**Health Information Management (HIM)**

**HIM 410. Introduction to the Health Care System. 3 hours.**
Overview of the U.S. Health Services System, including its organization and management, economic system, health care workforce, and delivery system. Course Information: Previously listed as HIM 310. Extensive computer use required. Meets eight weeks of the semester. Taught partially or fully online. Students must have an active UIC NetID with valid password and access to a computer and the Internet.

**HIM 432. Coding and Classification Systems. 3 hours.**
Introduction to nomenclatures and classification systems with an emphasis on the ICD-10-CM coding system. The use of these systems in the inpatient hospital environment will be emphasized. Other selected coding systems also will be discussed. Course Information: Previously listed as HIM 332. Extensive computer use required. Meets eight weeks of the semester. Taught partially or fully online. Students must have an active UIC NetID with valid password and access to a computer and the Internet. Prerequisite(s): BHIS 405 and BHIS 406 and HIM 317. Class Schedule Information: To be properly registered, students must enroll in one Lecture-Discussion and one Laboratory.

**HIM 433. Coding and Reimbursement Systems. 4 hours.**
Advanced course focusing on coding and reimbursement systems; ICD-Procedure Coding System (ICD-PCS), Current Procedural Terminology (CPT) coding, data quality management, revenue cycle, coding compliance and management reporting. Course Information: Previously listed as HIM 333. Extensive computer use required. Meets eight weeks of the semester. Taught partially or fully online. Students must have an active UIC NetID with valid password and access to a computer and the Internet. Prerequisite(s): BHIS 405 and HIM 432. Class Schedule Information: To be properly registered, students must enroll in one Lecture-Discussion and one Laboratory.

**HIM 450. Health Information Technology and Systems. 3 hours.**
Overview of information technology concepts applied to the practice of health information management. Topics include electronic health record systems, information governance, privacy and security, data collection, storage, retrieval and analysis. Course Information: Extensive computer use required. Meets eight weeks of the semester. Taught online. Students must have an active UIC Net ID with valid password and access to a computer and the internet. Prerequisite(s): HIM 451.

**HIM 451. Health Information Management Theory and Practice. 4 hours.**
An introduction to the data elements and health information systems that comprise the patient's health record in acute and alternative settings, including records management and registries. Course Information: Extensive computer use required. Meets eight weeks of the semester. Taught online. Students must have an active UIC Net ID with valid password and access to a computer and the internet. Prerequisite(s): Acceptance to the Master of Science in Health Information Management program. Class Schedule Information: To be properly registered, students must enroll in one Lecture-Discussion and one Clinical Practice.

**HIM 452. Quality Management and Data Analysis. 4 hours.**
Examination of processes used to measure and improve the quality and effectiveness of health care, including health care research statistics and data display. Course Information: Extensive computer use required. Meets eight weeks of the semester. Taught online. Students must have an active UIC NetID with valid password and access to a computer and the Internet. Prerequisite(s): HIM 534 and HIM 557. Class Schedule Information: To be properly registered, student must enroll in one Lecture-Discussion and one Laboratory.

**HIM 453. Principles of Management and Human Resources. 4 hours.**
Principles of management with emphasis on business functions, procedures, personnel management, workforce development and productivity measurements as applied to health care settings. Course Information: Extensive computer use required. Meets eight weeks of the semester. Taught online. Students must have an active UIC NetID with valid password and access to a computer and the Internet. Prerequisite(s): HIM 450 and HIM 451.

**HIM 454. Legal Aspects, Risk Management, and Security of Health Information. 3 hours.**
Principles of law, confidentiality, and ethics, and their application to health records, including risk management and security in clinical information systems. Course Information: Extensive computer use required. Meets eight weeks of the semester. Taught online. Students must have an active UIC NetID with valid password and access to a computer and the Internet. Prerequisite(s): HIM 450 and HIM 451.

**HIM 455. Health Information Systems Analysis and Design. 4 hours.**
Advanced topics in information technology and systems in healthcare. Fundamentals and tools of systems analysis and design. Use of data structures in clinical information systems including data design and management. Course Information: Extensive computer use required. Meets eight weeks of the semester. Taught online. Students must have an active UIC NetID with valid password and access to a computer and the Internet. Prerequisite(s): HIM 534 and HIM 557.

**HIM 481. Healthcare Financial Management. 2 hours.**
An introduction to the principles of healthcare finance. Sources of revenue and expenses, financial statement analysis, budget, and tools to analyze financial performance will be covered. Course Information: Previously listed as HIM 381. Extensive computer use required. Meets eight weeks of the semester. Taught partially or fully online. Students must have an active UIC NetID with valid password and access to a computer and the Internet. Prerequisite(s): BHIS 480 or equivalent experience.

**HIM 486. Foundations of Health Information Management. 2 hours.**
Provides students new to the health informatics field with knowledge of the U.S. healthcare system and health record content and practice. Course Information: Extensive computer use required. Field work required. Meets eight weeks of the semester. Taught on-line, students must have an active UIC netID with valid password and access to a computer and the Internet. Prerequisite(s): Consent of the instructor and enrollment in the MS in Health Informatics program or Post Master's Certificate in Health Informatics.
HIM 534. Healthcare Vocabularies and Clinical Classification Systems. 4 hours.
Presents principles of classification systems; vocabulary used in healthcare systems; their applications in use of clinical data; representation of clinical data; data retrieval needs; development, implementation, evaluation and maintenance. Course Information: Extensive computer use required. Meets eight weeks of the semester. Taught online. Students must have an active UIC NetID with valid password and access to a computer and the internet. Prerequisite(s): BHIS 405 and HIM 451; or consent of the instructor.

HIM 557. Healthcare Revenue Cycle Management and Compliance. 4 hours.
Principles of healthcare reimbursement and revenue cycle, practices in healthcare revenue cycle management, processes for compliance with laws, regulations and standards related to coding and revenue cycle, introduction to healthcare corporate compliance. Course Information: Extensive computer use required. Meets eight weeks of the semester. Taught online. Students must have an active UIC NetID with valid password and access to a computer and the internet. Prerequisite(s): HIM 454 and HIM 534.

HIM 574. Health Information Research Methods and Evaluation. 3 hours.
Collection, evaluation and interpretation of health information management data covered applying research principles and methodology to data. Use of statistical software typically used in the health information management department in lab section. Course Information: Extensive computer use required. Meets eight weeks of the semester. Taught online. Students must have an active UIC Net ID with valid password and access to a computer and the internet. Prerequisite(s): Credit or concurrent registration in HIM 451 and HIM 452 and HIM 534 and HIM 557. Class Schedule Information: To be properly registered, student must enroll for one Laboratory and one Lecture-Discussion.

HIM 581. Executive Healthcare Financial Management. 3 hours.
Principles of healthcare finance, sources of healthcare revenue, expenses and budgeting for health information professionals. Course Information: Extensive computer use required. Meets eight weeks of the semester. Taught online. Students must have an active UIC NetID with valid password and access to a computer and the internet. Prerequisite(s): HIM 453 and HIM 557.

HIM 593. Health Information Management Capstone. 2 hours.
Students demonstrate a master of health information management concepts and skills, including development of real-world solutions to current challenges by completing and presenting an applied project. Course Information: Extensive computer use required. Meets eight weeks of the semester. Taught online. Students must have an active UIC NetID with valid password and access to a computer and the internet. Prerequisite(s): HIM 450 and HIM 451 and HIM 452 and HIM 453 and HIM 454 and HIM 455; and HIM 534 and HIM 557 and HIM 574 and HIM 581 and HIM 595; and consent of the instructor. Completion of all other MS in Health Information Management curriculum requirements.

HIM 595. Health Information Management Seminar. 1 hour.
A seminar in which students explore current issues in Health Information Management including healthcare policy analysis and development, ethical issues, healthcare delivery systems, and population health, and begin to prepare their capstone project. Course Information: Extensive computer use required. Meets eight weeks of the semester. Taught online. Students must have an active UIC NetID with a valid password and access to a computer and the internet. Prerequisite(s): HIM 450 and HIM 451 and HIM 452 and HIM 453 and HIM 454 and HIM 455; and HIM 534 and HIM 557 and HIM 574 and HIM 581; and consent of the instructor. Completion of all other MS in Health Information Management curriculum requirements.
