20FS5715MS (on-campus)

The MS in Human Resource Management will provide advanced knowledge in human resource management (HRM), along with skills needed for specialist and generalist positions. Enrolled students will develop both strategic and tactical knowledge and competencies that are pertinent to today's approaches to managing human capital. The program aims to prepare human resource professionals to hold positions in a broad range of areas, such as recruiter, benefits manager, trainer, job analyst, compensation analyst, and diversity manager.

Admission and Degree Requirements
