The table below lists the minimum course work required to apply for admission to the University of Illinois College of Medicine:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOS 110</td>
<td>Biology of Cells and Organisms</td>
<td>4</td>
</tr>
<tr>
<td>BIOS 120</td>
<td>Biology of Populations and Communities</td>
<td>4</td>
</tr>
</tbody>
</table>

Select one of the following general chemistry sequences:

- CHEM 122: General Chemistry I Lecture
- CHEM 123: General Chemistry Laboratory I
- CHEM 124: General Chemistry II Lecture
- CHEM 125: General Chemistry Laboratory II

OR

- CHEM 116: Honors and Majors General and Analytical Chemistry I
- CHEM 118: Honors and Majors General and Analytical Chemistry II
- CHEM 232: Organic Chemistry I
- CHEM 233: Organic Chemistry Laboratory I

Select one of the following courses:

- BIOS 352: Introductory Biochemistry

Select one of the following sequences:

- PHYS 131: Introductory Physics for Life Sciences
- PHYS 132: Introductory Physics for Life Sciences II

Select three Behavioral/Social Science courses in the following disciplines: anthropology, economics, gender studies, psychology, or sociology. PSCH 100 and SOC 100 or SOC 105 are recommended. 

Select at least one additional 200-, 300-, or 400-level biology course. Recommended topics include: cell biology, comparative vertebrate anatomy, genetics, or physiology courses.

Pre-Medicine students may choose any major, but should work with a pre-health advisor to plan a course of study that fulfills prerequisite requirements as well as the requirements for the major and college. Students who want to apply for admission to the University of Illinois College of Medicine must complete a bachelor’s degree by the time of matriculation.

Recommended Courses

- MATH 110: College Algebra
- MATH 121: Precalculus Mathematics
- STAT 101: Introduction to Statistics
- STAT 130: Introduction to Statistics for the Life Sciences
- PSCH 100: Introduction to Psychology
- SOC 100: Introduction to Sociology
- SOC 105: Social Problems

Approximate Total Recommended Hours: 58-69
admission requirements of other medical schools are listed in Medical School Admission Requirements, which is published by the Association of American Medical Colleges and can be ordered through their website.

Most medical schools, including the University of Illinois, will only accept students with bachelor's degrees. However, students admitted to a college of medicine prior to completion of the bachelor's degree may be eligible to receive the baccalaureate upon satisfactory completion of the first year in a U.S. accredited medical school. The College of Liberal Arts and Sciences accepts a total of 32 semester hours of credit from an accredited college of medicine to enable a student to complete the requirements for a bachelor's degree, provided that the following criteria are met:

1. The student is in good standing in the college of medicine;
2. The work taken in the college of medicine does not duplicate previous work;
3. The courses are in fields such as biochemistry, physiology, histology, or anatomy as approved by the College of Liberal Arts and Sciences;
4. The student satisfies the enrollment residence requirement by completing at UIC at least the last 60 semester hours prior to entry into a college of medicine;
5. The student meets all other requirements for graduation from the College of Liberal Arts and Sciences, including a major field and a 2.00/4.00 cumulative GPA in all course work taken at UIC and other institutions.
