

MS in Biostatistics

Admission Requirements

In addition to the Graduate College minimum requirements, applicants must meet the following program requirements:

- **Baccalaureate Field**
 - A major in the biological, physical, or social sciences is preferred.
 - MS in Biostatistics students applying to the concentration in Health Analytics must have completed four math courses in algebra and calculus. Exceptions may be granted for applicants with relevant work experience or high-level academic achievements. Exceptions may be admitted with an individually documented plan of study to compensate for deficiencies, although applicants are strongly encouraged to satisfy all deficiencies prior to matriculation.
- **Grade Point Average** At least 3.00/4.00.
- **Tests Required** GRE General. For GRE General Tests, the combined verbal and quantitative scores must be at least 300.
- **Minimum English Competency Test Score**
 - **TOEFL** 80, with subscores of Reading 19, Listening 17, Speaking 20, and Writing 21 (iBT Test); 60, with subscores of Reading 19, Listening 17, Writing 21 (revised Paper-Delivered Test), **OR**,
 - **IELTS** 6.5, with subscores of 6.0 for all four subscores, **OR**,
 - **PTE-Academic** 54, with subscores of Reading 51, Listening 47, Speaking 53, and Writing 56.
- **Letters of Recommendation** Three required.
- **Personal Statement** Required; the statement should address the applicant's intended research, career goals, and reason for pursuing the MS degree.
- **Other Requirements** Students must have earned a grade of B or above in both Calculus I and Calculus II.

Degree Requirements

In addition to the Graduate College minimum requirements, students must meet the following program requirements:

- **Minimum Semester Hours Required:** 47
- **Course Work:** At least 32 semester hours must be in courses other than IPHS 598 and at least 9 semester hours must be at the 500 level. No more than 4 hours of IPHS 596 may be applied to the degree.

School-Wide Requirements

Code	Title	Hours
School of Public Health Core Requirements		
EPID 403	Introduction to Epidemiology: Principles and Methods	
IPHS 520	Foundations of Public Health	
Required Non-Credit Training		
	Information Privacy and Security/Health Privacy Training (IPS)	
	Human Subjects Training	
	Title IX Training	
	SPH Academic Integrity Tutorial	

Divisional Core Requirements

MS in Biostatistics

In addition to the Graduate College minimum requirements and the School of Public Health core requirements, students must complete the following divisional requirements to reach 47 semester hours.

Code	Title	Hours
Biostatistics Divisional Core Requirements		
BSTT 506 or BSTT 507	Design of Clinical Trials Sampling and Estimation Methods Applied to Public Health	
BSTT 523	Biostatistics Methods I	
BSTT 524	Biostatistics Laboratory	
BSTT 527	Statistical Learning in Health Analytics	
BSTT 535	Categorical Data Analysis	
BSTT 536	Survival Analysis	
BSTT 537	Longitudinal Data Analysis	
BSTT 550	Biostatistical Investigations	
BSTT 510	Biostatistics Theory I	
BSTT 511	Biostatistics Theory II	
Electives		
A minimum of 8 semester hours of electives. BSTT 400, BSTT 401, and BSTT 505 are not suitable electives.		

MS in Biostatistics, Concentration in Health Analytics

In addition to the Graduate College minimum requirements and the School of Public Health core requirements, students must complete the following divisional requirements to reach 48 semester hours.

Code	Title	Hours
Health Analytics Divisional Core Requirements		
BSTT 426	Health Data Analytics Using Python Programming	
BSTT 494	Introductory Special Topics in Biostatistics	
BSTT 523	Biostatistics Methods I	
BSTT 525	Biostatistics Methods II	
BSTT 527	Statistical Learning in Health Analytics	
BSTT 528	Machine Learning in Health Analytics	
BSTT 529	Health Analytics Investigations	
BSTT 535	Categorical Data Analysis	
STAT 401	Introduction to Probability	
STAT 411	Statistical Theory	
Electives (Recommended Courses)		
BSTT 536	Survival Analysis	
BSTT 537	Longitudinal Data Analysis	
One additional elective		

- Students will complete the MS in Biostatistics, Health Analytics concentration through course work only. The course BSTT 529 measures the main competency of Health Analytics concentration. This course includes a comprehensive investigation of either a large or sparse complex health data set that will require application of

numerous health analytics methods with an emphasis on public health research applications.

- A final comprehensive written report is needed to complete the program. At least two faculty members from the division will evaluate the final report.

Other Requirements

- **Comprehensive Examination:** Required for MS in Biostatistics; None for MS in Biostatistics, Concentration in Health Analytics
- **Thesis, Project, or Course-work-Only Options:** Course work only
 - Biostatistics students complete the program through course work only.
 - Biostatistics students in the Health Analytics concentration complete the program through course work and a final comprehensive project in BSTT 529.
