PCOL 331. Pharmacology for Dentistry. 4 hours.
Principles of pharmacology with emphasis on drugs for preoperative
medication and pain management. Pharmacodynamics, nomenclature,
and therapeutics. Course Information: Prerequisite(s): Human physiology
and introductory biochemistry.

PCOL 399. Undergraduate Laboratory Research. 1-4 hours.
Laboratory research for advanced undergraduates. Course Information:
Animals used in instruction. Satisfactory/Unsatisfactory grading only. May
be repeated. Application of credit toward the degree is contingent upon
the approval of the student's college and/or department. Prerequisite(s):
Junior standing or above and consent of the instructor.

PCOL 430. Principles of Toxicology. 2 hours.
Examines the toxic effects of drugs and chemicals on organ systems.
Lectures emphasize basic principles, effects on specific organ systems,
major classes of toxic chemicals, and specialized topics such as forensic
and industrial toxicology. Course Information: Same as BPS 430. Credit
is not given for PCOL 430 if the student has credit for EOHS 457.
