KN 400. Entrepreneurship for Applied Health Professionals. 3 hours. Relates the theory, principles and practices applied in entrepreneurial start-up settings in healthcare and human performance professions. Course Information: Prerequisite(s): Junior standing or above.

KN 410. Aging and the Motor System. 3 hours. Introduction to aging with a focus on its impact on the physical structure and function of the neural, muscular and skeletal systems; the mechanics through which the trajectory of aging can be potentially modified. Course Information: Prerequisite(s): KN 252; or KN 231 and KN 233.

KN 430. Movement Neuroscience. 3 hours. Overview of the neurophysiology of human movement. This course will cover the mechanisms and neural circuitry of sensory and sensorimotor processes underlying the control of movement. Course Information: Previously listed as KN 348. Prerequisite(s): KN 345. Class Schedule Information: To be properly registered, students must enroll in one Laboratory.

KN 431. Lower Extremity Overuse Injury. 3 hours. Critical review of the literature related to lower extremity overuse injury; current practices and research gaps in the prevention and treatment of these injuries; movement assessment and corrective exercise to prevent and care of these injuries. Course Information: Prerequisite(s): KN 261 and KN 331. Class Schedule Information: To be properly registered, students must enroll in one Lecture-Discussion and one Laboratory.

KN 432. Foundations of Positive Psychology. 3 hours. Introduces students to positive psychology and the opportunities for human development channeling positive thoughts, emotions and behaviors to achieve life, relationships and legacy goals. Course Information: Prerequisite(s): Acceptance into the concentration in Performance, Sport and Exercise Psychology within the MS in Kinesiology or consent of the instructor.

KN 433. Sociocultural Perspectives in Performance, Sport and Exercise Psychology. 3 hours. Pertinent sociological issues and theories will be examined in the scholarly pursuit of knowledge and understanding of the sociological and cultural influences in the field of performance, sport and exercise psychology. Course Information: Prerequisite(s): Acceptance into the concentration in Performance, Sport and Exercise Psychology within the MS in Kinesiology or consent of the instructor.

KN 434. Business Branding in Performance, Sport and Exercise Psychology. 3 hours. Designed to help students build a coaching and/or consulting business for face-to-face and virtual clients. Course Information: Prerequisite(s): Acceptance into the concentration in Performance, Sport and Exercise Psychology within the MS in Kinesiology or consent of the instructor.

KN 435. Sport Psychology for Individual and Team Performance. 3 hours. Analysis and application of psychological concepts related to process and outcomes of sport and exercise programs. Course Information: Prerequisite(s): KN 237 or KN 335.

KN 436. Advanced Sport and Exercise Psychology. 3 hours. Explores research on the psychological effects of sport and exercise across the lifespan. Emphasis will be placed on understanding research methods and applying knowledge of consequences in practice. Course Information: Prerequisite(s): KN 237. Class Schedule Information: To be properly registered, students must enroll in one Lecture-Discussion and one Laboratory.

KN 441. Muscle Physiology. 3 hours. Examination of skeletal muscle function during physical activity and adaptations of skeletal muscle that occur with exercise training, inactivity and aging. Course Information: Prerequisite(s): KN 352.

KN 442. Principles of ECG Interpretation. 3 hours. Introduction to the basic principles and interpretation of the electrocardiogram (ECG) as it relates to fitness programs involving the apparently healthy as well as cardiac rehabilitation patients. Course Information: Prerequisite(s): Grade of C or better in KN 352; and junior standing or above; or consent of the instructor. Class Schedule Information: To be properly registered, students must enroll in one Lecture/Discussion and one Laboratory.

KN 443. Advanced Sport and Exercise Psychology. 3 hours. Explores research on the psychological effects of sport and exercise across the lifespan. Emphasis will be placed on understanding research methods and applying knowledge of consequences in practice. Course Information: Prerequisite(s): KN 237. Class Schedule Information: To be properly registered, students must enroll in one Lecture-Discussion and one Laboratory.

KN 444. Corrective Exercise for Postural and Movement Imbalances. 3 hours. Focused on how to develop, integrate, and apply comprehensive strategies to identify, assess, and improve common postural and muscular imbalances which contributes to movement impairments. Course Information: Prerequisite(s): KN 243. Class Schedule Information: To be properly registered, students must enroll in one Laboratory and one Lecture-Discussion.

KN 445. Mental Health in Athletics. 3 hours. Designed to advance student understanding and response to current and emerging mental health issues in athletics. Course Information: Prerequisite(s): Junior standing or above.

KN 446. Biomechanics of the Neuromusculoskeletal Systems. 3 hours. Introduces the non-engineering/physics student to the biomechanics of the neural, muscular and skeletal systems. The course focuses on normal structure-function of tissues and joints, injury and prevention. Course Information: Previously listed as KN 365. Prerequisite(s): KN 361 or one year of college physics; or consent of instructor.

KN 447. Movement Neuroscience. 3 hours. Overview of the neurophysiology of human movement. This course will cover the mechanisms and neural circuitry of sensory and sensorimotor processes underlying the control of movement. Course Information: Prerequisite(s): KN 252; or KN 231 and KN 233. Recommended background: KN 352 and KN 372.
KN 475. Movement Disorders. 3 hours.
Examines basic and applied understanding of the neural changes in motor function in disease and disorders of movement. This will include peripheral and central motor deficits. Prerequisite(s): KN 352 and KN 372.

KN 491. Professional Preparation. 3 hours.
Advances student employability and graduate school success in five domains: problem solving, communication, team work, adaptability, and emotional intelligence; helps students develop five key skill competencies. Course Information: Prerequisite(s): Junior standing or above. Class Schedule Information: To be properly registered, students must enroll in one Lecture and one Discussion.

KN 493. Practicum in Undergraduate Teaching. 1-3 hours.
Peer instruction experience for undergraduate students. Course Information: May be repeated to a maximum of 6 hours. Students may register for more than one section per term. Prerequisite(s): Students must have successfully completed the course in which they will be assisting (or an equivalent) and obtain consent of the instructor.

KN 494. Special Topics in Kinesiology. 1-3 hours.
Flexible course structure designed to accommodate relevant topics beyond the scope of the current course offerings, with more in-depth analysis of primary literature. Course Information: May be repeated if topics vary. Students may register in more than one section per term. Prerequisite(s): Depending on topic, specific prerequisites may be required.

KN 495. Senior Seminar. 1 hour.
Challenges students to integrate concepts learned in previous courses to solve problems and come to conclusions on health-related topics. It also prepares students for their immediate post-baccalaureate professional steps. Course Information: Prerequisite(s): Senior standing or above.

KN 496. Special Projects in Kinesiology. 1-3 hours.
Independent research on special projects. Course Information: Prerequisite(s): Approval by graduate faculty member and graduate director.

KN 500. Evidence-Based Practice in Kinesiology and Nutrition. 3 hours.
Training in the research approaches pertaining to specific areas of study in kinesiology and nutrition. Emphasis is placed on accessing, evaluating and applying findings in the primary literature as critical steps in evidence-based practice.

KN 501. Current Research in Kinesiology. 1 hour.
In-depth analysis of current original research. Course Information: May be repeated to a maximum of 10 hours with approval. Approval to repeat course granted by the department. Prerequisite(s): Consent of the instructor.

KN 502. Movement Science. 4 hours.
Synthesis of the body of knowledge in kinesiology using various diseases as a teaching model. Course Information: Prerequisite(s): Consent of instructor.

KN 503. Responsible Conduct of and Ethical Decision Making in Research. 2 hours.
The conventions, standards and rules that govern the responsible conduct of basic, clinical and translational research (RCR); including the roles of regulatory agencies, ethical decision making and fostering professional behavior in research.

KN 505. Qualitative Research in Kinesiology and Nutrition. 3 hours.
Introduces the logic, utility and practices of qualitative research; describes methods for conceptualizing, gathering, managing and interpreting qualitative data concentrating on interviewing, visual and ethnographic methodologies. Course Information: Prerequisite(s): Consent of the instructor.

KN 511. Intervention Design and Evaluation in Kinesiology and Nutrition. 3 hours.
Applying the scientific process to change physical activity and nutrition behavior. Best practices for design and evaluation of theory-, community- and evidence-based physical activity and nutrition interventions are explored. Course Information: Same as HN 511. Prerequisite(s): Graduate standing; or consent of the instructor or BS in Kinesiology or related field. Recommended background: KN 237; and KN 438.

KN 520. Disability and Physical Activity. 3 hours.
Examination of the foundations of physical activity for persons with disabilities. Emphasis on strategies for promoting physical activity among persons with disabilities in community settings. Course Information: Same as DHD 520.

KN 521. Physical Activity Intervention in Diverse Populations. 3 hours.
Background information about diverse populations, information about health promotion and physical activity efforts among diverse populations; and the design of physical activity interventions in such populations.

KN 527. Molecular Biology of Muscle Genes and Proteins. 2 hours.
Regulatory mechanisms which govern gene expression relevant to the function of skeletal and cardiac muscle. Course Information: Prerequisite(s): BIOS 524 and BIOS 525 and consent of instructor.

KN 528. Cellular Response to Exercise. 3 hours.
Examines cellular structure/function relationships important for acute and chronic adaptations to exercise. Emphasis on understanding cellular basis of physiological response to exercise. Course Information: Prerequisite(s): BIOS 422 or consent of the instructor.

KN 529. Exercise Genomics. 3 hours.
Molecular mechanisms by which cells adapt to increases and decreases in physical activity. Emphasis on understanding genomic, transcriptional, translational and post-translational sites of control. Course Information: Prerequisite(s): Consent of the instructor.

KN 531. Applied Performance, Sport and Exercise Psychology. 3 hours.
Applied performance, sport and exercise psychology origins, functions and aligned interventions will be explored. A historical analysis of the field will be discussed. Course Information: Acceptance into the Performance, Sport and Exercise Behavior concentration within the MS in Kinesiology or consent of instructor.

KN 532. Cultural Humility. 3 hours.
Multicultural performance, sport and exercise psychology services in a diverse society are examined. Theories of identity development and cultural humility practitioner training are provided. Course Information: Prerequisite(s): Acceptance into the Concentration in Performance, Sport and Exercise Psychology within the MS in Kinesiology or consent of the instructor.
KN 533. Consulting Theories and Skills. 3 hours.
Serves as a bridge between learning consulting theories and acquiring 
helping relationship skills. The course delivers live experience in the 
exploration and application of individual and group consulting and 
counseling techniques. Course Information: Prerequisite(s): Acceptance 
into the concentration in Performance, Sport and Exercise Psychology 
within the MS in Kinesiology or consent of the instructor.

KN 534. Professional Ethics in Performance, Sport and Exercise 
Psychology. 3 hours.
Ethical standards of the profession. Practicing self-reflexivity in terms 
of one’s own ethical values and decision making and applying ethical 
practice in various ethical and/or legal issues or dilemmas. Ethical 
and moral values in consulting. Course Information: Prerequisite(s): 
Acceptance into the concentration in Performance, Sport and Exercise 
Psychology within the MS in Kinesiology or consent of the instructor.

KN 535. Nutrition and Human Performance. 2 hours.
Nutrition which impacts on human performance; impaired performance 
due to nutritional problems; aspects relevant to the professional athlete. 
Course Information: Same as HN 535. Prerequisite(s): PHY 341 or KN 
352; or consent of the instructor.

KN 538. Race, Culture, and Health Disparities. 2-3 hours.
Focuses on developing students’ critical thinking skills as they relate 
to race, health disparities and engaging in culturally responsive care. 
Course Information: Same as DHD 528 and OT 528. Students registering 
for 3 hours of credit complete an immersion activity and a research paper. 
Prerequisite(s): Consent of the instructor.

KN 540. Foundations and Organization of Cardiopulmonary 
Rehabilitation Programs. 3 hours.
An examination of concepts, design, and implementation of cardiac and 
pulmonary rehabilitation programs that focuses on disease treatment 
and management, patient education, and lifestyle modification. Course 
Information: Prerequisite(s): Admission to the MS in Kinesiology 
concentration in Clinical Exercise Physiology or consent of instructor. 
Recommended background: KN 441 and KN 442.

KN 542. Advanced Electrocardiography. 2 hours.
The study of the rhythm disturbances that occur within the chambers 
and conducting tissue of the heart, and the analysis of electrocardiogram 
rythm strips at rest, during exercise, and recovery. Course Information: 
Admission to the MS in Kinesiology concentration in Clinical Exercise 
Physiology or consent of instructor. KN 441 and KN 442 and Advanced 
Cardiac Life Support certification.

KN 543. Graded Exercise Testing and Interpretation. 3 hours.
Designed to examine the theoretical and practical aspects of exercise 
testing and interpretation in healthy and disease populations. Course 
Information: Prerequisite(s): Admission to the MS in Kinesiology 
concentration in Clinical Exercise Physiology or consent of instructor. 
Recommended background: KN 441 and KN 442 Advanced Cardiac Life 
Support certification.

KN 545. Advanced Exercise Programming and Assessment. 3 hours.
Emphasis on current recommendations for exercise prescription and 
assessment methods for adult populations. Diagnostic and prescriptive 
procedures will be delineated. Course Information: Prerequisite(s): KN 
452 or consent of the instructor. Class Schedule Information: To be 
properly registered, students must enroll in one Laboratory-Discussion and one Lecture.

KN 547. Exercise Pharmacology. 2 hours.
Designed to examine the theoretical and practical aspects of the 
physiologic agents used in treating cardiovascular, pulmonary, and 
metabolic disease. Course Information: Prerequisite(s): Admission to 
the MS in Kinesiology concentration in Clinical Exercise Physiology or 
consent of instructor. Recommended background: KN 441 and KN 442 
Advanced Cardiac Life Support certification.

KN 550. Applied Exercise Physiology. 3 hours.
Designed to provide an in-depth examination of the theoretical aspects of 
exercise physiology in all individuals, including those with disabilities or 
chronic health conditions. Course Information: Prerequisite(s): Admission 
the MS in Kinesiology concentration in Clinical Exercise Physiology or 
consent of instructor.

KN 552. Human Bioenergetics. 3 hours.
Examines current topics in exercise physiology including bioenergetics; 
fatigue; organ system support; exercise metabolism; relationships 
between exercise effects and outcomes; and effects of training 
adaptations for sport or health. Course Information: Prerequisite(s): KN 
352; and one college-level course in biochemistry.

KN 554. Cardiovascular Exercise Physiology. 3 hours.
Examines the theoretical aspects of human cardiovascular physiology, 
and apply these concepts to acute and chronic exercise in healthy 
individuals, as well as chronic disease. Course Information: 
Prerequisite(s): Admission to the MS in Kinesiology concentration in 
Clinical Exercise Physiology or consent of instructor.

KN 561. Biomechanics of Human Locomotion. 3 hours.
Teaches the measurement, analysis, and interpretation of biomechanical 
data related to human walking. Utilization of the scientific process 
to understand normal and pathological gait will be explored and 
practiced. Course Information: Prerequisite(s): Graduate standing and an 
undergraduate background in Kinesiology or related field; or consent of 
instructor. Recommended background: KN 361.

KN 570. Neural Mechanisms Underlying Motor Control. 4 hours.
Neuropsychological mechanisms that underlie the control and regulation 
of movement. Course Information: Prerequisite(s): Consent of the 
instructor.

KN 571. Biomechanics of Normal and Abnormal Movement. 3 hours.
Principles of statics and dynamics exemplified by human movements. 
Examination of muscle mechanics, joint forces, stability. Redundancy and 
intersegmental interactions in multijoint movements. Course Information: 
Same as PT 571. Prerequisite(s): Consent of the instructor.

KN 572. Psychology of Motor Control and Learning. 3 hours.
Advanced principles of the control and acquisition of complex, voluntary 
skills. Course Information: Same as PT 572. Prerequisite(s): KN 372; or 
consent of the instructor.

KN 573. Advanced Topics in Motor Control and Learning. 3 hours.
Contemporary theories and models in motor control and learning.

KN 574. Instrumentation for Motor Control Research. 3 hours.
Introduction to oscilloscopes, amplifiers, filters, and transducers. Origin 
and processing of electromyograms. Motion capture and processing 
techniques. Course Information: Same as PT 574. Prerequisite(s): KN 
571 or PT 571.

KN 581. Exercise Leadership Field Instruction. 3 hours.
Students are assigned to fitness classes where, under the supervision 
of a field instructor, they prepare lessons, give instruction and administer 
written and physical fitness exams. Course Information: Prerequisite(s): 
KN 545. Class Schedule Information: To be properly registered, students 
must enroll in one Lecture-Discussion and one Practice.
KN 585. Practicum in Health, Exercise and Sport Behavior
Applications. 3-6 hours.
Students observe/document professionals in the exercise and sports
related industry perform their job responsibilities. Students will also
participate to a limited extent in performing tasks under supervision
by program professor and on-site staff. Course Information: May be
repeated to a maximum of 12 hours. Field work required. Prerequisite(s):
KN 500 and KN 505.

KN 590. Seminar in Kinesiology. 1 hour.
Final experience for 40-hour MS student. Student must demonstrate
ability to synthesize material obtained in program and relate it to their
area of concentration. Course Information: Prerequisite(s): 32 semester
hours of graduate credit and consent of major advisor.

KN 591. Psychosocial Aspects of Cardiac Rehabilitation. 3 hours.
Examines the psychosocial experience of individuals recovering from
myocardial infarction and associated cardiac experiences related to
cardiac rehabilitation programs. Course Information: Prerequisite(s):
Consent of the instructor.

KN 592. Clinical Rotations in Exercise Physiology. 1-4 hours.
The clinical rotation serves as an avenue to introduce students to various
experiences in clinical exercise physiology and as a precursor to a clinical
internship. Field work is required. Course Information: Satisfactory/
Unsatisfactory grading only. May be repeated to a maximum of 4 hours.
Prerequisite(s): Approval of the department.

KN 593. Internship in Kinesiology. 1-12 hours.
Supervised internship in a laboratory or field setting. A written report
is required. Normally open only to candidates in the Applied Exercise
Physiology MS area of concentration. Course Information: Satisfactory/
Unsatisfactory grading only. May be repeated to a maximum of 12 hours.
Credit is not given for KN 593 if the student has credit in KN 597 or
KN 598. Field work required. Prerequisite(s): Students must pass the
comprehensive examination before placement at an internship site.

KN 594. Selected Topics in Kinesiology. 1-3 hours.
Topic to be announced. Analysis of selected problems and concerns
in specified concentrations. Topics vary from semester to semester,
depending on the needs and interests of the graduate students. Course
Information: May be repeated if topics vary. Prerequisite(s): Consent of
the instructor.

KN 596. Independent Research in Kinesiology. 1-4 hours.
Topics vary. Students design, implement, and analyze a research
problem in their individual area of concentration under the supervision of
a faculty member. Course Information: Prerequisite(s): KN 500.

KN 597. Project in Kinesiology. 0-8 hours.
Supervised practicum in laboratory or field setting in which recent
research findings are applied, tested, and evaluated. Course
Information: Satisfactory/Unsatisfactory grading only. May be repeated.
Prerequisite(s): KN 500 and consent of the advisor and director of
graduate studies.

KN 598. Master’s Thesis Research. 0-16 hours.
Thesis work under the supervision of a graduate advisor. Course
Information: Satisfactory/Unsatisfactory grading only. May be repeated.
Prerequisite(s): KN 500 and consent of the advisor and director of
graduate studies.

Independent research by the student under the supervision of the thesis
advisor. Course Information: Satisfactory/Unsatisfactory grading only.
May be repeated.
