Medicinal Chemistry (MDCH)

Courses

**MDCH 507. Drug Discovery, Design and Development. 3 hours.**
Overview of drug development process from target identification and screening through clinical trials and FDA evaluation. Course Information: Same as BPS 507 and PMPG 507.

**MDCH 595. Seminar in Medicinal Chemistry. 1 hour.**
Presentation on a current research topic. Course Information: Satisfactory/Unsatisfactory grading only.

**MDCH 598. Master's Research in Medicinal Chemistry. 0-16 hours.**
Thesis research to fulfill master's degree requirements. Course Information: Satisfactory/Unsatisfactory grading only.

**MDCH 599. Doctoral Research in Medicinal Chemistry. 0-16 hours.**
Research for doctoral students. Course Information: Satisfactory/Unsatisfactory grading only.
