To be eligible for student teaching, candidates must meet the following admission to student teaching criteria:

- Completed General Education course work; earned a minimum cumulative GPA as specified by the program, including transfer credits; and completed professional education requirements.
- Completed the minimum number of clock hours of fieldwork specified by the program and as part of the professional education course work.
- Passed the Illinois Content Area Test in the teaching field if student teaching will occur.
- Submitted a student teaching application before the deadline during the spring term of the academic year preceding the student teaching experience.
- Submitted verification of a negative TB test. This test must be taken early enough to submit the results with the application (it may take up to four weeks to get the results).
- Completed the Chicago Public Schools registration process, which includes a criminal background check.
- Met any additional requirements as specified within each program.

Entitlement to Illinois State Licensure

To become licensed, candidates must have done the following:

- Met all requirements for graduation in their home college.
- Completed all early field experiences.
- Completed and passed all assessments including all licensure exams and the Illinois Content Test.
- Successfully completed student teaching.
- Completed and filed a licensure application and any related endorsement requests with the Council on Teacher Education.
- Passed the edTPA.
- Completed and submitted an exit survey.

Illinois Licensure Test Requirements

Before the license is issued, the candidate must also pass a series of examinations required by the Illinois State Board of Education. All tests are valid indefinitely. The Illinois Content Area Test must be passed before the candidate is allowed to student teach. A teaching license is not issued until a student passes the final performance assessment, the EdTPA.

For information on application procedures, contact the Council on Teacher Education located at 412 S. Peoria, Suite 634.

Effective March 2003, Illinois “Approved Program Verification” forms and applications for Illinois teaching licenses will no longer be signed based solely on completion of a teacher education program if that program was completed more than three years prior to the verification request. The faculty in relevant colleges and departments will evaluate the records of program completers based on UIC’s current program requirements and make recommendations regarding licensure.

The Illinois State Board of Education occasionally changes the requirements for licensure. For current information, contact the academic advisor in the major field of study or the Council on Teacher Education.

- Teacher candidates are responsible for bearing the expense of the TB test and the criminal background check.

Secondary Education Program

The University of Illinois Chicago offers several secondary teacher education programs located in the College of Liberal Arts and Sciences (LAS). Through LAS, the student can study the Teaching of English,
Teaching of French, Teaching of German, Teaching of History, Teaching of Mathematics, and Teaching of Spanish. The programs provide for the development of a major field of study with an emphasis on teaching. Please consult the home college for more information about these degree requirements.

Licensure in Art Education is available through the College of Architecture, Design, and the Arts. Upon completion of all UIC program requirements and all Illinois State Board of Education licensure requirements, Bachelor of Fine Arts in Art Education students are eligible to be recommended for a teaching license endorsed in visual arts. Graduates of the program who meet licensure requirements will be qualified to teach in grades PK-12.

At the undergraduate level, the College of Education offers the BA in Urban Education leading to the State of Illinois Professional Educator Licensure in grades 1-6 with the option of adding grades 5-8 only.

Licensure in the teaching of biology, chemistry, physics, environmental science, or earth and space sciences is available through the College of Education in the MEd in Instructional Leadership: Science Education.

Contact the appropriate department for more information on content specific programs.
