Department Head: Dr. Anthony Faiola
Director of Graduate Studies: Eric Swirsky, JD
Program Director: John Daugherty

Program Codes:
20FS1075MS

The Department of Biomedical and Health Information Sciences (BHIS) offers a graduate program leading to the Master of Science (MS) in Biomedical Visualization. Biomedical Visualization is a multidisciplinary field that draws upon and integrates subject matter from a variety of disciplines (e.g. anatomy, biochemistry, genetics, molecular and cell biology, neuroscience, physiology, and surgery, as well as art, graphic design, animation, and computer science). The master’s degree program in Biomedical Visualization is a terminal degree, and is most appropriate for students who wish to apply their knowledge through practice in academic, healthcare, or industry settings. Graduates from the program are grounded in visual communication problem solving while embracing innovation in digital media technology to translate research and discovery, as well as visually educate health care providers, physicians, and patients.

Admission and Degree Requirements

- MS in Biomedical Visualization

BVIS 500. Biomedical Visualization Techniques. 2 hours.
Introduction to methods and techniques for biomedical visualization. Topics include illustration, 3D modeling, animation, interactive and mobile media, computer programming, gaming, haptics, augmented and virtual reality. Course Information: Extensive computer use required. Meets 8 weeks of the semester. Class Schedule Information: To be properly registered, students must enroll in one Laboratory and one Lecture.

BVIS 501. Professional Practices in Biomedical Visualization. 1 hour.
Designed to introduce the BVIS graduate program, professional practices including history of the profession, professional communications, application of metadata to digital files, and an introduction to copyright. Course Information: Meets eight weeks of the semester.

BVIS 502. Clinical Sciences for Biomedical Visualization. 3 hours.
Students experience the clinical setting under supervision of UIC residents and attending physicians. Includes an introduction to the surgical specialties, surgical techniques and surgical sketching. Course Information: Previously listed as BVIS 400. Field work required. Prerequisite(s): BVIS 505 and BVIS 510 and BVIS 552; and consent of the instructor.

BVIS 503. Strategic Inquiry in Biomedical Visualization. 3 hours.
Overview of research in BVIS includes IRB; statistics; research ethics; research proposal development including background and justification; literature review; research questions, arguments and methods; and discussion of anticipated results. Course Information: Extensive computer use required. Prerequisite(s): BHIS 499.

BVIS 504. Visual Storytelling in Biomedical Visualization. 2 hours.
Provides students with a foundation in visual storytelling, supporting exploration of the fundamental tools of visualization, including storyboarding for digital media, composition, as well as visual literacies. Course Information: Meets eight weeks of the semester. Class Schedule Information: To be properly registered, students must enroll in one lecture-discussion and one laboratory.

BVIS 505. Visual Learning and Visual Thinking I. 2 hours.
Provides students with the foundation of visual thinking and learning as it applies to life science, healthcare, and medicine. Class Schedule Information: To be properly registered, students must enroll in Lecture and one Laboratory-Discussion.

BVIS 508. Pathophysiology for Biomedical Visualization. 3 hours.
Building on basic anatomy and physiology, this course focuses on pathophysiology and visualization methods of common human diseases and disorders including etiology and symptoms. Course Information: Prerequisite(s): ANAT 411; or consent of instructor. Class Schedule Information: To be properly registered, students must enroll in one Discussion/Recitation and one Lecture.

BVIS 510. Anatomical Visualization. 3 hours.
Graphic manipulation and representation of human morphology and gross anatomy. Graphic construction skills, visual standards and conventions, data collection methods, and personal sketch style development. Course Information: Previously listed as BVIS 405. Class Schedule Information: To be properly registered, students must enroll in one Laboratory and one Lecture.

BVIS 511. Web Development. 2 hours.
Design and development of web-based Internet applications for healthcare, marketing communications, and social media including interface design, usability, information architecture and services such as Search Engine Optimization (SEO). Course Information: Previously listed as BVIS 415. Extensive computer use required. Class Schedule Information: To be properly registered, students must enroll in one Laboratory and one Lecture.

BVIS 519. Modeling I. 3 hours.
An introduction to the aesthetic and technical aspects of digital modeling, texturing, lighting, rendering and compositing techniques used in biomedical images and visualization. Course Information: Previously listed as BVIS 540. Extensive computer use required. Prerequisite(s): BVIS 552. Class Schedule Information: To be properly registered, students must enroll in one Laboratory and one Lecture.

BVIS 520. Modeling II. 3 hours.
Advanced instruction in the aesthetic and technical aspects of digital modeling, including model optimization, advanced modifiers, and application of advanced concepts in several modeling programs. Course Information: Extensive computer use required. Prerequisite(s): BVIS 519. Class Schedule Information: To be properly registered, students must enroll in one Laboratory and one Lecture-Discussion.
BVIS 521. Modeling III. 2 hours.
Advanced instruction in the aesthetic/technical aspects of digital modeling, including advanced sculpting/painting techniques, material manipulation, lighting, model optimization, and application of advanced concepts in several 3D modeling programs. Course Information: Extensive computer use required. Prerequisite(s): BVIS 520. Class Schedule Information: To be properly registered, students must enroll in one Lecture-Discussion and one Laboratory.

BVIS 522. Illustration Techniques. 3 hours.
Introduction to line, continuous tone and color rendering techniques. Digital image creation and manipulation, color theory and design, print and electronic publication issues. Course Information: Previously listed as BVIS 420. Prerequisite(s): BVIS 510 Anatomical Visualization. Class Schedule Information: To be properly registered, students must enroll in one Laboratory and one Lecture.

BVIS 523. Haptics. 4 hours.
Hands-on course on fundamental concepts of haptics technology applied to medical visualization, simulation, and training. Course Information: Same as BIOE 523. Extensive computer use required. Recommended Background: Basic computer programming experience. Class Schedule Information: To be properly registered, students must enroll in one Lecture-Discussion and one Laboratory.

BVIS 530. Surgical Illustration. 4 hours.
Students attend surgery, research surgical procedures and prepare illustrations for educational and commercial use. Students integrate knowledge of instructional design, anatomy, graphic design, and illustration techniques. Course Information: Prerequisite(s): ANAT 441 and BVIS 522 and BVIS 528 and BVIS 535 and BVIS 552. Class Schedule Information: To be properly registered, students must enroll in one Laboratory and one Lecture.

BVIS 535. Visual Learning and Visual Thinking II. 2 hours.
Provides students advanced skills in visual learning and thinking, including information hierarchy, information graphics, selection of evaluation methods for testing of visual message(s) and advanced paper prototyping. Course Information: Previously listed as BVIS 440. Prerequisite(s): BVIS 505. Class Schedule Information: To be properly registered, students must enroll in one Laboratory and one Lecture.

BVIS 536. Serious Game Development. 3 hours.
Design and develop games and educational tools using techniques and principles essential to interactive program development. This includes game-based learning and gamification, user interface wireframing, an introduction to programming languages. Course Information: Extensive computer use required. Prerequisite(s): BVIS 505 and BVIS 518. Recommended Background: BVIS 535. Class Schedule Information: To be properly registered, students must enroll in one Lecture-Discussion and one Laboratory.

BVIS 537. Advanced Serious Game Development. 2 hours.
Design and develop games and educational tools using advanced techniques and principles in the Unity game engine. This includes an advanced exploration of C# programming principles. Course Information: Extensive computer use required. Meets eight weeks of the semester. Prerequisite(s): BVIS 536. Recommended Background: BVIS 535. Restricted to students in the following majors: Biomedical Visualization: MS. Class Schedule Information: To be properly registered, students must enroll in one Lecture-Discussion and one Laboratory.

BVIS 538. Medical Legal Visualization. 2 hours.
Advanced visualization and application of radiographic imaging data for effective communication of both complex and sequential concepts used in the medical legal and courtroom environment. Course Information: Prerequisite(s): BVIS 505 and BVIS 510 and BVIS 522. Class Schedule Information: To be properly registered, students must enroll in one Lecture-Discussion and one Laboratory.

BVIS 539. Immersive Interactive Visualization. 3 hours.
Advanced concepts in interactivity production with a focus on Virtual Reality and Augmented Reality. Provides experience with various project builds for standalone and mobile VR applications. Course Information: Extensive computer use required. Prerequisite(s): BVIS 505 and BVIS 518; and BVIS 536. Recommended Background: BVIS 537. Class Schedule Information: To be properly registered, students must enroll in one Laboratory and one Lecture-Discussion.

BVIS 541. Animation I. 2 hours.
Introduces principles of the animation production pipeline (e.g. choosing a specific target audience, script, storyboard, audio, motion, lighting, rendering, compositing). Course Information: Previously listed as BVIS 545. Extensive computer use required. Prerequisite(s): BVIS 518 and BVIS 535. Recommended background: BVIS 500. Class Schedule Information: To be properly registered, students must enroll in one Laboratory and one Lecture.

BVIS 542. Animation II. 3 hours.
This intermediate course explores lighting, basic special effects, in-camera visual effects, basic particle systems, motion modifiers, production management and use of a render farm. Course Information: Extensive computer use required. Prerequisite(s): BVIS 518 and BVIS 540 and BVIS 541. Recommended background: BVIS 520. Class Schedule Information: To be properly registered, students must enroll in one Laboratory and one Lecture.

BVIS 543. Animation III. 4 hours.
Focuses on molecular visualization, rigging, camera mapping, advanced camera moves, advanced lighting and advance materials Introduction to node-based particle systems (PFlow) and dynamic simulations (MassFX). Course Information: Extensive computer use required. Prerequisite(s): BVIS 542. Recommended background: BVIS 519 and BVIS 520. Class Schedule Information: To be properly registered, students must enroll in one Lecture and one Laboratory.

BVIS 544. Animation IV. 4 hours.
Instruction in advanced lighting, advanced special effects, Maxscript, rigging, particle systems, morph targets, compositing, development of a demo reel, and optimization/exporting assets for game engines. Course Information: Previously listed as BVIS 525. Taught in English. Extensive computer use required. Prerequisite(s): BVIS 543. Recommended background: BVIS 519 and BVIS 520. Class Schedule Information: To be properly registered, students must enroll in one Lecture and one Laboratory.

BVIS 546. Virtual Reality and Stereography in Biomedical Visualization. 2 hours.
Introduction to 3D perception; digital 3D model creation; 3D presentation methods; computer configuration for 3D display; virtual reality in medicine. Class Schedule Information: To be properly registered, students must enroll in one Laboratory and one Lecture.

BVIS 547. 360 Animation. 2 hours.
Animating in 360 degrees for immersive storytelling in virtual reality for biomedical topics. Course Information: Extensive computer use required. Prerequisite(s): BVIS 542. Class Schedule Information: To be properly registered, students must enroll in one Laboratory and one Lecture.
BVIS 548. Advanced Illustration Techniques. 3 hours.
An investigation of advanced biomedical illustration techniques through
the process of topic research, goal analysis, concept and sketch
development, and technique and style exploration. Course Information:
Extensive computer use required. Prerequisite(s): BVIS 510 and
BVIS 515 and BVIS 522. Class Schedule Information: To be properly
registered, students must enroll in one Discussion and one Laboratory.

BVIS 551. 3D Printing with Data Segmentation for Medicine. 2 hours.
An introduction to 3D printing and digital segmentation/modeling
of medical imaging data as applied to biomedical visualization and
medicine. Course Information: Extensive computer use required. Meets
eight weeks of the semester. Consent of the instructor is needed for non-
BVIS majors. Class Schedule Information: To be properly registered,
students must enroll in one Laboratory and one Lecture-Discussion.

BVIS 552. Graphic Design. 2 hours.
Core concepts of graphic design in relation to the health sciences. Topics
include typography, graphic elements, images, and the use of color to
communicate general health concepts. Course Information: Previously
listed as BVIS 450. Extensive computer use required. Meets eight weeks
of the semester. Class Schedule Information: To be properly registered,
students must enroll in one Laboratory and one Lecture.

BVIS 560. Molecular Pharmacology for Biomedical Visualization. 3
hours.
Foundation in molecular pharmacology with advanced research and
visual communication skills to solve scientific communication problems
for all audiences: scientist, investor, business and medical professional.
Course Information: Extensive computer use required. Class Schedule
Information: To be properly registered, students must enroll in one
Laboratory and one Lecture-Discussion.

BVIS 562. Advanced Graphic Design. 3 hours.
Advanced concepts of graphic design communication including
symbolic graphic translation, logo mark design with a focus on concept
development, and branding for the health sciences. Course Information:
Previously listed as BVIS 515. Extensive computer use required.
Prerequisite(s): BVIS 552. Class Schedule Information: To be properly
registered, students must enroll in one Laboratory and one Lecture.

BVIS 575. Business Practices in Biomedical Visualization. 2 hours.
Business practices for biomedical visualization professional including
communication, negotiation, ethics, copyright, licensing, proposals,
contracts, business structure, project management, finance, branding,
marketing, portfolio, and presentations. Course Information: Previously
listed as BVIS 480. Prerequisite(s): BVIS 501.

BVIS 580. Practicum in Biomedical Visualization. 1-12 hours.
Field experience under supervision of a professional expert in a
biomedical communication setting that is consistent with student's area
of concentration and career goals. Course Information: May be repeated.
Prerequisite(s): Consent of the instructor.

BVIS 594. Special Topics in Biomedical Visualization. 1-4 hours.
An in depth study of a biomedical visualization topic of importance
selected by the faculty. Course Information: May be repeated. Students
may register in more than one section per term. Prerequisite(s): Consent
of the instructor.

BVIS 595. Seminar in Biomedical Visualization. 1 hour.
Topics of current interest in biomedical visualization. Includes discussion
of relevant journal articles and important new developments in the field.
Course Information: Satisfactory/Unsatisfactory grading only. May be
repeated.
