s): Consent of the instructor.

545 Lithuanian Renaissance and Baroque Literature 4 hours. Lithuanian prose, poetry, and historical works of the sixteenth, seventeenth, and eighteenth centuries.

550 Studies in Lithuanian Romanticism 4 hours. Study of a genre, movement, or topic. Content varies. May be repeated to a maximum of 12 hours.

560 Studies in Lithuanian Realism 4 hours. Study of a topic, author, or movement. Content varies. May be repeated to a maximum of 12 hours.

565 Studies in Twentieth-Century Lithuanian Literature 4 hours. Study of a topic, author, or movement. Content varies. May be repeated to a maximum of 12 hours.

570 Studies in Lithuanian Literary Criticism 4 hours. Function of literary criticism in all epochs of Lithuanian literature. May be repeated to a maximum of 12 hours.

596 Independent Study 1 TO 4 hours. Investigation of special problems under the general direction of a staff member. May be repeated to a maximum of 8 hours. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor and the head of the department.

Management (MGMT)

445 Organizational Analysis and Practice 3 hours. Emphasis on organizational theories and models to analyze and improve functioning and performance of organizations. Structure, technology, environmental adaptation, and managerial control systems. Prerequisite(s): MGMT 340 and junior standing.

447 Organizations 3 OR 4 hours. Characteristics of business, government, and not-for-profit organizations; approaches used to study organizations; theoretical and empirical analysis of organizational processes. Same as SOC 447. 3 undergraduate hours; 4 graduate hours. Prerequisite(s): 6 hours of upper-division sociology, management, or political science; or consent of the instructor.

452 Organizational Behavior 3 hours. Emphasis on understanding and managing people at work. Analysis of individual, group, and organization topics, including leadership, motivation, attitudes, group dynamics, and organizational culture. Prerequisite(s): Junior standing and MGMT 340.

453 Human Resource Management 3 hours. Examination of the activities involved in attracting, retaining, and motivating employees. Topics include planning, selection, compensation, performance appraisal, succession, and legal issues. Prerequisite(s): MGMT 340 and MGMT 350 and junior standing.

460 Business, Society, and the Global Economy 3 hours. Managing in a free enterprise system, market, regulatory, ethical, and cultural norms. Internationalization of business; urban problems of business; land-mark and contemporary case analyses. Prerequisite(s): MGMT 340 and MGMT 350.

463 Negotiation and Conflict Resolution 3 hours. Strategies and techniques for successful agreement negotiation and business conflict resolution. Includes applications to classic situations such as collective bargaining, interpersonal relations, and stakeholder concerns. Prerequisite(s): MGMT 340.

465 Compensation and Reward Systems 3 hours. Examination of compensation and reward systems designed to enhance employee motivation and performance. Topics include pay structure design, incentive systems, and benefits. Prerequisite(s): MGMT 453 and MGMT 454.

466 Managerial Effectiveness Through Diversity 3 hours. Management of diverse work forces. Discrimination, affirmative action, career development, socialization, and social change policies; historical, psychological, sociological, legal, and managerial viewpoints. Prerequisite(s): MGMT 340.

467 Impact of Technological Change 3 hours. Examines the impact of technological change upon the business environment and the managerial process. Emphasis on alternative futures and the planning necessary to attain desired ends. Prerequisite(s): MGMT 340 and MGMT 350.

470 Career Planning and Development 3 hours. Individual and organizational perspectives in career planning. Self-direction, networking, support facilities, and corporate management systems are considered. Prerequisite(s): MGMT 340 or the equivalent and junior standing.

471 Management and Organizational Development 3 hours. Strategies for promoting the creativity, flexibility, and productivity of the organization and its management personnel. Readings and case studies from the public and private sectors. Prerequisite(s): MGMT 340 and MGMT 452, or consent of the instructor.

480 Transportation Systems Management 3 hours. Provides a fundamental knowledge of problems and practices encountered in the management of transportation systems. Includes impact of public policy; capital facilities; industry structure; costs; operations pricing and environmental relationships. Prerequisite(s): MGMT 340 and MGMT 350, or consent of the instructor.

481 Managerial Logistics 3 hours. Management of activities governing flow of materials and products through stages of production and distribution. Includes design of logistical systems and use of mathematical techniques. Prerequisite(s): IDS 355 or consent of the instructor.

494 Special Topics in Management 3 hours. Exploration of areas not covered in existing course offerings or study of selected topics in greater depth. Subject matter will vary from semester to semester. Prerequisite(s): Senior standing and 9 hours of 400-level management courses, or consent of the instructor.

495 Competitive Strategy 4 hours. Multidisciplinary analysis of organization strategy and policy, using case method and/or business simulation. Assignments involve extensive library research and oral and written reports. Prerequisite(s): Senior standing in the College of Business Administration and completion of all other CBA core courses, or consent of the instructor.
490 **Independent Study in Management** 1 TO 3 hours. Independent study of an approved topic in management. Student must prepare a written report under the guidance of the instructor. May be repeated to a maximum of 6 hours. Students may register in more than one section per term. \textit{Prerequisite(s):} Consent of the department head.

530 **Family Business Management** 4 hours. Special issues facing family-owned and closely-held firms. Emphasis on behavioral, operational, and strategic issues, family dynamics, and interpersonal issues in professional settings; succession planning.

540 **Organizational Analysis and Practice** 4 hours. Organizational analysis and applications based on key organization theories, structure, technology, environmental adaptation, management functions and controls, formal and informal organization.

541 **Organizational Behavior** 4 hours. The organization as a social system. Topics include leadership, interpersonal effectiveness, group behavior, managing change, conflict management, motivation and behavior, and interpersonal communications. Credit is not given for MGMT 541 if the student has credit for MBA 505.

553 **Human Resource Management** 4 hours. Human resource management programs and policies. Staffing, training, and development; historical evolution of personnel policies, modern labor force and technological trends; supervision, salary administration, human resource research and utilization.

557 **International Management** 4 hours. Management practices and problems in major nations. Legal and cultural factors affecting managerial policies and decisions; organization planning and manpower utilization; comparative management systems and ideologies.

564 **Negotiations** 4 hours. Strategies and techniques for successful agreement negotiation and business conflict resolution. Includes applications to classic situations such as collective bargaining, interpersonal relations, and stakeholder concerns.

568 **Compensation Administration** 4 hours. Compensation theory policies and practices, including job analysis and evaluation, compensation surveys, wage and salary structures, merit and incentive compensation, employee benefits and pension plans.

570 **Social and Legal Environment of the Firm** 4 hours. Exploration of current ethical, social, political, technological, economic, and global issues as they relate to business and management in setting goals, making decisions, and creating policy.

573 **Research Methods in Organizational Behavior and Human Resource** 4 hours. Methodologies and industrial design appropriate for research in human resource and relations management, and organizational behavior. Students expected to complete a theoretically based research paper. \textit{Prerequisite(s):} PhD student status or consent of instructor.

576 **Behavioral Science Applications in Human Resource Management** 4 hours. Applies concepts, structures, theories, and methods of organizational behavior to develop techniques useful for research and practice at the microlevel of human resource management.

579 **Contemporary American and International Management** 4 hours. Student teams evaluate case studies, present findings and recommendations for business strategies and research corporations of visiting executives, prepare presentations, and critique lectures.

581 **Administrative Structure and Organizational Design** 4 hours. An advanced exploration of theories of administrative structure and organizational design. Course topics include: conceptual models, macro, middle, and microlevel variables and principles and strategies of organizational change and development.

582 **Management of Innovation and Technological Change** 4 hours. Analysis of the role of organization structure and management processes in fostering innovation. Emphasis on issues in research and development, flexible manufacturing, government policy, and technology transfer.

584 **Family Business** 4 hours. The theory and practice of making retailing decisions regarding pricing, product, place and promotion, and the development of strategy based on market competition and trends.

590 **Strategic Management** 4 hours. Study of strategies and policies that influence the long-term survival, growth, and character of business firms; strategy formulation and implementation in domestic and international organizations. \textit{Prerequisite(s):} Enrollment in the final year of the MBA program.

591 **Research Apprenticeship** 2 TO 4 hours. Directed training in conducting research in specific areas of management and in developing skills related to the research. Satisfactory/Unsatisfactory grading only. May be repeated.

594 **Special Topics in Management** 1 TO 4 hours. An intensive study of a selected topic in management. Topics vary by section and by term. May be repeated to a maximum of 12 hours if topics vary. Students may register in more than one section per term. \textit{Prerequisite(s):} Consent of the instructor.

596 **Independent Study in Management** 1 TO 4 hours. Independent study under direction of a faculty member. May be repeated. Students may register in more than one section per term. \textit{Prerequisite(s):} Consent of the head of the department.

599 **PhD Thesis Research** 0 TO 16 hours. Independent research on topic approved for the doctoral dissertation. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. \textit{Prerequisite(s):} Consent of the instructor.

**Marketing (MKTG)**

452 **Principles of Retailing** 3 hours. The theory and practice of making retailing decisions regarding pricing, product, place and promotion, and the development of strategy based on market competition and trends. \textit{Prerequisite(s):} MKTG 360.
460 Marketing Analytics 3 hours.
Introduction to data-centered analysis for critical aspects of marketing, such as sales forecasting, profitability analysis, market segmentation, promotion budgeting, and database marketing.
Prerequisite(s): MKTG 360 and IDS 270.

461 Consumer Market Behavior 3 hours.
Understanding consumer decision processes; steps in decision making, including need recognition, perception, cognition and attitude formation; effect of environmental social, psychological, and individual difference factors on consumer decision making.
Prerequisite(s): MKTG 360 or consent of the instructor.

462 Marketing Research 3 hours.
An investigation of the gathering, analyses, and interpretation of information used in solving marketing problems. Both qualitative and quantitative methods are employed in developing an analytical framework.
Prerequisite(s): MKTG 360 and IDS 270.

463 Marketing Channels and E-commerce 3 hours.
Develop an integrated distribution system; relationship to firm’s marketing structure (logistics), evaluation of decisions on sources, plant and warehouse location, domestic and international outlets. Analysis by marketing channels and e-commerce role in distribution.
Prerequisite(s): MKTG 360.
Business administration students must have declared a major or have received consent of the instructor.

465 Strategic Marketing Planning and Management 3 hours.
Development of marketing plans for strategic and tactical programs to achieve the firm’s marketing objectives.
Prerequisite(s): 15 hours of marketing.

466 Comparative Marketing Systems 3 hours.
Treats the topic of domestic marketing systems in other countries, their structures and processes, in a framework of comparative cultural, political, economic, and social systems.
Prerequisite(s): MKTG 360 or consent of the instructor. Business administration students must have declared a major.

469 Global Marketing 3 hours.
The strategic and tactical marketing of goods and services to countries beyond domestic or current markets. Distinct economic, sociocultural, and political-legal-regulatory environments are considered.
Prerequisite(s): MKTG 360 and BA 200, or consent of the instructor.

471 Services Marketing 3 hours.
An exploration of the special challenges of services marketing, including analyzing and developing solutions for new services, service quality, design and delivery of services, and services recovery.
Prerequisite(s): MKTG 360.

473 The Personal Selling Effort in Marketing 3 hours.
Analysis of selling strategies and tactics in different situations; problems of managing sales force. Cultural differences in selling techniques as well as ethical concerns will be discussed.
Prerequisite(s): MKTG 461 or consent of the instructor.

474 Advertising and Sales Promotion 3 hours.
The management, planning, creation, evaluation, and use of advertising and sales promotion. Evaluation and critique of an ad campaign.
Prerequisite(s): MKTG 461 or consent of the instructor.

475 Product Management 3 hours.
Development and review of new and existing products and services during their life cycles; the evolution of products and services from a creative idea to their withdrawal from the market.
Prerequisite(s): MKTG 462 or consent of the instructor.

476 Business-to-Business (B2B) Marketing 3 hours.
Unique concepts and strategies applied when businesses market to other organizations and institutions. Derived demand, systems selling, bid pricing, national account programs, and using distributors.
Prerequisite(s): MKTG 360.

494 Special Topics in Marketing 3 hours.
Intensive study of selected problems. Reading assignments from scholarly and professional journals; emphasis on covering relatively few areas in great depth.

499 Independent Study in Marketing 3 hours.
Topic and research methodology is to be determined by consultation with the instructor. May be repeated to a maximum of 12 hours. Students may register in more than one section per term.
Prerequisite(s): Major in marketing. Consent of the head of the department and the instructor must be obtained prior to registration.

500 Introduction to Marketing 4 hours.
Client/consumer behavior and the way institutions respond to such behavior through the planning, pricing, promotion, and distribution of goods and services. Credit is not given for MKTG 500 if the student has credit for MBA 506.
Prerequisite(s): Graduate standing in the College of Business Administration or consent of the instructor.

518 Electronic Marketing 4 hours.
Overview of the electronic marketing value chain. Internet and Web technologies, system design, payment systems, business requirements for e-marketing, design, and ethical issues. Same as IDS 518. Prerequisite(s): MKTG 500 or MBA 506 or consent of the instructor.

571 International Business Operations 4 hours.
Centers attention on the policies and problems of firms operating across international frontiers and the social questions they generate. Attention is directed at investing overseas, licensing agreements, joint ventures, and contracting.
Prerequisite(s): MKTG 500.

572 International Marketing 4 hours.
Focuses on firms which operate internationally from their home country base. Attention is directed toward working with overseas distributors, promotion and pricing problems, governmental export assistance, and physical distribution matters.
Prerequisite(s): MKTG 500.

573 Marketing Channels Management 4 hours.
Operations of various institutions that constitute the channel(s) for marketing goods and services. Emphasis on the practices of institutions at each level in the distribution system and the interaction that occurs among them.
Prerequisite(s): MKTG 500.

574 Product Planning 4 hours.
In-depth coverage of all aspects of the product, service, and program planning process. Conceptual aspects as applied to new and existing product entries.
Prerequisite(s): MKTG 500.

Buyer behavior, market segmentation, derived demand, national account programs, system selling, big pricing. Industrial promotion mix, mass communications, and management of sales force.
Prerequisite(s): MKTG 500.
581 Seminars in Consumer Behavior 4 hours. Theories and concepts relevant to consumer behavior; the decision making process for both profit and nonprofit goods and services. Prerequisite(s): Admission to the PhD in Business Administration program.

583 Seminar in Marketing Theory 4 hours. Emphasis on marketing literature evolution and development of marketing practices that reflect influence the basic literature. Attention devoted to how other fields have contributed to marketing thought. Prerequisite(s): Admission to the PhD in Business Administration program.

584 Product Innovation and Development 4 hours. An in-depth investigation of the factors affecting the new product strategy of the firm and its management of product innovation. Prerequisite(s): Admission to the PhD in Business Administration program.

585 Seminar: Topics in Quantitative Models in Marketing 4 hours. Formulation of conceptual and quantitative models which relate marketing activities and behaviors to other behaviors or sales or profit. Examines methods which researchers have used to test hypothesized marketing models. Prerequisite(s): Admission to the PhD in Business Administration program.

586 Advanced International Marketing 4 hours. Concepts and problems pertaining to export marketing with emphasis on multinational businesses. Includes product modification, differential pricing, national social and commercial policies, promotion, and logistical issues. Prerequisite(s): Admission to the PhD in Business Administration program.

587 Advanced Marketing Research 4 hours. Multidimensional scaling, conjoint analysis including hybrid analysis, choice models including multinomial logit and probit models, selectivity models. Prerequisite(s): Admission to the PhD in Business Administration program.

588 Marketing Communications 4 hours. The firm’s use of the elements of the promotion mix: advertising, personal selling, sales promotion, publicity, and public relations for effective communication with its markets. Prerequisite(s): Admission to the PhD in Business Administration program and consent of the instructor.

589 Services Marketing 4 hours. Distinctive aspects of services marketing examined from both a conceptual and managerial perspective with focus on the research frontiers and questions in services marketing. Prerequisite(s): Admission to the PhD in Business Administration program.

594 Special Topics in Marketing 4 hours. An intensive study of a selected topic in marketing. Topics vary. Students should contact the instructor to find out what topics will be covered. Prerequisite(s): MKTG 500.

596 Independent Study in Marketing 1 TO 4 hours. Independent study under the direction of a faculty member. May be repeated. Students may register in more than one section per term. Prerequisite(s): Enrollment by petition to the director of the MBA program.

599 PhD Thesis Research 0 TO 16 hours. Independent research on topic approved for the doctoral dissertation. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

599 Master of Business Administration (MBA) Program 1 TO 4 hours. An intensive study of a selected business topic not available in current course offerings. Subject matter will vary by section and semester. May be repeated to a maximum of 16 hours if topics vary. Students may register in more than one section per term. Prerequisite(s): Admission to the MBA program.

596 Independent Study 0 TO 8 hours. Independent study under the direction of a faculty member. May be repeated. Students may register in more than one section per term. Prerequisite(s): Enrollment by petition to the director of the MBA program.

Prerequisite(s): Admission to the PhD in Business Administration program.

590 Professional Topics 2 TO 4 hours. A series of workshops designed to develop critical managerial skills and to explore timely management issues not directly related to core business functional areas. May be repeated to a maximum of 6 hours if topics vary. Students may register in more than one section per term. Prerequisite(s): Admission to the MBA program.

591 Study Abroad—Master of Business Administration Program 0 TO 16 hours. Lectures, seminars, and independent travel/study abroad in conjunction with admission to the MBA program. May be repeated to a maximum of 24 hours. Prerequisite(s): Admission to the MBA program and consent of the director.

592 Master of Business Administration Project 8 hours. Multidisciplinary/team project at an outside company or university office. A written report and an oral presentation of the project is required. Prerequisite(s): Admission to the MBA program and consent of the MBA program director.

594 Special Topics—Master of Business Administration Program 1 TO 4 hours. An intensive study of a selected business topic not available in current course offerings. Subject matter will vary by section and semester. May be repeated to a maximum of 16 hours if topics vary. Students may register in more than one section per term. Prerequisite(s): Admission to the MBA program.

Prerequisite(s): Consent of the instructor.

Prerequisite(s): Consent of the instructor.

502 Concepts for Pediatric/Perinatal Clinical Nurse Specialist Practice 1 TO 2 hours. Students analyze theory and research related to the patient/family sphere of influence in order to design care for pediatric or perinatal patients and families. Prerequisite(s): NUMC 500 and credit or concurrent registration in NUMC 520.

504 Concepts for Pediatric/Perinatal Clinical Nurse Specialist II 2 hours. Students analyze theories and research related to pediatric or perinatal nursing personnel and organizational spheres of influence. Prerequisite(s): NUMC 502 and credit or concurrent registration in NUMC 521.

507 Biological Basis for Women’s Health and Perinatal Nursing I 2 hours. Focuses on the anatomy and physiology of reproductive function, pregnancy, parturition, the puerperium, and menopause as the biological basis for women’s health and perinatal nursing. Same as NUMC 507.

Prerequisite(s): Consent of the instructor.

508 Biological Basis for Women’s Health and Perinatal Nursing II 2 hours. The anatomy, physiology, and genetics of conception, embryonic development, and fetal and neonatal growth and development as the biological basis for women’s health and perinatal nursing. Prerequisite(s): NUMC 507 or NUMC 507 or consent of the instructor.

510 Advanced Nursing Care of the Well Infant, Child, and Adolescent 3 hours. Emphasizes prevention, health promotion and maintenance for all childhood age groups through teaching, counseling, guidance, and support of children and their families. Prerequisite(s): Credit or concurrent registration in NUSC 530 or consent of the instructor.
Nursing 3 hours.

517 Healthcare of

Care I 1 TO 4 hours. Emphasizes clinical experiences in prevention, health promotion, and maintenance through teaching, counseling, guidance, and support of children and their families. May be repeated. Prerequisite(s): Credit or concurrent registration in NUSC 530 and credit or concurrent registration in NUSC 531, or consent of the instructor.

518 Healthcare of

Women III 4 hours. Healthcare of women through the life span with an emphasis on gynecologic and primary care. Same as NUWH 519. Prerequisite(s): NUSC 518 or NUWH 518, and NUSC 531 and NUSC 532 and NUSC 535.

519 Healthcare of

Women III 4 hours. Healthcare of women through the life span with an emphasis on gynecologic and primary care. Same as NUWH 519. Prerequisite(s): NUSC 518 or NUWH 518, and NUSC 531 and NUSC 532 and NUSC 535.

520 Pediatric and

Perinatal Clinical

Nurse Specialist

Practicum I 3 hours. The application of advanced knowledge of theory and research to care for pediatric and perinatal patients and families who require the care of a clinical nurse specialist. Prerequisite(s): NUMC 508 and NUSC 531 and NUSC 532 and NUSC 535.

521 Pediatric and

Perinatal Clinical

Nurse Specialist

Practicum II 4 hours. The application of theory and research related to pediatric and perinatal nursing personnel and the healthcare organization; systematic assessment for problem identification and outcome evaluation. Prerequisite(s): NUSC 520 and NUSC 504.

522 Pediatric and Perinatal

Clinical Nurse Specialist

Specialist III 5 hours. The application of theory and research for expansion of professional role competencies related to pediatric and perinatal nursing personnel and the healthcare organization. Prerequisite(s): Credit or concurrent registration in NUSC 521.

524 Dimensions of Midwifery

and Women's Health

Practice 3 hours. Examines the complex functions and roles of women’s healthcare providers. Prerequisite(s): NUSC 519 and NUSC 525 and NUSC 526 and NUSC 529.

525 Practicum:

Healthcare of

Women 1 TO 8 hours. Clinical experiences to develop nurse-midwifery and nurse practitioner competencies in the healthcare of women. May be repeated. Prerequisite(s): NUSC 517 and NUSC 531 and NUSC 532.

526 Practicum:

Birth and the

Newborn 1 TO 8 hours. Clinical experiences to develop beginning competence in the nurse-midwifery care of women and their newborns during parturition. May be repeated. Prerequisite(s): NUSC 518 and NUSC 531 and NUSC 532.

Mathematical Computer

Science (MCS)

401 Computer

Algorithms I 3 OR 4 hours. Design and analysis of computer algorithms. Divide-and-conquer, dynamic programming, greedy method, backtracking. Algorithms for sorting, searching, graph computations, pattern matching, and NP-complete problems. Same as CS 401. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in MCS 261 or grade of C or better in CS 202; and grade of C or better in MATH 310 or grade of C or better in MATH 320 or grade of C or better in MATH 330.

425 Graph Theory 3 OR 4 hours. Basic concepts of graph theory, including Eulerian and hamiltonian cycles, trees, colorings, connectivity, shortest paths, minimum spanning trees, network flows, bipartite matching, planar graphs, 3 under­graduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in MCS 261 or grade of C or better in CS 202; and grade of C or better in MATH 310 or grade of C or better in MATH 320 or grade of C or better in MATH 330.
automata, elements of the theory of computable functions. 3 undergraduate hours. 4 graduate hours.
Prerequisite(s): Grade of C or better in CS 202 or grade of C or better in MCS 261.

451 Object-Oriented Programming in C++ 3 OR 4 hours.
C++ as an object-oriented language, classes and member functions, access control, class scope, constructors, destructors, overloading, conversions, streams, derived classes, polymorphism through virtual functions, templates, class libraries, 3 undergraduate hours. 4 graduate hours. Credit is not given for MCS 451 if the student has credit for CS 474. Extensive computer use required.
Prerequisite(s): Grade of C or better in MCS 360 or the equivalent or consent of the instructor.

471 Numerical Analysis 3 OR 4 hours.
Introduction to numerical analysis; floating point arithmetic, computational linear algebra, iterative solution to nonlinear equations, interpolation, numerical integration, numerical solution of ODEs, computer subroutine packages. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in MCS 275 or grade of C or better in CS 102 or grade of C or better in CS 108; or consent of instructor.

472 Introduction to Industrial Math and Computation 3 OR 4 hours.
Technical writing and oral presentations in preparation for industrial projects. Topics include quality control, operations research, cost-benefit analysis, differential equations, using scientific software. Extensive computer use required. Prerequisite(s): Grade of C or better in MCS 471 or consent of the instructor.

Recommended background: Designed for students with a desire to explore mathematics via practical fieldwork.

487 Computational Geometry 3 OR 4 hours.
Algorithmic problems on sets of points, rectangles, intervals, arcs, chords, polygons. Counting, reporting, location, intersection, pairing; static and dynamic data structures, 3 undergraduate hours. 4 graduate hours.
Prerequisite(s): Grade of C or better in MCS 401 or consent of the instructor.

494 Special Topics in Computer Science 3 OR 4 hours.
Topics in mathematical computer science, such as symbolic computation, automated reasoning, cryptography, or geometric algorithms. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 12 hours. Students may register in more than one section per term. Prerequisite(s): Approval of the department.

496 Independent Study 1 TO 4 hours.
Reading course supervised by a faculty member. May be repeated. Students may register in more than one section per term. Prerequisite(s): Approval of the instructor and the department.

501 Computer Algorithms II 4 hours.
Continuation of MCS 401 (Same as CS 401). Advanced topics in algorithms. Lower bounds. Union-find problems. Fast Fourier transform. Complexity of arithmetic, polynomial, and matrix calculations. Approximation algorithms. Parallel algorithms. Same as CS 501. Prerequisite(s): MCS 401 or CS 401.

503 Mathematical Methods for Algorithm Analysis 4 hours.
Discrete mathematical techniques useful in algorithm analysis: summation methods, floor/ceiling expressions, modular arithmetic techniques, harder binomial identities, special numbers, generating functions, asymptotics. Prerequisite(s): Grade of C or better in MCS 275 or grade of C or better in CS 102 or grade of C or better in CS 108; or consent of instructor.

504 Mathematics and Information Science for Industry Workshop 4 hours.
A project-based course on one or more topics in applied mathematics, statistics, or computer science, motivated by industrial problems. The topics vary from year to year. May be repeated. Students may register in more than one section per term. Prerequisite(s): Grade of B or better in MCS 401 and grade of B or better in MCS 401 and grade of B or better in MCS 401.

507 Mathematical, Statistical, and Scientific Software 4 hours.
The design, analysis, and use of mathematical, statistical, and scientific software. Prerequisite(s): Grade of B or better in MCS 360 or the equivalent or consent of instructor.

521 Combinatorial Optimization 4 hours.
Combinatorial optimization: network flows, bipartite matching, Edmonds algorithm for maximum matching and matching polytope, matroids, greedy algorithm, matroid union and intersection algorithms, matroid polyhedra, polymatroids. Prerequisite(s): MCS 423 and STAT 471.

531 Error-Correcting Codes 4 hours.
Finite fields, cyclic codes, quadratic residue codes, BCH codes, decoding schemes. Reed-Muller codes, weight distributions, codes and designs. Prerequisite(s): Grade of C or better in MCS 261, and grade of C or better in MATH 310 or grade of C or better in MATH 330.

541 Computational Complexity 4 hours.
Time and space complexity of computations, classification of math problems according to their computational complexity. P not equal NP problem. Prerequisite(s): Consent of the instructor.

548 Mathematical Theory of Artificial Intelligence 4 hours.
Valliant’s learning model, positive and negative results in learnability, automation inference, perceptrons, Rosenblatt’s theorem, convergence theorem, threshold circuits, inductive inference of programs, grammars and automata. Prerequisite(s): MCS 541.

551 Generic Programming and the C++ Standard Template Library 4 hours.
Generic programming in C++. Templates, namespaces, smart pointers, references counting, Algorithms, ranges, concepts, and modeling, iterators, function objects, adaptors, and containers. Algorithms and container classes in the STL. Extensive computer use required. Prerequisite(s): Grade of C or better in MCS 401 or grade of C or better in an equivalent course in C++.

563 Analytic Symbolic Computation 4 hours.
Analytic computation, including integration algorithms, differential equations, perturbation theory, mixed symbolic-numerical algorithms, and other related topics. Prerequisite(s): Grade of C or better in MCS 465 or the equivalent, and MATH 480 or consent of the instructor.

565 Mathematical Theory of Databases 4 hours.
Abstract systems for databases, syntax and semantics of operational language(s), dependencies and normal forms, axioms, queries and query optimization, null values, algebraic interpretations.

571 Numerical Methods for Partial Differential Equations 4 hours.
Finite difference methods for parabolic, elliptic and hyperbolic differential equations; explicit, Crank-Nicolson implicit, alternating directions implicit, Jacobi, Gauss-Seidel, successive over-relaxation, conjugate gradient, Lawson-Wendorf, Fourier stability. Prerequisite(s): MATH 481 and MCS 471 or consent of the instructor.

572 Introduction to Supercomputing 4 hours.
Introduction to supercomputing on vector and parallel processors, architectural comparisons, parallel algorithms, vectorization techniques, parallelization techniques, actual implementation on real machines. Prerequisite(s): MCS 471 or MCS 571 or consent of the instructor.

575 Computer Performance Evaluation 4 hours.
Modeling of computer systems, basic queues, central server models, Little’s Law, operational analysis, Markovian networks, Jackson and BOMP networks, product form solutions, computational algorithms, mean value analysis, approximation methods. Prerequisite(s): STAT 401 and MCS 412 or consent of the instructor.

590 Advanced Topics in Computer Science 4 hours.
Topics in areas such as: mathematical aspects of artificial intelligence, symbolic methods in mathematics, mathematical cryptography, automated reasoning. Topics may vary from term to term. May be repeated. Students may register in more than one section per term. Prerequisite(s): Approval of the department.
591 Advanced Topics in Combinatorial Theory 4 hours.
Some of the following topics: combinatorial enumeration, designs, graph theory, matroid theory, combinatorial matrix theory, Ramsey theory. Contents vary from year to year. May be repeated. Prerequisite(s): MCS 321 or consent of the instructor.

592 Advanced Topics in Error-Correcting Codes 4 hours.
Topics of current interest in coding theory including codes which are of practical value and which shed light on various mathematical areas. Prerequisite(s): MCS 321 or consent of the instructor.

593 Graduate Student Seminar 1 hour.
For graduate students who wish to receive credit for participating in a learning seminar whose weekly time commitment is not sufficient for a reading course. This seminar must be sponsored by a faculty member. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Approval of the department.

595 Graduate Seminar 1 hour.
Current developments in research with presentations by faculty, students, and visitors. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Approval of the department.

596 Independent Study 1 TO 4 hours.
Reading course supervised by a faculty member. May be repeated. Students may register in more than one section per term. Prerequisite(s): Approval of the instructor and the department.

597 MISI Master’s Project 2 TO 4 hours.
Specialized project under close faculty supervision to satisfy the project requirement for the MS in Mathematical Computer Science (MCS). Prerequisite(s): MICS 304 and approval of the department.

598 Master’s Thesis 0 TO 16 hours.
Research work under the supervision of a faculty member leading to the completion of a master’s thesis. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Approval of the department.

599 Thesis Research 0 TO 16 hours.
Research work under the supervision of a faculty member leading to the completion of a doctoral thesis. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Approval of the department.

Mathematics (MATH)

410 Advanced Calculus I 3 OR 4 hours.
Functions of several variables, differentials, theorems of partial differentiation. Calculus of vector fields, line and surface integrals, conservative fields, Stokes’ and divergence theorems, Cartesian tensors. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in MATH 210.

411 Advanced Calculus II 3 OR 4 hours.
Implicit and inverse function theorems, transformations, Jacobians. Point-set theory. Sequences, infinite series, convergence tests, uniform convergence. Improper integrals, gamma and beta functions, Laplace transform. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in MATH 210.

414 Analysis II 3 OR 4 hours.
Sequences and series of functions. Uniform convergence, Taylor’s theorem. Topology of metric spaces, with emphasis on the real numbers. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in MATH 314.

417 Complex Analysis with Applications 3 OR 4 hours.
Complex numbers, analytic functions, complex integration, Taylor and Laurent series, residue calculus, branch cuts, conformal mapping, argument principle, Rouche’s theorem, Poisson integral formula, analytic continuation. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in MATH 210.

419 Models in Applied Mathematics 3 OR 4 hours.
Introduction to mathematical modeling—scaling, graphical methods, optimization, computer simulation, stability, differential equation models, elementary numerical methods, applications in biology, chemistry, engineering, and physics. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in MATH 220 and grade of C or better in MATH 260.

425 Linear Algebra II 3 OR 4 hours.
Canonical forms of a linear transformation, inner product spaces, spectral theorem, principal axis theorem, quadratic forms, special topics such as linear programming, 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in MATH 220.

430 Formal Logic I 3 OR 4 hours.
First order logic, syntax and semantics, completeness— incompleteness. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in MATH 220.

431 Abstract Algebra II 3 OR 4 hours.
Further topics in abstract algebra: Sylow Theorems, Galois Theory, finitely generated modules over a principal ideal domain. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in MATH 220.

435 Foundations of Number Theory 3 OR 4 hours.
Primes, divisibility, congruences, Chinese remainder theorem, primitive roots, quadratic residues, quadratic reciprocity, and Jacobi symbols. The Euclidean algorithm and strategies of computer programming. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in MATH 220.

445 Introduction to Topology I 3 OR 4 hours.
Elements of metric spaces and topological spaces, including product and quotient spaces, compactness, connectedness, and completeness. Examples from Euclidean space and function spaces. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in MATH 315.

446 Introduction to Topology II 3 OR 4 hours.
Topics in topology chosen from the following: advanced point set topology, piecewise linear topology, fundamental group and knots, differential topology, applications to physics and biology. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in MATH 445.

450 Applied Differential Equations 3 OR 4 hours.
Linear first-order systems. Numerical methods. Nonlinear differential equations and stability. Introduction to partial differential equations. Sturm-Liouville theory. Boundary value problems and Green’s functions. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in MATH 220.

481 Applied Partial Differential Equations 3 OR 4 hours.
Initial value and boundary value problems for second order linear equations. Eigenfunction expansions and Sturm-Liouville theory. Green’s functions. Fourier transform. Characteristics. Laplace transform. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in MATH 220.

494 Special Topics in Mathematics 3 OR 4 hours.
Course content is announced prior to each term in which it is given. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): Approval of the department.
496 Independent Study 1 TO 4 hours. Reading course supervised by a faculty member. May be repeated. Students may register in more than one section per term. Prerequisite(s): Approval of the instructor and the department.

502 Metamathematics I 4 hours. First order logic, completeness theorem, and model theory. Same as PHIL 562. Prerequisite(s): MATH 430 or consent of the instructor.

503 Metamathematics II 4 hours. Incompleteness theorems, elementary recursion theory and proof theory, first and second order arithmetic. Same as PHIL 563. Prerequisite(s): MATH 502 or MATH 562.

504 Set Theory I 4 hours. Naive and axiomatic set theory. Independence of the continuum hypothesis and the axiom of choice. Same as PHIL 565. Prerequisite(s): MATH 430 or MATH 502 or MATH 562.

506 Model Theory I 4 hours. Introduction to stability theory: categoricity, stability, forking, fine equivalence relation theorem, indiscernibles, orthogonality. Same as PHIL 567. Prerequisite(s): MATH 502 or MATH 562.

507 Model Theory II 4 hours. Intermediate stability theory: dependence, prime models, isolation, regular types, dimension, weight. Same as PHIL 568. Prerequisite(s): MATH 506 or MATH 567.

509 Universal Algebra I 4 hours. Algebraic systems, homomorphisms, congruences, subalgebras, direct and subdirect products. Equational classes, free algebras, Birkhoff’s theorem. Malcev conditions, congruence distributive equational classes. Prerequisite(s): MATH 530 and MATH 425.

510 Universal Algebra II 4 hours. Discriminator and directly representable varieties, ultraproducts and quasivarieties, finitely based equational theories, commutator and center. Prerequisite(s): MATH 509.

512 Advanced Topics in Logic 4 hours. Advanced topics in modern logic; e.g., descriptive set theory, model theory of fields, theory of hierarchies, stable groups. Same as MATH 569. May be repeated. Students may register in more than one section per term. Prerequisite(s): Approval of the department.

513 Advanced Topics in Universal Algebra and Lattice Theory 4 hours. Special topics. May be repeated. Students may register in more than one section per term. Prerequisite(s): Approval of the department.

514 Number Theory I 4 hours. Introduction to classical, algebraic, and analytic number theory. Euclid’s algorithm, unique factorization, quadratic reciprocity, and Gauss sums, quadratic forms, real approximations, arithmetic functions, Diophantine equations.

515 Number Theory II 4 hours. Introduction to classical, algebraic, and analytic number theory. Algebraic number fields, units, ideals, and P-adic theory. Riemann Zeta-function, Dirichlet’s theorem, prime number theory. Prerequisite(s): MATH 514.

516 Second Course in Abstract Algebra I 4 hours. Structure of groups, Sylow theorems, solvable groups, structure of rings, polynomial rings, projective and injective modules, finitely generated modules over a PID. Prerequisite(s): MATH 530 and MATH 425.

517 Second Course in Abstract Algebra II 4 hours. Rings and algebras, polynomials in several variables, power series rings, tensor products, field extensions, Galois theory, Wedderburn theorems. Prerequisite(s): MATH 516.

518 Representation Theory 4 hours. Major areas of representation theory, including structure of group algebras, Wedderburn theorems, characters and orthogonality relations, idempotents and blocks. Prerequisite(s): MATH 517.

519 Algebraic Groups 4 hours. Classical groups as examples; necessary results from algebraic geometry; structure and classification of semisimple algebraic groups. Prerequisite(s): MATH 517.

531 Advanced Topics in Algebra 4 hours. Research level topics, such as groups and geometries, equivalences of module categories, representations of Lie-type groups. May be repeated. Students may register in more than one section per term. Prerequisite(s): Approval of the department.

532 Real Analysis I 4 hours. Introduction to real analysis. Lebesgue measure and integration, differentiation, Lp classes, abstract integration. Prerequisite(s): MATH 411 or MATH 414 or the equivalent.

533 Real Analysis II 4 hours. Continuation of MATH 532. Prerequisite(s): MATH 417.

535 Complex Analysis II 4 hours. Analytic functions as mappings. Cauchy theory, Power Series. Partial fractions, Infinite products. Prerequisite(s): MATH 411 or MATH 427.

536 Complex Analysis III 4 hours. Normal families, Riemann mapping theorem. Analytic continuation, Harmonic and subharmonic functions, Picard theorem, selected topics. Prerequisite(s): MATH 535.

537 Introduction to Harmonic Analysis I 4 hours. Fourier transform on Lp spaces, Wiener’s Tauberian theorem, Hilbert transform, Paley-Wiener theory. Prerequisite(s): MATH 533 and MATH 417 or MATH 535.

539 Functional Analysis I 4 hours. Topological vector spaces, Hilbert spaces, Hahn-Banach theorem, open mapping, uniform boundedness principle, linear operators in a Banach space, compact operators. Prerequisite(s): MATH 533.

541 Partial Differential Equations I 4 hours. Theory of distributions; fundamental solutions of the heat equation, wave equation, and Laplace equation; Harmonic functions; Cauchy problem for the wave equation. Prerequisite(s): MATH 417.

546 Advanced Topics in Analysis 4 hours. Subject may vary from semester to semester. Topics include partial differential equations, several complex variables, harmonic analysis and ergodic theory. May be repeated. Students may register in more than one section per term. Prerequisite(s): Approval of the department.

547 Algebraic Topology I 4 hours. The fundamental group and its applications, covering spaces, classification of compact surfaces, introduction to homology, development of singular homology theory, applications of homology. Prerequisite(s): MATH 330 and MATH 445.

548 Algebraic Topology II 4 hours. Cohomology theory, universal coefficients, cohomology products and their applications, orientation and duality for manifolds, homotopy groups and fibrations, the Hurewicz theorem, selected topics. Prerequisite(s): MATH 547.

549 Differentiable Manifolds I 4 hours. Smooth manifolds and maps, tangent and normal bundles, Sard’s theorem and transversality, embedding, differential forms, Stokes’ theorem, degree theory, vector fields. Prerequisite(s): MATH 445.

550 Differentiable Manifolds II 4 hours. Vector bundles and classifying spaces, Lie groups and Lie algebras, tensors, Hodge theory, Poncare duality. Topics from elliptic operators, Morse theory, cobordism theory, deRahm theory, characteristic classes. Prerequisite(s): MATH 549.

551 Riemannian Geometry 4 hours. Riemannian metrics and Levi-Civita connections, geodesics and completeness, curvature, first and second variation of arc length, comparison theorems. Prerequisite(s): MATH 442 and MATH 549.

552 Algebraic Geometry I 4 hours. Basic commutative algebra, affine and projective varieties, regular and rational maps, function fields, dimension and smoothness, projective curves, schemes, sheaves, and cohomology positive characteristic.
Advanced Topics in Algebraic Geometry 4 hours. Various topics such as algebraic curves, surfaces, higher dimensional geometry, singularities, theory of moduli problems, vector bundles, intersection theory, algebraic geometry, and topologies of algebraic varieties. May be repeated. Students may register in more than one section per term. Prerequisite(s): Approval of the department.

Applied Optimal Control 4 hours. Introduction to optimal control theory: calculus of variations, maximum principle, dynamic programming, feedback control, linear systems with quadratic criteria, singular control, optimal filtering, stochastic control. Prerequisite(s): MATH 411 or MATH 427 or consent of the instructor.

Integral Equations and Applications 4 hours. Fredholm and Volterra equations, Fredholm determinants, separable and symmetric kernels, Neumann series, transform methods, Wiener-Hopf method, Cauchy kernels, nonlinear equations, perturbation methods. Prerequisite(s): MATH 411 and MATH 417 and MATH 481; or consent of instructor.

Boundary Value Problems 4 hours. Distribution, Green’s functions, alternative theorem, regular and singular Sturm-Liouville problems, spectral theory, potential theory, method of images, complex variable methods, equations of evolution. Prerequisite(s): MATH 320 and MATH 417 and MATH 481; or consent of instructor.

Advanced Applied Partial Differential Equations 4 hours. Quasilinear and nonlinear first order PDE’s, shock solutions, second order equations, cylinder and sphere problems, Wavre, Laplace and diffusion equations, maximum principles, nonlinear wave motion. Prerequisite(s): MATH 410 and MATH 417 and MATH 481.

Asymptotic Methods 4 hours. Asymptotic series, Laplace’s method, stationary phase, steepest descent method, Stokes phenomenon, uniform expansions, multi-dimensional Laplace integrals, Euler-MacLaurin formula, irregular singular points, WKBJ method.

Prerequisite(s): MATH 417 and MATH 481; or consent of instructor.

Singular Perturbations 4 hours. Algebraic and transcendental equations, regular perturbation expansions of differential equations, matched asymptotic expansions, boundary layer theory, Poincare-Lindstedt, multiple scales, bifurcation theory, homogenization. Prerequisite(s): MATH 481 or consent of the instructor.

Mathematics of Fluid Mechanics 4 hours. Development of concepts and techniques used in mathematical models of fluid motions. Euler and Navier Stokes equations, vorticity and vortex motion. Waves and instabilities. Viscous fluids and boundary layers. Asymptotic methods. Prerequisite(s): Grade of C or better in MATH 410 and grade of C or better in MATH 417 and grade of C or better in MATH 481.

Special Topics in Fluid Mechanics 4 hours. Geophysical fluids with applications to oceanography and meteorology, astrophysical fluids, magnetohydrodynamics and plasmas. Prerequisite(s): Grade of C or better in MATH 560.

Wave Propagation and Scattering 4 hours. Solutions of wave equations in multiple dimensions, vector, and dyadic waves; separable and nonseparable problems. Representations: Green’s function integrals, complex integrals, spectral representations. Approximate solutions. Prerequisite(s): MATH 417 and MATH 481; or consent of the instructor.

Wave Propagation and Scattering II 4 hours. Solutions of reduced wave equations for scattering of scalar vector, and dyadic waves; separable and nonseparable problems. Representations: Green’s function integrals, complex integrals, various approximations. Prerequisite(s): MATH 582.

Applied Stochastic Models 4 hours. Applications of stochastic models in chemistry, physics, biology, queueing, filtering, and stochastic control, diffusion approximations, Brownian motion, stochastic calculus, stochastic/perturbed dynamical systems, first passage times.
Graduate Student Seminar 1 hour. For graduate students who wish to receive credit for participating in a learning seminar whose weekly time commitment is not sufficient for a reading course. This seminar must be sponsored by a faculty member. Satisfaction/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Approval of the department.

Internship in Mathematics 0 TO 8 hours. Under the direction of a faculty adviser, students work in government or industry on problems related to their major field of interest. At the end of the internship, the student must present a seminar on the internship experience. Satisfaction/Unsatisfactory grading only. May be repeated to a maximum of 8 hours. Only 4 credit hours count toward the 32 credit hours required for the MS in the MS degree. Does not count toward the 12 credit hours of 500-level courses required. Prerequisite(s): Completion of the core courses in the degree program in which the student is enrolled and approval of the internship program by the graduate adviser and the graduate studies committee.

Research Seminar 1 hour. Current developments in research with presentations by faculty, students, and visitors. Satisfaction/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Approval of the department.

Independent Study 1 TO 4 hours. Reading course supervised by a faculty member. May be repeated. Students may register in more than one section per term. Prerequisite(s): Approval of the instructor and the department.

Master's Thesis 0 TO 16 hours. Research work under the supervision of a faculty member leading to the completion of a master's thesis. Satisfaction/Unsatisfactory grading only. Prerequisite(s): Approval of the department.

Thesis Research 0 TO 16 hours. Research work under the supervision of a faculty member. Satisfaction/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Approval of the department.

Mathematics Teaching (MTHT) 400 Methods of Teaching Secondary Mathematics I 3 OR 4 hours. Philosophies, issues, techniques, and styles of teaching high school mathematics. Implications of psychological models. Mathematics in the evolving curriculum. Preparation of lessons. 3 undergraduate hours. 4 graduate hours. To be taken in the year prior to student teaching. Prerequisite(s): Grade of C or better in MTHT 410, enrollment in BS or MS in the Teaching of Mathematics program in Secondary Mathematics Education, and a 2.50 grade point average in mathematics courses at the level of calculus or above.

401 Methods of Teaching Secondary Mathematics II 3 OR 4 hours. Philosophies, issues, techniques, and styles of teaching high school mathematics. Preparation of diverse lessons. Supervised teaching experience. 3 undergraduate hours. 4 graduate hours. To be taken in year prior to student teaching. Prerequisite(s): Grade of C or better in MTHT 210 and enrollment in the BS or MS in the Teaching of Mathematics program in Secondary Mathematics Education, and a 2.50 grade point average in mathematics courses at the level of calculus or above.

410 Advanced Euclidean Geometry I 3 OR 4 hours. A transformational approach to the geometry of the Euclidean plane developed through the use of specific activities. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in MTHT 210.

411 Advanced Euclidean Geometry II 3 OR 4 hours. Axioms for Euclidean geometry are developed based upon reflections. Further concepts in Euclidean geometry which arise from these axioms are explored. 3 undergraduate hours. 4 graduate hours.

Prerequisite(s): Grade of C or better in MTHT 410.

Computers in Secondary School Mathematics 3 OR 4 hours. An overview of techniques, topics and tools for teaching secondary-level mathematics using computers. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in MATH 210.

430 Mathematical Analysis for Teachers I 4 hours. Basic properties of numbers, functions, graphs, limits, continuity, completeness of the system of real numbers. Prerequisite(s): Grade of C or better in MATH 210 or consent of the instructor.

435 Abstract Algebra 3 OR 4 hours. Sets, properties of integers, groups, rings, fields. 3 undergraduate hours. 4 graduate hours. For students in the Master of Science in the Teaching of Mathematics program only. Other students enroll in MATH 330. Prerequisite(s): Grade of C or better in MATH 210 and enrollment in the MS in the Teaching of Mathematics program.

438 Educational Practice with Seminar I 6 hours. The first half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Graduate credit only with approval of the department. Prerequisite(s): 2.50 grade point average in mathematics courses at the level of calculus or above, successful completion of 100-clock hours of pre-student teaching field experiences, and approval of the department.

439 Educational Practice with Seminar II 6 hours. The second half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Graduate credit only with approval of the department. Prerequisite(s): 2.50 grade point average in mathematics courses at the level of calculus or above, successful completion of 100-clock hours of pre-student teaching field experiences.

Prerequisite(s): Admission to the MS in the Teaching of Mathematics program (Option for Elementary School Teachers) or consent of the instructor.

440 Concepts in Elementary School Mathematics I 3 OR 4 hours. Advanced analysis of concept development and teaching methods. Sorting, classifying, counting, number tracks, addition, subtraction, group, place value, length, area, and alternative teaching strategies. 3 undergraduate hours. 4 graduate hours. For elementary school teachers.

Prerequisite(s): Graduate standing and admission to the MS in the Teaching of Mathematics program (Option for Elementary School Teachers) or consent of the instructor.

445 Teaching Algebra and the Graphing Calculator 4 hours. Problem solving using derivatives, differentials, and their applications followed by integrals and their applications. Maximum minimum problems solved directly by graphing, then by derivatives. Prerequisite(s): Admission to the Mathematics Education Concentrators Program or consent of the instructor.

446 Introduction to Calculus and the Graphing Calculator 4 hours. Classical topics of elementary number theory and how they pertain to teaching the upper grades. Primes, GCF, LCM, divisibility, floor and ceiling functions, Gaussian Residue, lattices. Prerequisite(s): Admission to the Mathematics Education Concentrators Program or consent of the instructor.
468 Geometry with Applications for Middle Grade Teachers 4 hours. Plane and solid figures and their properties. Polygons and polyhedra. Euler's formula. Volume versus surface area. Spacial visualization; two-dimensional representations of three-dimensional figures. Prerequisite(s): Admission to the Mathematics Education Concentrators Program or consent of the instructor.

470 Teaching Mathematics with Science: An Activity Approach I 3 OR 4 hours. Introduction to basic variables (length, area, volume, mass, time) and the Scientific Method (picture, table, graph, questions). Extensive use of TIMS project curriculum. 3 undergraduate hours. 4 graduate hours. For elementary school teachers. Prerequisite(s): Admission to the MS in the Teaching of Mathematics program (Option for Elementary School Teachers) or consent of the instructor.

480 Microcomputers in Elementary School Mathematics I 3 OR 4 hours. Introduction to microcomputers and their use in elementary school mathematics. Basic microcomputer functions, educational software programs, pedagogical and curricular implications, and implementation questions. 3 undergraduate hours. 4 graduate hours. For elementary school teachers. Prerequisite(s): Admission to the MS in the Teaching of Mathematics program (Option for Elementary School Teachers) or consent of the instructor.

500 Topics in Teaching Secondary Mathematics 1 TO 5 hours. Course content is announced prior to each term in which it is offered. May be repeated. Students may register in more than one section per term. Prerequisite(s): Prerequisites may vary according to topic.

501 Applied Stress Analysis I 3 OR 4 hours. Complex bending and torsion-curved flexural members, energy methods in design, theories of failure. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ME 203.

508 Intermediate Vibration Theory 3 OR 4 hours. Free and forced vibrations of multi-degree of freedom linear systems. Lagrangian dynamics, matrix, approximate, and numerical methods. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ME 308.

509 Advanced Kinematics I 3 OR 4 hours. Kinematic synthesis of planar linkages. Higher-order, precision point and approximate synthesis. Unified treatment of position, function, and path-angle problems. Consideration of branching and rotatability. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ME 320.

510 Introduction to Higher Geometry 4 hours. Projective geometry as an extension of Euclidean geometry, treated synthetically and/or algebraically. Desargues' and Pappus' theorems, subgeometries, conics and the underlying skew field. For graduate students in mathematics teaching education programs. Other students enroll in MATH 440. Prerequisite(s): Grade of C or better in MATH 330.

530 Mathematical Analysis for Teachers II 4 hours. Derivatives, inverse functions, Riemann integral, trigonometric functions, logarithmic and exponential functions. Prerequisite(s): Grade of C or better in MTHT 430 or consent of the instructor.

550 Concepts and Methods in Elementary School Mathematics II 4 hours. Methods of teaching middle school mathematics: concept development; focus on classroom materials to promote learning. Area, volume, rational numbers, decimals, function machines. Prerequisite(s): MTHT 450 or consent of the instructor.

560 Introduction to Analytic Geometry and Calculus 4 hours. Programmable calculators used to investigate ideas and applications of analytic geometry, differential and integral calculus. Examples and ideas relevant to elementary mathematics and science curricula. For elementary school teachers. Do not purchase a calculator until after the first day of class. Prerequisite(s): MTHT 460 or consent of the instructor.

565 Teaching Geometry: An Activity Approach 4 hours. Informal geometry using manipulatives, elementary topological concepts, polygons, polyhedra, metric geometry motion geometry, geometric constructions, spherical geometry, introduction to learning on the learning of geometry. For elementary school teachers. Prerequisite(s): Enrollment in the MS in the Teaching of Mathematics program (Option for Elementary School Teachers) or consent of the instructor.

575 Principles of Probability and Statistics 4 hours. Probability, descriptive and inferential statistics, implications for teaching. Emphasis on collection and analysis of data, classroom activities and software. For elementary school teachers. Prerequisite(s): Admission to the MS in the Teaching of Mathematics program (Option for Elementary School Teachers) or approval of the department.

589 Practicum in Teaching Elementary School Mathematics 4 hours. Culumining experience for students in the MS in the Teaching of Mathematics (Option for Elementary School Teachers). Major project is required. Supervised weekly seminars. Prerequisite(s): Admission to the MS in the Teaching of Mathematics program (Option for Elementary School Teachers) and consent of the instructor.

590 Topics in Teaching Secondary Mathematics 1 TO 5 hours. Course content is announced prior to each term in which it is given. May be repeated. Students may register in more than one section per term. Prerequisite(s): Prerequisite may vary according to topic.

591 Topics in Teaching Elementary/Junior High School Mathematics 1 TO 5 hours. Course content is announced prior to each term in which it is given. May be repeated. Students may register in more than one section per term. Prerequisite(s): Prerequisite may vary according to topic.

592 Topics in Advanced Mathematics for Teachers 1 TO 5 hours. Course content is announced prior to each term in which it is given. May be repeated. Students may register in more than one section per term. For students in the MS in the Teaching of Mathematics program. Prerequisite(s): Prerequisite may vary according to topic.

596 Independent Study 1 TO 4 hours. Reading course supervised by a faculty member. May be repeated. Students may register in more than one section per term. Prerequisite(s): Approval of the instructor and the department.

Mechanical Engineering (ME)

401 Applied Stress Analysis I 3 OR 4 hours. Classical control theory, concept of feedback, Laplace transform, transfer functions, control system characteristics, root locus, frequency response, compensator design. Same as E 412. 3 undergraduate
Course Descriptions

Mechanical Engineering (ME)

256 hours. 4 graduate hours. Prerequisite(s): ME 306.
413 Dynamics of Mechanical Systems 3 OR 4 hours. Degrees of freedom, generalized coordinates, principle of virtual work. D’Alembert’s Principle, Lagrange’s Equation, Hamilton’s Principle. Equations of motion and Newton-Euler equations for rigid bodies. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ME 320.
414 Theory of Gearing and Applications 3 OR 4 hours. Classification of gear drives. Geometry of plane and spatial gears. Analyzes and synthesis of gears with approximate meshing. Applications to spur, helical, worm and bevel gear drives. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ME 320.
415 Propulsion Theory 3 OR 4 hours. Thermodynamics and fluid mechanics of air-breathing engines, performance of rockets; chemical and nuclear rockets. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ME 419 or the equivalent.
417 Intermediate Fluid Mechanics 3 OR 4 hours. Development of conservation equations for the Newtonian-fluid; continuity, Navier-Stokes and energy equations. Some exact and approximate solutions of highly viscous, viscous- and inviscid flows. Boundary layer flows, jets, and wakes. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ME 318.
419 Compressible Flow Theory 3 OR 4 hours. Conservation laws, one-dimensional flows. Normal and oblique shock waves, Prandtl-Meyer expansion, flow over airfoils. Applications to nozzles, shock-tubes, wind-tunnels. Flow with friction and heat addition or loss. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ME 319.
421 Intermediate Heat Transfer 3 OR 4 hours. Topics in conduction, convection, and radiation with emphasis on exact solutions: extended surfaces, internal and external flows, surface radiation, combined modes of heat transfer and selected topics. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ME 321 or consent of the instructor.

273 Electrical Energy 3 OR 4 hours. High voltage transmission systems; power system operations and planning. Power quality, power electronics. Prerequisite(s): CS 108.

422 Heating, Ventilation, and Air Conditioning 3 OR 4 hours. Refrigeration systems and heat-pump, mass transfer in humidification, solar heat transfer in buildings, heating and cooling loads, air-conditioning computer project. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ME 321.
423 Heat Exchangers 3 OR 4 hours. Classification; heat transfer and pressure drop analysis, flow distribution, transient performance, surface selection and geometrical properties, codes and standards. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ME 211 and ME 321.
424 Energy Management Solutions for Industry: Theory and Practice 3 OR 4 hours. Emphasis on real-world applications including: understanding utility billing and identifying costs; identifying and quantifying energy-savings opportunities at industrial facilities; determining investment payback scenarios and considerations. 3 undergraduate hours. 4 graduate hours. Extensive computer use required. Fieldwork required. Extensive use of Microsoft Excel. Prerequisite(s): Junior standing or above.
425 Second Law Analysis in Energy Engineering 3 OR 4 hours. Fundamentals: lost available work. Entropy generation minimization, optimal thermal design of heat transfer augmentation devices, thermal energy storage, cryocoolers, heat exchangers, thermal insulation, solar collectors. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ME 321.
426 Applied Combustion 3 OR 4 hours. Topics in combustion, providing both a theoretical and applied understanding of combustion processes as they relate to furnaces, internal and external combustion engines; pollutant formation. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ME 325.
427 Solar Engineering 3 OR 4 hours. Applications: solar geometry and intensities; applied heat transfer topics; flat plate and concentrating collectors; energy storage; analysis of heating and cooling systems. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ME 321 or consent of the instructor.

428 Numerical Methods in Mechanical Engineering 3 OR 4 hours. Introduction to numerical solution methods for problems in mechanical engineering. Example problems include heat transfer, fluid mechanics, thermodynamics, mechanical vibrations, dynamics, stress analysis, and other related problems. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): CS 108 and senior standing.
429 Internal Combustion Engines 3 OR 4 hours. Introduction to engine types, characteristics, and performance. Combustion processes in spark and compression ignition engines; combustion abnormalities. Analysis of intake, exhaust, and fuel system. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ME 325.
433 Nonequilibrium Thermal Processes 3 OR 4 hours. Molecular engineering, nonequilibrium statistical mechanics. Distribution functions. Molecular excitation and de-excitation, ionization and dissociation. Laser engineering. Nonequilibrium chemical kinetics. Surface processes. Chemisorption and physisorption. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ME 325 or consent of the instructor.

441 Optical Methods in Mechanical Engineering 0 TO 4 hours. Optical measurement techniques in solid mechanics and thermal-fluid engineering. Fundamentals of optics. Use of holography, interferometry, LDV, lasers, light scattering, diffraction, and other relevant techniques. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Senior standing or consent of the instructor.
444 Interdisciplinary Product Development 1 3 hours. Cross-functional teams (with students from AD 420 and MKTG 594) research and develop new product concepts. Focus on solutions to the opportunities identified in ME 444 to functional prototypes. Yearlong (with ME 444) project course. Prerequisite(s): ME 444; and senior standing or above; and consent of the instructor.
445 Interdisciplinary Product Development 2 4 hours. Cross-functional teams (with students from AD 420 and MKTG 594) research and develop new product concepts. Focus on solutions to the opportunities identified in ME 444 to functional prototypes. Yearlong (with ME 444) project course. Prerequisite(s): ME 444; and senior standing or above; and consent of the instructor.
447 Introduction to Computer-Aided Design 0 TO 4 hours. Conventional and computer-assisted methods in design. Geometry manipulation. Computer-aided modeling with curves, surfaces, and solids. Design with finite-element analysis. FRO/Engineer and PLO/Mechanical. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): MATH 220 and ME 250.
449 Microdevices and Micromachining Technology 0 TO 5 hours. Micromachining techniques for microsensors, microstructures, and microelectro-mechanical systems. Selected examples of physical/chemical sensors and actuators. Simulation experiments. Laboratory. Same as ECE 449. 4 undergraduate hours. 5 graduate hours. Prerequisite(s): ECE 447.
450 Air Pollution Engineering 4 hours. Environmental aspects of combustion processes, pollutant formation. Control of pollutants and particulates. Air quality control. Fundamentals of combustion. Same as CHE 450. Prerequisite(s): ME 321 or consent of the instructor.
464 Virtual Manufacturing 3 OR 4 hours. Fundamentals of manufacturing and automation modeling using CAD/CAM and computer-integrated manufacturing methods; concepts of virtual manufacturing; industrial robots and automated factory models within virtual environments. Same as IE 464. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): IE 201; and CS 107 or CS 108.
468 Virtual Manufacturing 3 OR 4 hours. Virtual reality applications in manufacturing systems design, manufacturing applications of networked...
Plasma-assisted applications. Kinetic prerequisites:
Thermodynamics and kinetics.

540 formations, and approximate me-
theoretical nonequilibrium processes.
Reacting Flows 4 hours.

Applications. Applications spanning from 1-D ME 417 and ME 418. Analysis of atomic and molecular manufacturing process development.

Particular topics vary from term to term depending on the interests of the students and the specialties of the instructor. 3 undergraduate hours. 4 graduate hours. May be repeated. Prerequisite(s): Consent of the instructor.

501 Advanced Thermodynamics 4 hours.
Thermodynamic laws of closed and open systems; energy destruction; property relations, single phase systems, Gibbs-Duhem relations, multi-phase systems, equilibrium; engineering applications. Prerequisite(s): ME 325.

502 Applied Stress Analysis II 4 hours.
Concepts from theory of elasticity, stress raisers such as notches and holes, mechanical behavior of materi- als, including yielding and fractures, thick-walled cylinders and rotating disks, thermal stresses, and plastic behavior. Prerequisite(s): ME 401.

504 Computer-Aided Analysis of Multibody Systems I 4 hours.

505 Computer-Aided Analysis of Multibody Systems II 4 hours.

508 Engineering Acoustics 4 hours.
Fundamentals of acoustic energy generation, radiation, and transmission (both aerodynamically and structurally). Theoretical, experimental, and numerical techniques. Applications spanning from 1-D plane waves to more complex 3-D problems. Prerequisite(s): ME 408 or CME 435; or approval of the department.

509 Advanced Kinematics II 4 hours.
Spatial transformation and displacements. Design for body guidance; applications to function-generators. Analyses utilizing various operators for closure, dualization, branching, rotary duality, differential kinematics; numerical solutions. Prerequisite(s): ME 409.

510 Robotic Manipulators 4 hours.
Description of robotic manipulator; gripper trajectory execution; manipulator design, degree-of-freedom, mobility, workspace, special link positions; static and dynamic force transmission. Prerequisite(s): ME 409 or ME 410 or ME 413; or consent of the instructor.

511 Mechatronics II 4 hours.
Microcontrollers used in electro-mechanical systems for measurement and control purposes, interface hardware, real-time software and development tools, applications in robotic motion control and factory automation. Same as E 511. Prerequisite(s): ME 411 and consent of the instructor.

512 Automatic Control of Mechanical Systems 4 hours.
Modeling and analysis of mechanical systems. Performance specification and evaluation. Modern control system design and analysis techniques. Real-time computer control of engines, manufacturing processes, biomechanical systems. Prerequisite(s): ME 412 or consent of the instructor.

514 Mechanics of Viscous Fluids 4 hours.

518 Fundamentals of Turbulence 4 hours.
Mathematical description of turbulence field; kinematics of homogeneous turbulence; correlation and spectrum tensor, dynamic behavior of isotropic turbulence, universal equilibrium theory; nonisotropic turbulence. Prerequisite(s): ME 417 and ME 418.

521 Heat Conduction 4 hours.
Analysis of heat transfer in solids, including separation of variables, superpositions, Du Hamel’s theorem, integral transforms, similarity transformations, and approximate methods. Prerequisite(s): ME 321 or consent of the instructor.

522 Convective Heat Transfer 4 hours.
Convection equations. Momentum, heat and mass transfer in laminar and turbulent boundary layers. Internal and external flows and heat transfer. Heat transfer with phase change. Special topics in convective heat transfer. Prerequisite(s): ME 321 or consent of the instructor.

524 Thermal Radiation 4 hours.
Fundamentals of radiative transfer, energy exchange between surfaces and in enclosures; radiative transfer in the presence of an attenuating medium; combined radiation, conduction, convection problems. Prerequisite(s): ME 421 or consent of the instructor.

525 Boiling Heat Transfer and Two-Phase Flow 4 hours.
Homogeneous and separated two-phase flow models for pressure drop and heat transfer. Pool boiling, nucleate and bubble dynamics, stability, condensation, and engineering-application problems. Prerequisite(s): ME 421.

528 Numerical Heat Transfer 4 hours.
Numerical methods for solving conduction, convection, and radiation problems in heat transfer, iterative methods with shooting, local non-similarity methods perturbation methods; finite difference methods; grid generation. Prerequisite(s): CS 108 and ME 421 or consent of instructor.

529 Advanced Internal Combustion Engines 4 hours.
Fundamentals of internal combustion engines. Combustion in homogeneous charged and compression ignition engines. Emission formation. E-duct of design and operating variables, control, and instrumentation. Prerequisite(s): ME 426 or ME 429.

531 Thermophysics of Gas Flows 4 hours.
Kinetic theory of gases. Transport properties, quantum mechanical analysis of atomic and molecular structures, atomic scale collision phenomena, propagation, emission, and absorption of radiation.

533 Plasma Engineering 4 hours.

535 Theory of Vibration II 4 hours.
Harmonic vibrations; vibrations of a string; vibrations of a beam; vibrations of a membrane, periodic systems; flotational vibrations, nonlinear vibrations. Same as CME 553. Prerequisite(s): CME 435 or ME 408 or the equivalent.

536 Chemically Reacting Flows 4 hours.
Nonequilibrium states; chemical thermodynamics and kinetics. Multicomponent continuum equations for flow of nonequilibrium fluids. Inverted nonequilibrium flows. Boundary layer flows with surface and gas-phase reactions. Frozen and equilibrium criteria. Waves in relaxing media. Prerequisite(s): ME 516; and ME 514 or ME 522.

540 Design, Modeling, and Fabrication of Microsystems 4 hours.
MEMS design approach, materials and mechanical properties, scaling laws, transduction methods, microfabrication techniques, modeling and simulation strategies, dynamics, domain-specific details, structures, fluids, dissipation, and system issues. Prerequisite(s): Consent of the instructor.

541 Microelectronic Fabrication Techniques 4 hours.
Current fabrication techniques of microelectronic technology, plasma and CVD processes; etching techniques, ion implantation; surface analytical methods. Same as ECE 541. Prerequisite(s): ECE 347 or ECE 449.

542 Advanced Computational Methods for Product and Process Design 4 hours.
Deterministic and statistical methods for modeling and optimizing engineering systems, in the broad context of product design, manufacturing process development, and designing for life cycle.
588 MS Thesis
Research 0 TO 16 hours.
Individual research in specialized problems under close faculty supervision. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

599 PhD Thesis
Research 0 TO 16 hours.
Individual research in specialized problems under close faculty supervision. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

Medical Biotechnology (MBT)

500 DNA and Proteins 3 hours.

501 Cell Biology and Human Physiology 3 hours.
Cellular organization and cell organelles, lipid membranes; the cytoskeleton; and cell interactions signaling and cycle control. Growth factors and neurochemistry. Mechanical and electrical phenomena. Synaptic transmission. Sensory and motor neurophysiology. Recommended background: Basic undergradural general and organic chemistry, biology, physics, and math.

502 Immunotechnology, Microbiology, and Cellular Therapy 3 hours.
Covers antibody production principles, clinical uses of antibodies, fermentation and bioremediation and protein production principles, cellular and stem cell therapies, bioterrorism control, containment and eradication. Prerequisite(s): MBT 500 and MBT 501.

503 Pharmacology, Toxicology, and Clinical Trials 3 hours.

510 Ethics in Medical Biotechnology 2 hours.
Rationale for making ethical decisions, review of existing guidelines, considerations of the use of adult and embryonic stem cells, ethical issues on animal research, conflict of interest and misconduct in research and business. Prerequisite(s): MBT 500 and MBT 501 and MBT 502 and MBT 503; or consent of the instructor.

513 Research Planning, Design, and Execution 1 hour.
Presentation of the basics of planning, designing, and executing a research plan. Students prepare a project plan and defend the plan to a faculty panel and peers. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 2 hours.

Product development and commercialization processes. Product life cycles, program management basics, intellectual property, Regulatory affairs issues: GLP, product registration, GMP, documentation, validation, FDA inspections. Prerequisite(s): MBT 500 and MBT 501 and MBT 502 and MBT 503; or consent of the instructor.

521 Techniques and Processes in Biotechnology 3 hours.
Preparation and isolation of antibodies, basics of cell culture, recombinant DNA techniques, techniques of protein production and engineering and examples of cloning. Basics of GLP and practical experience in applications of GLP. Prerequisite(s): MBT 500 and MBT 501. Course Schedule Information: To be properly registered, students must enroll in one discussion and one laboratory.

522 Applied Medical Biotechnology 2 hours.
The principles and methodologies used in commercial lab assays will be analyzed and their strengths and weaknesses discussed. An array of hospital/clinical techniques will be reviewed via lecture/demonstration in typical application venue. Prerequisite(s): MBT 500 and MBT 501 and MBT 520.

523 Biotechnology Engineering 2 hours.
Engineering aspects of large-scale cell culture: methodologies, types of production equipment, process design and control, harvesting, separation and purification. Sterilization, aseptic processing, filling and finishing steps. QA/QC. Field trips required. Prerequisite(s): Completion of the first year of the MS in Medical Biotechnology program.

591 Departmental Seminar in Medical Biotechnology 1 TO 4 hours.
Lecture series by invited speaker or advanced students with lectures on topics of current or developing interest in medical biotechnology. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Approval of the department.

595 Student Seminar in Medical Biotechnology 2 hours.
Students write and present literature research/review papers on topics directly related to medical biotechnology. Satisfactory/Unsatisfactory grading only. May be repeated. Extensive computer use required. Coupled with departmental seminar.

596 Independent Study in Medical Biotechnology 1 TO 4 hours.
Independent and individual study of a topic in medical biotechnology. Usually involves extensive literature research culminating in a review paper or hypothesis/conclusion argument paper. May be repeated to a maximum of 4 hours if topics vary. Students may register in more than one section per term. Prerequisite(s): Completion of the first year of the MS in Medical Biotechnology program, approval of the department, and approval of a faculty mentor. The student also should have completed core or elective courses in the degree sequence that introduce the topic of independent study or have verifiable outside knowledge.

597 Master’s Project Research 0 TO 16 hours.
A project-based internship at a biotechnology company or a research laboratory at the College of Medicine in Rockford. Students will gain on-the-job experience in designing and conducting experiments, evaluating results, and
reporting to supervisors. Satisfactory/Unsatisfactory grading only. May be repeated.
Prerequisite(s): Student should have approval of the graduate committee to commence research and the agreement of faculty and industrial mentors along with a written agreement for research activity from the host company.

598 Master's Thesis Research 0 TO 16 hours.
Master's thesis research conducted at the College of Medicine in Rockford under faculty supervision. Satisfactory/Unsatisfactory grading only. May be repeated.
Prerequisite(s): Completion of the first year of the program and consent of the instructor.

Medical Education (MHPE) 433

Principles of Evidence-Based Healthcare 2 hours.
Qualitative and quantitative assessment of human subject clinical research: locating, evaluating, comparing scientific papers as bases for healthcare education and practice. Same as BHS 433.
Prerequisite(s): Graduate or professional standing and approval of the school.

439 Writing for Scientific Publication 2 hours.
Instruction and workshop explores the process of fully preparing and submitting a manuscript to a health professions journal. Students must bring analyzed data set.
Prerequisite(s): Graduate or professional standing and consent of the instructor.

441 Clinical Decision Making 2 hours.
Introduction to descriptive and normative theories of decision making; interpretation of diagnostic tests; measuring patient preferences; decision analysis and cost-effectiveness analysis; psychology of judgment and choice.
Prerequisite(s): Consent of the instructor.

494 Special Topics in Health Professions Education 1 TO 4 hours.
Selected topics of current interest in health professions education. May be repeated with approval. Students may register in more than one section per term. Approval to repeat course granted by the department.
Prerequisite(s): Prerequisites may vary by section, depending upon topic.

501 Current Issues in Health Professions Education 4 hours.
Examines how historical, social, policy, and organizational factors influence education in the health professions. Prerequisite(s): Graduate or professional standing and consent of the instructor.

502 Instruction and Assessment for Health Professionals 4 hours.
Methods and issues of effective instruction and assessment in health professions education are presented, including how effective instruction and assessment support student learning and faculty decisions. Prerequisite(s): Consent of the instructor.

503 Curriculum Planning and Program Evaluation for Health Professionals 4 hours.
Methods and issues in planning and evaluating educational programs in the health professions are presented, including how institutional and social forces affect planning and evaluation. Prerequisite(s): Approval of the department.

504 Organization and Management of Health Professions Education Programs 4 hours.
Problems, issues, and practices of leadership in health professions education. Students analyze their approaches to solving educational management problems, review pertinent models for organizational development in academic settings, develop an awareness of personal leadership styles, and consider strategies for managing selected educational problems.

524 Research Design and Grant Writing 2 hours.
Introduction to the skills necessary to plan a research project and write a research grant proposal using a systematic approach. Same as HPA 534. Previously listed as MHPE 431.
Prerequisite(s): Graduate or professional standing and approval of the department.

535 Translating Research into Practice 3 hours.
Current theory and practical reality related to the adoption and use of new scientific findings in patient care. The influence of research on public policy. Same as HPA 535. Extensive computer use required.
Prerequisite(s): Graduate or professional standing and approval of the department.

596 Independent Study 1 TO 4 hours.
Selected problems or issues in health professions education are investigated under the direction of a faculty member of the student's choice.

597 Project Research 0 TO 6 hours.
Selected problems or issues in health professions education are investigated under the direction of a faculty member of the student's choice. Satisfactory/Unsatisfactory grading only.

598 Thesis Research 0 TO 16 hours.
Selected problems or issues in health professions education are investigated under the direction of a committee of the student's choice. Satisfactory/Unsatisfactory grading only.

Medical Humanities (MHUM) 494

Special Topics in Medical Humanities 1 TO 4 hours.
Presents special topics in selected aspects of medical humanities for health professionals. May be repeated with approval. Students may register in more than one section per term. Approval to repeat course granted by the department.
Prerequisite(s): Prerequisites may vary by section, depending upon topic.

496 Independent Study 1 TO 4 hours.
Students may register in more than one section per term. Approval to repeat course granted by the department.

Medical Laboratory Sciences (MLS) 527

Clinical Laboratory Method Evaluation 3 hours.
Development and comparison of clinical laboratory methods; also statistical methods of evaluating sensitivity, specificity, precision, accuracy, predictive value, and cost effectiveness. Same as PATH 527.
Prerequisite(s): Consent of the instructor.

560 Blood Groups: Systems and Serology 3 hours.
Focus on human blood group systems; biochemistry, inheritance, serologic activity, clinical significance, and disease association. Fundamentals of immunology, molecular biology, and genetics. Extensive computer use required. Taught only online. A UIC refund is required.
Prerequisite(s): General knowledge of immunohematology and consent of the instructor.

561 Clinical Immunohematology and Transfusion 3 hours.
Transfusion medicine practice and therapy. The human circulatory system, effects of hemorrhagic shock, component therapy, hematopoietic transplantation, complications of transfusion, standards, regulations, and compliance. Extensive computer use required. Taught only online. A UIC refund is required.
Prerequisite(s): MLS 560 and consent of the instructor.

562 Principles and Methods in Immunohematology 1 TO 4 hours.
Theoretical and practical concepts used in blood procurement and product manufacturing. Blood donor suitability, collection, testing, component preparation, labeling, storage, quality management systems. Extensive computer use required. Lecture-discussion taught only online. A UIC refund is required. Students who require a clinical rotation component register for 4 hours and participate in both laboratory and lecture-discussion; all others register for 3 hours and participate in lecture-discussion only.
Prerequisite(s): Credit or concurrent registration in MLS 560 and consent of the instructor.

563 Principles and Methods in Immunohematology II 0 TO 4 hours. Theoretical and practical concepts used in the organization and management of blood centers and transfusion services. Introduction to laboratory financial management, cost accounting, coding, staffing, ethics, and legal issues. Extensive computer use required. Lecture-discussion taught only online. A UIC netid is required. Students who require a clinical rotation component register for 4 hours and participate in both clinical practice and lecture-discussion; all others register for 3 hours and participate in lecture-discussion only. Prerequisite(s): MLS 562 and credit or concurrent registration in MLS 561 and consent of the instructor.

564 Current Trends in Immunohematology 1 hour. Advanced studies of current trends; assigned topics in current literature read, evaluated, and discussed. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 2 hours. Extensive computer use required. Taught only online. A UIC netid is required. Prerequisite(s): General knowledge of immunohematology and consent of the instructor.

594 Special Topics in Medical Laboratory Sciences 1 TO 3 hours. Current theories and methods in medical laboratory sciences. Seminar, literature search, directed study, and discussion format. Topic areas include clinical chemistry, clinical microbiology, clinical immunology, immunohematology, and histology. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

596 Independent Study 1 TO 4 hours. For graduate students who wish to pursue independent study not related to their thesis/project research. May be repeated. Students may register in more than one section per term.

587 Project Research in Medical Laboratory Sciences 0 TO 5 hours. Independent investigation that engenders the responsibilities of professionals to contribute to their field. Students investigate a topic/problem in their field, write an article, and deliver an oral presentation. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

598 Research in Medical Laboratory Sciences 0 TO 16 hours. Independent research in one area of medical laboratory sciences directed by a faculty member. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Foundation courses in research methods such as AHS 510, and statistics, or consent of the instructor.

Medical-Surgical Nursing (NUMS)

530 Nursing Management of Acutely Ill Patients I 3 hours. Advanced practice in medical-surgical nursing. Emphasizes physiopathology, etiologies, clinical evaluation, and management of adults with common health problems in acute care. Prerequisite(s): Credit or concurrent registration in NUMS 530 and credit or concurrent registration in NUSC 531 and NUSC 532. Prerequisite(s): Consent of the instructor.

532 Nursing Management of Acutely Ill Patients II 3 hours. Concentration on advanced medical-surgical nursing covering physiopathology, etiologies, clinical evaluation, and management of acutely ill adults. Prerequisite(s): NUMS 530. Requires concurrent registration in NUMS 533.

533 Acute Care Clinical Nurse Practitioner Practicum I 3 TO 5 hours. First in a series of three practicum courses emphasizing the core competencies of the acute care clinical nurse specialist. May be repeated. Prerequisite(s): Consent of the instructor.

535 Acute Care Clinical Nurse Practitioner Practicum II 3 TO 5 hours. Second in a series of three practicum courses emphasizing the core competencies of the acute care clinical nurse specialist. May be repeated. Prerequisite(s): Consent of the instructor.

536 Acute Care Clinical Nurse Practitioner Practicum III 4 TO 6 hours. Practicum emphasizing the clinical evaluation, symptom management, education, and case management of acutely ill adults. May be repeated. Prerequisite(s): Consent of the instructor.

537 Acute Care Clinical Nurse Practitioner Practicum IV 3 TO 6 hours. Practicum emphasizing the comprehensive clinical evaluation and management of adults with complex health problems in acute care. May be repeated. Prerequisite(s): Consent of the instructor.

548 Management of Chronic and Complex Adult Health Problems Practicum 4 hours. Preparation for advanced practice evaluation and management of chronic and complex care of adult health problems. Prerequisite(s): Consent of the instructor.

550 Common Geriatric Health Problems 3 hours. Advanced practice in geriatric nursing. Emphasizes physiopathology, etiologies, clinical evaluation, and management of common and uncomplicated problems for older adults. Prerequisite(s): Consent of the instructor. Prerequisite(s): Consent of the instructor.

551 Laboratory Techniques for Health Sciences 3 hours. Techniques in laboratory research for nursing science. Basic physiological and biochemical methods and equipment, animal models, human subjects, safe laboratory practice, development from conceptualization through execution. Animals used in instruction. Prerequisite(s): Consent of the instructor.
554
GNP Practicum I: Management of Common Health Problems 4 hours.
Practicum emphasizing clinical evaluation, health promotion, differential diagnosis, symptom management, education, and case management of older adults with common uncomplicated health problems. Prerequisite(s): NUMS 550.

555
GCNS Practicum II: Complex Geriatric Health Problems 0 TO 5 hours.
Second in a series of three practicums emphasizing clinical practice, education, research, and consultation related to the care of older adults with acute and chronic conditions. Students register for 3 to 5 credit hours. May be repeated. Prerequisite(s): NUMS 550 and NUMS 553.

556
GNP Practicum II: Older Adults with Complex Health Problems 4 hours.
Practicum emphasizing clinical evaluation, differential diagnosis, symptom management, education and case management of older adults with complex health problems. Prerequisite(s): NUMS 544 or NUMS 554.

557
GCNS Practicum III: Integrative Practice 3 TO 6 hours.
Third in a series of three practicums emphasizing clinical practice, education, research, and consultation related to care of older adults. May be repeated. Prerequisite(s): NUMS 555.

558
GNP Practicum III: Integrative Practice 4 hours.
Practicum emphasizing clinical evaluation, health promotion, differential diagnosis, and comprehensive case management of older adults with common and complicated health problems. Prerequisite(s): NUMS 556.

560
Primary Care of Adults 3 hours.
Focuses on wellness care as well as acute, episodic, and chronic care of older adolescent and adult health problems. Prerequisite(s): Credit or concurrent registration in NUSC 530 and credit or concurrent registration in NUSC 531 and credit or concurrent registration in NUSC 532 and credit or concurrent registration in NUMS 540.

562
Quality of Life Issues in Research and Clinical Practice 3 hours.
Quality of life: construct definition, ethical issues in clinical practice of nurses and other health professionals, measurement and research regarding various illness and age groups. Prerequisite(s): Consent of the instructor.

570
Common Adult and Geriatric Health Problems 3 hours.
Advanced practice in adult and geriatric. Emphasizes clinical evaluation and management of common and uncomplicated problems in adults and older adults. Prerequisite(s): Credit or concurrent registration in NUMS 560.

Medicinal Chemistry (MDCH) 412
Pharmaceutical Applications of Genomics and Bioinformatics 2 hours.
Introduction to genomics and bioinformatics for advanced pharmacy students. Principles of gene expression, DNA sequencing in bacterial and human genomes, with emphasis on diagnostic and therapeutic applications. Same as PMMP 412. Prerequisite(s): PHAR 331 or consent of the instructor. For graduate students: one or two semesters of basic molecular biology and/or biochemistry with a grade of B or better.

507
Drug Discovery, Design, and Development 3 hours.
Overview of drug development process from target identification and screening through clinical trials and FDA evaluation. Same as BPS 507 and PMPG 507.

516
Structure Elucidation of Natural Products II 3 hours.
Employing modern computational methods in the structure elucidation and depilation of a natural product by using real-life examples. Same as PMG 516. May be repeated. Prerequisite(s): PMPG 515.

560
Organic Medical Chemistry I 3 hours.
Organic reactions are discussed in terms of their mechanisms and utility in the field of medicinal chemistry, particularly in the synthesis of medicinal agents. Prerequisite(s): One year of organic chemistry with laboratory.

561
Principles of Medicinal Chemistry 4 hours.
Concerns basic chemical and physical principles necessary for an understanding of drug action. These principles are applied in the design and discovery of medicinal agents. Prerequisite(s): One year each of undergraduates in organic, chemistry and biochemistry. Requires concurrent registration in MDOH 592.

562
Spectroscopy in Medicinal Chemistry 3 hours.
The fundamental principles used to determine structure and conformation in molecules, emphasizing spectroscopic methods useful in solving structural problems and in analyzing dynamic biological processes. Prerequisite(s): One year of physical chemistry or consent of the instructor.

564
Physical Medicinal Chemistry 3 hours.
Focuses on kinetics and thermodynamics in biological systems. Applications to drug action will be emphasized. Prerequisite(s): One year of physical chemistry.

571
Organic Medicinal Chemistry II 3 hours.
Heterocyclic chemistry foundation for bio-organic mechanisms of enzyme reactions. Enzymes involved in biosynthesis and metabolism, particularly those that are targets for drug action or involved in drug metabolism. Prerequisite(s): MDOH 460 and MDOH 561.

572
Drug Design 2 hours.
Quantitative structure-activity relationships, computer graphics, molecular modeling and simulation, and chemometrics as applied to drug design and discovery. Prerequisite(s): MDOH 561.

573
Principles of Stereochemistry 1 hour.
Principles of molecular structure and stereochemistry for medicinal and natural products chemists focusing on stereochromatic structures rather than synthesis. Prerequisite(s): Credit or concurrent registration in MDOH 560 and one year of organic chemistry with lab or consent of the instructor.

592
Research Techniques in Medicinal Chemistry 2 hours.
Provides an initial bivocally informal seminar series with program faculty presenting a discussion of the ongoing research in her/his laboratory. May be repeated to a maximum of 6 hours. Lectures/discussions will be given for the first part of the semester and an intensive lab experience takes place for the remainder of the semester. To be taken fall and spring semesters of the first year of graduate study.

594
Special Topics in Medicinal Chemistry 2 TO 4 hours.
An advanced course covering selected topics which may include new spectroscopic, theoretical, chemometric, and synthetic approaches to biomolecular structure and function. May be repeated to a maximum of 4 hours. Prerequisite(s): MDOH 561 and MDOH 562 and one year of physical chemistry and one semester of biochemistry or consent of the instructor.

595
Seminar in Medicinal Chemistry 1 hour.
Presentation on a current research topic. Satisfactory/Uncertain grading only.

598
Master’s Research in Medicinal Chemistry 0 TO 16 hours.
Thesis research to fulfill master’s degree requirements. Satisfactory/Unsatisfactory grading only.

599
Doctoral Research in Medicinal Chemistry 0 TO 16 hours.
Research for doctoral students. Satisfactory/Unsatisfactory grading only.

592
Research Techniques in Medicinal Chemistry 2 hours.
Provides an initial bivocally informal seminar series with program faculty presenting a discussion of the ongoing research in her/his laboratory. May be repeated to a maximum of 6 hours. Lectures/discussions will be given for the first part of the semester and an intensive lab experience takes place for the remainder of the semester. To be taken fall and spring semesters of the first year of graduate study.

594
Special Topics in Medicinal Chemistry 2 TO 4 hours.
An advanced course covering selected topics which may include new spectroscopic, theoretical, chemometric, and synthetic approaches to biomolecular structure and function. May be repeated to a maximum of 4 hours. Prerequisite(s): MDOH 561 and MDOH 562 and one year of physical chemistry and one semester of biochemistry or consent of the instructor.

595
Seminar in Medicinal Chemistry 1 hour.
Presentation on a current research topic. Satisfactory/Uncertain grading only.

598
Master’s Research in Medicinal Chemistry 0 TO 16 hours.
Thesis research to fulfill master’s degree requirements. Satisfactory/Unsatisfactory grading only.

599
Doctoral Research in Medicinal Chemistry 0 TO 16 hours.
Research for doctoral students. Satisfactory/Unsatisfactory grading only.

Medicinal Chemistry and Pharmacognosy (PMMP) 412
Pharmaceutical Applications of Genomics and Bioinformatics 2 hours.
Introduction to genomics and bioinformatics for advanced pharmacy students. Principles of gene expression, DNA sequencing in bacterial and human genomes, with emphasis on diagnostic and therapeutic applications. Same as MDOH 412. Prerequisite(s): PHAR 331 or consent of the instructor. For graduate students: one or two semesters of basic molecular biology and/or
biochemistry with a grade of B or better.

460 Organic Medicinal Chemistry I 3 hours.
Organic reactions in terms of their mechanisms and utility in the field of medicinal chemistry, particularly in the synthesis of medicinal agents. Upper-division elective taught simultaneously with MHCH 565; however, does not meet the prerequisite requirement of the medicinal chemistry graduate program. Prerequisite(s): One year of organic chemistry with laboratory.

Microbiology and Immunology (MIM)

425 Fundamentals of Immunology and Microbiology 3 hours.
Mechanisms of host defense; antigens, immunoglobulins, and their reactions; antibody synthesis, regulation and the cellular immune response; bacterial and viral structure and function; mechanisms of pathogenesis. Prerequisite(s): Consent of the instructor or registration in the College of Medicine.

426 Microorganisms as Agents of Human Disease 3 hours.
Fundamental aspects of bacterial, fungal, and viral pathogenesis; therapy, control, and prevention of infectious diseases. Prerequisite(s): Consent of the instructor.

455 Microbiology Laboratory Rotation 3 hours.
Course in basic and applied methods essential for the study of nucleic acids, immunoglobulins, gene transfer, cell fusion, virological and immunological methods. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 6 hours. Students may register in more than one section per term. Prerequisite(s): Graduate standing.

513 Structure of Biopolymers 3 hours.
Explores the relationship between structural stability, kinetic properties, and function of biopolymers, with particular emphasis on proteins and nucleic acids. Same as BCMG 513 and FMMP 513. Prerequisite(s): GCLS 501 and one year of physical chemistry or consent of the instructor.

551 Advanced Immunology 2 hours.
Concepts in immunobiology, immunogenetics, molecular immunology, cellular immunity, and immunopathology at the intermediate level. Prerequisite(s): GCLS 501, GCLS 502, GCLS 503, and GCLS 510 or consent of the instructor.

553 Molecular Biology of Viruses 2 hours.
Animal viruses including basic structure and viral nucleic acids; emphasizes molecular organization of viral genomes; cellular and molecular events during virus replication and viral transformation. Prerequisite(s): GCLS 501, GCLS 502, GCLS 503, and GCLS 511 or consent of the instructor.

554 Molecular Aspects of Microbiology 3 hours.
Basic concepts of prokaryotic and eukaryotic genetics; gene structure and function; gene expression; molecular aspects of mutation and recombination; chromosome structure and function. Prerequisite(s): BCHE 460.

560 Microbial Pathogenesis 2 hours.
Genetics, molecular biology, and physiology of pathogenic bacteria, and host-pathogen interactions. Credit is not given for MIM 560 if the student has credit for MIM 552. Prerequisite(s): GCLS 501, GCLS 502, GCLS 503, and GCLS 511 or consent of the instructor.

585 Cell Biology 4 hours.
Functional and structural organization of the cell with emphasis on the cellular basis of physiological activity. Same as ANAT 585 and PBH 585.

594 Special Topics in Microbiology, Immunology, and Virology 1 TO 2 hours.
Advanced topics are covered in depth. Topics vary yearly. Prerequisite(s): BCHE 460 and MIM 451 and MIM 455 and MIM 552 and MIM 553 and consent of the instructor.

595 Seminar in Microbiology and Immunology 1 hour.
Topics of current research interest are presented by guest lecturers from outside institutions in areas of molecular biology, bacteriology, virology, and immunology. Satisfactory/Unsatisfactory grading only.

598 Research in Molecular Biology and Immunology 0 TO 16 hours.
MS thesis research on problems in microbiology, immunology, and molecular biology.

599 Research in Molecular Biology and Immunology 0 TO 16 hours.
PhD thesis research on problems in microbiology, immunology, and molecular biology.

Movement Sciences (MVSC)

400 Business Principles for the Fitness Professional 3 hours.
Provides a survey of basic requisite business principles and their application of these principles for students pursuing careers in corporate and community fitness. Previously listed as KINE 406. Prerequisite(s): MVSC 100, and junior standing or above.

403 Marketing and Facility Management in Exercise and Wellness 3 hours.
Introduction to management and marketing principles as they apply to promoting organizations. Theory and practice of managing exercise and wellness facilities. Previously listed as KINE 403. Prerequisite(s): Senior standing or above.

410 Human Aging and Physical Performance 3 hours.
Introduction to human aging focused on the impact of aging to physical structure and function. Investigate research-based evidence of the role of activity and exercise in altering physiology, life expectancy, disease, and disability prevention. Previously listed as KINE 404. Prerequisite(s): MVSC 252, and junior standing or above.

417 Aging and Physical Activity 3 hours.
Linking the effects of aging on motor performance to diagnostic procedures, prescriptive exercise, and instructional processes.

Previously listed as KINE 417. Extensive instrumentation experience. Prerequisite(s): MVSC 360 or the equivalent and junior standing or above; or consent of the instructor.

435 Psychology and Physical Activity 3 hours.
Analysis and application of psychological concepts related to process and outcomes of sport and exercise programs. Previously listed as KINE 412.

438 Exercise Adherence 3 hours.
Exercise behavior as it relates to habitual physical activity. Encompasses health outcomes, exercise adherence factors, intervention strategies, and exercise settings. Previously listed as KINE 418.

441 Principles of Resistance Training 3 hours.
This course examines the physiological principles underlying resistance training and the development of safe and effective resistance training programs. Prerequisite(s): MVSC 352 and junior standing or above; or consent of the instructor.

442 Principles of ECG Interpretation 3 hours.
Introduction to the basic principles and interpretation of the electrocardiogram (ECG) as it relates to fitness programs involving the apparently healthy as well as cardiac rehabilitation patients. Prerequisite(s): Grade of C or better in MVSC 352; and junior standing or above; or consent of the instructor.

452 Advanced Exercise Physiology 3 hours.
In-depth study of the mechanisms that underlie the acute and chronic responses to physical activity. Previously listed as KINE 421. Prerequisite(s): MVSC 352; and junior standing or above and one college-level course in chemistry.

460 Neuromechanical Basis of Human Movement 3 hours.
Biomechanics of single and multi-joint systems, and its role in neural control of movement. Mechanisms of acute adaptations including warm-up, fatigue and potentiation, and chronic adaptations arising from reduced use or training. Previously listed as KINE 428. Prerequisite(s): MVSC 160 and MVSC 252 and junior standing or above; or consent of the instructor.
463 Biomechanical Analysis of Sport Injuries 3 hours. The biomechanical principles related to sport injuries. Previously listed as KINE 429. Prerequisite(s): MVSC 360.
472 Movement Neuroscience 3 hours. Overview of the human nervous system. Emphasis is placed on the basic functional anatomical and physiological concepts relevant to the organization and execution of movement. Previously listed as KINE 472. Prerequisite(s): MVSC 251 and MVSC 252 and MVSC 352 and MVSC 372; and junior standing or above; or consent of the instructor.
481 Workshop in Movement Sciences 1 TO 3 hours. Intensified study of selected activities, topics, processes, or areas in movement sciences. Topic will be announced. May be repeated if topics vary. Students may register in more than one section per term. Previously listed as KINE 481.
489 Seminars in Movement Sciences 1 TO 3 hours. Weekly seminars devoted to research in movement sciences and related fields, followed by a one-hour discussion. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Junior standing or above.
490 Educational Practice with Seminar I 6 hours. The first half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Previously listed as KINE 490. Graduate credit only with approval of the department. Prerequisite(s): Good academic standing in a teacher education program, completion of 100-clock hours of pre-student-teaching field experiences, and approval of the department.
491 Educational Practice with Seminar II 6 hours. The second half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Previously listed as KINE 491. Graduate credit only with approval of the department. Prerequisite(s): Good academic standing in a teacher education program, completion of 100-clock hours of pre-student-teaching field experiences, and approval of the department.
527 Molecular Biology of Muscle Genes and Proteins 2 hours. Regulatory mechanisms which govern gene expression relevant to the function of skeletal and cardiac muscle. Previously listed as KINE 527. Prerequisite(s): BIOG 524 and BIOG 525 and consent of instructor.
528 Cellular Response to Exercise 3 hours. Examines cellular structure/function relationships important for acute and chronic adaptations to exercise. Emphasis on understanding cellular basis of physiological response to exercise. Previously listed as KINE 528. Prerequisite(s): BIOG 422 or consent of the instructor.
529 Exercise Genomics 3 hours. Molecular mechanisms by which cells adapt to increases and decreases in physical activity. Emphasis on understanding genomic, transcriptional, translational and posttranslational sites of control. Previously listed as KINE 529. Prerequisite(s): BCHE 460 or consent of the instructor.
535 Nutrition and Human Performance 2 hours. Nutrition which impacts on human performance, impaired performance due to nutritional problems: aspects relevant to the professional athlete. Same as HN 535. Previously listed as KINE 535. Prerequisite(s): HN 410, and HNBS 541 or MVSC 352; or consent of the instructor.
545 Advanced Exercise Programming and Assessment 3 hours. Emphasis on current recommendations for exercise prescription and assessment methods for adult populations. Diagnostically and prescriptive procedures will be delineated. Previously listed as KINE 420. Prerequisite(s): MVSC 452; or consent of the instructor.
570 Neural Mechanisms Underlying Motor Control 4 hours. Neurophysiological mechanisms that underlie the control and regulation of movement. Previously listed as KINE 570. Prerequisite(s): Consent of the instructor.
571 Biomechanics of Normal and Abnormal Movement 3 hours. Principles of statics and dynamics exemplified by human movements.
593 Internship in Movement Sciences 1 TO 12 hours. Supervised internship in a laboratory or field setting. A written report is required. Open only to candidates in the Applied Exercise Physiology MS area of concentration. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 12 hours. Credit is not given for MVSC 593 if the student has credit in MVSC 597 or MVSC 598. Fieldwork required. Prerequisite(s): Students must pass the comprehensive examination before placement at an internship site.

594 Selected Topics in Movement Sciences 1 TO 3 hours. Topic to be announced. Analysis of selected problems and concerns in specified concentrations. Topics vary from semester to semester, depending on the needs and interests of the graduate students. May be repeated if topics vary. Previously listed as KINE 594. Prerequisite(s): Consent of the instructor.

596 Independent Research in Movement Sciences 1 TO 4 hours. Topics vary. Students design, implement, and analyze a research problem in their individual area of concentration under the supervision of a faculty member. Previously listed as KINE 596. Prerequisite(s): MVSC 500.

597 Project in Movement Sciences 0 TO 8 hours. Supervised practicum in laboratory or field setting in which recent research findings are applied, tested, and evaluated. Satisfactory/Unsatisfactory grading only. May be repeated. Previously listed as KINE 597. Prerequisite(s): MVSC 500 and consent of the advisor and director of graduate studies.

598 Master's Thesis Research 0 TO 16 hours. Thesis work under the supervision of a graduate adviser. Satisfactory/Unsatisfactory grading only. May be repeated. Previously listed as KINE 598. Prerequisite(s): MVSC 500 and consent of the advisor and director of graduate studies.

599 PhD Thesis Research 0 TO 16 hours. Independent research by the student under the supervision of the thesis adviser. Satisfactory/Unsatisfactory grading only. May be repeated. Previously listed as KINE 599. Prerequisite(s): Consent of the instructor.

Neuroscience (NEUS)

501 Foundations of Neuroscience I 2 hours. Provide a core understanding of modern neuroscience and will be taught by faculty from multiple units. Prerequisite(s): Consent of the instructor. May be repeated.

502 Foundations of Neuroscience II 2 hours. A core understanding of modern neuroscience. Will be taught by faculty from multiple units. Continuation of NEUS 501. Prerequisite(s): Consent of the instructor and credit or concurrent registration in ANAT 403.

505 Research Rotations in Neuroscience 0 TO 16 hours. Research rotation course in which first-year students from the Neuroscience program will undertake research projects in laboratories affiliated with this program. May be repeated. Consent of the instructor.

511 Biomedical Neuroscience I: Molecular Biology of Synapses 2 hours. Molecular mechanisms of synaptic transmission. Information on the principal neurotransmitter systems, structure of ionotropic and metabotropic receptors and their signal transduction mechanisms. Prerequisite(s): NEUS 501.

512 Biomedical Neuroscience II: Aspects of Brain Function in Health and Disease 2 hours. An integrated view of brain function in health and disease; the anatomical and functional pathophysiologic aspects underlying major neurologic and psychiatric disorders. Prerequisite(s): NEUS 501; consent of the instructor.

513 Current Topics in Visual Neuroscience 2 hours. Discussion of current research and theoretical issues in visual neuroscience by staff, students, and guest lecturers. May be repeated. Prerequisite(s): Consent of the instructor.

582 Methods in Modern Neuroscience 2 hours. Underlying principles and applications of techniques used to analyze neuronal system organization and function. Behavioral, electrophysiological, anatomical, and biochemical approaches are considered. Same as BIOS 502. Animals used in instruction.

588 Human Neuroscience: Functional Magnetic Resonance Imaging 3 hours. Lectures and demonstrations present the principles of magnetic resonance imaging for understanding cognitive, sensory, and motor function of the human brain in health and disease. Extensive computer use required. Laboratory work required. Prerequisite(s): Consent of the instructor.

595 Seminar in Neuroscience 1 hour. Oral presentations are made by students each session on timely journal articles, followed by in-depth discussions of the reported research. Presentation of research by invited lecturers. Satisfactory/Unsatisfactory grading only. May be repeated.

596 Independent Study 1 TO 4 hours. Independent study under the direction of a faculty member. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

598 Master's Thesis Research in Neuroscience 0 TO 16 hours. Thesis research under the direction of a faculty member. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): NEUS 501 and NEUS 502; consent of the instructor. May be repeated. Open only to Master's degree students in Neuroscience.

599 Doctoral Research in Neuroscience 0 TO 16 hours. Independent research directed by a faculty member. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): NEUS 501 and NEUS 502; consent of the instructor. May be repeated. Open only to PhD degree students in neuroscience.

Music (MUS)

490 Music Education: Special Topics 1 TO 4 hours. An investigation of various topics in music education pertinent to practicing music teachers. May be repeated. Prerequisite(s): Senior standing or above.

Native American Studies (NAST)

415 American Indian Ethnohistory 3 OR 4 hours. Introduction to ethnohistory, an interdisciplinary approach to researching, conceptualizing, and writing American Indian history. The course is organized topically and centers on classic and current monographs and articles. Same as HIST 415. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Junior standing or above and consent of the instructor. Recommended background: Courses in cultural anthropology, American Indian anthropology, American Indian literature.

471 Topics in Native American Literature 3 OR 4 hours. The history and development of literature by and about American Indians. Content varies. Same as ENGL 471. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time. Prerequisite(s): Senior standing or above and 6 hours of English, African-American studies, or Latin American studies; or consent of the instructor.

Natural Sciences (NATS)

574 Advanced Study of Science Taught in Standards-Based Middle-Grade Science Curricula 3 hours. The advanced study of concepts underlying standards-based instruction in the natural sciences (chemistry, physics, earth science, and biology) in grades 5-8 is explored in a pedagogical context. Prerequisite(s): Consent of the instructor.

403 Human Neuroanatomy 3 hours. Morphological organization of the nervous system. Functional correlations of neural structures. Same as ANAT 403. Meets eight weeks of the semester.

501 Foundations of Neuroscience I 2 hours. Provide a core understanding of modern neuroscience and will be taught by faculty from multiple units. Prerequisite(s): Consent of the instructor.
Nursing Sciences (NUSC)

420 Pathophysiology and Pharmaco-therapeutics I 3 hours.
First of two courses which provide an understanding of responses to disease and pharmacological treatments. Included are the therapeutic and toxic effects for major drug classes and basic microbiology principles. Prerequisite(s): NUSC 251 and MNSC 232 and graduate standing. Must enroll concurrently in NUSC 421.

421 Integrated Healthcare: Concepts and Skills 8 hours.
This course will provide the basis for understanding fundamental concepts to the practice of nursing across the life span. Theoretical concepts will be integrated with skills essential to practice. Prerequisite(s): Graduate standing. Must enroll concurrently in NUSC 420.

422 Integrated Healthcare: Community 2 hours.
Theories of community assessment, disease prevention, and health behavior are applied to promotion of health for communities and vulnerable populations. Understanding of systems and collaboration with the interdisciplinary team are emphasized. Prerequisite(s): NUSC 420 and NUSC 421 and graduate standing.

423 Pathophysiology and Pharmaco-therapeutics II 4 hours.
Second of two courses which provide an understanding of responses to disease and pharmacological treatments. Included are the therapeutic and toxic effects for major drug classes and basic microbiology principles. Prerequisite(s): Credit or concurrent registration in NUSC 420.

424 Integrated Healthcare: Adult/Older Adult 4 hours.
This course focuses on clinical evaluation/management of common/complex problems in adults and older adults. Emphasizes pathophysiology and management strategies in context of culture and ethnicity. Prerequisite(s): NUSC 420 and NUSC 421; and graduate standing.

425 Integrated Healthcare: Clinical Practice I 7 hours.
Provide students with experiences across all levels of prevention. Focus is on planning and implementing care for adults and older adults — individuals and populations. Students experience the systems of care from acute care to community. Satisfactory/Unsatisfactory grading only. Prerequisite(s): NUSC 420 and NUSC 421; and graduate standing. Must enroll concurrently in NUSC 422 and NUSC 424.

426 Cultural Fluency and Communication Skills 2 hours.
Course provides a foundation of communication skills, teaching and learning theory, and cultural competencies for provision of nursing care. Prerequisite(s): NUSC 420 and NUSC 421; and graduate standing.

427 Integrated Healthcare: Clinical Practice II 8 hours.
Provide students with experiences across all levels of prevention. Focus is on planning and implementing care for women, children, and the mentally ill in a variety of settings. Students experience the systems of care from acute care to community. Satisfactory/Unsatisfactory grading only. Prerequisite(s): NUSC 425 and graduate standing. Concurrent registration in NUSC 428 and NUSC 430.

Care for women throughout the life span, including pregnancy, birth, the postpartum and interconceptional periods, and throughout the aging process. Prerequisite(s): NUSC 420 and NUSC 421 and graduate standing.

429 Integrated Healthcare: Clinical Synthesis 7 hours.
Focus is on synthesis of nursing knowledge and skills and on implementation of leadership and management skills, including organizing care and delegation, in the provision of care. Clinical experiences occur in their area of concentration. Satisfactory/Unsatisfactory grading only. Prerequisite(s): NUSC 427 and graduate standing. Concurrent registration in NUSC 434.

430 Integrated Healthcare: Mental Health 2 hours.
Application and integration of biopsychosocial concepts and principles to the mental healthcare of individuals and groups across the continuum of care, including health promotion and illness prevention, maintenance, and rehabilitation. Prerequisite(s): NUSC 420 and NUSC 421 and graduate standing.

432 Bioethics 2 hours.
Examine ethical decision-making models as applied to nursing. Use ethics committees, resolution of conflict around ethical dilemmas, impact of cultural/gender influences on ethical decision making and nursing’s role as patient advocate. Prerequisite(s): NUSC 420 and NUSC 421 and graduate standing.

434 Leadership in Professional Practice 3 hours.
Theories of leadership/management are analyzed in relationship to the new healthcare delivery system, nursing role, evidence-based practice, future trends, and the professional education continuum. Prerequisite(s): NUSC 422 and NUSC 424 and NUSC 425 and NUSC 427 and NUSC 428 and NUSC 429 and graduate standing.

438 Infant Feeding: Historical, Societal, and Health Policy Issues 3 hours.
Examines infant feeding practices from historical, contemporary societal, and political dimensions. The importance of infant feeding in developing countries as well as legislation regarding infant feeding are also examined. Prerequisite(s): Consent of the instructor.

440 Wholistic Health: Use of Self 2 hours.
Comprehensive mind, body, and spiritual health. Spiritual assessment of self, individuals, and families. Self as a therapeutic agent/health provider for wholistic healthcare. Prerequisite(s): Graduate standing; or senior standing and consent of the instructor.

441 Wholistic Health: Community Focus 2 hours.
Community and congregational assessment. Health beliefs and practices of faith communities and their impact on healthcare services, communities, and systems to foster planned change. Prerequisite(s): Graduate standing; or senior standing and consent of the instructor.

450 Women and Mental Health Nursing 3 hours.
Theories of female psychology, women’s daily lives and mental health; gender differences in mental illness; strategies for improving women’s mental health. Same as GWS 450 and NURH 450. Prerequisite(s): Consent of the instructor. Students enrolled in the College of Liberal Arts and Sciences must have credit in PSCH 100 and either PSCH 270 or PSCH 315 or GWS 315.

455 Women’s Health: A Primary Healthcare Approach 3 hours.
Health promotion and disease prevention in women’s health. Includes community experience with community women. Primary healthcare approaches examined. Same as CHSC 456 and NURH 455. Prerequisite(s): Consent of the instructor.

460 Individualized Internship 1 TO 5 hours.
Intensive internship experience will consist of a practicum that will develop skills, competencies, and knowledge in a focused healthcare delivery setting. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

494 Special Topics 1 TO 3 hours.
Discusses selected topics of current interest. Offered according to sufficient student demand and instructor availability. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

499 Urbana Nursing Registration 0 TO 16 hours.
Special course created to accommodate College of Nursing students in Urbana. Represents UIC registration for undergraduate and graduate nursing students. Satisfactory/Unsatisfactory grading only. No graduation credit.

500 Introduction to the Clinical Nurse Specialist Role 1 hour.
Models and role competencies of the clinical nurse specialist. Prerequisite(s): NUSC 527.

505 Philosophy of Science for Health Research 3 hours.
Traces the development of scientific reasoning and exploration from Aristotle to the present, focusing on
the nature of knowledge and role of truth for health research.

Prerequisite(s): Graduate-level research course or consent of the instructor.

506
Theory and Theory Development for Nursing Research 3 hours.
Methods of theory development and critical analysis of selected biological, behavioral, health services, and grand nursing theories which form the basis of nursing science are examined. Prerequisite(s): NUSC 505.

511
Advanced Research Design 4 hours.
In-depth analysis of research design, including such areas as design, appropriateness and validity, sampling, research ethics, and interpretation. Application of the content to nursing and related fields. Prerequisite(s): Credit or concurrent registration in NUSC 505, and graduate-level statistics or consent of the instructor.

515
Measurement in Health Research 4 hours.
Qualitative and quantitative measurement theories; assessment of reliability, validity, and data quality. Critical analysis of measurement issues across the continuum of measures in health research. Prerequisite(s): Credit or concurrent registration in NUSC 506 and NUSC 511 or consent of the instructor and credit or concurrent registration in the second course in graduate-level statistics series.

517
Advanced Research Practicum 1 TO 4 hours.
An intensive guided research practicum in design, data collection, psychometric analysis, or specific analytic technique relevant to the student’s research specialization. Satisfaction/Unsatisfaction grading only. May be repeated to a maximum of 6 hours. Must be repeated for a minimum of 3 hours of credit. Prerequisite(s): NUSC 515 and two advanced statistics courses.

520
Dying, Loss, and Grief 3 hours.
Analysis of social, cultural, and psychological aspects of human grief, loss/death within families and professional caregivers surrounding palliative and end-of-life care.

522
Palliative Management of Pain and Common Symptoms 3 hours.
Evidence-based biobehavioral strategies for palliative management of pain and common symptoms in life-limiting and chronic illness across the lifespan.

524
Sociocultural and Ethical Issues in Palliative Care 3 hours.
Using an ethics theoretical framework, this course explores social, cultural, and political factors that influence palliative care for clients and families across the lifespan.

525
Intermediate Statistics 3 hours.
Application and interpretation of statistical techniques appropriate for health sciences. Prepares students to think quantitatively, use computer to perform statistical analysis, and assess data critically. Prerequisite(s): An undergraduate statistics course.

526
Nursing Inquiry I 2 hours.
The first of a two-course sequence on the process and application of nursing inquiry; emphasizes approaches to inquiry, theory analysis, constructs, measurement, and theory generation.
Prerequisite(s): Credit or concurrent registration in NUSC 525 or the equivalent.

527
Nursing Inquiry II 2 hours.
Continuation of NUSC 526, emphasizing the methods of theory development and theory testing in selected areas of nursing sciences. Ethical issues in research. Prerequisite(s): NUSC 526.

528
Health, Environment, and Systems 2 hours.
Examination of international, national, and local environments for health, health systems, health policy, and their outcomes. Influence of social, cultural, and ethical factors.

529
Issues of Advanced Practice in Nursing 1 hour.
Examines advanced practice in nursing from historical, contemporary, and future dimensions. May be repeated. Students may register in more than one section per term. Only students enrolled in specific nursing concentrations are allowed to repeat course. Prerequisite(s): NUSC 528.

530
Physiologic Basis of Nursing Practice Across the Life Span 4 hours.
Advanced contemporary physiologic principles and their relevance to clinical practice. Content topics will include developmental (life span) physiologic changes. Prerequisite(s): An undergraduate physiology course or consent of the instructor.

531
Pharmacotherapeutics in Advanced Practice in Nursing 3 hours.
Advanced principles of pharmacotherapeutics. Includes legal issues, client adherence, and medication selection factors. Prerequisite(s): Credit or concurrent registration in NUSC 530 or credit or concurrent registration in NUSC 535 or the equivalent or consent of the instructor.

532
Comprehensive Health Assessment for Advanced Practice 0 TO 3 hours.
Includes physical, psychosocial, developmental, occupational, sexual, cultural assessments across the life spans, emphasizing differences between normal and abnormal. Students synthesize results in client’s health status. Students register for either 2 or 3 credit hours. Students registering for three credit hours must register for two additional laboratory/discussion hours per week. Prerequisite(s): NUSC 210 or the equivalent or consent of the instructor.

533
Applied Pharmacotherapeutics in Advanced Practice in Nursing 1 hour.
Application of pharmacology principles to subspecialty populations. May be repeated to a maximum of 2 hours. Prerequisite(s): Credit or concurrent registration in NUSC 531.

535
Biological Basis of Disease 4 hours.
Provides a foundation for clinical therapeutics through an understanding of biophysical mechanisms of disease. Basic concepts of pathologic processes are examined with application to organ systems and across the lifespan. Prerequisite(s): Undergraduate physiology and pathophysiology courses.

540
Instructional Strategies for the Nurse Educator 3 hours.
Introduction to educational theory, methods, and strategies for nursing instruction and evaluation in classroom, clinical, and online teaching. Prerequisite(s): Consent of the instructor.

541
Teaching Practicum for the Nurse Educator 3 hours.
Application of educational theory, methods, and strategies for nursing education, curriculum development, program evaluation, or education administration in classroom, school, clinical or other selected settings. Prerequisite(s): Consent of the instructor.

542
Curriculum Processes in Nursing Education 3 hours.
Builds on basic instructional strategies to prepare the nurse educator for faculty role in various levels of programs, including curriculum design and evaluation. Prerequisite(s): Consent of the instructor.

543
Issues for Nurse Educators and Administrators 3 hours.
Focuses on issues in nursing education administration in the context of society, healthcare, and nursing, especially strategic planning, resources, political influences, conflict, change and leadership. Prerequisite(s): Consent of the instructor.

544
Qualitative Research in Nursing 4 hours.
Major approaches to qualitative research including design, conduct, reporting, and firsthand experience in data collection and analysis. Prerequisite(s): Consent of the instructor.

548
Methodological Issues for Cross-Cultural Research 3 hours.
Conceptual, methodological, and ethical issues for research with varied racial/ethnic backgrounds. Applies acculturation, translation, immigration, and health behavior issues to clinical, community, and international settings. Prerequisite(s): NUSC 511; and consent of the instructor.
550 Issues for Research and Practice in Women's Health 3 hours. Analysis of gender-related definitions of health and illness in theory and research evaluation criteria for women's healthcare practice are developed as a basis for research. Same as NUWH 555. Prerequisite(s): Consent of the instructor.

552 Responsible Conduct of Research 1 hour. Overview of the major ethical issues in the conduct of research with human or animal subjects with strategies for resolving these issues. Course is required by National Institutes of Health for all students supported by a National Research Service Award. Prerequisite(s): Open only to PhD degree students or consent of the instructor.

555 Theories and Methods in Women's Health Nursing Research 3 hours. Critical analysis of theoretical and methodological approaches in women's health nursing research. Emphasis on evaluation schema useful to researchers. Same as NUWH 555. Prerequisite(s): NUWC 550 or NUWH 550, and consent of the instructor.

560 Theoretical Basis for Primary Healthcare 3 hours. Students analyze the conceptual basis of primary healthcare applicable to diverse communities and develop a primary healthcare model specific to a community of interest.

561 Ethical Issues in Primary Healthcare 3 hours. Examination of the ethical components of primary healthcare as a philosophy, strategy, and level of care; and explication of personal frameworks for analysis of a specific health issue. Prerequisite(s): Consent of the instructor.

562 Primary Healthcare Research Methods 3 hours. Conceptual issues, advanced methodologies, and dissemination strategies for scientifically sound and policy relevant global primary healthcare research. Building community relationships for primary healthcare research. Prerequisite(s): NUWC 511 and NUWC 560 or the equivalent or consent of the instructor.

565 Advanced Research in Women's Health 1 TO 2 hours. Advanced seminar for doctoral students in graduate nursing concentration in women's health. Faculty and students present and critique ongoing and developing research. Same as NUWH 565. Prerequisite(s): Consent of the instructor.

569 International Dimensions in Women's Health 3 hours. Critical examination of the health of women from a global perspective. Emphasizes resources and strategies nurses researchers use to monitor women's health across cultures and countries. Same as NUWH 570. Prerequisite(s): Consent of the instructor.

570 Minority Women's Health Nursing 3 hours. Theoretical and descriptive overview of the health concerns and health conditions of women from ethnic/racial minority backgrounds with implications for nursing research and practice. Same as NUWH 570. Prerequisite(s): Consent of the instructor.

575 Health Services and Health Behavior Research: Models and Frameworks 3 hours. Examines and critiques individual, systems, and community-level models and frameworks which guide health services delivery and health promotion behavior research. Prerequisite(s): NUWC 505 and NUWC 506; or consent of the instructor.

580 Health Services and Health Behavior Research: Methods and Measurement 3 hours. Critically analyzes methodological and measurement issues which are important to advanced research in health services delivery and health promotion behavior. Prerequisite(s): NUWC 511 and NUWC 515 and NUWC 560; or consent of the instructor.

581 Seminar in Therapeutic Self 3 hours. Identifies and analyzes a broad range of issues related to modern nursing and nursing research. Topics vary according to student interests and instructor availability. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

590 Leadership in Scientific Careers 1 hour. Analyzes components of leadership in science at the national and global levels. Analyzes factors and issues of the discipline affecting a research career. Analyzes the interdependency of the science to policy cycles of influence. Satisfactory/Unsatisfactory grading only. Prerequisite(s): NUWC 517. Open only to PhD degree students.

592 Preliminary Exam Preparation 1 TO 12 hours. Literature review, reading, and writing in preparation for the preliminary examination supervised by faculty research advisers. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 24 hours. Prerequisite(s): Completion of core courses and consent of the instructor.

594 Special Topics: Advanced 1 TO 3 hours. Discusses selected topics of current interest. Offered according to sufficient student demand and instructor availability. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

595 Seminar in Nursing Practice 1 TO 3 hours. Identifies and analyzes a broad range of issues related to modern nursing and nursing research. Topics vary according to student interests and instructor availability. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

596 Independent Study: Graduate 1 TO 4 hours. Selected problems in nursing are investigated under the direction of a graduate faculty member. Models of investigation are determined by the nature of the nursing problem selected. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

597 Master's Project 0 TO 16 hours. Master's student project research. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor.

599 PhD Thesis Research 0 TO 16 hours. Doctoral student thesis research. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor.

Occupational Therapy (OT)

401 Occupational Performance in Adults and Adolescents 4 hours. Reviews the primary developmental aspects and roles of adolescence and adulthood. Personal and environmental factors that influence occupational performance and prevention and wellness models to facilitate occupational performance. Prerequisite(s): Admission to the Master of Science in Occupational Therapy program.

406 Development of a Therapeutic Self 3 hours. Emphasizes understanding and developing foundational skills in therapeutic use of self and forms of therapeutic reasoning. Group theory and process is introduced and group leadership skills developed. Prerequisite(s): Admission to the Master of Science in Occupational Therapy program.

407 Introduction to Occupational Therapy Practice 2 hours. Overview of the role of the therapist and aspects of occupational therapy practice in multiple settings. The basics of assessment, treatment planning, intervention, and documentation as well as service delivery systems and current issues. Prerequisite(s): Admission to the Master of Science in Occupational Therapy program.

411 Occupational Performance in Children 4 hours. Developmental theories concerning factors influencing the development of occupational performance in
infancy, childhood, and early adole-
sce. Developmental assessment
methods and tools.
Prerequisite(s): Grade of C or
better in OT 401 and grade of C
or better in OT 407; and graduate
standing; and consent of the in-
structor.
412
Human Structure and
Function 5 hours.
Anatomical and physiological basis
for occupational performance.
Features structure and function of
musculoskeletal, cardiovascular, and
nervous systems and application of
biomechanical principles.
Prerequisite(s): Admission to the
Master of Science in Occupational
Therapy program.
416
Occupational Therapy
Practice: Psychosocial
Aspects of
Occupational
Performance 3 hours.
Occupational therapy practices rele-
nant to psychosocial intervention,
related bodies of knowledge influ-
eancing practice, psychological
process affecting occupational func-
tioning, and assessment and treat-
ment related to psychosocial
problems. Prerequisite(s): Grade
of C or better in OT 401 and grade
of C or better in OT 407; and gradu-
ate standing; and consent of the
instructor.
429
Community
Practicum 1 hour.
Field experience in a community
agency serving an urban popula-
tion. Emphasis is on service learn-
ing in context and the development
of professional behaviors. Satis-
factory/Unsatisfactory grading
only. May be repeated. Fieldwork
required. Prerequisite(s): Admis-
sion to the Master of Science in
Occupational Therapy program.
429
Medical Conditions 1 hour.
This self-paced course reviews epi-
ology, clinical manifestation, clinical
course, and general medical and
rehabilitative management of com-
mon medical conditions; emphasis
on musculoskeletal, neurologic, car-
diovascular, and psychiatric disor-
ders. Satisfactory/ Unsatisfactory
grading only.
Prerequisite(s): Admission to the
Master of Science in Occupational
Therapy program.
429
Contexts of
Occupational
Therapy Practice 2 hours.
Trends in healthcare, reimburse-
ment, legislation, and disability policy
and how they affect occupational
therapy. The policy process and
development of an advocacy role.
Exposure to community-based prac-
tice and consultation roles.
Prerequisite(s): Grade of C or
better in OT 407 and graduate
standing.
428
Fieldwork Level I 6 hours.
Application of occupational therapy
theory and therapeutic reasoning in
a forty-hour/week fieldwork experi-
ence with the opportunity to develop
beginning therapeutic skills and pro-
fessional behavior. Fieldwork
required. Prerequisite(s): Grade
of C or better in OT 411 and grade
of C or better in OT 412 and grade
of C or better in OT 416; and satis-
factory completion of OT 422 and
graduate standing; and consent of
the instructor.
436
Occupational Therapy
Practice: Functional
Movement and
Mobility 5 hours.
Application of occupational ther-
eviation and intervention skills
to children and adults with occupa-
tional performance deficits resulting
from mobility and movement dys-
function. Prerequisite(s): Grade
of C or better in OT 411 and grade
of C or better in OT 412 and grade
of C or better in OT 416; and satis-
factory completion of OT 422 and
graduate standing.
437
Occupational Therapy
Practice: Cognition
and Perception
in Action 4 hours.
The impact of impaired cognitive
and perceptual processes on occupa-
tional performance of children and
adults with neurological condi-
tions, cognitive and intellectual dis-
abilities, and psychiatric disabilities.
Prerequisite(s): Grade of C or
better in OT 411 and grade of C or
better in OT 412 and grade of C or
better in OT 416; and satisfactory
completion of OT 422 and graduate
standing.
448
Fieldwork Level II 8 hours.
First of two supervised full-time
twelve-week practices with emphasis
on application of OT theory, develop-
ment of psychomotor skills, reason-
ing client-related problems, and
professional socialization as an
entry-level occupational therapist.
Satisfactory/ Unsatisfactory
grading only.
Prerequisite(s): Grade of C or
better in OT 401 and grade of C or
better in OT 406 and grade of C or
better in OT 407 and grade of C or
better in OT 408 and grade of C or
better in OT 416 and grade of C or
better in AHS 510.
530
Advanced Field Experience:
Clinical Specialization in
Occupational
Therapy 1 TO 4 hours.
Provides opportunity for the student
interested in advanced occupational
therapy practice to observe a master
clinician and participate in treatment
and/or clinical research.
Satisfactory/ Unsatisfactory
grading only.
Prerequisite(s): Consent of the
instructor.
531
Advanced Field Experience
in Occupational
Therapy Management 1 TO 4 hours.
Practicum experience working with
an experienced professional to
develop projects or programs in stu-
dent’s interest area, e.g., administra-
tion, middle management,
consultation, program evaluation,
and grantmanship.
Satisfactory/ Unsatisfactory
grading only.
Prerequisite(s): Consent of the
instructor.
532
Advanced Field Experience:
Occupational Therapy
Education 1 TO 4 hours.
Provides opportunity to observe,
prepare, and present lectures/labs to
occupational therapy students in
technical or professional curricula or
to develop skills as a clinical educa-
tor.
Satisfactory/ Unsatisfactory
grading only.
Prerequisite(s): Consent of the
instructor.
534
Sociocultural Aspects of
Occupational
Therapy 3 hours.
Addresses social and cultural con-
texts in which chronic illness and
disability are experienced; contexts
which impact that experience, and
broad contexts in which recovery/accommodation and occu-
patory therapy treatment occur.
Prerequisite(s): Grade of C or
better in OT 424 and grade of C or
better in OT 428 and grade of C or
better in OT 526.
535
Synthesis II 2 hours.
Integrating advanced theory, prac-
tice, and research knowledge and
skills across courses using complex
individual and programmatic case studies and small and large group interaction planning activities. Satisfactory/ Unsatisfactory grading only.

**Prerequisite(s):** Grade of C or better in OT 424 and grade of C or better in OT 428 and grade of C or better in OT 526 and satisfactory completion of OT 422.

**536 Fatiguing Conditions and Disability 3 hours.** Empirically supported concepts related to assessment and management of fatiguing conditions. Course also explores the relationship between fatigue and disability from social, psychological, and community-based perspectives. Same as DGS 536.

**Recommended background:** Health or behavioral sciences.

**540 Advanced Topics in Occupational Therapy Research and Evaluation 4 hours.** In-depth presentation of selected research/measurement strategies. Specific topics vary and include single system design, survey research, ethnography, evaluation of clinical effectiveness. May be repeated. Students may register in more than one section per term.

**Prerequisite(s):** Consent of the instructor.

**541 Advanced Human Occupation Theory and Application 4 hours.** Provides an advanced understanding of evaluation, intervention, program development, and research based on the model of human occupation. Focuses on use of the model to address psychosocial problems in a range of disabled persons.

**Prerequisite(s):** OT 400 or consent of the instructor.

**542 Advanced Clinical Reasoning and Therapeutic Use of Self in Occupational Therapy 2 hours.** Teaches occupational therapy students advanced skills in forming and maintaining ethical, empathic, and successful treatment relationships with their clients.

**544 Cognitive Behavioral Therapy for Persons with Chronic Illness and Disability 4 hours.** Care concepts of cognitive behavioral therapy for individuals with chronic illnesses and disabilities from practice and theoretical perspectives. Recommended background: Exposure to course work in therapeutic use of self, psychopathology or in psychosocial aspects of occupational therapy.

**550 Disability in the Urban Environment 4 hours.** Features of urban contexts that influence experiences of persons with disabilities are examined as they exacerbate problems or enhance resources in low income communities. Same as DIS 550.

**551 Computers, Communication, and Controls in Rehabilitation Technology 3 hours.** Provides information on operation and use of alternative controls for computers, augmentative communication devices, and powered mobility. Emphasis on matching consumer’s need and assistive technology. Same as DHD 551.

**Recommended background:** Speech-Language Pathology, Occupational Therapy, Special Education.

**552 Community-Based Interventions with Underserved Populations 4 hours.** Addresses theories, ethics, and strategies of developing and providing outcomes-based clinical interventions in underserved communities. Students collaborate with a community population to implement course concepts.

**Prerequisite(s):** Level II fieldwork or prior work experience or consent of the instructor. Recommended background: OT 550.

**555 Program Evaluation: Documenting the Impact of Human Services 3 hours.** Examines methods in program evaluation with emphasis on empowerment and participatory evaluation. Students will study quantitative and qualitative strategies, how to communicate information to stakeholders, and how to design evaluations. Same as DHD 553.

**Recommended background:** Interest in research, health or behavioral sciences, and implementation and evaluation of community initiatives and community-based organizations.

**554 Applied Professional Ethics in Occupational Therapy 2 hours.** Integrates advanced theory, practice, and research knowledge and skills from fieldwork and course work to identify and mitigate ethical dilemmas, legal concerns, and/or complex intervention problems encountered in occupational therapy practice. Satisfactory/ Unsatisfactory grading only.

**Prerequisite(s):** Grade of C or better in OT 500 and grade of C or better in OT 510.

**555 Synthesis III 2 hours.** Integrating advanced theory, practice, and research knowledge and skills from advanced fieldwork and course work using complex case studies and small group assessment and intervention planning activities from students’ fieldwork experiences. Satisfactory/Unsatisfactory grading only. Fieldwork required.

**Prerequisite(s):** OT 448.

**556 Theory and Methods of Needs Assessment in Aging and Disability 4 hours.** Introduces theories of need, models of the needs assessment process, and reviews research methods typically used in conducting needs assessments. Emphasis will be on needs assessments in health-related community agencies. Same as CHSC 556 and DIS 556.

**Prerequisite(s):** A 400 or 500-level research course such as OT 510, DHD 415, CHSC 446, or SOC 500. The prerequisite research course needs to provide students with an understanding of basic research design, sampling strategies, and an introduction to methods such as surveys and focus groups.

**Recommended background:** Health or behavioral sciences, research methods.

**557 Acting on Needs Assessment Findings 3 hours.** Follows OT 555, focusing on the translation of needs assessment findings into solution strategies. Addresses setting needs-based priorities, developing solutions, setting action plans, and working with communities to enact those plans.

**Prerequisite(s):** Grade of C or better in OT 500 and grade of C or better in OT 510 and grade of C or better in 556; or consent of the instructor.

**558 Writing for Professional Publications in Occupational Therapy 3 hours.** Addresses processes and issues related to writing for publication in occupational therapy and related journals and magazines, including preparation and submission processes, IRB, receiving critiques, and communicating with reviewers and editors. **Prerequisite(s):** Grade of C or better in OT 500 and grade of C or better in OT 510.

**564 Administration and Management in Occupational Therapy 3 hours.** Overview of issues related to administration and management in varied settings in which occupational therapists practice. Topics include management functions, service planning, quality improvement, financial management, and accreditation.

**Prerequisite(s):** OT 428 or approval of the department.

**565 Research Methodology and Outcomes Measures in Rehabilitation Technology 3 hours.** Analyzes the research process in rehabilitation technology and assistive technology and how such analysis leads to the development of a research proposal. Outcome measures related to assistive technology will be evaluated for their applicability. Same as DHD 565.

**Recommended background:** Engineering, occupational therapy, physical therapy, special education, and speech and language pathology.

**567 Professional Leadership in Occupational Therapy 3 hours.** Focuses on application of theory and evidence in administrative, managerial, and educational leadership. Examines roles and functions of leaders and application of problem solving, change management, and quality improvement in a variety of settings. **Prerequisite(s):** Grade of C or better in OT 564; or consent of the instructor.

**568 Occupational Therapy Professional Curriculum Design, Implementation, and Evaluation 3 hours.** Didactic material and experiential learning as students explore design and implementation of a professional curriculum. Students will be exposed to student admissions, advising, student life, and accreditation. **Prerequisite(s):** Consent of the instructor.

**590 Proseminar in Occupational Therapy 2 hours.** Topics related to leadership/management, education, and advanced practice in occupational therapy. Satisfactory/Unsatisfactory grading.
only. May be repeated. Open only to OTD students, or consent of the instructor.

592 Project Research 0 TO 16 hours. Applied scholarship involving planning and implementation of one or more action projects based on theory and evidence, evaluation, writing a comprehensive report, dispensation, and oral presentation. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor.

594 Special Topics in Occupational Therapy 1 TO 4 hours. New course under development and selected seminar topics of current interest to faculty and students. Prerequisite(s): Consent of the instructor.

595 Seminar in Occupational Therapy 1 hour. Prethesis seminar. Students participate in faculty-student discussion and activities related to individual areas of research/thesis. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor.

596 Independent Study 1 TO 4 hours. This course is for graduate students who wish to pursue independent study not related to their project/thesis research. Prerequisite(s): Consent of the instructor.

597 Project Research 0 TO 8 hours. Independent scholarship focusing on problems of application in field. Students undertake an action project, create a method for dissemination, and orally present the project. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 8 hours. Prerequisite(s): Graduate standing in the Master of Science in Occupational Therapy program and consent of the instructor.

598 Research in Occupational Therapy 0 TO 16 hours. Independent research in occupational therapy, directed by a faculty member. MS students are required to take a minimum of 7 credit hours. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Foundation courses in research methods, such as OT 510, and statistics, or consent of the instructor.

599 Advanced Research 0 TO 16 hours. Independent thesis research on basic biomedical phenomena or specific oral disease(s). Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the advisor.

595 Seminar in Oral Pathology 2 hours. Reviews, reports, and discussion topics are drawn from the literature and material of oral pathology. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor.

598 Research in Oral Pathology 0 TO 16 hours. Independent thesis research on basic biomedical phenomena or specific oral disease(s). Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the advisor.

595 Seminar in Oral Pathology 2 hours. Reviews, reports, and discussion topics are drawn from the literature and material of oral pathology. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor.

598 Research in Oral Pathology 0 TO 16 hours. Independent thesis research on basic biomedical phenomena or specific oral disease(s). Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the advisor.

595 Seminar in Oral Pathology 2 hours. Reviews, reports, and discussion topics are drawn from the literature and material of oral pathology. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor.

598 Research in Oral Pathology 0 TO 16 hours. Independent thesis research on basic biomedical phenomena or specific oral disease(s). Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the advisor.

595 Seminar in Oral Pathology 2 hours. Reviews, reports, and discussion topics are drawn from the literature and material of oral pathology. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor.

598 Research in Oral Pathology 0 TO 16 hours. Independent thesis research on basic biomedical phenomena or specific oral disease(s). Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the advisor.

595 Seminar in Oral Pathology 2 hours. Reviews, reports, and discussion topics are drawn from the literature and material of oral pathology. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor.

598 Research in Oral Pathology 0 TO 16 hours. Independent thesis research on basic biomedical phenomena or specific oral disease(s). Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the advisor.

595 Seminar in Oral Pathology 2 hours. Reviews, reports, and discussion topics are drawn from the literature and material of oral pathology. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor.

598 Research in Oral Pathology 0 TO 16 hours. Independent thesis research on basic biomedical phenomena or specific oral disease(s). Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the advisor.

595 Seminar in Oral Pathology 2 hours. Reviews, reports, and discussion topics are drawn from the literature and material of oral pathology. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor.

598 Research in Oral Pathology 0 TO 16 hours. Independent thesis research on basic biomedical phenomena or specific oral disease(s). Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the advisor.

595 Seminar in Oral Pathology 2 hours. Reviews, reports, and discussion topics are drawn from the literature and material of oral pathology. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor.

598 Research in Oral Pathology 0 TO 16 hours. Independent thesis research on basic biomedical phenomena or specific oral disease(s). Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the advisor.
581 Advanced Oral Sciences II 2 hours. Continuation of OSC 580. Prerequisite(s): OSC 580.
583 Research Laboratory Rotation 1 TO 4 hours. Students participate directly in laboratory research, learn to approach a scientific problem, and perform various experimental techniques to investigate the problem. May be repeated to a maximum of 6 hours.
590 Hominid Evolution, Dental Anthropology, and Human Variation 1 hour. Evolution, hominid origins; organization and development of human dentition; genes, metric and nonmetric variation in tooth form, human growth and maturation, variation and adaptation. Prerequisite(s): Consent of the instructor.
593 Independent Research in Oral Sciences 1 TO 8 hours. Faculty supervised research projects. Research may not duplicate that being done in OSC 590. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor.
594 Special Topics in Oral Sciences 1 TO 4 hours. Content varies. Selected topics of current interest in oral sciences. May be repeated. Students may register in more than one section per term. Prerequisite(s): Graduate or postgraduate standing and consent of the instructor.
596 Independent Study 1 TO 4 hours. Faculty-supervised independent study not included in regular course offerings. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.
598 Master’s Thesis Research 0 TO 16 hours. Thesis research to fulfill master’s degree requirements. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Matriculation into the Master of Science in Oral Sciences program and consent of the director of graduate studies.
599 Doctoral Thesis Research 0 TO 16 hours. Independent investigation carried out by PhD candidates under supervision of the student’s Advisory Committee. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Satisfactory completion of Candidacy Examination.

Orthodontics (ORTD)

513 Craniofacial Growth and Development 4 hours. Physiology of the stomatognathic system, behavioral development, implications of craniofacial growth and development, reactions of periodontal tissues to applied force and prevalence; causes of malocclusion. Prerequisite(s): Matriculation into the Certificate Program in Orthodontics or MS in Oral Sciences program.
521 Methodologies in Craniofacial Research 1 hour. Demonstration and discussion of the techniques and methods employed in the study of the structure, growth, and function of the craniofacial region.
524 Craniofacial Anomalies I 2 hours. Introduction to a variety of orofacial clefts, etiology, clinical presentation, growth and development, and habilitation via an interdisciplinary team approach. Longitudinal analysis of cases with cleft lip and palate.
525 Craniofacial Anomalies II 1 hour. Introduction to treatment aspects of patients with orofacial clefts and to a variety of craniofacial anomalies, their etiology, clinical presentation, growth and development, and habilitation through a team approach. Clinical rotations through the Center for Craniofacial Anomalies. Prerequisite(s): ORTD 524.
537 Biostatistics Applied to Craniofacial Research 2 hours. Multivariate statistical techniques applied to craniofacial growth research. Prerequisite(s): ORTD 523 and a basic univariate statistics course.
595 Seminar in Orthodontics 1 TO 2 hours. Presentations by selected guest lecturers on research or clinical material relating to matters of interest to the Department of Orthodontics. Satisfactory/Unsatisfactory grading only. Prerequisite(s): May be repeated to a maximum of 13 hours. Enrollment in the Orthodontics postgraduate or Oral Sciences graduate program.

Pathology (PATH)

421 General Pathology—Dental 3 hours. Basic principles of pathological processes. Prerequisite(s): ANAT 440 and PATH 407 and PHYB 401, or consent of instructor.
422 Systemic Pathology—Dentistry 3 hours. Disease process affecting specific organs. Prerequisite(s): PATH 421.
425 General Pathology 3 hours. Basic principles of pathological processes, including tissue injury and repair, inflammation, circulatory disturbances, retrograde processes, and tissue responses to specific infectious agents and neoplasms. Prerequisite(s): ANAT 425 or ANAT 440 or the equivalent, and PHYB 401 or the equivalent, or consent of the instructor.
426 Organ Pathology 5 hours. The disease processes affecting specific organs and anatomic systems. Prerequisite(s): PATH 425 or consent of the instructor.
427 Clinical Pathology 4 hours. Practical application of the clinical aspects of laboratory medicine. Emphasizes problem solving at the laboratory level and clinical-pathological correlation. Prerequisite(s): PATH 425 and consent of the instructor.
501 Experimental Pathology 3 hours. Survey of experimental pathology: general principles and techniques. Prerequisite(s): PATH 425 and PATH 426 or the equivalent or consent of the instructor.
503 Molecular Pathology 2 hours. Molecular pathology principles and techniques; application to unfold molecular basis of disease. Molecular diagnostic testing to determine disease by examining RNA, DNA, or protein. Prerequisite(s): PATH 501.
506 Medical Immunology and Flow Cytometry 2 hours. This flow cytometry workshop has been designed to fill the needs of graduate students in the understanding of the basic principles of the flow cytometry computer use required. Prerequisite(s): Graduate or professional standing and consent of the instructor.
507 Physiological Basis of Pathology 2 hours. Subject matter allied to general pathology but going deeper into physical chemistry and physiological principles, as set forth in N.R. Joseph’s “Comparative Physical Biology.” Same as HSTL 507. Prerequisite(s): HSTL 452; or PATH 421 and PATH 422.
508 Clinical Pathophysiology I 3 hours. Pathophysiologic alterations that occur as the result of disease. Emphasizes the following disease processes: neoplastic, infectious, immunological, hematologic, cardiopulmonary, respiratory, and renal. Prerequisite(s): PATH 425 and PATH 426.
509 Clinical Pathophysiology II 3 hours. Continuation of PATH 508. Pathophysiologic disease processes in the following systems: gastrointestinal, hepatobiliary, nervous, female and male genitourinary, skin, musculoskeletal, and endocrine. Prerequisite(s): PATH 508.
522 Clinical Biochemistry 5 hours. Clinical chemistry principles and techniques and its role in diagnosis and treatment; chemistry of major body constituents in health and disease; effective use of the laboratory. Prerequisite(s): BCHE 460 or the equivalent.
527 Clinical Laboratory Method Evaluation 3 hours. Development and comparison of clinical laboratory methods; also, statistical methods of evaluating sensitivity, specificity, precision, accuracy, predictive value, and cost effectiveness. Same as MLS 527. Prerequisite(s): Consent of the instructor.
530 Medical Bacteriology 3 hours. Principles, theory, and practice of diagnostic bacteriology and infectious diseases. Prerequisite(s): MM 452 or the equivalent.

534 Medical Mycology, Parasitology, and Virology 3 hours. An advanced microbiology course on the latest theoretical and practical concepts of human pathogenic fungi, protozoa, helminths, and viruses, and their relation to disease and diagnosis. Prerequisite(s): MM 452 or consent of the instructor.

595 Pathology Seminar and Journal Club 2 hours. Weekly seminar and journal club covering selected fields of interest and research in pathology. Satisfactory/Unsatisfactory grading only.

596 Master’s Thesis Research 0 to 16 hours. Research in experimental pathology towards MS degree. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term.

597 PhD Thesis Research 0 to 16 hours. Research in experimental pathology towards a PhD degree. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term.

Pediatric Dentistry (PEDD)

410 Principles and Methods in Dental Research I 2 hours. Introduces students to several of the more commonly used statistical procedures for testing hypotheses; provides students with a beginner’s set of tools for using statistics. Prerequisite(s): Enrollment in postgraduate or graduate program in pediatric dentistry.

411 Principles and Methods in Dental Research II 2 hours. Designed to provide the student with an understanding of the scientific method. Prerequisite(s): PEDD 410.

501 Dental Pediatrics I 2 hours. The pathophysiology and biologic basis of the neurologically-, mentally-, and medically-compromised developing child and the implications to dental management and research.

502 Dental Pediatrics II 2 hours. The pathophysiologic and biologic basis of the neurologically-, mentally-, and medically-compromised developing child and the implications to dental management and research. Prerequisite(s): PEDD 501.

595 Pediatric Dentistry Seminar 2 hours. Presentation and discussion of current literature and research in pediatric dentistry, medical and dental aspects of pulpal therapy, traumatology, fluorides and cariology. Provides behavior guidance and application of material from other areas. Satisfactory/Unsatisfactory grading only.

Pharmacognosy (PMPG)

480 Biological Evaluation of Natural Products 3 hours. Short-term procedures useful for the discovery and characterization of natural product drugs, with related laboratory experiments, and principles of more advanced drug development. Prerequisite(s): Consent of the instructor.

499 Special Projects in Pharmacognosy 1 to 3 hours. Special topics in pharmacognosy dealing with isolation and characterization of natural products.

507 Drug Discovery, Design, and Development 3 hours. Overview of drug development process from target identification and screening through clinical trials and FDA evaluation. Same as BPS 507 and MDC 507.

510 Research Techniques in Pharmacognosy 3 hours. Introduction to the techniques used in pharmacognosy.

511 Advanced Pharmacognosy 4 hours. A theoretical and applied course designed to acquaint the student with the occurrence, isolation, characterization, identification, biosynthesis, and activity profile of biologically active natural products. Prerequisite(s): PMPG 510 or the equivalent or consent of the instructor.

512 Microscopy of Natural Drug Products 3 hours. Use of microscopic methods in the identification of natural drugs and herbal products, with emphasis on the use of light and scanning electron microscopes. Prerequisite(s): PMPG 517 or consent of the instructor.

513 Structure of Biopolymers 3 hours. Explores the relationship between structural stability, kinetic properties, and function of biopolymers, with particular emphasis on proteins and nucleic acids. Same as BCHE 513 and MIM 513. Prerequisite(s): GOLS 501 and one year of physical chemistry, or consent of the instructor.

515 Structure Elucidation of Natural Products I 2 hours. Learn the basic skills needed to elucidate the structure of a natural product by spectrophotometric methods using real-life examples. May be repeated to a maximum of 6 hours. Prerequisite(s): Consent of the instructor.

516 Structure Elucidation of Natural Products II 3 hours. Employing modern computational methods in the structure elucidation and dereplication of a natural product by using real-life examples. Same as MDC 516. May be repeated. Prerequisite(s): PMPG 515.

517 Problem Solving in Plant Taxonomy 4 hours. Principles and concepts in plant taxonomy, which include identification, classification, nomenclature, discussion of major recent/modern systems, family characterization, and fieldwork methods. Prerequisite(s): Consent of the instructor.

518 Correlative Phytochemistry 2 hours. Distributional correlation of well-defined groups of secondary phytoconstituents with existing plant classification systems as an aid in the search for biologically active natural products. Prerequisite(s): PMPG 517.

520 Ethnopharmacology Fieldwork 4 hours. Studies plants used by primitive peoples as medicinal agents in defined geographic areas, primarily through interviews with medical men and the populace. Plant material will be collected for subsequent study. Contingent on availability of funds for travel support. Prerequisite(s): PMPG 517 or consent of the instructor.

521 Recent Advances in Pharmacognosy 2 hours. A review of recent progress in the chemistry biosynthesis, and biological properties of natural products. Prerequisite(s): PMPG 511.

522 Laboratory Techniques in Pharmaceutical Biotechnology I 3 hours. Students will perform laboratory research rotations as assigned by the Biotechnology track faculty in the three laboratories of the Center for Pharmaceutical Biotechnology in the College of Pharmacy. Prerequisite(s): Credit or concurrent registration in BCHE 460; or consent of the instructor.

523 Laboratory Techniques in Pharmaceutical Biotechnology II 3 hours. In a continuation of PMPG 522, students will perform laboratory research rotations as assigned by the Biotechnology track faculty in the laboratories of the Center for Pharmaceutical Biotechnology in the College of Pharmacy. Prerequisite(s): PMPG 522; or consent of the instructor.

534 Dental and Medical Anthropology Within Human Evolution 1 to 3 hours. Studies the biologic and physical anthropologic hominid teeth and the craniofacial complex with relevant medical anthropology, ethno-pharmacology, forensic sciences, and paleopathology topics. Same as ANTH 534 and OSU 534. Fieldwork required. A lab experience, independent study, and a research paper are required for 3 hours of credit. Prerequisite(s): Graduate standing and consent of the instructor.

540 Marine Natural Products 2 hours. Exposure graduate students to field of marine natural product chemistry. Course will include examples of marine antineoplastic agents.
marine toxins, and other pharmaceutically relevant marine natural products from various marine organisms. May be repeated to a maximum of 6 hours.

565 Special Projects in Pharmacognosy 1 TO 3 hours. Overview of current research topics of interest in pharmacognosy: potential areas—ethnomedicine, biological evaluation, dietary supplements, taxonomy, chemotaxonomy, organism propagation, and applications of contemporary analytical techniques. May be repeated up to 3 times. Prerequisite(s): Completion of the first year of the program.

569 Predictive Strategies in Pharmacognosy 2 hours. Consideration of the methods employed for the selection of plants that are most likely to yield biologically active compounds. Prerequisite(s): Demonstration of competency in organic chemistry, botany, and pharmacology.

590 Laboratory Techniques in Pharmacognosy I 2 hours. Perform laboratory research rotations as assigned by Pharmacognosy drug discovery track faculty of Program for Collaborative Research in Pharmaceutical Sciences (PCRPS). Prerequisite(s): Credit or concurrent registration in PMPG 510 or consent of the instructor.

592 Laboratory Techniques in Pharmacognosy II 2 hours. In continuation of PMPG 590, student will perform lab research rotations as assigned by Pharmacognosy drug discovery track faculty of the Program for Collaborative Research in Pharmaceutical Sciences (PCRPS). Prerequisite(s): PMPG 590 or consent of the instructor.

599 Seminar in Pharmacognosy 1 hour. Presentation on a current research topic. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 2 hours.

598 Master’s Research in Pharmacognosy 0 TO 16 hours. Research for completion of master’s degree. Satisfactory/Unsatisfactory grading only.

599 Doctoral Research in Pharmacognosy 0 TO 16 hours. Research for students in the pharmacognosy doctoral program. Satisfactory/Unsatisfactory grading only. May be repeated.

Pharmacology (PCOL)

430 Principles of Toxicology 2 hours. Examines the toxic effects of drugs and chemicals on organ systems. Lectures emphasize basic principles, effects on specific organ systems, major classes of toxic chemicals, and specialized topics such as forensic and industrial toxicology. Same as BPS 430. Credit is not given for PCOL 430 if the student has credit for EOH 457.

501 Medical Pharmacology I 3 hours. A lecture, conference, and laboratory course on human pharmacology. Drug mechanisms, toxicities, and kinetics are presented as a foundation to therapeutic application. This is a College of Medicine course that does not follow the regular academic calendar. Credit is not given for PCOL 501 if the student has credit for PCOL 425. Prerequisite(s): Grade of C or better in GCLS 501 and grade of C or better in GCLS 503; or consent of the instructor.

502 Medical Pharmacology II 3 hours. Continues PCOL 501. A lecture, conference, and laboratory course on human pharmacology. Drug mechanisms, toxicities, and kinetics are presented as a foundation to therapeutic application. Credit is not given for PCOL 502 if the student has credit for PCOL 425. College of Medicine course that does not follow the regular academic calendar. Prerequisite(s): Grade of C or better in GCLS 501 and grade of C or better in GCLS 503; or consent of the instructor.

510 Molecular Pharmacology of Platelets, Thrombosis, and Vascular System 2 hours. Molecular mechanisms and therapeutic approaches to: platelet functions, thrombosis, hemostasis, and vascular biology. The platelet as a model cell for molecular mechanisms of intracellular signal transduction and cell adhesion. Prerequisite(s): Credit or concurrent registration in GCLS 501 and GCLS 503; or consent of the instructor.

530 Pharmacology and Biology of the Vessel Wall 2 hours. Regulation of physiological and pathological processes in the cardiovascular system: e.g., endothelial barrier, cell adhesion, smooth muscle proliferation, angiogenesis, endothelial gene expression. Pharmacological treatment of cardiovascular diseases. Prerequisite(s): Credit or concurrent registration in GCLS 501 and GCLS 503; and consent of the instructor.

540 Ion Channels: Structure, Function, Pharmacology, and Pathology 2 hours. The concept of ion channels is treated from the perspectives of their molecular structures and functions. Modulation, pathological conditions (channelopathies), and pharmacological intervention will also be treated. Same as PHRB 540. Recommended background: One undergraduate course in biochemistry and one in physiology, or consent of the instructor.

594 Special Topics 1 hour. Organized presentation and discussion of rapidly developing research areas in molecular, cellular, and systems pharmacology. May be repeated. Prerequisite(s): Consent of the instructor.

595 Seminar 1 hour. Presentations of research and/or current literature by invited lecturers and students. Satisfactory/Unsatisfactory grading only. May be repeated.

596 MS Thesis Research 0 TO 16 hours. Thesis work under the supervision of a graduate adviser. Satisfactory/Unsatisfactory grading only.

599 PhD Thesis Research 0 TO 16 hours. Thesis work under the supervision of a graduate adviser. Satisfactory/Unsatisfactory grading only.

Pharmacy (PHAR)

400 Pharmacokinetics 3 hours. Concepts and principles in pharmacokinetics including theories and basis for drug receptor actions, drug absorption, distribution, excretion, and biotransformation. Prerequisite(s): Credit or concurrent registration in PHAR 322 and credit or concurrent registration in PHAR 332 and credit or concurrent registration in PHRY 302.

401 Principles of Drug Action and Therapeutics I 3 hours. Integration of medicinal chemistry, pharmacology, pharmacoepidemiology, pharmacokinetics, and toxicology in the drug actions related to the disease states associated with the endocrine, renal, optical, and auditory systems. Prerequisite(s): PHRB 302 and PHAR 342 and PHAR 400 and second-year standing in the Doctor of Pharmacy program.

402 Principles of Drug Action and Therapeutics II 4 hours. Integration of medicinal chemistry, pharmacology, pharmacoepidemiology, pharmacokinetics, and toxicology in the areas of the autonomic nervous system, cardiology, lipid disorders, and hypertension. Prerequisite(s): PHRB 302 and PHAR 342 and PHAR 400 and second-year standing in the Doctor of Pharmacy program.

403 Principles of Drug Action and Therapeutics III 3 hours. Integration of medicinal chemistry, pharmacology, pharmacoepidemiology, pharmacokinetics, and toxicology in the areas of pain management and psychiatric disorders. Prerequisite(s): PHAR 352 and PHAR 401 and PHAR 402 and second-year standing in the Doctor of Pharmacy program or consent of the instructor.

404 Principles of Drug Action and Therapeutics IV 3 hours. Integration of medicinal chemistry, pharmacology, pharmacoepidemiology, pharmacokinetics, and toxicology in the areas of women’s and men’s health, respiratory disorders, diabetes, and pediatrics. Prerequisite(s): PHAR 352 and PHAR 401 and PHAR 402 and second-year standing in the Doctor of Pharmacy program or consent of the instructor.
405 Principles of Drug Action and Therapeutics V 3 hours. Integration of medicinal chemistry, pharmacology, pharmacotherapeutics, pharmacokinetics, and toxicology in the areas of drug abuse, cardiovascular diseases, Parkinson’s, and epilepsy. Prerequisite(s): PHAR 353 and PHAR 401 and PHAR 402 and third-year standing in the Doctor of Pharmacy program or consent of the instructor.

406 Principles of Drug Action and Therapeutics VI 3 hours. Integration of medicinal chemistry, pharmacology, pharmacotherapeutics, pharmacokinetics, and toxicology in the area of infectious disease. Prerequisite(s): PHAR 353 and PHAR 401 and PHAR 402 and third-year standing in the Doctor of Pharmacy program or consent of the instructor.

407 Principles of Drug Action and Therapeutics VII 4 hours. Integration of medicinal chemistry, pharmacology, pharmacotherapeutics, pharmacokinetics, and toxicology in the areas of transplants, gastrointestinal disorders, body fluids, nutrition, and the impact of drug therapies on a geriatric person. Prerequisite(s): PHAR 353 and PHAR 401 and PHAR 402 and third-year standing in the Doctor of Pharmacy program or consent of the instructor.

408 Principles of Drug Action and Therapeutics VIII 3 hours. Integration of medicinal chemistry, pharmacology, pharmacotherapeutics, pharmacokinetics, and toxicology in the areas of bones and joints, hemato logical disorders, and oncology. Prerequisite(s): PHAR 353 and PHAR 401 and PHAR 402 and third-year standing in the Doctor of Pharmacy program or consent of the instructor.

411 Roles, Environments, and Communications 3 hours. Selected factors that influence pharmacists’ practice, societal and professional expectations, and the effectiveness of communication with a variety of patients and professional audiences. Prerequisite(s): Acceptance into the Doctor of Pharmacy program.

445 Pharmacy Law 3 hours. Federal and state statutes and regulations pertaining to the licensing of pharmacists, the practice of pharmacy, and the distribution of drugs. Case law relating to the pharmacists’ standard of care. Prerequisite(s): PHAR 342.

455 Drug Information and Statistics 4 hours. Overview of drug information resources and statistics used in healthcare research, including systematic approaches for critical evaluation of the literature and effective communication of information. Prerequisite(s): PHAR 341.

Pharmacy Administration (PMAD)

421 Pharmaceutical Marketing 3 hours. Introduction to the field of marketing with specific emphasis on pharmacoeconomics and the marketing of pharmacy services.

470 Managed Care Pharmacy 3 hours. Professional development in managed care pharmacy to learn history, administrative and policy aspects, network with operational managers and leaders in field, visit managed care sites and observe activities of managed care pharmacists.

482 Professional Practice Management 3 hours. Managerial functions of the pharmacist in all practice environments with emphasis on the planning, organizing, staffing, directing, and controlling of resources.

484 Systematic Reviews and Meta-analysis 3 hours. The course will discuss the concepts, process, and statistical methods required to perform a systematic review or meta-analysis of a large body of empirical findings. Extensive computer use required. Prerequisite(s): EPID 400 or BSTT 400 and PHAR 355 or PMAD 502 or graduate or professional standing or consent of the instructor.

494 Special Topics in Pharmacy Administration 1 to 3 hours. Topics will vary, including the ongoing analysis of contemporary issues associated with delivery, financing, and management of pharmaceutical products and professional services. May be repeated to a maximum of 6 hours.

502 Research Methods in Pharmacy Administration 3 hours. Focuses on “how-to-do” a research project and “why-to-use” a particular technique including meta-analysis, path analysis, conceptualization, measurement, and data processing. Prerequisite(s): SOC 500 and consent of the instructor.

507 Pharmacy and Its Environment 2 hours. Factors directly influencing the practice of pharmacy. Roles of the pharmacist as affected by contemporary organizational, legislative, societal, and fiscal environments. Prerequisite(s): Admission into the MS or PhD in Pharmacy program.

510 Problems in Pharmacy Management 3 hours. Selective managerial problems relative to pharmacy practice. Fieldwork involves data collection based on individual and group models of the managerial decision process. Prerequisite(s): PHAD 482 or the equivalent.

525 Medication, Identity, and Illness 3 hours. Concepts and principles of human behavior related to pharmacy practice, including understanding of patient behavior and methods to facilitate patient and interprofessional communication. Prerequisite(s): PHAD 321 or consent of the instructor.

535 Health Policy and Pharmaceutical Care 3 hours. Regulatory controls and reform proposals covering drug approval, manufacturing, marketing, and use, including problems of drug diversion, lag, orphan products, and patent restoration. Prerequisite(s): FPA 500.

573 Principles of Economic Evaluations of Healthcare Interventions 3 hours. Principles, models, and practical methods for the economic evaluation of healthcare services with an emphasis on pharmaceutical care. Same as HPA 573. Previously listed as PMAD 571. Prerequisite(s): Graduate standing and consent of the instructor.

594 Special Topics in Pharmacy Administration 1 to 3 hours. Topics vary. Intensive analysis of contemporary issues associated with delivery and financing of pharmaceutical products and professional services. May be repeated to a maximum of 6 hours.

595 Departmental Seminar 1 hour. Presentation by students, faculty, and visiting experts. Topics to be arranged. Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

598 Independent Study 1 to 4 hours. Individual research under direction of a member of the faculty. May be repeated. Students may register in more than one section per term. Prerequisite(s): PMAD 502 or consent of the instructor.

599 Master’s Thesis Research 0 to 16 hours. Independent research on topic approved by student’s graduate committee. Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the committee. Open only to degree candidates.

599 PhD Thesis Research 0 to 16 hours. Independent research on topic approved by student’s graduate committee. Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the committee. Open only to degree candidates.

Pharmacy Practice (PMPR)

430 Critical Care I 2 hours. Advanced pharmacotherapeutics course that will concentrate on the management and the pharmacist’s role in the management of the critically ill patient. Prerequisite(s): PHAR 402 and PHAR 403 and PHAR 404 and PHAR 405 and PHAR 406; and completion of the second year of the program. Must enroll concurrently in PHAR 407 and PHAR 408.
Philosophy (PHIL)

400
Philosophical Writing 1 hour.
Philosophical issues covered will vary from semester to semester. Fulfills Writing-in-the-Discipline requirement. Must be taken in conjunction with designated 400-level courses. See the undergraduate adviser for details. 
Prerequisite(s): Major in philosophy and concurrent registration in a 400-level philosophy course as designated in the Timetable.

401
Theory of Knowledge 3 OR 4 hours.
Survey and analysis of key topics in epistemology, such as skepticism, the nature of propositional knowledge, justification, perception, memory, induction, other minds, and naturalistic epistemology. 3 undergraduate hours. 4 graduate hours. 
Prerequisite(s): PHIL 201 or consent of the instructor.

403
Metaphysics 3 OR 4 hours.
Intensive treatment of one or more topics such as free will, personal identity, causation, existence, substance and attribute, and the nature of the mind. 3 undergraduate hours. 4 graduate hours. 
Prerequisite(s): PHIL 203 or PHIL 226 or PHIL 426 or consent of the instructor.

404
Philosophy of Science 3 OR 4 hours.
Selected works on the aims and methods of science; the status of scientific theories, natural laws, and theoretical entities; the nature of scientific explanation. 3 undergraduate hours. 4 graduate hours. 
Prerequisite(s): PHIL 102 or PHIL 210, and one 200-level course in philosophy, or consent of the instructor.

406
Philosophy of Language 3 OR 4 hours.
Intensive treatment of one or more topics such as meaning and reference, communication, the structure of language, language and thought, and the relation of language to reality. 3 undergraduate hours. 4 graduate hours. 
Prerequisite(s): PHIL 102 or one 200- or 400-level logic course or PHIL 226 or consent of the instructor.

410
Introduction to Formal Logic 3 OR 4 hours.
Review of predicate logic and of introductory set theory. The concept of a formal system. Notions of completeness and soundness. Introduction to Gödel’s first incompleteness theorem. 3 undergraduate hours. 4 graduate hours. 
Prerequisite(s): PHIL 210 or consent of the instructor.

416
Metalogic I 3 OR 4 hours.
Metatheory for sentence and predicate logic. Completeness and compactness theorems and their applications. 3 undergraduate hours. 4 graduate hours. Students who have taken MATH 430 may not register for this course. Should be taken in sequence with PHIL 417. 
Prerequisite(s): PHIL 210 or consent of the instructor.

417
Metalogic II 3 OR 4 hours.
Effective computability and recursive functions. Peano arithmetic. Arithmetization of syntax, incompleteness and undecidability: Gödel’s and Church’s theorems. 3 undergraduate hours. 4 graduate hours. 
Prerequisite(s): PHIL 416 or consent of the instructor.

420
Plato 3 OR 4 hours.
Careful reading of selected works. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time with approval. Approval to repeat course granted by the department. 
Prerequisite(s): PHIL 220 or PHIL 221 or 3 courses in philosophy or consent of the instructor.

421
Aristotle 3 OR 4 hours.
Careful reading of selected works. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time with approval. Approval to repeat course granted by the department. 
Prerequisite(s): PHIL 220 or PHIL 221 or 3 courses in philosophy or consent of the instructor.

422
Aristotle 3 OR 4 hours.
Careful reading of selected works. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time with approval. Approval to repeat course granted by the department. 
Prerequisite(s): PHIL 220 or PHIL 221 or 3 courses in philosophy or consent of the instructor.

423
Studies in Early Modern Philosophy 3 OR 4 hours.
Careful reading of selected works of one or more philosophers, 1600 to 1750, such as Descartes, Hobbes, Spinoza, Leibniz, Locke, Berkeley, Hume, Reid, and Rousseau. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time with approval. Approval to repeat course granted by the department. 
Prerequisite(s): PHIL 223 or PHIL 224 or 3 courses in philosophy or consent of the instructor.

424
Kant 3 OR 4 hours.
Intensive study of Kant’s metaphysics and theory of knowledge with main reading drawn from the Critique of Pure Reason. 3 undergraduate hours. 4 graduate hours. 
Prerequisite(s): PHIL 223 or PHIL 224 or 3 courses in philosophy or consent of the instructor.

425
Studies in Nineteenth-Century Philosophy 3 OR 4 hours.
Careful reading of one or more post-Kantian philosophers such as Hegel, Schelling, Fichte, Schopenhauer, Marx, J.S. Mill, Kierkegaard, and Nietzsche. 3 undergraduate hours. 4 graduate hours. 
Prerequisite(s): One 200-level course in philosophy or consent of the instructor.

426
Analysis and Logical Empiricism 3 OR 4 hours.
Developments in twentieth-century philosophy with roots in the study of logic and language, such as logical atomism, logical empiricism, and contemporary analytic philosophy. Topics vary. 3 undergraduate hours. 4 graduate hours. 
Prerequisite(s): PHIL 210 or PHIL 226 or consent of the instructor.

427
Continental Philosophy II: European Thought Since 1960 3 OR 4 hours.
European thought since 1960: Existential Marxism, Critical Theory, Structuralism, Post-Structuralism and Deconstruction. 3 undergraduate hours. 4 graduate hours. 
Prerequisite(s): PHIL 227 or consent of the instructor.

429
Special Studies in the History of Philosophy 3 OR 4 hours.
Advanced study of a historical school, period, or the development of a historical theme. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time with approval. Approval to repeat course granted by the department. 
Prerequisite(s): One 200-level course in the history of philosophy or consent of the instructor.

430
Ethics 3 OR 4 hours.
Selected topics in moral philosophy such as normative ethics, value theory, or metaethics. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time with approval. Approval to repeat course granted by the department. 
Prerequisite(s): One 200-level course in philosophy or consent of the instructor. 
Recommended background: Credit in a course in moral, social, or political philosophy.

431
Social/Political Philosophy 3 OR 4 hours.
Selected topics in social and political philosophy. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time with approval. Approval to repeat course granted by the department. 
Prerequisite(s): One 200-level course in philosophy or consent of the instructor. 
Recommended background: Credit in a course in moral, social, or political philosophy.

432
Topics in Ethics 3 OR 4 hours.
Selected topics in ethics. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time with approval. Approval to repeat course granted by the department. 
Prerequisite(s): One 200-level course in philosophy or consent of the instructor. 
Recommended background: Credit in a course in moral, social, or political philosophy.

433
Topics in Social/Political Philosophy 3 OR 4 hours.
Selected topics in social and political philosophy. 3 undergraduate hours. 4 graduate hours. May be repeated up to 1 time with approval. Approval to repeat course granted by the department. 
Prerequisite(s): One 200-level course in philosophy or consent of the instructor. 
Recommended background: Credit in a course in moral, social, or political philosophy.
441  Topics in Philosophy of Religion  0 TO 4 hours.  Intensive study of one or more selected topics concerning the philosophical aspects of basic religious beliefs and concepts.  3 undergraduate hours.  4 graduate hours.  May be repeated up to 1 time with approval.  Approval to repeat course granted by the department.  Prerequisite(s):  One 200-level course in philosophy or consent of the instructor.  Recommended background:  PHL 241.

484  Neuroscience I  3 hours.  Neuroscience as an integrative discipline.  Neuroanatomy of vertebrates, neural development, cellular neurobiology, action potential mechanisms, synaptic transmission, and neuropharmacology.  Same as BIOS 484 and PSCH 484.  Prerequisite(s):  BIOS 286 or PSCH 262.

485  Neuroscience II  3 hours.  Integrative neuroscience.  Continuation of BIOS/PSCH/PHIL 484.  Sensory and motor systems; learning, memory, and language.  Pathology of nervous systems.  Philosophical perspectives and modeling.  Same as BIOS 485 and PSCH 485.  Prerequisite(s):  BIOS 484.

500  Writing in Philosophy  4 hours.  Practice in philosophical writing including finding a thesis, judicious choice of reading on the topic, outlining, and composing drafts as well as style, paragraphing, and making sentences.  Required of all first-year PhD students.  Prerequisite(s):  Graduate standing in philosophy.

501  Seminar: Topics in Ancient Philosophy  4 hours.  Intensive study of selected topics.  May be repeated with approval.  Approval to repeat course granted by the department.  Students may register for more than one section per term when topics vary.

503  Medieval Philosophy  4 hours.  Intensive study of special topics in medieval philosophy.  May be repeated with approval.  Approval to repeat course granted by the department.  Students may register for more than one section per term when topics vary.

504  Theoretical Approaches to Policy and Governance  4 hours.  Different theoretical approaches to the relationship between policy and governance and the philosophical foundations on which those approaches are based.  Same as POLS 504.  Prerequisite(s):  Consent of the department required for nondegree graduate students.

505  Seminar in Modern Philosophy  4 hours.  Intensive analysis of the work of one important philosopher or philosophical movement between 1600 and 1900.  May be repeated with approval.  Approval to repeat course granted by the department.  Students may register for more than one section per term when topics vary.

508  Nineteenth-Century Philosophy  4 hours.  Topics in nineteenth-century philosophy.  May be repeated with approval.  Students may register for more than one section per term.  Approval to repeat course granted by the department.

509  History of Analytic Philosophy  4 hours.  Topics in late-nineteenth- and early-twentieth-century Anglo-American philosophy.  May be repeated with approval.  Approval to repeat course granted by the department.  Students may register for more than one section per term when topics vary.

510  History of Ethics and Social/Political Philosophy  4 hours.  Topics in the history of ethics or social-political philosophy.  May be repeated with approval.  Approval to repeat course granted by the department.  Students may register for more than one section per term when topics vary.

513  Topics in History of Philosophy  4 hours.  Philosophers, philosophical schools, or intellectual trends other than those of the ancient and modern periods.  May be repeated with approval.  Approval to repeat course granted by the department.  Students may register for more than one section per term when topics vary.

520  Topics in Contemporary Philosophy  4 hours.  Intensive analysis of the work of one important philosopher or philosophical movement of the twentieth century.  May be repeated with approval.  Approval to repeat course granted by the department.  Students may register for more than one section per term when topics vary.

522  Feminist Philosophy  4 hours.  Topics in feminist philosophy.  May be repeated with approval.  Students may register for more than one section per term.  Approval to repeat course granted by the department.

524  Continental Philosophy  4 hours.  Topics in continental philosophy.  May be repeated with approval.  Approval to repeat course granted by the department.  Students may register for more than one section per term when topics vary.

526  Ethics  4 hours.  Intensive study of selected topics.  May be repeated with approval.  Approval to repeat course granted by the department.  Students may register for more than one section per term when topics vary.

528  Social/Political Philosophy  4 hours.  Intensive study of selected topics.  May be repeated with approval.  Approval to repeat course granted by the department.  Students may register for more than one section per term when topics vary.

530  Aesthetics  4 hours.  Intensive study of selected topics in aesthetics.  May be repeated with approval.  Approval to repeat course granted by the department.  Students may register for more than one section per term when topics vary.

532  Metaphysics  4 hours.  Intensive study of selected topics.  May be repeated with approval.  Approval to repeat course granted by the department.  Students may register for more than one section per term when topics vary.

534  Philosophy of Mind  4 hours.  Intensive study of selected topics.  May be repeated with approval.  Approval to repeat course granted by the department.  Students may register for more than one section per term when topics vary.

536  Epistemology  4 hours.  Selected topics in the contemporary theory of knowledge.  May be repeated with approval.  Approval to repeat course granted by the department.  Students may register for more than one section per term when topics vary.

538  Philosophy of Language  4 hours.  Intensive study of selected topics.  May be repeated with approval.  Approval to repeat course granted by the department.  Students may register for more than one section per term when topics vary.

540  Philosophy of Science  4 hours.  Intensive study of selected topics.  May be repeated with approval.  Approval to repeat course granted by the department.  Students may register for more than one section per term when topics vary.

542  Philosophy of Special Sciences  4 hours.  Intensive study of special topics in philosophy of physics, philosophy of biology, or other sciences.  May be repeated with approval.  Approval to repeat course granted by the department.  Students may register for more than one section per term when topics vary.

544  Philosophy of Logic  4 hours.  Intensive study of selected topics.  May be repeated with approval.  Approval to repeat course granted by the department.  Students may register for more than one section per term when topics vary.

546  Philosophy of Mathematics  4 hours.  Philosophical foundations of mathematics.  May be repeated with approval.  Approval to repeat course granted by the department.

562  Metamathematics I  4 hours.  First order logic, completeness theorem, and model theory.  Same as MATH 502.  Prerequisite(s):  MATH 430 or consent of the instructor.

563  Metamathematics II  4 hours.  Incompleteness theorems, elementary recursion theory and proof theory, and second order arithmetic.  Same as MATH 503.  Prerequisite(s):  MATH 502 or PHL 562.
565 Set Theory I 4 hours.
Naive and axiomatic set theory. Independence of the continuum hypothesis and the axiom of choice. Same as MATH 504.
Prerequisite(s): MATH 430 or MATH 502 or PHIL 562.

567 Model Theory I 4 hours.
Same as MATH 507.
Prerequisite(s): MATH 502 or PHIL 562.

568 Model Theory II 4 hours.
Intermediate stability theory: dependence, prime models, isolation, regular types, dimension, weight. Same as MATH 507.
Prerequisite(s): MATH 502 or PHIL 567.

569 Advanced Topics in Logic 4 hours.
Advanced topics in modern logic: e.g., descriptive set theory, model theory of fields, theory of hierarchies, stable groups. Same as MATH 512. May be repeated. Students may register in more than one section per term.
Prerequisite(s): Approval of the department.

590 Research Seminar 4 hours.
A work-in-progress seminar for graduate students at the topical, prospectus, or dissertation level. Satisfactory/Unsatisfactory grading only. May be repeated.
Prerequisite(s): Completion of 10 of the 14 required courses for the PhD in Philosophy.

593 Independent Research 2 TO 8 hours.
Topics and plan of study must be approved by the candidate’s adviser and by the staff member who directs the work. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term.

596 Independent Study 1 TO 4 hours.
Topics and plan of study must be approved by the candidate’s adviser and by the staff member who directs the work. May be repeated. Students may register in more than one section per term.

599 Thesis Research 0 TO 16 hours.
Research for the PhD thesis. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term.

571 Therapeutic Intervention 3 hours.
Provides clinicians with an approach to integrate research into practice. The goal is to acquire skills to evaluate therapeutic interventions in the literature and in practice.
Prerequisite(s): Consent of the instructor.

580 Mechanics of Joint Dysfunction 3 hours.
Principles of mechanics applied to pathology of joint components; mechanical and neurological implications of extremity and spinal joint dysfunction; critical review of pertinent literature.
Prerequisite(s): PT 519.

582 Biomechanics of Locomotor Dysfunction 3 hours.
Principles of mechanics applied to the study of walking pattern. Kinematic and kinetic analysis of normal and pathological deviations, and issues related to development from birth to adult and neuromuscular control.
Prerequisite(s): Consent of the instructor.

583 Neuroplasticity and Pathophysiology 3 hours.
Neurologic concepts underlying PNS/CNS injury process and neural plasticity (nervous system remodeling and reorganization). Neuropathology of conditions producing movement dysfunction.
Prerequisite(s): Consent of the instructor.

586 Measurement in Physical Therapy 3 hours.
Measurement theory and statistics underlying the development of standardized tests. Critique of physical therapy tests of strength, ROM, coordination, endurance, and activities of daily living.
Prerequisite(s): Consent of the instructor and any graduate-level statistics course.

590 Seminar in Physical Therapy 1 hour.
Topics of current interest in physical therapy specialty areas. Includes discussions of current research and important new developments in the specific disciplines. Satisfactory/Unsatisfactory grading only.
Prerequisite(s): Consent of the instructor.

595 Independent Study 1 TO 4 hours.
For graduate students who wish to pursue independent study not related to their project/thesis research. May be repeated to a maximum of 8 hours if topics vary. Students may register in more than one section per term.
Prerequisite(s): Consent of the instructor. Recommended background: Prior experience or knowledge of child development.

572 Psychology of Motor Control and Learning 3 hours.
Advanced principles of the control and acquisition of complex, voluntary skills. Same as MVSC 572.
Prerequisite(s):心理学 534; or consent of the instructor.

574 Instrumentation for Motor Control Research 3 hours.
Introduction to oscilloscopes, amplifiers, filters, and transducers. Origin and processing of electromyograms. Motor capture and processing techniques. Same as MVSC 574.
Prerequisite(s): Consent of the instructor.

594 Special Topics in Physical Therapy 1 TO 4 hours.
Selected topics of interest within physical therapy specialty areas. Particular attention is given to topics of cross cutting importance to these professions, especially applications in teaching, consultation, and administration. May be repeated to a maximum of 8 hours if topics vary. Students may register in more than one section per term.
Prerequisite(s): Consent of the instructor.

595 Seminar in Physical Therapy 1 hour.
Topics of current interest in physical therapy. Includes discussions of current research and important new developments in the specific disciplines. Satisfactory/Unsatisfactory grading only.
Prerequisite(s): Consent of the instructor.
Prerequisite(s): Consent of the instructor.

598 Research in Physical Therapy 0 to 16 hours. Independent research in one area of physical therapy directed by a faculty member. Satisfactory/Unsatisfactory grading only.

Prerequisite(s): Foundation courses in research methods and graduate level statistics and consent of the instructor.

Physics (PHYS)

401 Electromagnetism I 4 hours. Vector calculus; electrostatic fields in vacuum; solution of electrostatic boundary-value problems; electrostatic fields in material media; electrostatic energy; electric current. Prerequisite(s): PHYS 142 and PHYS 215.

402 Electromagnetism II 4 hours. Magnetic fields of steady currents and magnetic materials; electromagnetic induction; magnetic energy; slowly-varying currents; a-c circuits; Maxwell's equations; electromagnetic waves; bounded regions; special relativity. Prerequisite(s): PHYS 401.

411 Quantum Mechanics I 4 hours. Wave particle duality; wave functions; Schrödinger equation; mathematical structure of quantum mechanics; operators and observables; matrix representation of operators; three dimensional Schrödinger equation. Prerequisite(s): PHYS 401.

412 Quantum Mechanics II 4 hours. Orbital angular momentum; spin and vector addition of angular momenta; degeneracy and non-degenerate perturbation theory; identical particles; time-dependent perturbation theory; scattering theory. Prerequisite(s): PHYS 401.

421 Modern Physics: Atoms and Molecules 4 hours. Hydrogenic atoms, electron spin, external fields, multi-electron atoms, diatomic molecules, line widths, photons, radiation from atoms and other electromagnetic processes, positions, posttsonium, elastic electron scattering. Prerequisite(s): Credit or concurrent registration in PHYS 411.

425 Modern Optics 5 hours. Review of electromagnetic wave theory; advanced geometrical optics; Fourier transforms and optics; interference and diffraction; laser cavities and gain media; introduction to nonlinear and fiber optics. Prerequisite(s): PHYS 244.

431 Modern Physics: Condensed Matter 4 hours. Crystal structures; interatomic binding; lattice vibrations; thermal and magnetic properties; quantum statistical mechanics; free electron theory of metals; electronic band theory; semiconductors and insulators; superconductivity. Prerequisite(s): PHYS 411 and PHYS 461; or consent of the instructor.

441 Theoretical Mechanics 4 hours. Variable motion, non-inertial frames, oscillations, rigid body motion, three-dimensional motion, angular momentum, torque, orbits, Lagrange's equations. Prerequisite(s): PHYS 142 and PHYS 215.

450 Molecular Biophysics of the Cell 4 hours. Introduction to molecular length, time, force, energy scales; statistical thermodynamics of solutions; DNA, RNA, and protein structure and function; experimental methods. Same as BIDE 450. Prerequisite(s): PHYS 245 or the equivalent.

451 Modern Physics: Nuclei and Elementary Particles 4 hours. Accelerators, detectors, symmetries, conservation laws, leptons, weak interactions, electroweak theory, strong interactions, hadrons, nuclear forces, systematic and reactions, nuclear models, nuclear astrophysics, quarks, quantum chromodynamics. Prerequisite(s): PHYS 411.

461 Modern and Statistical Physics 4 hours. Thermal equilibrium (Zeroth Law); thermodynamic states (First Law); irreversibility; entropy (Second Law); thermodynamic potentials and properties; phase transitions; kinetic theory of gases; classical statistical mechanics. Prerequisite(s): PHYS 245.

470 Educational Practice with Seminar I 6 hours. The first half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Graduate credit only with approval of the department.

Prerequisite(s): Good academic standing in a teacher education program, completion of 100-clock hours of pre-student-teaching field experiences, and approval of the department.

471 Educational Practice with Seminar II 6 hours. The second half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Graduate credit only with approval of the department.

Prerequisite(s): Good academic standing in a teacher education program, completion of 100-clock hours of pre-student-teaching field experiences, credit or concurrent registration in PHYS 470, and approval of the department.

481 Modern Experimental Physics I 4 hours. Theory and experimental use of linear circuits, semiconductor devices, amplifiers, oscillators. Techniques and experimental atomic, molecular and solid-state physics. Prerequisite(s): PHYS 244.

491 Special Topics in Physics 1 to 4 hours. Selected topics of current interest in physics. May be repeated. Prerequisite(s): PHYS 215 and sophomore standing or above; or approval of the department.

494 Special Topics in Physics Teaching 2 to 4 hours. Seminar on various topics related to the teaching of physics. Subjects are announced. May be repeated. May register in more than one section per term. Supervised teaching practice included. Prerequisite(s): Graduate standing or approval of the department.

499 Survey of Physics Problems 1 hour. Problem-solving techniques applied to the variety of undergraduate physics topics. May be repeated up to 1 time. No graduation credit for graduate students. Grade of C or better required to graduate with an undergraduate degree in physics. Prerequisite(s): Credit or concurrent registration in PHYS 401 and PHYS 411 and PHYS 441 and PHYS 461 and PHYS 481.

501 Electrodynamics I 4 hours. Maxwell's equations, static and time dependent fields in material media and in vacuo. Boundary value problems, wave propagation. Classical theory of radiation. Prerequisite(s): PHYS 402 or approval of the department.

502 Electrodynamics II 4 hours. Special relativity in electrodynamics. Covariant form of Maxwell's equations. Lagrangian form of electrodynamics. Applications to modern physics problems. Prerequisite(s): PHYS 501 or consent of the department.

511 Quantum Mechanics I 4 hours. Linear operators, vector spaces, Schrödinger equation. Heisenberg formalism. Multi-identical particle systems, approximation methods, perturbation theory, symmetries and groups, conservation laws, angular momentum, spin, Wigner-Eckart theorem. Prerequisite(s): PHYS 412 or approval of the department.

512 Quantum Mechanics II 4 hours. Scattering theory, partial waves, Born approximation, density matrix, interaction of radiation with matter; Klein-Gordon and Dirac equations, free-particle solutions, antiparticles, relativistic hydrogen atom. Second quantization. Prerequisite(s): PHYS 511 or approval of the department.

513 Quantum Field Theory I 3 hours. Lagrangian formulation of relativistic wave equations. Quantum electrodynamics: Feynman rules, trace theorems, lowest-order calculations for several processes, self-energy, renormalization, higher-order diagrams. Prerequisite(s): PHYS 512.
514 Quantum Field Theory II 3 hours. Path integrals, gauge theories, Weinberg-Salam model, electroweak processes, quantum chromodynamics, nonperturbative methods, topological objects in field theories, instantons. Prerequisite(s): PHYS 513.

515 Methods in Mathematical Physics 3 hours. Applications of mathematical methods to physics problems, linear operators, orthogonal functions, Green's functions, ordinary and partial differential equations, Sturm-Liouville problem, Hilbert space, group theory. Prerequisite(s): PHYS 215.

521 Molecular Physics 3 hours. Rotational and vibrational energies of molecules, potential curves, electronic transitions, transition moments, intensity rules, thermodynamic properties. Applications. Prerequisite(s): PHYS 411 and PHYS 421; or approval of the department.

522 Laser Physics/Quantum Electronics 3 hours. Laser physics, population inversion, quantum theoretical calculation; modern laser systems; coherence phenomena; applications of lasers. Prerequisite(s): PHYS 521 or approval of the department.

524 Group Theory in Physics 3 hours. Applications of group theory and symmetry principles to problems in elementary particle, solid-state, atomic, and molecular physics. Prerequisite(s): PHYS 512 or approval of the department.

532 Solid-State Physics II 3 hours. Semiconductor physics, electron-electron and electron-phonon interactions, superconductivity, spin systems, diamagnetism, paramagnetism, ferromagnetism, and antiferromagnetism. Prerequisite(s): PHYS 531.

533 Theory of Solids: Semiconductors 3 hours. Spin systems; magnetism; equilibrium Green’s functions; Landau theory of Fermi liquids; Hubbard model; Luttinger model, nonequilibrium Green’s functions, Keldysh, Kadanoff-Baym approach. Prerequisite(s): PHYS 512 and PHYS 532.

534 Theory of Solids: Condensed Matter Physics 3 hours. Introduction to General Relativity. Principle of equivalence, the metric field and geodesics, sensor analysis, and differential geometry, Einstein’s equations and the action principle, gravitational fields and waves, black holes. Prerequisite(s): PHYS 502 and PHYS 541 or approval of the department.

540 Physics of Semiconductor Devices 4 hours. Electrons in periodic lattice; equilibrium carrier distribution; energy band diagrams in junctions, in homogeneous semiconductors; recombination and generation; nonequilibrium processes, radiation and electric fields; diodes. Same as ECE 540. Prerequisite(s): ECE 346 or the equivalent.

545 Introduction to Statistical Mechanics 3 hours. Density matrix. Information theory; Boltzmann-Gibbs distribution; the n-vector model, renormalization group theory; cellular automata. Prerequisite(s): PHYS 461 or approval of the department.

561 Advanced Experimental Physics 2 hours. Experimental techniques in atomic, molecular and solid- and solid-state physics. Prerequisite(s): PHYS 431 or consent of the instructor.

594 Special Topics in Modern Physics 1 TO 4 hours. Lectures on topics of current interest. Subjects are announced in the previous semester. May be repeated. Students may register in more than one section per term. Prerequisite(s): PHYS 512.

595 Graduate Seminar 1 hour. Seminars in areas of research activity within the department covering recent contributions to the literature and research in progress. Presentations by students, faculty, and scientists from other institutions. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 6 hours. Students may register in more than one section per term.

596 Individual Study 2 TO 4 hours. Special topics. Outside reading and term paper are assigned by a special arrangement with the department and faculty. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Approval of the department.

598 Master’s Thesis Research 0 TO 16 hours. Student may elect to do thesis research to fulfill partial requirement for master’s degree. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Approval of the department.

599 Thesis Research 0 TO 16 hours. PhD thesis research. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Approval of the department.

502 Physiology of Reproduction 2 hours. The purpose of this course is to enable students to acquire a detailed and up-to-date understanding of the biology of reproduction at both the physiological and molecular levels.

505 Receptors and Signal Processing 3 hours. Lecture/discussions of theoretical and experimental aspects of cellular receptors and signaling processes. Topics include drug receptor theory and signal transduction mechanisms. Same as PCOL 555. Prerequisite(s): BCHE 460 or consent of the instructor.

512 Gastrointestinal Physiology 2 hours. Advanced study of the physiology of the gastrointestinal tract. Special emphasis will be placed on recent developments in cellular and molecular aspects and on how they relate to established concepts in the literature. Prerequisite(s): PHYS 402 or consent of the instructor.

516 Physiology and Biochemistry of Muscle Contraction 2 hours. Structure and function of myosin, actin, tropomyosin, troponin, and the sarcoplasmic reticulum; control, energetics, and mechanism of muscle contraction; gene expression.

518 Molecular, Cellular, and Integrative Cardiovascular Physiology 3 hours. Advanced study of the cardiovascular system from molecule to organism. Emphasis on recent developments at the molecular/cellular level and their relationship to overall function. Prerequisite(s): PHYS 401 or consent of the instructor.

523 Exercise Biology in Health and Disease 3 hours. Interrelationships between exercise and various pathological conditions. Current research focusing on molecular and cellular mechanisms in healthy and diseased states. Same as IAVS 553. Prerequisite(s): Consent of the instructor.
540 Ion Channels: Structure, Function, Pharmacology, and Pathology 2 hours.
The concept of ion channels is treated from the perspectives of their molecular structures and functions. Modulation, pathological conditions (channelsopathies), and pharmacological intervention will also be treated. Same as PCOL 540. Recommended background: One undergraduate course in biochemistry and one in physiology, or consent of the instructor.

551 Human Physiology I 5 hours.
Lectures and conferences in human physiology. Emphasis is on cellular, nerve-muscle, cardiovascular, respiratory, and renal physiology. Prerequisite(s): Mathematics, undergraduate physics, and organic chemistry; or consent of instructor. Recommended background: Course work in biological sciences.

552 Human Physiology II 5 hours.
Continuation of PHYB 551. Emphasizes gastrointestinal and physiology of the central nervous system, endocrine, and reproductive systems. Prerequisite(s): A grade of C or better in PHYB 551 or consent of the instructor. Recommended background: Course work in biological sciences.

569 Methods in Experimental Physiology 3 hours.
Primarily for students in physiology. Registration limited to eight. A laboratory course designed to acquaint students with advanced techniques and methodology in physiologic investigations. Prerequisite(s): Enrollment in the MS or PhD in Physiology and Biophysics program, and credit or concurrent registration in PHYB 401 or the equivalent; or consent of the instructor.

585 Cell Biology 4 hours.
Functional and structural organization of the cell with emphasis on the cellular basis of physiological activity. Same as ANAT 585 and MM 585.

586 Cell Physiology 3 hours.
Advanced functional and structural organization of the cell with emphasis on the cellular basis of physiological activity.

Prerequisite(s): PHYB 552 and GCLS 501 and GCLS 553, or consent of the instructor.

591 Departmental Seminar 1 hour.
Weekly seminar by staff and invited speakers. Satisfactory/Unsatisfactory grading only. May be repeated. Required of all physiology and biophysics students each fall and spring semester while enrolled in the graduate program. Prerequisite(s): Graduate or professional standing.

592 Tactics and Strategy of Research in Physiology 2 hours.
Course presents an analysis concerning various approaches in solving current physiology problems. Emphasizes critical reading of the literature. Prerequisite(s): PHYB 401.

594 Special Topics in Physiology and Biophysics 1 TO 4 hours.
Topics may include bioengineering, endocrinology, membrane biology, ion transport and its regulation, muscle physiology, neurophysiology, molecular neurobiology, and others of current significance in physiology and biophysics. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

595 Journal Club and Seminar in Physiology 1 hour.
Student presentation and discussion of assigned topics of current importance in physiology and biophysics as well as related fields. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor. Limited to degree candidates in physiology and biophysics.

596 Independent Study 1 TO 4 hours.
Individual study guided by a faculty member. The format of the course, examination and grading to be established by the faculty member. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

598 MS Thesis Research 0 TO 16 hours.
Thesis work under the supervision of a graduate adviser. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Graduate standing in Physiology and Biophysics.

599 PhD Thesis Research 0 TO 16 hours.
Thesis work under the supervision of a graduate adviser. Satisfactory/Unsatisfactory grading only.

Policy Studies (PS) 453 Topics in Education Policy 3 OR 4 hours.
Workshop; emphasis on issues related to school organization, control, and community relations. Topics are announced at the time the class is scheduled. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 12 hours. Prerequisite(s): Consent of the instructor: Advanced undergraduate or graduate standing.

500 City Schools: The Urban Educational Environment 4 hours.
Cross-disciplinary, critical analysis of relationships between public schools and their urban contexts, with attention to implications for school improvement. Prerequisite(s): Consent of the instructor.

501 School Finance and Policy Analysis 4 hours.
Role of government, school boards, and community in funding education. Principles of school and district financial planning, management, and analysis. Equity issues in school finance. Prerequisite(s): Consent of the instructor.

510 Seminar in Urban Education 4 hours.
This required doctoral seminar will be taken in the first year of doctoral study. It introduces theoretical perspectives and research problems in both concentrations of the PhD program as well as relation between educational and social change. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor or admission to the PhD in Policy Studies in Urban Education program.

512 The Nature and Interpretation of Evidence in Educational Policy Research 4 hours.
This required course in educational research methodology provides students with basic research tools and skills in interpreting and representing quantitative and qualitative data. Students learn research design and critique. Prerequisite(s): ED 500 and enrollment in the PhD in Policy Studies in Urban Education program or consent of the instructor.

544 Research Design 4 hours.
Alternative research design models and evaluation methodologies; quantitative and qualitative approaches; ethnography; historiography; experimentation and quasiexperimentation; institutional and practitioner research designs and methods. May be repeated. Prerequisite(s): Admission to the PhD in Policy Studies in Urban Education (Educational Organization and Leadership Concentration) or the EdD in Urban School Leadership Program and consent of the instructor.

548 Leadership for Literacy Instruction 4 hours.
School and system leadership practices for promoting effective literacy instruction in urban elementary and secondary schools. Assessment and improvement of literacy curriculum, pedagogy, and evaluation. Same as CE 548.

Prerequisite(s): Consent of the instructor; admission to a degree program in the College of Education. Students admitted to the EdD in Urban Education Leadership, prerequisites also include PS 550 and PS 552.

Examine theory and practice of social justice teaching in schools, including: history liberatory pedagogies, culturally relevant and critical pedagogies, funds of knowledge, critical multiculturalism and antiracist pedagogy, critical race theory. Same as CE 549. Prerequisite(s): Consent of the instructor.

550 Organizational Leadership and Change in Education 4 hours.
Introduction to models and theories of organizational leadership and change in education. Overview of mechanisms, resources, and contexts of effective school improvement. Prerequisite(s): Consent of the instructor.
552 The Urban School
Principals 4 hours. Leadership and management responsibilities of principals in urban schools. Theory and research on principal leadership, case study analysis, and field experience with working principals. Prerequisite(s): Consent of the instructor.

553 System Leadership in Urban Schools 4 hours. Leadership and management responsibilities of system administrators in urban school systems. Theory and research on system level leadership using case study analysis and fieldwork with system administrators. Prerequisite(s): Consent of the instructor.

555 Politics of Urban Education 4 hours. Politics of urban school policy and practice. Interest groups, school boards, educators, citizens, and governments as political actors. Educational leadership in political context. Prerequisite(s): Consent of the instructor.

556 Instructional Leadership 4 hours. Instructional improvement role of educational leaders of urban schools. Human resource development, parent/community support, supportive organizational contexts. Strategic planning, implementation, and evaluation. Prerequisite(s): Consent of the instructor.

559 Internship in Educational Leadership 4 hours. Field experience in approved educational leadership positions and sites to perform authentic leadership tasks. Supervision by site-based mentor and university instructor. Different sections will focus on school-level and system-level administration. May be repeated. 4 hours required for the Illinois Type 75 certificate. Additional hours may be needed for students to satisfy local school system administrator certification requirements (such as Chicago Public School’s 1019 requirement). Prerequisite(s): PS 550 and PS 552 and admission to a degree program in the College of Education and to the Type 75 General Administrative Certificate program, and consent of the instructor. Requires concurrent registration in PS 573.

566 Cultural Studies in Education 4 hours. Examines origins, evolutions, and current cultural studies frameworks, with a focus on educational policy and practice. Prerequisite(s): Consent of the instructor or admission to the PhD in Policy Studies in Urban Education program.

567 Economics of Education and Public Policy: An Introduction 4 hours. Introduction to the economics of education. It relates education and income, studies and conditions for efficient production of education, teacher markets and school finance. Prerequisite(s): Consent of the instructor or admission to the PhD in Policy Studies in Urban Education program.

568 Education and the Law 4 hours. Legal rights, responsibilities, and authority of students, parents, teachers, administrators, boards, and government units in relation to schools. Legal issues in education policy and practice. Prerequisite(s): Consent of the instructor.

570 Educational Policy: Historical and Philosophical Analysis 4 hours. The evolution of American educational thought and policy in the context of social and intellectual developments in the culture of the United States. Prerequisite(s): Consent of the instructor.

571 Education Policy: Formation, Implementation, Outcomes 4 hours. Examination of social forces outside the school that influence educational policy making, and the results of implementing policy decisions: legislatures, courts, government agencies, interest groups. Prerequisite(s): Consent of the instructor.

572 Sociology of Education 4 hours. Education as a social institution in interaction with other institutions, such as the economy. Topics include the emergence of national systems of education, purposes of education, inequality, and educational reform. Same as SOC 572. Prerequisite(s): Enrollment in the PhD in Policy Studies in Urban Education program or consent of the instructor.

573 Seminar in Administrative Practice 4 hours. Budget and finance, strategic planning and decision making, communication, use of data and technology, parent/community relations, student support services. Different sections will focus on school-level and system-level administration. May be repeated. 4 hours is required for the Illinois Type 75 certificate. Additional hours may be needed for students to satisfy local school system administrator certification requirements (such as Chicago Public School’s 1019 requirement). Prerequisite(s): PS 550 and PS 552 and admission to a degree program in the College of Education and to the Type 75 General Administrative Certificate program, and consent of the instructor. Requires concurrent registration in PS 559.

574 The Impact of College on Students 4 hours. Introduction to the research evidence on the impact of college on students. Emphasis is placed on methods of assessing impact and research on college effects. Same as PPA 574. Prerequisite(s): Consent of the instructor.

575 Higher Education Organization and Administration 4 hours. Perspectives on administration in higher education. Understandings from organization theory and research on administrative theories applied to issues in higher education administration. Same as PPA 575. Prerequisite(s): Admission to PhD in Public Policy Analysis program or consent of the instructor.

576 History of Higher Education 4 hours. Key historical events which have enduring implications for colleges and universities. Emphasis on social, political, economic, intellectual, and legal forces shaping American higher education. Same as PPA 576. Prerequisite(s): Admission to PhD in Public Policy Analysis program or consent of the instructor.

577 Women in Education 4 hours. An overview of girl’s and women’s educational experiences and placement within the academic structure (as students, professionals, and intellectuals). The impact of gender on the realization of educational, economic, and social opportunities. Same as GWS 583. Prerequisite(s): Consent of the instructor or enrollment in the PhD in Policy Studies in Urban Education program.
586 Methods of Institutional and Practitioner Research 4 hours. Methods of institutional and practitioner research for practicing educators in school and school system settings. Use of this form of inquiry in educational leadership and improvement. Prerequisite(s): Admission to a doctoral program in the College of Education and consent of the instructor.

587 Topics in Documentary and Field Research in Education 4 hours. Study and practice in documentary and field research methods of collecting, organizing, and integrating educational data: interviewing, participatory observation, ethnography, case study, historiography. Topics vary. May be repeated to a maximum of 8 hours. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

588 Critical Race Theory: Race and Racism in Education 4 hours. Examines theories of race and racism in education within the interdisciplinary construct of Critical Race Theory. Prerequisite(s): Consent of the instructor or admission to the PhD in Policy Studies in Urban Education program.

589 Educational Administration Theory 4 hours. Overview of administrative theory, including theory functions; theory practice interface; administrative theory history; and relationships of administrative theory to educational administration and organizations. Prerequisite(s): PS 550 or consent of the instructor.

592 Professional Career Training in Education Policy 4 hours. Faculty supervised training through university teaching, research, or internship. Presentation relating experience to theory. May be repeated to a maximum of 16 hours. Prerequisite(s): Consent of the instructor.

593 PhD Research Project 1 TO 8 hours. Students design, implement, and analyze results of a research problem in this area of specialization. Completed study is reviewed by faculty. May be repeated to a maximum of 8 hours. Prerequisite(s): Admission to the PhD in Education program.

594 Special Topics in Educational Policy 4 hours. Exploration of an area not covered in existing course offerings. Topics vary. May be repeated to a maximum of 12 hours. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

596 Independent Study 1 TO 4 hours. Students carry out independent study in policy studies under the direction of a faculty member. May be repeated to a maximum of 12 hours. Students may register in more than one section per term. Prerequisite(s): Consent of the adviser and the area chairperson.

599 Thesis Research 0 TO 16 hours. Research on the topic of the student's dissertation. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the dissertation adviser.

592 Methods of Institutional and Practitioner Research 4 hours. Methods of institutional and practitioner research for practicing educators in school and school system settings. Use of this form of inquiry in educational leadership and improvement. Prerequisite(s): Admission to a doctoral program in the College of Education and consent of the instructor.

587 Topics in Documentary and Field Research in Education 4 hours. Study and practice in documentary and field research methods of collecting, organizing, and integrating educational data: interviewing, participatory observation, ethnography, case study, historiography. Topics vary. May be repeated to a maximum of 8 hours. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

588 Critical Race Theory: Race and Racism in Education 4 hours. Examines theories of race and racism in education within the interdisciplinary construct of Critical Race Theory. Prerequisite(s): Consent of the instructor or admission to the PhD in Policy Studies in Urban Education program.

589 Educational Administration Theory 4 hours. Overview of administrative theory, including theory functions; theory practice interface; administrative theory history; and relationships of administrative theory to educational administration and organizations. Prerequisite(s): PS 550 or consent of the instructor.

592 Professional Career Training in Education Policy 4 hours. Faculty supervised training through university teaching, research, or internship. Presentation relating experience to theory. May be repeated to a maximum of 16 hours. Prerequisite(s): Consent of the instructor.

593 PhD Research Project 1 TO 8 hours. Students design, implement, and analyze results of a research problem in this area of specialization. Completed study is reviewed by faculty. May be repeated to a maximum of 8 hours. Prerequisite(s): Admission to the PhD in Education program.

594 Special Topics in Educational Policy 4 hours. Exploration of an area not covered in existing course offerings. Topics vary. May be repeated to a maximum of 12 hours. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.
Law and Public Policy 3 OR 4 hours. The role of law and legal institutions in the development and implementation of public policies. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Graduate standing or consent of the instructor.

Independent Research in Political Science 2 TO 6 hours. Research on special problems not included in course offerings. May not duplicate work done in POLS 598 or POLS 599. May be repeated with approval. Approval of the graduate director required to repeat course. Prerequisite(s): Graduate standing and consent of the instructor.

Introduction to Policy and Governance 4 hours. Introduces the intellectual traditions and debates that have characterized the study of public policy and the social order. Society-centered and state-centered explanations for policy will be explored. Same as PPA 560.

Prerequisite(s): Consent of the department required for nondegree graduate students.

Time Series Analysis for Political Science 4 hours. Single series (ARIMA) models, event history analysis,Vector autoregression (VAR), panel and pooled models. Prerequisite(s): POLS 402 or consent of the instructor.

Theoretical Approaches to Policy and Governance 4 hours. Different theoretical approaches to the relationship between policy and governance and the philosophical foundations on which those approaches are based. Same as PHL 504.

Prerequisite(s): Consent of the department required for nondegree graduate students.

Research Design and Methods 4 hours. Overview of the methods and conduct of research in political science. Issues of inference, measurements, data collection, hypothesis testing, and ethics.

The Profession of Political Science 2 hours. Introduces graduate students to the range of teaching, research, and service possibilities in the political science profession. Students are encouraged to take this course during their first year of graduate study.

Seminar on Teaching Political Science 2 hours. Seminar on ethics and responsibilities of teaching political science in various academic settings. Teaching methods and technology applicable to community colleges and four-year colleges. Complements the Preparing Future Faculty Program. The format will include guest speakers from area community and four-year colleges. Satisfactory/unsatisfactory grading only.

Policy Formation, Implementation, and Evaluation 4 hours. Introduction to political science theories of how elections, interest groups, and state structure affect the formulation of public solutions to societal problems. Same as PPA 541. Prerequisite(s): Consent of the department required for nondegree graduate students.

Distributive/Redistributive Public Policy 4 hours. Seminar on the politics of enacting and maintaining distributive policies. Focus is on the parochial and community-wide efficiency of such policies.

Public Policies 4 hours. Studying the nature and determinants of public policy making with respect to the regulation of the economy.

Topics in Public Policy Analysis 4 hours. A research seminar on some aspects of public policy analysis not otherwise covered in the regular curriculum.

Introduction to Urban Politics 4 hours. Explores relationships between private economy and public policies in American cities; causes of urban decline and uneven development; and urban redevelopment and human capital policies.

Urban Public Policy 4 hours. Explores the problems of poverty, race, education, transportation policy, and housing in America’s cities with a special emphasis on Chicago.

Graduate Student Field Experience in Political Science 1 TO 8 hours. Graduate student intern experience. Placement with government agencies, community organizations, or civic organizations, in conjunction with a seminar class and directed readings. May be repeated up to 8 times. Students may register in more than one section per term. Fieldwork required. Prerequisite(s): POLS 402 and POLS 500.

Topics in State and Local Government 4 hours. Case analysis and research in selected problems dealing with structure, functions, and administrative processes of American state and local governments. Prerequisite(s): POLS 500 and POLS 541.

Proseminar in American Politics 4 hours. Introduction to research literature on American policy-making institutions and processes. Prerequisite(s): Consent of the instructor.

Seminar on Legislation and Public Policy 4 hours. Review of recent theories and research on structure and policy formulation in American legislatures. Emphasis on theoretical development in this field. Prerequisite(s): POLS 541.

Executive Process 4 hours. Presidential elections, presidential decision making; the powers of the president; presidential leadership; the distributive state; policy implementation; federalism and administration; the politics of budgeting. Prerequisite(s): Admission to the MA or PPA program or consent of the instructor.

Seminar in Judicial Process 4 hours. The judicial process as part of political and policy processes. Demands made by, and policy impacts on, individual and organizational litigants and other political actors. Prerequisite(s): POLS 460.
566 Interest Groups 4 hours.
Pluralism: the distributive state; radical group theory; public-interest groups; collective actions; corporate; statism; structural
Marxism; social movements and interest groups.

567 Topics in Political Communication 4 hours.
Intensive study of selected aspects; organizational communication in public institutions, urban political communication patterns, communication elites, Independent research using a variety of community research techniques. 
Same as COMM 567 and PA 567. Prerequisite(s): Consent of the instructor.

569 Topics in American Political Processes 4 hours.
A research seminar on some aspect of American political process. Topics vary. Prerequisite(s): POLS 402 and POLS 500.

570 Comparative Politics and Public Policy 4 hours.
Comparative analysis of public policies, such as environmental protection, social welfare, and crime control.

571 Seminar in International Relations 4 hours.
State building and challenges to state authority, democratization and regime change, political economy, environment, war, regionalism and globalization, social movements, and international governance.

572 International Political Economy 4 hours.
Exploration of competing perspectives on nation-states and economic systems. Previously listed as POLS 472.

573 Transitions to Democracy 4 hours.
Game-theoretic view of democracy. Process and outcomes of transition to democracy in capitalist and in communist countries. Civil-military relations in the process of transition. Case studies.

578 Thesis Research 0 TO 16 hours.
Individual study required of all students pursuing advanced degree in political science under thesis option. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor. Open only to degree candidates.

599 Dissertation Research 0 TO 16 hours.
Individual study required of all students pursuing PhD degree with specialization in political science. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor. Open only to degree candidates.

582 The Philosophy of the Social Sciences 4 hours.
The ontological and epistemological foundations of alternative approaches to the study of human beings. Naturalistic, hermetic, and critical approaches are addressed and assessed.

589 Topics in Political Theory 4 hours.
Detailed analysis of a political theorist or type of political theory, especially designed to meet programmatic and graduate needs.

590 Advanced Public Policy Workshop 4 hours.
Interdisciplinary workshop on preparing a dissertation proposal for public policy analysis students. Same as PPA 590. Prerequisite(s): Advanced standing in the PhD in PPA program and completion of PPA core courses.

593 Independent Research for Master’s Degree 2 hours.
Under the supervision of two faculty members, students will complete a major research project that includes a review of relevant literature of a political science topic with analysis of original data or research materials. Satisfactory/Unsatisfactory grading only. Prerequisite(s): POLS 401 and POLS 505 and POLS 506; and POLS 541 or POLS 504 or POLS 551 or POLS 570 or POLS 571. Open only to Master’s degree students and approval of the department.

596 Advanced Readings in Political Science 1 TO 4 hours.
Intensive readings on an advanced topic not covered in the regular curriculum. May be repeated with approval. Students may register in more than one section per term. Approval to repeat course granted by the graduate director. Prerequisite(s): POLS 401 and POLS 404 and consent of the instructor.

598 Thesis 0 TO 16 hours.
Individual study required of all students pursuing advanced degree in political science under thesis option. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor. Open only to degree candidates.

599 Dissertation Research 0 TO 16 hours.
Individual study required of all students pursuing PhD degree with specialization in political science. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor. Open only to degree candidates.

574 Prostodontics (PROS) 572 Advanced Dental Materials 3 hours.
A seminar course designed to develop an advanced understanding of dental materials and a fundamental knowledge of materials science. Involves a critical evaluation of the literature. Prerequisite(s): REST 320, REST 321, REST 322, REST 323, and the equivalent work or matriculation into the Advanced Certificate in Advanced Prosthodontics program.

575 Advanced Occlusion/TMJ Disorders 2 hours.
A lecture and seminar discussion of the advanced concepts of occlusion, articulation, occlusal analysis, diagnosis, and treatment of functional disturbances. Prerequisite(s): Matriculation into the Advanced Certificate in Advanced Prosthodontics program or the MS in Oral Sciences program; consent of the department head.

Psychiatric Nursing (NUPS) 400 Group Dynamics, Behavior, and Intervention 2 TO 3 hours.
Concepts, theories, and research pertaining to group dynamics and interventions carried out in groups. Analysis of videotaped group experience. Master of Science degree-seeking students in the Mental Health Nursing Concentration must register for 3 hours of credit. Prerequisite(s): Consent of the instructor.

516 Behavioral HealthCare I 3 hours.
Common mental health problems presented in primary and community care settings. Focus on psychopathology, assessment, and brief counseling interventions; crisis intervention and triage; emergency care. Prerequisite(s): Consent of the instructor.

517 Behavioral HealthCare II 3 hours.
Complex mental health problems experienced in psychiatric populations. Focus on stabilization and management of psychotic illnesses, dual diagnosis treatment models, psychoeducational models, and psychiatric rehabilitation. Prerequisite(s): NUPS 516.

518 Family Behavioral Health 2 hours.
Theories of family development and behavior; functional and dysfunctional communication and behavioral patterns. Theories and strategies for family assessment and intervention. Prerequisite(s): Consent of the instructor.

521 Clinical Practicum in Behavioral Health I 3 TO 5 hours.
Advanced nursing management of common mental health problems. Emphasis on primary care and community settings. Assessment, triage, case management, emergency care, and brief interventions. May be repeated. Prerequisite(s): Credit or concurrent registration in NUPS 517.

522 Clinical Practicum in Behavioral Health II 3 TO 8 hours.
Advanced psychiatric nursing with a selected caseload of clients with serious and complex problems. Emphasis on psychiatric rehabilitation, cognitive-behavioral methods, psychoeducation and dual diagnosis. May be repeated. Prerequisite(s): NUPS 521.

523 Clinical Practicum in Behavioral Health III 2 TO 5 hours.
Development of mental health nurse practitioner role to deliver mental health services and impact policies affecting a selected population. May be repeated. Prerequisite(s): NUPS 522 or consent of the instructor.
547 Substance Misuse and Dependence 2 hours. Theories, research trends, treatment perspectives, ethical and social issues related to alcohol and other drug misuse and dependence. Prerequisite(s): Consent of the instructor.

Psychology (PSCH)

411 Stereotyping, Prejudice, and Racism 3 hours. Psychological research and theory concerning stereotyping, prejudice, and racism. Historical conceptualization, development, causes, expression, and psychological consequences of prejudice as well as theories of prejudice reduction. Prerequisite(s): Graduate standing in psychology or consent of the instructor.

415 Social Bases of Health Behavior 3 hours. Psychological theory and research concerning the coronary-prone personality, pain management, controlling adherence to medical regimens, biofeedback, smoking, and weight control. Prerequisite(s): PSCH 270 and consent of the instructor, or graduate standing.

417 Psychology and Law 3 hours. Application of psychological theories to the development, operation and effects of law, evaluation of different and similar approaches of law and psychology. Prerequisite(s): PSCH 312 or consent of instructor.

420 Social Development of Urban Children 3 OR 4 hours. General principles of social development and socialization during childhood and the factors common to urban children that illustrate and modify these principles. Same as EPSY 420. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Admission to a graduate program in education or psychology, or consent of the instructor.

422 Advanced Developmental Psychology and Educational Processes 3 hours. Focuses on cognitive and social development from birth to adolescence. Examines relations between development, learning, and educational processes. Same as ED 422. Prerequisite(s): PSCH 100 and any one from ED 210, PSCH 259, PSCH 320; or graduate standing and consent of the instructor.

423 Characteristics of Early Adolescence 3 hours. Physiological, social, emotional, and cognitive development of early adolescence. The relationship between these developmental characteristics and success in the middle grades. Same as EPSY 446. Prerequisite(s): ED 210 or ED 421 or ED 422 or PSCH 422 or the equivalent, and approval of the College of Education; or admission to the PhD in Psychology program, or consent of the instructor.

429 Constructivist Approaches to Development: Piaget and Vygotsky 3 OR 4 hours. Piaget’s and Vygotsky’s theories of development of knowledge. Empirical and logicos-mathematical forms of knowledge. Thought and action. Thought and language. Same as EPSY 429. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): ED 422 or PSCH 422 or the equivalent and graduate standing in education or graduate standing in psychology or consent of the instructor.

443 Advanced Statistics 3 hours. Design and analysis of experiments between, within factorial and mixed factorial designs and introduction to multiple regression. For students planning research careers or advanced degrees. Prerequisite(s): PSCH 343.

452 Cognitive Psychology of Memory and Attention 3 hours. A survey of empirical research and theories concerning the human memory system and the encoding, retention, retrieval of information in that system and research and theories of attention. Prerequisite(s): Graduate standing; or PSCH 352 and consent of the instructor.

455 Cognitive Psychology of Thinking 3 hours. Introduces students to research and theory concerning higher mental processes, including problem solving, reasoning, judgment, and decision making. Prerequisite(s): Graduate standing; or PSCH 352 and consent of the instructor.

457 Cognitive Psychology of Skill and Knowledge Acquisition 3 hours. The course approaches learning from a variety of cognitive perspectives. The instruction is organized around discussions of research articles. Prerequisite(s): Previous knowledge of cognitive psychology (with at least an undergraduate survey course) or admittance into the Cognitive Division graduate program.

459 Cognitive Methods 3 hours. Hands-on training in the methods of cognitive psychology, especially computational modeling and the analysis of verbal protocols and other types of trace data. Prerequisite(s): Graduate standing or consent of the instructor.

460 Advanced Learning 3 hours. Methods, results, and interpretation of experimental studies of basic learning processes in animal and human subjects. Prerequisite(s): Graduate standing; or PSCH 360 and PSCH 361 and consent of the instructor.

462 Neural Basis of Learning and Memory 3 hours. Theory and research on the anatomical, electrophysiological, and chemical bases of learning and memory in humans and other animals. Prerequisite(s): Graduate standing; or PSCH 262 and consent of the instructor.

465 Neural Basis of Perception 3 hours. Psychophysical and physiological studies of sensory systems and processes. Primary emphasis on the early processing of visual stimuli. Prerequisite(s): Advanced standing; or PSCH 351 and consent of the instructor.

466 Neural Basis of Motivation 3 hours. Review of empirical data and theories concerning the physiological basis of motivational processes in animals and humans.

467 Fundamentals of Neuroscience 3 hours. Basic principles of neurophysiology and neuropharmacology, including the bases of neural action, chemistry of synapses, and actions of pharmaceutical agents. Prerequisite(s): PSCH 262 or graduate standing.

481 Interviewing 1 hour. Lecture on the theory and practice of clinical interviewing with supervised experience. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Graduate standing in psychology or consent of the instructor.

484 Neuroscience I 3 hours. Neuroscience as an integrative discipline. Neuroanatomy of vertebrates, neural development, cellular neurobiology, action potential mechanisms, synaptic transmission, and neuropharmacology. Same as BIOS 484 and PHIL 484. Prerequisite(s): BIOS 286 or PSCH 262.

485 Neuroscience II 3 hours. Integrative neuroscience, continuation of BIOS/PSCH/PHIL 484. Sensory and motor systems, learning, memory, and language. Pathology of nervous systems. Philosophical perspectives and modeling. Same as BIOS 485 and PHIL 485. Prerequisite(s): BIOS 484.

494 Special Topics in Psychology 1 TO 4 hours. Advanced treatment of an announced topic. May be repeated. Students may register in more than one section per term. Prerequisite(s): Graduate standing or consent of the instructor.

495 Seminar in Psychology 1 TO 3 hours. Seminar devoted to special topics in psychology. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 9 hours. Students may register in more than one section per term. Prerequisite(s): Graduate standing or consent of the instructor.

504 Rating Scale and Questionnaire Design and Analysis 4 hours. Development and administration of rating scales and questionnaires, analysis of data, and reporting of
results. The focus is on rating scales. Same as EPSY 504. Prerequisite(s): ED 501, and ED 503 or EPSY 503 or the equivalents or consent of the instructor.

505 Advanced History of Psychology 3 hours. The history of scientific psychology, with an emphasis on the forerunners of major contemporary research problems. Prerequisite(s): Completion of master’s thesis.

506 Item Response Theory/Rasch Measurement 4 hours. Statistical inference with item response theory models, useful to measure an individual’s performance on a test or questionnaire. Models include parametric, nonparametric, unidimensional, multidimensional, and cognitive. Same as EPSY 506. May be repeated to a maximum of 8 hours. Extensive computer use required. Prerequisite(s): ED 501 and EPSY 503 and EPSY 546 or the equivalent. Appropriate score on the department placement test. Graduate or professional standing required or consent of the instructor.

507 Emerging Research Issues 1 hour. Weekly seminar that introduces PhD students in psychology to the current research of each faculty member in the department of psychology. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 2 hours. Prerequisite(s): Consent of the instructor.

508 Colloquium on the Teaching of Psychology 1 hour. Required training to prepare graduate students for contact teaching in the Department of Psychology. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor.

512 Attitudes and Social Cognition 3 hours. Survey of theory and research in social psychology, including attitudes and social cognition. Prerequisite(s): Consent of the instructor.

513 Interpersonal Relations and Group Processes 3 hours. Survey of theory and research in social psychology, including interpersonal relations and group processes. Prerequisite(s): Consent of the instructor.

515 Psychology of Women and Gender 3 hours. Critical examination of psychological theories and research on women and gender, including biological, psychoanalytic, socialization, power, and social constructionist perspectives. Same as GWS 515. Prerequisite(s): Graduate standing in psychology, or PSCH 315 or GWS 315, and consent of the instructor.

516 Research Methods in Social Psychology 3 hours. Critical analysis of current theories in social psychology. Prerequisite(s): PSCH 512 and PSCH 513 and PSCH 514, or consent of the instructor.

517 Social Psychology of Education 4 hours. Social psychological factors influencing academic and social outcomes in schools. Achievement motivation, peer relations, social values in relation to student characteristics and school practice. Same as EPSY 502. Prerequisite(s): Admission to the PhD in Education program or the PhD in Psychology program, or consent of the instructor.

518 Seminar in Social and Personality Psychology 1 to 4 hours. Critical discussion of selected topics, such as helping and altruism, social judgment, group processes, attitude formation and change. Content varies. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

519 Current Topics in Social Psychology 1 hour. Discussion of recently published research and ongoing research by department faculty and graduate students. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

520 Development in Infancy and Early Childhood 4 hours. Consideration of development in the preschool years. Stress on theory, research, individual child study, and educational implications. Same as EPSY 520. Prerequisite(s): ED 422 or PSCH 422 or the equivalent.

525 Achievement Motivation 4 hours. The psychology of achievement motivation will be explored from the perspectives of personality, social, and educational psychology. Same as EPSY 530. Prerequisite(s): Graduate standing in education or psychology or consent of the instructor.

526 Developmental Psychopathology 3 hours. Major sources and manifestations of maladjustment in childhood with an emphasis on emotional and intellectual handicaps. Prerequisite(s): Consent of the instructor.

527 Seminar in Moral Development, Character Formation, and Education 4 hours. Philosophical assumptions, psychology research, and theory underlying current approaches to moral and character education. Cultural and developmental factors in value formation. Same as EPSY 527. Prerequisite(s): ED 422 or PSCH 422 or the equivalent, or admission to the PhD in Education program, PhD in Psychology program, or PhD in Social Work program, or consent of the instructor.

531 Community Research 3 hours. Introduction to research design for community and action research; data collection techniques; perspectives on the relationship between researchers and communities; ethical issues; and philosophies of science informing community-based research.

532 Community Intervention 3 hours. Theory research, and practice of community interventions in public, nonprofit, and voluntary settings, such as disability organizations; intervention types and effectiveness; role of community intervention. Same as ED 532. Prerequisite(s): Consent of the instructor.

533 Advanced Community and Prevention Research 3 hours. Overview of community psychology theory and intervention research in areas like prevention, empowerment, diversity, ecology, competence enhancement, and social change from historical and contemporary perspectives.

Prerequisite(s): Graduate standing in psychology or consent of the instructor.

534 Prevention Research, Theory, and Practice 3 hours. Emphasizes issues related to the conceptualization, design, implementation, and evaluation of prevention and competence-promotion programming. Prerequisite(s): Consent of the instructor.

537 Seminar in Action Research 3 hours. Supervised action research in community settings, including entry, data collection, ethics, feedback, and report preparation. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Graduate standing in the Community and Prevention Research Specialization of the PhD in Psychology program or consent of the instructor.

538 Seminar in Community and Prevention Research 1 to 4 hours. Examination of a selected topic in community and prevention research. May be repeated. Students may register in more than one section per term. Prerequisite(s): PSCH 530 or consent of the instructor.

539 Current Topics in Community and Prevention Research 1 hour. Ongoing seminar with faculty and graduate students to discuss contemporary issues in community and prevention research. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

540 Research with Diverse Groups 3 hours. Highlights some of the issues relevant to doing research with diverse groups, such as race/ethnicity, gender, social class, age, disability.

541 Introduction to Computing in Psychology 1 hour. An introduction to applications of computing in psychological research. Several projects are required. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor.
543 Research Design and Analysis 4 hours.
Experimental design, advanced analysis of variance (ANOVA), and statistical analyses for experimental and quasi-experimental designs, interpretation and writing results in APA style. SPSS.
Prerequisite(s): Graduate standing in psychology or consent of the instructor.

544 Latent Variable Models 3 hours.
Statistical methods and practical issues relevant to latent variable models with special emphasis on factor analysis and structural equation modeling.
Prerequisite(s): PSCH 545.

545 Multivariate Analysis 3 hours.
The statistical analysis of functional relationships among two or more variables; multivariate regression, canonical correlation, discriminant analysis, multivariate analysis of variance, principal components, factor analysis, logistic regression, cluster analysis.
Prerequisite(s): PSCH 543 and graduate standing in psychology; or consent of the instructor.

546 Theory and Practice in Program Evaluation 3 hours.
Introduction to theory, design, and practice of program evaluation. Emphasis will be on theories of social programming, selecting appropriate methods, and politics of evaluation. Prerequisite(s): PSCH 531 or the equivalent and PSCH 543 and PSCH 545; or consent of the instructor.

548 Seminar in Methods and Measurement 1 TO 4 hours.
Seminar on a preannounced topic in methodology, measurement, or mathematical psychology. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

549 Current Topics in Psychology and Law 1 hour.
Discussion of recently published research and ongoing research in psychology and law by department faculty, graduate students and outside speakers. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

550 Proseminar in Educational Psychology 2 hours.
Interdisciplinary colloquia on selected topics in educational psychology. Serves as introduction to faculty research efforts. Same as EPSY 500. Satisfactory/Unsatisfactory grading only.
Prerequisite(s): Admission to the PhD in Education program or the PhD in Psychology program, or consent of the instructor.

551 Cognition and Instruction: Advanced Constructivist Approaches 4 hours.
Pajagel’s and Vygotsky’s theories of knowledge development. Emphasis on competing approaches concerning the relation of thought to action, to language, and to social relations. Same as EPSY 529.
Prerequisite(s): EPSY 429 or PSCH 429 or the equivalent, and admission into a PhD program in the College of Education or psychology or consent of instructor.

552 Seminar in Cognitive Psychology 1 TO 4 hours.
Detailed critical review of selected topics in cognitive psychology; emphasis on current research and theoretical developments. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

553 Seminar in Cognitive Psychology 1 hour.
Discussion of current research and theoretical issues in broad areas of cognitive psychology. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

554 Clinical Psychopharmacology 3 hours.
Behavioral, cognitive, and biological effects of psychotropic drugs in psychiatric populations. Theoretical, methodological, and empirical issues related to the pharmacological treatment of psychopathology. Prerequisite(s): Consent of the instructor.

555 Psychopathology 3 hours.
Detailed consideration of disorders of behavior, including description, etiology, prognosis, and experimental and clinical research; consideration of development and functions of classification systems of abnormal behavior and their relation to clinical decision making. Prerequisite(s): PSCH 570 and consent of the instructor.

556 Seminar in Biopsychology 1 TO 4 hours.
Current research issues and studies in biopsychology are discussed in terms of methodology and theory. Topic to be announced each semester. May be repeated. Prerequisite(s): Consent of the instructor.

557 Personality Psychology 3 hours.
Contemporary research in personality psychology and a review of theoretical approaches to the study of personality structure and processes. Prerequisite(s): Consent of the instructor.

558 Seminar in Clinical Psychology 1 TO 4 hours.
In-depth coverage of selected current topics in psychology. Emphasis is on current research. Prerequisite(s): Consent of the instructor.

559 Current Topics in Clinical Psychology 1 hour.
Research and case presentations in clinical psychology. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

560 Practicum in Interviewing 1 hour.
Interviewing practicum through the Office of Applied Psychological Services. Students observe and conduct clinical interviews under supervision. Satisfactory/Unsatisfactory grading only. Prerequisite(s): PSCH 481 and consent of the instructor.

561 Practicum in Psychological Assessment 4 hours.
Supervised practice in psychodiagnostic testing in various facilities associated with the graduate training program in clinical psychology. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): PSCH 573 and consent of the instructor.

562 Seminar in Psychotherapy 1 TO 4 hours.
Current research methods and theory related to psychotherapy and behavior change, with an emphasis on design, evaluation, and results of empirically-based psychotherapy studies. Prerequisite(s): PSCH 571 and consent of the instructor.

563 Psychotherapy Theoretical and Research 3 hours.
Research methods and theory related to psychotherapy and behavior change, with an emphasis on design, evaluation, and results of empirically-based psychotherapy studies. Prerequisite(s): PSCH 571 and consent of the instructor.

564 Psychopathology 3 hours.
Contemporary research in personality psychology and a review of theoretical approaches to the study of personality structure and processes. Prerequisite(s): Consent of the instructor.

565 Seminar in Biopsychology 1 TO 4 hours.
Current research issues and studies in biopsychology are discussed in terms of methodology and theory. Topic to be announced each semester. May be repeated. Prerequisite(s): Consent of the instructor.

566 Current Topics in Biopsychology 1 hour.
Presentation of current research projects by staff and students. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

567 Ethics and Professional Development 3 hours.
Ethical dimensions of psychology, including clinical practice, research and teaching; ethical codes, confidentiality, client rights, dual relationships, legal issues, competency, social responsibility, moral reasoning, values. Prerequisite(s): Graduate standing in psychology or consent of the instructor.

568 Seminar in Psychotherapy 1 TO 4 hours.
Current research methods and theory related to psychotherapy and behavior change, with an emphasis on design, evaluation, and results of empirically-based psychotherapy studies. Prerequisite(s): PSCH 571 and consent of the instructor.

569 Current Topics in Biopsychology 1 hour.
Presentation of current research projects by staff and students. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

570 Personality Psychology 3 hours.
Contemporary research in personality psychology and a review of theoretical approaches to the study of personality structure and processes. Prerequisite(s): Consent of the instructor.

571 Psychopathology 3 hours.
Detailed consideration of disorders of behavior, including description, etiology, prognosis, and experimental and clinical research; consideration of development and functions of classification systems of abnormal behavior and their relation to clinical decision making. Prerequisite(s): PSCH 570 and consent of the instructor.

572 Seminar in Clinical Psychology 1 hour.
In-depth coverage of selected current topics in psychology. Emphasis is on current research. Prerequisite(s): Consent of the instructor.

573 Seminar in Interviewing 1 hour.
Interviewing practicum through the Office of Applied Psychological Services. Students observe and conduct clinical interviews under supervision. Satisfactory/Unsatisfactory grading only. Prerequisite(s): PSCH 481 and consent of the instructor.

574 Seminar in Psychological Assessment 3 hours.
Theory and research-based coverage of intellectual, neuropsychological, and behavioral assessment. Focus is on methods and interpretation of psychological testing, including both objective and projective methods. Prerequisite(s): PSCH 572 and consent of the instructor.

575 Practicum in Interviewing 1 hour.
Interviewing practicum through the Office of Applied Psychological Services. Students observe and conduct clinical interviews under supervision. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

576 Seminar in Psychological Assessment 4 hours.
Supervised practice in psychodiagnostic testing in various facilities associated with the graduate training program in clinical psychology. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): PSCH 573 and consent of the instructor.

577 Ethics and Professional Development 3 hours.
Ethical dimensions of psychology, including clinical practice, research and teaching; ethical codes, confidentiality, client rights, dual relationships, legal issues, competency, social responsibility, moral reasoning, values. Prerequisite(s): Graduate standing in psychology or consent of the instructor.

578 Seminar in Clinical Psychology 1 hour.
Research and case presentations in clinical psychology. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

579 Current Topics in Clinical Psychology 1 hour.
Research and case presentations in clinical psychology. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

580 Practicum in Interviewing 1 hour.
Interviewing practicum through the Office of Applied Psychological Services. Students observe and conduct clinical interviews under supervision. Satisfactory/Unsatisfactory grading only. Prerequisite(s): PSCH 481 and consent of the instructor.

581 Practicum in Psychological Assessment 4 hours.
Supervised practice in psychodiagnostic testing in various facilities associated with the graduate training program in clinical psychology. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): PSCH 573 and consent of the instructor.

582 Practicum in Clinical Intervention 4 hours.
Instruction and supervision in the practice of psychological intervention, application of basic psycho-
logical principles to varied parent populations. Satisfactory/ Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): FSC574 and consent of the instructor.

584 Practicum for Clinical Trainees on Assessment, Intervention, and Research 0 TO 3 hours. Presentation and discussion of trainee assessment, intervention, and research projects. Satisfactory/ Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

587 Practicum in Instruction in Psychology 0 TO 9 hours. Seminar on course planning and supervised teaching of an undergraduate course. Satisfactory/ Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Students register for 2 to 9 hours. Prerequisite(s): Consent of the instructor.

591 Research Apprenticeship 2 TO 3 hours. Directed training in conducting research in specific areas of psychology, and in developing skills related to the research. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 5 hours. Prerequisite(s): Consent of the instructor.

594 Advanced Special Topics in Psychology 1 TO 4 hours. Advanced treatment of an announced topic. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

595 Methods and Measurement in Clinical Psychology 2 hours. Provides students with an overview of research methods, process concerns, ethics, and issues that are relevant to the field of clinical psychology. May be repeated. Prerequisite(s): Consent of the instructor.

596 Independent Study 1 TO 12 hours. Research on or study of topics not included in regular classes or the-
agencies, and impact of specific laws on government. **Prerequisite(s):** Admission to the MPA program or consent of the instructor.

503 **Public Personnel Management** 4 hours. History and current innovations in managing personnel and other areas of human resources. Compensation, classification, affirmative action, performance appraisal, labor relations, and unions. Statutory and court decisions affecting government personnel issues. **Prerequisite(s):** Admission to the MPA program or consent of the instructor.

504 **Budgeting for Public Administration** 4 hours. Processes and methods relevant to government finances and fiscal health: revenues, taxation, budget formulation, operating budgets, cost analysis, planning and performance, budget reforms, politics, capital budgeting, role of budgeting in management. **Prerequisite(s):** Admission to the MPA Program or consent of the instructor.

506 **Policy Development and Analysis for Public Administrators** 4 hours. Examines the process by which public policies are formulated, decided on, implemented, and evaluated. Techniques of analysis appropriate for various policy issues, and substantive policy issues facing us today. **Prerequisite(s):** Admission to the MPA program or consent of the instructor.

510 **Organization Theory and Behavior in Public Administration Research** 4 hours. Analysis of major analytical models of organizations; decision making; control and accountability; change and development; interorganizational relations; the organization-environment interface. **Prerequisite(s):** Admission to the MPA in Public Administration program or approval of the program director.

511 **The History and Development of Public Administration Research and Theory** 4 hours. The history and development of modern public administration with emphasis on the U.S. model. Major scholarly movements; institutional developments; other factors shaping the present state of the discipline. **Prerequisite(s):** Admission to the PhD in Public Administration program or approval of the program director.

515 **The Bureaucracy and Policy Process** 4 hours. Theories and research issues concerning the role of administrators in policy formation. Case studies and research on federal, state, and local agencies. **Prerequisite(s):** Admission to the PhD in Public Administration program or approval of the program director.

521 **Strategic Management: Planning and Measurement** 4 hours. This course addresses strategies and issues relating to the strategic management of public and quasi-public organizations. It addresses strategic planning and performance measurement processes within organizations. **Prerequisite(s):** Admission to the MPA program or consent of the instructor.

522 **Ethics and Accountability** 4 hours. Better government through institutionalizing ethics and accountability. Effectiveness of boards of ethics, inspectors general, codes of ethics, and educational programs. History of ethics within the Western intellectual tradition. **Prerequisite(s):** Admission to the MPA program or consent of the instructor.

523 **Intergovernmental Management** 4 hours. Relationships between federal, state, and local governments, focusing on management of overlapping programmatic, regulatory, and fiscal responsibilities. **Prerequisite(s):** Admission to the MPA program or consent of the instructor.

524 **Leadership in Public Sector Organizations** 4 hours. Examines theories and practices of leadership in public sector organizations. Global, political, social, and organizational contexts of public sector leaders and interface between administrators, appointees, elected officials. **Prerequisite(s):** Admission to the MPA program or consent of the instructor.

526 **Public Decision Analysis** 4 hours. Provides an introductory treatment of decision analysis. The intended participants are students who want to learn more about decision making under uncertainty and tools that can be used to support it. **Prerequisite(s):** PA 407 or consent of the instructor.

527 **Public Management Theory** 4 hours. Addresses the development of the public management subfield within the field of public administration. It covers the development of public management theory from its early stages to current questions and theoretical approaches. **Prerequisite(s):** Admission to the PhD in Public Administration program or consent of the instructor.

528 **Public Program Evaluation** 4 hours. Theory and procedures for evaluating the effectiveness of programs administered by public and nonprofit organizations. Includes application of research design, quantitative, and qualitative methodologies. **Prerequisite(s):** PA 542 or equivalent, and admission to the PhD in Public Administration program or consent of the instructor.

529 **Change and Reform in Public Organizations** 4 hours. Examines how large, bureaucratic organizations change how they do business. Can improved efficiency and effectiveness result from such change? What techniques are being applied by public organizations to achieve such change? **Prerequisite(s):** Admission to the MPA program or consent of the instructor.

532 **Labor Management Relations in the Public Sector** 4 hours. Skills and knowledge to manage labor relations in government. Constitutional influences on public employment, rights of public employees, management and labor unions; civil service laws, collective bargaining, nondiscrimination, and equal opportunity. **Prerequisite(s):** PA 503; and admission to the MPA program or consent of the instructor.

533 **Managing Workplace Diversity** 4 hours. Examines discrimination and diversity in public sector workplaces along several dimensions, including race, ethnicity, sex, age, sexual orientation, and physical ability. **Prerequisite(s):** PA 503; and admission to the MPA program or consent of the instructor.

534 **Human Resource Development and Management in Public Administration** 4 hours. Topics in public personnel administration; work motivation, performance appraisal, high performance work systems, equal employment opportunity; affirmative action, strategic human resource management, and representative bureaucracy. **Prerequisite(s):** Admission to a PhD program or consent of the instructor.

540 **Research Design for Public Administration** 4 hours. Logic and methods of quantitative and nonquantitative research in public administration. Issues in measurement, causal inference, experimental and quasi-experimental designs; and methods of data collection. **Prerequisite(s):** Admission to the PhD in Public Administration program or approval of the program director.

541 **Advanced Data Analysis I** 4 hours. Elements of matrix theory; introduction to the theory of estimation; hypothesis testing; logit and probit models; factor analysis; and principal components analysis. Application of techniques to public administration research. **Prerequisite(s):** Graduate standing; and PA 540 or equivalent or approval of the instructor.

542 **Advanced Data Analysis II** 4 hours. For those likely to pursue careers in the more quantitative aspects of public administration research. Discrete multivariate analysis and regression; multivariate analysis of variance; other advanced techniques. **Prerequisite(s):** Graduate standing; and PA 541 or equivalent or approval of the instructor.
544 Qualitative Research
Methods in Public Administration 4 hours.
The uses, strengths, and limitations of qualitative methods of research and analysis, including case studies, participant-observer, and ethnography, will be explored. Prerequisite(s): Graduate or professional standing; PA 540 or equivalent; or consent of the instructor.

545 Research Topics in Public Administration I 2 hours.
Provides PhD students with a better understanding of current research topics in Public Administration. Students will read current working papers and published articles so as to develop the tools needed for critical analysis of current research. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Admission to the PhD program in Public Administration and advanced standing or consent of the instructor.

546 Research Topics in Public Administration II 2 hours.
Continuation of PA 545. Students critically analyze current research and will develop a research topic of their own, focusing on the elements needed to write a quality research paper. Satisfactory/Unsatisfactory grading only. Prerequisite(s): PA 545; and admission to the PhD program in Public Administration with advanced standing or consent of the instructor.

550 Financial Management of Government 4 hours.
Overview of issues and concepts important for administration and management of government's financial affairs: government accounting, purchasing, cash management and investment, risk management, pension and benefits management, debt management and capital financing. Prerequisite(s): PA 504; and admission to the MPA program or consent of the instructor.

551 Governmental Accounting 4 hours.
Introduction to major concepts, principles, and objectives of governmental accounting (including fund accounting) and budgetary control systems for local and state government. Designed for students with little or no background in accounting. Prerequisite(s): PA 504; and admission to the MPA program or consent of the instructor.

552 Public Capital Budgeting and Finance 4 hours.
Examines governmental capital budgeting processes, linkages between the capital budget and capital improvement plan, and methods and techniques of financing capital projects including debt financing. Prerequisite(s): PA 504; and admission to the MPA program or consent of the instructor.

553 State and Local Public Finance 4 hours.
Analyses expenditures and revenues of state and local governments and public sector responses to market failures. Examines state and local revenue sources and discusses government provision of services. Prerequisite(s): PA 504; and admission to the MPA program or consent of the instructor.

554 Financial Management in Public Administration 4 hours.
Principles of financial management and applications in various institutional and programmatic settings. Forecasting techniques, computer applications, innovations in public borrowing and debt management. Prerequisite(s): Graduate or professional standing; and PA 410 and PA 504 or equivalents; or consent of the instructor.

557 Topics in Political Communication 4 hours.
Intensive study of selected aspects of organizational communication in public institutions, urban political communication patterns, communication elites. Independent research using a variety of community research techniques. Same as COMM 567 and POLS 567. Prerequisite(s): Consent of the instructor.

558 Public Administration Practicum in Survey Methodology 2 TO 6 hours.
Provides graduate students with a clear understanding of the methodological issues involved in collecting survey data from multiple cultural groups and best practices when conducting cross-cultural research. Recommended background: Admission to the MPA or PhD in Public Administration program or consent of the instructor.

560 Survey Research Ethics 2 hours.
Examines the history of surveys, their development, and change over time. Prerequisite(s): Admission to the MPA or PhD Public Administration program or consent of the instructor.

567 Seminar on Special Topics in Survey Methodology 2 hours.
This seminar is for special topics in survey methodology not covered in the other elective courses. Prerequisite(s): Admission to the MPA or PhD in Public Administration program or consent of the instructor.

585 Survey Research Ethics 2 hours.
Students will be exposed to survey research ethical issues. Prerequisite(s): Admission to the MPA or PhD Public Administration program or consent of the instructor.

586 The History of Survey Methodology 2 hours.
Examines the history of surveys, their development, and change over time. Prerequisite(s): Admission to the MPA or PhD Public Administration program or consent of the instructor.

587 Survey Data Reduction and Analysis 2 TO 6 hours.
Provides an in-depth overview of available procedures and standards for survey data reduction and data analysis activities. Prerequisite(s): Admission to the MPA or PhD in Public Administration program or consent of the instructor.

588 Survey Data Collection Methods 2 hours.
This course will address the impact of data collection methods on quality. Prerequisite(s): Admission to the MPA or PhD in Public Administration program or consent of the instructor.

Introduces students to one approach to survey methodology: the examination of the psychological processes through which survey respondents answer questions. Prerequisite(s): Admission to the MPA or PhD in Public Administration program or consent of the instructor.

590 Public Administration Capstone 4 hours.
Integration of classroom learning with practical experience. Students will work in groups to solve real problems for public and nonprofit organizations. Extensive collaboration required among group members outside of class time. Students should expect significant fieldwork at their assigned organizations. Students are responsible to the course professor and to the project supervisor in their assigned organizations. Because the course work is team-based, students are not allowed to drop this course once teams are created. Prerequisite(s): Consent of the instructor and enrollment in the MPA program. Course must be taken in the last two semesters in the MPA program or consent of the instructor.
593 Independent Research in Public Administration 1 TO 8 hours. Advanced study and analysis of a topic selected by a student under the supervision of a faculty member. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Approval of the director of graduate studies and consent of the instructor.

594 Special Topics in Public Administration 1 TO 4 hours. Advanced study of an announced topic. May be repeated. Students may register in more than one section per term. Prerequisite(s): Admission to the PhD in Public Administration program or consent of the instructor.

596 Independent Study in Public Administration 1 TO 4 hours. Advanced study and analysis of a topic under guidance of a select faculty. May be repeated. Students may register in more than one section per term. Prerequisite(s): Approval of the director of graduate studies and consent of the instructor.

599 PhD Thesis Research 0 TO 16 hours. Individual study and research. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Open only to degree candidates, upon approval of topic by dissertation committee.

Public Health Nursing (NUPH)

400 Introduction to Occupational Health Nursing 2 hours. Theoretical bases for application of public health nursing practice to working population in occupational settings. Prerequisite(s): Consent of the instructor.

500 Health Maintenance and Promotion in Primary Care Nursing 4 hours. Prepares nurse practitioners to provide health maintenance and promotion to families and individuals in primary care settings. Prerequisite(s): Credit or concurrent registration in NUSC 532 or consent of instructor.

502 School Nursing Theory and Trends 3 hours. Explores population-focused frameworks, health needs, and legal mandates that impact school community. School nursing practice models are studied as relevant to developing leadership and management. Prerequisite(s): Consent of the instructor.

505 Nursing Systems Operations Management 3 hours. Nursing systems operations management of health services. Examines the managerial role at individual, program, work unit, department, and organizational levels. Includes focus on interaction of the organization and environment. Same as NUSC 505. Prerequisite(s): Consent of the instructor.

507 Advanced Community Health Nursing: Introduction and Interventions 4 hours. Addresses application of evidence-based population-focused interventions in healthcare organizations that promote wellness and improve community health status. Introduces leadership roles/concepts in advanced public health nursing practice.

509 Population-Focused Assessment 3 hours. Explores population-focused assessment in community and integrated healthcare systems emphasizing the application of assessment models used in health service delivery and market analysis. Prerequisite(s): Credit or concurrent registration in EPID 400 and credit or concurrent registration in NUSC 525 and credit or concurrent registration in NUSC 526.

511 Planning and Evaluation for Advanced Nursing Practice 3 hours. Explores strategies and program planning/appraisal. Focuses on evaluation as a measurement of quality, performance, and impact of health services. Emphasizes interdisciplinary perspective and addresses integrated quality improvement systems. Prerequisite(s): NUPH 509 and NUSC 525 and NUSC 526. Requires concurrent registration in NUSC 527.

512 Healthcare Human Resources Management 3 hours. Focuses on the development of a strategic human resource plan to support the mission of the healthcare organization. Current human resources management and organizational performance research findings are explored. Same as NIAS 512. Prerequisite(s): NIAS 505 or NUPH 505.

517 Budget and Finance of Health and Nursing Services 3 hours. Financial management techniques, supply and demand, cost behaviors, and revenue sources, provider remuneration and public and private health insurance for health and nursing services will be analyzed. Same as NIAS 517. Prerequisite(s): NIAS 505 or NUPH 505.

518 Field Study in Health and Nursing Management 3 hours. Field study emphasizing leadership within population-focused nursing management practice, including organization and management concepts from public and private perspective. Same as NIAS 518. Prerequisite(s): NIAS 516 or NUPH 516; and NIAS 517 or NUPH 517, or consent of the instructor.

519 School Nursing Internship 1 TO 3 hours. Internship emphasizing interdisciplinary experience in the identification of work-related health problems, their treatment, and follow-up. Learning activities are individualized to meet the student's learning needs. Prerequisite(s): NUPH 400 and credit or concurrent registration in EOHS 421 and credit or concurrent registration in EOHS 482 and credit or concurrent registration in EOHS 561.

Primary Care Nursing of Acute and Chronic Disorders II 4 hours. Second of a two-course sequence to prepare nurse practitioners to assess, diagnose, and manage stable chronic and chronic episodic illnesses encountered in primary care settings. Prerequisite(s): NUPH 524.

528 Advanced Clinical Practice in Primary Care Nursing 1 TO 5 hours. Healthcare issues, advanced clinical skills, and supervised practicum experiences specific to students' selected practice area or population groups in rural, urban, or international settings. Satisfactory/Unsatisfactory grading only. Prerequisite(s): NUPH 525.

529 Practicum in Occupational Health Nursing 1 TO 5 hours. Practicum emphasizing interdisciplinary experience in the identification of work-related health problems, their treatment, and follow-up. Learning activities are individualized to meet the student's learning needs. Prerequisite(s): NUPH 400 and credit or concurrent registration in EOHS 421 and credit or concurrent registration in EOHS 482 and credit or concurrent registration in EOHS 561.

Public Policy Analysis (PPA)

401 Data Analysis I 3 OR 4 hours. Statistical inference for the social sciences. Emphasis on univariate and bivariate statistics. Same as POLS 401. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): POLS 200 and POLS 201; or graduate standing.

500 Introduction to Policy and Governance 4 hours. Introduces the intellectual traditions and debates that have characterized the study of public policy and the social order. Society-centered and state-centered explanations for policy will be explored. Same as POLS 500. Consent of the department required for nondegree graduate students.

501 Data Analysis II 4 hours. Interpretation and application of multivariate methods of analysis in the social sciences. Regression specification and diagnostics, limited dependent variable models, measurement issues. Same as POLS
551. Prerequisite(s): PS 501 or RUS 410.

541 Policy Formation, Implementation, and Evaluation 4 hours. Introduction to political science theories of how elections, interest groups, and state structure affect the formulation of policy to societal problems. Same as POLS 541.

574. Prerequisite(s): Consent of the instructor.

542 Russian Composition and Conversation IV 3 OR 4 hours. 4th semester Russian course. Content varies. May be repeated to a maximum of 12 hours.

550 Studies in Russian Realism 4 hours. Study of a topic, author, or movement. Content varies. May be repeated to a maximum of 12 hours.

565 Studies in Russian Neo-Realism and Modernism 4 hours. Study of a topic, author, or movement. Content varies. May be repeated to a maximum of 12 hours.

556 Studies in Soviet Prose 4 hours. Study of a topic or movement. Content varies. May be repeated to a maximum of 12 hours.

570 Studies in Russian Literary Criticism 4 hours. Study of a topic or movement. Content varies. May be repeated to a maximum of 12 hours.

596 Independent Study 1 TO 4 hours. Investigation of special problems under the general direction of a staff member. May be repeated to a maximum of 8 hours. Graduate students may register for more than one section per term. Prerequisite(s): Senior or graduate standing, consent of the instructor and the head of the department.

510 History of the Russian Language 4 hours. Formation and development of standard Russian to the end of the eleventh century. Analysis of selected texts. Prerequisite(s): RUS 410 or SLAV 505 or the equivalent.

515 Topics in Contemporary Russian Linguistics 4 hours. Variable content. May be repeated to a maximum of 12 hours. Prerequisite(s): RUS 410 or the equivalent.

502 Russian Composition and Conversation IV 3 OR 4 hours. Continuation of RUS 401. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): RUS 401 or the equivalent.

410 Structure of Modern Russian 3 OR 4 hours. A synchronic linguistic analysis of Russian substantives, adjectives, pronouns, verbs, deverbal nouns, and minor parts of speech from a syntactic and paradigmatic point of view. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): At least 4 semester hours of Russian or the equivalent.

480 Studies in the Russian Novel 3 OR 4 hours. Study of a major novelist, movement, or special themes. Content varies. 3 undergraduate hours. 4 graduate hours. May be repeated up to 2 times. Prerequisite(s): 24 hours of Russian or consent of the instructor.

486 The Bible as Literature 3 OR 4 hours. Literary analysis of the English Bible (excluding the Apocrypha) in its historical and religious contexts; study of the King James Version and successive revisions of it. Same as ENGL 478 and JST 478. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Consent of the instructor.

487 The Russian Novel 3 OR 4 hours. Study of a topic, author, or movement. Content varies. May be repeated to a maximum of 12 hours.

460 Studies in Russian Literature 3 OR 4 hours. Study of a topic, author, or movement. Content varies. May be repeated to a maximum of 12 hours.

450 Studies in Russian Modernism 4 hours. Study of a topic, author, or movement. Content varies. May be repeated up to 2 times. Prerequisite(s): 24 hours of Russian or consent of the instructor.

499 Independent Study 1 TO 4 hours. Investigation of special problems under the general direction of a staff member. May be repeated to a maximum of 8 hours. Graduate students may register for more than one section per term. Prerequisite(s): Senior or graduate standing, consent of the instructor and the head of the department.

510 History of the Russian Language 4 hours. Formation and development of standard Russian to the end of the eleventh century. Analysis of selected texts. Prerequisite(s): RUS 410 or SLAV 505 or the equivalent.
Slavic and Baltic Languages and Literatures (SLAV)

409 Problems in Slavic Grammars 3 OR 4 hours. Systematic review of important topics in grammar and syntax. Content varies. Required for department undergraduate majors in Slavic programs. 3 undergraduate hours. 4 graduate hours. May be repeated up to 2 times. Prerequisite(s): RUSS 302 or POL 302 or SLAV 302 or the equivalent.

410 Structure of Modern Serbian 3 OR 4 hours. A synchronic linguistic analysis of Serbian phonology and morphology with fundamentals of syntax. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): SLAV 104 or the equivalent or consent of the instructor.

433 Topics in Eastern European History 3 OR 4 hours. Specific topics are announced each term. Same as HIST 433. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): 3 hours of European History or consent of the instructor.

460 Studies in East European Literatures and Cultures 3 OR 4 hours. Study of a topic, author, genre, or movement. 3 undergraduate hours. 4 graduate hours. May be repeated up to 2 times. Prerequisite(s): 24 hours of Slavic or Baltic or consent of the instructor.

470 Educational Practice with Seminar I 6 hours. The first half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Graduate credit only with approval of the department. Prerequisite(s): Good academic standing in a teacher education program. Completion of 100-clock hours of pre-student-teaching field experiences, credit or concurrent registration in SLAV 470, and approval of the department.

471 Educational Practice with Seminar II 6 hours. The second half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Graduate credit only with approval of the department. Prerequisite(s): Good academic standing in a teacher education program. Completion of 100-clock hours of pre-student-teaching field experiences, credit or concurrent registration in SLAV 470, and approval of the department.

536 Topics in Comparative Slavic Literatures 4 hours. Comparative study of a literary topic or movement. Content varies. May be repeated to a maximum of 12 hours.

542 Studies in Russian Poetry 4 hours. Specific topics are announced each semester. May be repeated to a maximum of 12 hours.

545 Studies in Russian Prose I 4 hours. Specific topics of the Russian short story and novel are announced each term. May be repeated to a maximum of 12 hours.

546 Topics in Russian Prose II 4 hours. Specific topics of Russian drama are announced each semester. May be repeated to a maximum of 12 hours.

550 Studies in Yugoslav Literary Historiography and Criticism 4 hours. Major concepts and movements in the South Slavic literary history. May be repeated to a maximum of 12 hours.

559 Studies in Slavic Linguistics 4 hours. Variable content. May be repeated to a maximum of 12 hours.

560 Studies in Ukrainian Renaissance and Baroque Literature 4 hours. Ukrainian prose, poetry, and drama of the sixteenth, seventeenth, and eighteenth centuries.

562 Studies in Ukrainian Romantic and Post-romantic Poetry 4 hours. Study of a period or movement in the nineteenth and early twentieth-century Ukrainian poetry. Content varies. May be repeated to a maximum of 12 hours.

563 Studies in Twentieth-Century Ukrainian Poetry 4 hours. Study of a period or movement. Content varies. May be repeated to a maximum of 12 hours.

565 Studies in Nineteenth-Century Ukrainian Prose 4 hours. Study of a genre, topic, period, movement, or author. Content varies. May be repeated to a maximum of 12 hours.

566 Studies in Twentieth-Century Ukrainian Prose 4 hours. Study of a genre, topic, period, movement, or author. Content varies. May be repeated to a maximum of 12 hours.

568 Studies in Ukrainian Drama 4 hours. Study of a period, movement, or author. Content varies. May be repeated to a maximum of 12 hours.

570 Studies in Ukrainian Literary Historiography and Criticism 4 hours. Study of methodology, periods, schools and groups, individual literary historians and critics. Content varies. May be repeated to a maximum of 12 hours.

575 Studies in Slavic Literary Theory 4 hours. Russian, Czech, Polish, and Serbian contributions to literary theory: formalism, structuralism, semiotics, phenomenology. May be repeated to a maximum of 12 hours. Taught in English.

576 Methods and Principles of Translation 4 hours. Introduction to theory and methods of literary translation. Extensive practice translating epistolary prose, literary prose, and poetry from Slavic languages into English. Taught in English.

596 Independent Study 1 TO 4 hours. Investigation of special problems under the general direction of a staff member. May be repeated to a maximum of 8 hours. Graduate students may register for more than one section per term. Prerequisite(s): 3 hours of European History or consent of the instructor.

599 PhD Thesis Research 0 TO 16 hours. Independent research on a topic approved for a graduate thesis. Students engaged in research and writing theses will be assigned to this course at the discretion of the department. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor and the head of the department.

UIC Slavic and Baltic Languages and Literatures (SLAV)
Social Work (SOCW)

410 Human Behavior and the Social Environment 3 hours.
Human development through the life cycle including urban family, group, community, and organizational interactions with social, cultural, psychological factors. Credit is not given for SOCW 410 if the student has credit for SOCW 535. Prerequisite(s): Graduate standing and consent of the instructor or admission to the MSW program.

411 Social Work in a Multicultural Society 3 hours.
Place of social work in a multicultural society; focus on racial and ethnic minority groups, particularly African-Americans, Latinos, Asian Americans, and Native Americans. Credit is not given for SOCW 411 if the student has credit for SOCW 537. Prerequisite(s): Admission to MSW program.

420 Policy I: Social Welfare Policy and Services 3 hours.
Social work history, structure and development of current policies; policy analysis and policy advocacy skills for social and economic justice. Credit is not given for SOCW 420 if the student has credit for SOCW 550. Prerequisite(s): Admission to MSW program.

430 Practice I: Generalist Practice with Individuals, Families, and Groups 3 hours.
Generalist practice principles applied to individuals, families, and groups, including content on community context, racial and ethnic minorities, poor, oppressed, and other urban vulnerable communities. Credit is not given for SOCW 430 if the student has credit for SOCW 501. Prerequisite(s): Admission to MSW program.

431 Practice II: Generalist Practice with Task Groups, Organizations, and Communities 3 hours.
Generalist practice principles applied to task groups, organizations, and communities, including focus on community context and the poor, oppressed, and other urban vulnerable communities. Credit is not given for SOCW 431 if the student has credit for SOCW 502. Prerequisite(s): SOCW 430 and graduate standing.

460 Research I: Social Work Research 3 hours.
Research methodology basics applied to social work; problem formulation, design, measurement, sampling, data analysis, computerization, ethics, qualitative and quantitative methodologies. Credit is not given for SOCW 460 if the student has credit for SOCW 560. Prerequisite(s): Admission to the MSW program.

480 Special Studies in School Social Practice 3 hours.
Ecological and strengths-based interventions in urban school systems. Prerequisite(s): Admission to the post-MSW Type 73 program and graduate standing.

503 Family Practice in Urban Communities 3 hours.
Empowering at-risk urban families using strengths-based intervention; brief treatment models; attention to diversity, community, and other urban at-risk populations. Prerequisite(s): SOCW 430.

504 Group Theory and Practice 3 hours.
Theory and practice of social work with empowerment groups in both clinical and large system settings; diversity and equity issues. Prerequisite(s): SOCW 430.

511 Practice with Children 3 hours.
Direct treatment with urban at-risk children, including situations involving homelessness, substance abuse, violence, behavioral disorders, emphasizing family, community, culture. Prerequisite(s): SOCW 430.

517 Practice with Family Violence, Neglect, and Abuse 3 hours.
Ecological approach to family violence; physical, psychological, and sexual abuse of children, women, and elders at practice and policy levels; urban vulnerable population. Prerequisite(s): SOCW 430; or consent of the instructor.

519 Practice III: Community Health and Urban Development 3 hours.
Advanced integrated practice with urban communities at levels of individual, families, groups, organizations, and communities. Emphasis on diversity, strength, capacity-building, and small systems. Prerequisite(s): Grade of C or better in SOCW 431.

520 Practice IV: Community Health and Urban Development 3 hours.
Advanced, integrated practice with urban communities with emphasis on diversity, strengths, capacity-building, and large systems. Prerequisite(s): Admission to the MSW program.

521 Aging Populations: Social Work Response 3 hours.
Psychological, social, biological, aging factors of individuals and families; emphasis on practice skills for community, long-term care and hospital-based services with urban emphasis. Prerequisite(s): SOCW 410; or consent of the instructor.

522 Crisis Intervention 3 hours.
Nature of crises, including suicide and large-scale disaster; strengths-based interventions in urban settings: medical and mental health facilities, schools, community centers, and neighborhoods. Prerequisite(s): SOCW 430.

523 Drug and Alcohol Abuse and Social Work 3 hours.
History and pharmacology of alcohol and other drugs; ecology of abuse and dependence; assessment and treatment models; practice in multidisciplinary settings; emphasis on urban systems. Prerequisite(s): SOCW 430.

525 Social Work with Women 3 hours.
Research, policy, and practice approaches to working with women in diverse urban settings: empowerment and diversity perspectives. Same as GWS 525. Prerequisite(s): SOCW 410; or consent of the instructor.

527 Topics in Social Services 3 hours.
Critical review of selected areas of social work, social services, and social welfare. Prerequisite(s): Consent of the instructor and admission to MSW program.

530 Leadership and Professional Development 3 hours.
Social work leadership and professional development, including written for publication, communication skills, personal leadership plan development, theory and practice of leadership at individual agency and community levels. Prerequisite(s): SOCW 410.

531 Policy II: Community Health and Urban Development 3 hours.
Advanced policy content for urban communities, including health disparities, discrimination, urban poverty, and social dislocation. Analytical and policy practice skills addressed. Prerequisite(s): Grade of C or better in SOCW 420.

532 Social Work in Corrections 3 hours.
Policy and practice roles of social workers in correctional settings with emphasis on race, ethnicity, gender, sexual orientation, and poverty factors. Prerequisite(s): SOCW 410; or consent of the instructor.

533 Sexual Minority Communities 3 hours.
Community and social justice framework applied to gay, lesbian, bisexual, and transgendered populations; historical development of sexual minority communities; overview of social work response. Prerequisite(s): Admission to the MSW program or consent of the instructor.

534 Independent Study in Practice 1 TO 3 hours.
Independent study in practice area not covered by existing course offerings. May be repeated to a maximum of 6 hours. Prerequisite(s): Consent of the instructor and approval of the college.

539 Mental Health Issues with Children and Adolescents 3 hours.
Critical, strengths-based understanding of current classification and diagnostic systems for assessment and treatment planning with children and adolescents. Prerequisite(s): SOCW 410 or consent of the instructor.

540 Mental Health Issues with Adults 3 hours.
Critical, strengths-based understanding of current classification and diagnostic systems for assessment and treatment planning with adults. Prerequisite(s): SOCW 410 or consent of the instructor.

544 Community Violence 3 hours.
Urban community violence; impact on individuals and society; policies and theories critically studied from race, class, and gender perspectives; social work implications. Prerequisite(s): SOCW 410 or consent of the instructor.
549
HIV prevention and intervention in urban settings; system and ecological understanding of impact of HIV on society and role of social work practice and policy.
Prerequisite(s): SOCW 410 or consent of the instructor.

549
Independent Study in Human Behavior and the Social Environment 1 TO 3 hours.
Independent study in human behavior and social environment areas not covered by existing course offerings. May be repeated to a maximum of 6 hours. Prerequisite(s): Consent of the instructor and approval of the college.

551
Policy II: School Social Work Policy 3 hours.
Critical analysis of federal, state, and local policies relevant to social work practice in urban school systems.
Prerequisite(s): SOCW 420.

552
Policy II: Child and Family Policy 3 hours.
Critical analysis of policies affecting welfare of families and children, focus on child welfare, juvenile justice, adult criminal justice, mental health, and special education systems.
Prerequisite(s): SOCW 420.

554
Policy II: Mental Health Policy 3 hours.
Critical analysis of policies and structures in mental health delivery system with focus on urban and chronically mentally ill populations.
Prerequisite(s): SOCW 420.

556
Policy II: Community and Administrative Practice 3 hours.
Critical analysis of national, state, and local policies affecting urban community building and development.
Prerequisite(s): SOCW 420.

558
Social Work and the Law 3 hours.
Social work input in legal system: family law, family violence, crime, delinquency, civil rights, education, health, mental health, social advocacy, social work practice regulation.
Prerequisite(s): SOCW 420 or consent of the instructor.

559
Independent Study in Social Welfare Policy and Services 1 TO 3 hours.
Independent study in social welfare policy and services areas not covered by existing course offerings. May be repeated to a maximum of 6 hours. Prerequisite(s): Consent of the instructor and approval of the college.

563
Program Evaluation 3 hours.
Review and assessment of evaluative approaches in social work practice and policy. Prepares students for evaluation of own practice.
Prerequisite(s): SOCW 560.

565
Research Seminars: Social Service Issues 3 hours.
Methodologies and results of research in selected fields of social services; special issues and problems in practice; relationship of research, theory and practice; priorities for future research.
Prerequisite(s): SOCW 460 or consent of the instructor.

567
Research Project 0 TO 9 hours.
Applying research methods to social work problems in an individual or group project or library research project. Preparation of a formal report based on field study processes and findings. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 6 hours. Prerequisite(s): SOCW 460 or consent of the instructor and approval of the college.

569
Independent Study in Research 1 TO 3 hours.
Independent study in research methodology or areas not covered by existing course offerings. May be repeated to a maximum of 6 hours. Prerequisite(s): Consent of the instructor and approval of the college.

570
Field Instruction I 5 hours.
Students are assigned to social agencies where, under the supervision of an agency field instructor, they carry selected cases or groups for social work services. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor.

571
Field Instruction II 5 hours.
Students are assigned to social agencies where, under the supervision of an agency field instructor, they carry selected cases or groups for social work services. Satisfactory/Unsatisfactory grading only. Prerequisite(s): SOCW 570 and consent of the instructor.

572
Field Instruction III 8 hours.
Students are assigned to social agencies where, under the supervision of an agency field instructor, selected micro and macrosystem cases are carried for social work services. Satisfactory/Unsatisfactory grading only. Prerequisite(s): SOCW 571 and consent of the instructor.

573
Field Instruction IV 8 hours.
Students are assigned to social agencies where, under the supervision of an agency field instructor, selected micro and macrosystem cases are carried for social work services. Satisfactory/Unsatisfactory grading only. Prerequisite(s): SOCW 572 and consent of the instructor.

574
Special Studies in Field Instruction I 2 TO 4 hours.
Practicum experiences in approved social agencies/or organizations where students carry selected cases applying knowledge to skill applications under the supervision of an agency field instructor. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor.

575
Special Studies in Field Instruction II 2 TO 4 hours.
Practicum experiences in approved social agencies/or organizations where students carry selected cases applying knowledge to skill applications under the supervision of an agency field instructor. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Consent of the instructor.

577
Social Welfare History 3 hours.
Social work history in context of political, economic, and social developments, focus on gender, class, and race; critical application of theoretical models. Prerequisite(s): Admission to the PhD in Social Work program or consent of the instructor.

579
Integrative Seminar 2 hours.
Application of concepts of social work practice, policy, and research to selected fields of social service. Focus on appropriate service delivery models and intervention strategies. May be repeated to a maximum of 4 hours. Prerequisite(s): Concurrent registration in SOCW 575 and consent of the instructor.

580
Practice III: Community and Administrative Practice 3 hours.
Management of human service organizations; resource acquisition and management, planning, community relations; focus on urban, community-based agencies.
Prerequisite(s): SOCW 431.

581
Practice IV: Community and Administrative Practice 3 hours.
Advanced urban community building and developing, emphasis on poor at-risk communities.
Prerequisite(s): SOCW 580.

582
Practice III: Practice with Children and Families 3 hours.
Ecological and strengths-based practice with urban children and families; special focus on child welfare.
Prerequisite(s): SOCW 431.

583
Practice IV: Practice with Children and Families 3 hours.
Advanced critical analysis and application of ecological and strengths-based practice emphasizing interactions of children and families with urban courts, schools, and child welfare systems.
Prerequisite(s): SOCW 582.

584
Practice III: Healthcare 3 hours.
Theoretical basis and skills for health social work in diverse settings; biopsychological understanding of health and disease, emphasis on direct practice with urban clients and families.
Prerequisite(s): SOCW 431.

585
Practice IV: Healthcare 3 hours.
Advanced knowledge and skills in healthcare settings; specific populations, including urban poor and at-risk populations; emphasis on urban community and organizational levels.
Prerequisite(s): SOCW 584.
586 Practice III: Mental Health 3 hours. Strengths-based assessment and treatment planning in urban settings; diversity issues; managed care settings; critical use of current mental health diagnostic and classification systems. Prerequisite(s): SOCW 431.

587 Practice IV: Mental Health 3 hours. Advanced urban mental health practice; diversity issues; focus on children and adolescents and their families; critical application of current mental health diagnosis and classification. Prerequisite(s): SOCW 596.

588 Practice III: School Social Work 3 hours. Ecological and strengths-based perspectives on development of basic competencies for urban school social workers; diversity issues. Prerequisite(s): SOCW 431.

589 Practice IV: School Social Work 3 hours. Advanced interventions in urban school systems; use of groups, consultation, classroom interventions, family empowerment, conflict resolution, and community interventions; diversity issues. Prerequisite(s): SOCW 596.

590 Analysis of Social Work Practice Approaches 3 hours. Historical and current developments in the conceptualization of social work practice. Implications of practice approaches for contributing to social justice. Values and ethics addressed. Extensive computer use required. Prerequisite(s): Admission to the PhD in Social Work program or consent of the instructor.

591 Social Welfare Policy Analysis and Development 3 hours. Analyses of social welfare policies with particular attention to issues of social and economic justice; conceptual models for analysis; application of models to selected problems. Prerequisite(s): Admission to the PhD in Social Work program or consent of the instructor.

592 Models of Social Work Scholarship and Knowledge Development 3 hours. Functions of scholarship in social work; contributions of scholarship to social and economic justice, research methodologies, and knowledge building processes for practice and policy analysis. Extensive computer use required. Prerequisite(s): Admission to the PhD in Social Work program or consent of the instructor.

593 Quantitative Methods in Social Work Research 3 hours. Selected statistical and analytical methods as applied to social issues. Use of computerized tools, sampling, hypothesis testing, descriptive and inferential procedure, introduction to multivariate analysis. Extensive computer use required. Prerequisite(s): Admission to PhD in Social Work program or consent of the instructor.

594 Dissertation Proseminar in Social Work 3 hours. Preparation in development of dissertation focus and planning of dissertation research. Readings are assigned and discussed in class. Emphasis on ideas for dissertation topic, its formulation, operationalization, and research design. Prerequisite(s): SOCW 592 and SOCW 593.

595 Seminar in Social Work Education 3 hours. Preparation for roles as social work educators. Historical development of social work education with special emphasis on relation between curriculum design and the accreditation process. Pedagogical issues such as selecting educational objectives, teaching methods, and evaluation of student performance. Students must participate in a teaching laboratory. Prerequisite(s): Admission to the PhD in Social Work program.

596 Proseminar on Selected Topics and Issues in Social Work 2 TO 4 hours. Review and critique of selected areas of social work content, theory or practice. State of current knowledge and needed research stressed. May be repeated. Prerequisite(s): Admission to the PhD in Social Work program.

597 PhD Thesis Research 0 TO 16 hours. Individual research, under faculty direction, on social work doctoral dissertation. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Consent of the instructor.

598 Sociological Analysis 0 TO 4 hours. Procedures for analyzing original or secondary research data; writing literature reviews, proposals, data summaries, and research reports; computer-assisted data analysis and test preparation. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): SOC 201 and SOC 202 or 6 hours of upper-division courses in the social sciences, including at least one course in introductory statistics and research methods, or consent of the instructor.

599 Sociology (SOC) 400 Sociological Analysis 0 TO 4 hours. Procedures for analyzing original or secondary research data; writing literature reviews, proposals, data summaries, and research reports; computer-assisted data analysis and test preparation. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): SOC 201 and SOC 202 or 6 hours of upper-division sociology, including SOC 225, or consent of the instructor.

601 Sociology Statistics 0 TO 4 hours. Descriptive and inferential statistics for graduate and advanced undergraduate sociology majors and related fields. Tests of means, regression, correlation, analysis of variance, and related topics. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): SOC 201 and SOC 202, or consent of the instructor.

602 Intermediate Sociological Statistics 0 TO 4 hours. The general linear model emphasizing regression. Analysis of variance and covariance. Simple structural equation models. Simple categorical methods. Elementary matrix algebra. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): SOC 401.

605 Writing in the Social Sciences 3 OR 4 hours. Leads to effective, clear writing for a social science audience. Topics include organizing ideas, avoiding jargon, and writing with precision. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): 6 hours of upper-division social science courses.

624 Sociology of Gender 3 OR 4 hours. Variety and change in gender roles; patterns and consequences of gender inequality, gender and sexuality, gender and social institutions such as family, economy. Same as GWSS 424.

625 Sociology of Gender 3 OR 4 hours. Variety and change in family patterns; family formation and break-up; parents’ and children’s effects on each other; influences of culture and political economy; consequences for other institutions. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): 6 hours of upper-division sociology or consent of the instructor.

641 Social Stratification 3 OR 4 hours. The nature of systems of differentiation and ranking in societies and their consequences; emphasis on class structure in the United States; prestige, status, power, and social mobility in the United States and other societies. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): 6 hours of upper-division sociology or consent of the instructor.

644 Sociology of the Family 3 OR 4 hours. Variety and change in family patterns; family formation and break-up; parents’ and children’s effects on each other; influences of culture and political economy; consequences for other institutions. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): 6 hours of upper-division sociology or consent of the instructor.
446 Race, Ethnicity, and Gender in American Religion 3 OR 4 hours. Religious institutions in the U.S. as a crucible for racial, ethnic, and gender identities, group formation, and intergroup relations; major world religions represented in the U.S. Same as RELS 446. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): SOC 100 and junior standing or above; or consent of instructor.

447 Organizations 3 OR 4 hours. Characteristics of business, government, and not-for-profit organizations; approaches used to study organizations; theoretical and empirical analysis of organizational processes. Same as MGMT 447. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): 6 hours of upper-division sociology, management, or political science; or consent of the instructor.

448 Sociology of Development 3 OR 4 hours. Historical, economic, political, social, and geographic factors shaping national and international development experiences and outcomes. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): 6 hours of upper-division sociology courses or consent of the instructor.

451 Medical Sociology 3 OR 4 hours. Survey of major topics in sociology of health and medicine, including social definitions of health and illness, patient–practitioner interaction, the organization of health institutions and professions. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): 6 hours of upper-division sociology or consent of the instructor.

455 Topics in Medical Sociology 3 OR 4 hours. Intensive examination of a specialized topic announced when the class is scheduled. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 12 hours. Students may register in more than one section per term. Prerequisite(s): SOC 451 or consent of the instructor.

465 Topics in Sociology of Politics 3 OR 4 hours. Intensive examination of a specialized topic announced when the class is scheduled. Same as POLS 465. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 12 hours. Students may register in more than one section per term. Prerequisite(s): 6 hours of upper-division sociology or consent of the instructor.

471 Population 3 OR 4 hours. The measurement and study of major trends and differentials in fertility, mortality, migration, growth, and compositional characteristics of the population of the United States and other nations. Same as EPID 471. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): 6 hours of upper-division sociology, including SOC 201, or consent of the instructor.

473 Cities and Regions 3 OR 4 hours. Characteristics, conditions, and consequences of structure and change of cities and metropolitan regions. Spatial, political economy, cultural perspectives. Coreus, ecological, historical, comparative data for cities. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): 6 hours of upper-division sociology including SOC 201, or consent of the instructor.

476 Topics in Urban Sociology 3 OR 4 hours. Intensive examination of a specialized topic announced when the class is scheduled. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 12 hours. Students may register in more than one section per term. Prerequisite(s): 6 hours of upper-division sociology or consent of the instructor.

485 Classical Sociological Theory 3 OR 4 hours. Survey and analysis of classical European and American social theory, such as Marx, Weber, Durkheim, Weber, and Park. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): 6 hours of upper-division sociology or consent of the instructor.

487 Contemporary Sociological Theory 3 OR 4 hours. Review and evaluation of major currents in sociological theory since the 1940s. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): 6 hours of upper-division sociology or consent of the instructor.

488 Theories in Social Psychology 3 OR 4 hours. In-depth treatment of major theoretical traditions in social psychology. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): 6 hours of upper-division sociology or consent of the instructor.

490 Independent Study or Research 1 TO 9 hours. Extensive readings in specialized areas of sociology or empirical research for advanced undergraduate or graduate students. May be repeated with approval. Students may register in more than one section per term. Approval to repeat course granted by the department. Undergraduate students may repeat course for maximum of 9 hours of credit. Prerequisite(s): 18 hours of sociology, excluding SOC 296 and SOC 410, consent of the instructor, and approval of the department.

500 Sociological Research Methods I 4 hours. Introduction to research design, data gathering, and data reduction; logic of problem formulation, units of analysis, measurement, data analysis. Prerequisite(s): SOC 299, consent of the instructor.

501 Sociological Research Methods II 4 hours. Evaluating sociological research, data analysis and reporting; proposal writing and evaluation; professional issues including research ethics; student presentation of master's research proposals. Prerequisite(s): SOC 500.

509 Seminar: Sociological Research Methods 0 TO 7 hours. Advanced methodology. Intensive examination of specialized topics. May be repeated to a maximum of 12 hours. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

565 Seminar: Political Sociology 1 TO 7 hours. Intensive analysis of specialized topics. May be repeated to a maximum of 12 hours. Students may register in more than one section per term.

571 Seminar: Population and Human Ecology 1 TO 7 hours. Intensive analysis of specialized topics. May be repeated to a maximum of 12 hours. Students may register in more than one section per term.

572 Sociology of Education 4 hours. Education as a social institution in interaction with other institutions, such as the economy. Topics include the emergence of national systems of education, purposes of education,
Prerequisite(s): Enrollment in the PhD in Policy Studies in Urban Education program or consent of the instructor.

Sociological Theory 1 TO 7 hours. Intensive analysis of specialized topics. May be repeated to a maximum of 12 hours. Students may register in more than one section per term.

Graduate Seminar in Sociology 585 1 TO 6 hours. Special topics in sociology. May be repeated.

Colloquium on College Teaching of Sociology 593 0 TO 4 hours. Sociological analysis of contemporary university teaching; strategies and techniques for presentation of sociology at the college level. May be repeated.

Departmental Seminar 596 1 TO 4 hours. Presentation and discussion of issues of professional concern to sociologists, including current research, consulting, teaching, and applied sociology. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term.

Independent Study 597 1 TO 12 hours. Research on special problems not included in the graduate thesis. May be repeated. Students may register in more than one section per term.

Prerequisite(s): Consent of the instructor and approval of the department.

Project Research 598 0 TO 16 hours. Supervised writing and research on topic of the master’s paper. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 6 hours. Prerequisite(s): SOC 501 and consent of the instructor.

Thesis Research 596 0 TO 16 hours. Research and writing of the PhD thesis. Satisfactory/Unsatisfactory grading only. May be repeated.

Spanish (SPAN) 400 3 OR 4 hours. History of the Spanish Language. Origins and development of Spanish; phonological, morphological, syntactic development of the language; foreign influences; origin of dialects. 3 undergraduate hours, 4 graduate hours. Prerequisite(s): SPAN 205 or SPAN 300 or consent of the instructor.

Prerequisite(s): Spanish Medieval Literature 401 3 OR 4 hours. Literary social, and cultural developments in Medieval Spain, as reflected in Cantar de mio Cid, Libro de buen amor, El conde Lucanor, and La Celestina. 3 undergraduate hours, 4 graduate hours. Prerequisite(s): SPAN 310.

Prerequisite(s): Spanish Golden Age Literature 410 3 OR 4 hours. Renaissance and sixteenth-century lyric poetry: examples of picarque, pastoral, and mystical prose. 3 undergraduate hours, 4 graduate hours. Prerequisite(s): SPAN 310.

Prerequisite(s): Spanish Literary Forms in the Early Spanish Golden Age Literature 412 3 OR 4 hours. The comedy, culturanism and conceptismo; the prose of Quevedo and Gracian. 3 undergraduate hours, 4 graduate hours. Prerequisite(s): SPAN 310.

Prerequisite(s): Spanish Literary Forms in the Later Spanish Golden Age Literature 413 3 OR 4 hours. The comedias, culturanism and conceptismo; the prose of Quevedo and Gracian. 3 undergraduate hours, 4 graduate hours. Prerequisite(s): SPAN 310.

Prerequisite(s): Spanish Modern Spanish Literature I 431 3 OR 4 hours. Nineteenth-century literary trends from the beginnings of the novel through Romanticism and Realism to Modernismo. Prize and poetry. 3 undergraduate hours, 4 graduate hours. Prerequisite(s): SPAN 312.

Prerequisite(s): Spanish Modern Spanish Literature II 432 3 OR 4 hours. Representative authors and movements from post-modernismo through Vanguardism and the tendencies of the last twenty years. Emphasis on poetry, 3 undergraduate hours, 4 graduate hours. Prerequisite(s): SPAN 312.

Prerequisite(s): Spanish Modern Spanish American Narrative Literature 433 3 OR 4 hours. The development of fiction in Spanish America from the Romantic era to the neorealist novel and short story of the 1930s. 3 undergraduate hours, 4 graduate hours. Prerequisite(s): SPAN 312.

Prerequisite(s): Spanish Contemporary Spanish American Narrative Literature 434 3 OR 4 hours. Emergence of the New Fiction. Representative works of the 1940s from South and Central America, Mexico, and the Caribbean, through contemporary developments of the “Boom.” 3 undergraduate hours, 4 graduate hours. Prerequisite(s): SPAN 311.

Prerequisite(s): Spanish Contemporary Spanish American Literary Forms in the Present 427 3 OR 4 hours. The most important authors and tendencies in twentih-century Spain. 3 undergraduate hours, 4 graduate hours. Prerequisite(s): SPAN 311.

Prerequisite(s): Spanish Contemporary Spanish American Literary Forms in the Present 421 3 OR 4 hours. From Unamuno to Garcia Lorca. 3 OR 4 hours. Representative authors and tendencies from the end of the nineteenth century to the outbreak of the Civil War. 3 undergraduate hours, 4 graduate hours. Prerequisite(s): SPAN 310.

Prerequisite(s): Spanish Contemporary Spanish American Literary Forms in the Present 420 3 OR 4 hours. The story of the 1930s. 3 OR 4 hours. Past and current theoretical and empirical sociolinguistics applied to the study of variation within Spanish and U.S. Hispanic communities. 3 undergraduate hours, 4 graduate hours. Prerequisite(s): SPAN 404 or the equivalent or consent of the instructor.

Prerequisite(s): Spanish Sociolinguistics 406 3 OR 4 hours. Past and current theoretical and empirical sociolinguistics applied to the study of variation within Spanish and U.S. Hispanic communities. 3 undergraduate hours, 4 graduate hours. Prerequisite(s): SPAN 404 or the equivalent or consent of the instructor.

Prerequisite(s): Spanish Hispanic Dialectology 408 3 OR 4 hours. Descriptive and historical analysis of the most salient linguistic phenomena of peninsular and American Spanish dialects. 3 undergraduate hours, 4 graduate hours. Prerequisite(s): SPAN 300 or SPAN 404 or the equivalent.

Prerequisite(s): Spanish Studies in Language Policy and Cultural Identity 427 3 OR 4 hours. Studies in Language Policy and Cultural Identity 428 3 OR 4 hours. Studies in Language Policy and Cultural Identity 408 3 OR 4 hours. Studies in Language Policy and Cultural Identity 409 3 OR 4 hours. Summer abroad. Reading and writing knowledge of Spanish.
436 Special Topics in the Teaching of Spanish 1 TO 4 hours. Course content is announced prior to each term in which course is given. May be repeated. Students may register in more than one section per term. Taught in English. Some semesters may be taught in Spanish. Prerequisite(s): Approval of the department.

448 Foundations of Second Language Teaching 3 OR 4 hours. Provides an introduction to second language acquisition research and its implications for communicative language teaching. Emphasis is on creating activities to develop high school students’ communicative abilities in speaking and listening. Same as FR 448 and GER 448. 3 undergraduate hours, 4 graduate hours. Taught in English. Prerequisite(s): Junior standing or above; and consent of the instructor and three courses at the 200- and 300-levels.

449 Teaching Second Language Literacy and Cultural Awareness 3 OR 4 hours. Examines the nature of literacy as a reciprocal relationship between readers, writers, texts, and culture. Students learn the practical and theoretical foundations of classroom teaching of second language reading and writing skills. Same as FR 449 and GER 449. 3 undergraduate hours, 4 graduate hours. Taught in English. Prerequisite(s): Junior standing or above; and consent of the instructor and three courses at the 200- and 300-levels.

451 Educational Practice with Seminar I 1 TO 6 hours. The first half of a two-segment sequence of practice teaching, including seminar, to meet certification requirements for teaching in grades six through twelve. Graduate credit only with approval of the department. Prerequisite(s): Good academic standing in a teacher education program, completion of 100-clock hours of pre-student-teaching field experiences, credit or concurrent registration in SPAN 451, and approval of the department.

494 Special Topics 3 OR 4 hours. Topics will vary from term to term and may cover such areas as literary theory or culture. Same as FR 494 and ITAL 494. 3 undergraduate hours, 4 graduate hours. May be repeated. Students may register in more than one section per term. Taught in English. Prerequisite(s): Junior standing or above; and approval of the department.

500 Research in Hispanic Studies 4 hours. Basic concepts of linguistic and literary theory; introduction to areas of research in linguistics and literature. May be repeated to a maximum of 8 hours. Prerequisite(s): Appointment to the graduate program in Hispanic Studies or consent of the instructor.

502 Theoretical and Research Foundations of Communicative Language Teaching 4 hours. Introduces students to contemporary theory and research on second language acquisition. Emphasis is on understanding the research and examining classroom practice. Same as FR 502. Credit is not given for FR 502/SPAN 502 if the student has credit for SPAN 450 or FR 450 or GER 407. Taught in English. Prerequisite(s): Consent of the instructor.

505 Seminar in Spanish Descriptive Linguistics: 4 hours. Topics in phonology, morphology, syntax, semantics, or pragmatics of Spanish. May be repeated to a maximum of 8 hours. Prerequisite(s): One 400-level Spanish course, and one from SPAN 402, SPAN 404, SPAN 408, or consent of the instructor.

507 Seminar in Second Language Acquisition and Bilingualism 4 hours. Current theoretical and research directions of bilingualism and second language acquisition by non-natives. May include original empirical research projects. May be repeated to a maximum of 8 hours.

510 Seminar in Spanish Medieval Literature 4 hours. An intensive study of relevant genres, periods, figures, and movements of Spanish medieval literature. May be repeated to a maximum of 8 hours.

512 Seminar in Golden Age Literature 4 hours. Particular areas, genres, works, or figures, in sixteenth- and seventeenth-century Spanish literature. May be repeated to a maximum of 8 hours.

520 Seminar in Modern Spanish Literature 4 hours. Particular areas, genres, works, or figures in Modern Spanish literature. May be repeated to a maximum of 8 hours.

530 Seminar in Spanish American Literature 4 hours. Intensive study of relevant genres, periods, figures, and movements in Spanish-American literature. May be repeated to a maximum of 8 hours.

535 Concepts and Methodologies in Hispanic Interdisciplinary Studies 4 hours. Inception and development of Latin American society from interdisciplinary perspectives. Cultural evolution from the encounter of European values and indigenous cosmogony to New World syncretism. May be repeated to a maximum of 8 hours.

540 Seminar on Spanish Literature in Context 4 hours. Past and current theoretical and empirical directions as applied to the study of oral and written discourse and its social context. Prerequisite(s): One 400-level Spanish course and one from SPAN 402, SPAN 404, SPAN 408, and SPAN 408.

556 Second Language Learning 4 hours. An introduction to research findings and methods in second language learning. Same as LING 556. Prerequisite(s): Consent of the instructor.

557 Theories in Second Language Acquisition 4 hours. Review of current linguistic, cognitive, and sociocultural theories with the following in mind: what do these theories purport to explain? What methodologies are used by researchers working within the theories? Taught in English. Recommended background: LING 556.

570 Seminar in Literary Theory and Criticism 4 hours. Theories of literary production and reception: their application to the practice of literary criticism. Specific themes and topics vary. Same as FR 570. May be repeated to a maximum of 8 hours with approval. Approval to repeat course granted by the instructor. Taught in English.

594 Special Topics in Hispanic Studies 4 hours. Topics which involve multiple approaches to problems in linguistics and literature, or which cross the chronological and geographical boundaries established in the seminars. May be repeated to a maximum of 8 hours.

596 Independent Study 1 TO 4 hours. Provides for areas of study not regularly covered by departmental offerings. Study proposals must conform to departmental guidelines. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

598 MA Thesis Research 0 TO 16 hours. Students involved in thesis research and writing are assigned to the course at the discretion of the graduate committee. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Approval of the graduate committee.

599 PhD Thesis Research 0 TO 16 hours. The writing of a PhD thesis based on original research in the area of the candidate’s major specialization (literature, linguistics, or culture). Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 24 hours. Prerequisite(s): Admission to candidacy for the doctoral degree and consent of director of graduate studies.
410
Survey of Characteristics of Learners with Disabilities 3 hours.
Fulfills requirements for Illinois House Bill 150. Field experience required. Learning and personality characteristics of exceptional learners. Diagnostic processes and educational approaches are examined. Prerequisite(s): ED 210 or ED 421 or graduate standing and consent of the instructor.

415
Characteristics of Exceptional Learners 3 hours. Provides a foundation for the understanding of the exceptional learner in an inclusive environment. No graduation credit for students enrolled in a secondary education, social work, or any graduate degree program. Prerequisite(s): Junior standing or above and admission to the Bachelor of Arts in Elementary Education program or consent of the instructor.

416
Methods of Instruction for Exceptional Learners 2 hours. The purpose of this course is to address issues of instruction for individuals with special needs. Topics include effective instructional and accommodative practices and strategies in multiple areas (math, literacy, science, social studies, art). Prerequisite(s): Junior standing or above and Admission to the Bachelor of Arts in Elementary Education program. Successful completion of SPED 415.

422
Assessment of Monolingual and LEP Children with Disabilities 4 hours. Psychoeducational assessment of monolingual and limited English proficient children with learning disabilities at the elementary level. Prerequisite(s): Graduate standing; and SPED 410 or the equivalent.

424
Assessment of Students with Special Needs 3 OR 4 hours. Theoretical basis and practical application of standardized and alternative testing of children with learning and behavior difficulties. Prerequisite(s): SPED 410.

426
Curricular/Behavioral Considerations for Learners with Special Needs 3 OR 4 hours. Instructional practices related to academics, classroom management, individualized and group instruction for students with special needs. Prerequisite(s): SPED 424 or the equivalent or consent of the instructor.

427
Curricular and Behavioral Considerations for LEP Learners with Special Needs 4 hours. Exploration of best practice instruction and behavior management for limited English proficient students with learning disabilities, behavioral disabilities, and/or mild cognitive delays. Prerequisite(s): Graduate standing; and SPED 410 or the equivalent or consent of the instructor.

442

444
Assistive Technology for Literacy, Learning, and Participation in Pre-K through High School 3 hours. Use of communication systems, computers, adapted equipment, and strategies to foster participation and inclusion of students in grades pre-school through high school. Same as EHD 444.

448
Topics in Special Education 1 TO 4 hours. Course or workshop on preannounced topic on the education of handicapped children, adolescents, or adults. May be repeated. Students may register in more than one section per term. Prerequisite(s): SPED 410 and consent of the instructor.

461
Political and Sociocultural Perspectives on Special Education 3 hours. Students will examine issues of access and equity through legislation, litigation, and sociocultural perspectives and be introduced to major theoretical frameworks that influence special education programs. Same as ED 461. Fieldwork required.

462
Assessment of Individuals with Disabilities 3 hours. To prepare students in the use of formal and informal assessment in making decisions regarding placement, instructional planning, and evaluation of students with disabilities. Fieldwork required. Prerequisite(s): SPED 461 or the equivalent or consent of the instructor.

463
Instructional Adaptations in Reading and Writing I 3 hours. Emphasizes the components of designing, implementing, and assessing reading and writing instruction for individuals with disabilities at the elementary level. Fieldwork required. Prerequisite(s): SPED 461 or the equivalent or consent of the instructor.

465
Cognitive Development and Disabilities 3 hours. Theory and research on cognitive development in children with disabilities from infancy through adolescence, in the context of typical development. Models for cognitive assessment and intervention. Same as EPSY 465. Fieldwork required. Prerequisite(s): SPED 461 or the equivalent or consent of the instructor.

466
Language Development, Diversity, and Disabilities 3 hours. Theory and research on language development in children with disabilities, in the context of typical development. Models for language assessment and intervention. Same as EPSY 466. Fieldwork required. Prerequisite(s): SPED 461 or the equivalent or consent of the instructor.

467
Social and Emotional Development and Disabilities 3 hours. Exploration of the risk factors and different theoretical approaches associated with the social and emotional development of youth ages 5–21 with and without disabilities. Same as EPSY 467. Fieldwork required. Prerequisite(s): SPED 461 or ED 461 or the equivalent or consent of the instructor.

471
Curricular Adaptations for Learners with Significant Disabilities 3 hours. Addresses methods of instruction, assessment, planning for instruction, development and evaluation of learning environments, and instructional delivery for students with significant disabilities. Fieldwork required. Prerequisite(s): SPED 465 and SPED 466 and SPED 467; or consent of the instructor.

472
Promoting Academic and Prosocial Behavior 1 3 hours. The importance of school-wide and classroom structure and climate in the educational process. Strategies to promote academic success and desired social behavior. Same as ED 472. Fieldwork required. Prerequisite(s): SPED 461 or ED 461 or the equivalent or consent of the instructor.

473
Teaching Math and Science with Adaptations 3 hours. Provides prospective teachers with assessment strategies and a range of adaptations, modifications, and interventions in math and science for students with disabilities. Same as ED 473. Fieldwork required. Prerequisite(s): SPED 461 or ED 461 or the equivalent or consent of the instructor.

480
Technology and Multimedia: Learning Tools in the Classroom 3 OR 4 hours. New technologies to support teaching and learning in precollege classrooms. Same as GE 480. 3 undergraduate hours. 4 graduate hours.

481
Theoretical Foundations of Bilingual/ESL Special Education 4 hours. Overview of historical, political, pedagogical, and theoretical issues involved in the education of students with special learning needs who are second language learners. Prerequisite(s): Graduate standing; and SPED 410 or the equivalent or consent of the instructor.

500
Research Methods in Special Education 4 hours. Research strategies and statistical methods for the assessment of applied and theoretical research studies in special education. Prerequisite(s): SPED 410 or consent of the instructor.
506 Characteristics and Assessment of Young Children with Disabilities 4 hours.

Biological and environmental factors in infancy may cause developmental disabilities. Impact of such factors on child development will be reviewed. Appropriate assessment techniques are reviewed. Fieldwork required.

507 Children with Disabilities and the Family 4 hours.

Strategies for working with families of young children with disabilities. Focus on parents and siblings within community context. Design and implementation of individual family service plans. Prerequisite(s): SPED 506 or SPED 511 or SPED 513 or SPED 515.

508 Methods of Instruction & Assessment of Young Children with Disabilities 4 hours.

Intervention and assessment methods for infants and young children at-risk for or showing developmental delays. Systems perspective on utilizing family and community to support intervention. Fieldwork required. Prerequisite(s): Grade of B or better in SPED 506; or consent of the instructor.

511 Characteristics of Learning Disabilities 3 hours.

Characteristics of and educational implications for cognitive, language, academic, and social-emotional development in students with learning disabilities. Fieldwork required. Prerequisite(s): SPED 500.

512 Instructional Methods for Students with Learning Disabilities 3 hours.

Development and evaluation of individualized educational programs for learning disabled students, including instructional methods and materials. Fieldwork required. Prerequisite(s): SPED 511.

513 Characteristics of Mental Retardation 3 hours.

The nature, characteristics, and educational implications for the cognitive, social, and physical development of persons with mental retardation. Fieldwork required. Prerequisite(s): SPED 500.

514 Instructional Methods for Students with Mild Mental Retardation 2 hours.

Instructional theory, methods, and techniques, and behavioral and academic objectives for students with mild mental retardation. Field experience. Prerequisite(s): SPED 513 and concurrent registration in SPED 515.

515 Instructional Methods for Students with Moderate to Profound Mental Retardation 2 hours.

Instructional theory and techniques, instructional methods and materials, and behavioral and academic objectives for students with moderate, severe, and profound mental retardation. Fieldwork required. Prerequisite(s): SPED 513 and concurrent registration in SPED 514.

516 Characteristics of Students with Emotional and Behavioral Disorders 3 hours.

Exploration of the risk factors and different theoretical approaches associated with the development and prevention of serious emotional and behavioral disorders. Fieldwork required. Prerequisite(s): SPED 424 and SPED 426.

517 Instructional Methods for Students with Emotional and Behavioral Disorders 3 hours.

Instructional programming for the academic and social development of students with serious emotional and behavioral disorders. Strategies for effective classroom and behavioral management. Fieldwork required. Prerequisite(s): SPED 516.

522 Special Educator as Consultant 4 hours.

Training for consultants in educational and employment settings: consultation models, observation, and coaching skills to use with educators, parents, employers, and community-agency personnel. Prerequisite(s): SPED 410 or the equivalent or consent of the instructor.

537 Special Education Practicum 6 TO 12 hours.

Practicum in teaching in the field of special education; focus on teaching students who are experiencing social and/or emotional disturbance, mental retardation, or learning disabilities. Prerequisite(s): Completion of 100-clock hours of pre-student-teaching field experiences, completion of a sequence in an area of special education, and consent of the advisor. Applications are due two semesters in advance.

538 Internship in Special Education 1 TO 8 hours.

Clinical, research, or field-based internship experiences for special education majors. May be repeated. Students may register in more than one section per term. Prerequisite(s): SPED 424 and SPED 426 and SPED 500 and consent of the instructor one semester prior to enrollment.

554 Proseminar in Special Education 4 hours.

Various areas of special education research are reviewed. Topics include areas of faculty research. Prerequisite(s): SPED 500 or consent of the instructor; and admission to PhD in Special Education program.

572 Promoting Academic and Prosocial Behavior II 2 hours.

Provides an in-depth examination of serious problem behavior and the skills to develop individualized programs to address the academic and social needs of challenging students. Fieldwork required. Prerequisite(s): SPED 472; or consent of the instructor.

573 Understanding Research in Special Education 3 hours.

Overview of research methodology appropriate for teachers of special populations with emphasis on developing skills in critically reading research reports. Prerequisite(s): SPED 461 or consent of the instructor.

574 Internship in Assessment 3 hours.

Internship experiences in an assessment clinic for special education majors. Fieldwork required. Prerequisite(s): SPED 462 or the equivalent or consent of the instructor.

576 Internship in Special Education 3 hours.

Field-based internship experiences for special education. Fieldwork required. Prerequisite(s): Approval of the program faculty.

578 Classroom-Based Inquiry Internship 3 hours.

Field-based internship experiences in special education classrooms. Fieldwork required. Prerequisite(s): Approval of the program faculty.

579 Research Internship 3 hours.

Students work on a specific research project under the direction of a faculty member. Fieldwork required. Prerequisite(s): SPED 573 or the equivalent and consent of the instructor.

580 Student Teaching in Special Education 6 hours.

Practice teaching in the field of special education. Fieldwork required. Prerequisite(s): SPED 463 and SPED 471 and SPED 473 and SPED 572 and SPED 573 and SPED 576 and SPED 577 and approval of the program faculty.

582 Forging Collaborations with Family and Community 3 hours.

Develops skills necessary to work in partnership with the families of children with disabilities, and community members. Same as EPSY 582. Prerequisite(s): ED 461 or SPED 461 or the equivalent or consent of the instructor.

583 Instructional Adaptations in Reading and Writing II 3 hours.

Students learn advanced strategies for designing, implementing, and assessing reading and writing instruction for individuals with disabilities at the middle school and secondary level. Fieldwork required. Prerequisite(s): ED 461 or SPED 461; and SPED 463; or consent of the instructor.

592 Seminar on Theory and Research in Special Education 4 hours.

Systematic in-depth review of theory and research on selected topics in special education. May be repeated to a maximum of 12 hours. Students may register in more than one section per term. Prerequisite(s): SPED 500 and consent of the instructor.

593 PhD Research Project 1 TO 8 hours.

Students design, implement, and analyze results of a research problem in this area of specialization. Completed study is reviewed by faculty. May be repeated to a maximum of 8 hours. Prerequisite(s): Admission to the PhD in Education program.

595 Seminar in Special Education 4 hours.

Discussion of current literature in the field of special education.
Satisfactory/Unsatisfactory grading only. Prerequisite(s): SPED 564.

596 Independent Study 1 TO 4 hours. Students independently study related topics not covered by courses, under faculty supervision. May be repeated to a maximum of 12 hours. Students may register in more than one section per term. Prerequisite(s): SPED 500 or the equivalent, and consent of adviser and instructor.

599 Thesis Research 0 TO 16 hours. Research on the topic of the student's dissertation. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Consent of the dissertation adviser.

Statistics (STAT)

401 Introduction to Probability 3 OR 4 hours. Probability spaces, random variables and their distributions, conditional distribution and stochastic independence, special distributions, sampling distributions, limit theorems. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in STAT 401.

422 Advanced Statistical Theory I 3 OR 4 hours. Statistical models, criteria of optimum estimation, large sample theory, optimum tests and confidence intervals, best unbiased tests in exponential families, invariance principle, likelihood ratio tests. Prerequisite(s): STAT 411.

481 Applied Statistical Methods II 3 OR 4 hours. Linear regression, introduction to model building, analysis of variance, analysis of enumerative data, nonparametric statistics, product and system reliability, quality control, SAS and SPSSX applications. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in STAT 481.

486 Statistical Consulting 3 OR 4 hours. Introduction to statistical consulting methods and techniques. Handling and transformation of raw data sets in CMS. Statistical analysis of data sets with SAS and SPSSX. 3 undergraduate hours. 4 graduate hours. Prerequisite(s): Grade of C or better in STAT 411 or STAT 481.

494 Special Topics in Statistics, Probability, and Operations Research 3 OR 4 hours. Course content announced prior to each semester in which it is given. Topics drawn from areas, such as distribution theory; Bayesian inference; discrete optimization; applied probability models; resampling techniques; biostatistics; environmental sampling. 3 undergraduate hours. 4 graduate hours. May be repeated. Students may register in more than one section per term. Prerequisite(s): Approval of the department.

496 Independent Study 1 TO 4 hours. Reading course supervised by a faculty member. May be repeated. Students may register in more than one section per term. Prerequisite(s): Approval of the instructor and approval of the department.

501 Probability Theory I 4 hours. Abstract measure theory, probability measures, Kolmogorov extension theorem, sums of independent random variables, the strong and weak laws of large numbers, the central limit theorem, characteristic functions, law of iterated logarithm, infinitely divisible laws. Prerequisite(s): MATH 534 or consent of the instructor.

502 Probability Theory II 4 hours. Radon-Nikodym theorem, conditional expectations, martingales, stationary processes, ergodic theory, stationary Gaussian processes, Markov chains, introduction to stochastic processes, Brownian motion. Prerequisite(s): STAT 501.

511 Advanced Statistical Theory I 3 OR 4 hours. Statistical models, criteria of optimum estimation, large sample theory, optimum tests and confidence intervals, best unbiased tests in exponential families, invariance principle, likelihood ratio tests. Prerequisite(s): STAT 411.

512 Advanced Statistical Theory II 4 hours. Basic concepts in decision theory, prior and posterior distributions, Bayesian decision theory, hierarchical models, robustness, minimax analysis, invariance principle, sequential analysis, completeness. Prerequisite(s): STAT 511.

521 Linear Statistical Inference 4 hours. Estimation and testing in linear models, generalized inverses of matrices, n-dimensional normal distribution, quadratic forms, likelihood ratio tests, best invariant tests, analysis of variance. Prerequisite(s): STAT 411.

522 Multivariate Statistical Analysis 4 hours. Multivariate normal distribution, estimation of mean vector and covariance matrix, T-square statistic, discriminant analysis, general linear hypothesis, principal components, canonical correlations, factor analysis. Prerequisite(s): STAT 521.

531 Sampling Theory I 4 hours. Foundations of survey design and inference for finite populations; the Horvitz-Thompson estimator, simple random, cluster, systematic survey designs; auxiliary size measures in design and inference. Prerequisite(s): STAT 411.

532 Sampling Theory II 4 hours. Uses of auxiliary size measures in survey sampling; cluster sampling; systematic sampling; stratified sampling; superpopulation methods; randomized response methods; resampling; nonresponse; small area estimations. Prerequisite(s): STAT 531.

535 Optimal Design Theory I 4 hours. Gauss-Markov theorem, optimality criteria, optimal designs for 1-way, 2-way elimination of heterogeneity models, repeated measurements, treatment-control; Equivalence theorem, approximate designs for
polynomial regression.
Prerequisite(s): STAT 521.

536
Optimal Design
Theory II  4 hours.
Construction of optimal designs: BIB, Latin square and generalized Youden, repeated measurements, treatment-control studies; construct-
tion of factorial designs including orthogonal arrays.
Prerequisite(s): STAT 535 or consent of the instructor.

571
Noncooperative
Games  4 hours.
Extensive games. Separation and fixed point theorems. General mini-
Games with convex payoffs. Stochastic games.
Prerequisite(s): STAT 461 or MATH 411.

572
Cooperative
Game Theory  4 hours.
Utility theory. Games with side pay-
ments, stable sets, core, bargaining sets, Shapley value. Nucleus.
Market games. NTU value. Multilinear extensions, non-atomic games.
Prerequisite(s): STAT 571 or consent of the instructor.

577
Reliability Theory  4 hours.
Coherent structures, paths and cuts, modules, shape and properties of reliability function, association, classes of life distributions based on aging, dependence, multivariate models.
Prerequisite(s): STAT 461.

591
Advanced Topics in
Statistics, Probability,
and Operations
Research  4 hours.
Special topics. Topics drawn from areas such as: data analysis; Bayesian inference; non-linear models; time series; computer-aided design; reliability models; game theory. May be repeated.
Prerequisite(s): Approval of the department.

593
Graduate Student
Seminar  1 hour.
For graduate students who wish to receive credit for participating in a learning seminar whose weekly time commitment is not sufficient for a reading course. This seminar must be sponsored by a faculty member. Satisfactory/ Unsatisfactory grading only. May be repeated. Students may register in more than one section per term.
Prerequisite(s): Approval of the department.

595
Research Seminar  1 hour.
Current developments in research with presentations by faculty, stu-
dents, and visitors. Researchers and practitioners from academia, indus-
ty, and government will present talks on topics of current interest. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term. Prerequisite(s): Approval of the department.

596
Independent
Study  1 TO 4 hours.
Reading course supervised by a fac-
ulty member. May be repeated. Students may register in more than
one section per term. Prerequisite(s): Approval of the instructor and the department.

598
Master's
Thesis  0 TO 16 hours.
Research work under the supervi-
sion of a faculty member leading to the
completion of a master's thesis. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Approval of the department.

599
Doctoral Thesis
Research  0 TO 16 hours.
Research work under the supervi-
sion of a faculty member leading to the
completion of a doctoral thesis. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than
one section per term. Prerequisite(s): Approval of the department.

597
Prerequisite(s): Approval of the department.

597
Prerequisite(s): Approval of the department.

604
544
Drama in its
Cultural
Context I  3 OR 4 hours.
Drama in its social and cultural con-
text through the seventeenth cen-
tury. 3 undergraduate hours. 4
graduate hours.

445
Drama in its
Cultural
Context II  3 OR 4 hours.
Drama in its social and cultural con-
text eighteenth to twentieth cen-
turies. 3 undergraduate hours. 4
graduate hours.

452
Acting: Greeks and
Shakespeare  3 OR 4 hours.
Techniques of performing Greek and
Shakespearean drama. 3 undergraduate hours. 4
graduate hours.

455
Acting: Comedy  3 OR 4 hours.
Techniques of performing comic
comedy. Emphasis on the
"Commedia dell'arte" and improvi-
sational comedy. Topics vary. 3
undergraduate hours. 4 graduate
hours. Prerequisite(s): Grade of B or
better in THTR 262 and grade of B
or better in THTR 261 or graduate
standing in theatre.

464
Special Projects in
Theatrical
Design  3 OR 4 hours.
Twentieth-century styles for the
contemporary stage. Problems in
conceptualization, realization, and
execution. 3 undergraduate hours. 4
graduate hours. May be repeated up
to 2 times. Prerequisite(s): THTR 250 or
THTR 256; or THTR 257 and
THTR 259; or graduate standing in
theatre.

465
Stage
Direction  3 OR 4 hours.
Exploration of conceptual planning and
implementation skills for the
stage director, ranging from script
interpretation to rehearsal and per-
formance. Performance projects
required. 3 undergraduate hours. 4
graduate hours. Prerequisite(s): THTR 210 and THTR 250 and THTR 262; and THTR 256 or THTR 257 or
graduate standing in theatre.

466
Special Projects in
Performance
Training  3 OR 4 hours.
Training in varying advanced tech-
niques of performance. 3 under-
graduate hours. 4 graduate
hours. May be repeated up to 2
times. Prerequisite(s): THTR 262; or
for graduate students, consent of the
instructor.

470
Contemporary
Performance
Techniques  3 OR 4 hours.
The relationship of contemporary
theatrical theory and performance
techniques with attention to both text and non-
text based forms. Topics vary.
Performance projects required. 3
undergraduate hours. 4 graduate
hours. May be repeated up to 1
time. Prerequisite(s): Grade of B
or better in THTR 262; or graduate
standing in theatre.

472
Investigative
Collaboration  3 OR 4 hours.
Collaboration as the primary means
for theatrical creation. Production
teams assigned to joint-production
projects. Topics vary. 3 under-
graduate hours. 4 graduate
hours. May be repeated up to 1
time. Prerequisite(s): Grade of B
or better in THTR 262; or graduate
standing in theatre.

474
Internship  3 OR 8 hours.
Students work in an approved pro-
fessional setting. Individual projects
developed through conferences with a faculty member and a field supervi-
sor. May be repeated. Only three
hours may be applied toward theatre
major requirements.
Prerequisite(s): 12 hours of upper-division courses in theatre, with a 3.00 grade point average in those courses; recommendation of two faculty members and approval of department obtained in semester prior to internship.

475 Audition
Technique 3 OR 4 hours.
Selection and staging of audition pieces from both classical and modern drama. 3 undergraduate hours. 4 graduate hours.
Prerequisite(s): Grade of B or better in THTR 261 and grade of B or better in THTR 452 and grade of B or better in THTR 210; or graduate standing.

491 Study Abroad in Theatre
0 TO 16 hours.
Study abroad within an approved foreign exchange program or department-sponsored program. May be repeated without approval. Approval to repeat course granted by the department.
Prerequisite(s): Approval of the department.

498 Independent Study
1 TO 4 hours.
Individual investigation of special problems that may be student-initiated or related to faculty research. May also be used for special university-sponsored projects, such as interdisciplinary seminars. May be repeated to a maximum of 6 hours. Students may register in more than one section per term.
Prerequisite(s): Senior or graduate standing and approval of the department.

502 Introduction to Research in Theatre
4 hours.
Focuses on the research directors and scholars need to make informed choices.

522 Theories of Theatre
4 hours.
Nature of the theatrical experience. Emphasis on topics varies. For example, theory of comedy; semiotics of theatre; deus, surrealism, expressionism, futurism. May be repeated to a maximum of 12 hours. Prerequisite(s): At least three of the following: THTR 209; THTR 245; THTR 262; THTR 284; THTR 425; or consent of the instructor.

523 Special Topics in Dramatic Criticism
4 hours.
Intensive analysis of an individual critic or school, or critical history of an important play. May be repeated to a maximum of 12 hours.

596 Independent Research
1 TO 4 hours.
Department approved research projects not included in thesis research. May be repeated to a maximum of 6 hours. Students may register in more than one section per term.
Prerequisite(s): Consent of the director of graduate studies.

597 Thesis
Production 0 TO 8 hours.
Under the guidance of an advisor and committee, the student creates a theatre or video production, together with a written explanation of the work's intended significance. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Approval of faculty thesis production committee.

598 Thesis
Research 0 TO 16 hours.
Under the guidance of an advisor and committee, the student develops and conducts a research project addressing a theatre problem of a basic or applied nature. Satisfactory/Unsatisfactory grading only. May be repeated. Students may register in more than one section per term.
Prerequisite(s): Approval of faculty thesis research committee.

Urban Planning and Policy (UPP)

403 Introduction to Urban Planning
3 OR 4 hours.
Patterns of city growth, physical, socioeconomic, and environmental issues. Contemporary planning issues. Future of cities. 3 undergraduate hours. 4 graduate hours.
Prerequisite(s): Advanced undergraduate standing or consent of the instructor.

420 Great Cities: London and Chicago
1 TO 8 hours.
Comparative investigation of urban, economic, social, and political issues in the two global cities. Includes classes, study, and living in London. Fieldwork required.
Prerequisite(s): Junior standing or above and selection by the Office of Study Abroad Admission Committee.

470 Cohort Seminar for Urban Developers
3 OR 4 hours.
Application of the financial calculator, use of spreadsheets, and other tools commonly used in real-estate-based urban development projects.

471 Housing and Community Development for Urban Developers
3 OR 4 hours.
Housing policy at federal, state, and local levels affecting urban housing markets. Emphasis on assessment of market conditions affecting community development decisions. 3 undergraduate hours. 4 graduate hours.
Prerequisite(s): UPP 470 or consent of the instructor.

472 Development Finance for Urban Developers
3 OR 4 hours.
Key financial principles of real estate development, particularly those related to the financing of affordable housing. How to develop a real estate pro forma. 3 undergraduate hours. 4 graduate hours.
Prerequisite(s): Consent of the instructor.

473 Organizational Essentials for Urban Developers
3 OR 4 hours.
Theory and practice of management in public and nonprofit settings. Focus on developing communication, leadership, and legal skills for each step in development. 3 undergraduate hours. 4 graduate hours.
Prerequisite(s): Consent of the instructor.

474 Community Development Process for Urban Developers
3 OR 4 hours.
Developing affordable housing; development team; acquisition strategy; legal issues; construction management; and project sustainability, as it pertains to different types of housing developments. 3 undergraduate hours. 4 graduate hours.
Prerequisite(s): Consent of the instructor.

475 Sustaining the Housing for Urban Developers
3 OR 4 hours.
Introduces students to a range of management issues: property management and maintenance, resident relations and services, and financial/asset management as it relates to sustaining affordable housing. 3 undergraduate hours. 4 graduate hours.
Prerequisite(s): Consent of the instructor.

500 History and Theory of Urban Planning
4 hours.
Analysis of the development of the planning field and of the theories that have been developed for planning for change in the urban community. Prerequisite(s): Admission to the Urban Planning and Policy program or consent of the instructor.

501 Urban Space, Place, and Institutions
4 hours.
Political and economic approaches to urban structure and change. Includes intergovernmental relations, administrative organization, and planning initiatives in urban space and institutions. Prerequisite(s): Graduate standing in the Urban Planning and Policy program, Master of Arts in Real Estate, or consent of the UPP program director.

502 Planning Skills: Computers, Methods, and Communication
4 hours.
Focuses on the use of computers to learn methods and communication skills commonly used in planning practice. Prerequisite(s): Graduate standing in the Urban Planning and Policy program or consent of the UPP program director.

503 Data Analysis for Planning and Management I
4 hours.
Basic introduction to data analysis techniques most commonly used in urban planning. Addresses issues of decision making based on limited or imperfect information.
Prerequisite(s): Admission to the Urban Planning and Policy program or consent of the UPP program director.

504 Economic Analysis for Planning and Management
4 hours.
Basic micro, macro, and welfare economics theory; related analytical concepts, including input-output, economic base, benefit-cost. Economic forces which shape urban areas and affect public policy.
Prerequisite(s): Admission to the Urban Planning and Policy program or consent of the UPP program director.

507 Computer Topics in Urban Planning
4 hours.
Specialized computational capabilities for various planning areas, including database, project scheduling, statistics, graphics, and simulations. Topics will vary each semester.
Prerequisite(s): Graduate standing in the Urban Planning and Policy program.
508 Geographic Information Systems for Planning 4 hours. Applications of Geographic Information Systems to urban planning and policy making. Same as GEOG 589. Prerequisite(s): Graduate standing in Urban Planning and Policy or consent of the instructor.

516 Issues of Class and Race in Planning 4 hours. Critically examines the significant role of race, class, ethnicity, and gender as factors in planning public policy formation, implementation, and evaluation. Prerequisite(s): Consent of the instructor.

517 Regional and Metropolitan-Wide Planning 4 hours. History of regional planning. Prerequisite(s): UPP 500.

520 Globalization and International Planning I: Theory and Applications 4 hours. Overview of international development theories and their practical applications. Particular emphasis is placed on globalization. Urban versions and applications of these theories. Prerequisite(s): Consent of the instructor.

521 Globalization and International Planning II: Comparative Planning and Policies 4 hours. Policies and practice of public sector planning and development in three regional areas of the world: Europe, South America, and Asia. Prerequisite(s): UPP 520 or consent of the instructor.

525 Globalization and International Planning: Special Topics 1 TO 4 hours. Special topics selected for intensive analysis in international development planning. May be repeated to a maximum of 8 hours. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

536 Urban Employment Planning 4 hours. The importance of employment as a focus in planning and policy making. History, theories, and methodologies of urban markets: labor market analysis methodologies and emergent public policies. Prerequisite(s): UPP 504 or consent of the instructor.

537 Economic Development: Special Topics 1 TO 4 hours. Special topics selected for intensive analysis in economic development. May be repeated to a maximum of 8 hours. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

538 Economic Development I: Planning 4 hours. Overview of development strategies, including financing, business development, industry/venture, and human resources; implementation and evaluation. Prerequisite(s): UPP 530.

542 Metropolitan Housing Planning 4 hours. Urban housing market structure and dynamics; impacts of government housing policy on market; development of local housing plans. Prerequisite(s): UPP 504 or consent of the instructor.

543 Planning for Healthy Cities 4 hours. Investigates the needs of special populations such as the elderly or mentally ill, the role of the planner in serving these groups, and community-based strategies to meet needs.

544 Urban Revitalization and Gentrification 4 hours. Urban change in U.S. cities since World War II that is associated with socioeconomic restructuring. The course examines restructuring under the new global order and its impact on cities and urban planning and different social groups.

545 Community Development: Special Topics 1 TO 4 hours. Special topics selected for intensive analysis in community development. May be repeated to a maximum of 8 hours. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

546 Community Development: Theory 4 hours. Critically examines community development as a field of practice, policy intervention, implementation and analysis; emphasis on community and social dynamics of disadvantaged groups. Prerequisite(s): UPP 504 or UPP 554.

547 Community Development: Practice 4 hours. Critically examines the contexts, development, status, and problematics of organizing groups within communities of place, conditions and interest at various levels of analysis, relative to public formation, implementation, and evaluation. Prerequisite(s): UPP 540 and UPP 541 and consent of the advisor and the instructor.

550 Physical Planning I: Theoretical Foundations 4 hours. Physical form, economic characteristics, social qualities, and government structure of cities, suburbs, and regions; theories of urban spatial organization and planning. Prerequisite(s): Admission to the Urban Planning and Policy program or consent of the UPP program director.

551 Physical Planning II: Methods 4 hours. Fundamentals of construction and infrastructure of cities and regions, including site engineering and landscape architecture, natural environmental factors, utilities and infrastructure, cost-benefit analysis, context of local government and planning process. Prerequisite(s): UPP 550.

552 Physical Planning III: Studio 4 hours. Analysis, evaluation, and development of land use and urban design plans for selected projects and clients. Prerequisite(s): UPP 551.

553 Land Use Law 4 hours. Legal constraints on land use control; constitutional and statutory principles and judicial review. Prerequisite(s): Graduate standing or consent of instructor.

554 Environmental Planning 4 hours. The relationship of federal and state environmental policies and legislation to urban and regional planning efforts. Prerequisite(s): Consent of the instructor.

555 Physical Planning: Special Topics 1 TO 4 hours. Special topics selected for intensive analysis in such areas as housing and urban design. May be repeated to a maximum of 8 hours. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

556 Urban Design Studio 8 hours. Methods and tools for analysis, policy making and evaluation of urban spaces, including theoretical approaches and trends, design elements, social dimensions, methodology, policy formulation, computer applications, and project examples. Prerequisite(s): Consent of the instructor.
557 Site Planning 4 hours. Quantitative and qualitative tools for analysis and evaluation of site plans, including standards of site plans, spreadsheet computer models, elements of site design, landscape architecture, and red penciling site plans.

558 Land Use Planning 4 hours. Urban land use planning strategies and various land use control techniques which can be employed to carry out development policies; social implications of land use policy and practice. Prerequisite(s): Consent of the instructor.

560 Urban Transportation I: Introduction 4 hours. Transportation planning and linkages between it and urban land use and regional economic development. Recent trends, traditional problems, and emerging issues.

561 Urban Transportation II: Policy and Methods 4 hours. Formation and implementation of transportation policy at the national, regional, and local levels. Students will prepare an in-depth study of a major policy issue. Prerequisite(s): UPP 560 or consent of the instructor.

562 Urban Transportation III: Laboratory 4 hours. Software packages for urban transportation planning, transportation GIS, and air quality modeling. Heavy reliance on case studies. Prerequisite(s): UPP 561 or consent of the instructor.

563 Transportation Management 4 hours. Transit system planning, scheduling, pricing policy, and management; traffic control techniques and demand management; paratransit alternatives. Prerequisite(s): UPP 562.

598 Research Design and Evaluation 4 hours. Methods used to evaluate policies and programs; quasi-experimental designs, evaluation problems, and emerging evaluation methods. Prerequisite(s): Consent of the instructor.

589 Data Analysis for Planning and Management II 4 hours. Advanced topics in data analysis and model building including specific models used in urban planning. Prerequisite(s): UPP 553.

580 Dissertation Proposal Workshop 1 hour. Faculty-led workshop to assist students writing dissertation proposals in identifying their relevant literature, selecting appropriate methods, and demonstrating the significance of their original research. Satisfactory/Unsatisfactory grading only. May be repeated to a maximum of 2 hours. Prerequisite(s): Completion of the first year of the program; and consent of the instructor. PhD in Urban Planning and Policy students will generally take this course after or just before completing the preliminary examination.

583 Advanced Planning Theory 4 hours. Study of theoretical ideas and debates about planning; the rational model and its competitors; critical review of planning methods and practice; composing alternative plans. Prerequisite(s): Consent of the instructor.

584 Methods of Policy Analysis 4 hours. Analytic, allocative and evaluative techniques in public policy analysis. Preparation of case studies in problem analysis and policy recommendation. Same as FPA 584. Prerequisite(s): Consent of the instructor.

586 Topics in Urban Planning Research 4 hours. Course highlights research activities and opportunities related to research centers. May be repeated.

587 Planning and Policy Research Practicum 4 hours. PhD students work with a faculty member on engaged research related to their discipline. The topic and scope is determined by mutual agreement.

588 Independent Study in Urban Planning and Policy 1 TO 4 hours. Intensive analysis of selected planning problems or policy issues. May be repeated to a maximum of 12 hours. Students may register in more than one section per term. Prerequisite(s): Consent of the instructor.

596 Master's Project Research 0 TO 4 hours. Preparation of plan, research report, or other document which demonstrates readiness for professional planning responsibility. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Open only to degree candidates, upon approval of student's faculty adviser.

598 Master's Thesis Research 0 TO 16 hours. Preparation of a major research paper under the guidance of a faculty committee. Satisfactory/Unsatisfactory grading only. Prerequisite(s): Open only to degree candidates, upon consent of the director of graduate studies.

599 PhD Thesis Research 0 TO 16 hours. Individual study and research. Satisfactory/Unsatisfactory grading only. May be repeated. Prerequisite(s): Open only to degree candidates, upon approval of topic by the dissertation committee.

Women's Health Nursing (NUWH)

450 Women and Mental Health Nursing 3 hours. Theories of female psychology; women's daily lives and mental health; gender differences in mental illness; strategies for improving women's mental health. Same as GWS 450 and MUC 450. Prerequisite(s): Consent of the instructor. Students enrolled in the College of Liberal Arts and Sciences must have credit in PSCH 100 and either PSCH 270 or PSCH 315 or GWS 315.

455 Women's Health: A Primary Healthcare Approach 3 hours. Health promotion and disease prevention in women's health. Includes community experience with community women. Primary healthcare approaches examined. Same as CHSC 456 and MUC 465. Prerequisite(s): Consent of the instructor.

507 Biological Basis for Women's Health and Perinatal Nursing I 2 hours. Focuses on the anatomy and physiology of reproductive function, pregnancy, parturition, the puerperium, and menopause as the biological basis for women's health and perinatal nursing. Same as MUMC...
507. Prerequisite(s): Consent of the instructor.

517 Healthcare of Women I 4 hours.
Healthcare of women through the life span with an emphasis on health promotion and disease prevention, fertility control, and pregnancy care. Same as NUMC 517.
Prerequisite(s): Consent of the instructor.

518 Healthcare of Women II 4 hours.
Healthcare of women through the life span with an emphasis on the parturition, the puerperium, and common health and pregnancy problems. Same as NUMC 518.
Prerequisite(s): NUMC 507 or NUMC 517, or consent of the instructor.

519 Healthcare of Women III 4 hours.
Healthcare of women through the life span with an emphasis on gynecologic and primary care. Same as NUMC 519.
Prerequisite(s): NUMC 508; and NUMC 517 or NUWH 517, or consent of the instructor.

550 Issues for Research and Practice in Women’s Health 3 hours.
Analysis of gender-related definitions of health and illness in theory issues and research evaluation criteria for women’s healthcare practice are developed as a basis for research. Same as NUSC 550.
Prerequisite(s): Consent of the instructor.

555 Theories and Methods in Women’s Health Nursing Research 3 hours.
Critical analysis of theoretical and methodological approaches in women’s health nursing research. Emphasis on evaluation schema useful to researchers. Same as NUSC 555.
Prerequisite(s): NUSC 550 or NUWH 550, or consent of the instructor.

565 Advanced Research in Women’s Health 1 TO 2 hours.
Advanced seminar for doctoral students in graduate nursing concentration in women’s health. Faculty and students present and critique ongoing and developing research. Same as NUSC 565.

570 International Dimensions in Women’s Health 3 hours.
Critical examination of the health of women from a global perspective. Emphasizes resources and strategies nurse researchers use to monitor women’s health across cultures and countries. Same as NUSC 570.
Prerequisite(s): Consent of the instructor.

575 Minority Women’s Health Nursing 3 hours.
Theoretic and descriptive overview of the health concerns and health conditions of women from ethnic/racial minority backgrounds with implications for nursing research and practice. Same as NUSC 575.
Prerequisite(s): Consent of the instructor.

PUBLIC TRANSPORTATION

RTA
The Regional Transportation Authority (RTA) is a special service unit of local government that operates public transportation systems for the six counties of northeastern Illinois—Cook, DuPage, Kane, Lake, McHenry, and Will. The RTA system includes the Chicago Transit Authority (CTA), which provides bus and rapid transit service within the city of Chicago and to 38 suburban municipalities; Metra, the commuter rail division, which provides commuter rail service connecting downtown Chicago with 68 Chicago locations and 100 suburban communities; and Pace, the suburban bus division, which provides fixed-route bus, paratransit, and vanpool services to approximately 200 communities throughout the suburbs and from suburban locations to the city of Chicago.

The RTA Travel Information Center is open from 5:00 a.m. to 1:00 a.m. daily. For transit information or to order maps or timetables, call 836-7000 from any northeastern Illinois area code (312, 630, 708, 773, 815, or 847), or visit their Web site http://www.rtachicago.com.

CTA
The UIC campus is served by the CTA’s Blue Line (O’Hare/Forest Park and 54/Cermak branches) rapid transit trains and several bus routes. West-side train service includes stops at the handicapped-accessible 54/Cermak train Polk Street station and the O’Hare/Forest Park train Medical Center station. West-side train service includes both O’Hare/Forest Park and 54/Cermak stops at Racine and UIC/Halsted stations. Connections to all other CTA rail lines can be made in the Chicago Loop. For information on CTA service, call 1-888-YOUR-CTA (1-888-968-7282), or visit their Web site http://www.transitchicago.com.

Metra
Metra’s system of 12 lines serves 230 stations in the six-county area and connects with Pace and CTA buses and trains. For information on Metra service, call the RTA Travel Information Center at 836-7000 from any northeastern Illinois area code (312, 630, 708, 773, 815, or 847), or visit their Web site http://www.metraail.com.

UIC provides commuter bus service between the Ogilvie Transportation Center, Chicago Union Station, and the UIC campus. Commuter bus tickets are sold in books of 25 by the cashiers in Student Center East and the Marshfield Building, and at the Campus Information Center in the Student Center West.

From the Ogilvie Transportation Center and Union Station, commuters may also use CTA bus No. 60 (Blue Island-26th Street) to reach the UIC campus. From the LaSalle Street Station and the Randolph Street Station, Metra commuters may take a west-bound Blue Line (Congress/Douglas A or B) train to one of the campus stops.

Pace
For information on Pace service, call the RTA Travel Information Center at 836-7000 from any northeastern Illinois area code (312, 630, 708, 773, 815, or 847), or visit their Web site http://www.pacebus.com.

BY CAR

From the North
Take the Kennedy Expressway (I-90/94) east-bound to the Eisenhower Expressway (I-290) west-bound.

East side: Keep to the right, exit immediately at Morgan Street, south to the campus.

West side: Exit at Ashland Avenue, south to Taylor Street, west to the campus.

From the South
Take the Dan Ryan Expressway (I-90/94) west-bound to Roosevelt Road.

East side: West on Roosevelt Road to Halsted Street.

West side: West on Roosevelt Road to Ashland Avenue, north to Taylor Street, west to the campus.

From the East
Take Harrison Street or Roosevelt Road west.

East side: West on Harrison Street or Roosevelt Road to Halsted Street.

West side: West on Harrison Street to Ashland Avenue, south to Taylor Street, west to the campus.

From the West
Take the Eisenhower Expressway (I-290) east-bound.

East side: Exit at Racine Avenue, south to the campus.

West side: Exit at Ashland Avenue, south to Taylor Street, west to the campus.

VISITOR PARKING

Visitors to the university may park in one of the following cash lots.

East Side
Lot 4: Garage on Halsted with entrances on Polk and Taylor streets.
Lot 5C: Parking lot on Morgan Street near Roosevelt Road.
Harrison Street Parking Structure: Garage between Morgan Street and Racine Avenue with the visitor’s entrance on Harrison.
Lot 9: Parking lot on the northeast corner of Morgan and Harrison streets with the entrance on Morgan Street.

West Side
Lot C4: Parking lot on Wolcott Avenue between Roosevelt Road and Taylor Street (enter on Taylor Street).
Paulina Street Parking Structure: Garage between Paulina Street and Marshfield Avenue at Taylor Street.
Wood Street Parking Structure: Garage on Wood Street between Grenshaw and Taylor Streets.
