- **Comprehensive Examination** None.
- **Thesis, Project, or Course Work Only Options** Course work only.
- The required capstone course (IDS 560) ties together the technical material in the core courses and electives with discussion and cases

to address issues related to analytics strategy for organizations and effective analytics practice. This course further integrates this material with project work that involves either detailed study of analytics strategy and practice in organizations, or development of analytics related solutions for specific problems. Such projects, organized as part of the capstone course, can be driven by specific client needs, or framed around problems as currently encountered in practice.
