- Successful completion of all course work and the comprehensive exam below qualifies students for the Certificate of Advanced Study.
- **Examinations**
  - **Comprehensive Written Examination:** Required for EdD and CAS. Successful completion of the comprehensive exam is required for completion of the CAS and entry into the Research Project stage of the EdD program. No student with a cumulative GPA below 3.00/4.00 or with more than two courses remaining to complete will be permitted to take the comprehensive examination. The exam will include a review of a portfolio of annual performance assessments designated by program faculty. Students who fail to pass all components after the second attempt are likely to be recommended by the program faculty to the Graduate College for dismissal from the program.
  - **Annual Review:** Required. Students will be reviewed annually, in compliance with college policy on doctoral programs, to assess evidence of academic and professional progress. The
annual review will include appraisal of student progress in coursework and fieldwork, with attention to whether benchmarks are being met toward satisfactory completion of all professional endorsement requirements in the first 18 months of the program, and attention thereafter to meeting coursework and fieldwork benchmarks toward completion of the doctoral degree. Revisions may be required in completion of some products as part of the process of juried review that leads to the Capstone Proposal and Preliminary Examination below. Failure to submit annual work products at a satisfactory performance level, as determined by the Program Coordinator in consultation with program faculty, will constitute evidence of insufficient progress through the program, leading to possible dismissal from the program. Due process will be observed to protect student rights and program integrity.

- **Preliminary Examination**: Required for EdD. The preliminary examination is taken at the completion of all coursework. The exam is an oral defense of a written Capstone Project proposal. The primary purpose of the preliminary examination is review and approval of the Capstone Project proposal for admission of the student to EdD candidacy.

- **Capstone Project**: Required for EdD. Students must earn at least 8 semester hours in EDPS 591. The completed Capstone Project must be defended orally and publicly before a committee of faculty constituted for this purpose.

- **Other Requirements**: All students must complete a training course sponsored by the Office for the Vice Chancellor for Research on the ethics of conducting research with human subjects. Students are required to submit an annual report of their academic and professional progress.

Students earning a graduate degree in this department may complement their courses by enrolling in select concentrations after consulting with their graduate advisor. Interdepartmental concentrations available for this degree include:
