  - The required capstone course IDS 555 ties together the technical material in the core courses and electives with discussion and cases to address issues related to supply chain and operations strategy for organizations and effective management practice. This course further integrates this material with project work that involves either detailed study of supply chain and operations strategy and practice in organizations, or development of supply chain related solutions for specific problems. Such projects, organized as part of the capstone course, can be driven by
specific client needs, or framed around problems as currently encountered in practice.
